843. Traffic Engineering
Characteristics
Winter. 3(3-0) 346, STT 421.
Safety analyses, flow and capacity characteristics, statistical properties of traffic, queuing characteristics at intersections, delay characteristics and analyses.

844. Traffic Engineering Theory and Control
Spring. 3(3-0) 843.
Application of the theory of traffic flow to the design and control of traffic systems. Dispatching, scheduling and network analysis. Application to highways, airport operation and urban transportation models.

846. Highway Planning
Fall. 3(3-0) 346 or approval of department.
Highway inventory, road use studies and programming, analysis of highway costs, economic considerations in location and design.

847. Geometric Design of Highways
Winter. 3(3-0) 346 or approval of department.
Design of streets and highways including intersections, parking facilities, capacity, channelization and roadway appurtenances.

848. Transportation Models
Spring. 3(3-0) 448.
Analysis of transportation modeling processes, including error propagation and parameter sensitivity analysis. Comparative attributes of zonal size and model sequence decisions on the evaluation of system alternatives.

880. Special Problems in Civil Engineering
Fall, Winter, Spring, Summer. Variable credit. Approval of department.
Research problems of limited scope not pertaining to thesis accomplished under 899 or 999.

899. Research
(EGR 899.) Fall, Winter, Spring, Summer. Variable credit. Approval of department.

904. Advanced Structural Theory II
Spring. 4(4-0) 804 or approval of department.
Energy (variational) approach to formulation and solution of problems in structural mechanics: stress, displacements and stability of continuum and structural elements. Approximation methods including Rayleigh-Ritz and finite element.

905. Advanced Theory and Design of Reinforced Concrete II
Spring. 3(3-0) 805.
Continuation of 905 with application of theory to analysis and design of tanks, rigid frames, and shells.

906. Advanced Structural Steel Design
Spring. 3(3-0) 406.
Analysis and design of multiple-story building frames, continuous trusses and rigid-frame girders in structural steel. Plastic design.

908. Numerical Methods in Structural Engineering
Winter. 3(3-2) 360.
Analysis of mathematical equations by means of successive numerical approximations and the application of these numerical methods to structural problems.

909. Elastic Thin Shells
Spring. 4(4-0) 804 or MAM 815 or approval of department; MTH 421. Interdepartmental with the Metallurgy, Mechanics and Materials Science Department.
Elements of differential geometry, membrane theory of shells, Pochet's stress function, deformation and bending of shells of revolution and shallow shells.

910. Theory of Plates
Winter. 4(4-0) 804 or MAM 815 or approval of department; MTH 421. Interdepartmental with and administered by the Metallurgy, Mechanics and Materials Science Department.
Bending of thin elastic plates with various shapes and boundary conditions; application of energy principles and approximate methods of solution; thick plates; large deflection theory; sandwich plates.

915. Earth Structures
Spring. 3(3-0) 817 or approval of department.
Embankments, earth dams, natural and cut slopes, stability of circular and composite slip surfaces; performance of embankments on soft foundations; seepage through earth dams; instrumentation for field performance evaluation.

916. Soil Dynamics
Winter. 3(3-0) 817 or approval of department.
Characteristics of ground motions during earthquakes; dynamic soil properties; liquefaction and settlement under transient and repeated loadings; foundation design for vibratory loads; wave propagation in soil media.

999. Research
(EGR 999.) Fall, Winter, Spring, Summer. Variable credit. Approval of department.

Sanitary Engineering
SE

803. Treatment of Industrial Wastes
Spring. 3(3-0) C E 483.
Physical, chemical and biological treatment methods for industrial wastes.

805. Water Treatment Principles
Winter. 3(3-0) C E 483.
Chemical and physical principles of water treatment.

806. Sewage Collection and Treatment
Spring. 3(3-0) C E 483.
Chemical, physical and biological principles of sewage collection and treatment.

899. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

905. Biological Principles of Sanitary Engineering I
Fall. 3(2-3) C E 483.
Fundamental physical, chemical, and biological principles relating to the field of sanitary engineering.

906. Biological Principles of Sanitary Engineering II
Winter. 3(2-3) 905.
Fundamental physical, chemical, and biological principles relating to the field of sanitary engineering.

999. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

CLASSICAL STUDIES
See Romance Languages

COMMUNICATION

College of Communication Arts

100. Human Communication I
Fall, Winter, Spring. 3(3-0)
Process and functions of communication. Principles underlying communication behavior. Practice in analyzing communication situations and in speaking and writing.

101. Human Communication II
Fall, Winter, Spring. 3(3-0)
Continuation of 100, with greater emphasis on speaking and writing, and on analyzing increasingly complex communication situations.

199. Methods of Inquiry
Fall, Winter, Spring. 3(3-0)
Majors and minors only. 101.
Major theoretical orientations toward communication. Primary tools of scholarly inquiry.

205. Persuasion
Fall, Winter, Spring. 4(4-0)
Process of influencing human behavior through persuasive communication. Experience in creating persuasive messages and in evaluating the acceptability of persuasive attempts.

210. Leadership
Fall, Winter. 4(4-0) 100.
Principles and practice in the utilization of communication for effective leadership.

299. Individual Projects
Fall, Winter, Spring. Variable credit. May re-enroll for a maximum of 15 credits. 199, approval of project proposal by department.
Independent research, experience in communication laboratories, or tutorial work in communication skills.

300. The Effects of Mass Communication
Fall, Winter, Spring. 4(3-0)
Majors must enroll in 300R concurrently.

300R. Effects of Communication II
Fall, Winter, Spring. 1 credit.
Majors. 300 concurrently.
In-depth consideration of effects of communication.

315. Organisational Communication
Spring. 4(4-0) 101.
Principles and practice in the management of communication systems, with emphasis on conflict resolution, information exchange, innovativeness, and information management.
350. Signs and Sign-Behavior I
Fall, Winter, Spring, Summer. 4(4-0)
100; majors must enroll in 350R concurrently.
Theories of man's symbolic behaviors. Semiotics and general semantics.

350R. Signs and Sign-Behavior II
Fall, Winter, Spring, Summer. 1 credit.
Majors. 350 concurrently.
In-depth consideration of signs and sign behavior.

351. Message Analysis
Winter. 4(4-0) 350.
Methods of describing messages and message codes, with emphasis on the concept of information.

352. Non-Verbal Communication
Spring. 4(4-0) 350.
Continuation of 351, with emphasis on nonverbal codes: gesture, expression, time and space, light.

360. Critical Perspectives on Communication
Fall, Winter, Spring. 4(4-0) 100.
Interdependence of communication and other societal factors, emphasizing criteria for ethical and social appropriateness.

389. Seminar
Fall, Winter, Spring, Summer. 4(4-0)
Majors only. 389.
Contemporary issues in communication.

405. Research in Communication Strategies and Styles
Fall, Spring, Summer. 5(5-0) Seniors.
406.
Research literature in communication strategies and styles.

413. Seminar in Communication Education
Fall, Winter, Spring. 4(4-0)
ED 436.
Philosophies of curricular and co-curricular programs in communication education. Internship experience in these programs.

420. Message Design
Winter. 4(4-0) 101.
Principles and practice in message-media construction and selection.

499. Special Projects
Fall, Winter, Spring, Summer. Variable credit. May re-enroll for a maximum of 15 credits. Approval of project proposal by department.
Independent research, group research, student-directed group projects.

805. Communication Research
Fall. 5(5-3) Majors.
Communication research strategy and methodology. Scientific process, bases for derivation and verification of hypotheses, and basic methods of designing research in communication.

808. Communication Research
Winter. 5(5-4) 805.
Continuation of 805.

815. Organizational Communication
Winter, Spring. 4(4-0)
Structure and function of communication in organizations, with emphasis on concepts and principles needed for effective management of organizational communication processes.

820. Communication Theory and Process
Fall, Summer. 3(3-0)
Theoretical models of communication, with emphasis on the applications of communication theory to various professional communication areas.

821. Behavioral Research in Mass Communication
Fall, Spring. 4(4-0)
Current behavioral science theories and research, e.g., media institutions, decision-making, mass media exposure patterns, diffusion of news and influence, effective message strategies, political communication, and mass media in socialization.

822. Interpersonal Communication
Winter, Summer. 4(3-0)
Current theories and research in interpersonal communication with emphasis on persuasion. The role of interpersonal communication in such processes as conflict resolution and information exchange will be considered.

828. Cross-Cultural Communication
Winter, Spring, Summer. 4(4-0)
Role of communication in the economic, social and political development of less developed countries. Problems in communicating across cultural boundaries.

830. Nonverbal Communication
Fall. 4(4-0)
A review of theory and empirical research on nonverbal communication with implications for application.

850. Seminar in Research Utilization
Winter, Summer. 4(3-0) May re-enroll for a maximum of 8 credits. Approval of department.
Applications of communication research to professional practice in such areas as teaching, change agencies, information system management, etc.

510. Health Behavioral Science I
Fall. 2(1-3)
Relationship of the basic concepts of the social and behavioral sciences that influence health and medical care. Consideration is given to the impact of social and cultural factors on health behavior.

511. Health Behavioral Science II
Winter. 2(1-3) 510 or approval of department.
Continuation of 510. The mental health issues of today in relation to the dynamics of change and resistance. Concepts of personality development, equilibrium, reactions to stress, reaction to authority, and dependency communication and patient education; the art of communication and interpreting; physician-patient relationships; integration of patient education with medical care services.

512. Health Behavioral Science III
Spring. 2(1-3) 511 or approval of department.
The diagnosis and treatment of various forms of deviant behavior, i.e., alcoholism, neuroses, character disorders, sexual deviations, schizophrenia, affective psychoses, organic and psychosomatic conditions, and mental subnormality. Preceptorship in community mental health.

513. Health Behavioral Science IV
Summer. 2(1-3) 512 or approval of department.
Community-based health surveys. Continuation of preceptorship in community mental health.

514. Health, Medical Care, and Society I
Fall. 2(1-3) 513 or approval of department.
A historical review of medical care programs in the United States. Introduction to health care organization and delivery; health care facilities and financing of medical care; comparative health care systems. Manpower development and utilization, problems of health care; elements of community health planning. Practice on health care agencies and programs.

COMMUNITY MEDICINE* C M
College of Osteopathic Medicine

510. Health Behavioral Science I
Fall. 2(1-3)
Relationship of the basic concepts of the social and behavioral sciences that influence health and medical care. Consideration is given to the impact of social and cultural factors on health behavior.

511. Health Behavioral Science II
Winter. 2(1-3) 510 or approval of department.
Continuation of 510. The mental health issues of today in relation to the dynamics of change and resistance. Concepts of personality development, equilibrium, reactions to stress, reaction to authority, and dependency communication and patient education; the art of communication and interpreting; physician-patient relationships; integration of patient education with medical care services.

512. Health Behavioral Science III
Spring. 2(1-3) 511 or approval of department.
The diagnosis and treatment of various forms of deviant behavior, i.e., alcoholism, neuroses, character disorders, sexual deviations, schizophrenia, affective psychoses, organic and psychosomatic conditions, and mental subnormality. Preceptorship in community mental health.

513. Health Behavioral Science IV
Summer. 2(1-3) 512 or approval of department.
Community-based health surveys. Continuation of preceptorship in community mental health.

514. Health, Medical Care, and Society I
Fall. 2(1-3) 513 or approval of department.
A historical review of medical care programs in the United States. Introduction to health care organization and delivery; health care facilities and financing of medical care; comparative health care systems. Manpower development and utilization, problems of health care; elements of community health planning. Practice on health care agencies and programs.
