(VSM 810) Fall, Winter, Spring.
Variable credit.

813. Seminar
(VSM 813) Fall, Winter, Spring. 1 credit.

SOCIAL SCIENCE  S S

University College

Alternative approaches or tracks are offered on an optional basis all of which meet the general objectives of 231, 232, 233. These are described briefly below and are designated by letters which are used as part of the course number for registration. A student will normally proceed through the three courses in the same track. No student may receive credit for more than one track within a course (231, 232, 233).

231. Social Science
Fall, Winter, Spring. Variable credit.

232. Social Science
Fall, Winter, Spring, Summer. 4(4-0)
Four credits in a 231 track.

B. Man and his changing institutions. Role performance in various social, economic, and political settings. Patterns of personal and inter-group relations, management and reduction of inter-personal, inter-group, and international tension and conflict.
C. Issues and policy determinations in the major institutional complexes in American society. Cross-cultural comparisons in terms of values, goals, traditions, and trends in institutional arrangements.
D. Social, political and economic features of modern societies. Focus upon universal problems such as socialization, culture conflict, economic organization and distribution of power. Comparison of the American solution to contrasting approaches of other societies.

SOCIAL SCIENCE  S SS

(COLLEGE OF)

210. Methods of Social Science I
Fall, Winter, Spring. Variable credit.

S S 232 or concurrently.

Characteristics of social science theory and method. Logical and practical aspects of data collection, standard techniques of investigation in the social sciences.
