LABORATORY ANIMAL RESOURCES

College of Veterinary Medicine

501. Introduction to Veterinary Medicine I
   Summer. 2(2-0) Admission to professional veterinary program. Interdepartmental with and administered by the Small Animal Surgery and Medicine Department. Speciation and breed identification, predisposition for specific diseases, basic care and feeding, restraint and handling of small domestic animals, unusual pet, and laboratory animals.

524. Laboratory Animal Medicine
   Fall, Spring. 3(2-3) Completion of ninth-term professional Veterinary Medicine program. Basic physiologic data, housing requirements, genetics, breeding systems, diseases, humane practices, and nutrition of major laboratory animal species; administration of animal quarters, techniques of handling and treatment.

525. Comparative Medical Experimentation
   Winter. 2(1-3) Graduate status, B.S. in biological sciences and approval of department. Critical analysis of animal experimentation reported in biological journals related to the students' interest with special emphasis on effects of environment and host variables upon validity of experimental results.

526. Laboratory Animal Pathology
   Spring. 4(3-3) Graduate status and approval of department. Interdepartmental with the Department of Pathology. Macro and microscopic studies on the diseases of laboratory animals, with special emphasis on naturally-occurring diseases which might interfere with the interpretation of experimental results.

LARGE ANIMAL SURGERY AND MEDICINE

College of Veterinary Medicine

412. Livestock Hygiene and Disease Control
   Winter. 3(3-0) Juniors; Agriculture majors. Fundamentals of health and disease in animals, relation of infectious and parasitic disease of animals to human health, disease prevention and role of veterinarian in preventive medicine.

IDC. The Impact of Animal Resource Management Upon the World's Developing Nations
   Winter. 3(4-0) For course description, see Interdisciplinary Courses.

502. Introduction to Veterinary Medicine II
   Spring. 4(3-3) Admission to the professional veterinary program. Interdepartmental with and administered by the Small Animal Surgery and Medicine Department. Anesthetic principles, agents, and techniques. Basic surgical principles, including aseptic technique, hemostasis, wound healing, suturing and suturing materials. Fundamentals of radiology.

503. Introduction to Veterinary Medicine III
   Spring. 4(3-3) Admission to professional veterinary program. Interdepartmental with the Department of Small Animal Surgery and Medicine. Physical and systemic examination of the various domestic and laboratory species. Common restraint procedures, clinical skills, diagnostics and an approach to clients are included.

505. Large Animal Clinic I
   Fall, Winter, Spring, Summer. 3(0-10) Eighth-term or ninth-term Veterinary Medicine students. Clinical instruction and experience in diagnosis, patient care, medication, surgery, disease prevention, and herd health.

521. Large Animal Surgery and Medicine I
   Fall, Spring. 6(7-3) Seventh-term Veterinary Medicine students. Occurrence, etiology, symptomatology, diagnosis, prognosis, treatment and prevention of diseases of reproductive, digestive, and respiratory systems. Demonstrations of laboratory experience in basic clinical skills including restraint, diagnosis, medication, and surgery.

522. Large Animal Surgery and Medicine II
   Winter, Summer. 6(5-3) 521. Occurrence, diagnosis and treatment of surgical diseases of large animals. Discussion of diseases of cardiovascular, hematopoietic, urinary, nervous and integumentary systems. Demonstrations and laboratory experience in large animal surgical techniques.

523. Large Animal Surgery and Medicine III
   Fall, Spring. 7(7-0) 522. Occurrence, diagnosis and treatment of surgical and reproductive diseases. Includes radiology and diseases of locomotion.

531. Meat Hygiene
   Fall, Spring. 2(2-0) Ninth-term Veterinary Medicine students. Judging fitness of meat for human consumption based on a knowledge of bacteriology, parasitology and pathology. Organization and operation of meat inspection programs. Field trip required.

505. Large Animal Clinic II
   Fall, Winter, Spring, Summer. 12(0-36) 305. Advanced clinical instruction and experience in diagnosis, patient care, medication, surgery, disease prevention, and herd health. Includes handling of clinic patients under direct supervision of staff veterinarians and ambulatory clinic.

624. Large Animal Surgery and Medicine IV
   Winter, Summer. 4(4-0) 523. Epidemiology, pathogenesis, epidemiology, pathologic changes, differential diagnosis, prevention, control and treatment of specific infectious diseases of large animals.

630. Veterinary Economics and Practice Management
   Fall. Spring. 3(3-0) Veterinary medicine students. Management and business principles of veterinary medical practice.

809. Problems in Large Animal Surgery
   Fall, Winter, Spring. Variable credit.

811. Problems in Large Animal Medicine
   Fall, Winter, Spring. Variable credit.

813. Seminar
   Fall, Winter, Spring. 1 credit.

823. Special Surgery
   Spring. 3(0-6) May re-enroll for a maximum of 6 credits. Approval of department. Surgical techniques and tissue reactions following surgery in large animals.

899. Research
