890. Seminar in the Philosophy of Science
Fall, Winter, Spring. 1 to 3 credits. Approval of department.

890. Graduate Reading Course
Fall, Winter, Spring, Summer. 1 to 10 credits. May re-enroll for credit. Approval of department.
Supervised reading course for advanced graduate students for more thorough investigation of special fields.

899. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

999. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

PHYSICAL SCIENCE

College of Natural Science

203. Foundations of Physical Sciences
Fall, Winter, Spring, Summer. 4(3-3) Primarily for elementary school teachers.
Integrated descriptive course in the elements of physical science including the interrelations among chemistry, geology, meteorology, astronomy, and physics.

400. Physical Science for Teachers
Fall, Winter, Spring, Summer. 4(3-3) May re-enroll for a maximum of 4 credits. Teacher certification with science major or minor.
For inservice teachers stressing process, inquiry, meaning and field experience. Topics will be generated from the classroom experiences of participants.

403. Mathematics for Teachers
Winter, Spring. 4(4-0) 403 or approval of department.
Continuation of 402.

410. Seminar on Recent Advances in Physical Science
Fall, Winter, Summer. 3(3-0) May re-enroll for a maximum of 6 credits if different topic is taken. Approval of department.
A series of lectures by senior faculty of topics on the history, development, the most recent advances and the possible future and limits of the Physical Sciences.

411. Seminar on Man, His Universe
Fall, Winter, Spring. 3(3-0) Approval of department.
A creative review by senior faculty from Astronomy, Biochemistry, Biophysics, Geology, Physics and Philosophy on the impact of recent space probes in developing modern concepts of the universe.

412. Seminar on Man, His Earth
Fall, Winter, Spring. 3(3-0) Approval of department.
A summary by senior faculty from Astronomy, Anthropology, Botany, Geology, Meteorology, and Zoology of new ideas, methods, and theories employed by current researchers to unravel the mysteries of the origin of the earth, its interior, the forces developing the scenic surface features, and the evolution of life in its historical setting.

800. Problems in Physical Science
Fall, Winter, Spring, Summer. 1 to 15 credits. May re-enroll for a maximum of 15 credits. Bachelor's degree in a physical science.

PHYSICS

College of Natural Science

Introductory physics courses are divided into four groups:

1. 237, 238, 239 (theory) and 257, 258, 259 (laboratory). These are for students who are taking at the same time, or who have taken, first year mathematics through college algebra and trigonometry.
   Students in 281, 282, 283 may take either 257, 258, 259 or 297, 298, 299 laboratory course sequences.
3. 281A, 282A, 283A, 287, 288, 289 (theory) for students of the physical sciences, mathematics, engineering and others taking Calculus III (MTH 214). May be taken as 287 or as 281 plus 281A, 288, or as 282 plus 282A, 289 or 283 plus 283A.
The self-paced sections are under combined management with 281, 282, 283, and 291A, 291B, 292A, 292B, 293A, 293B.
   Students in 287A, 287B, 288A, 288B, 289A, 289B may take either 297, 298, 299 or 392, 393, 394 laboratory course sequences.
   Students in 291, 292, 293, 294 (theory) for physics majors and others with a special interest in physics. Students should be taking Calculus II (MTH 213). Lecture-recitation format only.
   Students in 292, 293, 294, 291A, 291B, 292A, 293A, 293B may take either 392, 393, 394, or 297, 298, 299 laboratory course sequences.
   A student may change from one group of introductory courses to another, but may not earn credit for more than one complete sequence.
Credit may not be earned for more than one of the courses PHY 294 or 357 or 364.
PHY 201, 256, 301, 357 and 430 cannot be used to meet the requirements for a major in physics.
All 400 level physics courses (except 430) require PHY 259 or 293B or equivalent and MTH 215 as prerequisites.

201. The Science of Sound I: Rock, Bach and Oscillators
Fall, Winter, Spring. 3(3-0) or 4(4-0) Interdepartmental with the Mechanical Engineering Department.

202. The Science of Sound II
Spring, 3(3-0) or 4(4-0) 201. Interdepartmental with and administered by the Mechanical Engineering Department.

230. The Role of the Natural Sciences in Future Environments
Fall, 4(4-0) Approval of department. Interdepartmental with the departments of Entomology, Geology and Zoology and the College of Natural Science and administered by the College of Natural Science.
Physical and biological science concepts relevant to understanding of environmental issues. Options for action in areas of population size vs. environment and life support system. Illustrated by case studies.

237. Introductory Physics
Fall, Winter, 3(4-0) MTH 102 or 109 or 111 or concurrently. Mechanics and heat.

238. Introductory Physics
Winter, Spring. 3(4-0) 237. Heat, electricity and magnetism.

239. Introductory Physics
Fall, Winter, Spring. 3(4-0) 238. Wave motion, sound, light, and modern developments.

IDC. Energy Consumption and Environmental Quality
For course description, see Interdisciplinary Courses.

257. Introductory Physics Laboratory
Fall, Winter, Summer. 1(0-2) 257 or 251, or concurrently. Mechanics and heat.

258. Introductory Physics Laboratory
Winter, Spring. 1(0-2) 258 or 293 or concurrently. Heat, electricity and magnetism.

259. Introductory Physics Laboratory
Fall, Spring. 1(0-2) 259 or 263 or concurrently. Wave motion, sound, light and modern developments.

281. Basic Physics I
Fall, Winter, Spring. 3 credits—Self-paced only. MTH 112. Static equilibrium, Newton's laws, power, harmonic motion, rotational motion.
