The Lyman Briggs College is a residential college that bridges the science and humanities through interdisciplinary teaching and research. It provides students with a fundamental core science education in mathematics, chemistry, biology, and physics. Additionally, the core program addresses historical, philosophical, and societal concerns and consequences of modern science, technology, the environment, and medicine. Advanced undergraduate courses in the student's major are taken in the respective departmental units of the College of Natural Science, College of Engineering, College of Agriculture and Natural Resources, and the University at large. The majority of Lyman Briggs students pursue programs leading to advanced graduate study in the natural sciences, or professional programs related to medicine, dentistry, veterinary medicine, allied health, education or law. Many other students plan to enter careers in teaching at the secondary level, science writing, product representation, industry, or government service upon completion of their Bachelor of Science degree.

As a residential college, Lyman Briggs College has classrooms, laboratories, faculty offices, academic advisor offices, and administrative offices located in Holmes Hall, where all first year and many upper-level Lyman Briggs students live and learn. Because of this residential organization, students are able to develop a strong living-learning community identity by integrating academic and personal development, with faculty, staff and their peers in residence. Students are encouraged to balance their academic lives with social, cultural, athletic, service-learning, and leadership opportunities on campus and in the greater East Lansing community.

Students admitted to Michigan State University are admissible to Lyman Briggs College based initially on application date. There are no additional academic or program requirements for freshman admissions. Enrollment in the college is limited; therefore students are encouraged to apply early. Applicants should indicate their intention to become a part of the Lyman Briggs College on the Michigan State University Application for Admissions. If a student has already submitted an application and would like to apply to Lyman Briggs College, she/he should contact the Office of Admissions directly as early as possible.

Students work closely with their academic advisors and faculty in developing an individualized academic plan. All students enter the program as 'no major' status and may declare a major as early as summer orientation or by the time they have earned 56 credit hours.

Lyman Briggs College offers two minors: Bioethics; and History, Philosophy and Sociology of Science.

Students who are enrolled in the environmental biology/microbiology and microbiology coordinate majors in Lyman Briggs College may elect the Specialization in Food Processing and Technology. For additional information, refer to the Specialization in Food Processing and Technology statement in the Department of Food Science and Human Nutrition statement in the College of Agriculture and Natural Resources section of this catalog.

Admission as a Freshman to Lyman Briggs College
Any student who meets the general requirements for admission to the university as shown in the Undergraduate Education section of this catalog may enroll in Lyman Briggs College, pending available space.

Transfer Students
All students in good academic standing in Lyman Briggs College may transfer at any time to other programs at Michigan State University for which they are eligible, in order to accommodate changing academic needs and interests.

Students who wish to transfer into Lyman Briggs College should contact the Academic and Student Affairs Office to make an appointment to consult with the Admissions Coordinator. Space in Lyman Briggs College is limited.
UNDERGRADUATE PROGRAM

The Lyman Briggs College program leads to the Bachelor of Science degree.

Requirements for the Bachelor of Science Degree in Lyman Briggs College

1. The University requirements for bachelor’s degrees as described in the Undergraduate Education section of this University catalog. 120 credits, including general elective credits, are required for the Bachelor of Science degree in Lyman Briggs College.

   Students who are enrolled in Lyman Briggs College may complete the alternative track to Integrative Studies in Biological and Physical Sciences that is described in item 1. under the heading Graduation Requirements in the College statement. Certain courses referenced in requirement 3. below are equivalent to courses in the alternative track and, therefore, may be used to satisfy the alternative track.

   The completion of the Lyman Briggs College mathematics and statistics requirement [referenced in item 3.c.(4) below] may also satisfy the University mathematics requirement.

   The completion of Lyman Briggs 133 or one of the approved alternatives [referenced in requirement 3.a.(5)(a) below] may also be counted toward the University Tier I writing requirement.

2. The requirements of Lyman Briggs College for the Bachelor of Science degree, referenced in item 3. a. below.

3. The following requirements of Lyman Briggs College for the Bachelor of Science degree:

   a. **CORE PROGRAM** ........................................... 46 to 55

      (1) *Biology*: One of the following groups of courses (8 to 10 credits):

         (a) Lyman Briggs 144, 145.
         (b) Biological Science 181H, 191H, 182H, 192H.
         (c) Biological Science 161, 161H, 162, 172.

      (2) *Chemistry*: One of the following groups of courses (8 to 10 credits):

         (a) Lyman Briggs 171, 171L, 172, 172L.
         (b) Lyman Briggs 171, 171L, Chemistry 143
         (c) Lyman Briggs 171, 171L; Chemistry 251.
         (d) Chemistry 141, 142, 161.
         (e) Chemistry 141, 143, 161.
         (f) Chemistry 141, 161, 251.
         (g) Chemistry 151, 152, 161.
         (h) Chemistry 181H, 182H, 185H.

      (3) *Mathematics and Statistics*: One of the following groups of courses (8 to 8 credits):

         (a) Lyman Briggs 118, 119.
         (b) Lyman Briggs 118; Statistics and Probability 231.
         (c) Mathematics 132, 133.
         (d) Mathematics 132; Statistics and Probability 231.
         (e) Mathematics 152, 1394.

      (4) *Physics*: One of the following groups of courses (8 to 8 credits):

         (a) Lyman Briggs 273, 274.
         (b) Physics 231, 232, 251, 252.
         (c) Physics 183, 184.
         (d) Physics 183B, 184B.
         (e) Physics 193H, 294H.

      (5) *History, Philosophy and Sociology of Science*: A total of 11 or 12 credits from the courses in groups (a), (b), and (c) below.

         (a) One of the following courses: Lyman Briggs 133; Writing, Rhetoric and American Cultures 101.
         (b) One of the following courses: Lyman Briggs 321A, 322A, 323A, 324A, 325A, 326A, 327A.
         (c) One of the following courses: Lyman Briggs 321B, 322B, 323B, 324B, 325B, 326B, 327B.

      (6) **Senior Seminar**: Lyman Briggs 492 (4 credits).

   b. **MAJOR or COORDINATE MAJOR**.

      Each student must complete the requirements of a Major or a Coordinate Major. The Major or Coordinate Major must be chosen from the lists of options below. Both the Major or Coordinate Major and the related courses must be approved by the student’s academic advisor. With the approval of the appropriate Lyman Briggs College Curriculum Coordinator or Undergraduate Director, courses other than those that are listed as requirements for a Major or Coordinate Major may be used to satisfy degree requirements.

      **Majors**:

      Biology
      Computer Science

Earth Science
Environmental Science and Management
Physical Science
History, Philosophy and Sociology of Science

**Coordinate Majors**:

(1) College of Agriculture and Natural Resources:
   Animal Science
   Entomology
   Fisheries and Wildlife
   Food Science

(2) College of Engineering:
   Computer Science
   Students are admitted to this Coordinate Major after they have reached junior standing and have met certain other requirements specified by Lyman Briggs College.

(3) College of Natural Science:
   Actuarial Science
   Astrophysics
   Biochemistry and Molecular Biology
   Biochemistry/Biotechnology
   Biological Science—Interdepartmental
   Biomedical Laboratory Science
   Chemical Physics
   Chemistry
   Computational Chemistry
   Computational Mathematics
   Earth Science—Interdepartmental
   Environmental Biology/Microbiology
   Environmental Biology/Plant Biology
   Environmental Biology/Zoology
   Environmental Geosciences
   Genomics and Molecular Genetics
   Geological Sciences
   Human Biology
   Mathematics
   Mathematics, Advanced
   Microbiology
   Neuroscience
   Nutritional Sciences
   Physical Science—Interdepartmental
   Physics
   Physiology
   Plant Biology
   Plant Ecology
   Plant Pathology
   Statistics
   Zoology

**Majors**

1. **Biology** ................................................. 41

   a. A minimum of 41 credits from the courses listed below including:

      (1) *Organic Chemistry* (6 credits):

         Both of the following courses:

         CEM 251 Organic Chemistry I ..........................3
         CEM 252 Organic Chemistry II ..........................3

      (2) *Biochemistry* (4 to 6 credits):

         One of the following, either (a) or (b):

         (a) BMB 401 Comprehensive Biochemistry ..........4
         (b) BMB 461 Advanced Biochemistry I .............4
         (b) BMB 462 Advanced Biochemistry II ..........3

      (3) *Advanced Experimental Biology* (6 credits):

         The following course:

         LB 348 Research Experiences in Biology ..........3

         At least 3 credits from the following:

         LB 490B Advanced Directed Study — Biology ..........1 to 4
         LB 493 Field Experience ..................................1 to 4
         LB 494 Undergraduate Research ......................1 to 4

         Other courses as approved by advisor.

      (4) *Integrative Biology* (16 credits):

         All of the following courses:

         IBIO 341 Fundamental Genetics ........................4
         IBIO 355 Ecology .........................................3
         IBIO 445 Evolution (W) ..................................4
         MMG 301 Introductory Microbiology ..................3
         MMG 409 Eukaryotic Cell Biology ....................3

      (5) *Organismal Diversity* (3 or 4 credits):

         One of the following courses:

         ENT 404 Fundamentals of Entomology ................3
         ENT 422 Aquatic Entomology ..........................3
         ENT 470 General Nematology ..........................3
         FW 471 Ichthyology .......................................4
         IBIO 306 Invertebrate Biology .......................4
         IBIO 328 Comparative Anatomy and Biology of Vertebrates (W) ..................................4
         IBIO 360 Biology of Birds ................................4
         IBIO 365 Biology of Mammals ..........................4
         IBIO 384 Biology of Amphibians and Reptiles (W) ..4
         PLB 402 Biology of Fungi ................................4
         PLB 418 Plant Systematics ................................3
         PLB 424 Algal Biology ....................................4

      Other courses as approved by advisor.

      (6) *Ecology, Evolution, and Behavioral Biology* (3 or 4 credits):

         One of the following courses:

         IBIO 345 Evolution (W) .................................3
         IBIO 355 Ecology .........................................3
         IBIO 360 Biology of Birds ................................4
         IBIO 365 Biology of Mammals ..........................4
         IBIO 384 Biology of Amphibians and Reptiles (W) ..4
         PLB 402 Biology of Fungi ................................4
         PLB 418 Plant Systematics ................................3
         PLB 424 Algal Biology ....................................4

         Other courses as approved by advisor.
Earth Science

2. Computer Science

3. Earth Science

4. Environmental Sciences and Management

5. Physical Science

6. History, Philosophy and Sociology of Science

MINOR IN BIOETHICS

The Minor in Bioethics, which is administered by Lyman Briggs College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The minor is designed to prepare students to engage with the evolving set of ethical issues in biomedicine that they will encounter in their careers or their daily lives. The minor's interdisciplinary character fosters students' abilities to understand and question health care systems from a wide variety of intellectual viewpoints. Such interdisciplinary study also promotes communication across disciplinary boundaries.

Students wishing to pursue careers in health-related fields may find the minor particularly appealing. In addition, students pursuing academic programs outside health-related fields often find that the minor complements their major. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.
LYMAN BRIGGS COLLEGE
Undergraduate Program

Requirements for the Minor in Bioethics

CREDITS
1. Both of the following courses (3 credits):
   LB 240 Bioethics: Theories and Methods .......... 2
   LB 440 Bioethics Capstone ......................... 1

2. Complete 15 credits from at least four courses. No more than 8 credits may be from the same discipline. Students should work with the advisor for appropriate substitution requests.
   ANP 270 Women and Health: Anthropological and International Perspectives .................. 3
   ANP 370 Culture, Health, and Illness ............. 3
   ANP 425 Physical Anthropology .................... 3
   ANP 471 The Anthropology of Alternative Medicine ...........................................
   ANS 427 Environmental Toxicology and Society ..............................................
   CEP 470 Disability in a Diverse Society .......... 3
   EC 498 Economics of Health Care (W) .......... 3
   ENG 473A Literature and Medicine ............... 3
   EPI 391 Disease in Society: An Introduction to Epidemiology and Public Health .......... 4
   GEO 435 Geography of Health and Disease ........ 3
   HNF 375 Community Nutrition ..................... 3
   HNF 406 Global Foods and Culture ............... 3
   HST 420 History of Sexuality since 18th Century . 3
   HST 425 American and European Health Care since 1800 . 4
   LB 424A Science and Sex, Gender, Sexuality – Arts and Humanities (W) ................. 4
   LB 424B Science and Sex, Gender, Sexuality – Social Sciences (W) ......................... 4
   LB 326A Medicine and Health – Arts and Humanities (W) .................................. 4
   LB 326B Medicine and Health – Social Sciences (W) .......................................... 4
   LB 355 Philosophy of Technology (W) .......... 4
   MC 351 Science and Social Policy ................. 4
   MC 352 Science, Technology, Environment and Public Policy ....................... 4
   PHL 344 Ethical Issues in Health Care .......... 3
   PHL 380 Nature of Science ......................... 3
   PHL 444 Philosophical Issues in Biomedicine .... 4
   PHL 480 Philosophy of Science ................... 4
   PHL 485 Philosophy of Social Science ......... 3
   PSY 280 Abnormal Psychology ...................... 3
   PSY 320 Health Psychology ......................... 3
   REL 385 Religion, Health, and Healthcare .... 3
   SOC 368 Science, Technology, and Society ... 3
   SOC 451 Dynamics of Population ................. 3
   SOC 475 Health and Society ....................... 3
   SW 472 Social Work in Health Care ............. 3
   WS 304 Lesbian, Gay, Bisexual, Transgender, Queer (LBGTQ) and Sexuality Studies .... 3

MINOR IN HISTORY, PHILOSOPHY AND SOCIOLOGY OF SCIENCE

The Minor in History, Philosophy and Sociology of Science, which is administered by Lyman Briggs College, is designed to increase students understanding of the epistemological foundations and ethical elements of science while learning more of the history of some areas of science and appreciating the complex ways that science is connected to other social institutions and practices.

The minor is available as an elective to students who are enrolled in a bachelor’s degree program in Lyman Briggs College at Michigan State University. Students majoring in History, Philosophy and Sociology of Science in Lyman Briggs College are not eligible for the minor. With the approval of the college, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor’s degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in Lyman Briggs College.

Requirements for the Minor in History, Philosophy and Sociology of Science

CREDITS
1. Two of the following courses (8 credits):
   LB 330 Topics in History, Philosophy, and Sociology of Science (W) ..................... 4
   LB 331 Literature and Science (W) ................ 4
   LB 332 Technology and Culture (W) .......... 4
   LB 333 Topics in History of Science (W) .... 4
   LB 334 Science, Technology, and Public Policy (W) ...........................................
   LB 335 The Natural Environment: Perceptions and Practices (W) ......................... 4

2. Two of the following courses (7 or 8 credits):
   ENG 473A Literature and Medicine ............... 3
   ESA 430 Environmental and Natural Resource Law ...........................................
   ESA 440 Environmental and Natural Resource Policy in Michigan ........................ 3
   GEO 435 Geography of Health and Disease .............................................. 3
   HST 420 History of the Atomic Bomb and Nuclear Culture ...................................
   HST 425 American and European Health Care since 1800 . 4
   HRT 486 Biotechnology in Agriculture: Applications and Ethical Issues ............... 3
   LB 330 Topics in History, Philosophy, and Sociology of Science (W) ..................... 4
   LB 331 Literature and Science (W) ................ 4
   LB 332 Technology and Culture (W) .......... 4
   LB 333 Topics in History of Science (W) .... 4
   LB 334 Science, Technology, and Public Policy (W) ...........................................
   LB 335 The Natural Environment: Perceptions and Practices (W) ......................... 4
   LB 336 Gender, Sexuality, Science, Technology (W) . 4
   LB 355 Philosophy of Technology (W) ........ 4
   LB 490E Advanced Directed Study in History, Philosophy, and Sociology of Science (W) 4
   LB 331 Literature and Science (W) ................ 4
   LB 332 Technology and Culture (W) .......... 4
   LB 333 Topics in History of Science (W) .... 4
   LB 334 Science, Technology, and Public Policy (W) ...........................................
   LB 335 The Natural Environment: Perceptions and Practices (W) ......................... 4
   LB 336 Gender, Sexuality, Science, Technology (W) . 4
   LB 355 Philosophy of Technology (W) ........ 4
   LB 490E Advanced Directed Study in History, Philosophy, and Sociology of Science (W) 4
   MC 350 Evolution and Society ...................... 4
   MC 351 Science and Social Policy ................. 4
   MC 459 Science, Technology, Environment and Public Policy Capstone (N) ............. 3
   PHL 380 Nature of Science ......................... 4
   PHL 382 Philosophy of Mind ....................... 4
   PHL 480 Philosophy of Science ................... 4
   PHL 484 Philosophy of Biological Science .......... 3
   PHL 485 Philosophy of Social Science ......... 3
   SOC 368 Science, Technology, and Society ... 3
   SOC 452 Environment and Society ............... 3
   SOC 452L Internship in Environment and Society ..........................................
   SOC 475 Sociology of Health Care Systems ............................................. 3
   SOC 476 Social Psychology of Health .......... 3
   ZOL 446 Environmental Issues and Public Policy ...........................................

Courses used to fulfill requirement 1 above may not be used to fulfill this requirement. Other courses may be used in fulfillment of this requirement with the approval of the student’s academic advisor.

LYMAN BRIGGS COLLEGE 3 + 4 OPTION

Lyman Briggs College, in collaboration with the MSU College of Osteopathic Medicine, offers an opportunity for selected Lyman Briggs College students to earn a baccalaureate degree after satisfactory completion of a minimum of 90 credits at Michigan State University and a minimum of 30 credits through subsequent enrollment at the Michigan State University College of Osteopathic Medicine. Only students who matriculate as first-year students at Lyman Briggs College may pursue this option. Students interested in this option should consult with their college academic advisor during their first year in the college.

Admission to the MSU College of Osteopathic Medicine component of this program is limited to a small number of students who complete the specified university and college requirements and who fulfill admission requirements for the MSU College of Osteopathic Medicine Doctor of Osteopathic Medicine program. All students in this program will complete a minimum of 90 credits at Michigan State University in the Lyman Briggs College Biology major. The requirements for the program are as follows:

1. Completion of all the Michigan State University graduation requirements, including integrative studies and general education.
2. Completion of the Lyman Briggs College graduation requirements including mathematics, chemistry, biology, physics, and history, philosophy and sociology of science.
3. Be pursuing the curriculum for the Lyman Briggs College Biology major.
4. Completion of a minimum of 30 credits at the MSU College of Osteopathic Medicine in the preclinical component of the Doctor of Osteopathic Medicine degree program.

Upon satisfactory completion of the specified 120 credits, students in this program will be eligible for the Bachelor of Science degree in Lyman Briggs College with a major in Biology.
