406. Senior Nursing
Fall, Winter, Spring. 8(3-20) Senior majors.
A study of basic principles of leadership and their application in the practice of team nursing.

OSTEOPATHIC MEDICINE* O M
College of Osteopathic Medicine

501. Medical Biology I
Fall. 4(4-0) Integrated aspects of biology providing a foundation and vocabulary preparatory to studies in osteopathic medicine.

502. Medical Biology II
Winter. 3 to 8 credits. Admission to a college of medicine.
Continuation of 501 emphasizing pathology and pharmacology.

530. Clinical Science I
Fall. 2(1-3) Admission to a college of medicine.
Fundamental concepts and skills essential to the performance of a clinical history and physical examination.

531. Clinical Science II
Winter. 2(3-9)
Techniques, concepts and skills required for competent history taking and physical examination utilizing lectures, laboratory and films for instructional purposes.

532. Clinical Science III
Spring. 1(0-3) Admission to a college of medicine.
A clinical study program providing an opportunity to learn the skills of history taking and physical examination by actual performance of the involved techniques on patients under physician supervision.

533. Clinical Science IV
Summer. 1(0-3) Admission to a college of medicine.
Continuation of 532.

534. Clinical Science V
Fall. 1(0-3) Admission to a college of medicine.
A clinic-based program providing additional emphasis on history taking and physical examination, as well as developing fundamental abilities in diagnosis and problem solving in the clinical setting.

535. Clinical Science VI
Winter. 1(0-3) Admission to a college of medicine.
A continuation of 534.

536. Clinical Science VII
Spring. 1(0-3) Admission to a college of medicine.
Continuation of 535.

537. Clinical Science VIII
Summer. 1(0-3) Admission to a college of medicine.
Continuation of 536.

550. Systems Biology I
Spring. 5 to 15 credits. 502.
A multidisciplinary approach to the hematopoietic and nervous systems providing a functional integration of basic science and clinical information.

551. Systems Biology II
Summer. 5 to 15 credits
Continuation of 550 with emphasis on a multidisciplinary approach to the nervous system.

552. Systems Biology III
Fall. 5 to 15 credits.
Continuation of 551 with emphasis on multidisciplinary approach to the cardiovascular system.

553. Systems Biology IV
Winter. 5 to 15 credits.
Continuation of 552 with emphasis on multidisciplinary approach to the respiratory, renal and urinary systems.

554. Systems Biology V
Spring. 5 to 15 credits.
Continuation of 553 with emphasis on multidisciplinary approach to the gastrointestinal system.

555. Systems Biology VI
Summer. 5 to 15 credits.
Continuation of 554 with emphasis on multidisciplinary approach to the study of pediatrics, obstetrics and gynecology.

600. Clinical Science Practicum
Fall, Winter, Spring, Summer. 15 credits. May re-enroll for a maximum of 60 credits.
A clinical course covering the major areas of medical practice including involvement in Family Practice and Community Health Services.

620. Directed Studies
Fall, Winter, Spring, Summer. 1 to 6 credits. May re-enroll for a maximum of 24 credits. Approval of department.
Individual or group work on special problems in medicine.

OBSTETRICS, GYNECOLOGY AND REPRODUCTIVE BIOLOGY* OGR
College of Human Medicine

608. Obstetrics/Gynecology Clerkship
Fall, Winter, Spring. Summer. 1 to 17 credits. May re-enroll for a maximum of 49 credits. H M 608.
Experience with gynecologic and obstetrical patients, in in-patient and out-patient settings, under the direction of community practitioners and members of the MSU faculty.

PACKAGING PKG
College of Agriculture and Natural Resources

210. Principles of Packaging
Fall, Winter, Spring. 3(3-0)
A general course in packaging principles covering the growth and development of the field, and the technological and motivational problems involved in present day packaging. Consideration will be given to the basic functions of the package and their relation to the needs and wants of our society.

*Established July 1, 1971.

320. Packaging Materials
Fall, Spring. 3(0-0)
Common packaging materials including wood, paper, paperboard, plastics, metal foils and sheets, glass, adhesives and cushioning media; their basic properties in relation to performance of package.

321. Packaging Materials Laboratory
Fall, Spring. 2(0-6) 320 or concurrently.
Problems and techniques of measuring the properties of packaging materials and the use of those measurements.

330. Graphics for the Packaging Industry
Winter. 4(3-0) 320 or approval of school.
Designing graphics for specific types of printing processes and for various packaging materials. Considerations in ink formulation, identification of the various printing processes used, and the advantages and disadvantages of various reproduction methods as used for packaging.

340. Packaging and the Environment
Winter. 4(4-0)
Broad study of the effects of packaging on environmental quality, including solid waste, air and water quality, laws, economics, energy considerations and resources conservation.

422. Packaging Systems
Fall, Winter. 4(3-3) 320 or approval of school.
Design, use and evaluation of packaging and packaging systems. A one-day field trip is required.

423. Dynamics of Packaging
Spring. 4(3-3) 422, MTH 113, or approval of school.
A study of the protective function of the packaging systems in relation to their environment and shock and vibration isolation methods. A one-day field trip is required.

424. Packaging Problems
Fall, Winter, Spring. Summer. 1 to 3 credits. May re-enroll for a maximum of 9 credits. 422, 3.5 grade-point average and approval of school.
Development of solutions to specific packaging problems.

425. Packaging Process Analysis
Winter, Spring. 4(3-3) CPS 110.
The integrated study of the operation structure and control of the packaging and package-making process. A one-day field trip is required.

429. Packaging Development
Fall, Spring. 4(3-2) 422 or approval of school.
A study of the functions of each area concerned with the development of packages to meet present-day requirements of protection and merchandising.

430. Packaging Machinery
Spring. 4(3-3) 422 or approval of school.
The components for automated packaging lines, and auxiliary materials handling equipment, including consideration of design, selection, specification and operation of machinery for the packaging-making and package-filling operations.

463. Seminar
Fall. 2(0-4) Must have job experience to enroll.
Detailed report on work performed in practical experience or outside packaging projects.
