COSTS

Michigan State University reserves the right to make changes in the types, structures, and rates for fees, deposits, tuition, and housing. Every effort will be made to give as much advance notice as possible.

ADVANCED PAYMENTS AND DEPOSITS

Application Processing Fee

- Domestic Undergraduate and Graduate Applicants: $65.00
- International Undergraduate and Graduate Applicants: $75.00

An application fee, not applicable to any other charge and not refundable, is required of everyone requesting admission as an undergraduate, graduate-professional or graduate student. Payment must accompany the application that is submitted to the Office of Admissions. A person requesting admission as an undergraduate, graduate-professional or graduate student who is financially unable to submit the application processing fee may request an application fee waiver.

Advanced Enrollment Deposit: $250.00

All entering undergraduate students are required to pay a $250 Advanced Enrollment Deposit (AED). Payment by the student confirms acceptance of admission, reserves the student a place in both the entering class and a residence hall (if the student chooses to live on-campus), and allows the student to register for a required New Student Orientation (NSO) Program which fill on a first-come, first-serve basis. An admitted student who is financially unable to submit the AED may request a deferral. The $250 AED is fully refunded to fall domestic freshman students who cancel their admission prior to May 1. There is no refund for other semesters, transfer students or international students.

COURSE FEES AND TUITION (2019-20)

Each student is assessed charges each semester on the basis of the credit value (or credit value equivalent of zero credit hour carrier courses) of all courses carried and state residence. Charges will be assessed on a credit hour basis, except for graduate-professional student fees which are assessed on a semester basis and some graduate student fees which are assessed on a semester or program basis and differentiate between "Core" and "Professional and Other" units.

If there is any question of the student’s right to an in-state classification, it is the student’s responsibility to contact the Office of the Registrar at least one month before enrolling.

As amended by the Board of Trustees in the 2019-20 Budget Guidelines. Amounts subject to change for 2019-20 and future years.

For current tuition rates, visit the Student Accounts Web site at: http://www.ctrl.msu.edu/COSTudentAccounts/Tuition_Fees_MainMenu_Year.aspx.

Doctoral Students

All doctoral students must register and pay for a minimum of 24 credits of doctoral dissertation research (course number 999).
Minimum Registration
All students using university services (faculty consultation included) must be registered each semester. Minimum registration consists of one course, one credit.

REFUND POLICY
Refund of Course Fees and Tuition
If a student withdraws from the university or drops a course, the refund policy will be:
1. For changes made through the first ¼ of the term of instruction (measured in weekdays, not class days), 100 per- cent of the semester course fees and tuition for the net credits dropped will be refunded.
2. For changes made after the first ¼ of the term of instruction and through the end of the session, no refund will be made for any credits dropped. Any courses approved for late add will be billed in the next monthly bill.
When dropping a course, the date the notification from the department is received in the Office of the Registrar will determine the amount of refund applicable.
Appeals concerning the refund policy should be referred to the Office of the Registrar.
Net refunds due to a drop of credits or withdrawal from the university are processed daily and posted to students' accounts. Amounts due students will be applied against outstanding balances owed the University or returned to students. Questions regarding account balances should be referred to the Student Accounts Office, Hannah Administration Building, 426 Auditorium Road, Room 140.
Financial Aid Refund Policy
Dropping Credits
1. Students may be billed for a portion or all of their financial aid awards if they drop credits or do not carry the minimum number of credits required for aid eligibility.
2. View the enrollment chart at www.finaid.msu.edu/enrlchrt.asp to determine if particular grants or scholarships will be reduced when dropping credits. Students will be billed for aid adjustments caused by the changes in enrollment status.
Withdrawal from the University
1. In addition to billing for the dropping of credits associated with withdrawal, there may be additional billing, particularly if a student has received federal financial aid funds (including Federal Stafford Loan), which were to have covered the entire semester educational costs. Refer to the next section for more detailed information on Title IV withdrawal refund rules.
Withdrawal up until the end of the first quarter of the term of instruction will result in 100 percent billing of federal grant aid (Federal Supplemental Educational Opportunity Grant, Federal Pell Grant) and Michigan Competitive Scholarship and may also result in a partial or complete billing of loan aid (Federal Perkins Loan, Federal Stafford Loan, and other financial aid).
2. The bill calculated as a result of withdrawal will depend on the official date of withdrawal and/or the last date of attendance and the percentage and amount of institutional refund to be received.
3. Withdrawal for any semester during the aid year may result in cancellation of a student's financial aid award for the remain-
der of the aid year. If a student wishes to reapply for funds for spring semester, a written request must be submitted to the Office of Financial Aid within 30 days of withdrawing from the university.

Return of Funds Policy for Title IV Aid Recipients Who Withdraw
The Higher Education Amendments of 1998, as well as the program integrity regulations in 2010, set forth regulations governing the treatment of Title IV funds when a student withdraws from an institution.

There are three types of withdrawals that fall under the return to Title IV (R2T4) federal calculation regulations:
1. Official Withdrawals – student contacts the Registrar’s Office or their advisor to initiate an official withdrawal for a semester, or the student drops all of their courses using the online enrollment system.
2. Unofficial Withdrawals - If a student begins to attend class, receives federal Title IV aid, but then ceases to attend class without providing official notification to the University, the Federal Government considers this to be an "unofficial withdrawal". For Title IV purposes, the withdrawal date for students who unofficially withdraw is considered to be the midpoint of the semester unless a documented last date of attendance can be determined. However, if the University determines that a student did not provide official notice of the intent to withdraw due to illness, accident, grievous personal loss or other circumstances beyond the student’s control, the University may use a date that is related to that circumstance.
The refund rules for Title IV aid recipients who withdraw are then followed to determine the unearned portion of Title IV aid that must be returned to the appropriate aid program(s).
3. Modular withdrawals – If a student is enrolled in a standard, term-based program offered in modules (subterms) and ceases attendance at any point prior to completing the payment period or period of enrollment, unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment, the student is considered a withdrawal for Title IV purposes. If written confirmation of future attendance is received from the student but the student does not return as scheduled, the student is considered to have withdrawn from the payment period or period of enrollment and the students withdrawal date and the total number of calendar days in the payment period or period of enrollment would be the withdrawal date and total number of calendar days that would have applied if the student had not provided written confirmation of future attendance.

When a student is considered to have withdrawn, as described above, during an enrollment period in which they have begun attendance and received federal Title IV financial aid, Michigan State University is required to determine the amount of earned and unearned Title IV aid. A student is only eligible to retain the percentage of Title IV aid disbursed that is equal to the percentage of the enrollment period that was completed by the student (calculated daily). The unearned Title IV aid must then be returned to the appropriate federal aid program(s). If more than 60% of the enrollment period has been completed by the student, no Title IV aid needs to be returned.

According to university policy, when a student withdraws prior to the quarter of the semester and/or receives a 100% tuition refund from the university, all of that semesters federal Title IV grant aid (SEOG, Pell Grant, Federal Teach Grant, Iraq and Afghanistan Service Grant) will be billed back to the students account. Most non-federal aid will also be billed back to the students account. All Title IV aid will be included in the calculations outlined...
5. Unearned Title IV Funds will be returned to federal programs within 45 days and must be allocated in the following order:
   a. Federal Unsubsidized Stafford Loans
   b. Federal Subsidized Stafford Loans
   c. Federal Perkins Loans
   d. Federal Direct Parent Loan (PLUS)
   e. Federal Direct Grad Plus
   f. Federal Pell Grants
   g. Federal Supplemental Educational Opportunity (SEOG)
   h. Federal TEACH Grants
   i. Iraq and Afghanistan Grant
   j. Other Grants

A student may be eligible for a post-withdrawal disbursement if, prior to withdrawal, the student earned more federal financial aid than was disbursed. If a student is eligible for a post-withdrawal disbursement for Title IV funds, it will be processed for the student and a refund will be issued within 14 days of the credit balance.

If the post-withdrawal disbursement includes loan funds, Michigan State University must get the student’s permission before it can disburse the loan. Students may choose to decline some or all of the loan funds so that s/he does not incur additional debt. A notice will be sent out to the student, and the signed, original document must be returned to the School within 14 days.

Michigan State University may automatically use all or a portion of the post-withdrawal disbursement of grant funds for tuition and fees. However, the school needs the student’s permission to use the post-withdrawal grant disbursement for other school charges. If the student does not give his/her permission, the student will be offered the funds. However, it may be in the student’s best interest to allow the school to keep the funds to reduce the student’s debt at the school.

It is also important to understand that accepting a post-withdrawal disbursement of student loan funds will increase a student’s overall student loan debt that must be repaid under the terms of the Master Promissory Note. Additionally, accepting the disbursement of grant funds will reduce the remaining amount of grant funds available to the student should the student continue his/her education at a later time.

Example of a Title IV return of funds calculation for a Title IV recipient who is considered to have withdrawn:

\[
\text{Institutional Charges} \quad \$5,000
\]
\[
\text{Title IV Loans} \quad \$2,000
\]
\[
\text{Title IV Grants} \quad \$1,000
\]
\[
\text{Total Title IV Aid} \quad \$3,000
\]

Student withdrew on 35th day of a 110 day enrollment period.

Percent Earned \quad 35/110 = 32\%

Percent Unearned \quad 100\% - 32\% = 68\%

Amount of Title IV aid unearned \quad $3,000 \times 68\% = $2,040

MSU is responsible for returning the lesser of unearned Title IV aid ($2,040 from above) or unearned institutional charges ($5,000 \times 68\% = $3,400).

MSU will return aid as follows:

- Title IV Loans $2,000 (students remaining loan debt = 0)
- Title IV Grants $40

The students responsibility is amount of aid unearned ($2,040) less school responsibility ($2,040), which is zero.

Refund Rules for Other Fees, Taxes, Assessments

The Engineering Program Fee, Science and Technology Fee, Health Science Program Fee and Broad College of Business Program Fees or the differential is refunded in the same percentage as course fees when withdrawing from the University or dropping from above 4 credits to 4 credits or less.

Student government taxes, FM Radio tax, and The State News assessments are refundable upon presentation of the appropriate receipt at the respective organization’s office.

Late registration fees will not be refunded.

Residence Hall housing fees are refunded on a pro-rata basis, based on certain variables. In some instances, the cost of room and board may be prorated as of the day following departure, if proper check-out procedures have been followed. Details and
procedures are found in the On-Campus Housing Handbook: Terms and Conditions.

*University Apartment rent* - Tenants will be held to their lease end date, so no proration will occur if they move out early. Refunds for tenants who have been officially released from their lease will be prorated as of the day following the official check out time.

In general, all fees collected by Michigan State University and their respective refund policies shall be subject to judicial review as provided in Student Rights and Responsibilities at Michigan State University.

### OTHER INFORMATION

#### Fee Payment

All fees, tuition, and housing charges noted above except those in the sections labeled Advanced Payments and Deposits and Miscellaneous Fees and Deposits are due and payable upon issuance of a Registration Billing Statement for the semester. The Registration Bill is only available online in STUINFO. Paper bills are not mailed. **Students will be notified by e-mail when the Registration Billing Statement is available in STUINFO.** Please refer to the Student Accounts Web site at: [ctlr.msu.edu/costudentaccounts](http://ctlr.msu.edu/costudentaccounts). Please refer to the **Billing and Fee Payment Schedule** for the appropriate semester for more detailed information. Payment may be made by check or money order payable to Michigan State University or by electronic check/ACH or credit card through STUINFO. Payments made with Visa, MasterCard, Discover, and American Express credit cards are only accepted via the web and carry a convenience fee. Checks are accepted subject to collection.

#### Deferred Payment Plan

Students may defer up to 50% of their tuition and related fees. Tuition and related fees which do not appear on the Registration Billing Statement (such as subsequent course adds) will be deferred if they appear on your account prior to your becoming a registered student for the semester (you will become registered when at least the minimum amount due on the registration bill is paid, attendance is confirmed if no payment is due, and any holds are cleared). Otherwise they will be included on the next monthly bill. Students living in University Residence Halls are able to defer up to two-thirds of their residence hall charges. The amount deferred is divided into two installments. Approximate installment due dates are listed below. If a student enrolls by the due date specified in the **Billing and Fee Payment Schedule**, the Registration Billing Statement will list several payment options (if a student enrolls subsequently, they will not have the option to defer tuition). If the student’s payment is at least the "Minimum Amount Due" and less than the "Amount to Avoid Deferment," then the deferred payment plan option will be assumed. Both actual and pending financial aid will be applied against the "Minimum Amount Due." Financial Aid exceeding the "Minimum Amount Due" will then reduce the tuition deferment and subsequently reduce any housing deferment. A $10.00 payment plan service fee will be charged whenever the option to defer either tuition or housing for a semester is elected. A finance charge of 7.9% per year will be assessed on deferred tuition and related charges. There is no finance charge assessed on unpaid housing charges.

</table>

A $25 late payment charge will be made whenever either installment for the semester is made after the due date. Students will be held from enrolling and registering for future semesters whenever current semester deferred payments are past due. Failure to make deferred payments on a timely basis may also result in the loss of the opportunity to defer payments.

The deferred payment option for summer session is subject to the student’s class end date for the summer session.

Students receiving VA chapter 31 or 33 funding will not be subject to certain penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, due to the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from the VA under chapter 31 or 33.

#### Financial Aid

All financial aid (except College Work Study) which has been authorized at the time the Registration Billing Statement is produced will appear on the bill. There are two types of financial aid — actual and anticipated.

Actual financial aid is aid which students are eligible to receive, as of the date of the registration bill. This aid will be listed in the detailed transaction section of the bill. It has been applied to the fees owed, reducing the amount owed.

Anticipated financial aid will be listed separately on the bill, in the anticipated financial aid section. Anticipated aid is not an actual payment on the account; it does not reduce the amount owed. Anticipated aid is only used to reduce the 'Minimum Amount Due' on the Registration Billing Statement. In order for anticipated aid to become actual aid, further action on the student’s part may be needed. Please refer to ‘Financial Aid (check your aid)’ on STUINFO, the student online system ([www.stuinfo.msu.edu](http://www.stuinfo.msu.edu)) for information on actions that may be required.

Eligibility for each of the different awards is monitored at various points in the semester, ranging from the point of time it is credited to the account, to the end of the semester. Refer to the financial aid award notification, or contact the Office of Financial Aid, for more specific information.

If the total of actual financial aid (no longer anticipated aid) exceeds the amount owed and registration has been completed, the student may be entitled to a refund. Refunds will be directly deposited or mailed to the current address if available during the week before classes begin. If the student’s aid and registration are finalized after this mailing, refunds are produced nightly and mailed or directly deposited the following workday through the 3rd day of classes (approximately). After this period, refunds are produced and directly deposited or mailed weekly. **NOTE:** Financial aid for a current semester may be used to pay past due Controller’s Office debts up to $200 maximum to enable a student to become registered. The student must contact the Student Accounts Office in 140 Administration Building to request this service. If the student is unable to enroll because of a past due debt, the student must meet in person with a Financial Aid Officer to determine available resources before contacting the Student Accounts Office. Once a student is registered, financial aid for the current semester will be automatically used to pay any past due Controller’s Office debts up to a maximum of $200 unless the student informs the Student Accounts Office to the contrary in writing 10 days before the start of the semester.
National Merit Scholarship
The National Merit Scholarship appears as a temporary credit on your registration bill until Michigan State University receives actual funds from National Merit at the beginning of the semester.

Books
Costs for books vary widely for the various academic programs. The average cost for undergraduates is estimated to be approximately $554.00 per semester and for graduates is $779.00 per semester.

Returned Items
[Includes rejected electronic check/Automated Clearing House (ACH) payments]
A $25.00 returned item service charge and a $50.00 late registration fee will be assessed to a student whose registration check/ACH is returned from their financial institution to MSU unpaid. Students failing to make payment in full for returned items (and any applicable fees) by the date stated on the notification letter will have their registration canceled.

There is a $25.00 returned item service charge assessed for each non-registration check/ACH that is returned to MSU unpaid.

In addition to the returned item service charge, the university reserves the right to take one or more of the following actions:
1. Place an immediate enrollment and registration hold.
2. Place the individual on the University Bad Check/ACH List which precludes the individual from presenting checks to the University for any reason and may be a cause for denying future short term loans.
3. Block the student and other authorized guest users from making online tuition payments via STUINFO.
4. Transfer the debt to a collection agency.
5. File a complaint with the police for possible prosecution.
6. Refer the student to the Judicial Affairs Office for disciplinary action.
7. Bring civil action against the individual for the amount of a returned check/ACH not redeemed within 30 days of the date of the notification letter and $250 in costs. In addition, the court could rule that you must also pay the greater of $100 or two times the amount of the returned check/ACH. If you pay the total amount due within 30 days, no civil action will be taken against you.

a. The student has enrolled for courses and has not paid the financial obligation which created the financial hold by a specified due date, the student will be dropped from the courses in which he/she is enrolled. HOUSING and DINING

Living on campus at Michigan State University is an integral part of the Spartan experience. The shared experience of living on-campus is not only a rich tradition at MSU; it also comes with countless options and benefits.

Michigan State University offers a variety of on-campus housing options for undergraduate and graduate students. There are 27 residence halls and two apartment communities, including the new 1855 Place student housing complex with apartments and townhouses for students and students with families. Students who live on campus are at the center of all that MSU has to offer.

Whether students are looking for a room or suite in a residence hall, flexible housing which allows students to select a roommate without regard to gender, or the independence of living in an apartment with their friends or families, there is an on-campus housing option for every MSU student. Living-learning communities, quiet floors, alcohol-free living space and single room options are also available.

The MSU Neighborhood Model fosters an environment that promotes both student development and academic success. The model combines the residential experience with critical student support services that help our students persist toward graduation. The MSU Neighborhood Model has revolutionized the manner in which these services are delivered on a large campus, breaking campus down into smaller neighborhoods where students can feel more at home and get the support they need. Services are delivered in our Engagement Centers and residence halls, right where students live.

On-campus living at MSU is all about providing students with a safe, secure and hassle-free living environment that will allow them to focus on being academically successful and making the most of their Spartan experience. On campus, everything from utilities and laundry to cable and internet is included. On-campus living also provides Spartans access to our award winning Culinary Services venues. More information about on-campus housing options and rates is available at www.liveon.msu.edu.

Safety on campus is our top priority and MSU takes the safety and security of our residents very seriously. Many of our residence halls are unique in that they house residential space, dining halls, offices and academic spaces such as labs and classrooms. These halls are considered public, mixed-used buildings and the main entrances to these buildings remain unlocked from 6:30 a.m. to 11:59 p.m. An electronic door access system is in place in our residence halls 24 hours a day, seven days a week, requiring students to scan their MSU ID cards to enter through exterior doors (other than main entrances) and interior doors that lead to living wings. The elevators are restricted with electronic access to residents only. Exterior entrances that lead to living wings remain locked 24 hours a day. More information about on-campus housing options and rates is available at www.liveon.msu.edu.

RESIDENCE HALLS ASSOCIATION

The MSU Residence Halls Association (RHA) is the on-campus student government at Michigan State University. Representing more than 14,000 students, MSU RHA is one of the largest Residence Halls Associations in the country. MSU RHA is dedicated to improving the on-campus living experience, and providing many services to students. Campus Center Cinemas, RHA TV, and a number of on-campus events are all services that are provided to the students by RHA.

LIVING-LEARNING AND RESIDENTIAL COLLEGE PROGRAM

Michigan State University’s living-learning, academic and special interest programs allow students who share similar academic interests to live together in a designated residence hall or on a particular residence hall floor. Many of the living-learning options allow students to attend class with the same group of peers in their residence hall, which enhances friendships, networking and facilitated ease of gatherings and study time. For more information on living-learning programs at MSU, visit www.liveon.msu.edu.

RESIDENCE HALLS AND APARTMENT APPLICATION PROCEDURE

New students, including transfers and graduate students, receive housing application information after being admitted to the university. Applications for housing at MSU are completed online through the iLiveOn portal, which is accessible via liveon.msu.edu. Any questions regarding the housing application process should be directed to the Housing Assignments Office at 517-884-LIVE (5483), 877-9 LIVE ON (5483 66) or liveon@msu.edu.

SUMMER HOUSING - RESIDENCE HALLS

Housing is available for summer session, although reservations are handled separately from those for the regular school year. Students can apply for summer session in the middle of the spring semester. At the end of summer session, students must move out of their summer residence hall and move to their fall placement.

OFF-CAMPUS HOUSING

The Off-Campus Housing Office, 101 Student Services Building, has current listings of housing available to all members of the University community. Staff members in the office also provide general advice and information to persons with problems arising from off-campus housing situations. Off-campus dining plans are available for purchase.

Greek Community

Many of Michigan State University’s 52 nationally and internationally affiliated fraternities and sororities offer chapter houses in which their members may live. Chapter members are responsible for the business aspects of managing a chapter house, as well as providing activities addressing leadership development, community service, sports and recreation, social life, alumni relations, accountability and responsibility for their members. For more information on this collegiate living experience, contact the Department of Student Life at 1-517-355-8286.
Cooperative Living Units
A unique type of living experience for Michigan State University students is provided in student housing cooperatives. Students own and operate their own houses and are responsible for governance, maintenance, budgeting and meal planning. Cooperative principles affirm democratic control and open membership to any interested student. The housing cooperatives are all located near the campus and vary in size from 12 to 50 members. Additional information about cooperative housing may be obtained from the Intercooperative Council Office, 317 Student Services Building.

Religious Living Units
In general, living in religious living units is similar to living in other residences with the addition of a denominational religious experience. These units include Living ROCK (men), East Lansing Student Living Center (The Church of Jesus Christ of Latter Day Saints), and the Hillel Jewish Student Center.

EAT AT STATE
MSU’s dining plan allows unlimited access to each of our ten residential dining halls. It also includes Combo-X-Change, which allows a meal access as a combo at all 20 Sparty’s locations, Sparty’s Market (an urban-style grocery store), Eat at State’s own Food Truck, the MSU Union Food Court, QUE at Crossroads Food Court in the International Center, and for takeout from the dining halls. Six Combo-X-Changes are available to use each week (no more than one can be used per day) for on-the-go meals or quick snacks during a study break.

Wherever you eat on campus, your health is one of our top priorities. In each campus neighborhood, an executive chef oversees the creation of daily menus, including vegetarian, vegan and allergy-friendly offerings. Our nationally-recognized food allergy program creates a personalized experience for diners, and nutrition and allergen information is always available at eatatstate.com.

UNIVERSITY HOUSING POLICY
Michigan State University’s housing system seeks to provide an educational environment which is maximally conducive to the learning process of students. Consistent with this philosophy, a variety of living options supported by student fees, is made available in university housing. The university has requirements for on-campus residence to promote an optimal learning environment for students. Any undergraduate student enrolled for seven or more credits at Michigan State University for a semester, summer session excluded, is subject to the university’s housing regulations. Compliance with the university housing policy is a condition of enrollment.

Administrative Ruling–University Housing Requirements and Procedures
In accordance with the University Housing Policy, the following stipulations apply:

1. On-Campus Housing Requirement — First year and transfer students, except as described in the exceptions below, must live in on-campus housing for two semesters (summer semester excluded) as a condition of enrollment. Failure to adhere to the on-campus housing requirement may result in termination of enrollment.

Exceptions to On-Campus Housing Requirement. All first-year students and sophomore students, including transfer students (0-60 credits accumulated) are required to reside in University housing, with the following exceptions:

a. Married students
b. Students who will be twenty years of age by the first day of classes of the fall semester.
c. Veterans with one or more years of active service
d. Students living with parents or legal guardian
e. Students taking 6 or fewer credits during the semester in question.

2. Juniors and Seniors — Juniors and seniors are encouraged to live on campus.

Enforcement
Those students for whom the housing requirement is a condition of enrollment will be asked to verify their adherence to it. Failure to maintain the required residency could result in termination of enrollment by the Division of Student Affairs and Services. Enforcement of the housing regulations is the responsibility of the Division of Student Affairs and Services. The housing requirement does not apply to students during a semester in which they are enrolled for 6 or fewer credits or during the summer. In any subsequent semester during which the student carries 7 or more credits, the requirement will again become applicable.

Address
Every student is required to report his or her correct current address at the time of registration and to report any change of address thereafter. Failure to register the actual address at which he or she is living, or failure to notify the university of a change of address within five class days after the change becomes effective,
will be considered as falsification of university records. Change of off-campus address is made in the Office of the Registrar or via STUInfo. Change of on-campus address is made in the student's iLive On account.

Housing Contract
The Residence Education and Housing Services Housing Contracts is in effect for the period stated in the terms of the Contract. Any student, regardless of class standing, is obligated to fulfill the duration of the Housing Contract unless an authorized release is obtained. (Note: Application for release may be made through Residence Education and Housing Services.) This regulation applies to all students (freshmen, sophomores, juniors, seniors, special and graduate) who enter into a contract for on-campus housing.

Assignment
Only those persons who have received official housing assignments may live in university housing.

Special Permission
Prior to moving into university housing, any new student may apply for an exception to the housing requirements. Information on the special permission procedure and criteria for exceptions can be obtained by contacting the Judicial Affairs Office, 101 Student Services Building. Applications will be considered by a committee appointed by the Vice President for Student Affairs and Services. A student may appeal the decision of the committee to the Vice President for Student Affairs and Services. Off-campus living units that were recognized by the university as ‘supervised’ housing units in the spring of 1983 will continue to be eligible to house students consistent with past practice. Specific conditions that will ensure this eligibility will be developed by the Vice President for Student Affairs and Services and in consultation with appropriate off-campus living units. The residents of these units must be advised that the unit is neither supervised by nor under the jurisdiction of the university and that the university assumes no responsibility for the program, the facility, or persons associated with the unit.

GENERAL PROCEDURES AND REGULATIONS

INSTITUTIONAL EVALUATION AND ASSESSMENT
As members of a learning community, students may be asked to participate in periodic and ongoing institutional self-studies designed to promote program improvement. Michigan State University continually assesses itself in order to evaluate the effectiveness of its programs. Students are expected to participate in these assessment efforts should they be selected to do so.

MICHIGAN STATE UNIVERSITY FACULTY
A full-time faculty member of Michigan State University may not carry course work in residence, or in absentia, amounting to more than an average of four course credits a semester with a maximum of eight credits during fall and spring. There is no maximum number of master's thesis or doctoral dissertation research credits that may be carried each semester. See Admission of Faculty Members of Michigan State University to Graduate Study in the Graduate Education section of this catalog.

STUDENT NAME
LEGAL NAME. Students are required to provide their legal name at the time of application and to process official name changes while enrolled, as appropriate. Name change requests must be submitted to the Office of the Registrar with appropriate documentation. Documentation consists of a current driver’s license, official state ID card, Social Security card, court order of legal name change, current passport, or official proof of identity certified by U.S. embassy abroad or by the appropriate foreign embassy in the United States.

DIPLOMA NAME. Students indicate their diploma name on the Michigan State University Application for Graduation. The student name listed on a diploma or certificate must match the legal name as it is recorded on the student’s official university record, with the following exceptions: option of first name or initial; option of middle name or initial; inclusion of former or maiden name(s); and inclusion of proper capitalization and accentuation of name.

PREFERRED NAME. The university recognizes that many of its students use names other than their legal names to identify themselves. Students may indicate their preferred first name on the Michigan State University Application for Admission or by accessing STUinfo (http://stuinfo.msu.edu).

Once established, preferred name will be used across university systems, where possible. The university reserves the right to remove a preferred name if it is used inappropriately, including but not limited to, avoiding a legal obligation or misrepresentation. The legal name will continue to be used for certain university records, documents, and business processes such as reporting, financial aid, official transcripts, and other records where use of legal name is required by law or university policy.

Students may update or remove their preferred name via STUInfo or in person at the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 150, East Lansing, Michigan, 48824-2603.

ATTENDANCE
No person is allowed to attend a class unless officially enrolled on a credit or non-credit basis with the appropriate fees paid. Students who attend, participate and strive to complete course requirements without formal enrollment will not receive credit for their work.

There is no university-wide regulation requiring class attendance. However, attendance is an essential and intrinsic element of the educational process. In any course in which attendance is necessary to the achievement of a clearly defined set of course objectives, it may be a valid consideration in determining the student’s grade. It is the responsibility of the instructor to define the policy for attendance at the beginning of the course.

REPORTING NON-ATTENDANCE. In compliance with federal regulations governing financial aid and veterans education benefits, instructors are required to report students who stop attending or who have never attended class. After the first week of classes, through the middle of the term of instruction, instructors who identify a non-attending student should notify their departmental office. Upon receiving a report of non-attendance, departmental representatives are encouraged to initiate an administrative drop.

Attendance is defined as physical attendance or participation in an academically-related activity, including but not limited to the submission of an assignment, an examination, participation in a
study group or an online discussion. Instructors who do not take attendance may utilize key assessment points (e.g., projects, papers, mid-term exams, and discussions) as benchmarks for participation.

**Drop for Non-Attendance.** Students may be dropped from a course for non-attendance by a departmental administrative drop after the fourth class period, or the fifth class day of the term of instruction, whichever occurs first.

**Class Notes and University Supplied Materials.** As a condition of continued course enrollment and allowed class attendance, a student will refrain from commercializing notes of class lectures and university-supplied materials, by direct sale or by contract with a third party or otherwise, without the express written permission of the instructor. Students may be removed from a class only after a hearing in the department or school, as described in the Student Rights and Responsibilities at Michigan State University, Article 2.4.

**Field Trips.** Field trips involving absence from classes must be authorized in advance by the dean of the college in which the course is given. The cost of field trips which are part of organized courses of instruction must be borne by the participating students and are additional to the usual course fees.

**Change of Section Within a Course**

Students who must change from one section to another in the same course may do so using the enrollment system through the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters). After the period ends, changes of section must be made in the department responsible for teaching the course.

**Change of Enrollment**

Students are expected to complete the courses in which they register. If a change is necessary, it may be made only with the appropriate approvals as explained below.

**Add and Drop Period.** Students may add courses using the enrollment system through the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters). Students may drop courses using the enrollment system through the middle of the term of instruction.

**Change of Option for CR-NC (Credit-No Credit) Grading.** Choice of the CR-NC grading system must be communicated to the Office of the Registrar within the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) and may not be changed after that date.

**Change of Option for Visitor.** Choice of enrollment in a credit course as a visitor on a non-credit basis must be made no later than the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) in the Office of the Registrar.

**To Add a Course After the Add and Drop Period.** Normally, no course may be added after the designated period for adding courses. Any add after this period must be processed beginning with the department offering the course. Final approval rests with the associate dean of the student’s college or if not yet admitted to a college, the associate dean of the Neighborhood Student Success Collaborative.

**To Drop a Course or Withdraw from the University After the Middle of the Term of Instruction.** A student may drop a course or withdraw after the middle of the term of instruction only to correct errors in the enrollment or because of events of catastrophic impact, such as serious personal illness. If the student is passing the course, or there is no basis for assignment of a grade at the time of the drop, a W grade will be assigned. If failing, a 0.0 (or N in a P-N graded course) will be assigned. The course will remain on the student’s academic record.

Undergraduate Students: To initiate a late drop or withdrawal, the student must obtain approval from the office of the associate dean of his or her college or if not yet admitted to college, the associate dean of the Neighborhood Student Success Collaborative. Exceptions are James Madison College, Lyman Briggs College, the Residential College in Arts and Humanities.

Graduate Students: To initiate a late drop or withdrawal, students must obtain approval from their advisor or major professor and their graduate program director.

**Dropping All Courses.** See the statement on Withdrawal from the University.

**Cancellation of Enrollment**

Cancellation of enrollment includes the administrative cancellation of a student's registration due to nonpayment of fees, or because of academic recess or dismissal. Courses in which the student is enrolled will be deleted from the official record. The cancellation of a student's registration may be processed by the Office of the Controller or the Office of the Registrar.

**Withdrawal from the University**

**Withdrawal Prior to the Middle of the Term of Instruction.** A withdrawal from the university occurs when students drop all of their courses within a semester. Students may drop all of their courses through the middle of the term of instruction using the online enrollment system or in person at the Office of the Registrar, 150 Administration Building. For withdrawals that occur before the middle of the term of instruction, courses in which the student is enrolled will be deleted from the official record.

Undergraduate students are strongly advised to seek guidance regarding the impact of withdrawal from the university by contacting either the associate dean of their major college or academic advisor. For most students who have fewer than 56 credit hours, the Associate Dean’s function is served by the Neighborhood Student Success Collaborative (NSSC). Exceptions are James Madison College, Lyman Briggs College, the Residential College in Arts and Humanities. Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant. Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant.

Additionally:

Fees are subject to refund according to the refund policy.

A student living in a residence hall should consult the manager regarding the policy on the refund of room and board fees.

A student living in an off-campus organized living unit should consult the individual unit for policies regarding room and board refunds.

A graduate student appointed as graduate assistant forfeits his/her assistantship upon withdrawal from the university.

Any student whose enrollment at this university is interrupted for any reason so that he or she has not been enrolled for three consecutive semesters, including the summer sessions should submit a readmission to the Office of the Registrar at www.reg.msu.edu.
WITHDRAWAL AFTER THE MIDDLE OF THE TERM OF INSTRUCTION. A student may drop a course or withdraw after the middle of the term of instruction only to correct errors in the enrollment or because of events of catastrophic impact, such as serious personal illness. If the student is passing the course, or there is no basis for assignment of a grade at the time of the drop, a W grade will be assigned. If failing, a 0.0 (or N in a P-N graded course) will be assigned. The course will remain on the student’s academic record.

Undergraduate Students: To initiate a late withdrawal, the student must obtain approval from the office of the associate dean of his or her college or the Neighborhood Student Success Collaborative. Exceptions are James Madison College, Lyman Briggs College, the Residential College in Arts and Humanities.

Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant.

There is no formal procedure for withdrawal at the end of a semester; however, a student living in university housing should notify the manager of the appropriate unit.

UNAUTHORIZED. Students who leave the university during a semester or summer session without officially dropping their courses will be reported as having failed those courses and will forfeit any fees or deposits paid to the university. The withdrawal procedure will not take place automatically for the student who leaves campus because of illness, of either one’s self or family member, or for interim or final suspension for disciplinary reasons, but must be initiated by the student. Fees are subject to refund according to the refund policy.

INVOLUNTARY. Students who are called into the armed forces during the semester should submit a copy of their orders to the Office of the Registrar for appropriate action.

ACADEMIC RECESS OR DISMISSAL. If a student is academically recessed or dismissed, courses in subsequent semesters are dropped without grades and fees are subject to refund according to the refund policy.

EXAMINATIONS
In keeping with university practice, entry into, and participation in, course examinations is controlled through electronic and visual means and by proctored examination site procedures.

In certain courses, such as those offered online, an individual student may be required to arrange to take examinations in a proctored environment on-campus or off-campus. Any costs associated with taking such proctored examinations are the responsibility of the student. The Michigan State University Testing Office is a proctored-testing site for distance learning, www.testingoffice.msu.edu. It is a member of the Consortium of College Testing Centers which is a free referral service provided by the National College Testing Association to facilitate distance learning, www.ncta-testing.org.

FINAL EXAMINATION POLICY
During the final week of each fall and spring semester all courses shall meet for one 2-hour period. The Final Examination Policy is available at www.reg.msu.edu/ROInfo/Calendar/FinalExam.aspx. During summer sessions, final examinations are scheduled in the last class sessions. This period should be used for examination, discussion, summarizing the course, obtaining student evaluation of the course instruction, or any other appropriate activity designed to advance the student’s education. If an instructor requires a written report or take-home examination in place of a final examination, it shall not be due before the final examination period scheduled for that course. Exceptions to this paragraph may be approved by the department or school chairperson, or in a college without departments, by the dean.

In the event that a final examination is deemed appropriate by the instructor, it may not be scheduled at any time other than the date and hour listed in Schedule of Courses. Any deviations from the final examination schedule must be approved by the Office of the Registrar based on the recommendation of the assistant/associate dean of the college responsible for the course offering.

No student should be required to take more than two examinations during any one day of the final examination period. Students who have more than two examinations scheduled during one calendar day during the final examination period may contact the Academic Student Affairs Office in their colleges for assistance in arranging for an alternate time for one of the three examinations.

Faculty members shall schedule office hours during the final examination period (or in some other way attempt to make themselves accessible to their students) as they do in the other weeks of the semester.

Common final examinations are scheduled in certain courses with several class sections. In case of a conflict in time between such an examination and a regularly scheduled course examination, the latter has priority. The department or school giving the common examination must arrange for a make-up examination.

A student absent from a final examination without a satisfactory explanation will receive a grade of 0.0 on the numerical system, NC on the CR-NC system, or N in the case of a course authorized for grading on the P-N system. Students unable to take a final examination because of illness or other reason over which they have no control should notify the associate deans of their colleges immediately.

For information on other examinations, see the Undergraduate Education and Graduate Education sections of this catalog.

VARIABLE CREDIT COURSES

For each variable credit course, the range of credits for which a student may enroll in a given semester and the maximum number of credits that a student may earn in a course with a reenrollment provision shall be specified.

TRANSFER COURSES AND CREDITS

Acceptance of courses and credits deemed suitable for transfer to Michigan State University is determined by faculty in the department, school, or college responsible for instruction in the subject area. Among factors influencing the determination of acceptability are accreditation status, comparable academic quality, and the relationship of the course to other course offerings in the primary administrative unit and other academic units at Michigan State University, and the basis for student performance evaluation in the course. For current course equivalencies, visit www.transfer.msu.edu.

Students requesting transfer credit of course work from a higher-learning institution in China must have a China Academic Degree and Graduate Education Development Center (CDGDC) verification report of the university transcript mailed directly to the MSU Office of Admissions. CDGDC verification does not guarantee the transfer of credit to MSU.

Credit for summer and other non-degree programs offered on campuses of officially recognized international institutions may be subject to an additional review. A transcript demonstrating a completed course of study may be required to determine the transferability of credit.

For information on transfer credit beyond sophomore standing, visit www.reg.msu.edu/AcademicPrograms/Text.asp?Section=110#s226.

COURSE FORMATS AND CREDITS

The formats described in this document apply to courses in which credits are earned. (For the definition of a credit, refer to Credits.) In all courses for credit, regardless of format, there will be instructor evaluation of individual learning. In this document, instructor is defined as a person authorized to teach the course by the administrator of the academic unit that administers the course.

The formats acceptable for courses offered for credit are those listed below. Two or more of the formats listed may be combined; for example, lecture and laboratory, discussion and online and/or lecture and hybrid.

Lecture

Definition: A regularly scheduled class in which the instructor takes the dominant role and the primary emphasis is on transmitting a body of knowledge or information and explaining ideas or principles. Student comments or questions will be accommodated as circumstances permit. In some courses, students may be expected to participate in classroom activities by means appropriate to the subject matter, such as discussion, performance, etc. Information regarding required text and reading list is provided.

CREDITS

Courses at Michigan State University are given on a “semester” basis, and credits earned are semester credits. To convert semester credits to the “term” or “quarter” basis employed in certain other institutions, multiply by 3/2. To convert term credits to semester credits, multiply by 2/3.

Each course usually carries a specific number of credits based upon the number of instructional contact hours and study hours required each week per semester. The earning of a credit requires, as a minimum, one instructor-student contact hour per week per semester plus two hours of study per contact hour; or two hours of laboratory contact hours per week per semester, plus one additional hour spent in report writing and study; or other combinations of contact and study hours which constitute an equivalent of these experiences. In all courses taught in the time frame of the regular semester, regardless of format, provision will be made for contact hours and/or study hours which reflect optimal use of the class and study time provided for in the official university calendar. In courses in other time frames provision will be made for contact hours and study time in a combination, which is equivalent to the semester experience.

The number of credits normally carried in a semester is defined in the Undergraduate Education and Graduate Education sections of this catalog.

Persons who are assessed fees for 7 or more credits (6 or more credits for doctoral students) in a semester:

1. Are subject to the housing regulations as stated in University Housing Policy.
2. May utilize the facilities of the Olin Health Center. Information on services available and the charges made may be obtained at the Olin Health Center.
3. May purchase football, basketball, and/or hockey season tickets for themselves and their spouses at 50 percent of the public rate.
4. Are eligible for free admission to other regularly scheduled athletic events.
5. Are eligible for student discounts on series tickets to professional performing arts events at the Wharton Center for Performing Arts and Institute for Arts and Culture.
6. Are subject to the housing regulations as stated in University Housing Policy.

800-899 Graduate Courses

Courses with these numbers are for graduate students. Advanced undergraduates with Honors College status or a grade-point average in their total programs equal to or greater than the minimum requirement for graduation with honors may be admitted to 800-899 courses. The student must obtain approval of the relevant department. More than half of the credits of the total required for a master’s degree shall be taken at the 800-and 900-level except as specifically exempted by the dean of the college.

900-999 Advanced Graduate Courses

Courses with these numbers are exclusively for graduate students and primarily for advanced graduate students. A master’s degree student may take these courses with the approval of the major department or school, with the exception of courses numbered 999 (doctoral dissertation research). Admission to a doctoral degree program is a prerequisite of all courses numbered 999.

Graduate-Professional Courses

Courses with these numbers are courses in the graduate-professional programs. A graduate student may carry these courses for credit with approval of the major department or school.

distance education programs to acquire authorization from the
states in which it operates. In Fall 2015, Michigan State University
began participating in the State Authorization Reciprocity Agree-
ment (SARA), which is an agreement among states that estab-
lishes national standards for the interstate offering of
postsecondary distance education courses and programs.
Through SARA, Michigan State University may provide distance
education to residents of any other SARA member state without
seeking authorization from each SARA member state individually.
For a comprehensive list of SARA states and institutions, see
http://nc-sara.org/sara-states-institutions.

Only credits in courses that are in accordance with Department of Veterans Affairs regulations will be certified. Students receiving Department of Veterans Affairs educational assistance benefits are held to the same standards of academic progress and social conduct as all other students.

Veterans’ education benefits are based upon the actual start and end date for each course and may vary throughout the semester. In order to receive benefits as a full-time student under programs administered by the Department of Veterans Affairs, students must carry the following minimum credits in full semester or summer session courses: undergraduate and graduate-professional students, 12 credits; master’s level students, 9 credits; and doctoral level students, 6 credits.

CLASS VISITOR

A person may be permitted to enroll in credit courses as a visitor on a non-credit basis with appropriate approval. Credit may not be earned in courses taken as a visitor except by re-enrollment for credit in the course, and completion of the course with a satisfactory grade. See the Grading Systems section for additional information.

Students enrolled as visitors are expected to attend classes regularly. Those so enrolled who do not attend regularly may be dropped from the class at the request of the instructor.

To be enrolled as a visitor, a student must enroll in the same manner as for credit courses at the university. Students enroll for the course through the enrollment system and then contact the Office of the Registrar to have the visitor code added to the registration. CONTINUING EDUCATION UNIT

The Continuing Education Unit (CEU) was created by a national task force. CEUs are granted by a large number of colleges and universities. The International Association for Continuing Education and Training (IACET) provides compliance guidelines and certification of CEU programs. Michigan State University follows the CEU guidelines developed by IACET in awarding CEUs.

Definition: One CEU equals 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. CEUs and academic credits are separate and distinct measures of participation in instructional experiences.

The CEU exists to: 1) establish permanent records for noncredit education experiences, 2) provide a basis for uniform reporting to sponsors, and 3) provide data for national analysis and policy development related to continuing professional development.

For information about the criteria for both Michigan State University and Michigan State Board of Education CEUs and administrative procedures related to CEUs, visit the Office of the Registrar at www.reg.msu.edu. You may also contact the Coordinator of Continuing Education Units at 1-517-432-3987, or in 150 Administration Building.

5. The Office of the Registrar will monitor students’ academic progress each semester to ensure that once nine or more credits have been attempted, acceptable progress has been maintained.
   a. An undergraduate student enrolled under the Lifelong Education enrollment status and who has attempted nine or more credits and has not maintained a 2.0 GPA, will be issued a letter stating he/she is no longer eligible to take courses at Michigan State University. An Academic Advising hold is placed on the student’s record.

Students who have completed course work while enrolled under the Lifelong Education enrollment status and who contemplate subsequent admission to degree programs must seek advice from the admitting department or school and college as to the applicability of courses/credits taken while under the Lifelong Education enrollment status. There is no guarantee that these credits will be acceptable. Applicability is subject to the following general limits.
   a. No more than 16 credits taken while enrolled under the Lifelong Education enrollment status may be applied to the undergraduate degree program.
   b. No more than 9 credits taken while enrolled under the Lifelong Education enrollment status may be applied to the graduate degree program. Refer to the Graduate Education section of the catalog for the aggregate limit.
   c. Courses taken under the Lifelong Education enrollment status may not be transferred to Human, Osteopathic, or Veterinary Medical Programs but may be used to waive program requirements at the discretion of the college.

STUDY ABROAD

For information regarding study abroad, see Study Abroad in the Undergraduate Education section of this catalog.

CODE OF TEACHING RESPONSIBILITY

Satisfaction of teaching responsibilities by instructional staff members (herein referred to as instructors) is essential to the successful functioning of a university. This University conceives these responsibilities to be so important that performance by instructors in meeting the provisions of this Code shall be taken into consideration in determining salary increases, tenure, and promotion.

1. Course content: Instructors shall be responsible for ensuring that the content of the courses they teach is consistent with the course descriptions approved by the University Committee on Curriculum and the University Council. Instructors shall direct class activities toward the fulfillment of the stated course objectives.

2. Course syllabi: Instructors shall be responsible for distributing a course syllabus (either in print or electronic form) at the beginning of the semester. The syllabus shall minimally include:
   a. instructional objectives;
   b. instructor contact information and office hours;
   c. grading criteria and methods used to determine grades on individual assignments;
   d. attendance policy, if different from the University attendance policy and especially when that attendance policy affects student grades;
   e. any required and recommended course materials to be purchased, including textbooks and supplies; and
   f. any required proctoring arrangements to which students must adhere.

3. Student Assessment and Final Grades: Instructors shall be responsible for informing students, in a timely manner so as to enhance learning, of the grading criteria and methods used to determine grades on individual assignments. Instructors shall be responsible for assessing a student’s performance based on announced criteria and on standards of academic achievement. Instructors shall submit final course grades in accordance with University deadlines. Assessment methods should be appropriate to the learning objectives of the course. In that context, instructors are expected to take reasonable steps to create an assessment environment that promotes academic integrity. When proctoring or other security measures are necessary to ensure integrity of assessments, then such measures should be administered in a manner consistent with the design and delivery of the course.

4. Testing Documents: Instructors shall be responsible for returning to student’s answer keys, quizzes, tests, and examinations with sufficient promptness to enhance the learning experience. Instructors shall retain final examination answers for at least one semester to allow students to review or to retrieve them. All testing questions (whether on quizzes, tests, or mid-semester or final examinations) are an integral part of course materials, and the decision whether to allow students to retain them is left to the discretion of the instructor.

5. Term Papers and Comparable Projects: Instructors shall be responsible for returning to student’s term papers and other comparable projects with sufficient promptness to enhance the learning experience. Term papers and other comparable projects are the property of students who prepare them. Instructors shall retain such unclaimed course papers for at least one semester to allow students to retrieve such work. Instructors have a right to retain a copy of student course work for their own files.

6. Class Meetings: Instructors shall be responsible for meeting their classes regularly and at scheduled times. To allow students to take appropriate action, instructors shall notify their units if they are to be absent and have not made suitable arrangements regarding their classes.

7. Applicability of the Code of Teaching Responsibility to Student Assistants: Instructors of courses in which assistants are authorized to perform teaching, grading, and other instructional functions shall be responsible for acquainting such individuals with the provisions of this Code and for monitoring their compliance.

8. Instructor Accessibility to Students: Instructors shall be responsible for being accessible to students outside of class time and therefore shall schedule and keep office hours for student conferences. Office hours should be scheduled at times convenient to both students and instructors with the additional option of mutually convenient pre arranged appointments for students whose schedules conflict with announced office hours. Each teaching unit shall determine the minimum number of office hours for instructors in that unit. Instructors who serve as academic advisors also shall be responsible for maintaining appropriate office hours before and during enrollment periods. In addition to office hours, instructor accessibility through e-mail and other means is encouraged.

9. Commercialization of Course Notes and Materials: The University prohibits students from commercializing their notes of lectures and University-provided class materials without the written consent of the instructor. Instructors may allow commercialization by including permission in the course syllabus or other written statement distributed to all students in the class.
STUDENT INSTRUCTIONAL RATING SYSTEM (SIRS)

Preamble

The principal objective of the student instructional rating policy is to secure information which is indispensable to implementation of the University’s policy of providing its students with instruction of the highest quality. This information is put to two principal uses: (1) providing instructors and teaching units with an accurate account of student response to their instructional practices, to the end that classroom effectiveness be maintained at the highest level of excellence; and (2) providing teaching units with one kind of information to be considered in deciding on retention, promotion, salary, and tenure, to the end that effectiveness in instruction constitutes an important criterion in evaluating the service to the University of members of the teaching faculty. In order to accomplish these objectives more fully, the following procedures were established:

1. Every teaching unit shall approve at least one common student rating instrument through its own channels of participation, in accordance with unit bylaws and customs of collegial decision making. Regardless of the type of instrument adopted, it must prominently display the following notation:

   The Michigan State University CODE OF TEACHING RESPONSIBILITY holds all instructors to certain obligations with respect to, e.g., course content consistent with approved descriptions, timely statement of course objectives and grading criteria, regular class attendance, published office hours, and timely return of examinations and semester papers. This Code is printed in full in the Academic Programs catalog or is available online at www.reg.msu.edu/AcademicPrograms/Text.asp?Section=1128514. It includes specific about complaint procedures available to students who believe that their instructors have violated the Code.

2. Each teaching unit shall make regular and systematic use of student instructional rat- ings as part of the unit’s evaluation of instructional performance. Each teaching unit shall implement and promulgate a comprehensive policy covering all aspects of student instructional rating procedures, and shall be responsible for implementing that policy within the framework of the provisions contained in this document. Students shall not be required or requested by faculty members to identify themselves on the rating forms.

3. All instructors, regardless of rank, including graduate assistants, shall use unit-approved student instructional rating forms in all classes (every course, every section, every semester). For team-teaching situations, units shall develop procedures consistent with the intent of these provisions.

4. Beyond the use of a unit approved common form, individual instructors may use other instruments to gather additional information.

5. Results of student instructional ratings shall be used in accordance with the following provisions:
   a. Results shall be returned promptly to the instructor for information and assistance in improving course design and instruction.
   b. Instructors shall have the opportunity to comment, orally and/or in writing, upon the ratings received. These comments shall be taken into account by persons or groups charged with making or advising on personnel decisions.
   c. Results of student instructional ratings shall be systematically consulted, with due regard for strict confidentiality, in conjunction with other means for assessing individual effectiveness, according to the review criteria promulgated within each unit. Other means might include, e.g., classroom visits or consideration of course syllabi, assignments, and examinations.

6. Procedures for implementing the rating process and for utilizing the results shall be promulgated by each teaching unit, subject to the following provisions:
   a. Duly promulgated unit procedures shall be filed in the offices of the appropriate Dean and the Provost, where they will be matters of public record.
   b. Unit administrators are responsible for implementing in their units SIRS procedures which follow fully the requirements of this document.

Preamble

The following policy operates as a complement to the Student Instructional Rating System (SIRS) policy to provide selected public information for students as an aid to choosing courses.

Policy on the Student Public Evaluation System

Students at Michigan State University have an interest in being able to make informed judgments in selecting courses and faculty members as students pursue their academic programs. To this end, the University Committee on Undergraduate Education has framed a set of questions that should provide the type of information that students seek. In order to facilitate the transmission of this information to the students, the following procedures are established:

1. In addition to using standard university or unit-based SIRS forms in every class each semester in compliance with the Student Instructional Rating System policy, the SOCT rating system will be administered in all fall and spring semester undergraduate classes taught by faculty members at the rank of instructor or above, and specialists who are assigned to teach

2. The SOCT online forms shall be administered within the last two weeks of classes. Students will be notified by e-mail when access is available. The SOCT rating system will be open for a limited, established period at the end of each semester.

3. Results will be disseminated in summary form, displayed by instructor and department, once per year through a Web site, https://soct.msu.edu, accessible to students and other members of the University community with the appropriate identification. A maximum of two recent semesters taught by that instructor over a maximum of two years with a minimum of five student responses will be displayed.

CREDIT BY EXAMINATION

The credit-by-examination option is available to qualified students. Examination may take the form of course or laboratory projects, written or oral reports, evidence of satisfactory skill performance, etc. Enrollment is subject to the provisions detailed below.

Some courses are especially designated for credit by examination in the Schedule of Courses (sections numbered 999). Students who wish to avail themselves of this option must do so through the regular enrollment procedure.

The credit-by-examination option may also be made available in courses not designated in the Schedule of Courses. Instructors will consider requests from interested students, and may recommend to the unit administrator the offering of an ad hoc credit-by-examination section to accommodate the needs of particular students. Following approval by the unit administrator, regular enrollment procedures apply.

Provisions
GENERAL INFORMATION, POLICIES, PROCEDURES AND REGULATIONS
General Procedures and Regulations

1. The credit-by-examination system is designed to serve students who have the capability and discipline for independent learning. Students who are in academic difficulty should not use it.
2. Enrollment must be by approval of the department or school. Before approval is given, department and school offices and/or designated instructors will provide the student with a written statement of the materials and skills to be mastered, and the manner in which proficiency is to be demonstrated.
3. The credit-by-examination procedure is not intended, and should not be construed, as a tutorial system, or as a system comparable to regular class enrollment: students must not expect tutorial assistance from professors, and professors must not expect students to attend class.
4. Units should exclude from this option those courses in which class attendance and participation are an integral part of the instruction.
5. Academic standards shall be comparable to those applying to regular courses.
6. Implementation of the policy is the responsibility of unit administrators, Deans, and the Associate Provost for Undergraduate Education and Dean of Undergraduate Studies.

COMPUTER SCIENCE WAIVER EXAMINATION: CSE 101

The Department of Computer Science and Engineering offers the option of a waiver examination in CSE 101 for students whose programs require the course and (b) are willing to accept passage of the waiver examination in place of the actual course. Students who wish to explore this option should do the following:
1. Consult Academic Programs or the academic advisor in your major program to determine if the waiver examination is acceptable for purposes of the major.
2. For information regarding examination information such as time, date, location, and cost of examination as well as examination contents and preparation information, visit https://cse101.cse.msu.edu.

Students may take the waiver exam only once. It must be taken prior to enrollment in the course. Pre-registration is required. The exam is proctored and administered once per semester. No make-up tests are provided. Successful completion of the test waives the requirement for participating programs but does not produce academic credit or a grade. A transcript notation will indicate the CSE 101 Waiver.

DEFINITIONS OF TERMS RELATED TO CALCULATIONS OF CREDITS AND GRADE-POINT AVERAGES

Credits Passed
Total Michigan State University credits passed on the numerical system, the Credit-No Credit (CR-NC) system, the Pass-No Grade (P-N) system, and by examination plus all credits accepted in transfer from other institutions. For a course that was repeated, only the credits associated with the last enrollment are counted in the total number of credits passed.

Credits Repeated
Total credits repeated at Michigan State University and all Michigan State University credits repeated at and accepted in transfer from other institutions.

Credits Attempted
Total Michigan State University credits for which a grade was recorded or for which the W (no grade) symbol was recorded. Credits accepted in transfer from other institutions are included in the total number of Michigan State University credits attempted. Credits in courses taken on the CR-NC system count as credits attempted irrespective of whether the outcome is CR or NC. Similarly included are all credits in courses taken on the P-N system. Credits in courses for which a V symbol was recorded are not included in credits attempted.

Grade-Point Credits
Total number of credits in all Michigan State University courses for which a numerical grade was recorded. Credits for courses repeated on the numerical system count only for the last grade recorded.

Grade-Point System
The grade-point system and the numerical grading scale are identical. Grade points for each course are determined by multiplying the numerical grade by the number of credits for the course.

Grade-Point Average
A measure of the student's academic performance in Michigan State University courses for which the student received a numerical grade.

Semester
To compute the grade-point average for a semester, divide the total grade points for the semester by the total grade-point credits for the semester.

Cumulative
To compute the cumulative grade-point average, divide the total grade points for all semesters by the total grade-point credits for all semesters.

A cumulative grade-point average of 2.0 is required for graduation from the university for bachelor's degrees. A cumulative grade-point average of 3.0 is required for graduate degrees.

For information on Grading Systems and Repeating a Course, refer to those statements.

INDEPENDENT STUDY

Definition
At Michigan State University, Independent Study is planned study, highly individualized, not addressable through any other course format, proposed in writing by the student on a standard form, accepted for supervision by a faculty member, and approved by the student's academic advisor and the teaching unit at the beginning of the semester.
Guidelines
Independent Study should:
1. Consist of work not described in the university catalog in any other format;
2. Be taken under a course number commensurate with the student's class level, major field, and experience;
3. Relate to a subject for which the student has adequate preparation;
4. Be directed by a faculty member with whom there is periodic contact and consultation throughout the study;
5. Not exceed 8 semester hours of credit in a single semester or summer session;
6. Not exceed 10 percent of the credits earned in a bachelor's program;
7. Be applied for on the form provided by the department or school or college;
8. Be approved on this form before the student enrolls for the course; registration should be completed by the end of the period for adding courses.

GRADING SYSTEMS

Michigan State University employs three systems of grading: a numerical system, a supplemental credit-no credit system, and a limited pass-no grade system.

All grades are final and may not be changed by re-examination or by the submission of additional work. See Repeating a Course.

The Numerical System
The numerical system consists of the following scale. 4.0 - 3.5 - 3.0 - 2.5 - 2.0 - 1.5 - 1.0 - 0.0.

Grading Procedure of the Numerical System:
1. Credit is awarded at the following minimum levels:
   1.0 for undergraduate students.
   2.0 for graduate students.
   However, all grades are counted in the calculation of the grade-point average (GPA).
2. The minimum cumulative grade-point average required for graduation is 2.0 for undergraduates and 3.0 for graduate students.
3. In particular graduate programs the number of 2.0 grades acceptable for credit may be expressly restricted and/or levels higher than the 2.0 minimum may be established for the fulfillment of degree requirements.
4. Grades given in courses completed under enrollment on the numerical system cannot be converted to credit or no-credit under the credit-no-credit system.

The Credit-No Credit System
The credit-no-credit system is intended to allow students to study in areas outside the major field of study without jeopardizing their grade-point averages. In the credit-no credit system the following symbols are used.

CR-Credit—means that credit is granted and represents a level of performance equivalent to or above the grade-point average required for graduation. Thus, undergraduate students must perform at or above the 2.0 level before credit is granted; graduate students must perform at or above the 3.0 level.

NC-No Credit—means that no credit is granted and represents a level of performance below the grade-point average required for graduation, i.e., below 2.0 for undergraduate students, below 3.0 for graduate students.

Grading Procedure of the CR-NC System
1. Grades on the CR-NC system are not included in computing the semester or cumulative grade-point average.
2. Enrollment on a CR-NC basis is recorded with the academic advisor and with the Registrar. The instructor's class list does not indicate which students are enrolled on CR-NC basis.
3. When the course is completed, all students are graded on the numerical system.
4. The Registrar then converts the numerical grades to credit or no credit in accord with the definitions of CR-NC stated above, but retains the numerical grades in the student's academic records.
5. When a student changes a major preference or a major, the Registrar will convert those letter grades to numerical grades in courses that are necessarily graded on the numerical system in the new major upon request by the student's college.

Enrollment in the CR-NC System
Enrollment on a CR-NC basis is open to students, at their option, subject to the following conditions:
1. Course prerequisites and other criteria for enrolling in any course shall be determined by the department or college offering the course and apply equally to both the numerical and the CR-NC systems.
2. The choice of numerical or CR-NC system does not affect admission to the course.
3. All courses in every department and college are available on a CR-NC basis unless these courses are:
   a. Used to satisfy the Tier I writing requirement, the Tier II writing requirement, the university mathematics requirement, and Integrative Studies Program requirements, or
   b. Designated as Type 1, Type 2, or Type 3 courses under the remedial-developmental-preparatory course policy.
   c. Specifically excluded from CR-NC enrollment by the department, school, or college of the student's major preference or major, or the unit recommending the student for certification.
4. Limitations:
   a. No undergraduate student may enroll in more than a total of 20 credits on the CR-NC system.
   b. The limitations on the number of credits a graduate student may take in a given semester on the CR-NC basis, and the total number of credits that may be taken in a given degree program on a CR-NC basis, shall be established by the college, department, or school, or the unit recommending the student for certification in which the student is a major.
5. Each department, school, or college, or the unit recommending the student for certification shall designate those courses that its majors or candidates for certification may not take on the CR-NC system.
6. Choice of the CR-NC system must be communicated by the student to the Office of the Registrar within the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) and may not be changed after that date.
7. Any course taken more than once must be repeated on the same grading system under which the course was completed the first time, except where standard require-
elements to the contrary must be satisfied in order to meet graduation requirements.

The Pass-No Grade System

This system is used only in courses specifically approved by the University Committee on Curriculum. Non-credit courses and those involving field experience are the usual types of courses approved for P-N grading. Courses approved for P-N grading are so marked in the Schedule of Courses on the web. In the pass-no grade system the following symbols are used:

- **P-Pass**—means that credit is granted and that the student achieved a level of performance judged to be satisfactory by the instructor.

- **N-No Grade**—means that no credit is granted and that the student did not achieve a level of performance judged to be satisfactory by the instructor.

GRADE MARKERS

Conditional Pass Marker

The Conditional Pass (CP) marker is used only for graduate-professional students in the College of Human Medicine and the College of Veterinary Medicine when all of the following criteria are met:

1. The student is enrolled in a 500- or 600-level course that is administered by the College of Human Medicine or College of Veterinary Medicine. The University Committee on Curriculum approved the use of the Pass-No Grade (P-N) grading system for College of Human Medicine students who are enrolled in 500- and 600-level courses in this college.

2. The student has either:
   a. met almost all of the course objectives (criteria for passing), but is deficient in a specific, definable course segment; or
   b. completed all of the course requirements but failed to meet the overall pass level by a narrow margin (e.g., received a 68 percent overall score where 70 percent is the pass level).

3. The course instructor believes that the student's overall performance has been such that the student should not be required to repeat the entire course and that the character of the deficiency is specific and identifiable and is likely to be remediable within a foreseeable time span and through specifiable action by the student.

   The required work must be completed and a grade (P or N or numeric) must be reported to the Office of the Registrar no later than the middle of the student's next semester in attendance, if that semester is within one calendar year following the receipt of the CP. An exception may be made if the instructor submits an administrative action form stating that the course structure necessitates delay of remediation grading until the end of the student's next semester in attendance (excluding summer session).

   When the specified remediation activity is completed or the time allowed for remediation has expired, the grade of P or N or numeric is assigned. The Conditional Pass marker remains on the student's academic record. Thus, the completion of the remediation activity within the time allowed results in a grade of CP/P or CP/1.0, and failure to complete the specified remediation activity by the due date results in a grade of CP/N or CP/0.0.

Visitor

The V-Visitor—is recorded on the transcript in credit courses for students enrolled as a visitor on a non-credit basis. Choice of the V-Visitor must be communicated by the student to the Office of the Registrar during the first 1/14th of the term of instruction (the 8th day of classes in the fall and spring semesters) and may not be changed after that date.

POSTPONEMENT OF GRADING

When special or unusual circumstances occur, the instructor may postpone assignment of the student's final grade in a course by use of an I-Incomplete, a DF-Deferred, or an ET-Extension marker.

I-Incomplete

The I-Incomplete may be given only when: the student (a) has completed at least 6/7 of the term of instruction, but is unable to complete the class work and/or take the final examination because of illness or other compelling reason; and (b) has done satisfactory work in the course; and (c) in the instructor's judgment can complete the required work without repeating the course.

Provided these conditions are met, the instructor electing to give an I-Incomplete files an Agreement for Completion of (I) Incomplete at the time course grades are due. This agreement specifies what the student must do, and when. The department or school office gives a copy to the student, and retains a copy for at least one year.

The required work must be completed, and a grade must be reported to the Office of the Registrar, no later than the middle of the student's next semester in attendance (summer session excluded) if that semester is within one calendar year following receipt of the I-Incomplete. Exception to this deadline: An instructor may submit an Administrative Action stating that course structure necessitates delay of make-up grading until the end of the student's next semester in attendance. The I-Incomplete, in addition to the grade reported, will remain on the student's academic record.

Failure to complete the required work by the due date will result in a grade of I/0.0, I/NC or I/N, depending on the grading system under which the student was enrolled. (A student who does not register for Michigan State University courses subsequent to receipt of an I-Incomplete has one calendar year to complete the required work; after that, the I-Incomplete will become U-Unfinished and will be changed to I/U on the student's academic record, and the course may be completed only by re-enrollment).

An extension of time for completion of the required work may be approved by the college offering the course only by means of an Administrative Action documenting physician-certified illness or other extraordinary circumstances.

An Extension of Time is a formal agreement between the instructor and the student. After an Extension of Time has been filed, the work must be done by the deadline determined by the instructor or the I-Incomplete will be changed to I/0.0, I/NC, or I/N depending on the grading system under which the student was enrolled.

DF-Deferred

The DF-Deferred applies to the numerical, the CR-NC, and P-N grading systems.

Given only to graduate students who are doing satisfactory work but cannot complete the course work because of reasons acceptable to the instructor.
The required work must be completed and a grade reported within six months (190 calendar days from the last class day of the term of instruction), with the option of a single six-month extension (190 calendar days). If the required work is not completed within the time limit, the DF-Deferred will become U-Unfinished and will be changed to DF/U. This rule does not apply to graduate thesis or dissertation work.

ET-Extension
The ET-Extension applies to the numerical, the CR-NC, and P-N systems. Given to undergraduate, graduate, and graduate-professional students only in courses specifically approved by the University Committee on Curriculum. Approval requires specification of the time period within which work must be completed. Courses that involve field experience or thesis work and courses in which work normally extends beyond one semester are the types of courses normally considered.

A final grade must be reported upon completion of the final course in the sequence or in the time approved for the completion of the work. If a final grade is not reported in these periods, the ET will be changed to ET/0.0, ET/NC or ET/N, depending on the grading system under which the student was enrolled.

REPEATING A COURSE
An undergraduate student who received a grade of 2.0 or above, CR, or P in a course may not repeat the course on a credit basis. An undergraduate student may repeat no more than 20 credits in courses in which grades below 2.0 were received. A graduate student who received a grade of 2.0 or above, CR, or P in a course may not repeat the course on a credit basis with the following exception: with the approval of the associate dean, a graduate student may repeat a course in which a grade of 2.0 or 2.5 was received. The number of credits that a graduate student may repeat is determined by the student's academic advisor or guidance committee, in accordance with unit policies.

Whenever a course is repeated on a credit basis, the last grade and credits earned completely replace the previous grade in the satisfaction of requirements and computation of the cumulative grade-point average. All entries remain a part of the student's permanent academic record.

Any course repeated for credit must be taken on the same grading system under which the course was taken the first time, except where standard requirements to the contrary must be satisfied in order to meet graduation requirements.

Credit by Examination may not be used to repeat a course in which a grade below 2.0 was received.

A student who has taken a course as a visitor may subsequently enroll in the course for credit with the approval of his or her advisor.

Financial Aid and Repeats
Federal financial aid regulations limit the number of times a student may repeat a course and receive financial aid for that course. The following guidelines apply to students eligible for federal aid.

1. A student may receive aid when repeating a course for the first time.
2. A student may receive aid when repeating a course that was previously failed (received a 0.0 or No Pass), regardless of the number of times the course was attempted and failed.
3. A student may receive aid to repeat a previously passed course one additional time.
4. Once a student has completed any course twice with a passing grade, he/she is no longer eligible to receive aid for that course.
5. If a student retakes a course that is not aid eligible, a recalculation of aid is done to exclude the credits for the repeated course. Students are notified by the Office of Financial Aid if their aid needs to be reduced.

CORRECTION OF GRADES
Once recorded in the Office of the Registrar, a student's grade may not be changed unless the first grade was in error. An Administrative Action must be submitted certifying the reasons why the first grade is in error. The request must be approved by the instructor, the chairperson of the department or school offering the course, the associate dean of the college in which the course is offered, and the student's associate dean. The time limit for the correction of grades is 30 days after the start of the subsequent semester or summer session.

The Office of the Registrar reserves the right to audit student records and to correct them as necessary.

INTEGRITY OF SCHOLARSHIP AND GRADES
(Note: This policy is not applicable to students in the MSU College of Law degree programs. The Law College follows American Bar Association requirements and the Law Students Rights and Responsibilities document.)

The following statement of university policy addresses principles and procedures to be used in instances of academic dishonesty, violations of professional standards, and falsification of academic or admission records, herein after referred to as academic misconduct. [See General Student Regulation 1.00, Protection of Scholarship and Grades.]

1. The principles of truth and honesty are recognized as fundamental to a community of scholars. The university expects both instructors and students to honor these principles and, in so doing, to protect the validity of university education and grades. Practices that maintain the integrity of scholarship and grades include providing accurate information for academic and admission records, adherence to unit-approved professional standards and honor codes, and completion of original academic work by the student to whom it is assigned, without unauthorized aid of any kind. To encourage adherence to the principles of truth and honesty, instructors should exercise care in planning and supervising academic work, and implement proctoring standards appropriate to the design of the course.

2. If an instructor alleges a student has committed an act of academic misconduct, the instructor is responsible for taking appropriate action. Depending on the instructor's judgment of a specific instance, the instructor may give the student a penalty grade. A penalty grade may be a reduced score or grade for the assignment or a reduced grade for the course. [For a definition of "penalty grade", see Student Rights and Responsibilities (SRR) 11 and Graduate Students Rights and Responsibilities (GSRR) 8.1.18.]

3. When an instructor gives an undergraduate or graduate student a penalty grade for academic misconduct, the instructor must complete and submit an Academic Dishonesty Report (available on the Registrar's Form Menu under Instructor Systems). The report will be sent to the student, the student's dean, the Dean of the Graduate School (for graduate students) or Dean of Undergraduate Studies (for undergraduate students) and be added to the student's academic record provisionally. It will remain in the student's record unless: a) the student successfully grieves the allegation; b) the in-
1.04 allow any examination or assignment to be completed
The principles of truth and honesty are fundamental to the educa-
tional process and the academic integrity of the University; there-
fore, no student shall:
4. When completing the Academic Dishonesty Report, if the in-
structor gives a failing grade in the course, the instructor may
request the student's academic dean to impose sanctions in addition to the failing grade.
5. When in the judgment of the student's academic dean, a
sanction in addition to a penalty grade is warranted (e.g., dis-
missal from a unit or program), the dean may call for an acade-
demic disciplinary hearing. In calling for an academic
disciplinary hearing, the student's academic dean may act in-
dependently or in response to a request by the instructor.
[See SRR 7.V., GSRR 5.5., and Medical Student Rights and
Responsibilities (MSRR) 5.3.]
6. A student accused of academic misconduct may request an
academic grievance hearing to contest the allegation before
the appropriate hearing board. In cases involving academic
misconduct, no student may be dismissed from a course or
program of study without an academic disciplinary hearing.
7. On the first offense of academic misconduct, the student
must complete an educational program on academic integ-
rity and academic misconduct provided by the Dean of Un-
dergraduate Studies for undergraduate students or the Dean
of the Graduate School for graduate students.
8. In cases involving undergraduate students in which the stu-
dent's academic dean, or designee, calls for an academic
disciplinary hearing, the student's academic dean will refer
the case to the Dean of Undergraduate Studies. The Dean of
Undergraduate Studies will notify the student in writing of the
call for a disciplinary hearing and will invite the student to a
meeting to determine the appropriate judiciary for the
hearing. [See SRR 7.V.]
9. In cases involving graduate students in which the student's
academic dean, or designee, calls for an academic discipli-
inary hearing, the student's academic dean will inform the stu-
dent and then refer the case to the Dean of the Graduate
School. The Dean of the Graduate School will notify the stu-
dent in writing of the call for a disciplinary hearing and will in-
vite the student to a meeting to discuss the hearing process.
[See GSRR 5.5.]
10. Either party may appeal a decision of an administrative disci-
plinary hearing or a disciplinary hearing board to the appro-
riate appellate board. [See SRR 7.VII., GSRR 5.4.12., and
MSRR 5.8.]

PROTECTION OF SCHOLARSHIP AND GRADES
GENERAL STUDENT REGULATIONS, 1.00

questions or answers to any examination or assignment
without proper authorization.
1.03 complete or attempt to complete any assignment or ex-
amination for another individual without proper authori-
ization.
1.04 allow any examination or assignment to be completed
for oneself, in part or in total, by another without proper author-
ization.

mat in which such question or answer may originally have been
maintained.
.02 No person shall furnish to any unauthorized person any ex-

.03 The unauthorized possession of any of the aforesaid exam-
ination documents shall be considered prima facie evidence of an
attempt to violate the provisions of this section.

PERSONAL INTEGRITY AND CONDUCT

The university expects student conduct and behavior to reflect
qualities of good citizenship. The out-of-classroom activities of
Michigan State University students should reflect favorably upon

THE ACADEMIC RECORD

A Grade Report of a student's grades earned in each course is
available to the student at the end of each semester or summer
session at www.stuinfo.msu.edu.

Due to unsatisfactory work, a student may be warned, placed
on probation, academically recessed, or academically dismissed
from the university.

A permanent record of all the student's courses, credits and
grades earned is maintained by the Office of the Registrar, 150
Administration Building. The permanent record reflects all
courses taken while enrolled at any academic level at Michigan
State University. Records are regularly audited and corrected as
necessary. The student should maintain a record of courses,
credits and grades each semester or summer session and check
from time to time to see that this record agrees with that of the
university. The record may also help the student determine eligi-
bility for any activity that requires meeting specific scholastic
standards.

TRANSCRIPTS

A copy of a student's complete permanent record is available to
the student upon receipt of a request. The permanent record re-
fects all courses taken while enrolled at any academic level at
Michigan State University. Transcripts can be requested at
GENERAL INFORMATION, POLICIES, PROCEDURES AND REGULATIONS

General Procedures and Regulations

https://reg.msu.edu/Transcripts/Transcript.aspx. Requests can also be made in person or by writing to the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 150, East Lansing, Michigan 48824-2603. The University reserves the right to withhold the transcript in case of delinquent student indebtedness to the University. However, the Student Accounts Office may authorize release of a transcript directly to a prospective employer on an exception basis.

CERTIFIED COPY OF DIPLOMA

A certified copy of the student's diploma is available to the student. The student must bring the original diploma and the $25 fee for each copy to the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 150, East Lansing, Michigan 48824-2603. HONORARY DEGREES

Michigan State University has been awarding honorary degrees since 1885 to honor distinguished persons for their contributions to their field and to society. Nominees exemplify the values inherent in MSU's mission. Past recipients include accomplished scientists, humanists, scholars of the arts, members of the professions, and persons in public life or business. Invitations to nominees are issued only by the President.

For more information on the nomination process, visit www.msu.edu/~vprgs/honorarydeg/HonoraryDegrees.htm.

POSTHUMOUS DEGREES

A posthumous degree may be awarded in the name of a deceased student upon the recommendation of the student's major department and college when the student was in good academic standing and had made substantial progress towards the degree.

The chairperson of the department responsible for the administration of the degree program of the deceased student may submit a recommendation to the dean, who, in turn, may submit a recommendation to the registrar for records verification. The registrar will forward to the provost. If the provost endorses, then the recommendation will be sent to the president to be considered for final approval. The transcript bears the notation, “Degree granted posthumously.”

STUDENT RECORDS AND THE FEDERAL FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Michigan State University complies fully with the letter and spirit of the Federal Family Educational Rights and Privacy (FERPA) which governs access to, and confidentiality of, student records.

As a means of complying with this act, the university has developed the Michigan State University Access to Student Information. These Guidelines are reproduced below.

MICHIGAN STATE UNIVERSITY ACCESS TO STUDENT INFORMATION

Introduction

Michigan State University (“the University”) maintains student education records and is responsible for their access to and release in accordance with the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g (“FERPA”). It is the policy of the University to comply with FERPA.

Reason for Guidelines

These guidelines comply with standards established in FERPA. The guidelines govern the procedures for maintenance and access to student education records held by the University. The guidelines have a two-fold purpose:

1. To protect a student’s right to privacy of information in the University’s possession concerning the student; and
2. To provide guidance on release or disclosure of student information required by law and as necessary for the effective functioning of the campus community.

Who Should Read These Guidelines

All students, faculty and staff with access to student education records should read and be familiar with these guidelines.

Notification of Student Rights under FERPA

All currently enrolled students at the University are notified annually of their rights under FERPA. These rights include:

1. The right to inspect and review the student’s education records.
2. The right to request amendment of education records the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.
3. The right to provide written consent before personally identifiable information from the student’s education records is disclosed except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning any alleged violation of the student’s rights under FERPA.

Definitions

The following definitions apply to terms as they are used in these guidelines.

Directory Information

Directory information is information in a student’s education record which may be disclosed to outside parties without a student’s prior written consent. While disclosure of directory information about a student is not generally considered harmful or an invasion of privacy under FERPA, FERPA does not require the University to disclose directory information to outside parties. Information that the University has designated as directory information is listed in the Michigan State University Notification of Student Rights under FERPA available at https://www.reg.msu.edu/read/NotificationandDirectoryInformationNotice.pdf. Currently enrolled students may restrict the release of directory information by notifying the Office of the Registrar or updating their directory restrictions online through the StuInfo web site at https://stuinfo.msu.edu/.

Education Records

Education records are those records, files, documents, and other materials which contain information directly related to a student and are maintained by the University or by a party acting on behalf of the University. This includes information or data recorded in any medium including, but not limited to, handwriting, print, tapes, film, microfilm, microfiche, and any electronic storage or retrieval media.

Education records exclude: (1) records that are in the sole possession of school officials and are not accessible by other personnel; (2) law enforcement or campus security records that are maintained or created by the law enforcement unit for the purpose of law enforcement; (3) employment records relating to students who are employed by the University, unless the employment is a result of his/her status as a student; (4) records created or maintained by a physician, psychiatrist, psychologist or other recognized professional
or paraprofessional, that are used only in connection with the treatment of the student and are not available to anyone other than those providing such treatment; and (5) records that contain information about an individual after that person is no longer a student at the University, unless the records pertain to the individual’s previous attendance as a student.

FERPA

Legitimate Educational Interest
An individual has a legitimate educational interest in education records if the information or record is relevant and necessary to the accomplishment of some employment or other institutional task, service, or function.

Parent
A parent is an individual who is the natural parent, the guardian, or the individual acting as the parent in the absence of a parent or guardian, of a student at the University.

Personally Identifiable Information
Personally identifiable information is any information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the campus community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. Examples of personally identifiable information include, but are not limited to: (1) the student’s name; (2) name of the student’s parent or other family member; (3) the address of the student or student’s family; (4) a personal identifier, such as a student’s social security number or student number; (6) the student’s date and place of birth; (6) the student’s mother’s maiden name; (7) biometric record; and (8) a list of personal characteristics or other information that would identify the student with reasonable certainty. Personally identifiable information also includes information requested by a person who the University reasonably believes knows the identity of the student to whom the education record relates.

School Officer
A school official is a person employed by the University in an administrative, supervisory, academic/research, or support staff position; contractors, consultants, volunteers and other non-employees performing institutional services and functions; and a person serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Student
A student is any individual with respect to whom the University maintains education records and has been in attendance at the University. Attendance is defined as physical attendance or participation in an academically-related activity, including but not limited to the submission of an assignment, taking an exam, or participation in a study group or online discussion about academic matters. A student’s education records are protected under these guidelines beginning on the first day of the first term for which they have enrolled. No student shall be required to waive his or her rights under FERPA as a condition of admission or for the receipt of any services or benefits.

Oversee campus compliance, education and awareness of FERPA.

Procedures

Disclosure to Students

Inspection and Review
A currently enrolled or former student has the right to inspect and review his/her education records under FERPA. All such requests must be made to the Office of the Registrar. Requests for access to records must be granted within a reasonable period of time, but in no case later than forty-five (45) days from the date of request. If a student is denied access to his/her education records, the student may appeal in writing to the official maintaining the records or to the University Registrar. If the decision to deny access is upheld, the school official handling the appeal must provide a written statement to the student regarding the basis for the denial within ten (10) days of the receipt of the appeal. Following the appeal, the student or the school official may request the Associate Provost for Academic Services and Enrollment Management to provide guidance on the rules and policies concerning access to education records. If the Associate Provost for Academic Services and Enrollment Management determines that the requested record is an education record to which the student may have access under FERPA and these guidelines, the record shall be made available to the student.

Amendment of Record
A currently enrolled or former student has the right to request an amendment of records that he/she believes to be inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A request to amend a record should be made in writing to the school official maintaining the record, clearly identifying the part of the record the student wants changed and specifying why it should be changed. If the request is denied, the school official will notify the student in writing of the decision and the right to a formal hearing on the matter.

Request for amendment must be made in writing to the University Registrar. Hearings will be conducted by a school official, otherwise known as the hearing officer, who does not have a direct interest in the outcome of the hearing. The hearing officer will provide notice to the student, reasonably in advance, of the date, place, and time of the hearing. The student will be afforded a full and fair opportunity at the hearing to present relevant evidence and is entitled to have a representative or advisor attend the hearing.

In the hearing, the hearing officer will prepare a report discussing his/her decision. Copies of the report will be distributed to the parties who have a legitimate educational interest in the report. If the hearing officer decides the student’s request to amend the record was improperly denied, the record shall be amended accordingly. Should the hearing officer uphold the denial, the student may appeal the hearing officer’s decision, in writing, to the Associate Provost for Academic Services and Enrollment Management within ten (10) days after notice of the decision is sent. The Associate Provost for Academic Services and Enrollment Management will request an Appeals Committee, consisting of three (3) disinterested University officials, to make a final determination after reviewing records from the hearing, the hearing officer’s report, and other relevant information. If the Appeals Committee determines the student’s education record is factually incorrect, the record shall be amended accordingly. Should the Appeals Committee decide to uphold the denial, the student will be given an opportunity to place a written statement with the education record setting forth his/her disagreement with the decision. The student’s statement and the Appeal Committee’s decision will be maintained as part of the student’s education record for as long as the University maintains the record and may be disclosed to an authorized party when requested. The student also has the right to file a complaint with the Family Policy Compliance Office at the U.S. Department of Education.

Letters of Recommendation
Students may not have access to letters of recommendation or statements of evaluation obtained or prepared before January 1, 1975. A student may waive his/her right to access letters of recommendation obtained after January 1, 1975. A student who wishes to waive his/her right to access letters of recommendation must provide a signed statement of waiver to the author of the letter or the Office of the Registrar.

Disclosure to Third Parties
Personally identifiable information from a student’s education records may not be released to third parties without the student’s prior written consent, with certain exceptions. The exceptions to the consent requirement are limited to the following:

1. Disclosure to School Officials. Personally identifiable information from education records may be disclosed without written consent to school officials who have a legitimate educational interest in the records. These records may be disclosed only on a need to know basis. Specifically, a school official requesting information must have a legitimate need for the requested information for the effective functioning of his/her position or office. Determination as to whether the need to know requirement has been satisfied is made by the head administrator for the unit retaining the information or by the Office of the Registrar. All information released may only be used for the purpose intended.

For purposes of the school official’s exception, education records may also be disclosed without consent to contractors, consultants, and other outside parties to whom the University has outsourced institutional services or functions that it would otherwise use employees to perform, provided that the outside party is under the direct control of the University with respect to the use and maintenance of the education records and subject to the same conditions as the use and maintenance of education records that apply to other school officials. The outside party must sign a statement indicating its compliance with the non-redisclosure provisions of FERPA prior to receiving any student information.

2. Disclosure to Officials of Another School. Personally identifiable information from education records may be disclosed to officials of another school where the student...
seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.

3. Disclosure of Directory Information. Information that the University has designated as directory information in the Michigan State University Notice of Directory Information may be disclosed without the student's consent.

4. Disclosure pursuant to Judicial Order. Personally identifiable information from education records may be disclosed in accordance with a judicial order or a lawfully issued subpoena. As permitted by law, reasonable attempts will be made to notify the student of the judicial order or subpoena in advance of compliance.

5. Disclosure pursuant to Requests for Financial Aid. Personally identifiable information from education records relevant to the student's application for, or receipt of, financial aid may be disclosed if the information is necessary to determine eligibility, determine amount or conditions of the aid, or enforce the terms and conditions of the aid.

6. Disclosure to Federal and State Authorities. Authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state or federal educational authorities, may disclose personally identifiable information from education records under this provision if the disclosure is in connection with a judicial order or a lawfully issued subpoena. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal, state, or local laws, regulations, or the standards thereof.

7. Disclosure pursuant to the University's Obligations to Support Stipulated Research. The University may disclose personally identifiable information from a student's education records without consent if the disclosure is to an organization conducting studies for, or on behalf of, the University. The University may require the organization to destroy personally identifiable information within a specified time period when the information is no longer needed for the purposes of the study.

8. Disclosure pursuant to Student's Delinquency on Payment. Personally identifiable information from education records may be disclosed as necessary to effect collection of a student's financial obligations to the University.

9. Disclosure pursuant to the Wetterling Act, 42 U.S.C. 14071. The University may disclose personally identifiable information from student's education records without consent if the disclosure is to an organization conducting studies for, or on behalf of, the University. The University may require the organization to destroy personally identifiable information within a specified time period when the information is no longer needed for the purposes of the study.

10. Disclosure to Accrediting and Professional Associations. Designated representatives of accrediting and other professional organizations with which the University is affiliated may have access to personally identifiable information to the extent necessary to fulfill the obligations of that accreditation or affiliation.

11. Disclosure to Federal and State Authorities. Authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state or federal educational authorities, may disclose personally identifiable information from education records under this provision if the disclosure is in connection with a judicial order or a lawfully issued subpoena. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal, state, or local laws, regulations, or the standards thereof.

12. Disclosure pursuant to the University's Obligations to Support Stipulated Research. The University may disclose personally identifiable information from a student's education records without consent if the disclosure is to an organization conducting studies for, or on behalf of, the University. The University may require the organization to destroy personally identifiable information within a specified time period when the information is no longer needed for the purposes of the study.

13. Disclosure of Results of a Disciplinary Proceeding. The final results of a disciplinary proceeding may be disclosed to the extent necessary for the protection of the health or safety of the student or another individual if there is a significant and articulable threat to the health or safety of a student or other individual, concerning the health or safety of others; and if the University determines that such action is necessary to protect the health or safety of the student or another individual if there is a significant and articulable threat to the health or safety of a student or other individual, concerning the health or safety of others.
POLICY ON RELIGIOUS OBSERVANCE

It has always been the policy of the University to permit students and faculty to observe those holidays set aside by their chosen religious faith. The faculty and staff should be sensitive to the observance of these holidays so that students who absent themselves from classes on these days are not seriously disadvantaged. It is the responsibility of those students who wish to be absent to make arrangements in advance with their instructors. It is also the responsibility of those faculty who wish to be absent to make arrangements in advance with their chairpersons, who shall assume the responsibility for covering their classes.

As Michigan State University has become increasingly multicultural, the incidence of conflicts between mandatory academic requirements and religious observances has increased. In the absence of a simple and dignified way to determine the validity of individual claims, the claim of a religious conflict should be accepted at face value. Be aware that some degrees of observance may have a more extensive period of observance. Instructors may expect a reasonable limit to the number of requests by any one student. Some instructors attempt to cover all reasons for student absences from required academic events such as quizzes or exams with a blanket policy, e.g., allowing the student to drop one grade or two quizzes without penalty. If this is meant to extend to religious observances, the instructor should state this clearly at the beginning of the term. If instructors require make-up exams, they retain the right to determine the content of the exams and the conditions of administration, giving due consideration to equitable treatment.

POLICY ON GRIEF ABSENCE

The faculty and staff should be sensitive to and accommodate the bereavement process of a student who has lost a family member or who is experiencing emotional distress from a similar tragedy so that the student is not academically disadvantaged in their classes or other academic work (e.g., research). For undergraduate and master’s (Plan B) students without research responsibilities, it is the responsibility of the student to: a) notify the Associate Dean or designee of their college of the need for a grief absence in a timely manner, but no later than one week from the student’s initial knowledge of the situation, b) provide appropriate verification of the grief absence as specified by the Associate Dean, and c) complete all missed work as determined in consultation with the instructor. It is the responsibility of the Associate Dean or designee to: a) determine with the student the expected period of absence — it is expected that some bereavement processes may be more extensive than others depending on individual circumstances, b) notify the faculty that the student will be absent, and c) receive verification of the authenticity of a grief absence request upon the student’s return. It is the responsibility of the instructor to work with the student to make reasonable accommodations and to include appropriate language describing such accommodations in their course syllabus, so that the student is not penalized due to a verified grief absence.

For master’s (Plan A), master’s (Plan B) with research responsibilities, and doctoral students, it is the responsibility of the student to: a) notify their advisor/major professor and faculty of the courses in which they are enrolled of the need for a grief absence in a timely manner, but no later than one week from the student’s initial knowledge of the situation, b) provide appropriate verification of the grief absence as specified by the advisor/major professor and faculty, and c) complete all missed work as determined in consultation with the advisor/major professor and faculty. It is the responsibility of the advisor/major professor to: a) determine with the student the expected period of absence — it is expected that some bereavement processes may be more extensive than others depending on individual circumstances, b) receive verification of the authenticity of a grief absence request upon the student’s return, and c) make reasonable accommodations so that the student is not penalized due to a verified grief absence. If employed as a RA or TE, the graduate student must also notify their employer. Both employer and student will swiftly communicate to determine how the student’s responsibilities will be covered during their absence. Graduate teaching assistants (TAs) should refer to the bereavement policy in the MSU GEU CBU Article 18.

Students in the graduate professional colleges (CHM, COM, CVM, LAW) with their own grief absence policies are excluded from the above and should follow their own policies. Students who believe their rights under this policy have been violated should contact the University Ombudsperson.

Federal law may supersede Michigan Law. Removing material from the MSU Libraries without checking it out or return in criminal charges. MSU/ID cards are property of MSU. If used by anyone other than the owner, an MSU ID will be confiscated.

THE CAMPUS

The Michigan State University campus in East Lansing occupies 5,239 contiguous acres and has long been recognized as one of the most beautiful in the nation. The developed campus comprises 2,100 acres, and the remaining 3,139 acres are devoted to experimental farms, outlying research facilities, and a 36-hole golf course. Combined, the developed campus and farms area also contain 27 natural areas which encompass more than 700 acres. The gently-rolling campus is graced by a park-like landscape, traversed by the scenic tree-lined Red Cedar River. Campus beauty is enhanced by a mature collection of trees, shrubs, and woody vines that serve teaching, research and outreach functions with over 36,000 plants accounted for in an interactive digital database. Planting of trees on the campus began shortly after its founding in 1855. A more formal collection of trees was initiated on campus in 1874 in what is known as the Campus Arboretum Collection. The rich campus open space complements and unifies the 565 permanent university buildings that provide over 24.2 million gross square feet of space to serve the institution’s land-grant mission.

The spacious campus arboretum is punctuated at intervals by focal points of plant interest. Notable among these are the W. J. Beal Botanical Garden, the Horticultural Demonstration Gardens, the 4-H Children’s Garden, the C.E. Lewis Landscape Arboretum, the West Circle Drive loop, and the Sanford, Red Cedar, Baker, Beal Pinetum, Bear Lake, and Toumey Natural Areas. The W.J. Beal Botanical Garden was established in 1873 to support teaching, research and community outreach across campus. Besides being one of the very first continuously operated campus botanical gardens in North America, it is the site where hybrid maize was first developed by Professor Beal, and is still the place where the longest running science experiment in history is ongoing today. The 2,500 plant taxa in the labeled beds are organized into systematic, and economic collections. The adjoining slopes have many more species that comprise regional ecological and landscape groupings. Besides providing accessioned plant materials annually for millions of dollars of grant supported research, the Beal Botanical Garden also participates in a robust International Seed Exchange and shares and develops plant biology information with hundreds of botanical gardens worldwide. The Horticultural Demonstration Gardens, which showcase beautiful displays of over 1,200 varieties of flowering plants, are used for instruction, research and demonstration and for testing the performance of plants in the climate of central Michigan. They include both All-American Trial and Euro-Select Trial Gardens for annual plants and an All-American Display Garden for roses. Natural areas on the campus are protected vestiges of our natural heritage and include Toumey Woodlot, an old-growth beech-maple forest designated by the U.S. Department of the Interior as a Natural Landmark. Management of the natural areas is held to a minimum necessary to assure that their manifold teaching, research,
recreational, and inspirational values will continue to serve genera-
tions of future students, staff, and faculty.

ABRAMS PLANETARIUM
The Abrams Planetarium is an acknowledged leader in the pop-
larization of astronomy. It is named after Dr. Talbert "Ted" and Mrs. Leota Abrams, who generously gave the original gift of $250,000 over 50 years ago. Today, the building features a 140-seat Sky Theater housing a digital full-dome projector, a black light gallery, an exhibit hall, and gift counter.

The major goals of the planetarium include offering engaging multimedia presentations that always contain a live presentation to the public, tailored program for the needs of K-12 students, and up-to-date undergraduate education across disciplines through collaboration with people across campus and the community.

Star shows and other events are offered to the public on week-
ends and special occasions. Visitors to the exhibit hall are wel-
come between 8:30 a.m. and noon and 1:00 p.m. an 4:30 p.m. on weekdays.

For more information and a full listing of our offerings visit www.abramsplanetarium.org.

ALUMNI MEMORIAL CHAPEL
Nestled amidst trees and lawns that slope gently down to the Red Cedar River stands the picturesque Alumni Memorial Chapel. Thousands of Michigan State University students and alumni have selected the chapel for their wedding ceremonies since its dedication on June 7, 1952. Its simple elegance, timbered ceil-
ings, stained glass windows and collegiate Gothic charm are among the reasons many travel from around the world to cele-
brate weddings, baptisms, and memorials at their alma mater. The chapel was built “in honor of those who served their country” and “in memory of those students and alumni who made the su-
preme sacrifice.” More than 5,000 alumni and friends of the uni-
versity raised the initial $200,000 to build the chapel. The Michigan State University Alumni Memorial Chapel seats approxi-
mately 190 people. Accommodating all faiths, each ceremony is treated with the same respect and reverence. This commitment to excellence has made countless weddings at the chapel unique and memorable. To reserve the Michigan State University Alumni Memorial Chapel, call 1-517-884-8127.

Greek Community

Since 1872, Michigan State University students have had the choice of participating in a nationally affiliated Greek letter organization. Today, the Greek community is comprised of more than 60 internationally affiliated social Greek letter organizations with a combined membership of over 4,000 students. Greek letter organizations merge almost every segment of the campus community into their chapters-leadership development, community service, athletics, social life, housing, management and business functions, alumni relations, accountability, and responsibility. Through quality educational experiences, fraternities and sororities support the Guiding Principles of the institution, as well as provide an avenue whereby all students experience active learning through self-governance.

The 62 fraternities and sororities are governed by governing councils responsible for representing constituents to the greater campus and East Lansing communities, providing programs and services to chapters and their members, and creating and enforcing standards and policies throughout the Greek community. Through mutual interdependence, the governing councils assist all 62 member organizations in providing a quality Greek experience for their members. The governing councils include:

- Interfraternity Council (IFC), governing 31 internationally affiliated men's Greek letter organizations.
- Panhellenic Council (Panhell), governing 14 National Panhellenic Council Greek letter organizations
- National Pan-Hellenic Council (NPHC), governing 9 historically African-American men's and women's Greek letter organizations.
