The College of Music offers undergraduate programs leading to the degrees of Bachelor of Music and Bachelor of Arts, and graduate programs leading to the degrees of Master of Music, Master of Arts, Doctor of Philosophy, and Doctor of Musical Arts.

UNDERGRADUATE PROGRAMS

All degree programs in the College of Music are accredited by the National Association of Schools of Music.

All students in Bachelor of Music degree programs in the College of Music must successfully pass an Upper Division Performance Examination as a prerequisite for enrollment into applied music at the 300-level. The examination is administered by the faculty of the area of study at the conclusion of the fourth semester of applied music at the 100-level.

In addition to meeting the requirements for admission to the university, acceptance into an undergraduate program in the College of Music requires satisfactory performance on a major instrument or in voice as determined by audition.

Candidates who wish to major in composition must submit a portfolio for review and approval by the area faculty.

Transfer credit in music theory and music performance is validated by examination. Transfer credit in other music courses must have the approval of the College of Music.

The college offers honors opportunities, chiefly through Honors Options in courses, private lessons, and seminars at both introductory and advanced levels. These agreements, through prior arrangement, permit the student to earn Honors credit for specialized study beyond the usual requirements of the course.

Policy on Combining Jazz and Classical Applied Studies

Any combining of jazz and classical private lessons will be determined on an individual basis by the respective applied areas. This policy will serve to assure that sufficient attention is given to the acquisition of the necessary repertoire and skills, especially in the primary area. If a student wishes to change from classical to jazz or vice versa, an audition will be required prior to the final decision.

MINOR IN JAZZ STUDIES

This minor is designed to prepare students for challenges encountered in the processes of teaching jazz musicianship. Through analysis of their own learning and study of several role models and mentors students employ techniques that impart and sustain basic principles that are necessary for the development of jazz study. This minor will concentrate on the refinement of skills used in private instruction, rehearsal techniques for small jazz ensembles, and the development of structured techniques for use in classroom instruction. Students will apply their skills using colleagues and combos from the Michigan State University jazz program as subjects.

A jazz studies minor is available as an elective to students who are enrolled in the Bachelor of Music degree program in Music Education and the Bachelor of Music degree program in Music Performance.

Doctoral Orientation Examinations

Every student admitted to a doctoral degree program in the College of Music other than music education must take the College's graduate orientation examination in music theory, a two-part examination covering written music theory and aural skills, before the first day of classes of the student's first semester of enrollment in the degree. Additionally, any doctoral student in music education who intends to take one or more music theory courses must take the two-part graduate orientation examination in music theory prior to enrolling in graduate-level music theory courses. The examination is given before the first day of classes in the fall, spring, and summer semesters. The lowest passing score for each part is 70%.

Doctoral students who score below 70% on the written music theory orientation examination must take MUS 200 Music Theory Review. Doctoral students who score below 70% on the aural skills examination must take MUS 201 Aural Skills Review. MUS 200 and MUS 201 may not be used to meet the course or credit requirements of any College of Music degree program.

Students who are required to take MUS 200 must complete the course with a grade of 2.0 or higher before enrolling in any 400-, 800-, or 900-level music theory course. Students who are required to take MUS 201 must take it either prior to or concurrently with their first music theory course at the 400-, 800-, or 900-level and must complete it with a grade of 2.0 or higher.

Requirements for a Doctoral Degree

The student plans a program of study in consultation with a guidance committee, subject to the rules of college and the university. For the composition of the committees, see the information below regarding specific degree programs.

Comprehensive Examinations

All students who are enrolled in doctoral degree programs within the College of Music are required to pass comprehensive examinations. For details about those examinations, see the statements on those programs in the sections that follow. The comprehensive examinations are given during fall and spring semesters and the summer session.

Final Oral Examination

The dissertation, composition, or scholarly paper on which the final oral examination is based must be submitted to the Associate Dean of Graduate Studies and all of the members of the student's guidance committee no later than four weeks before the final oral examination. In cases where the final oral examination involves a lecture-recital and document, the student must pass the defense of the lecture-recital and the document before the lecture-recital can be performed. In cases where the final oral examination involves two lecture-recitals, the student must pass the defense of the lecture-recital before that lecture-recital can be performed. Final oral examinations and performances of lecture-recitals are given during fall and spring semesters, and may be given during a summer session with the approval of the Associate Dean of Graduate Studies and every member of the student's committee.

Academic Standards

A doctoral student in the College of Music must:

1. Maintain a cumulative grade-point average of at least 3.00.

If at the end of a semester a graduate student fails to meet one or both of the requirements specified above, the student shall receive a deficiency warning. If the deficiency is not removed within one year, the graduate student will not be allowed to continue in the degree program.

A student may accumulate no more than 6 credits with a grade below 3.0 in courses that are to be counted toward the degree.

Transfer Credits

Graduate credits may be transferred from other accredited institutions or international institutions of similar quality if they are appropriate to a student's program and provided they were completed within the time limits approved for the earning of the degree desired at Michigan State University. The Associate Dean of Graduate Studies must grant approval. Only graduate-level courses in which at least a 3.0 (B) grade was received will be considered for transfer.

With the approval of the Guidance Committee and the Associate Dean of Graduate Studies, these transfer credits **may** fulfill specific Michigan State University degree requirements; but not all transfer credits will necessarily fulfill specific Michigan State University degree requirements.

College of Music Requirements for the Doctor of Philosophy Degree

Should the student's guidance committee fail to accept the dissertation or the student's performance on the final oral examination, the student shall be allowed to rewrite the dissertation or to retake the examination only once. The dissertation must be rewritten or the examination must be retaken within one year, during a fall or spring semester.

Doctor of Musical Arts

In addition to meeting the requirements of the University and of the College of Music students must meet the requirements specified below.

Admission

To be admitted to the Doctor of Musical Arts degree program in music performance on regular status, an applicant must have:

1. a master's degree in music from a recognized educational institution or a total of 30 credits of approved graduate course work.
2. presented a live performance audition acceptable to the committee appointed by the Dean of the College of Music.

When applying for admission to the Doctor of Musical Arts degree program with a major in music performance, an applicant must specify one of the following two broad performance areas that he or she wishes to pursue: instrumental music or vocal music.

An applicant who selects the **instrumental music** area must also specify the **major** instrument or group of instruments (e.g., piano, harp, flute, or percussion instruments) from the categories listed below:

- Brass and Percussion: trumpet, horn, trombone, euphonium, tuba, and percussion
- Keyboard: piano
- Stringed Instruments: harp, violin, viola, cello, double bass
- Woodwinds: flute, oboe, clarinet, saxophone, bassoon

To be considered for admission to the Doctor of Musical Arts degree program in music performance, an applicant must present a live performance audition before a faculty committee appointed by the Dean of the College of Music.

Applicants selecting the **instrumental music** area must present a live 40-minute audition, including the performance of three major works and approximately 10 minutes of discussion on one or more of the works, that is acceptable to the committee appointed by the Dean of the College of Music. Applicants selecting the **vocal music** area must present a live 40-minute audition, performing 30 minutes of music and 10 minutes of discussion on one or more of the works, that is acceptable to the committee appointed by the Dean of the College of Music. Required languages: English, French, German, and Italian. Required repertoire: art songs, one opera aria, one baroque or classical aria, one 20th-21st century work. In the case of both the instrumental and vocal music areas, applicants must also be prepared to respond to questions from the audition panel on the entire program.

With the approval of the faculty in an applicant's *major* area, an applicant may be considered for admission to the program on the basis of a high-quality recording of a recent performance, rather than on the basis of a live performance audition. An applicant who selects the **instrumental music or vocal music** area must submit either an audio or a video recording. An applicant who submits a recording may be admitted only on **provisional** status pending the presentation of a live performance audition before a faculty committee appointed by the Dean of the College of Music. The audition must be presented before the end of the first semester of enrollment in the program.

Guidance Committee

The student's guidance committee, which must be formed during the first year of graduate study, must consist of the student's major professor, who serves as its chairperson, a second faculty member from the student's area, one faculty member from the area of musicology, and one faculty member from the area of music theory. In instances where additional expertise would be beneficial it is recommended that the guidance committee include a faculty member from within or outside the College of Music.

Should the committee fail to accept the student's performance on the lecture-recital and the related paper or the final oral examination, the student shall be allowed to repeat the performance of the lecture-recital or to revise the related paper or to repeat the final oral examination. The lecture-recital must be repeated or the paper revised or the oral examination repeated within one year, during a fall or spring semester.

With regard to 4. (c) (2) above, the student's performance on each of the two lecture-recitals and the final oral examination based on each lecture-recital must be approved by the members of the student's guidance committee with not more than one dissenting vote. Should the committee fail to accept the student's performance on either lecture-recital or the final oral examination, the student shall be allowed to repeat the performance of the lecture-recital or to repeat the final oral examination. Procedures for the Capstone Requirements of the Master of Music in Music Theory Degree

Capstone Presentation:

The capstone presentation must be completed no earlier than the student's enrollment in the course on which the essay is based: either MUS 973 Readings in Music Theory or MUS 971 Pedagogy of Theory II. The student must work under the guidance of a member of the music theory faculty, who approves the final version of the presentation in advance as well as the student's public presentation of it. The public presentation will be in the format of a conference presentation, with a lecture of approximately 30 minutes followed by an opportunity for questions from those in attendance.

Keyboard Skills Examination:

The Keyboard Skills Examination may be taken at any point while or after the student takes MUS 876 Keyboard Skills and Practical Musicianship. A committee of two faculty examiners from the music theory faculty hears the examination. The examination materials are available upon request from the MUS 876 instructor. Upon successful completion, both faculty members sign the Capstone Requirements Form. The student who is not successful may retake the examination no earlier than the start of the following semester. Students are urged not to wait until their last semester in residence.

Teaching Demonstration:

The Teaching Demonstration may be undertaken once the student has completed MUS 970 Pedagogy of Theory I. The student who plans to take MUS 971 Pedagogy of Theory II is urged to wait until after completion of that course as well. The student must teach an entire 50-minute lecture of an undergraduate music theory course different from the one the student is currently teaching as a graduate assistant. The music theory area chairperson determines which course and assembles a committee of three faculty members, of which at least two must be on the music theory faculty. The student works with the course instructor, in consultation with the other committee members, to determine a date, topics, and learning objectives. All three committee members sign the Capstone Requirement Form upon the student's successful completion of the Teaching Demonstration. The student who is not successful may reattempt the Teaching Demonstration no earlier than the start of the following semester. Students are urged not to wait until their last semester in residence.

GRADUATE CERTIFICATE IN MUSIC THEORY
