

# College of SOCIAL SCIENCE

Mary A. Finn, Acting DEAN

Our science transforms the human experience. Our faculty and students seek to understand and improve lives at the individual, group, organizational and societal level. In addition to substantive knowledge in their field, students in the College of Social Science acquire the communication and analytical skills needed to excel in complex and changing environments. The College has made a commitment to engaged and experiential learning; every student graduating will have an opportunity to learn outside the traditional classroom. The College is open and welcoming. We are a diverse and dynamic intellectual community deriving strength from a plurality of identities and lived experiences. The complexity and scale of societal challenges demands nimble and rigorous solutions that can only emerge through exceptional research, teaching and collaborations. Our faculty are global leaders in top-tier research while advancing engaged learning and societal well-being.

The College offers graduate and undergraduate courses and degree programs, as well as undergraduate minors and graduate specializations, through its 12 departments and schools: Department of Anthropology; School of Criminal Justice; Department of Economics; Department of Geography, Environment, and Spatial Studies; Department of History; Department of Human Development and Family Studies; School of Human Resources and Labor Relations; School of Planning, Design and Construction (Urban and Regional Planning); Department of Political Science; Department of Psychology; School of Social Work; and the Department of Sociology. As well as through: Other academic programs include: the Center for Integrative Studies in Social Science; Chicano/Latino Studies; Environmental Science and Policy

Program; Global Urban Studies Program; and the Center for Gender in Global Context.

Affiliated centers and institutes that contribute to the research, outreach, and teaching missions of the College include: Center for Anti-Counterfeiting and Product Protection; Center for Global Change and Earth Observations; Center for Humane Arts, Letters and Social Sciences Online (MATRIX); Remote Sensing and Geographic Information Science Research and Outreach Services; Institute for Public Policy and Social Research; and the Institute of Public Utilities.

The College also offers the Social Science Scholars Program; a rigorous program of study for a close-knit community of student scholars, integrating intensive seminars, internships, study abroad, undergraduate research, and mentoring by faculty and alumni. A few Departments in the College - Economics, History, and Political Science - similarly maintain Scholars programs.

#### **UNDERGRADUATE PROGRAMS**

The College of Social Science offers degree programs through its departments and schools and through the Center for Integrative Studies in Social Science. A student should carefully study the catalog descriptions of these majors before choosing one. The three general types of majors in the college are described below.

A **departmental** major consists of at least 30 credits in courses recognized by the department as counting toward the major. Each departmental major is designed to provide concentrated study in a specific field; it will be complemented by courses out-

side the major to give breadth to a student's education, including an interdisciplinary minor.

A student majoring in one of the **schools** is introduced to principles and techniques that are basic to the subject area and then learns to apply them in professional programs of study. The minimum number of credits required varies among programs. In each school, the major program consists of courses offered within the school and course work in complementary disciplines.

The Interdisciplinary Studies in Social Science major, administered by the Center for Integrative Studies in Social Science, is organized around three thematic concentrations. Students select one from the following: Community Governance and Advocacy, Health and Society, and Liberal Studies. The Social Science Education major is available for students seeking teacher certification. The Global and International Studies in Social Science major focuses on the study of global systems and processes as they are expressed in local places.

Majors in the college lead to either a Bachelor of Arts or a Bachelor of Science degree. They provide a valuable background for those interested in a wide variety of careers, as well as for those intending to pursue advanced degrees in professional or graduate school.

#### **Minors**

The College of Social Science requires each student to complete an interdisciplinary minor. Minors approved to meet this requirement include: African Studies; Asian Studies; Environment and Health; Human Behavior and Social Services; International Development; Law, Justice and Public Policy; Leadership of Organizations; Race and Ethnicity in the United States; The City: Environment, Design, and Society; and Youth and Society.

The college also offers a number of other minors, which may be combined with the requirements of a student's degree program if desired. These include: Anthropology; Asian Pacific American Studies; Chicano/Latino Studies; Defense Studies and Leadership; Economics; Geographic Information Science; Geography; Global Studies in Social Science; Latin American and Caribbean Studies; Peace and Justice Studies; Security Management; and Sociology.

Students in Social Science may also complete a Minor in Bioethics (see the *Lyman Briggs College* section of this catalog).

Students who are enrolled in bachelor's degree programs in the college may elect the *Minor in Environmental and Sustainability Studies*. For additional information, refer to the statement on *Minor in Environmental and Sustainability Studies* in the *College of Natural Science* section of this catalog.

#### Freshmen

Freshmen at Michigan State University are enrolled in the Neighborhood Student Success Collaborative but may declare a major preference for a major in a department or school of the College of Social Science, the Interdisciplinary Studies in Social Science major, or the Global and International Studies in Social Science major. Students who declare any Social Science major preference will be assigned an academic advisor in this College. Upon reaching 28 credits, sophomores may choose to declare their major in the college.

#### Admission to the College of Social Science

- 1. Completion of at least 28 credits acceptable to the college.
- An academic record which at least meets the requirements of Academic Standing of Undergraduate Students.
- Acceptance as a major in a program of the college. The number of students admitted to the School of Planning, Design

- and Construction, Urban and Regional Planning, and the School of Social Work program is limited.
- 4. Students interested in the History Education major or the Interdisciplinary Studies in Social Science: Social Science Education major must be admitted first to the Teacher Preparation Program in the College of Education.

### Graduation Requirements for the Bachelor of Arts and Bachelor of Science Degrees

To ensure an appropriately broad and well-balanced education, all undergraduates enrolled in the College of Social Science must satisfy the following subject matter and credit requirements, in addition to the graduation requirements of the university as described in the *Undergraduate Education* section of this catalog.

The following restrictions pertain to all courses taken in fulfillment of requirements for the Bachelor of Arts and Bachelor of Science degrees in the College of Social Science:

- Courses applied to the university requirements in Integrative Studies and Mathematics may **not** also be counted toward the college graduation requirements.
- 2. Unless otherwise noted, no more than two courses offered by a student's major department or school may be counted toward the college requirements.
- Only credits in courses graded on the numerical or Pass-No Grade system may be counted toward college and major requirements, i.e. courses taken in satisfaction of college and major requirements may not be taken on a Credit-No Credit basis.
- Not more than 4 credits of independent study, internship, field experience, or practicum courses may be used to fulfill the college requirements for the Bachelor of Arts and Bachelor of Science degrees.
- Complete the requirements of a major of no fewer than 30 credits with a minimum 2.0 grade-point average for courses in the major.

#### l. Bachelor of Arts

#### All candidates must meet the following requirements:

A. EXPERIENTIAL LEARNING REQUIREMENT

All students must complete an experiential learning requirement. The experiential learning requirement may be satisfied either within or outside the requirements of the major. The requirement may be met by completing a 3 or 4-credit experiential learning course, approved by the College of Social Science Committee on Curriculum and Academic Policy or its designee. A list of approved courses will be maintained by the College of Social Sci-The experiential learning requirement is designed to ensure that each undergraduate student will have the opportunity to enhance problem-solving and integrative reasoning skills through practice outside of the traditional classroom learning environment. Study abroad and study away experiences, internships, service learning and civic engagement experiences, undergraduate research, including, in appropriate cases, honors theses, and entrepreneurship experiences can meet this requirement. The requirement may also be met through a non-credit experience, for example, an undergraduate research experience mentored by a faculty member, if approved in advance by the College of Social Science Committee on Curriculum and Academic Policy or its designee. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school.

#### B. INTERDISCIPLINARY MINOR REQUIREMENT

Complete a minimum of 15 credits in one Interdisciplinary Minor from a list of minors approved by the College of Social Science Committee on Curriculum and Academic Policy. Minors approved for this requirement include: African Studies; Asian Studies; The City: Environment, Design and Society; Law, Justice, and Public Policy; Leadership of Organizations; Human Behavior and Social Services; Social Science Data Analytics; Youth and Society. Other interdisciplinary minors can meet this requirement if approved by the College of Social Science Committee on Curriculum and Academic Policy or its designee. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school.

#### C. SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS REQUIREMENT

Complete a minimum of 6 credits in Science, Technology, Engineering, and Mathematics courses from a list of courses approved and maintained by the College of Social Science Committee on Curriculum and Academic Policy. Most courses offered in the College of Natural Science and the College of Engineering count toward this requirement. Other courses approved by the College of Social Science Committee on Curriculum and Academic Policy can meet this requirement. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school. A department or school may require its majors to complete specific courses or particular subject matter areas to satisfy this requirement. The requirement may be satisfied either within or outside the requirements of the major or within the interdisciplinary minor. Mathematics 1825, 100E, and 290 may not apply to this requirement for the Bachelor of Arts degree.

#### D. DISTRIBUTION REQUIREMENTS

- Complete a minimum of 30 credits in courses numbered at the 300 level and above. Courses offered by the student's major department or school may be used to satisfy this requirement.
- A maximum of 12 credits of independent study may be applied to the degree.
- A maximum of 12 credits of internship, field experience, or practicum credits may be applied to the degree.
- The total of independent study, internship, field experience, and practicum credits applied to the degree may not exceed 20 credits.

#### II. Bachelor of Science

All candidates must meet the following requirements:

#### A. EXPERIENTIAL LEARNING REQUIREMENT

All students must complete an experiential learning requirement. The experiential learning requirement may be satisfied either within or outside the requirements of the major. The requirement may be met by completing a 3 or 4-credit experiential learning course, approved by the College of Social Science Committee on Curriculum and Academic Policy or its designee. A list of approved courses will be maintained by the College of Social Science. The experiential learning requirement is designed to ensure that each undergraduate student will have the opportunity to enhance problem-solving and integrative reasoning skills through practice outside of the traditional classroom learning environment. Study abroad and study away experiences, internships, service learning and civic engagement experiences, undergraduate

research, including, in appropriate cases, honors theses, and entrepreneurship experiences can meet this requirement. The requirement may also be met through a non-credit experience, for example, an undergraduate research experience mentored by a faculty member, if approved in advance by the College of Social Science Committee on Curriculum and Academic Policy or its designee. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school.

#### B. INTERDISCIPLINARY MINOR REQUIREMENT

Complete a minimum of 15 credits in one Interdisciplinary Minor from a list of minors approved by the College of Social Science Committee on Curriculum and Academic Policy. Minors approved for this requirement include: African Studies; Asian Studies; The City: Environment, Design and Society; Law, Justice, and Public Policy; Leadership of Organizations; Human Behavior and Social Services; Social Science Data Analytics; Youth and Society. Other interdisciplinary minors can meet this requirement if approved by the College of Social Science Committee on Curriculum and Academic Policy or its designee. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school.

#### C. SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS REQUIREMENT

Complete a minimum of 12 credits in Science, Technology, Engineering, and Mathematics courses from a list of courses approved and maintained by the College of Social Science Committee on Curriculum and Academic Policy. Most courses offered in the College of Natural Science and the College of Engineering count toward this requirement. Other courses approved by the College of Social Science Committee on Curriculum and Academic Policy can meet this requirement. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school. A department or school may require its majors to complete more than 12 credits to satisfy this requirement. The requirement may be satisfied either within or outside the requirements of the major or within the interdisciplinary minor. Mathematics 1825, 100E, and 290 may not apply to this requirement for the Bachelor of Science degree.

#### D. ARTS AND HUMANITIES REQUIREMENT

Complete a minimum of 6 credits in Arts and Humanities from a list of courses approved by the College of Social Science Committee on Curriculum and Academic Policy. Most courses offered in the College of Arts and Letters count toward this requirement. Other courses approved by the College of Social Science Committee on Curriculum and Academic Policy can meet this requirement. A list of approved courses is maintained by the College of Social Science. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school. A department or school may require its majors to complete specific courses or particular subject matter areas to satisfy this requirement. The requirement may be satisfied either within or outside the requirements of the major or within the interdisciplinary minor.

#### E. DISTRIBUTION REQUIREMENTS

 Complete a minimum of 30 credits in courses numbered at the 300 level and above. Courses of-

- fered by the student's major department or school may be used to satisfy this requirement.
- A maximum of 12 credits of independent study may be applied to the degree.
- A maximum of 12 credits of internship, field experience, or practicum credits may be applied to the degree.
- The total of independent study, internship, field experience, and practicum credits applied to the degree may not exceed 20 credits.

#### Preprofessional Programs

Students at Michigan State University may select programs of study that satisfy the admission requirements of a professional school of their choice, such as law or medicine. Since the admission requirements to professional programs vary among schools, it is not feasible to establish a single program for each profession that satisfies the admission requirements of all professional schools. In the field of law, however, the College of Social Science has suggested programs of study that satisfy the admission requirements of most law schools. It is the student's responsibility to determine whether a proposed program meets the entrance requirements of the desired professional school.

**Prelaw.** Prelaw programs in the College of Social Science are available through the Department of Political Science and the Interdisciplinary Studies in Social Science Program. For additional information refer to those sections and to the university statement on prelaw programs in the *Undergraduate Education* section of this catalog.

**Premed**. Students preparing for medical school may pursue a premed program in combination with the B.S. degree program in several majors in the college, such as Anthropology, Human Development and Family Studies, Psychology, Sociology or the Interdisciplinary Studies in Social Science (Health and Society) major. Declared premed students will be advised by a preprofessional advisor in the College of Natural Science as well as by the academic advisor in their Social Science major.

#### **Honors Study**

The College of Social Science encourages honors students to develop distinctive undergraduate programs in their chosen fields. In each major a specially designated Honors advisor, usually a member of the faculty, assists students to plan a rigorous and balanced program tailored to the students' individual interests and abilities.

Departments and schools of the college offer honors courses and seminars at both introductory and advanced levels. These courses are provided chiefly, but not exclusively, for members of the Honors College. In addition, the college offers independent study and research opportunities for Honors College students whose interests in social, behavioral, and economic science reach beyond the topics covered by college courses.

#### **MINOR IN AFRICAN STUDIES**

The Minor in African Studies, which is administered by the College of Social Science, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. Although the minor complements a number of major fields, students who plan graduate study related to Africa, who wish to pursue careers in international agencies in the United States and other countries, or who wish to work in Africa may find the minor particularly appealing. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor

may also be used to satisfy the requirements for the bachelor's degree.

The Minor in African Studies provides a multidisciplinary educational experience for students who are interested in Africa. The minor is designed to help students to acquire a better understanding of diverse aspects of African environments, economies, politics, societies, and cultures.

The student's program of study for the minor must be approved in advance and in writing by the advisor for African studies in the College of Social Science.

#### Requirements for the Minor in African Studies

The student must complete a minimum of 16 credits:

| 1. | The fo  | llowing   | core course (4 credits):                             |   |  |  |
|----|---|---|--|---|--|--|
|    | HST   | 208   | Introduction to African History, Culture and Society | 4 |  |  |
| 2. | One of the following courses (3 or 4 credits):                      |   |  |   |  |  |
|    | ANP   | 417   | Introduction to Islam in Africa                      | 3 |  |  |
|    | ANP   | 455   | Archaeology of Ancient Egypt                         | 3 |  |  |
|    | GEO   | 338   | Geography of Africa                                  | 3 |  |  |
|    | GEO   | 339   | Geography of the Middle East and North Africa        | 3 |  |  |
|    | HST   | 201   | Historical Methods and Skills                        | 3 |  |  |
|    | HST   | 360   | African History to 1800                              | 3 |  |  |
|    | HST   | 361   | African History since 1800                           | 3 |  |  |
|    | HST   | 364   | South Africa: From Shaka Zulu to Mandela             | 3 |  |  |
|    | HST   | 421   | Women and Gender in Africa                           | 3 |  |  |
|    | HST   | 450   | Special Topics in African History                    | 3 |  |  |

|    | eor     |           |  |   |

4. The following course (3 credits): PLS 351 African Politics.

#### MINOR IN ASIAN PACIFIC AMERICAN STUDIES

The Minor in Asian Pacific American Studies, which is administered by the College of Social Science, is available as an elective to students enrolled in bachelor's degree programs at Michigan State University. Although the minor complements a number of major fields, students who plan graduate study related to the social sciences, ethnic studies, literature, media studies, or history may find this minor engaging. Students interested in pursuing professional training in business administration and management, city and regional planning, counseling, education, law, library and information science, public health, and social welfare may also be interested.

The minor focuses on social and cultural history and contemporary issues relating to Asian Pacific Americans, a diverse group who come from varying class, ethnic, religious, and national backgrounds. The minor incorporates an interdisciplinary approach to issues and populations in the United States and includes exposure to current research, case studies, and contact with local communities.

Students who are interested in this minor must contact the coordinator for the Minor in Asian Pacific American Studies. The student's program of study for the minor must be approved in advance and in writing by the coordinator for Asian Pacific American Studies. With the approval of the department and college that administer the student's degree program, courses that are used to satisfy the requirements for the minor may also be used to satisfy

the requirements for a bachelor's degree. Certain courses in the minor may require approval of the department or college that administers the course, and enrollment in a specific section as approved by the coordinator of the minor.

#### **MINOR IN ASIAN STUDIES**

The Minor in Asian Studies, which is administered by the College of Social Science, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. Although the minor complements a number of major fields, students who plan graduate study related to Asia or who wish to pursue careers in government or with corporations in Asia may find the minor particularly appealing. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree. Courses taken in a Michigan State University Study Abroad program in Asia may be counted toward the minor with the permission of the Director of the Asian Studies Center and the student's advisor.

The Minor in Asian Studies provides an opportunity for students to create a multidisciplinary specialty with Asia as the focus. The student's program of study for the minor must be approved in advance and in writing by the advisor for Asian Studies in Social Science.

#### Requirements for the Minor in Asian Studies

The student must complete a minimum of 16 credits: One of the following courses (3 or 4 credits): ANP 414 415 ANP 419 3 FC.

|     | EC       | 406       | Economic Analysis of Russia and the Commonwealth                |  |

#### MINOR IN CHICANO/LATINO STUDIES

The Minor in Chicano/Latino Studies, which is administered by the College of Social Science, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. Although the minor complements a number of major fields, students who wish to pursue careers in education. social work, government, healthcare, in businesses that serve mixed ethnic communities or who plan graduate study related to the arts and humanities or social sciences may find the minor particularly appealing. With the approval of the department and college that administer the student's degree program, the courses used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

The Minor in Chicano/Latino Studies is designed to develop students' understanding of the multicultural dimensions of society; to gain knowledge of Chicana/o/x and Latina/o/x scholarship and scholars; and to apply that knowledge to the study of Chicana/o/x and Latina/o/x communities and life. The minor draws on research, teaching, and community service among Chicanas/os/xs and Latinas/os/xs that: (1) focuses intensively on the histories of different racial and cultural subgroups of Latinas/os/xs; (2) draws larger theoretical lessons from comparisons among Latina/o/x groups and between Latina/o/x and non-Latina/o/x populations; (3) seeks to articulate general principles that shape racial and ethnic relations; (4) explores how ethnic identity is constructed and reconstructed over time; and (5) develops methodologies and principles which empower students to enhance leadership and human relations within diverse communities of peoples and conditions.

Students who plan to complete the requirements of the minor should consult the Director of Chicano/Latino Studies.

#### MINOR IN GLOBAL STUDIES IN SOCIAL SCIENCE

The Minor in Global Studies in Social Science, which is administered by the College of Social Science, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The minor should be attractive to students who plan careers with a global focus and who, therefore, wish to add a strong global dimension to their disciplinary majors. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

The Minor in Global Studies in Social Science is designed for students who wish to increase their understanding of the processes of continuity and change in various regions of the world, particularly Africa, Asia, Europe, and Latin America. The minor provides an opportunity for students to learn how contemporary global systems influence global relations and national trends, as well as how culture shapes processes of continuity and change in one of the major world regions. Multidisciplinary in theory and practice, the minor is based on the methodologies, theories, and literatures of the social sciences and liberal arts and involves faculty from the social sciences, languages, and applied professional fields.

The College of Social Science academic advisor for Global Studies in Social Science assists the student in planning a program of study that is tailored to the student's interests, disciplinary major, and career objectives. The student's program of study for the minor must be approved in advance and in writing by the advisor for global studies in social science.

### Requirements for the Minor in Global Studies in Social Science

The student must meet the requirements specified below:

Complete a minimum of 15 credits in courses at the 200 level or above
 excluding any credits in courses that are used to satisfy the Foreign
 Language Proficiency requirement referenced in item 2. below. Not
 more than 4 of the 15 credits may be in 200–level courses.

2. Foreign Language Proficiency. Demonstrate proficiency in a modern foreign language equivalent to four semesters of study at the university level. The results of the Michigan State University foreign language placement test will be considered in determining whether or not the student has fulfilled this requirement. The student is encouraged to complete a fifth semester of study in the language that focuses on the culture, history, and literature of a developing region of the world.

Conceptual Courses: Complete at least two of the following courses that are in a field other than the student's major (6 credits):

| uiat air | o III a II | cia otrici triari tric staderit s major (o dicalts). |

### MINOR IN HUMAN BEHAVIOR AND SOCIAL SERVICES

The Minor in Human Behavior and Social Services, administered by the College of Social Science, provides an interdisciplinary study of the human behavior and social services that prepare students to critically assess the different perspectives on aspects of human behavior which may create the need for assistance and how social service programs respond to those needs.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult their major undergraduate advisor in the College of Social Science.

### Requirements for the Minor in Human Behavior and Social Services

Complete a minimum of 15 credits from the following:

**CREDITS** The following course (3 credits): SW SW 200 Introduction to Social Work
One of the following courses (3 or 4 credits):
ANP 320 Social and Cultural Theory
ANP 370 Culture, Health and Illness
PSY 101 Introductory Psychology
SOC 241 Social Psychology
SOC 475 Health and Society
SSC 497 Flint Community Internship
SW 471 Child Welfare.
One of the following courses (3 or 4 credits):
HNF 150 Introduction to Human Nutrition | One of the following courses (3 of 4 cleans):
| HNF | 150 | Introduction to Human Nutrition | 3 |
| MMG | 141 | Introductory Human Genetics | 3 |
| PSL | 250 | Introductory Physiology | 4 |
| One of the following courses (3 credits):

| CEP | 261 | Cyletores Abuses | 3 |
| CEP | 262 | Cyletores Abuses | 3 | CEP 261 470 Substance Abuse . . . CEP Disability in a Diverse Society..... Ethical Issues in Health Care PHL 340 PHI 344 PHL Introduction to Social and Political Philosophy . . . . . . 350 Reflections on Learning . . Human Diversity, Power, and Opportunity
in Social Institutions TF One of the following capstone courses (3 or 4 credits): 447 Management of Human Service Programs . . . 494B Social Work Field Education: Undergraduate HDFS 447 Generalist Practice II . Students interested in SW 494B must be a social work major.

#### MINOR IN INTERNATIONAL DEVELOPMENT

The Minor in International Development, administered by the College of Social Science, is an enhanced integrative learning program of study designed to assist students in understanding the social context of international development. Students will acquire a basic understanding of how social scientists approach international development and how to integrate different approaches to the interrelationships of topics around international development.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science or James Madison College. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult an undergraduate advisor in the College of Social Science.

### MINOR IN LATIN AMERICAN AND CARIBBEAN STUDIES

The Minor in Latin American and Caribbean Studies, which is administered by the College of Social Science, emphasizes coherent course work about the cultural context, history, politics, economics, and geography of Latin American and the Caribbean with the potential for complementary experiential learning. Some courses focus on individual countries, while others are comparative and cross-national.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult an undergraduate advisor in the College of Social Science.

**CREDITS**

#### MINOR IN LAW, JUSTICE AND PUBLIC POLICY

The Minor in Law, Justice and Public Policy, administered by the College of Social Science, enhances the education and training of students who anticipate entering fields that require multidisciplinary approaches to advanced research, professional practice, or policymaking related to law.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult their major undergraduate advisor in the College of Social Science.

#### MINOR IN PEACE AND JUSTICE STUDIES

The Minor in Peace and Justice Studies, which is administered by the College of Social Science, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The minor explores issues of human rights. social justice, environmental justice, economic justice, activism, peace, violence, and conflict, examining their connections and distinctions through an interdisciplinary curriculum that stimulates students to develop the critical thinking skills necessary to face global challenges. The minor allows students to explore a range of thematic issues by developing a series of critical analytics that enable them to discern how power and injustice operate. Students will use critical thinking skills to analyze particular case studies or thematic issues.

With the approval of the department and the college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

The student's program of study must be approved by the undergraduate advisor for Peace and Justice Studies before enrollment.

#### Requirements for the Minor in Peace and Justice Studies

The student must complete the following (15 credits): **CREDITS** 1. One of the following core courses focusing on basic concepts and assumptions of peace and justice, contexts of violence and domination, alternatives to violence and domination, and peace and justice as a practice (3 credits): Globalization and Justice: Issues in Political ANP 436 Core Themes in Peace and Justice Studies . 3 PHL Complete 12 credits from the following. At least 9 credits must be at the 300-400 level and 3 credits must be in a subject outside the student's major. ### MINOR IN RACE AND ETHNICITY IN THE UNITED STATES

The Minor in Race and Ethnicity in the United States, administered by the College of Social Science, is designed to assist students in understanding the social context of racial and ethnic categories by focusing on how it is constructed in the United States.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult an undergraduate advisor in the College of Social Science.

### MINOR IN SOCIAL SCIENCE QUANTITATIVE DATA ANALYTICS

The Minor in Social Science Quantitative Data Analytics, administered by the College of Social Science, enhances the education and empowers students interested in understanding how core social science skills such as critical thinking and theoretically oriented analysis are useful in the systematic collection, integration, analysis, and presentation of large-scale and dense information.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

#### MINOR IN YOUTH AND SOCIETY

The Minor in Youth and Society, administered by the College of Social Science, is an enhanced interdisciplinary program of study designed to assist students in understanding the development of youth in societies globally, with particular attention to the dynamic interaction of youth, their families, and the societies in which they live.

The minor is available as an elective to students who are enrolled in bachelor's degree programs in the College of Social Science. With the approval of the department and college that

administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult their major undergraduate advisor in the College of Social Science.

#### Requirements for the Minor in Youth and Society

Complete 15 credits from the following:

#### **TEACHER CERTIFICATION OPTIONS**

Teacher certification can be attained through the Child Development, History, or Interdisciplinary Studies in Social Science: Social Science Education major. Students who elect the Interdisciplinary Studies in Social Science: Social Science Education major for teacher certification must contact the Interdisciplinary Studies in Social Science office.

The following minors in the College of Social Science also are available for teacher certification: economics, geography, history, political science, psychology, and sociology. Students who elect one of these minors for teacher certification must contact the department in which the minor is based.

For more information, refer to the statement on the major referenced above and to the statement on *TEACHER CERTIFICA-TION* in the *Department of Teacher Education* section of this catalog.

#### **COLLEGE OF SOCIAL SCIENCE 3 + 3 OPTION**

The College of Social Science, in collaboration with Michigan State University - College of Law, offers an opportunity for selected College of Social Science students to earn a baccalaureate degree after satisfactory completion of a minimum of 92 credits at Michigan State University and a minimum of 28 credits through subsequent enrollment at Michigan State University - College of Law. Students interested in this option should consult with their academic advisors during the first year in the college.

Admission to the Michigan State University - College of Law component of this program is limited to a small number of students who complete the specified university and college requirements and who earn a grade-point average and a score on The Law School Admission Test (LSAT) that is acceptable for admission to Michigan State University - College of Law.

All students in this program will complete a minimum of 92 credits at Michigan State University, at least 45 of which shall be College of Social Science credits. The requirements for the program are as follows:

- Completion of the University requirements for the bachelor's degree.
- Completion of all College of Social Science requirements for the bachelor's degree, including an interdisciplinary minor requirement; Science, Technology, Engineering and Mathematics (STEM) and/or Arts and Humanities (A&H) distribution requirement; and experiential learning requirements.
- Complete of a specific major in the College of Social Science.
- Completion of a minimum of 28 credits equivalent to the first-year curriculum at Michigan State University - College of l aw

Upon satisfactory completion of the specified Michigan State University - College of Law credits, students in this program will be awarded the Bachelor of Arts or Bachelor of Science degree.

#### **GRADUATE STUDY**

Units within the College of Social Science offer programs leading to degrees of Master of Arts, Master of International Planning Studies, Master of Human Resources and Labor Relations, Master of Public Policy, Master of Science, Master of Social Work, Master of Urban and Regional Planning, and Doctor of Philosophy.

The following dual degrees program are co-sponsored by the College of Social Science and Michigan State University College of Law: Master of Human Resources and Labor Relations and J.D.; Master of Social Work and J.D.; and Master of Urban and Regional Planning and J.D.

For information about the following interdisciplinary specializations, graduate certificates, and degree programs, see the referenced section of this catalog. The College of Social Science is lead sponsor of:

- (1) Graduate Specialization in Animal Studies: Social Science and Humanities Perspective, for all master's and doctoral students at Michigan State University (see statement on this specialization in the *Department of Sociology* section)
- (2) Interdepartmental Graduate Specialization in Infancy and Early Childhood, for master's or doctoral students in the departments of Anthropology, Psychology or Sociology, or MSW students in the School of Social Work, and in a number of other departments and programs at MSU (see statement on this specialization, below)
- (3) Graduate Specialization in International Development, for all master's or doctoral students at Michigan State University (see statement on this specialization, below)
- (4) Interdepartmental Graduate Specialization in Cognitive Science, for master's or doctoral students in Geography or Psychology, and in a number of other departments and programs at MSU (see statement on this specialization, below)
- (5) Graduate Specialization in Environmental Policy for master's or doctoral students enrolled in master's or doctoral degree programs at Michigan State University (see statement on this specialization below)
- (6) Graduate Specialization in Environmental Science and Policy for doctoral students enrolled in doctoral degree programs in departments and programs emphasizing environmental science and policy (see statement on this specialization, below)
- (7) Graduate Specialization in Judicial Administration for all master's students at Michigan State University (see statement on this specialization in the School of Criminal Justice section)

- (8) Graduate Specialization in Security Management, for master's degree students enrolled in master's degree programs at Michigan State University (see statement on this specialization in the School of Criminal Justice section)
- (9) Graduate Specialization in Forensic Science, for doctoral students enrolled in doctoral degree programs at Michigan State University (see statement on this specialization in the School of Criminal Justice section)
- (10) Graduate Specialization in Global Urban Studies, for doctoral students enrolled in doctoral degree programs at Michigan State University (see statement on this specialization below)
- (11) Graduate Certificate in Chicano/Latino Studies, for graduate students enrolled in a graduate degree program at Michigan State University (see statement on this certificate below)
- (12) Graduate Certificates in Youth Development Specialist and Youth Program Management and Evaluation, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA) (see statements on these certificates in the Department of Human Development and Family Studies section)
- (13) Graduate Certificate in Environmental and Social System Modeling, for graduate students enrolled in a graduate degree program at Michigan State University (see statement on this certificate below).
- (14) Graduate Certificate in Program Evaluation, for graduate students enrolled in a graduate degree program at Michigan State University (see statement on this certificate in the *Department of Psychology* section).

The College of Social Science is a co-sponsor of:

- (1) Interdepartmental Ph.D. program in Ecology, Evolutionary Biology and Behavior for doctoral students in Anthropology or Psychology (see statement on this doctoral program in the College of Natural Science section)
- (2) Interdepartmental Ph.D. degree program in Neuroscience (see statement on this doctoral program in the College of Natural Science section)
- (3) Interdepartmental Graduate Specializations in Environmental and Resourcce Economics for graduate students enrolled in a graduate degree program at Michigan State University (see statement on this specialization in the College of Agriculture and Natural Resources section)
- (4) Graduate Specialization in Gender, Justice, and Environmental Change, for master's or doctoral students in the College of Social Science (see statement on this specialization in the College of Agriculture and Natural Resources section)
- (6) Interdisciplinary Graduate Specialization in Women's and Gender Studies, which is administered by the Program in Women, Gender and Social Justice, for master's or doctoral students (see statement on this specialization in the College of Arts and Letters section)

Requirements for the various degrees are summarized below. For complete requirements of any given program or degree, contact the appropriate unit in the college and see the *Graduate Education* section of this catalog. A student must meet the standards of the university, college, and unit.

#### Master of Arts

Most students in the College of Social Science pursue the Master of Arts degree, although several other master's degree programs are available through the college.

#### Requirements for the Degree

A maximum of 8 credits is allowed for thesis research.

#### **Academic Standards**

The accumulation of grades below 3.0 (including *N* grades in the P–N grading system) in more than two courses of three or more credits each removes the student from the degree program; this policy does not apply to courses below the 400 level unless the courses are required for the student's program.

#### **Time Limit**

The time limit for completion of the master's degree is six years from the beginning of the first semester in which credit was earned toward the degree.

#### Other Master's Degrees

Other degrees at the master's level offered by the college are listed below. For a description and summary of the requirements for each degree, consult the section of this catalog devoted to the appropriate department or school. The statements on Academic Standards and Time Limit for the Master of Arts degree also apply to all other master's degrees in the college.

DEGREE Master of International Planning Studies

Master of Human Resources and Labor Relations Master of Science

Master of Public Policy Master of Social Work Master in Urban and Regional Planning DEPARTMENT OR SCHOOL School of Planning, Design and Construction School of Labor and Industrial Relations Department of Geography, School of Criminal Justice Department of Political Science School of Social Work School of Planning, Design and Construction

#### **Doctor of Philosophy**

The successful completion of the Doctor of Philosophy degree requires scholarly ability of a high order. Ph.D. degree programs, with emphasis on specialization and research, are offered in each of the departments in the College of Social Science.

#### **Academic Standards**

A doctoral student may earn grades below 3.0 (including N grades in the P–N grading system) in not more than two of the courses required by the guidance committee.

#### CHICANO/LATINO STUDIES

The Doctor of Philosophy degree program in Chicano/Latino Studies prepares scholars, researchers, and teachers in the social sciences and humanities to develop expertise in the historical and contemporary experiences of Chicanos and Latinos in their social, cultural, political, and economic contexts. The program emphasizes global, trans-disciplinary, comparative, and applied approaches to knowledge which enhance collaborative scholarly efforts within the university, peer educational institutions, and the broader community. It addresses Chicano and Latino experiences in home communities in the United States, and international dimensions and diaspora experiences involving communities in the United States, Latin America, and the Caribbean.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Admission to the Doctor of Philosophy degree in Chicano/Latino Studies is based on an evaluation of the student's academic re-

cord. To be considered for admission to the program with regular status, applicants must have a master's degree in an appropriate field or its equivalent, of at least 30 credits of approved course work beyond the bachelor's degree. Applicants without a master's degree or sufficient course work may be admitted provisionally and be required to complete a specified number of collateral courses, not to count toward the degree, before regular admission is granted.

Application forms for graduate school must be completed online for both domestic and international students. The Graduate School website contains all the information necessary to complete the application process. Applicants must submit the following materials:

- 1. The online application form to the Graduate School.
- GRE General Test scores no more than five (5) years old, as well as two sets of official transcripts from all colleges and universities attended, to the Chicano/Latino Studies Graduate Program Director.
- A statement of purpose, three letters of recommendation, and a writing sample to the Chicano/Latino Studies Graduate Program Director. The letters of recommendation must be submitted by the recommender directly to the Chicano/Latino Studies office.
- Original transcripts from all colleges or universities attended sent directly from the institution to the Chicano/Latino Studies office.
- A writing sample of the applicant's best example of written analytic and interpretative work that validates the applicant's aptitudes and abilities in research and academic writing, and their preparation for scholarly work.
- A statement of purpose of 1000 words or less providing the applicant's explanation of why s/he wishes to pursue a doctoral degree in Chicano/Latino Studies, outlining an area of interest in Chicano/Latino Studies, and discusses career goals.

#### **Guidance Committee**

The graduate director will guide students in the selection of courses for the first year. By the end of the second semester of the first year, students should choose their major professor and their guidance committee. The committee shall consist of at least four members, at least two in Chicano/Latino Studies and up to two in related fields.

- c. Complete 2 credits of electives from the following: American studies, anthropology, education, English, history of art, history, music, philosophy, political science, psychology, resource development, social work, sociology, and Spanish. The course work must be selected from an approved course list in consultation with the student's guidance committee.
- Complete Spanish, Nahuati, or another Amerindian language to fulfill the language requirement. Demonstrate advanced reading proficiency by passing oral and written examinations.
- Pass two comprehensive written examinations as arranged by the guidance committee, one in Chicano/Latino Studies and one in the student's area of specialization.
- 4. Complete 24 credits of CLS 999 Doctoral Dissertation Research.

Submit the dissertation proposal to the guidance committee and successfully pass the oral examination in defense of the dissertation.

### GRADUATE CERTIFICATE IN CHICANO/LATINO STUDIES

The Graduate Certificate in Chicano/Latino Studies exposes students to methodologies specific to Chicano/Latino Studies, and to debates in the field that reflect larger transformations in United States culture and society. Students interested in research related to Chicanos and Latinos in the United States will find this certificate program of interest.

#### Admission

To be considered for admission to the Graduate Certificate in Chicano/Latino Studies, students must:

- 1. Have a bachelor's degree.
- Be currently enrolled in a Michigan State University graduate degree program other than the Doctor of Philosophy degree program in Chicano/Latino Studies.
- 3. Have a minimum grade-point average of 3.0.
- Obtain approval from the student's primary major advisor and the Chicano/Latino Studies Graduate Program Director by submitting a short application form.

### GRADUATE CERTIFICATE IN ENVIRONMENTAL AND SOCIAL SYSTEM MODELING

The Graduate Certificate in Environmental and Social System Modeling is designed for students who desire to understand a variety of modeling techniques used to address environmental problems that span human and natural systems. The certificate program exposes students to a range of state-of-the-art techniques including agent-based modeling, systems dynamics modeling, multilevel modeling, and structural equation modeling.

#### Requirements for the Graduate Certificate in Environmental and Social System Modeling

#### **ENVIRONMENTAL SCIENCE AND POLICY**

#### **GRADUATE STUDY**

#### Dual Major

The interdepartmental dual major in environmental science and policy is administered by the College of Social Science. The dual major is available only to those students who plan to complete a Ph.D. degree program that involves environmental science and policy and who have a graduate major at Michigan State University. The student does not have the option of completing a dual major in environmental science and policy alone.

The educational objectives of the interdepartmental program are to (1) develop interdisciplinary knowledge and skills across natural and social science disciplines related to the environment and to enable collaboration with researchers and practitioners from other disciplines towards addressing environmental challenges; (2) gain knowledge of and experience with science based environmental policies, including how scientific knowledge can contribute to practical policies and how interdisciplinary collaboration can improve the effectiveness of policies; and (3) gain practical experience in communicating scientific research to multiple audiences, including scientific communities and the general public.

In addition to meeting the requirements of the University and of the College of Social Science, students must meet the requirements specified below.

#### Admission

In order to enroll in the dual major in environmental science and policy a student must also have been admitted to a major at Michigan State University.

The Graduate Program Council, composed of members of the faculty from participating departments will review applications for admission and recommend acceptance of applicants for admission. In special cases an applicant who has deficiencies in background courses may be admitted to the dual major on a provisional basis.

#### **Guidance Committee**

cialization/index.php.

The program shall be planned in accordance with the statement on Dual Major Doctoral Degrees in the Graduate Education section of this catalog. At least one member of the student's doctoral dissertation committee shall be an environmental science and policy affiliated faculty member.

Students in the dual major in environmental science and policy are expected to attend a number of community-building activities with other students from different disciplines.

### Requirements for the Dual Major in Environmental Science and Policy

- All of the following courses with a minimum grade-point average of 3.0 with no more than one course's grade below 3.0 in courses used in fulfillment of the requirements for the dual major (12 credits):
- Twenty-four credits in Doctoral Dissertation Research (course number 999) from the student's departmental major.
- Pass a comprehensive examination that will be defined by the requirements of the student's major department and that will include a written examination in which the student

- demonstrates a knowledge of environmental science and policy as determined by the guidance committee.
- Submit a dissertation that, in the judgment of the student's guidance committee, represents the integration of environmental science and policy and the student's departmental major.

## CENTER for INTEGRATIVE STUDIES in SOCIAL SCIENCE

#### Gerald Ericksen, Director

Integrative Studies is Michigan State University's unique approach to liberal general education, offering a core curriculum that complements specialized work by students in their majors. Integrative Studies courses integrate multiple ways of knowing and modes of inquiry and introduce students to important ways of thinking in the three core knowledge areas: the Arts and Humanities, the Biological and Physical Sciences, and the Social, Behavioral, and Economic Sciences. They assist students early during their study to develop as more critical thinkers. They also encourage appreciation of our humanity and creativity, human cultural diversity, the power of knowledge, and our responsibilities for ourselves and for our world.

Courses in Michigan State University's Integrative Studies Program are aimed at developing intellectual abilities, including critical thinking and interpretive skills. They help increase knowledge about other times, places, and cultures, key ideas and issues in human experience, and the scientific method and its usefulness in understanding the natural and social worlds. They are expected to enhance appreciation of the role of knowledge, and of values and ethics, in understanding human behavior and solving social problems. Finally, they help students recognize responsibilities and opportunities associated with democratic citizenship and with living in an increasingly interconnected, interdependent world

The Center for Integrative Studies in the Arts and Humanities in the College of Arts and Letters has primary responsibility for the Arts and Humanities area of Integrative Studies at Michigan State University.

The Center for Integrative Studies in General Sciences in the College of Natural Sciences has primary responsibility for Integrative Studies courses in the Biological and Physical Sciences at Michigan State University.

The Center for Integrative Studies in the Social Sciences in the College of Social Science has primary responsibility for Integrative Studies courses in the Social, Behavioral, and Economic Sciences at Michigan State University.

### **GLOBAL** and INTERNATIONAL STUDIES IN SOCIAL **SCIENCE**

#### UNDERGRADUATE PROGRAM

The Global and International Studies in Social Science major provides students with breadth in social science foundational courses combined with in-depth knowledge in a world region or global topic. World region concentrations include African Studies, Asian Studies, Canadian Studies, European Studies, Latin American and Caribbean Studies, Middle Eastern Studies, and Russian and Eurasian Studies. Global topical concentrations include Gender and Global Change and International Development. Students enrolled in a concentration cannot complete a minor in the same concentration area.

In addition to academic focus on a region or theme, students must demonstrate second-year foreign language proficiency relevant to their course of study. Students develop understanding of the processes of continuity and change in various world regions through multidisciplinary theory and practice and use of methodologies, theories, and literatures of various disciplines and fields.

Students are strongly encouraged to have at least one international experience through study abroad, internships, or independent study. The major helps prepare students for jobs in government, business, and non-governmental organizations that are engaged with the world outside the United States and for graduate study in international or area studies and other fields.

Upon completion of the Bachelor of Arts Degree in Global and International Studies in Social Science, students will be able to 1) summarize the most important topics relevant to the global or thematic area under study; (2) draw on theories from at least two social science disciplines to explain the social issues present in the area or theme of study; (3) use social science research methods to assess the impact of relevant topics on the global or thematic area of study; and (4) explain how social science intersects with other disciplines to enhance understanding of global or thematic

Students must select one of the following concentrations:

African Studies. The African Studies concentration provides an interdisciplinary education focused on African history, language, culture and society.

Asian Studies. The Asian Studies concentration offers students an interdisciplinary education on Asia, particularly South Asia, Southeast Asia and East Asia. Courses focus on the culture, politics, languages and economy of Asian countries.

Canadian Studies. The Canadian Studies concentration focuses studies on Canada, including modern and aboriginal Canadian issues. A special focus on the interrelationship between Canada and the United States is included.

European Studies. The European Studies concentration provides students with specialized education in Europe, with a focus on Western European countries. Courses include discussion on the politics, language history and culture of Europe.

Gender and Global Change. The Gender and Global Change concentration will provide students with important, foundational content in women and gender studies in global and international perspectives.

International Development. The International Development concentration is an enhanced integrative learning program of study designed to provide students with a basic understanding of: 1) how social scientists approach the topic of international development; 2) how to integrate multiple disciplinary approaches to the interrelationships of topics in international development; and 3) how to facilitate both broad and in-depth understanding of the social context in which international development occurs.

Latin American and Caribbean Studies. The Latin American and Caribbean Studies concentration in Latin American and Caribbean studies contains focused coursework on countries in the Caribbean and Central and South America, and the cultures, languages, and societies of that region.

Middle Eastern Studies. The Middle Eastern Studies concentration contains focused course work on the Middle East, with an emphasis on regional culture, language, religion, and geography.

Russian and Eurasian Studies. The Russian and Eurasian Studies concentration is designed to enhance the student's understanding of the cultures and societies of Russia, and nearby countries at the intersection of Europe and Asia. The concentration offers an interdisciplinary, comparative and cross-cultural approach to the study of Russia and Eurasia.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Requirements for the Bachelor of Arts Degree in Global and International Studies in Social Science

1. The graduation requirements of the University as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Global and International Studies in Social

The University's Tier II writing requirement for the Global and International Studies in Social Science major is met by completing Social Science 499. That course is refer-

- The requirements of the College of Social Science for the Bachelor of Arts degree.

| Foreign Language Competency |     |   |  |  |

e.

Students must demonstrate competency in a language relevant to the region of study. This is achieved through the completion of the second year of study or equivalent language placement scores. Students are strongly encouraged to complete language minors or other relevant minors.

This requirement may be satisfied by placing into a 300-level foreign language course based on a Michigan State University placement test. Students who come from other countries or cultures where a language other than English is spoken, should contact their academic advisor to discuss placement.

The following languages are pre-approved for each concentration. Students who wish to use a language other than those listed must receive approval from their academic advisor. Second-year proficiency is demonstrated through the completion of one course

|          |           | demonstrated through the completion of one course   |

4 5

#### **UNDERGRADUATE PROGRAMS**

The College of Social Science explicitly recognizes that many important and rewarding areas for study do not fit neatly within the boundaries of any single social science discipline, but rather overlap two or more such fields. The college also recognizes that many students do not wish to limit their undergraduate major studies to the specialization of a single disciplinary department or professional school. The interdisciplinary studies in social science major provides undergraduates with an interest in public policy, problem solving in society, and community engagement, the core of the mission of the College, a unique opportunity to shape their curriculum to develop interdisciplinary approaches to real world issues at the local, national, and global levels. The educational objectives of the major are to: develop students' integrated judgment, advanced communication skills, analytical thinking, cultural awareness, and civic engagement; develop students' understanding of social science approaches to the challenges and issues that face societies across space and time, and develop students' ability to integrate disciplinary knowledge, skills, and methods to solve complex real world problems.

The college offers two broadly based, coherent, multidepartmental, undergraduate majors in interdisciplinary social science.

- 1. Interdisciplinary Studies in Social Science
- 2. Interdisciplinary Studies in Social Science: Social Science Education

#### INTERDISCIPLINARY STUDIES IN SOCIAL SCIENCE

Students must select one of three concentrations:

Community Governance and Advocacy. Explores issues and problems related to community organizations, political or social advocacy, governance, private-public sector partnerships, philanthropy, and other local, state, or regional matters. Course offerings deal with physical development, social interaction, race and ethnicity, family, gender, economics, and politics as they relate to challenges of community life.

Health and Society. Examines the social, behavioral, and economic determinants of health. Students will gain the knowledge and skills to improve population health. Students may select from courses in health psychology, anthropology of alternative medicine, or the sociology of health care systems.

Liberal Studies. Students will create an individual sequence of course work designed to accomplish study in interdisciplinary studies in social science.

#### Requirements for the Bachelor of Arts or Bachelor of Science Degree in Interdisciplinary Studies in **Social Science**

1. The graduation requirements of the University as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are reguired for the Bachelor of Arts or Bachelor of Science degree in Interdisciplinary Studies in Social Science.

The University's Tier II writing requirement for the Interdisciplinary Studies in Social Science major is met by completing Social Science 499. That course is referenced in item 5. below.

| Liberal Stud   |   |
| Students inte  | rested in completing a Liberal Studies concentration must |

complete 27 credits of course work in the College of Social Science, of which at least 3 credits must be a course on social research methods offered by any unit in the college. Liberal Studies students are limited to no more than five courses in a single discipline, and are not required to complete a disciplinary cognate as listed in item 7. below. Liberal Studies students may only count College of Social Science courses toward their major requirements, but are strongly encouraged to select appropriate electives, or minors to accomplish the student's academic goals. To pursue this concentration, a student must develop a proposal in coordination with the interdisciplinary studies in social science advisor that includes the following:. To pursue the concentration, a student must develop a proposal in coordination with the interdisciplinary studies in social science advisor that includes the following:

- a proposed outline of the course work to be taken with a rationale for each course.
- a statement of purpose for the proposed course work.
- a set of specific learning outcomes that will be achieved through the course work that is not available in other majors at the university, or in the college.

  The proposed course of study must be approved by the interdisciplinary

studies in social science advisor, two tenure-stream faculty members in the College of Social Science, with final approval from the Center for Integrative Studies in Social Science advisory committee.

7. **Disciplinary Cognate**Complete a minimum of 12 credits in courses in one of the following disciplines: anthropology, economics, geography, history, political science, psychology, or sociology. Courses in the disciplinary cognate may not be used to satisfy the course requirements of the concentration. Students pursuing the Liberal Studies concentration above are not required to complete a disciplinary cognate.

Anthropology Cognate. In addition to the ANP 201 foundation course listed in item 3. above, complete the following:

### INTERDEPARTMENTAL GRADUATE SPECIALIZATIONS

### GRADUATE SPECIALIZATION IN ENVIRONMENTAL POLICY

The Graduate Specialization in Environmental Policy, which is administered by the College of Social Science, provides students with foundational skills and knowledge in environmental law, economics and policy and an opportunity to gain substantive expertise in the fundamental aspects of environmental policy.

The graduate specialization is available as an elective to students who are enrolled in master's degree programs at Michigan State University. With the approval of department and college that administer the student's degree program, the courses that are used to satisfy the specialization may also be used to satisfy the requirements for the master's or doctoral degree.

Students who plan to complete the requirements for the graduate specialization must consult the graduate advisor for the specialization in the College of Social Science.

### Requirements for the Graduate Specialization in Environmental Policy

Complete a total of 9 credits from the following:

| -  | mplote a total of a distance from the following.                       | CREDITS |
|----|--|---------|
| 1. | Both of the following courses:   |         |
|    | AFRE 829 Economics of Environmental Resources                          | 3       |
|    | PPL 807 Public Policy  | 3       |
| 2. | Complete 3 credits of additional course work that focus on policy that |         |
|    | meets the interests of the student. The course must be approved by the |         |
|    | etudent's academic advisor for the specialization                      |         |

 Completion of an examination consisting of a paper on the environmental policy aspects of a problem selected by the student and approved by the advisor for the specialization.

### GRADUATE SPECIALIZATION IN GLOBAL URBAN STUDIES

The Graduate Specialization in Global Urban Studies, which is administered by the College of Social Science, offers interdisciplinary doctoral-level study, integrated with programs offered by disciplinary departments and is available as an elective to students who are enrolled in doctoral degree programs at Michigan State University.

The Graduate Specialization in Global Urban Studies addresses political, spatial, cultural, and economic processes and issues in urban areas across the United States and the world, as well as the global processes that impact and unite urban areas. Course work includes foci on urban areas in the United States and abroad; urban areas in comparative context regionally, nationally and internationally; and how the forces of globalization change urban areas.

With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the specialization may also be used to satisfy the requirements for the doctoral degree.

#### INTERDEPARTMENTAL GRADUATE SPECIALIZATION IN INFANCY AND EARLY CHILDHOOD

The Interdepartmental Graduate Specialization in Infancy and Early Childhood is available as an elective for students who are enrolled in master's and doctoral degree programs in the departments of Anthropology, Audiology and Speech Sciences; Counseling, Educational Psychology and Special Education; Family and Child Ecology; Food Science and Human Nutrition; Kinesiology; Psychology; and Sociology, in the Educational Specialist degree program in the Department of Counseling, Educational Psychology and Special Education; in the Master of Social Work degree programs in the School of Social Work; in the Master of Science in Nursing degree program in the College of Nursing; and in the graduate-professional degree programs in the College of Human Medicine and the College of Osteopathic Medicine. The College of Social Science administers the specialization in collaboration with the School of Social Work, the cooperating units, an executive committee, and an advisory committee comprised of faculty members from each participating unit.

The quality of life during the first five years of human development provides the foundation upon which all subsequent development is built. As a result of advances in biomedical technology, social–cultural conditions, and legislation, increasing attention is being directed toward the optimal development of infants and their families.

The specialization is designed to prepare practitioners to meet the challenges of service delivery for very young children and their families and is based on the philosophy that a interdisciplinary educational program is the best educational experience for professionals who will work with infants, very young children, and their families. The specialization is also designed to provide a knowledge base that will facilitate the work of graduates who pursue careers in agencies, institutions, and government organizations that offer services to very young children, as well as those who pursue careers in teaching and research relevant to the needs of infants, very young children, and their families.

The Interdepartmental Graduate Specialization in Infancy and Early Childhood will:

- Provide an opportunity for graduate students to obtain a comprehensive and contemporary academic experience in the field of infancy and early childhood development.
- Help graduate students with an interest in working with very young children to become aware of their professional obligations and responsibilities.
- Develop an intellectual environment that will foster the growth of research and teaching in the area of human infancy and early childhood development, as well as sensitize students to clinical, educational, and social policy issues related to early human development.

 Increase public awareness of the critical importance of the early years of human development.

A student who is enrolled in a master's, educational specialist, doctoral, or graduate—professional degree program in one of the 12 participating academic units and who wishes to complete the requirements for an Interdepartmental Graduate Specialization in Infancy and Early Childhood should send their application to the director of the specialization. Qualified applicants must have a minimum grade-point average of 3.0. Once accepted into the specialization, students must identify a faculty member from their own discipline who is able to oversee their study in infancy and early childhood development, and to chair their guidance committee. Students are encouraged to actively solicit input from at least one faculty member from a discipline other than their home department, who will serve as a representative on the student's guidance committee.

Students should work closely with their advisors within their academic units to develop meaningful experiences that are directly related to infancy and early childhood development studies. Credits that are used to meet the requirements for the specialization may also be counted toward the requirements for the student's degree program at the discretion of the academic unit in which the student is enrolled.

Students who are pursuing the Interdepartmental Graduate Specialization in Infancy and Early Childhood are required to attend monthly seminars with members of the specialization faculty, staff, and other students in the program.

### Requirements for the Specialization in Infancy and Early Childhood

Students must complete a minimum of 12 credits for the Graduate Specialization in Infancy and Early Childhood. The student's program of study must be approved by the student's guidance committee. The student must:

- Master competencies through a variety of experiences including completion of a portfolio that demonstrates mastery of infancy and early childhood foundations. and a final oral or written examination across the following areas: theory, practice, policy, and research.
- 2. Complete 12 credits of course work including:
  - a. Master's students. A minimum of 4 credits of the Graduate Specialization in Infancy and Early Childhood seminar. Students should enroll in an 890 Independent Study through their home department. If an 890 course is not available, students may enroll for SW 890 Independent Study.
  - b. Doctoral students. A minimum of 6 credits of the Graduate Specialization in Infancy and Early Childhood seminar. Students should enroll in an 890 Independent Study through their home department. If an 890 course is not available, students may enroll for SW 890 Independent Study.
  - students may enroll for SW 890 Independent Study.

    c. All students are required to complete an additional 6 to 8 credits of course work from two disciplines outside of their home unit. Students may choose courses from the following:

### GRADUATE SPECIALIZATION IN INTERNATIONAL DEVELOPMENT

The Graduate Specialization in International Development are available as electives for students who are enrolled in master's and doctoral degree programs at Michigan State University. The College of Social Science administers the specialization. The graduate academic advisor for international development, located in the college, coordinates the specialization on behalf of the Dean.

The Specialization in International Development is designed to:

- Provide an opportunity for graduate students to obtain a comprehensive and contemporary academic experience in the field of international development studies.
- Sensitize graduate students with an interest in development studies to their professional obligations and responsibilities.
- Develop an intellectual environment that will foster the growth of research and teaching in the area of development studies.

The graduate academic advisor for international development in the College of Social Science is responsible for establishing a guidance committee for the specialization for each student. With the approval of the graduate academic advisor for international development in the College of Social Science, a guidance committee that has responsibility for overseeing a student's master's or doctoral degree program will normally oversee the student's program of study for the specialization. At least one member of the committee must be a member of the international development core faculty who will serve as the student's academic advisor for the specialization.

Students who elect the specialization may be required to study the foreign language most relevant to their educational and career objectives, to acquire practical experience in development work, and to complete courses in addition to the courses that are used to satisfy the requirements for the specialization.

Although separate graduate specializations in international development have been established for master's and doctoral students, a given student may receive certification of completion of either the specialization for master's students or the specialization for doctoral students, but not for both of the specializations.

With the approval of the department or school and college that administer the student's degree program, the courses that are used to satisfy the requirements for the specialization may also be used to satisfy the requirements for the degree.

#### Requirements for the Graduate Specialization in International Development

The student must complete a concentration within international development such as gender and health, gender and work, rural development, environment and development, development administration, nongovernmental organizations in development, or politics of development. Any course that was used to satisfy the requirements for the undergraduate Specialization in International Development may *not* be used to satisfy the requirements for the Graduate Specialization in International Development. The student's program of study must be approved by the student's guidance committee for the specialization and must meet the requirements specified below:

Master's Student: The student must complete 12 credits as outlined below. At least half of the credits must come from outside the student's major.

- which are relevant to the student's concentration within international development.

Doctoral Student: The student must complete 18 credits as outlined below:

- (2) Complete at least four additional courses, of at least 3 credits each, which are relevant to the student's concentration within international development.
- (3) Pass a written comprehensive examination on the student's concerntraction within international development. With the approval of the department or school and college that administer the student's degree program, this examination may be incorporated into the comprehensive examinations that are required for the degree.

Core Courses:

|     |     |   | CINEDITO |
|-----|-----|---|----------|
| AEC | 861 | Agriculture in Economic Development             | 3        |
| ANP | 867 | Archaeological Theory                           | 3        |
| EC  | 410 | Issues in the Economics of Developing Countries | 3        |
| GEO | 454 | Spatial Aspects of Regional Development         | 3        |
| PLS | 853 | Political Economy of Development Policy         | 3        |
| RD  | 826 | International Development and Sustainability    | 3        |
| SOC | 832 | International Inequality and Development        | 3        |
| WS  | 403 | Women and Change in Developing Countries        | 3        |

### INTERDEPARTMENTAL GRADUATE SPECIALIZATION IN COGNITIVE SCIENCE

The Interdepartmental Graduate Specialization in Cognitive Science are available for students who are enrolled in master's and doctoral degree programs in Audiology and Speech Sciences; Computer Science; Ecology, Evolutionary Biology and Behavior; Geography; Linguistics and Germanic, Slavic, Asian and African Languages; Neuroscience; Philosophy; Physics and Astronomy; Physiology; Psychiatry; Psychology; Telecommunication; and Zoology. The College of Social Science administers the specialization.

One of the most important remaining mysteries in science is the nature of mind, whether mind be embodied in the neurons of the brain or in the silicon stuff of computer chips in an artificial brain-like system. Cognitive Science explores how biological systems process information to produce thought and adaptive behavior and whether artificial systems can be endowed with the same capabilities. The scientific study of the nature of mind requires a concerted effort by investigators from many different theoretical perspectives, empirical traditions, and academic disciplines. The program will make available to students an interdisciplinary field that encompasses approaches to solving the problems of understanding the mind from a number of sharply different directions. Students will learn about, and engage in, research on these problems under more than one disciplinary umbrella. The specialization is supervised by the Cognitive Science Graduate Affairs Committee.

Students seeking admission to the specialization must contact the Director of the Cognitive Science Program. To be admitted, a student must have completed a bachelor's degree with a grade-point average of at least 3.0 and have been admitted to a master's or doctoral program in one of the participating departments. Students should submit a cover letter and a personal statement describing their interest in cognitive science and their objectives in seeking admission. Additional documentation may be requested.

### Requirements for the Specialization in Cognitive Science

The Specialization in Cognitive Science is offered at both the master's and the doctoral level. No student may receive certification at both levels. During the first year of the master's or doctoral program, the student and the major professor select a guidance committee to assist in planning both the student's degree program and specialization. At least one member of a master's student's guidance committee and two members of a doctoral student's guidance committee shall be members of the Cognitive Science faculty, with one of the latter from a discipline outside the student's major department.

Credits that are used to meet the requirements of the specialization may also be used to satisfy the requirements for the student's major at the discretion of the department or college. Courses that are used to satisfy the requirements for the specialization must be approved by the student's guidance committee and should demonstrate competence in at least two areas of cognitive science.

#### Master's Students must:

6

6

12

CREDITS

- Complete 18 credits of course work as specified below.
- Participate in a research project outside their major department, either by completing one semester of work in a laboratory project or by enrolling in an independent study course involving collaborative work with a member of the cognitive science faculty.

Plan A students will also complete a thesis reflecting the integration of the student's discipline and Cognitive Science.

#### **Doctoral Students** must:

- 1. Complete 18 credits or course work as specified below.
- Participate in a research project outside their major department, either by completing one semester of work in a laboratory project or by enrolling in an independent study course involving collaborative work with a member of the cognitive science faculty.
- Complete a dissertation that reflects the integration of the student's discipline and Cognitive Science.

Required Core Courses

### **DEPARTMENT of** ANTHROPOLOGY

#### Todd Fenton, Chairperson

Anthropology takes humans and their cultures, throughout the world and through the entirety of human history, as its central object of study. Blending aspects of natural and social sciences, anthropology examines humanity's evolutionary background and development, the organization of social and cultural life, the nature of culture as a system of meaning to organize and interpret experience, the evolution of societies, and the interrelationships between environment, culture, and shared ways of thinking and feeling.

Providing an excellent foundation for a diverse, liberal education, the study of anthropology fosters critical thinking and prepares students for careers in education, medicine, tourism, business and industry, government service, and other walks of life in which a broad knowledge of cultural dynamics, ethnic diversity and human relations is important. Engagement in diverse experiential learning opportunities are encouraged in field and lab

The strength and vitality of anthropology lies in the ability to approach fundamental issues concerning cultural and biological diversity from multiple perspectives. Major points of orientation within anthropology include the search for patterning of cultural behavior amidst the immense variation found within and among cultures, the study of principles of cultural dynamics, the analysis of processes of change and stability within social and cultural structures, cross-cultural comparisons of different societies, the study of patterns of development of societies from simple to complex, and the functioning of cultural institutions as parts of overall sociocultural systems. Anthropology faculty specialize in sociocultural anthropology, archaeology, medical anthropology, biological anthropology, and linguistic anthropology, bringing multiple vantage points brought to bear on these themes.

#### UNDERGRADUATE PROGRAM

#### Requirements for the Bachelor of Arts Degree in Anthropology

The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor or Arts degree in Anthropology.

The University's Tier II writing requirement for the Anthropology major is met by completing Anthropology 489. That course is referenced in item 3. a. below.
The requirements of the College of Social Science for the Bachelor of Arts degree.

|    |  | 429, 441, 403, and 404.                         |  |  |  |  |

Four additional Anthropology courses, at least three of which must be at the 300-400 level. Anthropology 101 may not be used to meet this requirement.

#### Requirements for the Bachelor of Science Degree in **Anthropology**

1. The University requirements for the bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Anthropology.

The completion of Statistics and Probability 200, 201, or 421, referenced in item 3. g. below may also satisfy the University mathematics requirement or the Department of Anthropology NATURAL SCIENCE REQUIREMENT, but not both.

The University's Tier II writing requirement for the Anthropology major is met by completing Anthropology 489. That course is referenced in item 3. a. below.

- One topical/analytical course from Anthropology 320, 321, 325, 330, 362, 363, 364, 370, 420, 422, 423, 425, 426, 428, 430, 431, 436, 439, 440, 441, 443, 461, 462,
- One anthropological methods course selected from Anthropology 429, 441, 463, 464,
- Four additional Anthropology courses, at least three of which must be at the 300-400 level. Anthropology 101 may not be used to meet this requirement.
- Fifteen additional credits in courses offered by a department or program in the Colleg eof Natural Science, chosen from at least two of the following: Biochemistry and Molecular Biology, Biological Science, Chemistry, Geological Sciences, Mathematics, Microbiology and Molecular Genetics, Physics and Astronomy, Plant Biology, Physiology, Statistics and Probability, and Zoology. Relevant natural science courses offered through any other college may be taken with the approval of the student's academic ad-
- One statistics and probability course selected from STT 200, 201, 421: or PSY 295.

#### **MINOR IN ANTHROPOLOGY**

The Minor in Anthropology, which is administered by the Department of Anthropology, provides a basic foundation for the breadth of study within the field of anthropology, and a grounding in general anthropological theory. Students obtain knowledge of at least one advanced topic in the field and command of the anthropological literature in at least one geographical area.

This minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts or Bachelor of Science Degree in Anthropology. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult the undergraduate advisor in the Department of Anthropology.

#### **GRADUATE STUDY**

The Department of Anthropology offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees.

Graduate education in Anthropology at MSU is directed toward development of high achievement in scholarship among a new generation of anthropologists, including a commitment to research, public engagement, and the ethical practice of anthropology. The Department of Anthropology at MSU takes pride in the diversity of our own community of scholars, including our graduate students and faculty, and is committed to maintaining and supporting this diversity both in our department and in the profession. The department also emphasizes the importance of collaborative work with the people and communities whom we study, and the need to share our research with a variety of audiences.

Students who are enrolled in Master of Arts and Doctor of Philosophy degree programs in the Department of Anthropology may elect College of Social Sciences specializations in Environmental Science and Policy; Gender, Justice and Environmental Change; Global Urban Studies, International Development; and other graduate specializations. Dual degree programs are also possible, including special programs for professional doctoral degrees.

Students who are enrolled in Master of Arts and Doctor of Philosophy degree programs in the Department of Anthropology may elect specializations in Infancy and Early Childhood. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Infancy and Early Childhood.

#### Master of Arts

Anthropologists study humans in relation to themselves, their past, their environment, and their biological heritage. As a discipline, Anthropology spans the social and natural sciences and the humanities, and is equipped with various tools and approaches to study human problems. Our knowledge and skills contribute critical perspectives on contemporary transformations within academia and in society at large.

Anthropology at MSU provides training in cultural anthropology, linguistic anthropology, archaeology, and physical anthropology. While a traditional four-field department, the graduate program provides opportunities for students to engage in research across the subdisciplines. The program also has a number of well-regarded subdisciplinary specialties including medical anthropology and forensic anthropology.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Students applying for admission to the master's program in anthropology will be considered regardless of the field of their previous academic training. It is, however, recommended that students have earned at least 12 undergraduate credits in anthropology before entering the program. Admission on other than a provisional status is normally contingent upon the possession of a bachelor's degree from a recognized college or university, and a junior-senior undergraduate grade-point average of 3.0 or better in academic studies.

#### Requirements for the Master of Arts Degree in Anthropology

The program is available under both Plan A (with thesis) and Plan B (without thesis). The student must complete a total of 30 credits distributed as follows:

#### Requirements for Both Plan A and Plan B

|    |   | CREDITS |
|----|---|---------|
| 1. | Both of the following courses (6 credits):  ANP 830 Cultural and Linguistic Anthropological Theory:   |         |
|    | Key Issues and Debates  | 3       |
|    | ANP 840 Biocultural Evolution   | 3       |
| 2. | Completion of a methods course appropriate for the student's  |         |
|    | subdiscipline. The course must be approved by the student's guidance committee.                       |         |
| 3. | Completion of additional elective credits approved by the student's quid-                             |         |
|    | ance committee. At least 21 of the 30 credits required for the degree must be earned in Anthropology. |         |

#### Additional Requirements for Plan A

- Complete 4 credits of Anthropology 899 Master's Thesis Research.
- Prepare an approved thesis proposal.
  Pass an oral examination in defense of the thesis.

#### Additional Requirements for Plan B

1. Pass a final evaluation with a guidance committee of at least three faculty, at least two of whom should be from the Department of Anthropol-

#### **Doctor of Philosophy**

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Students applying for admission to the Doctor of Philosophy degree program in Anthropology will be considered regardless of the field of their previous academic training. It is, however, recommended that students have earned at least 12 undergraduate credits in anthropology before entering the program. Admission on other than a provisional status is normally contingent upon the possession of a bachelor's degree from a recognized college or university, and a junior-senior undergraduate grade-point average 3.0 or better in academic studies.

#### Requirements for the Doctor of Philosophy Degree in Anthropology

Students must complete the following:

|    |  | CREDITS |
|----|--|---------|
| 1. | Both of the following courses (6 credits):   |         |
|    | ANP 830 Cultural and Linguistic Anthropological Theory: Key Issues and Debates                                     | 3       |
|    | ANP 840 Biocultural Evolution  | 3       |
| 2. | Completion of a methods course appropriate for the student's   |         |
|    | subdiscipline. The course must be approved by the student's guidance committee.                                    |         |
| 3. |  |         |
| ٥. | ance committee.  |         |
| 4. | Successful completion of the comprehensive examination, including preparation of a dissertation research proposal. |         |
| 5. | Successful completion of 24 credits of ANP 999 Doctoral Dissertation   |         |

#### PROFESSIONAL APPLICATIONS IN **ANTHROPOLOGY**

Research and defense of the doctoral dissertation.

#### Master of Arts

The Master of Arts in Professional Applications in Anthropology will allow students to select a flexible but highly focused plan of study to prepare for positions as practicing anthropologists in government or the private sector. In addition to specialized training within the field of anthropology, students will be expected to elect courses in a field related to the practice of anthropology such as geographical information systems (GIS), cartography, resource development, management of nonprofit organizations, museum studies, or another practice-oriented specialty that is approved by the student's guidance committee. Students will also obtain experience as practicing professionals.

This program includes three areas of professional development: (1) in-depth knowledge of the discipline of anthropology; (2) demonstrated command of communication and presentation skills, as shown in the writing and public presentation of a master's paper; (3) demonstrated practical experience, obtained either as part of past employment, or as an internship within the public or private sector.

In addition to meeting the requirements of the university and the College of Social Science, students must meet the requirements specified below.

#### Admission

Students applying for admission to the master's program in professional applications in anthropology will be considered regardless of the field of their previous academic training. It is, however, recommended that students have earned at least 12 undergraduate credits in anthropology before entering the program. Admission on other than a provisional status is normally contingent upon the possession of a bachelor's degree from a recognized college or university, and a junior-senior undergraduate grade-point average of 3.0 or better in academic studies.

#### Requirements for the Master of Arts Degree in Professional Applications in Anthropology

Students who are enrolled in the Master of Arts degree program with a major in Professional Applications in Anthropology must complete a minimum of 30 credits, 15 which must be earned in anthropology, under Plan B (without thesis). The student's program of study must be approved by the student's guidance committee. Normally students complete the requirements for the Master of Arts degree in two years.

The student must meet the following requirements:

- 1. Completion of Anthropology 840, 855, and 901.
- 2. A methods course in anthropology.
- Completion of additional courses in anthropology and other disciplines.
- Satisfactory completion and presentation of a master's paper, which is submitted to the Department.
- Completion of an approved internship, Anthropology 900, unless this requirement is specifically waived by the student's guidance committee.

#### **RESEARCH OPPORTUNITIES**

The African, Asian, and Latin American Studies Centers offer unique opportunities for the support of anthropological research. The University Museum, International Studies and Programs, the Center for Advanced Studies in International Development (CASID), the Office of Women in Development (WID), the Agricultural Experiment Station, Urban Affairs Programs, the Hispanic Research Institute, and the Midwest Universities Consortium for International Activities, Incorporated (MUCIA), also support research. A program of study may be developed in cooperation with the College of Human Medicine.

### SCHOOL of CRIMINAL JUSTICE

#### Thomas J. Holt, Director

Free and democratic society requires a commitment to safety and security as well as to core values of justice, equity, and civil liberty. Indeed, the appropriate balance of security and liberty is an ongoing challenge of free societies. Public and private agencies at various levels provide for security, safety, justice, and freedom through efforts to prevent crime and to appropriately respond to crime when it does occur.

The academic study of criminal justice through the Bachelor of Arts, Master of Science, and Doctor of Philosophy degree programs in the School of Criminal Justice is based on the belief that the study of the causes of crime and delinquency must be combined with the study of the institutions and processes involved in the prevention and response to crime and delinquency. Additionally, the systematic study of crime, criminal behavior, and criminal justice and security processes should be informed by multidisciplinary theory and research. The challenges posed by crime and security in contemporary society necessitate well-educated professionals prepared for careers in criminal justice, security, and related areas.

The School of Criminal Justice offers an undergraduate minor in security management, graduate specializations in security management, forensic science, and in judicial administration, and Master of Science degrees in Criminal Justice, Forensic Science, Law Enforcement Intelligence and Analysis, and Judicial Administration; and a Doctor of Philosophy degree in Criminal Justice.

#### **UNDERGRADUATE PROGRAMS**

#### **Bachelor of Arts**

#### **CRIMINAL JUSTICE**

The Bachelor of Arts degree program in criminal justice is designed to prepare students for entry level positions in public and private agencies identified with criminal justice administration. Such agencies apprehend offenders, adjudicate alleged offenses, redirect emergent criminal careers, and promote industrial and commercial security. Such agencies also encourage and emphasize community responsibility for the success of their programs.

The bachelor's program in criminal justice provides a basic orientation to the institutions and processes of criminal justice and offers students wide exposure to all of the major disciplines of the criminal justice system. The program promotes general knowledge through core and social science courses. It provides students with the opportunity to pursue interests in the following areas: juvenile justice, police administration, adult corrections, and security.

### Requirements for the Bachelor of Arts Degree in Criminal Justice

- The requirements of the University as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Criminal Justice.
  - Bachelor of Arts degree in Criminal Justice.

    The University's Tier II writing requirement for the Criminal Justice major is met by completing one of the following courses: Criminal Justice 424, 426, 427, 430, 445, 465, or 485. Those courses are referenced in item 3. a. (3) below.
- The requirements of the College of Social Science for the Bachelor of Arts degree.

#### MINOR IN SECURITY MANAGEMENT

The complexities of modern society have combined to generate a variety of threats to business organizations, information networks, government installations and operations, and individuals. The Minor in Security Management is designed for students who are interested in private and government security.

The minor, which is administered by the School of Criminal Justice, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The minor should be of particular interest to students who are enrolled in certain programs in the Eli Broad College of Business and the College of Social Science, and to students who are enrolled in the Bachelor of Science degree program in Computer Science.

The Minor in Security Management is designed to help students to understand:

- The business and technical aspects of protecting private and government assets.
- The administrative, management, technical, and legal prob-2. lems of asset protection and loss prevention.
- 3. Concepts related to protecting personal and personnel rights, proprietary information, facilities, and other assets of an organization.
- Security's relationship to the value of freedom and democratic principles in our society.

With the approval of the department or school and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

#### Requirements for the Minor in Security Management

#### **GRADUATE STUDY**

The School of Criminal Justice is at the forefront of education in the nature of crime, administration of criminal justice, security management and administration, and the legal system. Throughout the program there is an emphasis on the relationship between theory and practice as well as the interconnection of the activities of the many agencies and professions involved in the systems of justice and private security. Through their research, teaching, and practice, graduates can contribute to the development of improved systems for the prevention and control of crime and delinquency.

The School of Criminal Justice offers a professionally and managerially oriented Master of Science degree program for advanced students, many of whom are criminal justice professionals. The Master of Science degree is offered both on campus and through online delivery. The Master of Science in Forensic Science offers concentrations in forensic anthropology. biology, and chemistry and is only offered on-campus. The School also offers a Master of Science degree in Law Enforcement Intelligence and Analysis which is available only online. A Graduate Certificate in Cyber Criminology and Cyber Security is also available.

The Doctor of Philosophy is designed to produce graduates who can apply interdisciplinary theory and a variety of research methodologies to the study of crime causation, social reaction, and the justice system. The Ph.D. in Criminal Justice permits students to emphasize the study of crime, crime control, and justice administration while simultaneously developing a strong foundation in social science theory and research methods. It prepares students for careers in college and university teaching and research, as well as for advanced public policy positions.

#### Master of Science

#### **CRIMINAL JUSTICE**

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

While a criminal justice undergraduate major comparable to that offered by this school is not required for admission to the Master of Science degree program, the applicant must have a background of education and occupational experience appropriate to the successful pursuit of graduate work in the concentration elected. Applicants insufficiently prepared for graduate study in criminal justice may have to complete collateral course work or pursue individualized study to satisfy deficiencies. Occupational experience is highly desirable before undertaking graduate study in some fields of criminal justice.

All applicants must have at least 12 credits of undergraduate course work in political science, economics, sociology, psychology, anthropology, history, social work, or any combination thereof. At least 6 of these credits must be in sociology, psychology, social work, or any combination of such courses.

#### **Regular Status**

- A bachelor's degree from a recognized educational institution.
- An undergraduate grade-point average of 3.20 or higher.
- Satisfactory scores on the Graduate Record Examination General Test. The GRE exam is waived for candidates with a cumulative undergraduate grade-point average of 3.2 or higher from an accredited and recognized institution and for applicants with a completed graduate degree
- Evidence of personal traits and characteristics considered important for scholarly performance.
- Occupational experience is given weight in the selection of master's degree candidates whenever such experience is important to the study of a specific concentration or is an important factor in obtaining appropriate employment after completion of the Master of Science degree.

#### **Provisional Status**

Alimited number of applicants who do not satisfy the school's regular admission requirements may be accepted provisionally. These students will be judged on the basis of their potential contribution to the field of criminal justice. Students should not be enrolled on a provisional basis for more than one semester. The student must be admitted on a regular basis to be considered a degree candidate. To qualify for admission to regular status, the student must complete a minimum of 10 credits in criminal justice graduate course work with a grade-point average of 3.20 or higher.

#### Requirements for the Master of Science Degree in Criminal Justice

The program is available under both Plan A (with thesis) and Plan B (without thesis). The student must complete a total of 30 credits distributed as follows:

#### Requirements for Both Plan A and Plan B

|    |      |         |   | CREDITS |
|----|------|---------|---|---------|
| 1. | Core | Courses |   | 15      |

|    | CJ   | 810     | Proseminar in Criminal Justice                      |         |
|    | CJ   | 811     | Design and Analysis in Criminal Justice Research3   |         |
|    | CJ   | 812     | Criminal Justice Management Seminar                 |         |
|    | CJ   | 887     | Quantitative Methods in Criminal Justice Research 3 |         |
| 2  | Plan | Δ       |   |         |

- Complete 6 credits of Criminal Justice 899 Master's Thesis Re
  - search with a grade of 3.0 or better. Pass an oral examination in defense of the thesis.
- $Complete \ 3\ credits\ of\ electives\ approved\ by\ the\ academic\ advisor.$ Plan B
- Complete Criminal Justice 896 Policy Analysis under Conditions of Change with a grade of 3.0 or better.
- Pass an oral examination covering the policy analysis paper completed by successfully completing Criminal Justice 896
- Complete 6 credits of electives approved by the academic advisor.
- Criminal Justice electives approved by an academic advisor. . . . . . 6

#### **Doctor of Philosophy**

The Doctor of Philosophy degree in criminal justice focuses on criminal justice and criminology and theory-based knowledge of crime, criminal justice organizations and processes and the law. During the course of doctoral study, students are expected to develop the depth, breadth and consistency of their training in research methods and their applications of analytical capabilities to administrative and policy issues.

#### **CRIMINAL JUSTICE**

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be eligible for admission to the Doctor of Philosophy program in Criminal Justice, an applicant must have:

- Completed an undergraduate degree in criminal justice or related social science field.
- An overall grade-point average of at least 3.2 in the most recent academic degree (master's or bachelor's).
- Satisfactory scores on the Graduate Record Examination (GRE) General Test as judged by the faculty.
- Evidence of experience in social science research, such as the completion of a master's thesis.

#### Requirements for the Doctor of Philosophy Degree in Criminal Justice

Students who are enrolled in the Doctor of Philosophy degree program in Criminal Justice must complete a minimum of 60 cred-

- Completion of 18 credits in Criminal Justice 801, 810, 901, 1. 906, 909, and 910.
- 2. Students admitted directly from an undergraduate degree program must take Criminal Justice 811 and 887 as prerequisites to Criminal Justice 906, 907, 909, and 910. Criminal Justice 811 and 887 may not be counted toward doctoral program requirements.
- Completion of 12 credits of additional elective courses at the 800 level or above as approved by the student's guidance committee.
- Completion of two 3-credit doctoral research methods courses in the College of Social Science as approved by the student's quidance committee.
- Satisfactory completion of 24 credits of Criminal Justice 999 and defense of a doctoral dissertation.

Normally students complete the requirements for the Doctor of Philosophy degree in four years.

#### **FORENSIC SCIENCE**

#### Master of Science

Several colleges and departments within Michigan State University cooperate to offer the Master of Science in Forensic Science. These include the College of Natural Science in cooperation with the departments of Chemistry; Pharmacology and Toxicology, Statistics and Probability, and Zoology as well as the Center for Advanced Microscopy, and the College of Social Science in cooperation with the Department of Anthropology and the School of Criminal Justice. The School of Criminal Justice is the primary administrative unit.

This program is designed to give all students a broad, theoretical and practical background in the scientific, legal and investigative aspects of forensic science while providing the opportunity to study one of the major disciplines in depth. Students enrolled in this program must complete a concentration in one of the following areas: forensic chemistry, or forensic anthropology.

A thesis is required of all students pursuing Plan A and opportunities exist for an internship in a practicing United States or international forensic science laboratory.

In addition to meeting the requirements of the university and the College of Social Science, students must meet the requirements specified below.

#### Admission

To be considered for admission to the Master of Science degree program in forensic science, an applicant must have:

completed a Bachelor of Science or Bachelor of Arts degree in a discipline appropriate to the desired concentration. For example, a student who desires to complete the concentra-

- tion in forensic chemistry must have a bachelor's degree in chemistry or a closely allied science such as biochemistry.
- a cumulative grade-point average of at least 3.0 for all course work in the bachelors degree.
- satisfactory scores in the Graduate Record Examination General Test as judged by the program faculty. No substantive area GRE exams are required.

#### Requirements for the Master of Science Degree in **Forensic Science**

The program is available under Plan A (with thesis) or Plan B (without thesis). Each student will have a thesis advisory committee comprised of the academic advisor and two other program faculty. The student must complete at least 38 credits as fol-

|    |                                     |           |  | CREDITS |  |

Additional Requirements for Plan A

with the student's academic advisor.

- Complete 6 credits in Forensic Science 899 Master's Thesis Research.
- Attend at least one Master's Seminar Series lecture per semester.
- Pass an oral examination in defense of the thesis.

Additional Requirements for Plan B

- Complete 6 credits in Forensic Science 890 Independent Study.
- Attend at least one Master's Seminar Series lecture per semester.
- Completion of a final examination or evaluation.

#### LAW ENFORCEMENT INTELLIGENCE AND **ANALYSIS**

#### Master of Science

The Master of Science degree in Law Enforcement Intelligence and Analysis is a Plan B (without thesis), online program designed for working law enforcement professionals to enhance their education and training in the critical field of intelligence. Criminal justice students wishing to enter a law enforcement career with a specialized graduate degree may also apply.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be considered for admission to the Master of Science degree program in Law Enforcement Intelligence and Analysis, an applicant must:

- submit a personal statement regarding their academic and professional goals.
- submit scores from a GRE general exam taken within the last five years. The GRE exam is waived for candidates with a cumulative undergraduate GPA of 3.2 or higher from an accredited and recognized college or university, and for applicants with a completed graduate degree.

The School of Criminal Justice recognizes that many applicants have been out of the academic environment for some time. and other factors may be considered in the admission process. A limited number of applicants who do not satisfy the school's regular admission requirements may be admitted on a provisional basis. The decision to grant provisional admission is based on the student's potential contributions to the field of criminal justice. A student may be enrolled on a provisional basis for only two semesters and must be admitted on a regular basis to be considered a degree candidate. To qualify for regular status, a student must complete a minimum of 12 credits of graduate course work in criminal justice with a GPA of 3.0 or higher.

#### GRADUATE CERTIFICATE IN CYBER CRIMINOLOGY AND CYBER SECURITY

The Graduate Certificate in Cyber Criminology and Cyber Security is designed to provide graduates the knowledge of cybercrime/cyberterrorism, the understanding of basic principles of cybersecurity, and digital forensics skills to prepare individuals for successful careers in the fields of digital forensics, law enforcement investigations, cyber security, or intelligence analysis, whether in government or the private sector. Students leave the program with ability to understand and identify the range of cybercrimes that occur, as well as the facilitating role of technology in myriad real world offenses, and will be able to identify the basic system and network structures that support the Internet and online communications, and understand and communicate basic cybersecurity strategies in practice in various organizations. Students will be able to utilize forensic techniques to appropriately seize and analyze digital forensic evidence from devices to yield digital evidence.

Students must complete 15 credits from all of the following courses: CJ CJ CJ CJ 872 875 876

### GRADUATE SPECIALIZATION IN FORENSIC SCIENCE

The Graduate Specialization in Forensic Science provides a thorough understanding of the broad field of forensic science and prepares students for the role of court-qualified expert. Students study scientific, technical, and ethical issues and the relationship of their own area of expertise to the criminal justice system. The legal aspects of forensic science presented include the study of court-qualified expert qualifications, types of scientific evidence likely to be admissible in court, and how evidence may become inadmissible for scientific and technical reasons. Students will participate in a mock trial drawing on their systemic understanding of their field of expertise and their ability to explain methodology and evidence to laypersons.

This graduate specialization is available as an elective to students who are enrolled in doctoral degree programs at Michigan State University. The Graduate Specialization in Forensic Science, which is administered by the School of Criminal Justice, is designed for individuals in a discipline that typically does not lend itself to full-time employment in a crime laboratory but may require participation in the criminal justice system in order to offer expert advice. Completion of this specialization will provide students with knowledge of the United States legal system, scientific evidence, and intricacies of testifying, all of which are requisite to becoming an effective court-qualified expert in the courtroom.

With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the specialization may also be used to satisfy the requirements for the doctoral degree. The students program of study must be approved by the student's advisor for the specialization.

### Requirements for the Graduate Specialization in Forensic Science

|  | CREDIT |
|--|--------|
| The student must complete 9 credits from the following:                    |        |
| All of the following courses (6 credits):                                  |        |
| CJ 805 Survey of Forensic Science  |        |
| CJ 817 Law and Forensic Science  |        |
| FRS 890 Independent Study  |        |
| Independent study will entail a substantial literature and legal essay re- |        |
| viewing the student's specialized field as it relates to the forensic sci- |        |
| ences and the legal system.  |        |

 Complete a 3 credit 800 or 900-level course that is relevant to the discipline, such as forensic anthropology or forensic entomology, and is approved by the student's advisor and the Director of the Forensic Science program.

### GRADUATE SPECIALIZATION IN JUDICIAL ADMINISTRATION

Management of the courts and the judicial process in contemporary society requires expert knowledge and complex skills. The courts need qualified professionals who can ensure that the public receives timely and just resolution to cases requiring judicial intervention.

The Specialization in Judicial Administration, which is administered by the School of Criminal Justice within the College of Social Science, is available online as an elective to students who are enrolled in master's degree programs at Michigan State University with the exception of student's pursuing the Master of Science in Judicial Administration. This specialization is designed to meet the educational needs of students currently working in the judicial system. It prepares students to understand the purposes and responsibilities of the courts; leadership and its role in guiding the courts; and interaction with the community. It provides opportunities to learn how to obtain and manage human resources including staff education and development, budgets, and fiscal resources; manage cases and information technology effectively;

envision and plan strategically; and implement and manage auxiliary court programs and required services, which complement and support the core functions of the courts.

With the approval of the department or school and college that administers the student's degree program, courses that are used to satisfy the requirements for the specialization may also be used to satisfy the requirements for the master's degree. The student's program of study must be approved by the student's guidance committee for the specialization.

### GRADUATE SPECIALIZATION IN SECURITY MANAGEMENT

The complexities of modern society have combined to generate a variety of threats to business organizations, information networks, government installations and operations, and individuals. The Graduate Specialization in Security Management is designed for students who are interested in private and government security.

The specialization, which is administered by the School of Criminal Justice, is available as an elective to students who are enrolled in master's degree programs at Michigan State University. The specialization should be of particular interest to students who are enrolled in certain programs in the Eli Broad College of Business and the College of Social Science.

The Specialization in Security Management is designed to help students to understand:

- 1. The business and technical aspects of protecting private and government assets.
- The administrative, management, technical, and legal problems of asset protection and loss prevention.
- Concepts related to protecting personal and personnel rights, proprietary information, facilities, and other assets of an organization.
- Security's relationship to the value of freedom and democratic principles in our society.

With the approval of the department or school and college that administer the student's degree program, the courses that are used to satisfy the requirements for the specialization may also be used to satisfy the requirements for the master's degree.

### Requirements for the Graduate Specialization in Security Management:

The student must complete:

### DEPARTMENT of ECONOMICS

#### Timothy Vogelsang, Chairperson

Economics is the study of how various entities make choices with scarce resources. Microeconomics focuses on the choices made by individuals and firms, and macroeconomics looks at the behavior of the economy as a whole. The study of economics is one of the most practical and adaptable disciplines. Those who focus on it gain a broad skill-set that can be utilized in complex and changing environments, and that can contribute to the understanding and improvement of lives at the individual, group, organizational, and societal level.

The Department of Economics offers both undergraduate and graduate degrees. Both programs offer courses that teach fundamental communication and analytical skills necessary to succeed in a wide variety of academic and professional careers.

The mission of the Department of Economics at Michigan State University consists of three interrelated components: providing the highest quality instruction to our undergraduate and graduate students, conducting cutting-edge research in economics, and providing leadership and service to our professional communities.

#### **UNDERGRADUATE PROGRAMS**

The Department of Economics offers Bachelor of Arts and Bachelor of Science degrees, as well as a minor. Jointly with the Department of Political Science, it also offers a Linked Bachelor of Arts or Science/Master of Public Policy degree program.

The economics degree programs provide students with substantive knowledge of the domestic and international economy and include the study of institutions, concepts, policy, and tools of analysis. Our students prepare for careers in business such as banking, financial markets, insurance, management, and consulting; positions in national, state, and local governments; teaching; and graduate study in economics and related fields including business administration, finance, public policy, and law.

The department stresses flexibility in each undergraduate program and requires a strong core of economic theory, supplemented by mathematics, statistics, and computer science. Students in each of these degree programs choose area electives within the department as well as in the College of Social Science, the College of Arts and Letters, and the university. All students are encouraged to develop programs of study that are tailored to their individual interests and goals.

The Linked Bachelor of Arts or Science/Master of Public Policy program allows qualified students interested in professional careers in policy analysis, program management or policy advocacy the opportunity to complete both their bachelor's and master's degrees in a total of five years.

Beyond the introductory courses in microeconomics and macroeconomics, the department offers courses in a number of areas of emphasis. These areas of emphasis are listed below, along with their respective course offerings.

## Microeconomics EC 251H Microeconomics and Public Policy EC 301 Intermediate Microeconomics EC 401 Advanced Microeconomics Macroeconomics and Monetary Theory EC 252H Macroeconomics and Public Policy EC 302 Intermediate Macroeconomics EC 330 Money, Banking, and Financial Markets EC 402 Advanced Macroeconomics Economic Systems

#### Bachelor of Science

The Bachelor of Science Degree in Economics emphasizes the use of advanced math and science in the analysis of economic theories. The program offers students more emphasis on mathematics, statistics, and computer science, as preparation for those who wish to pursue graduate training in economics.

### Requirements for the Bachelor of Science Degree in Economics

The graduation requirements of the University as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Economics.

The University's Mathematics requirement for the Bachelor of Science degree in Economics is met by completing Mathematics 132, or 152H.

The University's Tier II writing requirement for the Economics major is met by completing one of the following courses: Economics 404, 406, 410, 412, 413, 414, 425, 435, 436, 438, 440, 441, 450, 460, 480, 485, 495, 498, or 499. Those courses are referenced in item 3. c. below.

2. The requirements of the College of Social Science for the Bachelor of Science degree.

CREDITS

3. The following requirements for the major:

Students may elect to complete more economics courses than those needed to complete the requirements for the major, with the understanding that the grades earned in such courses will be included in the computation of the grade-point average for courses in the major to meet College of Social Science graduation requirements. In order to be eligible to enroll in Economics 499, as referenced in item 3. c. and 3. e. below, students must have a grade-point average of 2.0 across attempted Economics courses.

| a. | All of  | All of the following courses (15 credits):                 |                                     |  |  |  |  |
|----|---|--|-------------------------------------|--|--|--|--|

| MKT  | 327 | Introduction to Marketing       |  |  |  |
| Students may substitute Accounting 201 and 202 for Accounting 230. |     |                                 |  |  |  |

#### **MINOR IN ECONOMICS**

work at the 300-400 level

The Minor in Economics, which is administered by the Department of Economics, provides a basic foundation for the breadth of study within the field of economics and a grounding in general economic theory.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts or Bachelor of Science Degree in Economics. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in the Department of Economics.

#### **Requirements for the Minor in Economics**

**CREDITS** 

Complete 18 credits of economics course work with a minimum grade-point average of 2.0 in courses used in fulfillment of the requirements for the minor.

| All of  | the follo | owing courses (9 credits):                                   |
|---------|-----------|--|
| EC      | 201       | Introduction to Microeconomcis                               |
| EC      | 202       | Introduction to Macroeconomics                               |
| EC      | 301       | Intermediate Microeconomics                                  |
| Econo   | mics 2    | 51H may be substituted for Economics 201 and 301. Stu-       |
| dents   | who ele   | ect this substitution may satisfy the requirement referenced |
| in item | 13. by c  | ompleting at least 8 additional credits in Economics course  |

Economics 252H may be substituted for Economics 202. Economics 251H and 252H may be substituted for the following group of courses: Economics 201, 202, 301, and 302. Economics 302 is not required for the minor. Students who elect this substitution may satisfy the requirement referenced in item 3. by completing at least 8 additional credits in Economics course work at the 300-400 level.

- 2. Complete 3 additional credits in Economics at the 400-level.
- 3. Complete 6 additional credits in Economics at the 300-400 level.

#### **TEACHER CERTIFICATION OPTIONS**

The economics disciplinary minor is available for teacher certification for students who are pursing a major with a teacher certification option in comparative cultures and politics, international relations, political theory and constitutional democracy, social relations and policy, interdisciplinary studies in social science, interdisciplinary studies in social science: social science education, or history. Students who elect the economics disciplinary minor must contact the Department of Economics.

For additional information, refer to the statement on TEACHER CERTIFICATION in the *Department of Teacher Education* section of this catalog.

### LINKED BACHELOR'S-MASTER'S DEGREE IN PUBLIC POLICY

Bachelor of Arts or Bachelor of Science Degree in Economics Master of Public Policy Degree in Public Policy

The department welcomes applications from Michigan State University Economics undergraduate students during the fall semester of their junior year in order to begin the program during the fall semester of their senior year. Admission to the program requires a minimum undergraduate grade-point average of 3.50 and an approved program of study for the Master of Public Policy degree in Public Policy at the time of admission. Admission to the Linked Bachelor's-Master's Program allows the application of up to 9 credits toward the master's program for qualifying 400-level and above course work taken at the undergraduate level at Michigan State University or an external accredited institution. The number of approved credits, not to exceed 9, are applied toward the credit requirement of the master's degree. Credits applied to the Linked Bachelor's-Master's Program are not eligible to be applied to any other graduate degree program.

#### **GRADUATE STUDY**

The Department of Economics offers a Doctor of Philosophy degree in Economics and a Master of Public Policy degree jointly with the Department of Political Science. Students who are admitted to the Doctor of Philosophy program may obtain a Master of Arts degree in Economics.

The doctoral degree prepares students for professional careers in research, teaching, government, and business. Doctoral students must qualify in general economic theory, methods, and two fields of specialization. The fields of specialization include:

Advanced Economic Theory Advanced Macroeconomics

Econometrics

Development

**Environmental and Resource Economics** 

Industrial Organization

International Economics

Labor Economics

Macroeconomics

**Public Economics** 

Substitution of a field in another discipline is possible. The master degree is offered to students who are admitted to the doctoral program that satisfy the master degree requirements.

The Master of Public Policy program provides students with the requisite skills to address complex societal problems, reconcile conflicting political and ethical values in policymaking, make informed decisions about program activities, and provide effective leadership in policy development and implementation.

Students who are enrolled in Master of Arts and Doctor of Philosophy degree programs in the Department of Economics may elect specializations in environmental and resource economics. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Environmental and Resource Economics in the *College of Agriculture and Natural Resources* section of this catalog.

#### Admission

Before admission to graduate work, a student should have acquired a minimum of 25 credits in the social sciences, mathematics, statistics, agricultural economics, accounting, or business administration, or in some combination of these fields. Students with limited economics in their undergraduate programs will have to correct such deficiencies by completing collateral courses, not to count toward the degree, which serve as prerequisites for the graduate economics courses.

Applicants to the graduate programs are required to submit scores on the Graduate Record Examination General Test; in addition, applicants should arrange to have three letters of recommendation and transcripts of all prior collegiate course work supplied to the department.

#### Master of Arts

The Master of Arts degree is available to students enrolled in the Ph.D. degree program in Economics or, with departmental approval, as a second degree for students enrolled in other graduate degree programs. Only the Plan B (without thesis) option is available. Course requirements include the first-year core sequence in the Ph.D. program in Economics, which prepares students for continuing in the Ph.D. program or for professional careers that call for high-level training in economic theory and quantitative analysis methods.

In addition to meeting the requirements of the university, of the College of Social Science, and the Department of Economics, students must meet the requirements specified below.

### Requirements for the Master of Arts Degree in Economics

| 1. | Comple | ete all c | of the following courses (22 credits):                     |
|----|--------|-----------|--|
|    | EC     | 811A      | Mathematical Applications in Economics                     |
|    | EC     | 811B      | The Structure of Economic Analysis                         |
|    | EC     |           | Microeconomics I   |
|    | EC     | 812B      | Microeconomics II  |
|    | EC     |           | Macroeconomics I   |
|    | EC     | 813B      | Macroeconomics II  |
|    | EC     | 820A      | Econometrics IA  |
|    | EC     |           | Econometrics IB  |
| 2. | Comple | ete thre  | e additional Economics courses at the 800-900 level total- |

 ing at least 8 credits.
 Obtain a master's level pass on the written comprehensive examination in microeconomic theory, macroeconomic theory, and econometrics.

#### Academic Standards

To remain in the program and receive the M. A. degree in economics, a student must:

- Maintain at least a 3.00 grade-point average.
- Earn a grade of 3.0 or higher in required 800–900 level economics courses.

3. The accumulation of grades below 3.0 (including N grades in the P-N grading system) in more than two courses of 3 or more credits each removes the student from the degree program; this policy does not apply to courses below the 400-level unless the courses are required for the student's program.

#### **Doctor of Philosophy**

Students may be admitted to the Doctor of Philosophy degree in Economics only for a fall semester.

In addition to meeting the requirements of the university and the College of Social Science, students must meet the requirements specified below.

### Requirements for the Doctor of Philosophy Degree in Economics

- 1. Complete the core courses in economic theory, mathematical methods in economics, and econometrics.
- Pass a comprehensive examination in microeconomic theory, macroeconomic theory, and econometrics.
- Complete other course requirements as specified in the document *The Doctoral Program in Economics*, available from the Department of Economics.
- Demonstrate competence in two fields of specialization and advanced methods.
- Present a research paper at the Department of Economics spring conference.
- Present a dissertation proposal to the student's guidance committee.
- Write an acceptable dissertation and defend it successfully in a public oral examination.

#### **Academic Standards**

Refer to the Doctor of Philosophy degree statement in the *College* of *Social Science* section.

### DEPARTMENT of GEOGRAPHY, ENVIRONMENT, and SPATIAL SCIENCES

#### Alan F. Arbogast, Chairperson

The discipline of geography, as the study of place and space, concerns itself with the analysis and explanation of the occurrence, distribution, and interrelationships of physical and cultural patterns on the earth's surface. The discipline is also interested in how the earth's physical and human landscapes change over time. Geography can be classified both as a social science and a natural science as it examines human beings and their environment and serves as a bridge between the physical and cultural worlds. The undergraduate program is designed to prepare students for various careers in business, industry, education and government.

Strengths of the department include physical geography (climate, geomorphology, soils, vegetation), economic geography, environmental change, spatial technologies (GIS, remote sens-

ing, cartography), health/medical geography, urban geography, and nature-society interactions.

#### UNDERGRADUATE PROGRAMS

The Department of Geography, Environment, and Spatial Sciences offers programs in economic geography, environmental geography, human geography, and geographic information science leading to the Bachelor of Arts and Bachelor of Science degrees. Minors in Geography and Geographic Information Science are also available.

#### **ECONOMIC GEOGRAPHY**

The Bachelor of Science degree in Economic Geography provides a comprehensive program for students interested in the roles of space, place, location, scale, key agents, and forces in the economic sphere. The program prepares students to succeed in commercial, non-government organizations, nonprofits. or governmental realms as well as the pursuit of graduate degrees, with emphases on spatial planning and control of issues ranging from transport and markets to poverty and inequality. Students attain substantial quantitative and technical skills as well as practical skills for solving problems drawn from local, regional, and global settings.

#### Requirements for the Bachelor of Science Degree in **Economic Geography**

The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Economic Geography.

The University's Tier II writing requirement for the Economic Geography major is met by completing Geography 480. That course is referenced in item 3. below.

The requirements of the College of Social Science for the Bachelor of Science degree.

| MGT | 325 | Management Skills and Processes |
| MKT | 327 | Introduction to Marketing       |

#### **ENVIRONMENTAL GEOGRAPHY**

The Bachelor of Science degree in Environmental Geography provides comprehensive academic training in the environment and how its many aspects interrelate across the landscape. Geographic knowledge is essential for understanding rapid social and environmental change in a globalized society. Environmental geographers describe, analyze, and explain the arrangement of the Earth's physical features. With training in both the natural and social sciences, environmental geographers have a wide range of career opportunities in public and private sectors. They find work in consulting, government, tourism, teaching, environmental analysis, non-profit organizations, and natural resource management. Environmental scientists are increasingly in demand for jobs that require expertise in bridging the gap between the social science and physical science aspects of natural systems.

In addition to the general environmental geography degree, a concentration is offered in atmospheric and climate sciences. The concentration is designed primarily for students who plan to enter a graduate program in atmospheric and/or climate sciences, or are interested in employment in the fields of applied atmospheric science and climatology and the delivery of weather and climate services. The concentration will be noted on the student's transcript.

#### Requirements for the Bachelor of Science Degree in **Environmental Geography**

1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Environmental Geography.

- f. One of the following:
  - (1) Students not pursuing a concentration:
    - (a) Twelve additional credits in Geography courses including at least 6 credits at the 300-level and above and 6 credits at the 400-level.
    - (b) Nine additional credits in courses from the College of Agriculture and Natural Resources or the College of Natural Science at the 300-level and above.
  - (2) A concentration in Atmospheric and Climate Sciences.

#### **Atmospheric and Climate Sciences Concentration**

| 1.  | All of t  | he folic | owing courses (24 credits):                        |  |  |
|-----|---|----------|--|--|--|
|     | MTH   | 133      | Calculus II  |  |  |
|     | MTH   | 234      | Multivariable Calculus                             |  |  |
|     | MTH   | 235      | Differential Equations                             |  |  |

| C+ı | Students in the concentration may use GEO courses in items c. d. and o. |          |  |  |  |

Students in the concentration may use GEO courses in items c., d., and e. above towards the College of Social Science college distribution requirement. Students in the concentration are not required to complete the College of Social Science ARTS AND HUMANITIES distribution requirement.

#### GEOGRAPHIC INFORMATION SCIENCE

The Bachelor of Science Degree in Geographic Information Science provides a rigorous, in-depth program for students interested in the application of information technology to the spatial dimensions of the Earth's human and physical systems. It is an ideal program for those pursuing a career in the spatial technology sector, or for those considering graduate study in geography and related disciplines. Students attain substantial general quantitative and technical skills, as well as practical experience in the application of skills to solving problems drawn from local, regional, and global settings.

### Requirements for the Bachelor of Science Degree in Geographic Information Science

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Geographic Information Science.
- The University's Tier II writing requirement for the Geographic Information Science major is met by completing Geography 425. That course is referenced in item 3. below.

  The requirements of the College of Social Science for the Bachelor of Science degree.
- The following required major courses with a minimum 2.0 grade-point average (40 to 44 credits):

|    | .9- (  |        |   |
|----|--|--------|---|
| a. | One of the following courses (3 or 4 credits): |        |   |
|    | LB   | 118    | Calculus I  |
|    | MTH  | 124    | Survey of Calculus I                              |
|    | MTH  | 132    | Calculus I  |
|    | MTH  |        | Honors Calculus I                                 |

#### **HUMAN GEOGRAPHY**

The Bachelor of Arts degree in Human Geography provides comprehensive academic training in the human dimensions of the environment, particularly how people are affected by the environment, and how they alter and change it. Geographic knowledge is essential for understanding rapid social and environmental change in a globalized society. Human geographers describe, analyze, and explain the arrangement of the Earth's cultures. With training in both the natural and social sciences, human geographers have a wide range of career opportunities in public and private sectors. They find work in consulting, government, urban and regional planning, locational analysis, marketing, real estate, tourism, transportation, and teaching. Geographers are increasingly in demand for jobs that require expertise in geospatial techniques, such as geographic information systems (GIS), global positioning systems (GPS), remote sensing, and cartography.

### Requirements for the Bachelor of Arts Degree in Human Geography

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Human Geography.
  - The University's Tier II writing requirement for the Geography major is met by completing Geography 480. That course is referenced in item 3. a. below.
- 2. The requirements of the College of Social Science for the Bachelor of Arts degree.
- The following courses with a minimum 2.0 grade-point average (34 to 35 credits):
   CREDITS

| a. | Both of the<br>GEO 113 | following courses (6 credits):  Introduction to Economic Geography          |
|----|------------------------|---|
|    | GEO 151                |   |
| b. |                        | following courses (3 or 4 credits):   |

#### MINOR IN ENVIRONMENT AND HEALTH

The Minor in Environment and Health, administered by the Department of Geography, Environment and Health, enhances the education and training of students who are interested in issues relating to the environment and health, including students who wish to prepare themselves for advanced degree programs in environmental studies, health studies or careers in related fields.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult an undergraduate advisor in the College of Social Science.

#### Requirements for the Minor in Environment and Health

Complete a minimum of 15 credits from the following: CREDITS The following course (3 credits): 3 GEO 151 One of the following courses (3 or 4 credits): 3 FC 498 Economics of Health Care (W) Geography of Environment and Health..... GEO 235 435 Geography of Health and Disease . . . . . **HDFS 225** Lifespan Human Development in the Family HST SOC 425 American and European Health Care since 1800..... 4 3 3 252 Introduction to Environmental Sociology..... SOC 451 Two of the following courses (6 credits): 427 3 ANS Environment Toxicology and Society ..... World Food, Population and Poverty ..... FFM 260 3 Pests, Society, and Environment . 205 ENT Disease in Society: Introduction to Epidemiology 4 HNF Public Health Nutrition. PHL 453 The following capstone course (3 credits): 

#### MINOR IN GEOGRAPHY

The Minor in Geography, which is administered by the Department of Geography, Environment, and Spatial Sciences, provides a fundamental foundation to the breadth of study within the field of geography as well as grounding in general geographic theory.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts or Bachelor of Science Degrees in Geography. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in the Department of Geography.

#### Requirements for the Minor in Geography

Complete a minimum of 21 credits in the Department of Geography,

|    | _invitorintent, and opadal ociences from the following. |         |  |  |  |  |  |
|----|---|---------|--|--|--|--|--|
| 1. | A minir   | mum of  | 9 credits from the following:          |  |  |  |  |
|    | GEO   | 113     | Introduction to Economic Geography     |  |  |  |  |
|    | GEO   | 151     | Introduction to Human Geography        |  |  |  |  |
|    | GEO   | 203     | Introduction to Meteorology            |  |  |  |  |
|    | GEO   | 206     | Physical Geography                     |  |  |  |  |
|    | and   |         |  |  |  |  |  |
|    | GEO   | 206L    | Physical Geography Laboratory          |  |  |  |  |
|    | GEO   | 221     | Introduction to Geographic Information |  |  |  |  |
| 2. | A minir   | mum of  | 3 credits from the following:          |  |  |  |  |
|    | GEO   | 204     | World Regional Geography3              |  |  |  |  |
|    | or  |         |  |  |  |  |  |
|    | Any 30  | 0-level | GEO course.                            |  |  |  |  |

 Complete a minimum of 9 additional credits in Geography courses, of which 6 credits must be at the 400-level. The courses must be approved by the student's academic advisor.

#### MINOR IN GEOGRAPHIC INFORMATION SCIENCE

The Minor in Geographic Information Science, which is administered by the Department of Geography, Environment, and Spatial Sciences provides a fundamental foundation to the breadth of study within the field of geographic information science.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Science Degree in Geographic Information Science. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in the Department of Geography, Environment, and Spatial Sciences.

## Requirements for the Minor in Geographic Information Science

**CREDITS** Complete a minimum of 21 credits in the Department of Geography, Environment, and Spatial Sciences from the following: Both of the following courses (4 credits): One of the following courses (3 credits): GEO 490 GEO 498 Both Geography 490 and 498 must have geographic information science, remote sensing, or cartography content to fulfill this requirement. Students should obtain advisor approval prior to enrolling in a section of either of these courses. Complete a minimum of 14 credits from the following courses: GEO 324 325 GEO Geographic Information Systems . . Introduction to Quantitative Methods for Geographers . . 3 **GEO** Application of Geographic Information Systems to Natural Resources Management. 419 **GEO** GEO GEO GEO 424 425 Thematic Cartography..... **GEO** 426 **GEO** 428 Digital Terrain Analysis . Metropolitan Environments: Urban Forms GEO and Land Uses . . . . . . . . . Additional courses as approved by the student's academic advisor.

#### **TEACHER CERTIFICATION OPTIONS**

A geography disciplinary minor is available for secondary teacher certification.

Students who elect the geography disciplinary minor must contact the Department of Geography, Environment, and Spatial Sciences to plan their programs of study.

For additional information, refer to the statement on *TEACHER CERTIFICATION* in the *Department of Teacher Education* section of this catalog.

#### **GRADUATE STUDY**

CREDITS

The Department of Geography, Environment, and Spatial Sciences offers programs in the discipline of geography leading to the Master of Science and Doctor of Philosophy degrees.

Students who are enrolled in master's or doctoral degree programs in the Department of Geography, Environment, and Spatial Sciences may elect an Interdepartmental Specialization in Cognitive Science. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Cognitive

Science. For additional information, contact the Department of Geography, Environment, and Spatial Sciences.

#### **GEOGRAPHY**

#### Master of Science

The master's program in geography is designed to enable the student to achieve professional competence in the discipline. This program is intended to increase substantive and technical proficiency.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

All students seeking the master's degree in geography are expected to have completed courses in physical, human, and regional geography; in quantitative methods; and in geographic information science. Applicants who have not completed all of these requirements may be admitted provisionally, and must remedy all course deficiencies before the degree is granted. Any course work complete to correct course deficiencies may not be counted towards the requirements for the degree.

REGULAR STATUS: The requirements for admission to the pro-

- A bachelor's degree from a recognized college or university preferably with an undergraduate major in geography or at least 14 credits in geography and related fields.
- A grade-point average of at least 3.40 at the time of application in both (1) all geography courses and (2) all courses completed during the junior and senior years.
- 3. Satisfactory scores on the Graduate Record Examination General Test.

#### Requirements for the Master of Science Degree in Geography

The Master of Science in Geography is available only under Plan A (with thesis). The student must complete a total of 30 credits distributed as follows:

|    |         |          |  | REDITS |
|----|---------|----------|--|--------|
| 1. | Both o  | f the fo | ollowing courses:  | 7 to 9 |
|    | GEO     | 886      | Research Design in Geography                                     |        |
|    | GEO     | 899      | Master's Thesis Research4 to                                     | 6      |
| 2. | One of  | f the fo | llowing four seminars:   | 3      |
|    | GEO     | 871      | Seminar in Physical Geography                                    |        |
|    | GEO     | 872      | Seminar in Human Geography                                       |        |
|    | GEO     | 873      | Seminar in Human-Environment Geography 3                         |        |
|    | GEO     | 874      | Seminar in Geographic Information Science                        |        |
| 3. | Compl   | ete 3 d  | or 4 credits in a geospatial technology course at the 400        |        |
|    | level o | r 800-le | evel. A list of courses available to fulfill this requirement is |        |
|    | availat | ole fron | n the student's quidance committee. Course work used to          |        |

- fulfill this requirement must be taken while enrolled as a graduate student at Michigan State University.
- Complete 3 or 4 credits at the 400 or 800-level in an area of cartography, geographic information science, remote sensing, quantitative methods, qualitative methods, world language, or programming. A list of courses available to fulfill this requirement is available from the student's guidance committee. Course work used to fulfill this requirement must be taken while enrolled as a graduate student at MSU. The course used to fulfill requirement 3. above may not be used to fulfill this requirement.
- Complete an additional 10 to 14 credits of course work taken inside or outside of the department. The course work must be approved by the student's guidance committee.
- Presentation of a research paper or poster at a professional meeting.
- Pass a final oral examination in defense of the thesis

#### **Doctor of Philosophy**

The Ph.D. program in geography is designed to develop the student's ability to conduct original research with special reference to:

- 1. understanding of scientific inquiry.
- 2. knowledge of the geographic discipline.
- understanding of a specialized area of geography such as people/environment, physical geography, regional development, or economic-regional science.
- proficiency with analytical and technical skills particularly with respect to spatial data analysis and manipulation.
- skills in communicating the results of research.

In addition to meeting the requirements of the University and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Admission to the doctoral program is based upon an evaluation of the student's academic records related to both the bachelor's and master's degrees, Graduate Record Examination (GRE) General Test scores, letters of recommendation, written statements, and other pertinent information such as professional experience and related achievements. Typical entrants to the doctoral program present a grade-point average of 3.60 or higher in a recognized master's degree program, which usually includes a thesis, and satisfactory scores on the GRE.

#### Requirements for the Doctor of Philosophy Degree in Geography

The student must:

1. Complete at least 56 credits while enrolled in the doctoral program including the following courses:

| ·  |   | <b>CREDITS</b> |
|----|---|----------------|
| a. | The following courses:  | 6              |
|    | GEO 886 Research Design in Geography                              |                |
|    | GEO 986 Theory and Methods in Geography3                          |                |
| b. | At least two of the following four seminars:                      | 6              |
|    | GEO 871 Seminar in Physical Geography                             |                |
|    | GEO 872 Seminar in Human Geography                                |                |
|    | GEO 873 Seminar in Human-Environment Geography 3                  |                |
|    | GEO 874 Seminar in Geographic Information Science 3               |                |

2. In consultation with the student's quidance committee, submit a manuscript to a refereed journal.

### DEPARTMENT of **HISTORY**

#### Lisa M. Fine, Chairperson

The Department of History offers courses which deal with human societies in all geographical regions and time-periods. Courses in African, Asian, Latin American, European, and North American history focus on issues of race, ethnicity, politics, military affairs, sexuality, and gender while providing insight into the human condition as a whole.

All courses in history have the goal of helping students learn how to think and write historically in a critical manner. History courses emphasize learning how to identify viewpoints, gather and organize information, present conclusions in essays and on the internet, distinguish facts from interpretations, recognize historical relationships and patterns, and appreciate the relevance of historical insight to the understanding of current events and problems.

By involving all students in the process of careful analysis of evidence and thoughtful, cogent expression of ideas, the department seeks to equip students with intellectual skills which have multiple uses in the larger society outside the university. Its programs, in addition to providing a liberal education, are designed to serve as professional preparation in various fields, including teaching; the law; federal, state, and local government; work in historical societies and museums; Web site development and research.

#### UNDERGRADUATE PROGRAMS

The department offers a Bachelor of Arts degree in History, a Bachelor of Arts degree in Global History, and a Bachelor of Arts degree in History Education for student's pursuing teacher certification. Students interested in teacher certification should contact the student affairs advisor in the College of Education. A Minor in Defense Studies and Leadership is also available.

#### **GLOBAL HISTORY**

#### Requirements for the Bachelor of Arts Degree in Global **History**

The University requirements for bachelor's degrees as described in the Undergraduate Education section of the catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Global History.

The University's Tier II writing requirement for the Global History major is met by completing one of the following courses: History 481, 482, 483, 484, 485, 486, 487, 488, or 489. Those courses are referenced in item 3. below

- The requirements of the College of Social Science for the Bachelor of Arts degree.
- The following requirements for the major:

| CREDIT | S |
|--------|---|

| a. | The fol | lowing | g course (3 credits):                    |
|----|---------|--------|--|
|    | HST     | 201    | Historical Methods and Skills            |
| b. | Two of  | the fo | ollowing courses (8 credits):            |
|    | HST     | 140    | World History to 1500                    |
|    | HST     | 150    | World History since 1500                 |
|    | HST     | 205    | The Ancient Mediterranean and the        |
|    |         |        | Medieval World 4                         |
|    | HST     | 206    | European History since 1500 4            |
|    | HST     | 208    | Introduction to African History, Culture |
|    |         |        | and Society                              |
|    | HST     | 209    | Traditional East Asia                    |
|    | HST     | 210    | Modern East Asia                         |
|    | HST     | 211    | Colonial Latin America 4                 |
|    | HST     | 212    | National Latin America 4                 |
|    |         |        |  |

- Three courses at the 300-400 level focused on one of the following geographic areas: Africa, Asia, Europe, Latin America. The courses must be approved by the student's academic advisor. (9 credits)
- Two courses at the 300-400 level focused on a geographic area other than the area chosen in item c. above. The courses must be approved by the student's academic advisor. (6 credits)
- One 3-credit senior seminar course chosen from HST 481, 482,  $483, 484, 485, 486, 487, or \, 488. \, \text{The course must be related to the} \\$ area of historical concentration chosen in item c. above. Completion of this requirement satisfies both the department's Tier II writing and capstone requirement.
- Completion of one experiential learning course, a history study abroad or study away course, an internship with a historical focus (HST 493), or an additional senior seminar course focused on any area of the world or topic not used in fulfillment of requirement e. above. The course must be approved by the student's academic advisor. (3 credits)
- Completion of an area studies minor appropriate to the geographical area of concentration referenced in requirement c. above. History courses taken in the minor may also be used to fulfill requirements in the major.
- Second-year competency in a foreign language related to the geographical area of concentration reference in item c. above. This requirement may be satisfied by placing into a 300-level foreign language course based on a Michigan State University placement test

#### **HISTORY**

#### Requirements for the Bachelor of Arts Degree in History

#### MINOR IN DEFENSE STUDIES AND LEADERSHIP

The Minor in Defense Studies and Leadership, which is administered by the Department of History, provides students with a broad perspective on the military with analysis of all service branches of the Armed Forces from a historical and social scientific perspective. It also prepares current cadets for active duty service.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in the Department of

#### MINOR IN HISTORY

The Minor in History, which is administered by the Department of History, provides foundational skills needed for the study of history, breadth of historical knowledge, and advanced study of one or more historical topics. Students obtain research, reasoning and writing skills that form the core of historical study and develop capacities to integrate knowledge from diverse historical subfields based on this common set of skills.

The minor is available as an elective to students enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts degree in History, History Education, or Global History. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to apply to the program should consult the undergraduate advisor in the Department of History.

#### Requirements for the Minor in History

**CREDITS** 

3

Complete 15 credits in History as follows:

1. The following course (3 credits):

HST 201 Historical Methods and Skills

Complete 12 credits in History courses, of which 6 of those credits must be at the 300-400 level. A maximum of 3 credits in advanced placement or transfer credit may be used towards this requirement. Courses used in fulfillment of this requirement must be approved by the undergraduate advisor in the Department of History

#### **TEACHER CERTIFICATION OPTIONS**

The history education disciplinary major leading to the Bachelor of Arts degree is available for secondary teacher certification.

A history disciplinary minor is also available for secondary teacher certification.

Students who elect the history education disciplinary major or the history disciplinary minor must contact the Department of History.

For additional information, refer to the statement on TEACHER CERTIFICATION in the *Department of Teacher Education* section of this catalog.

#### **GRADUATE STUDY**

Graduate programs in the Department of History are designed primarily for students whose career goals require a doctoral degree. The department welcomes applicants who are prepared to pursue a rigorous program of graduate study.

#### **HISTORY**

#### Master of Arts

The Master of Arts degree program in history is designed for students who desire a general course of advanced study in the field.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Admission to graduate study in the Department of History is primarily to the doctoral program. However, under certain circumstances, the department will consider applications for admission to the Master of Arts in History from students who wish to earn a master's degree in preparation for a career in a supporting discipline or profession that does not require a Ph.D. Please consult with the Departmental Graduate Studies Director if you wish to apply for the Master of Arts in History.

To be considered for admission to the Master of Arts degree program in history, an applicant must:

- Have an official transcript forwarded from the applicant's undergraduate institution(s) that verifies conferral of a baccalaureate degree.
- Have the results of the Graduate Record Examination (GRE) General Test forwarded to the department.
- Submit a writing sample to the department that the applicant considers to be a fair representation of the applicant's ability to conduct scholarly research and produce academic writing.
- Submit a statement (500-1000 words) that clearly indicates the primary field of intended study and addresses the applicant's goals in pursuing a Master of Arts degree in History.
- Have at least two individuals, preferably scholars with whom the applicant has had course work or other professional contact, submit letters of recommendation to the department.

An international applicant is required to have fulfilled the university's English language proficiency requirement as described in the *Graduate Education* section of this catalog in one of the following three ways:

 Have a total score of 580 (paper version) or 237 (computer version) or 100 (Internet version) or above on the **Test of English as a Foreign Language** with no subscore below 55 (paper version) or 21 (computer version).

- Have an average score of 85 or higher on the Michigan English Language Assessment Battery with no subscore below 83
- Have an average score of 85 or higher on the Michigan State University English Language Center Test with no subscore below 83.

#### **Guidance Committee**

Before completing 8 credits in history courses, the student, with the assistance of the Graduate Director, must constitute a guidance committee of at least two faculty members in the Department of History who represent different fields of history. Until the student's guidance committee has been established, the student's program of study must be approved by the Graduate Director

#### Requirements for the Master of Arts Degree in History

The program is available under both Plan A (with thesis) and Plan B (without thesis). A total of 30 credits is required for the degree under either Plan A or Plan B. The student's program of study must be approved by the student's guidance committee. The student must meet the requirements specified below:

#### Requirements for Both Plan A and Plan B

- 1. Complete HST 803 Seminar in Methodology of Historical Research (3 credits).
- Complete at least 15 credits in 800-900 level history courses including one 3 credit course in historiography relevant to the student's program of study.
- Competency in a foreign language. Credits in courses in foreign language may not be counted toward the requirements for the Master of Arts or Doctor of Philosophy in History degree programs.

#### Additional Requirements for Plan A

- 1. Complete 6 credits of HST 899 Master's Thesis Research.
- Pass a final oral examination that covers the student's program of study and thesis.

#### Additional Requirements for Plan B

 Pass a certifying examination, consisting of three parts, one testing the major area and two tests in each of the student's minor areas.

#### GRADUATE CERTIFICATE IN AMERICAN STUDIES

The Graduate Certificate in American Studies, which is administered by the Department of History, is designed for students who wish to study the culture, history, and civilization of the United States from an inter—and multidisciplinary perspective. Students may pursue the program to complement disciplinary master's or doctoral degree programs such as English, History, Anthropology, African American and African Studies, Chicano/Latino Studies, Philosophy, Religious Studies, Theatre, Music, or History of Art. Students who are enrolled in the program explore the techniques, materials, and perspectives of American studies, American history, and American literature, as well as other related disciplines or thematic units.

The certificate is available as an elective to students who are enrolled in master's and doctoral programs at Michigan State University. Students must meet the requirements of the certificate specified below, in addition to the requirements for the student's primary degree program.

The student's program of study must be approved the Graduate Chairperson in the Department of History.

## Requirements for the Graduate Certificate in American Studies

Students must complete a minimum of 12 credits, of which 6 credits must come from units other than the student's primary degree program. Students pursuing a dual degree, 6 credits must come from units other than the student's two degree programs.

CREDITS

 1. Complete one of the following courses (3 credits):
 3

 HST
 800
 Historiography of the United States to 1865
 3

 HST
 801
 Historiography of the United States Since 1865
 3

 HST
 807
 Readings in Early American and U.S. History
 3

 2. Complete one of the following courses (3 credits):
 ENG
 818
 Studies in Genre and Media
 3

 ENG
 819
 Special Topics in Language and Literature
 3

 ENG
 826
 Special Topics Seminar
 3

#### **Doctor of Philosophy**

The program leading to the doctoral degree with a major in history is designed to provide wide knowledge in several fields of history, specialized competence in a limited area, and research techniques that will prepare the student for a career in teaching, research, government service, private industry, and other areas of professional historical activity.

The following primary fields of study are available to doctoral students in the department:

African-American history

African history

American history

Comparative Black history

East Asian history

Latin American and Caribbean history

Science and medicine

Women and gender history

The department recognizes the high importance of developing among its doctoral candidates a proficiency in college teaching. To the limit of its resources, it undertakes to provide experience in teaching in the form of graduate assistantships, along with organized discussions of the ends and means of the teaching career.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Students are admitted to the program for fall semester only. The department must receive all application materials by December 1. Decisions on admission are announced by late February. In making admissions decisions, the department considers the competencies of the faculty and the needs of students and the profession.

To be considered for admission to the Doctor of Philosophy degree program in history, an applicant must:

- Have an official transcript forwarded from the applicant's undergraduate institution(s) that verifies conferral of a baccalaureate degree. If the applicant completed graduate course work or a graduate degree, official transcript(s) reflecting that work must also be submitted.
- Have the results of the Graduate Record Examination (GRE) General Test forwarded to the department.
- Submit a writing sample to the department that the applicant considers to be a fair representation of the applicant's ability to conduct scholarly research and produce academic writing.
- Submit a statement (500-1000 words) that clearly indicates the primary field of intended study, the faculty members with

- whom the applicant would like to work, and the reasons for choosing the field and faculty.
- Submit a personal statement (500-1000 words) that addresses the applicant's background as well as his or her goals in pursuing a Doctor of Philosophy degree in History.
- Have at least three individuals, preferably scholars with whom the applicant has had course work or other professional contact, submit letters of recommendation to the department.

An international applicant is required to have fulfilled the university's English language proficiency requirement as described in the *Graduate Education* section of this catalog in one of the following three ways:

- Have a total score of 580 (paper version) or 237 (computer version) or 100 (Internet version) or above on the **Test of English as a Foreign Language** with no subscore below 55 (paper version) or 21 (computer version).
- Have an average score of 85 or higher on the Michigan English Language Assessment Battery with no subscore below 83.
- Have an average score of 85 or higher on the Michigan State University English Language Center Test with no subscore below 83.

Applicants for doctoral study should understand that the department can offer no assurance that all of the areas of professional specialization will be available to students at any particular time. It is essential that persons with specific, clearly defined academic interests communicate with the Graduate Director before making firm plans to enroll in the doctoral program.

#### **Guidance Committee**

Students entering the doctoral program will be guided by the graduate director in the selection of courses for the first year. By the end of the second semester, students should choose their major professor and their guidance committee. The committee shall consist of at least four members: two represent the student's major field, one of whom shall chair the student's guidance committee and direct the dissertation. In addition, two faculty members, one from each of the student's chosen two minor fields, will serve on the committee.

## Requirements for the Doctor of Philosophy Degree in History

The student must:

- Complete HST 803 Seminar in Methodology of Historical Research (3 credits) in the first semester of their first year.
- Complete at least 12 credits in additional 800-900 level courses in a major field of history as specified by the student's guidance committee. The major field should be the field in which the student plans to focus research for the dissertation. The available major fields of history are referenced above.
- Complete at least 6 credits in each of the student's two minor fields or in one minor field of history and in one minor field in a related discipline.
- 4. Student must demonstrate knowledge of two foreign languages before they may take the comprehensive examinations. This requirement for students formally admitted to the Ph.D. program can be fulfilled by one of these three options:
  - a. Competency in two foreign languages.
  - With approval of the student's guidance committee, the student may substitute certification in humanities computing for the second foreign language.
  - With the approval of the student's guidance committee, the second foreign language may be waived.

- 5. Pass the written and oral comprehensive examinations:
  - a. Written examinations must be completed within a six-month period by the end of a student's third year.
  - An oral examination must be completed no later than two weeks after the student successfully passes the written examination.
  - c. A defense of the dissertation prospectus needs to take place either at the time of the oral examination or in a separate defense within six weeks of the oral examination.
- Complete 24 credits of HST 999 Doctoral Dissertation Research.
- Pass a final oral examination in defense of the dissertation.

## DEPARTMENT of HUMAN DEVELOPMENT and FAMILY STUDIES

#### Adrian Blow, Chairperson

The Department of Human Development and Family Studies is committed to improving the health and well-being of individuals and families across the lifespan through research and preparation of graduates for research, teaching, and professional practice. Recognizing, understanding and addressing the central role of diversity and interdependence among families and communities in the process of human development are core values of the department.

Areas of study include child development, youth development, lifespan human development and family diversity, family community services, and couple and family therapy. Knowledge of basic research and the application of research to improving the lives of individuals in the context of the family, the community, and policy are emphasized. Practical experiences in real-world settings are incorporated into all areas of study. The Child Development Laboratory and the Couple and Family Therapy Clinic are part of the department.

At the undergraduate level, the focus is on the application of knowledge about individual development and family processes to early childhood education, child and youth services in the community, and services for adults. At the graduate level, this focus is widened to include courses and research experiences with the goal of improving the training of early childhood teachers, preparing professionals who will serve youth in a variety of contexts, and training therapists who provide services to families, couples, and individuals. The department graduate programs also prepare scholars who study child development in the context of family processes, diverse families and family problems, and the process and outcome of therapeutic interventions.

#### **UNDERGRADUATE PROGRAMS**

#### CHILD DEVELOPMENT

#### Bachelor of Arts

The Bachelor of Arts in Child Development degree program combines a basic education in child development and family studies with a broad general education and preparation related to employment in early childhood education settings. Students will choose either a concentration in Elementary Education Teacher

Certification, which requires admission to the teacher preparation program, or a concentration in Preschool Teaching in an Early Childhood Setting.

Elementary Education Teacher Certification course work prepares graduates to work in the early grades of primary schools, kindergarten through third grade and to meet the requirements to earn an Elementary Education Teaching Certificate (kindergarten through fifth grade) with an Early Childhood General and Special Education Endorsement.

The Preschool Teaching in an Early Childhood Setting concentration prepares graduates to work in early childhood settings such as Head Start and preschools and in other child-related fields such as policy, health care, or administration. Students in the Preschool Teaching in an Early Childhood Setting concentration will be required to complete an independent study experience such as study abroad, study away, experiential learning, internship, or undergraduate research. The child development major is appropriate for students interested in working with young children, birth through age eight.

## Requirements for the Bachelor of Arts Degree in Child Development

 The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Child Development. Students pursuing the Elementary Education Teacher Certification concentration will be required to complete more than 120 credits.

The University's Tier II writing requirement for the Child Development major is met by completing Human Development and Family Studies 321. This course is referenced in item 3. a. below.

- 2. The requirements of the College of Social Science for the Bachelor of Arts degree except for students pursuing the Elementary Education Teacher Certification concentration
- 3. The following requirements for the major:

#### **EARLY CARE AND EDUCATION**

The Bachelor of Arts in Early Care and Education, is a collaborative, multi-institutional limited enrollment program. This degree focuses on the intellectual, social, emotional, and biological development of children. It includes planning and design of related human services and care/educational settings and preparation related to employment in early childhood education settings. The program provides instruction in parent-child relations, parenting practices, special needs of children, parental and environmental influences on child development, caregiver-child interactions, external support services, and related public policy issues. Designed for active duty military, spouses, retired and Department of Defense employees, rural head start teachers and off-campus

**CREDITS** 

27

students, the program provides flexibility for working professionals who need to maintain employment while advancing their educational opportunity.

The College of Social Science, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA), offers this program by faculty from multiple land-grant universities: Michigan State University, Iowa State University, University of Missouri, University of Nebraska, Oklahoma State University, South Dakota State University, and Texas Tech University.

Students will earn this degree from their home institution while also enrolling for courses at other participating institutions.

In addition to meeting the requirements of the University and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be admitted, students must apply via their home institution and plan their course of study under the guidance of their academic advisor. Michigan State University students follow established University admission procedures to the College of Social Science and the Early Care and Education major. Students must have a minimum of 30 credits applicable to the graduation requirements of the admitting institution with an earned minimum grade-point average of 2.5.

Michigan State University students should contact the Department of Human Development and Family Studies for guidance on the completion of this program.

## Requirements for the Bachelor of Arts Degree in Early Care and Education

- The University requirements for the bachelor's degree as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Early Care and Education.
  - The University's Tier II writing requirement for the Early Care and Education major is met by completing Human Development and Family Studies 406.
- 2. The requirements of the College of Social Science.
- The requirements of the College of SocialThe following requirements for the major:
  - All of the following courses which are taught online as part of the Great Plains IDEA Alliance (51 credits):

Child Development (ages 0-3)

Child Development (ages 4-8)

Professional Development in Early Care and Education

Child Guidance and Classroom Environments

Health, Safety and Nutrition in Early Care and Education Practicum I: Child Observations in Classroom Environments

Development of Curriculum for Children (ages 0-3)

Development of Curriculum for Children (ages 4-8)

Assessment and Observations in Early Care and Education

Understanding and Adapting for Developmental Differences

In Early Care and Education

Practicum II: Lesson Planning

Working with Families in Early Care and Education

Technology and Young Children

Diversity in the Lives of Young Children and Their Families Administration and Supervision in Early Childhood Settings

Practicum III: Capstone Experience (W) [HDFS 406]

Practicum III: Capstone Experience (W) [HDFS 406]

Students must have access to a high-quality preschool or head start classroom for their three practicum experiences.

#### **HUMAN DEVELOPMENT AND FAMILY STUDIES**

Graduates will be committed to improving the health and well-being of diverse individuals and families across the lifespan through research, teaching, and professional practice. Recognizing, understanding and addressing the central role of diversity and interdependence among families and communities is a core value of graduates. Students gain knowledge of basic research and the application of research to improving the lives of individuals in the context of the family, the community, and policy. Practical experience in real-world settings is incorporated into the degree program. Students are prepared to work in community and

governmental agencies and organizations that provide human services within changing societies and serve children, youth, and families. Upon graduation, students may apply for provisional certification as a Family Life Educator and with additional work experience they can earn full certification.

## Requirements for the Bachelor of Arts Degree in Human Development and Family Studies

 The University requirements for the bachelor's degree as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Human Development and Family Studies

The University's Tier II writing requirement for the Human Development and Family Studies major is met by completing Human Development and Family Studies 345. This course is referenced in item 3. below.

#### **TEACHER CERTIFICATION OPTIONS**

The child development disciplinary major leading to the Bachelor of Arts degree is available for teacher certification.

A early childhood-general and special education disciplinary minor is available for students pursuing elementary teacher certification.

Students who elect the child development disciplinary major or the early childhood-general and special education disciplinary minor must contact the Department of Human Development and Family Studies.

For additional information, refer to the statement on TEACHER CERTIFICATION in the Department of Teacher Education section of this catalog.

#### **GRADUATE STUDY**

The Department of Human Development and Family Studies is concerned with human development and with the interaction of individuals and family members throughout the life cycle as they interact with their environment. The department offers the following degree programs:

#### **Graduate Certificate**

Youth Development Specialist

Youth Program Management and Evaluation

#### **Master of Arts**

Family Community Services

Youth Development

#### **Master of Science**

Child Development

Human Development and Family Studies

#### **Doctor of Philosophy**

Human Development and Family Studies

All graduate programs in the department are designed to develop professional competence, to encourage creative thinking, and to prepare students to perform and utilize research. Each student's program is developed within the framework of the area of major interest, taking into consideration his or her professional experience, interests, and educational and career goals.

Careers to which advanced degrees may lead include college teaching, research, extension, marriage and family therapy, and administration in early childhood education centers. Graduates also may be employed as family specialists in community and family agencies.

Opportunities are available within the Department of Human Development and Family Studies for graduate students to participate in ongoing interdisciplinary research and in field experiences in school or community settings. The Child Development Laboratories and the Couple and Family Therapy Clinic provide opportunities for applied and research experiences.

Students who are enrolled in Master of Arts. Master of Science. and Doctor of Philosophy degree programs in the Department of Human Development and Family Studies may elect specializations in Infancy and Early Childhood. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Infancy and Early Childhood in the College of Social Science section of this catalog.

#### Master of Arts and Master of Science

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

Students with limited undergraduate backgrounds may be required to correct such deficiencies by completing courses which serve as prerequisites to graduate work.

#### CHILD DEVELOPMENT

The program focuses on the behavioral, psychological, biological and contextual processes that promote positive developmental outcomes in infants and young children. Key contexts of development emphasized in the program include family, early childhood educational settings, and culture. Courses are available in areas such as development across cultures, infant development, language and literacy research and practices, social-emotional development, observational methods for home or the classroom,

approaches to early education, intervention and prevention programs, and parenting. Laboratory experiences in early childhood education are available in the Child Development Laboratories, and research experiences are available through work with faculty mentors. Both a thesis (Plan A) and non-thesis (Plan B) option are offered. Those pursuing Plan A are prepared for doctoral study in a variety of related fields.

#### Admission

Students must have:

- A bachelor's degree from a recognized college or university.
- A grade-point average of 3.00 or better during the last two full years of undergraduate study. Those between 2.5 and 3.0 must take the General Record Examination (GRE).
- 3. A favorable evaluation by at least three professional refer-
- Academic records, references, and experiences that reflect strong qualifications for graduate study.
- Satisfactory verbal ability and quantitative ability scores on the Aptitude Test of the Graduate Record Examination (GRE) is required for Plan A (Thesis). This option is for those wishing to pursue a research focus and potential doctoral de-

International applicants must take the Test of English as a Foreign Language (TOEFL) exam: 1) Paper-based version: minimum average score of 550, no subscore below 52; 2) Computer-based version: minimum average score of 213, no subscore below 19; 3) Internet-based version: minimum average score of 80; no subscore below 19 for reading, listening, and speaking; no writing subscore below 22.

#### Requirements for the Master of Science Degree in Child **Development**

The Master of Science Degree in Child Development is available under Plan A (with thesis) or Plan B (without thesis). A total of 30 credits is required for Plan A and a total of 32 credits is required for Plan B.

#### FAMILY COMMUNITY SERVICES

The Master of Arts in Family Community Services, is a collaborative, multi-institutional program offered totally online. This degree is designed to provide a research-based perspective to understand individual, family, interpersonal and community dynamics across the lifespan. Students will acquire knowledge and skills related to the design, implementation, sustainability, and leadership and management of family and community services programs.

The College of Social Science, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA), offers this program with all course work delivered via the Internet/World Wide Web by faculty from multiple land-grant universities: Michigan State University, Kansas State University, University of Missouri, University of Nebraska-Lincoln, Oklahoma State University, and South Dakota State University.

Students will earn this degree from their home institution while also enrolling for courses at other participating institutions.

In addition to meeting the requirements of the University and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be admitted, students must apply via their home institution and plan their course of study under the guidance of their academic advisor. Michigan State University students follow established University admission procedures.

#### Requirements for the Master of Arts Degree in Family **Community Services**

The program is available only online and only under Plan B (without thesis). Each student's course of study must be developed and approved in consultation with the academic advisor. The student must complete a total of 36 credits, of which 30 credits is course work required by The Great Plains Interactive Distance Education Alliance (GPIDEA) consortium, distributed as follows:

Core courses (30 credit hours):

Administration and Management of Human Services **Programs** 

Crises Across the Lifespan

Family Dynamics

Family Resource Management

Foundations and Principles of Family and Community Services

Interpersonal Relationships

Lifespan Development

Parenting Education

Program Design, Evaluation and Implementation

Resilience in Families

Additional course work (6 credit hours).

This enrollment will vary at each institution. At Michigan State University, students will fulfill this requirement by enrolling in course work approved by the student's academic advisor.

Pass a final oral examination or evaluation. This will include a formal presentation by the student on a topic determined by the student and the academic advisor.

Michigan State University students should contact the Department of Human Development and Family Studies or consult the Michigan State University Schedule of Courses for current course schedule and other information.

#### **HUMAN DEVELOPMENT AND FAMILY STUDIES**

#### Master of Science

The Master of Science Degree in Human Development and Family Studies is designed to help students gain an understanding of increasingly diverse family units as well as individual family members as they develop across the life course. Depending upon student interest and career goals, focus may be on human development (adolescence, aging), leadership, policy or diversity. Students are prepared to work with and advocate for families, children, youth and adults in a broad range of settings, including extension offices, community agencies, and policy-making contexts. Both a thesis (Plan A) and non-thesis (Plan B) option are offered. Those pursuing Plan A are prepared for doctoral study in a variety of related fields.

#### Admission

Students must have:

- A bachelor's degree from a recognized college or univer-
- A grade-point average of 3.00 or better during the last two full years of undergraduate study. Those between 2.5 and 3.0 must take the General Record Examination (GRE).
- A favorable evaluation by at least three professional references.
- 4. Academic records, references, and experiences that reflect strong qualifications for graduate study.
- Satisfactory verbal ability and quantitative ability scores on the Aptitude Test of the Graduate Record Examination (GRE) is required for Plan A (Thesis). This option is for those wishing to pursue a research focus and potential doctoral degree.

International applicants must take the Test of English as a Foreign Language (TOEFL) exam: 1) Paper-based version: minimum average score of 550, no subscore below 52; 2) Computer-based version: minimum average score of 213, no subscore below 19; 3) Internet-based version: minimum average score of 80; no subscore below 19 for reading, listening, and speaking; no writing subscore below 22.

#### Requirements for the Master of Science Degree in **Human Development and Family Studies**

The Master of Science Degree in Human Development and Family Studies is available under Plan A (with thesis) or Plan B (without thesis). A total of 30 credits is required for both Plan A and Plan B.

**CREDITS**

#### Doctor of Philosophy

Human Development and Family Studies is the interdisciplinary study of individuals and relationships across the lifespan in diverse contexts of families, communities, and cultures. Ph.D. candidates are prepared to transform the human experience through applied research rooted in social justice.

Doctoral students collaborate with faculty mentors in experiences related to applied research, developing a focal area of scholarship. Each student completes rigorous course work, including research methodology, comprehensive exams, and the dissertation. Student achievements are documented in a professional portfolio throughout the doctoral program.

The Doctor of Philosophy Degree in Human Development and Family Studies offers three concentrations from which students may choose. They include:

Child Development: focus on behavioral, psychological, biological, educational, and contextual processes that promote positive developmental outcomes in infants and young children.

Lifespan Human Development and Family Diversity: focus on developmental processes across the life course in the context of family, community, schools and other environments within a sociocultural context to include attention to gender, ethnicity, racial socialization, immigration, poverty, disability, and sexual orientation. Study may focus on one life stage (youth, emerging or older adults) or examine an issue (attachment, chronic illness) across the entire life course. Completing a selection of courses on cultures, identities, families or policy, agreed upon by the student and committee members will satisfy the concentration.

Couple and Family Therapy: focus on the application of research and theory to individual, group, couple and family therapy. Accredited by the Commission on Accreditation of Marriage and Family Therapy Education (COAMFTE).

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

Admission to the doctoral program in human development and family studies is based on evidence of academic ability, research potential, leadership qualities, and fit of research interests with potential faculty mentors. Admission to the program assumes a background in the behavioral sciences; collateral course work that does not count toward the doctoral degree may be required where background is inadequate. A prospective doctoral student is required to take the general sections of the Graduate Record Examination and include the results with the application. Students who apply for the Human Development and Family Studies Ph.D. program must participate in an interview with a selected faculty committee. Students are admitted to the degree program in fall semester only.

Child Development: To be admitted to the doctoral program in human development and family studies with child development as the area concentration, an applicant must have completed at minimum, a bachelor's degree, with a background in the behavioral sciences or related field.

Lifespan Human Development and Family Diversity: To be admitted to the doctoral program in human development and family studies with lifespan human development and family diversity as the area concentration, an applicant must have completed at minimum, a bachelor's degree, with a background in the behavioral sciences or related field.

Couple and Family Therapy: To be admitted to the doctoral program in human development and family studies with couple and family therapy as the area of concentration, an applicant must have completed a master's degree program with a major in marriage and family therapy or related field.

#### Requirements for the Doctor of Philosophy Degree in **Human Development and Family Studies**

Students in the doctoral program in human development and family studies are required to complete the following:

- The following course: Contemporary Scholarship in Human Development HDFS 901 and Family Studies. .
- Completion of 21 credits in methodology and statistics course work as approved by the student's academic advisor.
- Completion of 24 credits in HDFS 999 Doctoral Dissertation Research.
- Completion of one of the concentrations noted below
- Successfully pass the comprehensive examination
- Successfully defend the doctoral dissertation.

#### One of the following concentrations: Child Development

Complete all of the following (15 credits): Social-Emotional Development Birth to Eight Years: Biology, Relationships, and Culture . . . . . . . . . . HDFS 826

HDFS 827 Language and Literacy Development from Infancy 

student's quidance committee.

#### Couple and Family Therapy

Complete all of the following (18 credits):

HDFS 888 HDFS 903 Evidence-Based Couple and Family Therapy HDFS 910 HDFS 911 Outcome Research: What Works in Couple and HDFS 994 HDFS 995 Couple and Family Therapy Supervision ....................... 3 Clinical Requirements (3 to 12 credits): Internship . . . .

Doctoral students are required to complete a total of 1,000 hours of direct client contact before graduating (pre-doctoral and doctoral hours combined).

The Couple and Family Therapy Program at Michigan State University has been accredited by The Commission on Accreditation for Marriage and Family Therapy Education of the American Association for Marriage and Family Therapy. Students entering the doctoral concentration in Couple and Family Therapy will be required to meet equivalent of the master's Standard Curriculum of the Commission on Accreditation of Marriage and Family Therapy Education (COAMFTE).

#### Lifespan Human Development and Family Diversity Complete all of the following (12 to 15 credits):

guidance committee An additional 6 to 9 credits of course work chosen in consultation

#### YOUTH DEVELOPMENT

with the student's guidance committee.

The Master of Arts in Youth Development, is a collaborative, multiinstitutional program offered totally online. This degree is designed to promote an understanding of communities and families and to prepare students to have an impact on the development of youth in their homes, neighborhoods, and society. American youth born since the early 1980s are projected to be the largest, most ethnically diverse generation of adolescents in the history of the United States, and this program is designed to address that demographic shift.

The curriculum is focused on the promotion of positive development of all young people. It is designed for individuals who wish to work in a variety of youth-related professions, including youth-serving organizations and programs such as Boys and Girls Clubs, community recreation specialties, youth programs sponsored by faith-based institutions, correctional professions, or within U.S. Extension Programs.

The College of Social Science, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA), offers this program with all course work delivered via the Internet/World

#### **Department of Human Development and Family Studies**

Wide Web by faculty from multiple land-grant universities: Michigan State University, Kansas State University, University of Missouri, North Dakota State University, Texas Tech University, and the University of Nebraska.

Students will earn this degree from their home institution while also enrolling for courses at other participating institutions.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be admitted, students must apply via their home institution and plan their course of study under the guidance of their academic advisor. Michigan State University students follow established university admission procedures.

## Requirements for the Master of Arts Degree in Youth Development

The program is available only online and only under Plan B (without thesis). Each student's course of study must be developed and approved in consultation with the academic advisor. Each course is offered at least once every other year. The student must complete a total of 36 credits, of which 28 credits is course work required by The Great Plains Interactive Distance Education Alliance (GPIDEA) consortium, distributed as follows:

Core courses (28 credits):

Administration and Program Management

Adolescents and Their Families

Community Youth Development

Contemporary Youth Issues

Foundations of Youth Development

Program Design, Evaluation, and Implementation

Youth Development

Youth in Cultural Contexts

Youth Policy

Youth Professionals as Consumers of Research

2. Additional course work (8 credit hours).

This enrollment will vary at each institution and may require a master's thesis, project, or practicum. At Michigan State University, students will fulfill this requirement by enrolling in course work approved by the student's academic advisor.

3. Pass a final examination or evaluation.

Michigan State University students should contact the Department of Human Development and Family Studies or consult the Michigan State University Schedule of Courses for current course schedule and other information.

## Graduate Certificate in Youth Program Management and Evaluation

The Youth Program Management and Evaluation Graduate Certificate is designed to assist youth professionals to develop and apply resources for successful implementation and management of youth-serving organizations. The program addresses the need for advanced education based on research and policy for optimal youth outcomes through a strengths-based curriculum.

The online format and course schedule of the certificate program allow flexibility to accommodate both full-time students and working professionals. The College of Social Science, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA), offers this program with all course work delivered via the World Wide Web at <a href="https://www.gpidea.org">www.gpidea.org</a>.

#### Admission

To be considered for admission into the Youth Program Management and Evaluation Graduate Certificate applicants must follow established University admission procedures. Students currently pursuing the Master of Arts in Youth Development are not eligible to apply for admission to the Youth Program Management and Evaluation Graduate Certificate. For additional information, refer to the *Admission* section in the *Graduate Education* section of this catalog.

## Requirements for the Youth Program Management and Evaluation Graduate Certificate

The program is available totally online. Each course is offered at least once every other year. The student must complete 13 credits of course work in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA).

- The following course (1 credit): Foundations of Youth Development
- Four of the following courses (12 credits):
   Administration and Program Management
   Contemporary Youth Issues
   Program Design, Evaluation and Implementation
   Youth Policy
   Youth Professionals as Consumers of Research

## Graduate Certificate in Youth Development Specialist

The Youth Development Specialist Graduate Certificate is designed to assist youth professionals to train individuals in the second decade of life with the skills necessary for a successful transition into adulthood. The program addresses the need for advanced education in youth issues and does so through a strengths-based curriculum.

The online format and course schedule of the certificate program allows flexibility to accommodate both full-time students and working professionals. The College of Social Science, in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA), offers this program with all course work delivered via the World Wide Web at <a href="https://www.gpidea.org">www.gpidea.org</a>.

#### Admission

To be considered for admission into the Youth Development Specialist Graduate Certificate applicants must follow established University admission procedures. Students currently pursuing the Master of Arts in Youth Development are not eligible to apply for admission to the Youth Development Specialist Graduate Certificate. For additional information, refer to the *Admission* section in the *Graduate Education* section of this catalog.

## Requirements for the Youth Development Specialist Graduate Certificate

The program is available totally online. Each course is offered at least once every other year. The student must complete 13 credits of course work in collaboration with The Great Plains Interactive Distance Education Alliance (GPIDEA).

- The following course (1 credit): Foundations of Youth Development
- Four of the following courses (12 credits):
   Adolescents and Their Families
   Community Youth Development
   Contemporary Youth Issues
   Youth Development
   Youth in Cultural Contexts
   Youth Policy

## SCHOOL of HUMAN RESOURCES and LABOR RELATIONS

#### Peter Berg, Director

Through its research and educational programs, the School of Human Resources and Labor Relations advances knowledge and understanding of human resources and labor-relations within a global context. Offering a comprehensive understanding of the employment relationship, the program helps students develop critical thinking skills and learn essential problem-solving, social, emotional, and entrepreneurial skills for advancing the well-being and success of working people, organizations and communities worldwide.

The School has an interdisciplinary approach, incorporating scholarship from economics, human resource management, law, organizational behavior, psychology, public policy, and sociology, as well as labor and employment relations. It also has a vibrant outreach program, conducting training with managers, union leaders, and joint labor-management groups nationwide.

#### **UNDERGRADUATE PROGRAMS**

The School offers a Bachelor of Arts degree in Human Capital and Society, which prepares students for a wide range of professional careers focusing on employment and workplace strategies that shape the future of work in business, government, healthcare, education, labor organizations and other not-for-profit organizations. It also offers an undergraduate Minor in Leadership of Organizations, designed to help students develop leadership skills and apply them in a wide range of organizational settings: corporate, government, and non-profit.

#### **HUMAN CAPITAL AND SOCIETY**

#### Bachelor of Arts

The Bachelor of Arts degree in Human Capital and Society provides a general social science understanding of the complex nature of people and work. The program focuses on workforce education, training and development; laws governing employment and workplace rights; human decision-making and behavior in the labor market and workplace; and organizational strategies, policies and practices governing and influencing employee outcomes and performance.

## Requirements for the Bachelor of Arts Degree in Human Capital and Society

 The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Human Capital and Society.

The completion of Statistics and Probability 200 or 201 referenced in item 3. below may also satisfy the University mathematics requirement or the SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM) REQUIREMENT in the College, but not both.

The University's Tier II writing requirement for the Human Capital and Society major is met by completing Human Resources and Labor Relations 465. That course is referenced in item 3, below

- 2. The requirements of the College of Social Science for the Bachelor of Arts degree.
- 3. The following courses for the major (42 or 43 credits):

#### MINOR IN LEADERSHIP OF ORGANIZATIONS

The Minor in Leadership of Organizations provides interdisciplinary study of the leadership of organizations, preparing students to critically assess the effectiveness of leaders in a wide range of organizations including business, government, and non-profit. The minor also prepares students to be more effective leaders in their careers and as citizens.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements of the minor should consult an advisor in the School of Human Resources and Labor Relations.

## Requirements for the Minor in Leadership of Organizations

Complete a minimum of 15 credits from the following:

CREDITS

| HRLR 211 Introduction to Organizational Leadership 3 2. One of the following courses (3 credits): ANP 321 Anthropology of Social Movements 3 HST 213 U.S. Business and Economic History 3 HST 312 African American Women 3 HST 313 Women in the United States to 1869 3 HST 314 Women in the United States since 1869 3 PLS 310 Public Administration and Policy 3 PSY 235 Social Psychology 3 PSY 255 Industrial and Organizational Psychology 3 PSY 255 Industrial and Organizational Psychology 3 SOC 241 Social Psychology 3 SOC 481 Social Movements and Collective Identities 3 3. Two of the following courses (6 to 8 credits): ACM 271 Introduction to Arts and Cultural Management 3 CEP 260 Dynamics of Personal Adjustment 3 COM 240 Introduction to Organizational Communication 4 CSUS 429 Program Evaluation for Community Sustainability 3 ESHP 190 The Art of Starting 3 MGT 325 Management Skills and Processes 3 PHL 340 Ethics 3 PHL 345 Business Ethics 4 REL 185 Introduction to Religion and Nonprofits 3 REL 291 Special Topics in Religious Studies 3 REL 292 Introduction to Professional and Public Writing 3 WRA 202 Introduction to Professional and Public Writing 3 WRA 201 Introduction to Professional and Public Writing 3 WRA 202 Introduction to Professional and Public Writing 3 WRA 401 Rhetoric, Leadership and Innovation 3 WRA 404 Women and the Law in the United States 3 Students who choose REL 291 must obtain prior approval from the academic advisor to ensure content is specific to Leadership of Organizations.  4. #### Research and Program Services

RESEARCH PROGRAM. The general focus of faculty research and scholarship covers a wide breadth of human resource and labor and employment relations issues. Spanning local to global inquiries, analyses range from micro-level individual and organizational analyses to macro-level organizational and policy analyses. These inquiries and analyses take into account the broader environmental contexts of organizations, multiple stakeholders and actors, and multi-level behaviors and decision-making. As a multidisciplinary field of study, faculty research draws on various theoretical foundations of other disciplines such as economics, psychology, sociology, political science, and law and employs the full range of scientific methodologies, statistical methods, and research designs.

HUMAN RESOURCES EXECUTIVE EDUCATION AND DEVELOPMENT. The school offers non-credit programs focusing on strategy, con-

tent expertise, and leadership – with the purpose of effectively aligning human resource policies and practices with business and operational plans to yield competitive advantage. Open enrollment programs provide training and leadership development in human resource management, contemporary collective bargaining and negotiation, and workers compensation. The school also offers customized curriculum tailored to meet the specific needs of organizations, as well as executive coaching designed to meet the personal development interests of individuals.

LABOR EDUCATION AND DEVELOPMENT. The school offers non-credit programming aimed at improving the employment opportunities and work lives of the citizens of Michigan. This programming includes union leader training and development, joint union-management training in high performance work systems, and economic development focusing on local business and community solutions. The school also provides consultation on union and organizational strategies, as well as facilitation for contract negotiations and joint union-management decision-making.

#### **GRADUATE STUDY**

The School's Master of Human Resources and Labor Relations program is recognized as one of the leading programs of its kind, with approximately 2,900 alumni who hold top executive positions in both the private and public sectors. The School also offers a doctoral program in Human Resources and Labor Relations, designed primarily for those seeking academic careers.

#### **HUMAN RESOURCES and LABOR RELATIONS**

The Master of Human Resources and Labor Relations is the school's signature graduate degree, offered on a full-time basis in East Lansing, Michigan. With a diverse and highly qualified student body, the master's program is universally regarded as one of the premier professional programs of its kind in the world. Preparing future leaders for professional careers, students receive a comprehensive, contemporary foundation in human resources and labor relations, gain a broad global perspective, and learn to apply best practices, lead organizational change, and act strategically as business leaders.

The curriculum offers a wide range of courses across required core knowledge areas including: human resource management, labor-management relations, organizational change, business acumen, international human resources and employment relations, workplace law, economics of human resources, and quantitative methods for human resource analyses.

In addition to classroom instruction, nearly all students participate in paid summer internships with companies between their first and second year in the program. Through these summer internships, students receive invaluable mentoring and on-the-job learning, working as members of specific project teams and undertaking individual assignments.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be considered for admission to the master's degree program, a student must have a bachelor's degree and a cumulative grade—point average of 3.00 or higher in the junior and senior years. Applicants must have satisfactory scores on the Graduate Record Examination (GRE) General Test or on the Graduate Management Admission Test (GMAT). Applicants with five or more years of relevant work experience with successful professional records may be able to substitute that work experience for GRE or GMAT test scores. Applicants must complete one course

in microeconomic principles, one course in statistics, and one course in behavioral sciences with a minimum grade of 3.0 in each course. In addition, applicants will be judged on the quality of their statement of objectives and three letters of reference.

## Requirements for the Master of Human Resources and Labor Relations Degree in Human Resources and Labor Relations

The program is available under both Plan A (with thesis) and Plan B (without thesis). The student must complete 36 credits with a grade–point average of at least 3.00.

## HUMAN RESOURCES and LABOR RELATIONS—LAW

Human Resources and Labor Relations students who are admitted to the dual MHRL/JD program with the Michigan State University - College of Law may transfer a maximum of 9 credits from the Michigan State University/College of Law program to the MHRL program. These credits may be used only to satisfy elective credits. Only Plan B (without thesis) is available for election under the dual degree program.

#### **Doctor of Philosophy**

The School of Human Resources and Labor Relations offers a Doctor of Philosophy degree in Human Resources and Labor Relations to prepare students for a career as a scholar in human resources or labor and employment relations in a tenure-track position at a research-oriented university. Students study employment phenomena from the perspective of multiple actors including employees, employers, unions, the government, and society at-large. The program integrates tools from diverse disciplines including economics, management, and psychology.

#### Admission

Admission to this doctoral program is based on an evaluation of the student's academic record, the Graduate Record Examination (GRE) general test or the Graduate Management Admission Test (GMAT) scores, letters of recommendation, written statements, and an application form. For further details, visit our Web site at <a href="https://www.hrlr.msu.edu">www.hrlr.msu.edu</a>.

## Requirements for the Doctor of Philosophy Degree in Human Resources and Labor Relations

Students will complete course work and seminars (60 credits) within the School of Human Resources and Labor Relations, and within other departments in the university. Students must:

|    |   | CREDITS |
|----|---|---------|
| 1. | Complete the following courses (12 credits):                          |         |
|    | HRLR 991A Theoretical Perspectives in Human Resource                  |         |

### SCHOOL of PLANNING, DESIGN and CONSTRUCTION

#### Ming-Han Li, Director

The School of Planning, Design and Construction uniquely unites four built environment disciplines to foster synergistic learning and collaboration: construction management, interior design, landscape architecture and urban and regional planning. The academic programs are accredited and produce career-ready graduates. Students work on real-world, cross-discipline projects and activities. The faculty cross-collaborate on pressing built environment issues, delivering timely and crucial sustainable research and outreach. The School of Planning, Design and Construction is administered jointly by the College of Agriculture and Natural Resources and the College of Social Science.

#### **UNDERGRADUATE PROGRAMS**

The school offers a Bachelor of Science degree program in urban and regional planning through the College of Social Science.

The school also offers Bachelor of Science degree programs in construction management, and interior design and a Bachelor of Landscape Architecture degree program through the College of Agriculture and Natural Resources. The school also offers a dual degree in the Bachelor of Landscape Architecture and Master of Arts in Environmental Design. For information about those programs, refer to the statement on the School of Planning, Design and Construction in the College of Agriculture and Natural Resources section of this catalog.

#### **URBAN AND REGIONAL PLANNING**

The undergraduate program in urban and regional planning provides students with a basic understanding of environment-, economy- and society-related planning issues using scientific, social scientific or humanistic approaches. Students will learn the history of urbanism, the theory and principles of urban design, and the relevant legal and administrative policies & procedures. Students study the techniques of survey and research used in the analysis of the structure and growth of urban areas. They are in-

volved in written and graphic communication. They recognize the contributions made by other disciplines concerned with the study of urban development, including politics, law, economics, social aspects, pollution control, natural resources and the interactions of human beings and nature. By developing systematic programs for the orderly and unified arrangement of urban physical structures, students focus their accumulated knowledge and skills on specific urban problems. The undergraduate program, which has been accredited by the Planning Accreditation Board, is designed to prepare majors to assume the responsibilities encountered in entry level professional planning practice.

## Requirements for the Bachelor of Science Degree in Urban and Regional Planning

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Urban and Regional Planning.
   The University's Tier II writing requirement for the Urban and Regional Planning major is met by completing Urban Planning 365. That course is referenced in item 3. a. below.
- 2. The College of Social Science requirements for the Bachelor of Science degree.
- 3. The following requirements for the major:

## LINKED BACHELOR'S-MASTER'S DEGREE IN URBAN AND REGIONAL PLANNING

#### Bachelor of Science Degree in Urban and Regional Planning Master of Urban and Regional Planning Degree in Urban and Regional Planning

The department welcomes applications from Michigan State University undergraduate Urban and Regional Planning majors with at least 56 credits. Admission applications must be made prior to the final semester as an Urban and Regional Planning junior. Admission to the program requires a minimum undergraduate grade-point average of 3.50, a statement of goals for the master's degree, three letters of recommendation, and all academic transcripts. Admission to the Linked Bachelor's-Master's Program allows the application of up to 13 credits toward the master's program for qualifying 400-level and above course work taken at the undergraduate level at Michigan State University or an external accredited institution. The number of approved credits, not to exceed 13, is applied toward the credit requirement of the master's degree. No 400-level courses with a grade lower than 3.0 will count toward the master's degree. Credits applied to the Linked Bachelor's-Master's Program are not eligible to be applied to any other graduate degree program.

#### **GRADUATE STUDY**

The School of Planning, Design and Construction is administered jointly by the College of Agriculture and Natural Resources and the College of Social Science. The school offers a Master of Urban and Regional Planning degree program with a major in urban and regional planning, and a Master of International Planning Studies degree program with a major in international planning

studies through the College of Social Science. Those programs are described below. The school also offers a Master of Arts degree program in Environmental Design; a Master of Science degree program in Construction Management, and a Doctor of Philosophy degree program in Planning, Design and Construction through the College of Agriculture and Natural Resources. For information about those programs, refer to the statement on the School of Planning, Design and Construction in the College of Agriculture and Natural Resources section of this catalog.

#### INTERNATIONAL PLANNING STUDIES

The Master of International Planning Studies (MIPS) is a one-year (2 semesters and one summer) program that is designed for practitioners currently employed in urban and regional planning or related fields who desire additional knowledge in the field of community and regional development. Prospective students must have direct experience in the international aspects of planning or related fields that directly relate to their proposed area of concentration.

#### Admission

Applications for admission must hold an advanced degree or have significant experience in international planning, and seek knowledge about urban and regional conditions and related areas such as real estate, economic development, environmental protection and international planning. Applicants must demonstrate that the degree will strengthen their career credentials and make them more competitive in the applicant's chosen international planning profession. Prospective students are assumed to have a basic knowledge of planning concepts.

## Requirements for the Master of International Planning Studies Degree

The program is available under Plan B (without thesis) only. The student must complete at least 30 credits as specified below.

CREDITS

The student must:

| 1.  | Complete the following core courses (12 credits): |          |   |   |  |  |
|---|---|----------|---|---|--|--|
|   | UP .  | 801      | Concepts and Issues in Planning and Development             | 4 |  |  |
|   | UP  | 844      | Decision Theory for Urban Planning and Development .        | 4 |  |  |
|   | UP  | 894      | Planning Practicum  | 4 |  |  |
| 2. Complete one of the following courses (3 credits): |   |          |   |   |  |  |
|   | UP .  | 890      | Independent Study   | 3 |  |  |
|   | UP  | 893      | Internship in Urban Planning                                | 3 |  |  |
| 3   | Compl   | lete one | additional 3 credit course at the 400-level or 800-level as |   |  |  |

- Complete one additional 3 credit course at the 400-level or 800-level as approved by the student's academic advisor.
- 4. Complete a minimum of 12 credits in a concentration related to international planning studies chosen from the following fields: economic development, environmental protection, international planning, or real estate. The concentration course work must be approved by the student's academic advisor.
- 5. Successfully complete a final examination.

#### URBAN AND REGIONAL PLANNING

#### Master in Urban and Regional Planning

The graduate program leading to a degree of Master in Urban and Regional Planning (MURP) is committed to preparing students for professional planning careers in both the private and public sectors and seeks to develop both general planning knowledge and specific skills for practice. The program provides students with an advanced understanding of environment-, economy- and society-related planning issues using scientific, social scientific or humanistic approaches. Current faculty research and teaching expertise covers a wide range of planning subjects including urban design; land use planning; land use law; housing; community,

economic and real estate development; natural resources; research methods; international development; transportation; technology; environmental planning; and public policy. The MURP degree is a nationally accredited degree and admits students with a variety of academic backgrounds. Ideal students are those with strong intellectual ability; good written and verbal communication skills; basic statistical methods and have demonstrated a proven potential for leadership in the field of urban and regional planning.

A student entering the graduate program in urban and regional planning is expected to concentrate, under faculty guidance, on studies that provide an optimum learning experience in applying the various scientific principles, theories, techniques, and design skills of planning to specific field problems. The graduate student is immersed in significant planning studies and research. The graduate program is designed to provide professional competence. After graduation, the student should be capable of assuming responsibilities on an intermediate level of a professional planning operation. The master's program in Urban and Regional Planning has been accredited by the Planning Accreditation Board.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission

To be admitted to the master's degree program, the applicant must have a bachelor's degree from a recognized institution; a cumulative undergraduate grade-point average of 3.0; a grade-point average below 3.0 may be supplemented with a Graduate Record Examination (GRE) score of 1000 in verbal and quantitative, and an analytical writing score of 3.5. Students who are required to take the Test of English as a Foreign Language (TOEFL) must submit scores.

## Requirements for the Master in Urban and Regional Planning Degree in Urban and Regional Planning

The program is available under both Plan A (with thesis) and Plan B (without thesis). The student must complete at least 43 credits and meet the requirements specified below:

|    | elective | es in co | onsultation with the student's academic advisor.          |                |
| Δd | ditiona  | l Reau   | irements for Plan Δ·                                      | 6              |

Six additional credits in two courses approved by the student's academic advisor.

Pass a final evaluation.

#### **Academic Standards**

Academic standards for graduation require that each student maintain an average of 3.00, or better, in all course work, including study undertaken in collateral courses; however, the accumu-

lation of grades below 3.0 in more than two courses of 3 or more credits each removes the student from the degree program.

#### **Transfer Credits**

A maximum of 11 transfer credits at the 400 or 800-level may be accepted toward the Master in Urban and Regional Planning degree.

#### **Time Limit**

The time limit for completing the degree is six years from the first semester of enrollment in the program.

## DEPARTMENT of POLITICAL SCIENCE

#### Corwin Smidt, Chairperson

As a science, political science is concerned with theories, research methods, and facts as they relate to understanding political processes and phenomena. In particular, political science studies the distribution of power in groups, parties, institutions, governments, and international organizations. As a field of study, political science asks who has power, how did they get it, and why the exercise of power benefits some more than others. On both the American and international stages, political science prepares students to confront vital issues, raise critical perspectives, and explore new methodologies in the study of the fundamental concepts of power and change.

#### **UNDERGRADUATE PROGRAMS**

The undergraduate majors in political science are designed to provide students with a broad education in political and other social sciences with the analytical skills essential in many professions. The wide range of career opportunities open to political science graduates includes administrative positions in local, state, and federal government, or in public and private agencies; work with citizen's action groups and voluntary organizations; employment in the foreign service and various governmental and private international agencies; and careers as teachers and policy analysts. Because additional training beyond the bachelor's degree is necessary for some careers, many students in political science plan to attend law or graduate school. Qualified undergraduate political science majors who want to pursue professional careers in policy analysis, program management or policy advocacy, can complete both their bachelor's and master's degrees in a total of five years through the Linked Bachelor's-Master's Degree in Public Policy.

Students in the Department of Political Science may select one of the following majors:

- 1. Political Science (General)
- 2. Political Science—Prelaw
- 3. Public Policy
- 4. World Politics

#### POLITICAL SCIENCE (GENERAL)

## Requirements for the Bachelor of Arts Degree in Political Science (General)

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Political Science (General).
  - The University's Tier II writing requirement for the Political Science (General) major is met by completing Political Science 422. That course is referenced in item 3. a. (4) below.
- 2. The requirements of the College of Social Science for the Bachelor of Arts degree.
- 3. The following requirements for the major:

| ne to | ollow | ing reg  | uireme   | ents for the major:                                   |         |

PLS 495 Independent Study

(4) The following course (4 credits):
PLS 422 Seminar in Political Science (W) · · · · · · · · 4

NOTE: Of the courses taken to satisfy the requirements for 3.a. (1) and 3. a. (3), at least two courses must be in American politics (PLS 100 and PLS 301-339), at least two courses must be in comparative/international politics (PLS 140, PLS 160, PLS 342-359, and PLS 361-369), and at least two courses must be in political philosophy (PLS 170 and PLS 370-379). Students should consult with their academic advisor with questions concerning this requirement.

#### POLITICAL SCIENCE—PRELAW

The prelaw major is designed to introduce students to the study of law and the judicial process and at the same time to provide an orientation to the law which is more general than that of most law schools. Students who elect this program may plan careers in (1) government and large businesses, (2) law firms, (3) individual or partnership practice of civil law, (4) trial practice, including criminal law, and (5) teaching. Since very few law schools provide information about the political, economic, societal and psychological environment in which the law exists, this background must generally be acquired prior to or after law school. The prelaw major is intended to give students the analytical skills and substantive background in those courses which will most likely contribute to their development.

## Requirements for the Bachelor of Arts Degree in Political Science–Prelaw

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Political Science—Prelaw.
  - The University's Tier II writing requirement for the Political Science—Prelaw major is met by completing the following course: Political Science 422. That course is referenced in item 3.a.(5) below.
- The requirements of the College of Social Science for the Bachelor of Arts degree.
   The following requirements for the major:

(2) One of the following courses (3 credits):

|     | PLS 140 Introduction to Comparative Politics · · · · 3 PLS 160 Introduction to International Relations · · · · 3 PLS 170 Introduction to Political Philosophy · · · · · 3 |
|-----|---|
| (3) | One of the following courses (3 credits):   |

|     | NOTE: Of the courses taken to satisfy the requirements for 3.   |
|     | a. (2) and 3. a. (4), at least two courses must be in   |
|     | comparative/international politics (PLS 140, PLS 160, PLS   |
|     | 342-359, and PLS 361-369), and at least two courses must  |
|     | be in political philosophy (PLS 170 and PLS 370-379). One   |
|     | of the comparative/international politics courses may be a  |
|     | course from an approved list of courses, offered outside the  |
|     | Department of Political Science. The approved list of   |
|     | comparative/international politics courses is available in the  |
|     | Department of Political Science. Students should consult  |
|     | with their academic advisor with questions concerning this  |
|     | requirement.  |

#### **PUBLIC POLICY**

The Public Policy major is designed to prepare students for careers in public service, advocacy, and analysis. It aims at a broad understanding of the goals and problems of public policy, the political process that leads to policy development, and the implementation and evaluation of public policy. The major is valuable preparation for those who intend to engage in research for public agencies, non-profits, or voluntary associations interested in the problems of government. A master's degree program concentrating in public policy is also available for advanced work in preparation for an executive career in these fields.

## Requirements for the Bachelor of Arts Degree in Public Policy

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Public Policy.
  - The University's Tier II writing requirement for the Public Policy major is met by completing Political Science 422. That course is referenced in item 3. below.

#### **WORLD POLITICS**

The Bachelor of Arts degree in World Politics is designed to educate students about governments and political systems of many different nations and the interactions among them. It will prepare students for careers in international affairs in the public, private, and non-profit spheres. The major allows students to study the regions of the world that most interest them but also provides broad coverage of international relations and comparative politics.

## Requirements for the Bachelor of Arts Degree in World Politics

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in World Politics.
  - The University's Tier II writing requirement for the World Politics major is met by completing Political Science 422. That course is referenced in item 3. below.
- 2. The requirements of the College of Social Science for the Bachelor of Arts degree.
- 3. The following requirements for the major.

#### **TEACHER CERTIFICATION OPTIONS**

A political science disciplinary minor is available for teacher certification and is available only to students pursuing a major in Comparative Cultures and Politics, International Relations, Political Theory and Constitutional Democracy, Social Relations and Policy, Interdisciplinary Studies in Social Science, Interdisciplinary Studies in Social Science Education, or History with a teacher certification option.

Students who elect the political science disciplinary minor must contact the Department of Political Science.

For additional information, refer to the statement on TEACHER CERTIFICATION in the *Department of Teacher Education* section of this catalog.

## LINKED BACHELOR'S-MASTER'S DEGREE IN PUBLIC POLICY

#### Bachelor of Arts or Bachelor of Science Degree in Economics Master of Public Policy Degree in Public Policy

The department welcomes applications from Michigan State University Economics undergraduate students during the fall semester of their junior year in order to begin the program during the fall semester of their senior year. Admission to the program requires a minimum undergraduate grade-point average of 3.50 and an approved program of study for the Master of Public Policy degree

in Public Policy at the time of admission. Admission to the Linked Bachelor's-Master's Program allows the application of up to 9 credits toward the master's program for qualifying 400-level and above course work taken at the undergraduate level at Michigan State University or an external accredited institution. The number of approved credits, not to exceed 9, are applied toward the credit requirement of the master's degree. Credits applied to the Linked Bachelor's-Master's Program are not eligible to be applied to any other graduate degree program.

## LINKED BACHELOR'S-MASTER'S DEGREE IN PUBLIC POLICY

#### Bachelor of Arts Degree in Political Science (General) Master of Public Policy Degree in Public Policy

The department welcomes applications from Michigan State University Political Science (General) undergraduate students during the fall semester of their junior year in order to begin the program during the fall semester of their senior year. Admission to the program requires a minimum undergraduate grade-point average of 3.50 and an approved program of study for the Master of Public Policy degree in Public Policy at the time of admission. Admission to the Linked Bachelor's-Master's Program allows the application of up to 9 credits toward the master's program for qualifying 400-level and above course work taken at the undergraduate level at Michigan State University or an external accredited institution. The number of approved credits, not to exceed 9, are applied toward the credit requirement of the master's degree. Credits applied to the Linked Bachelor's-Master's Program are not eligible to be applied to any other graduate degree program.

## LINKED BACHELOR'S-MASTER'S DEGREE IN PUBLIC POLICY

#### Bachelor of Arts Degree in Political Science-Prelaw Master of Public Policy Degree in Public Policy

#### **GRADUATE STUDY**

The Department of Political Science offers a Master of Arts and a Doctor of Philosophy degree program in Political Science and a Master of Public Policy degree program in Public Policy.

The graduate degree programs in the Department of Political Science are designed to help students become thoroughly grounded in the knowledge base and research methods of political science. Training is given in the following major fields of political science: American politics, comparative politics, international politics, public policy, political thought, formal theory, and research methodology.

The Department of Political Science and the Department of Economics jointly offer a Master of Public Policy Degree, as well as Linked Bachelor's-Master's Degree in Public Policy. The Master of Public Policy Degree and the Linked Bachelor's-Master's Degree in Public Policy provide students with the requisite skills to address complex societal problems, reconcile conflicting political and ethical values in policymaking, make informed decisions about program activities, and provide effective leadership in policy development and implementation.

In addition to meeting the requirements of the university and of the College of Social Science, graduate students must meet the requirements specified below.

#### Admission

A bachelor's degree from an accredited educational institution is required for admission. Applicants should have the equivalent of an undergraduate major in political science, in a related social science, or in mathematics, statistics, or computer science. Some background in social science research methods, statistics, and/or basic mathematical operations is recommended. Normally, a minimum grade—point average of 3.20 in the last two years of undergraduate work is required for admission.

Applicants must take the Graduate Record Examination (GRE) General Test. Official results from this examination should be sent to the Department of Political Science.

Admission to the doctoral program is limited to **fall semester only**. For the Master of Public Policy program, most students are admitted for fall semester; applications for the spring semester will be considered on the basis of available openings. Applications for admission and financial aid should be submitted by March 1. Applications for admission alone will be accepted until approximately May 15.

#### **Academic Standards**

Graduate students must maintain a cumulative grade—point average of at least 3.00. Only those courses completed with a grade of 2.5 or higher may be counted toward the requirements for the master's or doctoral degree. A student who received two grades of 2.5 or below, or one grade of 2.0 or below, may be withdrawn from the program. A student who received three grades of 2.5 or below, or two grades of 2.0 or below, will be withdrawn from the program.

#### **POLITICAL SCIENCE**

#### Master of Arts

The Master of Arts program is designed to prepare students for doctoral studies. Those accepted are judged by the committee on admissions as qualified to enter the doctoral program, and it is anticipated they plan to complete this program at Michigan State University.

In addition to meeting the requirements of the university, of the College of Social Science, and of the Department of Political Science, students must meet the requirements specified below.

## Requirements for the Master of Arts Degree in Political Science

The program is available only under Plan B (without thesis). The student must meet the requirements specified below:

CREDITS

With the written approval of the department, a student may complete fewer than 24 credits in Political Science courses and more than 6 credits in courses in related disciplines.

#### **Academic Standards**

The student must maintain an overall grade-point average of 3.00 or higher.

#### **Transfer Credits**

For Law College students who have been admitted to the dual J.D.-M.A. program with Michigan State University - College of Law, a maximum of 12 credits from Michigan State University - College of Law may be transferred to the M.A. program with a major in political science. A grade of 2.0 in a Law course will transfer to MSU as a passing grade. Students will be assessed at the Law College tuition rate with a graduate assistantship covering only the MSU cost of in-state tuition.

#### **PUBLIC POLICY**

The Master of Public Policy degree in Public Policy is designed to provide students with theoretical knowledge and specific skills essential for professional achievement in the public and non-profit sectors. The objective of this program is to develop an analytical approach to the public decision-making process through the systematic study of policy and policy analysis. Current professionals in the field of public policy or others who are interested in a career in public policy in the non-profit sector or in government will find this program appealing.

In addition to meeting the requirements of the university, the College of Social Science, and the Department of Political Science, students must meet the requirements specified below.

#### Requirements for the Master of Public Policy Degree in **Public Policy**

The program is available only under Plan B (without thesis). The student must complete 39 credits in courses approved by the director of the Master in Public Policy program and distributed as follows:

**CREDITS** 

| 1. | . Complete all of the following courses:                                |          |   |   |  |  |  |  |

Students with no professional experience will be required to complete 3 credits of Public Policy 894 Field Experience Practicum.

Successful completion of a final examination or evaluation.

#### **Doctor of Philosophy**

The doctoral degree is generally undertaken by students wishing to teach political science and government at the college level and by those seeking professional careers in political and social research. Special attention is given at the doctoral level to intensive training in political research.

In addition to meeting the requirements of the university, of the College of Social Science, and of the Department of Political Science, students must meet the requirements specified below.

#### Requirements for the Doctor of Philosophy Degree in Political Science

The doctoral student must:

|    |      |          |          |  | CREDITS |
|----|------|----------|----------|--|---------|
| 1. | Earn | at leas  | t 45 cr  | edits in political science courses including:  |         |
|    | a.   | All of t | the foll | owing courses (9 credits):   |         |
|    |      | PLS      | 800      | Proseminar: Political Theory and Research  |         |
|    |      |          |          | Methods  | 3       |
|    |      | PLS      | 801      | Quantitative Techniques in Public Policy and   |         |

|    | b.   | At leas  | st four  | courses in a major field, approved by the student's  |         |
|    |      | guidar   | nce co   | mmittee, selected from one of the following political  |         |
|    |      | scienc   | e field  | ls: American politics, comparative politics, interna-  |         |
|    |      |          |          | the second secon |         |

- tional relations, public policy, or political philosophy. At least three courses in a minor field, approved by the student's
- guidance committee, selected from one of the following political science fields: American politics, comparative politics, international relations, political philosophy, public policy, or research methodology.

  Pass a comprehensive examination in both the major and minor field.
- Complete a paper, or course work as determined by the Graduate Studies Committee and the student's guidance committee.
- Successfully write and defend a doctoral dissertation in a public oral

Additional requirements and evaluations are described in the Ph.D. Handbook on the department's Web site at www.pls.msu.edu.

#### **Academic Standards**

Academic standards for the Doctor of Philosophy degree program are described in the Ph.D. Handbook on the department's Web site at www.pls.msu.edu.

### **DEPARTMENT** of **PSYCHOLOGY**

#### Brent Donnellan, Chairperson

Psychology is a science concerned with thoughts, feelings, and behaviors. Psychologists study many topics including: how people perceive the world with their five senses; how people learn (and forget); how people relate to each other; how people develop their personalities; how people interpret and respond to social conditions; how organizations function; how to classify and understand the origins of psychopathology; how to intervene and treat psychological problems; how communities support health and well-being; and how non-human animal models can be used to understand human behavior.

The undergraduate program emphasizes the scientific method and logical reasoning as well as theories and empirical findings in the different subareas of the discipline. Students are advised to obtain preparation in supporting fields such as mathematics, statistics, and philosophy of science. A strong foundation in other biological and social sciences as well as the arts and humanities is also recommended. Students who plan a career in psychology as a specialty will likely find graduate education a necessity. Beyond foundational training for a career in psychology, the undergraduate degree provides broad training for those interested in careers in business, education, law, medicine, and social services.

Graduate program descriptions are available from the departmental Web site at: www.psychology.msu.edu.

#### UNDERGRADUATE PROGRAMS

#### Requirements for the Bachelor of Arts Degree in **Psychology**

1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Psychology.

The following will satisfy either the University's Mathematics requirement or the College of Social Science STEM requirement, but not both. The completion of Mathematics 103 or equivalent placement score and one of the following courses: Mathematics 101, 102, 112, 114, 124, 132, 152H, 201, Statistics 200 or 201. Mathematics 110 and 116 may also satisfy this requirement.

The University's Tier II writing requirement for the Psychology major is met by completing one of the following courses: Psychology 401, 402, 405, 409, 410, 411, 413, 424, 440, 444, 455, 475 or 493. Those courses are referenced in item 3. below.

The requirements of the College of Social Science for the Bachelor of Arts degree.

|    |       |            |          |   | CREDITS  |

Other Required Courses (6 credits):

ARTS AND HUMANITIES REQUIREMENT

Complete a minimum of 6 credits in Arts and Humanities from a list of courses approved by the College of Social Science Committee on Curriculum and Academic Policy. Most courses offered in the College of Arts and Letters count toward this requirement. Other courses approved by the College of Social Science Committee on Curriculum and Academic Policy can meet this requirement. A list of approved courses is maintained by the College of Social Science. For further information, consult the Office of Student Affairs in the College of Social Science or an academic advisor in a department or school. A department or school may require its majors to complete specific courses or particular subject matter areas to satisfy this requirement. The requirement may be satisfied either within or outside the requirements of the major or within the

#### Requirements for the Bachelor of Science Degree in Psychology

1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Psychology.

Students who are enrolled in the Psychology major leading to the Bachelor of Science degree in the Department of Psychology may complete an alternative track to Integrative Studies in Biological and Physical Sciences that totals 8 credits and consists of the following courses: (a) one course in Biological Science; (b) one course in Chemistry or one course in Physics (numbered 181B or higher); and (c) laboratory experience in biological or physical science totaling 2 credits. Courses taken for the alternative track may not be counted toward the College of Social Science STEM RE-

The completion of Mathematics 124 or 132. It may satisfy the University mathemat-

ics requirement or the College of Social Science STEM REQUIREMENT, but not both. The University's Tier II writing requirement for the Psychology major is met by completing one of the following courses: Psychology 401, 402, 405, 409, 410, 411, 413, 424, 440, 444, 455, 475, or 493. Those courses are referenced in item 3. below.

The requirements of the College of Social Science for the Bachelor of Science degree

|    |      |          |        |   |

Complete a 15 credits in Science, Technology, Engineering, and Mathematics (STEM) courses from a list of courses approved and maintained by the College of Social Science. At least 9 of these credits must be from psychology relevant STEM courses. Fulfillment of this requirement also meets the College of Social Science STEM Graduation Requirement for Bachelor of Science Degree.

#### **TEACHER CERTIFICATION OPTIONS**

A psychology disciplinary minor is available for teacher certification.

Students who elect the psychology disciplinary minor must contact the Department of Psychology.

For additional information, refer to the statement on TEACHER CERTIFICATION in the Department of Teacher Education section of this catalog.

#### **GRADUATE STUDY**

9

**CREDITS** 

31 or 32

15

The primary objective of doctoral programs in the Department of Psychology is to develop psychologists who are creative scholars. At the same time, students must develop the basic skills of their particular specialty and be well prepared for the job market through carefully supervised experience in research, teaching, and consulting. Relevant training experiences are available in agencies such as industries, clinics, hospitals, schools, and government offices as relevant to students in their specialized graduate training programs.

Graduate programs include: behavioral neuroscience, cognition and cognitive neuroscience, clinical, ecological/community, organizational, and social/personality psychology. Students in these programs may participate in advanced graduate training through a concentration in Quantitative Methodology and Evaluation Science (QMES).

A fully online master's program and graduate certificate in Program Evaluation are available. Students learn to use research methods and other tools to determine if programs and policies are working to address important social issues and how they can be improved. The program emphasizes professional development in contemporary models and standards of evaluation practice; quantitative, qualitative, and mixed-method design and analysis for the evaluation context; leading-edge communication and reporting strategies; and evaluation contracting and project management. See http://progeval.msu.edu.

Students who are enrolled in master's or doctoral degree programs in the Department of Psychology may elect an Interdepartmental Specialization in Cognitive Science. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Cognitive Science. For additional information, contact the Department of Psychology.

Students who are enrolled in Master of Arts and Doctor of Philosophy degree programs in the Department of Psychology may elect specializations in Infancy and Early Childhood. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Infancy and Early Childhood.

#### **PSYCHOLOGY**

#### Master of Arts and Doctor of Philosophy

Students are accepted for graduate study in psychology only if judged by a departmental committee to be qualified to complete a doctoral degree, and programs of study are planned with this goal in mind; the master's sequence is generally developed as an integral part of the doctoral program with special attention given to the plans and needs of each student. Additional details are given under the doctoral program as outlined below. There is no terminal master's program.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

58

3

#### Admission

Factors given major consideration for admission to the graduate program at the first-year level include (1) an approved bachelor's degree from a recognized college or university, (2) a junior-senior undergraduate grade-point average of 3.20 or better in academic studies, (3) undergraduate courses in experimental psychology and statistics, (4) satisfactory scores on the Graduate Record Examination General Test, (5) favorable evaluations of the applicant by three referees, preferably instructors in the applicants undergraduate major; and (6) approval by a departmental committee. That an applicant has achieved the above is not sufficient for admission. The number of applicants with superior qualifications exceeds the number of students that can be accommodated.

The department is especially interested in quality students and generally accepts them regardless of their undergraduate majors provided that they have adequate background for graduate study in psychology. Students meeting only the requirements for admission to provisional status are not generally accepted.

Completed applications must be received by December 1 for consideration for the subsequent fall semester.

#### Requirements for the Master of Arts Degree in **Psychology**

To meet individual needs, every student has a guidance committee with the student's advisor as chairperson. The committee develops a program of studies in consultation with the student. The program is available under both Plan A (with thesis) and Plan B (without thesis). The student must complete a total of 30 credits as follows:

**CREDITS** 

#### Requirements for Both Plan A and Plan B

- Complete the following course (3 credits): Quantitative Research Design and Analysis
- termined and approved by the student's guidance committee.
- Complete additional elective credits approved by the student's guidance committee

#### Additional Requirements for Plan A

- Complete 4 credits of PSY 899 Master's Thesis Research.
- Preparation of an approved thesis proposal. Successful oral defense of the thesis.

#### Additional Requirements for Plan B

- Complete 4 credits of PSY 890 Special Problems in Psychology. Pass a final evaluation with a guidance committee of at least three faculty and the chairperson of the Department of Psychology. At least two of the three must be faculty members in the Department of Psychology.

There is no general language requirement. Where acquaintance with a foreign language is necessary for advancing the special interest of a particular student, the guidance committee may impose foreign language requirements.

Psychology graduate students may participate in advanced graduate training through a concentration in Quantitative Methodology and Evaluation Science (QMES). Students selecting this concentration must complete two prerequisite courses, three advanced training courses, and one student-developed project under the supervision of two members of the Quantitative Methodology and Evaluation Science faculty.

#### Requirements for Doctor of Philosophy Degree in **Psychology**

To meet individual needs, every student has a guidance committee with the student's advisor as chairperson. The committee develops a program of studies in consultation with the student. Students who are accepted into the doctoral program will fulfill the following program requirements for the degree:

**CREDITS** 

- Complete the following course (3 credits): PSY 815 Quantitative Research Design and Analysis
- Successful completion of the comprehensive examination.
- Successful completion and defense of a dissertation
- Completion of 24 credits PSY 999 Doctoral Dissertation Research.

There is no general language requirement. Where acquaintance with a foreign language is necessary for advancing the special interest of a particular student, the guidance committee may impose foreign language requirements.

Psychology graduate students may participate in advanced graduate training through a concentration in Quantitative Methodology and Evaluation Science (QMES). Students selecting this concentration must complete two prerequisite courses, three advanced training courses, and one student-developed project under the supervision of two members of the Quantitative Methodology and Evaluation Science faculty.

#### **Transfer Credits**

For Law College students who have been admitted to the dual J.D. - M.A. program with Michigan State University - College of Law, a maximum of 9 credits from Michigan State University - College of Law may be transferred to the M.A. program with a major in psychology. A grade of 2.0 in a Law course will transfer to MSU as a passing grade. Students will be assessed at the Law College tuition rate with a graduate assistantship covering only the MSU cost of in-state tuition.

#### PROGRAM EVALUATION

#### **Graduate Certificate**

The Graduate Certificate in Program Evaluation prepares students for evaluation careers in diverse settings including government, education, social services, and evaluation consulting firms. It emphasizes professional development in history, theory, and standards of evaluation practice, evaluation methods, and evaluation practice skills.

#### Admission

To be admitted to the Graduate Certificate in Program Evaluation, applicants must have:

- a bachelor's degree from a recognized educational institu-
- 2. an academic record equivalent to at least 3.00 (B) in undergraduate course work in their junior and senior year. This requirement is waived for students currently pursuing a master's or doctoral degree program at MSU.
- submitted three letters of recommendation and a personal statement about their academic and professional goals and experience.
- submitted Test of English as a Foreign Language (TOEFL) scores if they are an international applicant.

Admission to the program is selective and meeting the minimum standards does not guarantee admission. The applicant's overall record is considered, including the student's personal statement, recommendations, academic transcripts, and other documentation as required.

Students currently pursuing a graduate degree at MSU should submit a letter from their program advisor or chairperson indicating that the student is in good standing and they agree the certificate is an appropriate adjunct training opportunity. It is recommended that applicants have earned at least 12 undergraduate credits in a social science such as anthropology, sociology, or psychology.

#### Requirements for the Graduate Certificate in **Program Evaluation**

The Graduate Certificate in Program Evaluation is available only online. A total of 12 credits are required for the certificate.

#### Master of Arts

The Master of Arts degree in Program Evaluation prepares students for evaluation careers in diverse settings including government, education, social services, and evaluation consulting firms. It emphasizes professional development in history, theory, and standards of evaluation practice; evaluation methods; effective interpersonal and communication skills; and management of evaluation activities. Students will obtain direct practice experience under the supervision of program faculty.

In addition to meeting the requirements of the university and the College of Social Science, students must meet the requirements specified below.

#### Admission

To be admitted to the Master of Arts degree in Program Evaluation, applicants must have:

- a bachelor's degree from a recognized educational institution.
- an academic record equivalent to at least 3.00 (B) in undergraduate course work in their junior and senior year. This requirement is waived for applicants who have completed a graduate degree.
- submitted three letters of recommendation and a personal statement about their academic and professional goals and experience.
- submitted Test of English as a Foreign Language (TOEFL) scores if they are an international student.

It is recommended that applicanats have earned at least 12 undergraduate credits in a social science such as anthropology, sociology, or psychology.

Admission to the program is selective and meeting the minimum standards does not guarantee admission. The applicant's overall record is considered, including the student's personal statement, recommendations, academic transcripts, and other documentation as required.

## Requirements for the Master of Arts Degree in Program Evaluation

The Master of Arts degree in Program Evaluation is available only online and only under Plan B (non-thesis). A total of 37 credits are required for the degree.

## SCHOOL of SOCIAL WORK

#### John K. Mooradian, Acting Director

Social work is a profession that focuses on helping vulnerable and oppressed people improve their lives. Social work uses a wide range of approaches toward this end, with the intent of improving both personal life circumstances as well as the broader institutions and social forces that affect these populations. Our field stresses the interaction between the person and the person's environment as we develop solutions. Social work is guided by a code of ethics that encompasses values fundamental to our practice, such as respect for diversity, self-determination, empowerment, and focus on the most vulnerable members of society.

Our programs prepare students for social work practice in a wide range of settings, including at the individual, community, state, national, and international levels. Social workers engage populations experiencing diverse needs, such as in child welfare, aging, schools, health care, criminal justice, or poor communities. Experiential learning is critical to social work education; all students complete structured field placements in community-based and other service agencies that introduce students to real social work practice issues. These field placements comprise a significant portion of study at both the undergraduate and graduate levels.

#### UNDERGRADUATE PROGRAM

The Bachelor of Arts Degree in Social Work is accredited by the Council on Social Work Education. The primary educational goal of the program is to prepare students for beginning generalist social work practice. Students apply for admission to the social work major and primarily complete course work in their junior and senior years. Students also complete a field practicum in their senior year. For a detailed program description visit www.socialwork.msu.edu.

#### Admission as a Junior

The number of students who can be admitted as juniors to the bachelor's degree program in social work is limited. Applications are accepted and reviewed **only** during the spring semester of each year.

All persons who are interested in applying for admission as juniors to the bachelor's degree program in social work must request a special application form and detailed information regarding admission requirements and procedures from the School of Social Work Website at http://www.socialwork.msu.edu/Programs/BASW.

Students who are enrolled in colleges and universities other than Michigan State University should contact Michigan State University's Office of Admissions and the School of Social Work regarding admission to the bachelor's degree program in social work as transfer students.

To be considered for admission as a junior to the bachelor's degree program in social work, a student must have:

- Submitted a completed application form by the deadline specified by the school.
- Completed Social Work 200, which is a prerequisite for the 300–400 level courses required for the bachelor's degree.
- 3. Completed the courses in related areas referenced in items 3. b. (1), (2), (3), (4), and (5) under the heading *Requirements* for the Bachelor of Arts Degree in Social Work.

Admission to the bachelor's degree program in social work is competitive, and there is no guarantee that students with a major preference in social work will be admitted to the bachelor's degree program as juniors. In making admissions decisions, the faculty considers the relative qualifications of applicants, their suitability for the program, and the enrollment capacity of the program.

A student who has been admitted to the bachelor's degree program in social work for a given semester, but then decides not to enroll for that semester, would need to reapply for admission to the program. There is no guarantee that the student would be admitted to the program again.

#### **Honors Study**

Students interested in honors study in social work should consult with academic advisors in the school.

## Requirements for the Bachelor of Arts Degree in Social Work

 The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in Social Work.

The University's Tier II writing requirement for the Social Work major is met by completing Social Work 440. That course is referenced in item 3. below.

**CREDITS**

#### **GRADUATE STUDY**

Our fully accredited Master of Social Work (MSW) degree program prepares students for advanced and more specialized social work practice. Students select either Clinical Social Work or Organization and Community Leadership as an advanced concentration. The Clinical Social Work track prepares students to engage in professional practice with individuals, families, and small groups, using many different intervention techniques. The Organization and Community Leadership concentration trains students for work in policy, advocacy, community development, and administrative positions.

The school emphasizes access to social work education, and we have developed a wide range of options to meet the diverse needs of students. The school offers full MSW programs in Flint, Mid-Michigan, and Oakland County in addition to our East Lansing campus. We also operate a Weekend MSW program in Lansing, and a Statewide Blended program that that utilizes a mix of online courses, videoconferencing, and small group face-to-face education to provide MSW access across Michigan. For all of these options, students can complete their field placements near where they live or work.

The school offers both regular and advanced standing MSW program options. The regular program requires 57 credits for degree completion. Students admitted after having completed the equivalent of the first year of this program at another university must complete a minimum of 31 credits in the MSW program at Michigan State University. A maximum of 26 credits of graduate level work in another Council on Social Work Education (CSWE) accredited program may be applied to the credit requirements under the MSW degree.

Students who have received a bachelor's degree in social work within the last six years from a program accredited by the CSWE may apply for admission to the Master of Social Work Advanced Standing program. The Advanced Standing program requires a minimum of 38 credits for the MSW degree, and may be completed with full-time study over one year or part-time study over two years.

Students enrolled in the MSW degree program may complete an optional certificate program in areas including school social work, advanced clinical practice with families, social work with older adults, substance abuse, social work and health, or trauma-focused social work practice.

Students who are enrolled in the Master of Social Work degree program in the School of Social Work may elect specializations in Infancy and Early Childhood. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Infancy and Early Childhood.

The Doctor of Philosophy degree in Social Work, which is open to students who have earned an MSW degree, emphasizes the development, analysis, and application of social work knowledge, and is designed to prepare social workers for research and teaching positions in the academy and/or applied research settings.

#### Master of Social Work

The Master of Social Work degree program includes extensive required courses and course sequences in social work. Only Plan B (without thesis) is available.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Admission to the Master of Social Work Degree Program

All students begin the Master of Social Work degree program in the fall semester to align their enrollment with the sequencing of required courses. Therefore, applicants should seek admission during the previous fall semester. Students wishing to be considered for admission must complete all application materials described on the School of Social Work Web site at www.socialwork.msu.edu. Although an undergraduate major or concentration in the social sciences or in social work may be helpful, it is not required.

To be considered for admission to the Master of Social Work degree program, a person must have:

- A Bachelor of Arts or Bachelor of Science degree from a recognized institution. (Bachelor of Applied Science degrees are not accepted)
- A grade-point average of at least 3.0 (on a 4.0 scale) during undergraduate study or in 14 or more credits of graduate study. The grade-point average in the last 60 credits or their equivalents of undergraduate course work is primarily considered.
- Evidence of personal qualities considered important for the practice of social work, as demonstrated through the Applicant statement and letters of reference.
- Prior work reflecting a liberal arts perspective with 19 credits in humanities and social and natural sciences, such as courses in sociology, psychology, anthropology, history, philosophy, literature, and languages.

In addition to these requirements, applicants to the Statewide Blended and Weekend program options must meet additional requirements. For Statewide Blended, applicants must:

- 1. Live more than 30 miles from both the East Lansing and Flint campuses.
- Live in the state of Michigan, or if out-of-state, within 50 miles of the Michigan border.
- 3. Have regular access to high-speed internet service.
- 4. Complete an online assessment and orientation program on how to learn effectively in the online environment.
- Applicants may also be asked to participate in a personal interview.

For Weekend, applicants must:

- Live in the state of Michigan, or if out-of-state, within 50 miles of the Michigan border.
- 2. Have regular access to high-speed internet service.
- 3. Complete an online assessment and orientation program on how to learn effectively in the online environment.
- Applicants may also be asked to participate in a personal interview.

#### Requirements for the Master of Social Work Degree Program

The student must complete 57 credits in specified instruction in social work. Detailed plans of study are available in the Master of Social Work Manual which is available at www.socialwork.msu.edu. Required course work for both the Clinical Social Work major and the Organization and Community Leadership major are taken in the following areas: social work practice methods, human behavior and the social environment, social welfare policy, research methods, and field education.

## Admission to the Advanced Standing Master of Social Work Degree Program

Persons who hold a recent bachelor's degree in social work from a program that is accredited by the Council on Social Work Education (CSWE) may apply for admission to the Advanced Standing Master of Social Work Program.

Students begin the program in summer session. Applicants should therefore seek admission during the previous fall semester. Students wishing to be considered for admission must complete all the application materials described on the School of Social Work Web site (www.socialwork.msu.edu).

To be considered for admission to the Advanced Standing Master of Social Work program, a person must have:

- A bachelor's degree in social work granted within the last six years from a program that is accredited by the Council on Social Work Education (CSWE).
- 2. A grade-point average of at least 3.25 (on a 4.0 scale) during undergraduate study. The grade-point average in the last 60 credits or their equivalents of undergraduate course work is primarily considered.
- Evidence of personal qualities considered important for the practice of social work as demonstrated through the applicant statement and letters of reference.
- Prior academic work reflecting a liberal arts perspective with 19 credits in humanities and social and natural sciences, such as courses in sociology, psychology, anthropology, history, philosophy, literature, and languages.

In addition, applicants to the Statewide Blended Advanced Standing program must also:

- Live more than 30 miles from both the East Lansing, Oakland, and Mid-Michigan campuses.
- 2. Live in the state of Michigan, or if out-of-state, within 50 miles of the Michigan border.
- 3. Have regular access to high-speed internet service.
- 4. Complete an online assessment and orientation program on how to learn effectively in the online environment.
- Applicants may also be asked to participate in a personal interview

## Requirements for the Advanced Standing Master of Social Work Program

The student must complete 38 credits in specified instruction in social work. Detailed plans of study are available in the Master of Social Work Manual which is located at www.socialwork.msu.edu. Required course work for both the Clinical Social Work major and the Organization and Community Leadership major are taken in the following areas: social work practice methods, social welfare policy, research methods, and field education.

#### Residence

One year of residence consisting of two consecutive semesters and involving at least 7 credits of graduate course work each semester is required. If students attend part—time, the residency requirement must be met in the year that the advanced methods and practicum courses are being completed.

#### Part-Time Students

Both the Master of Social Work program and the Advanced Standing Master of Social Work program are available on a part–time basis.

At the time of admission, students must apply for either part–time or full–time study. Students may transfer between part–time and full–time study with approval of the School. The process is outlined in the MSW Handbook.

Part–time students must progress through a plan of study as specified by the school. All students must meet their residence requirements during the year in which they are enrolled in the advanced practice and field instruction courses.

#### Doctor of Philosophy

The Doctor of Philosophy in Social Work is an interdisciplinary program rooted in the historical, epistemological, and philosophical bases of social work. It is designed to prepare social workers for leadership positions in the profession as educators, researchers, policy makers, and/or administrators. It places emphasis on the development, analysis, and application of social work knowledge related to professional practice, and is designed to contribute to the advancement of knowledge in the social work profession and field of social welfare.

In addition to meeting the requirements of the university and the College of Social Science, students must meet the requirements specified below.

#### Admission

The doctoral program in social work invites applications from experienced social workers who hold a Master of Social Work (MSW) degree from a Council on Social Work Education (CSWE) accredited graduate program. Applicants must provide evidence of outstanding professional competence, academic excellence and a capacity to develop concepts and articulate issues related to the social work profession, and an interest in advanced social work research, education, and practice. Applicants with outstanding academic records may be admitted to the program provisionally and permitted to make up deficiencies on a collateral basis.

## Requirements for the Doctor of Philosophy Degree in Social Work

The program requires 21 credits in post-master's social work education, including the completion of a research internship. Students must also take 18 credits of course work outside the School of Social Work including 6 credits of statistics and 12 credits in a social science discipline or focused cognate. In addition, students must complete a comprehensive examination administered by the student's guidance committee, complete 24 credits of dissertation research, and successfully defend the dissertation.

## DEPARTMENT of SOCIOLOGY

#### Aaron M. McCright, Chairperson

The world is rapidly changing. Global processes are transforming societies, changing cities and forms of economic production, creating new ways of communicating, facilitating new migration patterns, impacting human health and life chances, reshaping the biophysical environment, increasing social inequalities, and posing new risks and opportunities. New forms of labor, social movements, family life, health care delivery, military conflicts, and ways to distribute food and services are emerging. These global forces are even changing the character of sociology itself.

Members of the MSU Department of Sociology investigate these changing social, political, economic, and cultural dynamics through domestic and international scholarship (and—increasingly—with comparative, cross-national research). To accomplish this, MSU sociologists develop and apply leading theoretical frameworks, rigorously employ a diversity of methodological approaches, and use foundational and cutting-edge analytical techniques. In the process, MSU sociologists not only contribute significantly to the disciplinary core, but they also extend disciplinary influence by advancing its frontiers.

#### UNDERGRADUATE PROGRAM

Sociologists study how societies are created, maintained, and challenged. They think about the ways in which individuals and social structures interact. The department's undergraduate program is designed to give students an understanding of these processes throughout the world and of the major patterns of social behavior and organization in the United States. Courses deal with a range of topics including the basic institutions of society such as the economy and industry, education, family, health care and medicine, politics, sciences, mass media, the arts, and technology. Students examine how change occurs in rural and urban communities, in the environment, and in bureaucracies. They consider how knowledge may be used to bring about change. Courses on international development, sex and gender, racial and ethnic inequality, and changes in the lifecycle focus on the rich cultural and social diversity of individual and group behavior. Courses in social psychology and personality enable students to understand how individual behavior is affected by group life. Courses that focus on fundamental methods and techniques of research are important for understanding how to collect and interpret data on individual and group behavior. Opportunities are also available for participation in faculty research projects where the knowledge and skills learned in the classroom can be applied to real world situations. Some students have used their bachelor's degrees in sociology as a foundation for graduate and professional study in medicine, law, business, urban planning, social work, labor and industrial relations, and public health, or for advanced graduate study in preparation for careers as college teachers and researchers. Others may pursue positions in business, public service, sales research, teaching, public relations, and administration.

A Minor in Sociology is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts or Bachelor of Science degree in Sociology. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree. A total of 19 credits in the Department of Sociology are required for the minor. For further information about the minor in Sociology, visit https://sociology.msu.edu.

## Requirements for the Bachelor of Science Degree in Sociology

- The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Sociology.
  - The University's Tier II writing requirement for the Sociology major is met by completing Sociology 488 or 499. Those courses are referenced in item 3. a. below.
  - The completion of Statistics and Probability 200, 201, 421 or 422, referenced in item 4. below may also satisfy the University mathematics requirement.
- 2. The requirements of the College of Social Science for the Bachelor of Science degree.

#### MINOR IN SOCIOLOGY

The Minor in Sociology, which is administered by the Department of Sociology, provides a fundamental understanding of the linkages between agency and structure in society. Students obtain knowledge of the principles of sociology, sociological inquiry, diversity in society, and the ways in which global forces are transforming modern society.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Arts or Bachelor of Science Degree in Sociology. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in the Department of Sociology.

#### Requirements for the Minor in Sociology

Complete a minimum of 19 credits in the Department of Sociology from the following: CDEDITO

|    |   | CKEDIIS |  |  |  |
|----|---|---------|--|--|--|
| 1. | Both of the following courses (7 credits):                            |         |  |  |  |
|    | SOC 100 Introduction to Sociology                                     | 4       |  |  |  |
|    | SOC 214 Social Inequality   |         |  |  |  |
| 2. | One of the following courses (3 credits):                             |         |  |  |  |
|    | SOC 215 Race and Ethnicity  | 3       |  |  |  |

| 3. | Complete three elective courses in Sociology at the 300-400 level. At |         |  |  |  |
|    | least one course must be at the 400-level. Students may use SOC 281   |         |  |  |  |
|    | Social Research Methods to fulfill this requirement. The courses must |         |  |  |  |
|    | be approved by the student's academic advisor.                        |         |  |  |  |

#### **TEACHER CERTIFICATION OPTIONS**

A sociology disciplinary minor is available for teacher certification. Students who elect the sociology disciplinary minor must contact the Department of Sociology.

For additional information, refer to the statement on TEACHER CERTIFICATION in the Department of Teacher Education section of this catalog.

#### **GRADUATE STUDY**

33

The MSU sociology graduate program seeks to develop professionals who will be creative and ethical researchers, teachers. and practitioners in knowledge production. The department has three signature areas of excellence:

- Health and Medicine. Faculty and students examine the social context of health, illness, and health care, with a central focus on health disparities by race/ethnicity, social class. gender, and marital status; political, economic, and environmental circumstances that threaten health; and societal forces that impact the health care system. Faculty members often collaborate with scholars across MSU's College of Human Medicine, College of Osteopathic Medicine, College of Veterinary Medicine, and College of Communication Arts and Sciences. In recent years, faculty have secured research funding from the U.S. National Institutes of Health, U.S. Centers for Medicaid/Medicare, and U.S. Department of Agriculture.
- **Environment**. The MSU Department of Sociology has the largest group of U.S. sociologists studying human-environment interactions, examining how humans (individually, in organizations, or in larger social groups) affect the biophysical environment and how the biophysical environment influences social phenomena. Faculty and students have considerable expertise in environmental decision-making; climate change; agriculture and food systems; water resources; and animal studies. In recent years, faculty have secured research funding from the U.S. National Institutes of Health, U.S. National Science Foundation, and U.S. Department of Agriculture.
- Migration. The MSU Department of Sociology is a recognized center of expertise and excellence in research, teaching, and outreach on migration, transnationalism, and diaspora. Faculty and students examine the African diaspora; the demography of migration; migration, race, and refugees; development and migration; gender and migration; health and migration; migrant ethnic entrepreneurship, communities, and conflict; and migration integration. In recent years, faculty have secured research funding from the U.S. National Institutes of Health, U.S. Department of State, U.S. Social Science Research Council, and several private philanthropic foundations.

Students who are enrolled in Master of Arts and Doctor of Philosophy degree programs in the Department of Sociology may elect specializations in Infancy and Early Childhood. For additional information, refer to the statement on Interdepartmental Graduate Specializations in Infancy and Early Childhood.

For further information about graduate study in sociology, consult the department's Graduate Manual or visit www.sociology.msu.edu.

#### SOCIOLOGY

Although the department views the Doctor of Philosophy degree as the terminal degree in sociology, a master's degree program with a major in sociology is available.

#### Master of Arts

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Requirements for the Master of Arts Degree in Sociology

The program is available only under Plan A (with thesis). The student must meet the requirements specified below:

Complete 30 credits including:

SOC

- All of the following courses (12 credits): SOC 801 Global Transformations.... SOC SOC 954 Techniques of Population Analysis . . . . . . . . . SOC SOC
- SOC At least three courses in **one** of the department's major research theme areas of concentration.
- Complete 4 to 8 credits of Sociology 899 Master's Thesis Re-
- Present the thesis at a colloquium of the faculty who are associated with the student's major research theme area of concentration. The presentation must be acceptable to the faculty and be suitable for presentation at a professional meeting or publication in a professional journal.
- Participate in the teaching assistant workshop offered by the depart-
- Participate in the Sociology Graduate Seminar for First-Year Students.

#### **Doctor of Philosophy**

The doctoral degree program in sociology is designed to give the student a general background in sociological theory and methodology, as well as training in a major substantive area of the discipline.

While there is no language requirement, where acquaintance with a foreign language is necessary for advancing the special interest of the student, the student, in consultation with the guidance committee, may decide upon the study of a foreign language appropriate to their research and career development.

In addition to meeting the requirements of the university and of the College of Social Science, students must meet the requirements specified below.

#### Requirements for the Doctor of Philosophy Degree in Sociology

**CREDITS** Students must complete 60 credits from the following: All of the following courses (15 credits): SOC SOC 816 881 885 Two of the following courses (6 credits):

|    | SOC    | 883    | Multi-Equation Quantitative Models                     | 3 |
|----|--------|--------|--|---|
|    | SOC    | 884    | Applied Longitudinal Data Analysis                     | 3 |
|    | SOC    | 985    | Qualitative Field Research                             | 3 |
|    | SOC    | 986    | Survey Research Principles                             | 3 |
|    | SOC    | 989    | Topics in Sociological Methodology                     | 3 |
| 3. |        |        | credits from 5 additional courses approved by the stu- |   |
|    | dent's | guidan | ce committee.  |   |

- Complete 24 credits of Sociology 999 Doctoral Dissertation Research.
- Successful completion of the departmental Graduate Teaching Assistant workshop.
- Successful completion of the departmental Professional Development Workshop series.
- Successful completion and presentation of a qualifying paper.
- Successful completion of the comprehensive examination.
- Successful defense of the dissertation proposal.
- 10. Successful defense of the dissertation.

#### **GRADUATE SPECIALIZATION IN ANIMAL STUDIES:** SOCIAL SCIENCE AND HUMANITIES **PERSPECTIVE**

The Graduate Specialization in Animal Studies: Social Science and Humanities Perspective, which is administered by the Department of Sociology, provides graduate students with basic knowledge in relationships between humans and animals and how they are linked together in a fragile biosphere.

The graduate specialization is available as an elective for students who are enrolled in master's or doctoral degree programs at Michigan State University. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the specialization may also be used to satisfy the requirements for the master's or doctoral degree.

Students who plan to complete the requirements for the graduate specialization should consult the graduate advisor for the specialization in the Department of Sociology.

#### Requirements for the Graduate Specialization in Animal Studies: Social Science and Humanities Perspective

**CREDITS** Complete a total of 12 credits from the following: 1. Both of the following courses (6 credits): SOC 840 SOC 989 989 One of the following courses (3 credits): ACR 823 Contemporary Issues in Animal-Human Relationships... 805 ANS 565A Animal Law

Complete 3 credits of additional course work that focuses on any aspect of the human-animal relationship that meets the interests of the student. A list of available courses can be found on the specialization Web site. The course must be approved by the student's academic advisor for the specialization.

## PROGRAM in WOMEN, GENDER, and SOCIAL JUSTICE

#### Stephanie Nawyn, Director

The Women, Gender, and Social Justice program is a multi-disciplinary academic program that is administered by the College of Arts and Letters, with support from the College of Social Science and the College of Education. The College of Arts and Letters is the primary administrative unit and the Center for Gender in Global Context in International Studies and Programs oversees the program. The program offers a major in women's and gender studies leading to the Bachelor of Arts degree. In addition, the program offers an undergraduate minor in Women's and Gender Studies and a minor in Lesbian, gay, Bisexual, Transgender, Queer (LGBTQ) and Sexuality Studies. For additional information, refer to the *Women, Gender, and Social Justice Program* statement in the *College of Arts and Letters* section of this catalog.

## CENTER FOR GLOBAL CHANGE AND EARTH OBSERVATIONS

#### Jiaguo Qi, Director

The Center for Global Change and Earth Observations (CGCEO) is an interdisciplinary research unit administered by the College of Social Science at Michigan State University (MSU). Faculty from across the university collaborate and conduct research on the issues of global environmental change and its impacts using geospatial information technologies, earth observation satellites, and process-based models to measure, analyze, and understand the social and physical processes of global environmental change. The Center strives to strengthen interdisciplinary approaches for addressing global challenges at all scales, from the local to the global and from daily to decadal, using the tools of the social and physical sciences.

The Center promotes basic and applied research on global environmental change in key areas including land-use and -cover change dynamics, urbanization and sustainability, land degradation and social-ecological processes; climate variability, modeling and impact assessment; analyses and modeling of coupled human and natural systems, assessment and modeling of ecosystem services, carbon sequestration, biodiversity, water-energy-food nexus; natural resource monitoring, management and sustainable development. Research is supported through external funding from federal agencies, international organizations, the private sector, and foundations.

The Center also develops and applies technical tools of geographic information sciences, including open and distributed geographic information systems, efficient data processing, field-based sampling protocols, and spatially explicit decision support systems. It conducts research around the world, with special focus on developing countries in Latin America, East and West Africa, Eurasia and Asia (Southeast Asia, Central Asia, and East Asia), as well as in the Great Lakes and throughout the United States. The Center provides support to graduate research, education and training across the university and provides academic support for curricula in geographic information science, global change science, and environmental science.

# MATRIX: THE CENTER for DIGITAL HUMANITIES and SOCIAL SCIENCES

#### Dean Rehberger, Director

Matrix: The Center for Digital Humanities and Social Sciences at Michigan State University seeks to advance critical understanding and promote access to knowledge through world-class research in digital humanities and cultural informatics. Digital humanities and cultural informatics bring together the humanist's quest for deeper understanding of human nature, thought, expression, and behavior with the tools, methods and applications of computer science, user experience design, and information and library sciences. Matrix researchers use information and communication technologies to advance, mediate, and inform the humanist disciplines, as well as disciplines within the arts, social sciences, and education. At MSU, Matrix partners in music, history, anthropology and archaeology, education, international studies, museum studies, archives and libraries to build new, global, networked resources, services, and platforms that give life to the metaphor of "Matrix" as the multiple intersections and applications of interdisciplinary research. Matrix therefore applies humanities technology to all the elements of MSU's mission: research, education, outreach, and service to multiple public and professional communities. Guided by basic scholarly and humanist values of excellence, education, access, and inclusiveness, and conducted according to proven, collaborative, scholarly methods and principles, Matrix has become one of the most prestigious humanities technology centers in the world.

To this end, the mission of Matrix: The Center for Digital Humanities and Social Sciences serves as a catalyst for and incubator of the emerging fields of the digital humanities and cultural heritage informatics. In pursuing the Center's vision, Matrix is guided by five broad strategic goals that describe the national research agenda in digital humanities and cultural heritage informatics:

- Broaden and advance the creation, preservation, access to and interpretation of the human record (both past and present), through collaborative research and development of major digital cultural heritage tools and resources.
- Forge and strengthen interdisciplinary partnerships, pioneer research and development of pedagogical applications of new digital technologies for the arts, humanities, and social sciences in order to transform teaching and learning.
- Research, develop, and implement tools and platforms to advance scholarly networking within and across disciplines, develop new forms of online publication within the academy and the broader public.
- Research, develop and apply information and communication technologies to build domestic and international linkages, promote public involvement, ensure digital equity, and support civil society.
- Foster a new generation of scholars to research, develop, and implement new technologies, platforms, and approaches for research and teaching, and to pioneer a new type of interdisciplinary humanities scholarship.

For additional information, visit www.matrix.msu.edu.

## REMOTE SENSING and GEOGRAPHIC INFORMATION SCIENCE RESEARCH and OUTREACH SERVICES

#### Erin Bunting, Director

Remote Sensing and Geographic Information Science Research and Outreach Services (RS&GIS) is administered by the Department of Geography, Environment, and Spatial Sciences in the College of Social Science. The program was established to strengthen and support the utilization of geospatial technologies in research, instruction and extension activities.

RS&GIS promotes interdisciplinary research through collaborative efforts with faculty, research staff and students. Technical expertise includes geospatial database creation and analysis, web-mapping application development, mobile application development, website design, aerial and satellite image processing and interpretation, UAS data collection and analysis, geospatial modeling, terrain analysis and cartographic design. Thematic expertise includes land/water use and change detection, economic development and planning, assessment/inventory of natural and human systems, UAS development and deployment, human-environment interactions, climatology, climate change ecology, and ecology of arid lands. RS&GIS also maintains the Michigan Aerial Imagery Archive, a repository of historical imagery dating back to the 1930s.

Professional staff are available for consultation and technical assistance to faculty, staff, and students. The program sponsors both technical and thematic seminars and short courses.

# INSTITUTE FOR PUBLIC POLICY AND SOCIAL RESEARCH

#### Matthew Grossmann, Director

The Institute for Public Policy and Social Research is a university—wide research institute located within the College of Social Science. The institute provides research and technical assistance programs aimed at state, regional, and local levels of government, and research on national and international comparative issues. Institute personnel have economic, tax policy and analysis, public policy analysis and evaluation, computer programming, data management, statistical, survey analysis, and methodological expertise. The Institute includes the following units:

Michigan Political Leadership Program. This scholarship-funded certificate program is designed for those seeking greater involvement in the public policy process, particularly while serving in public office. Every year, 24 successful applicants participate in a curriculum that provides a solid foundation in practical politics, public policy analysis and process, personal leadership development, and effective governance. The 10-month program is co-directed by two people, one Republican and one Democrat experienced in public leadership and governance. Legislative Leadership Program. Sponsored with Michigan State University Extension and MSU's Office of Governmental Affairs, this program links scholars, legislators, and practitioners in a discussion of public policy issues and the policy making process. The program kicks off every two years shortly after state elections. It invites newly elected state legislators for a multi-day session on current public policy issues.

**Student Fellows**. Competitively selected graduate and undergraduate students are engaged in work to enrich and expand leadership, policy and research. Their engagement focuses on compiling, analyzing and publishing research and writing for academic and public audiences.

**Public Policy Forums**. The institute organizes and carries out regular forums on topics of timely interest for legislators and other governmental decision—makers. They have focused on such issues as energy, education, tax policy, and the state of the nation's infrastructure and economic development.

Office for Survey Research. The institute specializes in telephone interviews, web-based surveys, and mailed questionnaires in support of both of applied and basic research. It also provides consultation in sampling design, question sequencing, statistical analysis, and other technical aspects of survey research. Projects span needs assessments, epidemiological studies, opinion surveys, client feedback surveys, cognitive interview testing, social or economic impact studies, various aspects of focus group design and operation, and political polls. The Office for Survey Research maintains and operates a state-of-the-art research lab.

State of the State Survey. This telephone survey of approximately 1,000 adult residents of Michigan is the only survey conducted to systematically monitor the public mood on important issues in major regions of the state. The quarterly survey runs about 20 minutes in length, and a portion of that time is devoted to questions monitoring the public's satisfaction with public leaders and existing economic conditions. Results are published online. MSU faculty, administrators, profit and nonprofit organizations are consistent sponsors of SOSS questions, research contributors and collaborators.

## INSTITUTE of PUBLIC UTILITIES

#### Janice A. Beecher, Director

The Institute of Public Utilities (IPU) supports informed, effective, and efficient regulation of the providers of essential utility infrastructure and services - electricity, natural gas, water, and communications. IPU was established in 1965 at Michigan State University, the nation's pioneer land-grant institution, and is located on MSU's beautiful East Lansing campus. IPU operates as a self-sustaining unit within the College of Social Science and collaborates with faculty and researchers from various academic colleges, departments, and centers. IPU delivers to the utility policy community independent, integrative, and interdisciplinary educational curricula and applied research on the institutions, theory, and practice of economic regulation and ratemaking. IPU specializes in building capacity for meeting the challenges of utility, network, and market governance, including modernization and transformation. IPU's neutral analytical and instructional practice is informed by a broad array of traditional and applied disciplines, including economics, political science, law, accounting, finance, and engineering. IPU's diverse program faculty includes nationally recognized university educators and expert practitio-
