promotion and nursing care to the sick in their homes. Roles, responsibilities and functions of the nurse in the community are stressed.

404. Survey of Nursing
Fall, Winter, Spring. 4 credits. Seniors.
Development of nursing to present status, current problems and long-term goals. Fields of service open to graduate nurses; nursing organizations, national, state and local, their services and objectives.

406. Senior Nursing
Fall, Winter, Spring. 8(3-20) Senior majors. A study of basic principles of leadership and their application in the practice of team nursing.

OSTEOPATHIC MEDICINE* O M

College of Osteopathic Medicine

501. Medical Biology I
Fall. 4(4-0). Integrated aspects of biology providing a foundation and vocabulary preparatory to studies in osteopathic medicine.

502. Medical Biology II
Winter. 7(6-3). Continuation of 501 emphasizing pathology and pharmacology.

530. Clinical Science I
Fall. 11(1-0). Fundamental concepts and skills essential to the performance of a clinical history and physical examination.

531. Clinical Science II
Winter. 2(2-0). Techniques, concepts and skills required for competent history taking and physical examination utilizing lectures, laboratory and films for instructional purposes.

532. Clinical Science III
Spring. 4(4-0). A clinical study program providing an opportunity to learn the skills of history taking and physical examination by actual performance of the involved techniques on patients under physician supervision.

533. Clinical Science IV
Summer. 4(4-0). Continuation of 532.

534. Clinical Science V
Fall. 4(4-0). A clinic-based program providing additional emphasis on history taking and physical examination as well as developing fundamental abilities in diagnosis and problem solving in the clinic setting.

535. Clinical Science VI
Winter. 4(4-0). A continuation of 534.

536. Clinical Science VII
Spring. 4(4-0). Continuation of 535.

537. Clinical Science VIII
Summer. 4(4-0). Continuation of 536.

550. Systems Biology I
Spring. 7(5-6). 502. A multidisciplinary approach to the hemopoietic and nervous systems providing a functional integration of basic science and clinical information.

551. Systems Biology II
Summer. 6(3-3). Continuation of 550 with emphasis on a multidisciplinary approach to the nervous system.

552. Systems Biology III
Fall. 11(8-9). Continuation of 551 with emphasis on multidisciplinary approach to the cardiovascular system.

553. Systems Biology IV
Winter. 11(8-9). Continuation of 552 with emphasis on multidisciplinary approach to the respiratory, renal and urinary systems.

554. Systems Biology V
Spring. 11(9-3). Continuation of 553 with emphasis on multidisciplinary approach to the gastrointestinal system.

555. Systems Biology VI
Summer. 11(9-6). Continuation of 554 with emphasis on multidisciplinary approach to the study of pediatrics, obstetrics and gynaecology.

600. Clinical Science Practice
Fall, Winter, Spring, Summer. 15 credits. May re-enroll for a maximum of 60 credits. A clinic-oriented course covering the major areas of medical practice including involvement in Family Practice and Community Health Services.

620. Directed Studies
Fall, Winter, Spring, Summer. 1 to 6 credits. May re-enroll for a maximum of 24 credits. Approval of department. Individual or group work on special problems in medicine.

OBSTETRICS, GYNECOLOGY AND REPRODUCTIVE BIOLOGY* OGR

College of Human Medicine

608. Obstetrics/Gynecology Clerkship
Fall, Winter, Spring, Summer. 1 to 17 credits. May re-enroll for a maximum of 45 credits. H M 602. Experience with gynecologic and obstetrical patients, in patient and out-patient settings, under the direction of community practitioners and members of the MSU faculty.

*Established July 1, 1971.

PACKAGING PKG

College of Agriculture and Natural Resources

210. Principles of Packaging
Fall, Winter, Spring, Summer. 3(3-0). A general course in packaging principles covering the growth and development of the field, and the technological and motivational problems involved in present day packaging. Consideration will be given to the basic functions of the package and their relation to the needs and wants of our society.

320. Packaging Materials
Fall, Winter, Spring. 5(4-4) CEM 132. Detailed study of common packaging materials such as wood, paper, paperboards, plastics, metal foil and sheet, glass, and cushioning media. A one-day field trip required.

422. Packaging Systems
Fall, Winter, Spring. 5(4-4) 320 or approval of school. Design, use and evaluation of packages and packaging systems. A one-day field trip is required.

423. Dynamics of Packaging
Winter, Spring. 5(4-3) 422, MTH 215, or approval of department. A study of the protective function of the packaging systems in relation to their environment and shock and vibration isolation methods. A one-day field trip is required.

424. Packaging Problems
Fall, Winter, Spring, Summer. 1 to 3 credits. May re-enroll for a maximum of 9 credits. 422, 2.5 grade-point average and approval of school. Development of solutions to specific packaging problems.

425. Packaging Process Analysis
Fall, Winter, Spring. 4(3-3) 422, CPS 110. The integrated study of the operation structure and control of the packaging and package-making process. A one-day field trip is required.

429. Packaging Development
Fall, Spring. 4(3-3) 320. A study of the functions of each area concerned with the development of packages to meet present-day requirements of protection and merchandising.

430. Packaging Machinery
Spring. 4(3-3) 320 or approval of school. The components for automated packaging lines, and auxiliary materials handling equipment, including consideration of design, selection, specification and operation of machinery for the package-making and package-filling operations.
Building Construction  B C

200. Dynamics of American Housing
Fall, Winter, Spring. 3(3-0)
Impact of housing on the economic and social welfare of America. Analysis of the residential building industry and its problems in providing adequate housing.

312. Structural Design
Fall. 4(4-0) 200 or approval of department.
Consideration of structural design systems used in light construction.

315. Housing Utilities Design
Winter. 4(4-0)
Design of distribution systems for mechanical and electrical utilities in housing.

413. Residential Construction Systems
Spring. 4(3-3) 312 or approval of department.
Analysis of the primary construction systems employed in the residential building industry, especially the economic and social aspects in meeting the housing goals of the U. S.

416. Building Materials
Spring. 4(4-0) 312 or approval of department.
Properties of building materials pertinent to their application and performance in service.

419. Building Costs
Winter. 4(2-4) Approval of department.
Methods of cost estimating. Effects of codes and production practices on costs.

417. Residential Finance
Winter. 4(4-0) Juniors.
Analysis of financial programs for the construction, rehabilitation, remodeling and purchase of homes; especially meeting the nation's goals for low to moderate income housing.

418. Special Topics
(F P 419.) Fall, Winter, Spring, Summer. 1 to 3 credits. Approval of department. Selected topics in housing.

420. Construction Management
(F P 314, B C 314.) Spring. 4(2-2)
416 or approval of department.
Systems management techniques for residential building organizations inclusive of organization development, operations, planning, scheduling and control, and administrative systems and procedures.

835. Research in Building Construction
(F P 935.) Fall, Winter, Spring, Summer. Variable credit. Approval of department.

890. Research
(F P 990.) Fall, Winter, Spring, Summer. Variable credit. Approval of department.

PARK AND RECREATION RESOURCES*  PRR
College of Agriculture and Natural Resources

200. Resource Ecology and Man
For course description, see Interdisciplinary Courses.

300. Wilderness Survival
Fall, Spring. 3(3-0)
Outdoor skills for utilization of plant and animal materials to provide shelter, fire, signals, water and food in the outdoors. Psychology and attitudes conducive to wilderness survival and appreciation. Field trip required.

302. Environmental Attitudes and Concepts
Fall. 3(3-0)

344. Leisure and Recreation Resources
(S.R. 344.) Fall. 3(3-0)
Leisure in relation to park and recreation resources. History and philosophy, significance in modern society, and impact on urban and natural resource developments.

351. Environmental Interpretation I: Principles
Winter. 3(2-0)
Philosophy, needs, types, and uses of information services in public, private, municipal, county, state, and federal park and recreation areas. The role of the park interpreter (naturalist).

440. Park and Recreation Administration
(R D 440.) Fall. 4(4-0)
Park and recreation organization, administration and policy at municipal, county, and regional level. Field trip required.

442. State and Federal Recreation Resource Policy
(R D 442.) Winter. 3(3-0)
Origin, development and significance of public policies in recreation resource development in the United States with emphasis at state and federal levels. Field trip required.

444. Park and Recreation Area Design
(R D 444.) Fall. 4(2-4) Approval of department.
Planning and design principles of space, scale, and circulation applied to the use of park and recreation areas and facilities. Field trip required.

449. Recreation Land Management
(R D 449.) Fall, Spring. 3(3-0) Not open to majors.
Fundamentals of outdoor recreation resource management. Financing, development, and administration of programs and facilities. Two weekend field trips required.

450. Natural Resource Administration
Fall, Spring. 4(4-0) Interdepartmental with Fisheries and Wildlife, Forestry, and Resource Development departments and Natural Resources Administration by the Forestry Department. Concepts and methods of administering wildland properties. The natural, economic and social environment. Benefit-cost analysis of management changes. Unit organization, personnel management and accounting. Presents a systems view of administration.

451. Environmental Interpretation II: Methods and Devices
Spring. 4(3-3) 351.
Methodology and equipment used in information transmission in natural, historic, and scenic areas. Site selection and development criteria for natural resource interpretation.

480. Supervised Study
Fall, Winter, Spring, Summer. 1 to 4 credits. May re-enroll for a maximum of 10 credits. Approval of department.
Seminars on current problems. Supervised readings. Individual undergraduate research on selected topics.

484. Senior Proseminar
Winter. 1(1-0) Senior majors.
Seminars on current professional problems and literature.

842. Park and Recreation Policy
Full. 3(3-0) Interdepartmental with the Resource Development Department. Recreation, leisure and work concepts. Determination of needs for recreation facilities. Factors affecting public and private allocation of resources for provision of needed facilities.

846. Urban Recreation Area and Program Analysis
Spring. 4(4-0) Approval of department.
Analysis of urban public, private and commercial recreation areas, facilities, and programs. Construction of a typology of urban communities. Course is conducted in selected urban communities in Michigan.
