532. Human Biology and Behavior  
Fall. 1 to 8 credits. 531 or approval of department.
Continuation of 531.

533. Human Biology and Behavior  
Winter. 1 to 8 credits. 532 or approval of department.
Continuation of 532.

534. Human Biology and Behavior  
Spring. 1 to 8 credits. 533 or approval of department.
Continuation of 533.

590. Special Problems in Human Medicine  
Fall, Winter, Spring, Summer. 1 to 6 credits. May re-enroll for a maximum of 12 credits. Humane Medicine students.
Each student will work under direction of a faculty member of the college on an experimental, theoretical or applied problem. A student should employ this college level course, as distinguished from the departmental level special problems course, when his topic of interest seems to require a broad multidisciplinary approach.

602. Fundamentals of Patient Care  
Fall, Winter, Spring. 15 credits. Approval of department.
Introductory clinical experiences using selected patients with a broad spectrum of medical, surgical, pediatric, and psychiatric problems. History taking, physical examination and problem formulation are taught as a basis for rational and effective patient care.

603. Human Biology and Behavior  
Spring. Variable credit. May re-enroll for a maximum of 15 credits. 602.
Continuation of 602.

608. Sub-Specialty Clerkships  
Fall, Winter, Spring, Summer. 1 to 17 credits. May re-enroll for a maximum of 41 credits. 602.
Hospital and office based clinical experiences in sub-specialties in medicine and surgery.

609. Radiology Clerkship  
Fall, Winter, Spring. 1 to 17 credits. May re-enroll for a maximum of 34 credits. 602.
Office and hospital based experience to acquaint the student with basic radiological information and develop X-ray interpretation skills.

610. Family Practice Clerkship  
Fall, Winter, Spring. 1 to 17 credits. May re-enroll for a maximum of 43 credits. 602.
A clerkship in a model family practice unit with graded responsibility and supervision in the care of families and their medical problems with emphasis on primary, continuing and comprehensive care.

611. Anesthesiology Clerkship  
Fall, Winter, Spring. 1 to 17 credits. May re-enroll for a maximum of 34 credits. 602.
Introducing common anesthetic agents and techniques, the Anesthesiology Clerkship stresses pre-operative evaluation of physical and psychological status of patients and provides opportunity for performance of anesthetic procedures under supervision.

IMPROVEMENT SERVICES  

All University

194. Quantitative Techniques  
Fall, Winter, Spring. 2(2-0) Proficiency test referral or approval of department.
Number system; rounding and estimating; fractions; decimals; percent; equations; formulas; direct and inverse proportion, including graphs; problem solving or applications; multiplication and division by powers of ten and their multiples; scientific notation; metric system conversions; bases other than ten.

INTERDISCIPLINARY COURSES  

All University

100. Career Planning and Academic Programming  
Spring. 1(1-0) Administered by University College.
Philosophical and practical aspects of making career choices and designing academic programs to meet career objectives. Tools and techniques for self-evaluation and evaluation of career alternatives; employability, trends in occupations.

200. Resource Ecology and Man  
Fall, Winter, Spring. 3(3-0) Interdisciplinary with the following departments: Anthropology, Botany and Plant Pathology, Fisheries and Wildlife, Forestry, Geography, Park and Recreation Resources, Resource Development, and Zoology. Administered by the Fisheries and Wildlife Department.
Mechanisms by which the environment regulates man and his resources. Ecology as the unifying basis for resource management. Resource conservation policy and environmental health.

201. Introduction to Environmental Systems  
STS 150. Fall, Winter, Spring. 3(3-0) Interdisciplinary with Systems Science and Engineering. Administered by Systems Science.
Basic systems concepts presented in a non-mathematical manner. Application to selected ecological topics, e.g., energy, water quality, food production, population dynamics. Interactive models provide opportunity for students to plan decision-making role.

203. Introduction to Study of the Moon  
Spring. 3(3-0) Interdisciplinary with the departments of Astronomy, Geography, and Geology and administered by the Geology Department.
Lunar science presented from the viewpoints of astronomy, geography and geology with particular emphasis on the increasing importance of the moon in man's present and future. Evening lunar observations required.

220. The Politics of Ecology  
Spring. 3(3-0) Interdisciplinary with the departments of Political Science and Social Science and administered by the Department of Social Science.
Political considerations fundamental to environmental issues. Theory, practice, and prescriptions for action are included. Economic, legal, and ethical factors influencing public policy decisions will be emphasized.

221. The Role of Helping Professions and Organizations in Community Services  
Fall, Winter, Spring. 4(3-0) Interdisciplinary with Justin Merrill College and the Department of Family Ecology. Administered by the Department of Family Ecology.
Analysis of human and community needs; review and examination of existing and emerging resources to meet those needs; role of professionals and volunteers in providing community and human services.

255. Continuing Revolution in China: Problems and Approaches  
Fall, Winter, Spring. 3(3-0) Not open to Freshmen. Interdisciplinary with the departments of Anthropology, Geography, and History and administered by the Department of History.
The continuing revolution in China viewed first historically, then as it has affected various sectors of Chinese society, and finally as it has affected China's relations with other nations.

256. Energy Consumption and Environmental Quality  
LBC 258. Spring. 3(3-0) Interdisciplinary with Lyman Briggs College and the Physics Department. Administered by Lyman Briggs College.
The role of energy as a fundamental pollutant will be discussed along with the availability of fossil energy sources. Limitations on the safe utilization of both fossil and nuclear energy will also be considered.

341. Contemporary Problems of South Asia  
Spring. 4(3-0) Not open to Freshmen. Administered by the Geography Department.
Current problems in India, Pakistan and adjoining areas, studied through regional case studies of population growth, agricultural and industrial development, urbanization, and internal and international political and economic relationships.

344. Modernization: India and Japan  
Winter, Spring. 4(3-0) Not open to Freshmen. Administered by the Department of Social Science.
Social, economic, and political development of non-western cultures in the movement from the traditional, non-industrial to the modernizing, industrializing stage.

345. Modernization: The Middle East  
Winter, Spring. 4(3-0) Not open to Freshmen. Administered by the Department of Social Science.
Social, economic, and political development of non-western cultures in the movement from the traditional, non-industrial to the modernizing, industrializing stage.
