531A. Medical Microbiology: Immunology
(531L) Winter. 2(1-2) A course in biochemistry and admission to the veterinary professional program, or approval of department. Basic principles of immunology (immunobiology and immunochemistry) and their relation to disease in animals.

826. Ecology of Animal Parasites
Summer. 3 credits. 416, approval of department. Given at W. E. Kellogg Biological Station. Interaction of parasitic animals (protozoa, helminths, and arthropods) with their natural environment, including host, biotic, and physical aspects.

827. Immunology
Spring. 3(2-3) 421L; 423, BCH 452, or ZOL 441, and CEM 383 recommended. Structure and reactivity of antigens and antibodies; synthesis of immunoglobulins. Emphasis is on current advances and research concepts.

828. Immunology Laboratory
Spring. 2(0-0-6) 427L; 827 or concurrently. Laboratory based partially on subject matter of 827. Experimental techniques used in immunological assays and immune systems.

531B. Medical Microbiology: Bacteriology and Mycology
Winter. 2(1-2) A course in biochemistry and admission to the veterinary professional program, or approval of department. Basic principles of bacteriology and mycology and their relation to disease in animals.

531C. Medical Microbiology: Virology
Spring. 2(1-2) A course in biochemistry and admission to the veterinary professional program, or approval of department. Basic principles of virology and their relation to disease in animals.

331D. Medical Microbiology: Parasitology
Spring. 3(2-4) Admission to the veterinary professional program, or approval of department. Basic principles of parasitology (protozoology, helminthology, and entomology) and their relation to disease in animals.

532. Veterinary Microbiology and Public Health
(W56T) Winter, Summer. 8(3-11)

331 or approval of department.

Biological, immunological, pathogenesis, and medical aspects of microorganisms associated with infectious diseases of animals. Epidemiology of animal diseases significant to human health.

536. Veterinary Parasitology I
Winter. 4(2-4) Veterinary Medicine students or approval of department. Distribution, biology, and control of parasitic animals of importance to veterinary medicine.

537. Veterinary Parasitology II
Fall, Spring. 4(3-6) 536 or approval of department. Continuation of 536.

618. Infectious Disease Clerkship
Fall, Winter, Spring, Summer. 1 to 17 credits. May re-enroll for a maximum of 34 credits. H M 602 and MED 608 or H D 608. Interdepartmental with and administered by the Department of Medicine. The clerkship emphasizes acquisition in depth of knowledge and skill essential to solution of clinical problems in infectious and immunological diseases. Integrated basic science input is afforded through relevant seminars.

600. Seminar
Fall, Winter, Spring, Summer. 1(1-0) May re-enroll for a maximum of 9 credits. Approval of department.

813. Molecular Virology
Fall. 4(4-0) Background in biochemistry, and approval of department. Molecular nature and biochemistry of replication of bacterial and animal viruses. Emphasis is on current advances, research concepts, and the role of viruses in molecular biology research.

121. Preview of Military Science
Fall, Winter. 1(1-0) Approval of department. Role of the ROTC officer in the Army. Assists the student in planning a curriculum to satisfy requirements for a commission.

122. Marksmanship and Hunter Safety
Fall, Spring. 1(0-2) 121 or approval of department. Small arms marksmanship and safety. Practical exercises on local firing range. Individual basic military marksmanship and the skills necessary to participate in a competitive or recreational shooting program.

223. Terrain Analysis and Land Navigation
Winter, Spring. 3(3-0) 121 and approval of department. Military maps, map construction, specifications and uses. Includes both a study of aerial photographs and an introduction to remote energy sensors employed by defense agencies as they relate to tactical operations.

324. Military Teaching
Fall, Winter. 4(4-3) Basic course, approval of department. Methods of teaching manipulative skills to groups with varying educational backgrounds. Emphasis on determination of entry behavior, progress analysis, testing and test construction, introduction to current teaching aids. Practical experience in simulated field situations is stressed during laboratory.

325. Military Management
Spring. 3(3-3) 324 or approval of department. Task analysis approach to missions. The subject of tactics is used as a teaching vehicle for the managerial approach to the preparation and execution phases of military operations. Emphasis is placed on physical and moral leadership during the laboratory sections.

426. Military Law
Winter. 4(4-0) Approval of department. Jurisdiction and responsibility of the Army commander and junior leader in the application of military justice. Implications of Army operations as related to the rules of land warfare.

427. Seminar
Spring. 1(1-0) Approval of department. Precommissioning orientation stressing current military policies, procedures, customs and trends.

499. Independent Study in Military Science
Fall, Winter, Spring, Summer. 1 to 3 credits. May re-enroll for a maximum of 6 credits. Approval of department and juniors. Individual research and study in an area related to military science as approved and directed by the Department of Military Science.

MUS

College of Arts and Letters

094. Band
Summer. Zero credit. Membership determined by audition. Attendance at all rehearsals and public concerts obligatory. See 118.
