172. America on Film
Winter. 3(3-2) Three credits in the first term of any ATL sequence numbered 121 or above; or satisfactory performance in Comprehensive English.
Aims to acquaint the student with cinematic and fictional representation of experience, and to improve his ability at reading and writing. Selected readings and theme topics.

173. America on Film
Spring. 3(3-2) Three credits in the second term of any ATL sequence numbered 121 or above; or satisfactory performance in Comprehensive English.
Aims to acquaint the student with cinematic and fictional representation of experience, and to improve his ability at reading and writing. Selected readings and theme topics.

181. Women in America
Fall. 3(3-0) Satisfactory grade on English proficiency examination or in Comprehensive English.
Aims to acquaint the student with women's experience in America, and to improve the student's ability at reading and writing. Selected readings and theme topics.

182. Women in America
Winter. 3(3-0) Three credits in the first term of any ATL sequence numbered 121 or above; or satisfactory performance in Comprehensive English.
Aims to acquaint the student with women's experience in America, and to improve the student's ability at reading and writing. Selected readings and theme topics.

183. Women in America
Spring. 3(3-0) Three credits in the second term of any ATL sequence numbered from 121 or above; or satisfactory performance in Comprehensive English.
Aims to acquaint the student with women's experience in America, and to improve the student's ability at reading and writing. Selected readings and theme topics.

191H. Honors Work in American Experience
Fall. 3(3-0) Satisfactory grade in entrance examination.
Students read and write on selected topics to improve their knowledge of the American heritage and their ability at reading and writing.

192H. Honors Work in American Experience
Winter. 3(3-0) Satisfactory grade in the first term of any ATL sequence numbered 121 or above.
Students read and write on selected topics to improve their knowledge of the American heritage and their ability at reading and writing.

193H. Honors Work in American Experience
Spring. 3(3-0) Satisfactory grade in the second term of any ATL sequence numbered 121 or above.
Students read and write on selected topics to improve their knowledge of the American heritage and their ability at reading and writing.

205. Reading for University-Level Understanding
Fall, Winter, Spring. 2(0-4) May re-enroll for a maximum of 4 credits.
Individualized instruction in techniques for improving vocabulary, comprehension, rate, study skills and test taking skills in order to achieve a better understanding of university-level materials.

232. American Humor
Winter. 4(4-0) Sophomores.
An interdisciplinary study of the relationship between American humor and the developing American experience, especially of the nineteenth and twentieth centuries.

300. Supervised Individual Study
Fall, Winter, Spring, Summer. 2 to 4 credits. May re-enroll for a maximum of 12 credits in a composition course; approval of department.
Selected students requesting individual study of interdisciplinary problems will work under supervision of University College professors. Variable elective credit will be determined when the student secures instructor, adviser, and department approval.

350. Contemporary American Film and Society
Winter. 4(4-0) Sophomores.
Contemporary American films as reflections of and influences on American society. Term topics: Violence and Crime; Women.

380. The Role of Women in America: Arts and Self
Winter of even-numbered years. 4(4-0) Juniors.
Various art forms by women and the exploration of a feminine sensibility; sex, race, and class interactions, sexual stereotypes; male views of women and themselves; the impact of the media.

381. The Role of Women in America: Movements and Ideology
Spring of odd-numbered years. 4(4-0) Juniors.
Key personalities and philosophical currents in the women's movement; biological and cultural myths and realities; the historical role of the family, "The Culture of Romance."

439. Writing the Research Report
Winter, Spring. 4(4-0) Juniors.
Advanced methods and organization of written research reports will be taught by providing examples, exercises, and writing practice based on research submitted by the students.

492. Microscopic Anatomy
Winter. 5(3-8) Medical Technology students or approval of department.
Microscopic study of the structure of cells, tissues and organs.

505A. Anatomy in Physical Diagnosis
Fall. 1 to 3 credits. If M 505 concurrently.
Exercises in which students study systemic anatomy in a physical diagnosis context. Preparatory self-instruction precede exercises.

505B. Anatomy in Physical Diagnosis
Winter. 1 to 3 credits. Satisfactory performance in Comprehensive English.
Exercises in which students study regional anatomy in a physical diagnosis context. Preparatory self-instruction precede exercises.

510. Veterinary Gross Anatomy
Summer. Admissions to professional veterinary programs.
Gross anatomy of a representative animal, the dog, is studied. Lecture, dissection of embalmed specimen, study of projections, slides, models and living animals.

511. Veterinary Histology
Summer. First-term Veterinary Medicine students.
A general histology course for veterinary students which includes a survey of the tissue of the animal body.

512. Veterinary Neuro Anatomy
Summer. 2(2-0) First-term Veterinary Medicine students.
Gross anatomy of the central nervous system in animals emphasizing functional and dysfunctional aspects of pathways and nuclei in dogs as a foundation for clinical neurology.

513. Veterinary Microscopic Anatomy
Fall, Spring. Second-term Veterinary Medicine students.
Microscopic anatomy of the digestive, urinary, respiratory, male and female reproductive systems, integumentary system, central nervous system and special sense organs of domesticated animals.

514. Veterinary Comparative Anatomy
Fall, Spring. Second-term Veterinary Medicine students.
Lecture, dissection of embalmed specimen and the study of projections, models and live animals related to the anatomy of the domestic animals.
540. Gross Biomedical Structure
Winter. 1 to 15 credits. May re-enroll for a maximum of 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the back, thorax, abdomen, pelvis and perineum.

541. Gross Biomedical Structure
Spring. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the head and neck.

542. Gross Biomedical Structure
Fall. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the limbs.

543. Microscopic Anatomy
Winter. 3(4-2). Human Medicine students; approval of department for graduate students.

544. Human Embryology
Winter. 3(3-0) Admission to a college of medicine; graduate students with approval of department.

545. Neuroanatomy
Spring. 3(4-0) Admission to medical school or approval of Neuroscience Committee.

546. Medical Histology
Summer. 4(3-4) Admission to a college of medicine or approval of department.

547. Osteopathic Medical Neuroanatomy
Fall. 4(3-4) Admission to a college of medicine; graduate students with approval of department.

548. Introduction to Human Gross Anatomy
Semester. 6(4-6) Admission to a college of medicine or approval of department.

552. Gross Biomedical Structure
Winter. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the back, thorax, abdomen, pelvis and perineum.

580. Special Problems
Fall, Winter, Spring, Summer. 1 to 5 credits. May re-enroll for a maximum of 15 credits. Admission to professional program in the College of Human Medicine, College of Osteopathic Medicine or the College of Veterinary Medicine, and approval of department. Biomedical research, gross anatomy, histology, neurology, immunology or embryology.

583. Microscopic Anatomy
Winter. 3(4-2). Human Medicine students; approval of department for graduate students.

584. Human Embryology
Winter. 3(3-0) Admission to a college of medicine; graduate students with approval of department.

585. Neuroanatomy
Spring. 3(4-0) Admission to medical school or approval of Neuroscience Committee.

Introduction to gross and microscopic anatomy of the human nervous system, related basic neuropsychologic concepts and to a problem-solving approach to the diagnosis of nervous system diseases.

586. Medical Histology
Summer. 4(3-4) Admission to a college of medicine or approval of department.

Structural and functional characteristics of basic cells, tissues and organ systems. Emphasis on core concepts and visual dissection.

587. Osteopathic Medical Neuroanatomy
Fall. 4(3-4) Admission to a college of medicine; graduate students with approval of department.

Medically oriented problem-solving neuroanatomy with laboratory. Structure of the human nervous system is correlated with normal function, clinical testing and classical lesions encountered in medical practice.

588. Introduction to Human Gross Anatomy
Semester. 6(4-6) Admission to a college of medicine or approval of department.

Core concepts in regional, systemic and topographic human gross anatomy: Prosection, discussion and lecture methods using audiovisual aids and frequent review.

589. Special Problems
Fall, Winter, Spring, Summer. 1 to 5 credits. May re-enroll for a maximum of 15 credits. Admission to professional program in the College of Human Medicine, College of Osteopathic Medicine or the College of Veterinary Medicine, and approval of department. Biomedical research, gross anatomy, histology, neurology, immunology or embryology.

813. Problems in Anatomy
Fall. 5(3-5) Approval of department.

Developmental, gross and microscopic anatomy of the nervous system. Organizational and functional aspects of the peripheral and central nervous system are stressed. Gross demonstrations include brain and dog dissections.

815. Anatomy of the Nervous System
Fall. 4(3-5) Graduate students or approval of department.

Study of the normal and abnormal organization of the human embryo and fetus.

890. Concepts in Tumorogenesis
Winter of even-numbered years. 2(2-0) Approval of instructor.

In depth evaluation of the current concepts in tumorogenesis emphasizing the experimental results from which these concepts evolved.

980. Research
Fall, Winter, Spring, Summer. Variable credit. Majors.

989. Research
Fall, Winter, Spring, Summer. Variable credit. Majors.

ANIMAL HUSBANDRY A H

College of Agriculture and Natural Resources

111. Livestock and Meat Industry
Fall. Spring. 4(3-4)

Livestock utilization of renewable resources in producing products for man. Adaptation, economics of production and management systems of beef cattle, swine, sheep and horse enterprises. Evaluation of market livestock.

214. Introduction to Horses and Horsemanship
Semester. 6(4-6) The horse industry in today's society. Relationship of form to function. Selection, breeding, feeding, foot care, health, and management of the pleasure horse. Proper horsemanship methods.

241. Principles of Meat Science
Winter. 3(3-0) Sophomores.

Structure, composition and function of muscle, its conversion to meat, animal growth and fattening, properties of fresh and processed meat, microbiology, preservation, palatability, inspection and sanitation, by-products, nutritive value.

242. Meats, Poultry and Fishery Products
Fall. Spring. 2(0-5) Sophomores; 241 or concurrently.

Principles of meat animal and carcass evaluation, slaughter, meat cutting, retail cut identification, processing, inspection and quality control.

245. Meat Evaluation and Grading
Fall, Spring. 1 to 3 credits. May re-enroll for a maximum of 4 credits subject to a maximum of 10 credits in 245 and 335 combined. 241.

Evaluation of carcases and wholesale cuts of beef, pork, veal and lamb in accordance with federal and commercial grading standards. Inspection trips through large meat packing plants.

335. Livestock Selection
Fall, Winter, Spring. 1 to 3 credits. May re-enroll for a maximum of 3 credits subject to a maximum of 10 credits in 245 and 335 combined. 111.

Evaluation of productive merit of individual animals. Comparison of type with a standard. Relationship of form to function. Field trips to prominent livestock breeding establishments and to major livestock events.

415. Special Problems
Fall, Winter, Spring, Summer. 1 to 3 credits. May re-enroll for a maximum of 5 credits. Approval of department.

Special problems in: animal breeding, nutrition, reproduction, management, meat science, or reproduction.

426. Swine Nutrition
Spring of odd-numbered years. 3(3-0) or 4(3-3) ANS 325 or 335.

Digestive and metabolic development and nutrient requirements of swine. Interactions of genetics, disease, endocrinology and environment with nutrition. Critical evaluation of swine feeds and feed formulation. Recent swine nutrition research.

451. Swine Production
Fall. 4(3-3) ANS 325 or approval of department.

Fall, Winter, Spring, Summer. 1 to 3 credits. May re-enroll for a maximum of 5 credits. Approval of department.

Historical aspects with emphasis on current trends. Breeds, breeding, selection, nutrition requirements, management practices, marketing, housing and environmental needs, disease and parasites problems. Visits to representative farms.

452. Sheep Production
Winter. 4(3-3) ANS 325 or approval of department.

Management of sheep enterprises. Using the tools of selection, reproduction, nutrition, flock health, housing and marketing to increase returns. Practice in trimming, shearing, and management skills.
