POULTRY SCIENCE
College of Agriculture and Natural Resources

224. Poultry Science and Practice
Fall, Winter, Spring. 3(3-2)
Principles of poultry management practices and procedures in producing poultry meat and eggs.

301. Special Problems
Fall, Winter, Summer. Variable credit. May re-enroll for a maximum of 6 credits. Approval of department.

411. Poultry Seminar
Fall. 1(2-0) May re-enroll for a maximum of 3 credits. Special articles and reports.

424. Poultry Breeding and Incubation
Winter of even-numbered years. 3(3-2)
Genetic and biological factors affecting economic characteristics including egg production, egg size, hatchability, growth and viability and factors involved in the hatching of eggs.

435. Poultry Industry-Management and Marketing
Spring of even-numbered years. 5(4-2)
Practical application of economic and management principles to commercial poultry enterprises.

440. Avian Physiology
Spring of odd-numbered years. 4(3-3)
A survey of the systemic physiology of birds emphasizing digestion, metabolism, the endocrines, and reproduction.

Winter. 3(4-0)
An interdisciplinary course.

501. Introduction to Clinical Psychiatry
Fall. 1 credit
Basic background concerning psychiatric syndromes. Designed to follow psychiatric input in human development sequence, doctor-patient interviewing and local problems. Provides preparation for elective (psychiatry) courses and psychiatric clerkships.

590. Special Problems in Psychiatry
Fall, Winter, Summer. 1 to 6 credits. May re-enroll for a maximum of 12 credits. Human Medicine students; graduate students with approval of department.

601. Medical Psychopathology
Fall, Winter, Spring. 1 to 3 credits. May re-enroll for a maximum of 43 credits. Non-medical students: approval of instructor. Topics include psychiatric nosology, diagnosis and medical psychopathology. Interview techniques, diagnosis of common psychiatric disorders, psychopathology and its behavior disorders encountered in the practice of medicine.

608. Psychiatry Clerkship
Fall, Winter, Spring. 1 to 17 credits. May re-enroll for a maximum of 43 credits. Students will become familiar with and participate in the contemporary practice of psychiatry utilizing supervised in-patient, out-patient, emergency and community mental health services.

A number of different sections will be offered, each discussing a different topic.

170. Introductory Psychology: General
Fall, Winter, Spring, Summer. 4(4-0)
Principles underlying the behavior of humans and animals. Topics include: cognition, emotion, motivation, learning, sensation, and perception. Students may participate in psychological experiments outside of class.

215. Introduction to Psychological Measurement
Fall, Winter, Spring. 4(3-2)
Psychology as a quantitative discipline; graphical presentation and interpretation. Psychological data in various content fields; methods of summarizing behavioral data; samples, populations and probability in psychological research; hypothesis testing.

225. Psychology of Personality
Fall, Winter, Spring. 3(3-0)
Psychological development of the child; genetic, prenatal and postnatal influences; infancy, preschool and school age periods; relations with parents and peers; social, emotional and intellectual development.

246. Sensitivity to Children I
Fall. 3(1-0) Sophomores and three credits in psychology.
Three-term sequence emphasizes supervised weekly play with a child and analysis of videotaped recordings. Readings and discussions cover problems faced by child therapists, teachers and parents.

247. Sensitivity to Children II
Winter. 2(2-1) 246.
Continuation of 246.

248. Sensitivity to Children III
Fall. 2(2-1) 247.
Continuation of 247.

250. Organizational and Personnel Psychology
Fall, Winter, Summer. 3(3-0)
Introductory course in psychology. The psychology of managing and leading, personnel operations, and the humanizing of work organizations.

290. Human Sexuality
Winter, Spring. 3(3-0) Credit may not be earned in both FGS 366 and PSY 290.
Sophomores. Lecture and discussion of the fundamental principles of human sexuality focusing on such topics as physiology, psychological development, cultural perspectives, gender roles, premarital standards, values and human interactions.

301. Human Learning and Memory
Winter, Spring. 3(3-0) 170.
Concepts, procedures, issues, and principles involved in the acquisition, retention, transfer and execution of verbal learning, identification learning, and perceptual-motor skills.
302. Human Learning and Performance
Winter, Spring, Summer. 2(0-4) 170; 215, 310 concurrently.
Representative demonstrations, exercises, and experiments concerned with the acquisition, retention, transfer, and execution of verbal learning, identification learning, and perceptual-motor skills.

304. Physiological Psychology
Fall, Spring. 3(3-0). One course in experimental psychology and one elementary course in zoology, biology, or physiology.
Physiological mechanisms underlying basic behavioral processes, including sensation, emotion, motivation, and learning.

308. Psychology of Thinking
Winter, 3(3-0) 170, or ED 200, or approval of department; 215 recommended.
Principal concepts, theories and research on cognitive process and thinking, including problem solving, creative and critical thinking, reasoning, and concept formation. Experimental analysis, historical, conceptual and information-processing approaches.

310. Sensation and Perception
Fall, Winter, Spring. Summer of even-numbered years. 3(3-0) 170, 215; 311 concurrently.
Basic concepts, issues and principles in the areas of sensation and perception.

311. Experimental Psychology: Sensation and Perception
Fall, Winter, Spring. Summer of even-numbered years. 2(0-4) 170, 215; 310 concurrently.
Representative experiments and demonstrations in the areas of sensation and perception.

312. Learning and Motivation
Fall, Winter, Spring. Summer of odd-numbered years. 3(3-0) 170, 215, 313 concurrently.
Detailed analysis of basic learning processes such as reinforcement, discrimination, generalization, punishment, aversive behavior, and theories of learning. Emphasis on infrahuman data, but applications to human behavioral modification are considered.

313. Experimental Psychology: Learning and Motivation
Fall, Winter, Spring. Summer of odd-numbered years. 3(0-4) 170, 215; 312 concurrently.
Representative experiments in operant behavior, including an individual project selected by the student, using the pigeon as the laboratory animal.

315. Psychometric Methods
Fall, Winter, Spring. Summer. 3(2-2) 215 or approval of department.
Applications of statistical methods and techniques to psychological data in relation to theories, hypotheses, assumptions and interpretation.

325. Traits and Abilities
Spring. 3(0-4) 215.
Ways in which individuals differ in personality: theories, methods, and techniques for understanding and studying personality organization and structure in relation to causation and prediction.

335. Principles of Social Psychology
Fall, Winter, Spring. Summer. 4(0-0) 160. Students may not earn credit in both 335 and SOC 351.
A critical survey of social psychology with emphasis on psychological principles underlying social behavior. Topics include social perception, motivation, attitudes and attitude change, social interaction in small groups and in large-scale organizations.

336. Psychology of Social Movements
Fall, Spring. 3(3-0).
Psychology of political, religious, and other social movements: group identification and affiliation, socialization, conversion, and defection; the perception of social movements by members; influences of motivation and personality on ideologies and social movements.

337. Legal and Criminal Psychology
Fall, Winter, Spring. 3(3-0) 160 or ED 200.
Application of psychological principles, methods and techniques to legal and criminal problems and procedures, including the formation, detection, prevention, and rehabilitation of criminal behavior; testimony, legal arguments, trial tactics and the other courtroom procedures.

348. Adolescent Psychology
Winter, Spring, Summer. 3(3-0) 245.
Continuation of 345 covering development and maturation during adolescence, with emphasis on problems of the adolescent's adjustment to his personal and social environment.

356. Psychology of Human Relations in Work Setting
Fall, Winter, Spring. 3(3-0) 255.
Preventing and solving problems among individuals and groups in work organizations; psychological and legalistic approaches compared; illustrations mainly from United States but also from other cultures as appropriate.

357. Psychology of Advertising and Selling
Winter, Spring. 3(3-0) An introductory course in psychology.
Psychological techniques of effective advertising, selling, and marketing, and, at the same time, psychology relevant to living in a marketing-oriented culture.

390H. Honors Seminar
(300H) Fall. 3(0-0) Juniors or approval of department.
History, theory and current research in selected areas for the preparation of a senior honors paper.

400H. Honors Work
Fall, Winter, Spring. Summer. 3 to 5 credits. May re-enroll for 4 terms. Approval of department.
Seminar in advanced psychological topics, including both factual data and theoretical concepts. Topics include perception, learning, motivation and personality.

401. Experimental Psychology: Perception
Winter. 4(2-4). 215, 310, 311.
Critical examination of problems, principles, methods, techniques, materials, results and conclusions in relation to theory in studies of perception, including experimentation and demonstrations.

403. Experimental Psychology: Human Learning
Fall, Winter, Spring. 4(3-2) 215; 302 or approval of department.
Critical examination of problems, principles, methods, techniques, materials, results and conclusions in relation to theory in studies of human learning, including experimentation and demonstrations.

404. Experimental Psychology: Problem Solving
Spring. 4(2-4) 215 and 309, or approval of department.
Investigations of problem solving, concept formation and judgment; class and individual experiments.

405. Modern Viewpoints in Psychology
Fall, Winter, Spring. 3(4-0) 310 or 312.
Survey of psychological systems in the modern era including behaviorism, Gestalt psychology, psychoanalysis, neo-behaviorism in relation to other selected disciplines.

406. Psycho-ethology
Spring. 3(3-0) Six credits of psychology or ZOL 418 or 413.
Comparative and ethological methods and their application to behavior with emphasis on animals other than humans. Review of research on innate behavior, early experience, learning, motivation, and physiological processes.

414. Psychology of Language Behavior
Fall, Spring. 4(3-2) 310 or 312.
Psychological processes underlying meaning, control of verbal behavior, language learning in children and adults, bilingualism, verbal aptitude, and verbal habits in learning and perception.

415. Psychological Tests and Measurements
Fall, Winter, Spring. 5(4-2) 215.
Survey of methods, techniques and instruments for measuring individual differences in behavior; some representative methods of test construction; critical analysis of representative test criteria for evaluating and selecting tests, values and limitations of tests, laboratory experience with tests.

425. Abnormal Psychology
Fall, Winter, Spring. Summer. 4(4-0) 225.
Nature of abnormal behavior and its social significance: description of symptoms and dynamics of psychological disorders; the neuroses and psychosomatic reactions, sociopathic behavior and character disorders, functional and somatogenic psychoses; some consideration of therapies and theories of prevention.

426. Survey of Clinical Psychology
Fall, Winter, Spring, Summer. 3(3-0) 225.
Clinical psychology: types of problems; diagnostic instruments, methods and techniques; individual and group therapeutic theories, methods and techniques; professional roles for clinical psychologist.

427. Personality: Dynamic Theories
Fall, Winter, Spring. 3(3-0) 425.
Survey of personality theories of development, structure, and dynamics related to learning, determinants, cultural influences, behavioral disorders and assessment methods.

428. Psychology of Physical Disability
Spring. 3(3-0) 425.
Psychological problems, principles and practices in physical disabilities and handicaps; psychological assessment and diagnosis; counseling and placement; re-education and retraining; attitudes, motivations, and emotions; psychological rehabilitation and adjustment.
430. Experimental Psychology: Personality
Fall, Winter, Spring. 3(3-0) 215; 310 or 312.
Critical survey of experimental investigations of personality dynamics and the effects of individual differences on social interaction; consideration of stress and anxiety, response set, cognitive styles, risk taking and subjective probabilities, and aggression. Emphasizes experimental techniques most relevant for those with clinical and social psychological interests.

431. Experimental Psychology: Personality
Fall, Winter, Spring. 2(0-4) 215; 311 or 313; 430 concurrently.
A laboratory course coordinated with PSY 430, with laboratory demonstration and experiments, conducted by the students, designed to clarify issues in the experimental study of personality, and to provide experience with a variety of investigatory techniques.

436. Psychology of Communication and Persuasion
Fall, Spring. 3(3-0) 335 or SOC 351.
Psychological processes underlying communication and persuasion; learning and using communication in interpersonal relations; effects of communication themes, techniques, symbols, and formats on thought, attitude, and personality of audiences.

437. Psychology of Political Behavior
Winter. 3(3-0) 335 or SOC 351 or 6 credits in sociology or political science.
Psychological theories, principles, methods and techniques applied to political behavior; belief systems; personality influences; decision making; psychological patterns in legislative voting; political leadership; fate, personal and international relations and tensions.

438. Research Methods in Social Psychology
Fall, Winter, Spring. 4(2-4) 215; 335 or SOC 351; 1 course in experimental psychology.
Critical examination of problems, principles, methods, techniques, materials, results and conclusions in relation to theory in social psychology, including experimentation and demonstration.

444. Selected Topics in Developmental Psychology
Fall, Spring. 4(4-0) May re-enroll for a maximum of 12 credits when different topic is taken. 160, 170, 215, 245 or approval of department.
Selected topics in developmental psychology: e.g., perceptual-cognitive development, language development, moral development, attention and learning, socialization, play, peer relations.

445. Psychology of Exceptional Children
Fall, Summer. 3(3-0) Nine credits in psychology and/or education is required to complete the course.
Psychological problems of children having superior or inferior intellectual ability; examination of research studies. Identifying such persons, assessing their potentials and limitations, planning their education and social adjustment.

466. Developmental Psychology: Research Methods
Fall, Spring. 4(2-4) 311 or 312; 444.
Methods of research in developmental psychology including methods used with both human and infrahuman organisms.

481. Perception
Fall. 4(3-0) Majors or approval of department.
Consideration in depth of selected topics in perception. Integration of theoretical and empirical material.

482. Advanced Experimental Psychology: Comparative
Spring. 4(2-4) One course in experimental psychology and 315. Critical examination of theories and data relating particularly to behaviors of non-human, Experimental evaluation on selected topics in the area.

483. Seminar in Industrial Relations
Fall. 4(4-0) See Interdisciplinary Courses.

499. Human Learning and Performance
Fall, Winter, Spring. 3(3-0) Fall, Spring. 3(3-0) Winter. 3(3-0) Approval of department.
Basic research concepts and experimental methods in psychology. Practical training in conducting experimental research of musical behavior.

500. Conditioning and Learning
Fall. 4(4-0) Detailed stimulus-response analysis of the basic operations of conditioning and learning, including such variables as reinforcement, motivation, and inhibitory effects, with an emphasis on infrahuman data.

501. Perception
Fall. 4(3-0) Majors or approval of department.
Consideration of depth of selected topics in perception. Integration of theoretical and empirical material.

506. Advanced Comparative Psychology
Fall. 4(3-0) Majors or approval of department.
Behavior of infrahuman organisms with emphasis on general behavior processes as seen in a variety of animal forms. The comparative method as applied to innate behavior and behavior modification.

508. Cognitive Processes
Fall, Spring. 4(3-0) A course in experimental psychology.
Critical survey of theories and research on such topics as problem solving, creative thinking, reasoning, judgment, decision making, formation and use of concepts and principles.

510. Human Learning and Performance
Spring. 4(3-0) Majors or approval of department.
Experimental findings and theoretical analyses of the acquisition, retention, transfer and execution of verbal and non-verbal skills. Selected demonstrations of major phenomena.

511. Advanced Physiological Psychology
Spring. 4(3-0) Majors or approval of department.
Psychology as a biological science. Consideration of physiological events underlying organism-environment interaction.

514. Psychology of Language
Spring. 4(3-0)
Critical survey of research on language acquisition, utilization, and modification; psycholinguistic considerations in the study of learning, perception, motivation, and cognitive processes.

515. Advanced Psychometrics
Fall, Winter. 4(4-0) 315.
Theory and practice in analysis and interpretation of psychological data.

516. Advanced Psychometrics
Winter, Spring. 4(4-0) 815.
Continuation of 815.

517. Advanced Psychometrics
Spring. 4(4-0) 816.
Multivariate methods of test analysis: multiple and partial correlation, factor and pattern analysis.

518. Test Construction
Winter. 4(4-0) 816.
Theory, methods, and techniques in the preparation and development of psychological test items and tests.

520. Mathematical Models in Psychology I
Fall. 4(4-0) 815 and MTH 297.
Discussion of the relationship between mathematics and psychological theory. Examination of the concepts of structure and change in qualitative psychological systems. Application of algebraic techniques to psychological theory.

521. Mathematical Models in Psychology II
Winter. 4(4-0) 816, 820; approval of department.
Representative mathematical models in psychology, attending particularly to stochastic models and the relationship between models and data. Advantages of various models for different psychological problems.
822. Computer Models in Psychology
Spring. 4(3-2) An undergraduate mathematics course and approval of department. Use of an electronic computer as a tool in theory construction. Simulation of complex psychological processes. Computer-based models in several psychological content areas.

826. Advanced Personality Research
Fall, Winter. 4(4-0) May re-enroll for a maximum of 8 credits if different topics are taken. Majors or approval of department. Review of current research in selected areas. A minimum of four topics will be covered each term.

827. Personality Theory I
Fall. 4(3-0) Majors or approval of department. Freudian and neo-Freudian conceptualizations of personality and psychopathology. Examination of basic constructs; theory of psychosexual development; psychotherapeutic implications.

828. Clinical Assessment I
Fall. 2(0-4) Majors or approval of department. Assessment of psychodynamics and psychopathology. Individual case studies based on interviews and psychological tests. Behavioral correlates of psychodynamic problems.

829. Personality Theory II
Winter. 4(3-0) Majors or approval of department. Developmental and social-learning approaches to personality and psychopathology; social learning and psychodynamics; socialization, maturation, theories, applications of classical and operant conditioning. Psychotherapeutic implications.

830. Clinical Assessment II
Winter. 2(0-4) 828 or approval of department. Clinical assessment of children. Individual case studies making systematic use of behavior observations, interviews, and standardized tests. Integration of data and principles of development of new assessment procedures.

831. Personality Theory III
Spring. 4(3-0) Majors or approval of department. Interpersonal and phenomenological approaches to personality theory. Survey of major conceptualizations relating to the presentation of self in individual and group settings. Psychotherapeutic implications.

832. Clinical Assessment III
Spring. 2(0-4) 830 or approval of department. Self-appraisal and investigation of interpersonal transactions in two-person and larger groups. Standardized techniques, individual case studies, and principles of development of new methods.

835. Experimental Psychology: Social
Fall. 4(2-4) One course in experimental psychology and 315. Intensive experience in designing, executing, reporting and evaluating research in social psychology, including an individual research project.

837. Psychological Aspects of Politics
Fall, Winter, Spring. 4(3-0) Interdepartmental with and administered by the Political Science Department. Relevance of psychological concepts, theories and methods for the study of political institutions, organizations and behavior.

840. Advanced Social Psychology: Cognitive Approaches
Winter. 4(3-0) 815; 20 credits in the social sciences. Contemporary theory and research in social psychology dealing with organization and cognition, values, attitudes and behavior, attitude change and balance theories.

841. Advanced Social Psychology: Group Processes
Spring. 4(4-0) 815; 20 credits in social sciences. Contemporary theory and research dealing with the individual in a group context.

845. Infancy and Early Childhood
Spring. 4(3-1) Majors or approval of department. Human infancy: conception to three years. Developmental study of: prenatal life, personality, learning, perceptual, sensory stimulation and deprivation, neurophysiology, psychophysiology, language and cognition.

854. Advanced Child Psychology
Fall, Spring. 4(3-0) Psychological theories and research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the child.

855. Engineering Psychology: Individual Man-Machine Behavior
Winter. 4(2-0) Behavior of individuals operating equipment; effects of control and display design, cockpit layout, legibility, physical dimensions; principles for reducing errors; applications to aerospace, military, highway, industrial, and other problems.

859. Personnel Development
Spring. 4(3-3) Fifteen graduate credits. Psychological principles and methods in the training and development of personnel at all levels of supervision and leadership.

860. Advanced Industrial Psychology
Fall. 4(3-0) A course in statistics and 20 credits in the social sciences. Industrial psychology, including such sub-areas as personnel psychology, human factors, and industrial social psychology.

862. Organisational Psychology
Winter. 4(2-0) Fifteen graduate credits. Survey of current theories of individual behavior in organizations. Examples from research in industry, government, and other complex organizations.

866. Personnel Selection and Evaluation
Fall. 4(2-6) Fifteen graduate credits. Critical treatment of research methods and instruments in personnel selection and evaluation as applied to governmental, business and industrial situations.

867. Field Training in Industrial Psychology
Fall, Winter, Spring. Variable credit. Provides field experience in selected companies to familiarize students with problems and to give training in consulting and research.

868. Psychological Theory and Research in Advertising
Winter. 4(2-0) Ten graduate credits. Survey and integration of psychological theory and research in advertising in such areas as: motivation, perception, psychophysics.

870. Introduction to Research Methods in Ecological Psychology
Spring. 4(4-0) 815, 816, 817 or approval of department. What and why of experimental ecological psychology: planning, action, evaluation, dissemination of information. Researchable problems, funding, dynamics of research teams, identifying ecological variables. Class work and community research.

871. Advanced Research Methods in Ecological Psychology
Fall. 4(4-0) 870. Applications of ecological psychology: measurement; hypotheses and research plans; initiating, maintaining, terminating naturalistic psychological research; evaluating and publishing results. Review of selected experiments. Class work plus research in community.

872. Experimental Production of Social Change
Winter. 4(4-0) 870, 871. Use of psychological research to produce social change. Creation of acceptance of social change. Examination of effectiveness of experimental intervention into social systems. Class work plus community research.

890. Special Problems
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

899. Research
Fall, Winter, Summer. Variable credit. Approval of department.

901. Psychological Research Methods
Fall. 3(3-0) One graduate course in experimental psychology and 816. Nature, design and critique of research; theory and interpretation of results; analysis of published research and student results.

902. Special Research Techniques
Fall, Winter, Spring. 1 to 4 credits. May re-enroll for a maximum of 12 credits. Graduate students and approval of department.

902A. Laboratory in Advanced Physiological Psychology I
Fall. 3(3-4) Graduate students and approval of department. Physiological mechanisms underlying behavior. Development of skills in the methods, techniques, and instrumentation necessary for research in a variety of areas concerned with physiology and behavior with special emphasis on ablative procedures.

902B. Laboratory in Advanced Physiological Psychology II
Winter. 3(2-4) 902A. Detailed examination of the physiological mechanisms underlying behavior. Development of skills in the methods, techniques, and instrumentation necessary for research in a variety of areas concerned with physiology and behavior with special emphasis on electrical stimulation and recording.

905. History and Systems
Winter. 4(3-0) Thirty graduate credits in psychology. Major scientific, cultural, philosophical, and personal influences in the development of psychology. Analysis of persisting issues.
914. Seminar in Advanced General Psychology Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 24 credits. Thirty graduate credits in psychology or approval of department. Critical study of a selected area such as sensation, perception, motivation, emotions, learning, physiological, comparative, thought and language.

924. Seminar in Measurement Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology. Critical study of a selected area such as factor analysis, pattern analysis, partial and multiple correlation analysis, psychophysical methods, scaling, reliability and validity, and factorial designs.

926. Personality Measurement I: Free Response Techniques Fall. 4(3-1) Thirty graduate credits in psychology, including 815 and 836. Development, validation, and other characteristics of selected free response measures; use in current personality research.

927. Personality Measurement II: Structured Measures and Measures of Over Behavior Spring. 4(3-1) Thirty graduate credits in psychology, including 815 and 836. Structured questionnaires and behavioral measures as tools in personality research. Development and characteristics of existing and new instruments.

928. Practicum: Psychological Clinic I Fall. 3(2-2) Approval of department. Introduction to clinical evaluation and treatment. Supervised experience in psychodiagnosis and psychotherapy of adults and children in the Psychological Clinic. Primary focus on work with families. Didactic seminar in related theory and research.

930. Practicum: Psychological Clinic II Winter. 3(2-2) 928. Continuation of 928.

932. Practicum: Psychological Clinic III Spring. 3(0-6) 930. Continuation of 930.

934. Seminar in Personality Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology. Clinical study of a selected area such as theory, assessment, dynamics, structure, the self and determinants.

935. Contemporary Theory and Research in Social Psychology Fall. 3(2-0) Thirty graduate credits in psychology. An intensive analysis of contemporary social psychological research monographs illustrating theoretical and methodological positions.

936. Attitudes and Personality Winter. 3(2-0) Thirty graduate credits. Review and analysis of research on sentiments, beliefs and opinions, authoritarianism, pseudo-authoritarianism, and democratic personality; functions, resistance to change and relation to value systems and ideology.

937. Individual Behavior and Complex Groups Spring. 3(2-0) Thirty graduate credits. Problems of research design and experimental method in the study of the relationship of the individual to the complex organization.

944. Seminar in Social Psychology Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 16 credits. Thirty graduate credits or approval of department. Critical study of a selected area such as roles, communication and persuasion, individual interaction within small and large groups, behavior in relation to norms and interpersonal distances.

954. Seminar in Developmental Psychology Fall, Winter, Spring. 1 to 4 credits. May re-enroll for a maximum of 16 credits in different areas. Thirty graduate credits, 3 of which must be in child psychology. Critical study of a selected area such as theory, techniques and methods of observation, parental attitudes and practices, intellectual, personal and social development, motivation, emotional, perceptual, and intellectual issues.

956. Engineering Psychology: Systems Approach Spring. 4(2-0) Human factors in "system" operation; sub-systems, analysis methods, criteria, information processing, communication, trade-offs; applications to aeronautics, military, highway, industrial, and other problems.

969. Seminar in Industrial Psychology Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 16 credits. Thirty graduate credits including 15 in psychology. Critical study of a selected area such as interpersonal relations in industry, personnel selection, evaluation and classification, training, leadership, supervision, motivation of workers, safety engineering psychology and contemporary literature.

970. Seminar in Ecological Psychology Fall, Winter, Spring. 4(4-0) May re-enroll for a maximum of 12 credits. Approval of department. Critical study of a contemporary ecological psychology issue such as the psychological aspects of over-crowding, the inter-personal and inter-personal conflicts created by environmental degradation, and similar current topics.

975. Advanced Practicum: Psychological Clinic Fall, Winter, Spring. Variable credit. Clinical experience in assuming responsibility for total case integration and interpretation of findings to parents and agencies.

977. Psychopathology: Psychoses and Developmental Disorders Winter. 3(3-0) 976. Behavioral and development disorders such as psychopath, delinquency, mental deficiencies; selected functional and organic psychotic syndromes; psychosis as distinguished from psychoneurosis; continuity versus discontinuity of normal to abnormal behavior. Research considerations.

979. Counseling and Psychotherapy Fall. 3(2-2) Approval of department. Psychotherapy with late adolescents and adults. Various points of view with emphasis on interpersonal relationship and client-centered approaches. Techniques for introducing therapeutic movement. Study of tape recordings and research findings.

980. Practicum: Individual Counseling and Psychotherapy Winter. 3(2-2) 979 and approval of department. Detailed study of psychotherapeutic interviews aimed at developing skill as a psychotherapist. Therapeutic and assessment techniques, interview dynamics and psychotherapeutic movement studied by means of verbatim transcriptions, tape recordings, films, role playing, and observation.

981. Practicum: Counseling and Psychotherapy Spring. 3(0-6) 980 and approval of department. Counseling with a variety of clients at the University Counseling Center. Group and individual discussions of problems, processes, counselor-client interaction, and professional ethics.

983. Child Psychotherapy Fall. 2 to 4 credits. 981. Dynamic process underlying therapy with children; methods and techniques; the child's symbolic communications through language, art, and play materials; assessing progress of therapy; review of research. Practicum cases.

984. Group Psychotherapy Spring. 3(2-2) 981. Research-oriented treatment of the theories, principles, and techniques in group psychotherapy. Role of the leader, problems of member selection and evaluation of progress. Limited, supervised experience as a group participant.

985. Seminar in Clinical Psychology Fall, Winter, Spring. 1 to 4 credits. May re-enroll in different areas for a maximum of 16 credits. Forty-five graduate credits in psychology. Critical study of a selected area such as theories, diagnosis, projective techniques, psychotherapies, hypnosis, psychopathologies.

999. Research Fall, Winter, Spring, Summer. Variable credit. Approval of department.
