Osteopathic Medicine

College of Osteopathic Medicine

501. Medical Biology I
Fall. 4(4-0)
Integrated aspects of biology providing a foundation and vocabulary preparatory to studies in osteopathic medicine.

502. Medical Biology II
Winter. 3 to 8 credits. Admission to a college of medicine.
Continuation of 501 emphasizing pathophysics and pharmacology.

530. Clinical Science I
Fall. 2(1-3) Admission to a college of medicine.
Fundamental concepts and skills essential to the performance of a clinical history and physical examination.

531. Clinical Science II
Fall. 2(3-0)
Techniques, concepts and skills required for competent history taking and physical examination utilizing lectures, laboratory and films for instructional purposes.

532. Clinical Science III
Winter. 1(0-3) Admission to a college of medicine.
A clinical study program providing an opportunity to learn the skills of history taking and physical examination by actual performance of the involved techniques on patients under physician supervision.

533. Clinical Science IV
Spring. 1(0-3) Admission to a college of medicine or approval of department.
Continuation of 532.

534. Clinical Science V
Summer. 1(0-3) Admission to a college of medicine.
A clinic-based program providing additional emphasis on history taking and physical examination as well as developing fundamental abilities in diagnosis and problem solving in the clinic setting.

535. Clinical Science VI
Fall. 1(0-3) Admission to a college of medicine.
A continuation of 534.

536. Clinical Science VII
Winter. 1(0-2) Admission to a college of medicine.
Continuation of 535.

537. Clinical Science VIII
Spring. 1(0-3) Admission to a college of medicine.
Continuation of 536.

590. Special Problems in Osteopathic Medicine
Fall, Winter, Spring, Summer. 1 to 8 credits. May re-enroll for a maximum of 32 credits. Approval of department.
Each student will work under direction of a faculty member on an experimental, theoretical or applied problem.

600. Clinical Science Practicum
Fall, Winter, Spring, Summer. 2 to 12 credits. May re-enroll for a maximum of 60 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
A clinic-oriented course covering the major areas of medical practice including involvement in Family Practice and Community Health Services.

620. Directed Studies
Fall, Winter, Spring, Summer. 2 to 24 credits. May re-enroll for a maximum of 48 credits. Admission to a college of medicine or approval of department.
Individual or group work on special problems in medicine.

650. Medicine Clerkship
Fall, Winter, Spring, Summer. 2 to 16 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in osteopathic medicine. Program designed to achieve proficiency in motor skills and attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

651. Obstetrics—Gynecology Clerkship
Fall, Winter, Spring, Summer. 8 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in obstetrics and gynecology. Program designed to achieve proficiency in obstetrical patient evaluation, management; motor skills, attitudes; care of newborn; management of gynecologic problems.

652. Pediatrics Clerkship
Fall, Winter, Spring, Summer. 8 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Practical clinical exposure in the area of pediatrics. Program designed to achieve proficiency in motor skills and attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management and therapy.

653. Surgery Clerkship
Fall, Winter, Spring, Summer. 8 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in area of surgical diagnosis, management, treatment. Program structure developed to achieve proficiency in motor skills, attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

654. Anesthesiology Clerkship
Fall, Winter, Spring, Summer. 4 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in area of anesthesiology. Program structure developed to achieve proficiency in motor skills, attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

655. Emergency Medicine Clerkship
Fall, Winter, Spring, Summer. 4 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
A clerkship organized to develop skills in the acute evaluation and management of patients in the hospital emergency room and other locations.

656. Orthopedics Clerkship
Fall, Winter, Spring, Summer. 4 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in area of orthopedics. Program structure developed to achieve proficiency in motor skills, attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

657. Neurology Clerkship
Fall, Winter, Spring, Summer. 4 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in area of neurology. Program structure developed to achieve proficiency in motor skills, attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

658. Otorhinolaryngology Clerkship
Fall, Winter, Spring, Summer. 4 credits. Grade P in all courses offered in terms 1 through 8 or approval of department.
Clinical exposure in area of otorhinolaryngology. Program structure developed to achieve proficiency in motor skills, attitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management, and therapy.

Osteopathic Medicine

Courses

500. Historical and Biological Foundations of Osteopathic Medicine
Summer. 2(3-0) Admission to a professional medical program.
Historical development of the osteopathic profession. Integration of biological and osteopathic principles in the consideration of health and disease.

520. Normal Endocrine Structure and Function
Winter. 2(2-0) Admission to a college of medicine or approval of instructor.
An integrated basic science course presenting a series of lectures and laboratories related to the normal structure and function of the endocrine organs. Prerequisite for studying endocrine diseases in systems biology.

530. Comprehensive Patient Evaluation I
Summer. 2 to 6 credits. Admission to a college of medicine.
Interdepartmental course in physical examination skills. Stresses comprehensive, osteopathic evaluation of the patient.

531. Comprehensive Patient Evaluation II
Fall. 2 to 6 credits. 530.
Continuation of 530.

532. Comprehensive Patient Evaluation III
Winter. 2 to 6 credits. 531.
Interdepartmental course in physical examination skills. Stresses application of comprehensive, osteopathic evaluation of the patient. Introduction to office procedures and physical diagnosis.
533. Comprehensive Patient Evaluation IV
Spring. 2 to 6 credits. 532.
Interdepartmental course in physical examination skills. Stresses comprehensive, osteopathic evaluation of the patient. Includes preceptorship and appropriate systems biology clinical experiences.

534. Comprehensive Patient Evaluation and Management I
Summer. 2 to 6 credits. 533.
Interdepartmental course in physical examination skills, diagnosis and patient management. Stresses comprehensive, osteopathic evaluation and management of the patient. Includes preceptor assignment and appropriate systems biology clinical experiences.

535. Comprehensive Patient Evaluation and Management II
Fall. 2 to 6 credits. 533.
Continuation of 534.

536. Comprehensive Patient Evaluation and Management III
Winter. 2 to 6 credits. 533.
Continuation of 535.

537. Comprehensive Patient Evaluation and Management IV
Spring. 2 to 6 credits. 533.
Continuation of 536.

551. Systems Biology
Fall. 3 to 12 credits. Admission to a college of medicine or approval of instructor.
A multidisciplinary approach to the hematopoietic systems providing a functional integration of basic science and clinical information.

552. Systems Biology II
Spring. 3 to 6 credits. Admission to a professional medical program.
A multidisciplinary approach to the integumentary system providing a functional integration of basic science and clinical information.

553. Systems Biology III
Spring. 5 to 15 credits. Admission to a college of medicine or approval of college.
A multidisciplinary approach to the nervous system providing a functional integration of basic science and clinical information.

554. Systems Biology IV
Fall. 5 to 15 credits. Admission to a professional medical program.
Continuation of 552 with emphasis on multidisciplinary approach to the cardiovascular system.

555. Systems Biology V
Winter. 5 to 10 credits. Admission to a professional medical program.
Continuation of 553 with emphasis on multidisciplinary approach to the respiratory system.

556. Systems Biology VI
Winter. 5 to 10 credits. Admission to a professional medical program.
Continuation of 554 with emphasis on multidisciplinary approach to the urinary system.

557. Systems Biology VII
Spring. 5 to 15 credits. Admission to a professional medical program.
Continuation of 556 with emphasis on multidisciplinary approach to the gastrointestinal system and metabolism.

558. Systems Biology VIII
Summer. 5 to 15 credits. Admission to a professional medical program.
Continuation of 557 with emphasis on multidisciplinary approach to the growth and development within (but not limited to) the field of pediatrics, obstetrics and gynecology.

590. Special Problems
Fall, Winter, Spring. 1 to 3 credits. May re-enroll for a maximum of 32 credits. Approval of department.
Each student will work under direction of a faculty member on an experimental, theoretical or applied problem.

610. The Osteopathic Examination I
(F M 630.) Fall. 1(0-4) Admission to a college of medicine or approval of instructor.
Instruction in the osteopathic examination.

611. The Osteopathic Examination II
(F M 640.) Winter. 1(0-4) or approval of instructor.
Continuation of 610.

612. The Osteopathic Examination III
(F M 650.) Spring. 1(0-4) or approval of instructor.
Continuation of 611.

613. The Osteopathic Examination IV
(F M 660.) Summer. 1(0-4) or approval of instructor.
Continuation of 612.

614. The Osteopathic Examination V
(F M 670.) Winter. 1(0-4) or approval of instructor.
Continuation of 613.

615. The Osteopathic Examination VI
(F M 680.) Winter. 1(0-4) or approval of instructor.
Continuation of 614.

616. The Osteopathic Examination VII
(F M 690.) Spring. 1(0-4) or approval of instructor.
Continuation of 615.

620. Systems Biology — Directed Studies
Fall, Winter, Spring. 1 to 15 credits. Admission to a professional medical program or approval of department.
A directed study in systems biology for the continuing advanced student or remediation of any systems biology: hematopoietic, integumentary, nervous, cardiovascular, respiratory, urinary, gastrointestinal, growth and development.

Packaging — Descriptions of Courses

210. Principles of Packaging
Fall, Winter, Spring, Summer. 3(0-0)
A general course in packaging principles covering the growth and development of the field, and the technological and motivational problems involved in present day packaging. Consideration will be given to the basic functions of the package and their relation to the needs and wants of our society.

320. Packaging Materials
Fall, Spring. 4(4-0)
Common packaging materials including wood, paper, paperboard, plastics, metal foils and sheets, glass, adhesives, cushioning media; their basic properties in relation to performance of packages.

330. Package Printing
Winter. 3(0-0) 320 or approval of school.
Basic printing processes used for packaging materials. Advantages, disadvantages and identification of these printing methods.

422. Packaging Systems
Fall, Winter. 4(4-0) 320 or approval of school.
Design, use and evaluation of packages and packaging systems. A one-day field trip is required.

423. Dynamics of Packaging
Spring. 4(3-3) 422 or approval of school.
A study of the protective function of the packaging systems in relation to their environment and shock and vibration isolation methods. A one-day field trip is required.

424. Packaging Problems
Fall, Winter, Spring. 1 to 3 credits. May re-enroll for a maximum of 9 credits. 423, 2.5 grade-point average and approval of school.
Development of solutions to specific packaging problems.

425. Packaging Process Analysis
Winter, Spring. 4(4-0) CPS 110.
The integrated study of the operation structure and control of the packaging and package-making process. A one-day field trip is required.

427. Packaging Materials and Systems Laboratory
Fall, Winter, Spring. 3(1-6) 320, 422 or approval of school.
