ANIMAL HUSBANDRY A H

College of Agriculture and Natural Resources

111. Livestock and Meat Industry
Fall, Spring, 4(3-4)
Livestock utilization of renewable resources in producing products for man. Adaptation, economic evaluation and management systems of beef cattle, swine, sheep and horse enterprises. Evaluation of market livestock.

214. Introduction to Horses and Horsemanship
Fall, 3(1-1)
The horse industry in today's society. Relationship of form to function. Selection, breeding, feeding, hoof care, health, and management of the pleasure horse. Proper horsemanship methods.

241. Principles of Meat Science
Winter, 3(3-4) Sophomores
Structure, composition and function of muscle, its conversion to meat, animal growth and littering, properties of fresh and processed meat, microbiology, preservation, palatability, inspection and sanitation, by-products, nutritive value.

242. Meats, Poultry and Fishery Products
Fall, 3(2.2) Interdepartmental with and administered by Food Science Principles of evaluation and nutritive value. Identification of grades and cuts of beef, pork, lamb and poultry products.

244. Meat Science Laboratory
Winter, Spring, 2(0-5) Sophomores: A H 241 or concurrently.
Principles of meat animal and carcass evaluation, slaughter, meat cutting, retail cut identification, processing, inspection and quality control.

245. Meat Evaluation and Grading
Fall, Spring, 1 to 3 credits. May repeat for a maximum of 4 credits subject to a maximum of 10 credits in A H 245 and A H 335 combined. A H 341.
Evaluation of carcasses and wholesale cuts of beef, pork, veal and lamb in accordance with federal and commercial grading standards. Inspection trips through large meat packing plants.

335. Livestock Selection
Fall, Winter, Spring, 1 to 3 credits. May repeat for a maximum of 9 credits subject to a maximum of 10 credits in A H 245 and A H 335 combined. A H 111.
Evaluation of productive merit of individual animals. Comparison of type with a standard. Relationship of form to function. Field trips to prominent livestock breeding establishments and to major livestock events.

415. Special Problems
Fall, Winter, Spring, Summer. 1 to 3 credits. May repeat for a maximum of 5 credits. Approval of department.
Special problems in animal breeding, ruminant nutrition, nonruminant nutrition, management, meat science, or reproduction.

426. Swine Nutrition
Spring of odd-numbered years. 3(3-0) A H 451, ANS 325 or ANS 525.
Digestive and metabolic development and nutrient requirements of swine. Interactions of genetics, diet, environment and animal response with nutrition. Critical evaluation of swine feeds and feed formulation. Recent swine nutrition research.

451. Swine Production
Fall 4(3-2) ANS 325 or approval of department.
Historical aspects with emphasis on current trends. Breeds, breeding, selection, nutrition, management practices, marketing, housing and environmental needs, disease and parasite problems. Visits to representative farms.

452. Sheep Production
Winter, 4(3-2) ANS 325 or approval of department.
Management of sheep enterprises. Using the tools of selection, reproduction, nutrition, flock health, housing and marketing to increase returns. Practice in trimming, showing, and management skills.

453. Beef Production
Fall, Spring, 4(3-2) ANS 325 or approval of department.
Feeding, breeding management, marketing. Emphasis on growth and development; costs and returns; feed requirements; reproduction, crossbreeding, performance, health, housing, diseases. Practice in management skills.

462. Meat Animal Breeding
Spring, 3(2-2) ANS 361.
Uses and effects of different breeding systems with beef cattle, sheep, and swine. Formulating breeding plans.

912. Seminar
Fall, Winter, Spring, 1 credit.

921. Pathology of Nutritional and Metabolic Diseases
Summer of even-numbered years. 4(3-2) Approval of department, FT 404 or ANT 420. ANS 525, BCH 452, INP 462 recommended. Interdepartmental with the departments of Large Animal Surgery and Medicine and Pathology and Human Nutrition and Foods. Administered by Human Nutrition and Foods.
Development, pathophysiologic and morbidologic pathology of nutritional and metabolic diseases including carbohydrate, protein, fatty acid, vitamin and mineral deficiencies, their experimental induction and their medical or economic significance.

926. Comparative Nutrition-Lipids and Carbohydrates
Winter of odd-numbered years. 4(4-0) BCH 452 and a previous course in nutrition. Interdepartmental with and administered by Human Nutrition and Foods.
Regulatory aspects of carbohydrate and lipid metabolism influenced by nutrition in mammals. Emphasis on normal and abnormal physiological states such as obesity, ketosis and diabetes.

927. Comparative Nutrition-Protein Metabolism and Developmental Biology
Winter of even-numbered years. 4(4-0) BCH 452, PSL 402 or concurrently. Interdepartmental with and administrated by Human Nutrition and Foods.
Protein quality assessment, protein status, protein caloric malnutrition, amino acid metabolism, protein turnover, digestion and absorption, hormonal control of protein metabolism, developmental aspects of protein metabolism and growth.

928. Comparative Nutrition-Minerals
Spring of even-numbered years. 3 credits. BCH 452, PSL 402. Interdepartmental with Human Nutrition and Foods.
Forms and location in body; metabolic roles, deficiency and toxicity signs, interrelationships, requirements and biological availability of sources.

929. Comparative Nutrition-Vitamins
Spring of odd-numbered years. 3(3-0) BCH 452 and a previous course on principles of nutrition. Interdepartmental with Human Nutrition and Foods.
Chemical and physical properties, standards of activity, occurrence, metabolic roles, antistress, deficiency and toxicity signs, requirements and factors affecting requirements.

963. Genetics of Breed Improvement
Winter of odd-numbered years. 3(3-0) ANS 361, STT 451.

964. Breeding Systems and Plans
Spring of odd-numbered years. 3(3-0) A H 953.
Biometric relations between related animals. Role of selection in changing populations. The effects of different mating systems.

999. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

ANIMAL SCIENCE ANS

College of Agriculture and Natural Resources

101. Animal Science
Fall, 9(4-2)
Survey of the animal industries including history, economic geography, anatomy and physiology, nutrition and feed usage, and systems of commercial livestock and poultry production.

213. Animal Science Seminar
Fall, 3(0-0)
Animal science industries. Industry representatives will be utilized to discuss particular areas.

325. Principles of Animal Nutrition
Spring, 5(5-0) CEM 332, BCH 200 recommended.
