813. Human Relations in Management
Fall, Spring, 4(4-0) Approval of department.
The executive role: Theories and techniques of leadership, communications, conflict management, morale, motivation, authority, power, examined by means of cases, role playing, laboratory exercises, and study of behavioral science research findings.

814. Occupational Safety and Health Management
Spring, 4(4-0) Graduate students only, or approval of department.
Objectives and procedures for managerial control of work injuries and illness in business and other organizations. Complying with federal and state law, correcting hazards, analyzing costs, modifying behavior. Product safety.

818. Supervisory and Executive Development
Fall, Spring, Summer, 4(4-0) MGT 806 or MGT 808.
Theory and research of developmental stages of executive careers. Special emphasis on: impact of organization on executive potentiality; forces influencing development of executive skills and abilities; studies of antecedents of executive role performance; role of training programs.

821. Production Control
Winter, 4(4-0) MGT 801.
Planning and control of production operations. Inventory management, production and work force smoothing, job shop scheduling and project scheduling.

831. Computers and Systems Analysis for Business
Fall, Spring, 4(4-0) MGT 832 or concurrently, MTH 111 and STT 315 or concurrently; or 12 credits of college mathematics. Open only to selected MBA candidates. Computer programming and systems analysis in business administration.

832. Statistical Methods for Business
Fall, Spring, 4(4-0) MGT 833 or concurrently, MTH 111 and STT 315 or concurrently or 12 credits of college mathematics. Open only to selected MBA candidates. Statistics for analysis and research in business.

833. Decision-Making Models
Fall, Winter, Spring, 4(4-0) MGT 831, MGT 832, AFA 840 or concurrently. Normative decision analysis in business under different assumptions of information availability.

834. Linear Optimization Models
Fall, Spring, 4(4-0) MGT 833, MTH 228, STT 423.

835. Nonlinear Optimization Models
Winter, Summer, 4(4-0) Students may not receive credit for both SYM 555 and MGT 835. CHE 465 or MGT 834 or knowledge of linear programming, Interdepartmental and jointly administered with Systems Science. Interdepartmental with the Department of Chemical Engineering. Nonlinear optimization-examples and applications. Kuhn-Tucker Theory. Saddle point optimality conditions. Algorithms for problems with constraints. Unconstrained optimization; introduction to search methods.

836. Applied Stochastic Processes for Business
Spring, 4(4-0) MGT 833, MTH 228, STT 423.
The structure and analysis of stochastic models common to business and economics. Topics may include the Poisson process, renewal, reward processes, discrete Markov processes, with examples from queuing, reliability, maintenance and inventory.

837. Systems Simulation
Fall, 4(4-0) MGT 836, STT 423, MTH 228. Interdepartmental with the Department of Statistics and Probability.
The concept of a model, model building, characteristics of simulation models. Techniques of computer simulation. Simulation models in research and management planning/control. Validation and experimental design. Special purpose languages.

840. Applied Stochastic Processes
Winter, 4(4-0) MGT 836, MGT 837. Interdepartmental with the Department of Statistics and Probability.

906. Behavioral Research: Organization
Winter, 3 credits MTA 905.
Concepts and methods of behavioral science research that are applicable to the study of organization as a strategic device in the development of tangible and intangible values and in the control of elements of business enterprise.

907. Behavioral Research: Business Executive
Fall, 3(4-0)
Concepts and methods of behavioral science research in the study of the agents of enterprise decision-making and action. Attention is focused on the way in which decisions are made in business organizations, and the multiple influences operating on the executive. Modes of adjustment to the decision environment are examined.

909. Seminar in Organization Theory
Winter, 4(4-0) MGT 806; doctoral candidates: master's candidates with approval of department.
Directed reading and research on issues in contemporary organization theory.

911. Seminar in Personnel Research
Spring, 4(4-0) MGT 810; doctoral candidates: master's candidates with approval of department.
Directed reading and research on issues in contemporary personnel administration theory and practice.

MARKETING AND TRANSPORTATION ADMINISTRATION MTA
College of Business

292. Selected Topics
Fall, Winter, Spring, 3(3-0) or 4(4-0)
May reenroll for a maximum of 6 credits when a different topic is taken.
Selected subject matter of current interest in marketing: social, institutional, and managerial, etc., topics. Subject varies by term.

300. Marketing Management in Business and Society I
Fall, Winter, Spring, 4(4-0) Juniors, EC 200.
Firm and consumer roles in the exchange system for goods and services. Competitive analysis of market structures and marketing management. Fitting product-service offerings to various customer group needs.

301. Marketing Management in Business and Society II
Fall, Winter, Spring, 4(4-0) Juniors, MTA 300.
Development of distribution, communication and price policies. Integration of product, distribution, communication and price policies into a marketing plan. Emphasis on financial aspects of marketing and impact on society.
311. Personal Selling  
Fall, Winter, Spring, Summer. 3(3-0)  
Juniors.  
Theories, principles, methods and techniques of personal selling with application to different buyer-seller situations. Development of interpersonal communication skills. Career opportunities in selling.

313. Sales Management  
Fall, Winter, Spring, Summer. 4(4-0)  
MTA 300.  
Organization and administration of the firm's personal selling. Topics include: recruitment, selection, training, compensation, evaluation, development, and motivation of salesmen; market assessment, territory alignment, and quotas; segmental analysis and budgeting.

316. Fundamentals of Statistical Inference  
Fall, Winter, Spring, Summer. 4(4-0)  
STT 315.  
Primarily for students in the College of Business. Interdepartmental with and administered by the Department of Statistics and Probability. Description of sample data, applications of probability theory, sampling, estimation, tests of hypotheses.

320. Consumer and Buyer Behavior  
Fall, Spring. 4(4-0)  
MTA 300.  
Consumer buyer behavior characteristics, theories and research methods for marketing and strategies and problem solving. Emphasis on predicting and understanding purchase behavior for best firm/buyer needs match.

335. Food Processing and Distribution Management  
Winter. 3(3-0)  
MTA 300 or FMS 300.  
Interdepartmental with Food Systems Economics and Management. Analysis of problems faced in the food processing and distribution system, including functional interrelationships, consumer orientation and future development.

341. Transportation Plans and Policies  
Fall, Winter, Summer. 4(4-0)  
Juniors.  
Policy formulation in logistics, transportation and distribution (LTD) systems. Examination of historical forces and trends, major contemporary demand and supply influences, development of a functional framework, survey of major emerging policies.

351. Retail Management  
Fall, Winter, Spring, Summer. 4(4-0)  
MTA 300, AFA 201 or concurrent.  
Management methods, locational analysis, store organization, personnel planning, merchandising, buying and pricing techniques and customer service policies for retail firms. Survey of retailing and its role in distribution.

400H. Honors Work  
Fall, Winter, Spring. 1 to 15 credits.  
Approval of department.  
Involves research, analysis, and preparation of an honors project in a chosen field.

409. Field Studies in Business  
Fall, Winter, Spring, Summer. Variable credit.  
May repeat for a maximum of 6 credits.  
Planned program of independent research or observation, study, and work in selected business firms. Designated to supplement classroom study in such a way as to make maximum contribution to student's total educational experience.

414. Marketing Research  
Fall, Winter, Spring, Summer. 3(3-0)  
MTA 300, MTA 316.  
Research process as an aid to decision making in marketing management. Specific attention to the planning of research and gathering analysis and interpretation of data.

415. International Market Systems  
Fall, Winter, Spring. 4(4-0)  
Juniors.  
Development of criteria for evaluating foreign markets. Design of international organization and marketing systems. Study of major methods, modes, and strategies of international trade and operations. Applications through reports and case decisions.

418. Marketing Development and Policies  
Fall, Winter, Spring, Summer. 4(4-0)  
MTA 301, MTA 414 and at least 3 additional credits of MTA electives.  
Study and integration of major tasks and decisions involved in developing and marketing products. Comprehensive discussion of issues involving different decision areas for a variety of products.

439. Advanced Food Processing and Distribution Management  
Fall, Spring. 3(3-0)  
MTA 335.  
Interdepartmental with Food Systems Economics and Management.  
Managerial principles and techniques applied to food processing and distribution. Emphasizes adjustment to changing social, economic and international events. Student interaction with industry, labor and government representatives. Field trips, special projects.

445. Management of Logistics Transportation and Distribution Systems  
Fall, Winter, Spring. 4(4-0)  
Juniors.  
Micro-analysis of private and public enterprise movement systems. Component parts of the movement system, analytical tools used in system planning, implementation and control.

449. Passenger Transportation Systems  
Winter. 4(4-0)  
MTA 300 or HRI 375.  
Compensation and objectives of major passenger travel markets. Analysis of carrier service, pricing and promotional practices and problems, competitive and cooperative relations. Review of major proposals for change and expansion of service systems.

452. Retail Policies and Problems  
Spring. 4(4-0)  
MTA 351.  
Analysis of retail problems with examination of selected current major problem areas. Critical review of budgetary and other controls, standards and techniques used to achieve management objectives.

502. Research Analysis for Marketing Decisions  
Fall, Spring. 4(4-0)  
Use of research techniques as aid in marketing decision making. Research process involving research problem definition, hypothesis formulation, data collection, interpretation and presentation. Class projects may be used.

504. Marketing Concepts and Processes  
Fall, Winter. 4(4-0)  
The business is considered relative to its external environment. Institutions comprising the marketing system, the principal environmental opportunities and constraints facing the marketing manager, and their effects on marketing informational, control and coordination devices available to the firm will be studied.

505. Marketing: Models, Theories and Strategies  
Fall, Winter, Spring. 4(4-0)  
MTA 804.  
Analysis of marketing functions, programming marketing effort, and control and coordination are considered within the context of industrial and consumer demand. Strategic and decision-making aspects of marketing are stressed.

507. Foundations of Industry  
Fall, Summer. 3(3-0)  
Functional appraisal of materials foundation of business enterprise, emphasizing allocation, support capacity and the characteristics and present and future of industrial resources as they affect business decisions, opportunities and responsibilities.

508. Emerging Issues in the Business Environment  
Winter, Spring. Variable credit.  
May enroll for a maximum of 12 credits if course content changes. Thirty credits of MBA core program, or approval of department.  
Selected significant current organization, social, political, economic and cultural issues are examined in relation to business policy and decision making. Discussions, readings and research reports. Topics selected may vary from term to term.

509. Planning Logistics, Transportation, and Distribution Systems  
Fall, Winter. 4(4-0).  
Planning and control of the enterprise logistics system and physical distribution operations. System approach will emphasize planning appropriate to objectives of the enterprise—private, public, or carrier.

810. National Transportation Policy and Plans  
Fall, Winter. 4(4-0).  
An operational model and theoretical perspective of national policies that are apt to shape the future of the transportation system. Interaction of government, carrier, and user logistics and distribution strategies.

811. Seminar in Marketing  
Fall, Winter, Spring. Variable credit.  
May reenroll for a maximum of 15 credits.

812. Problems in Logistics, Transportation, and Distribution Systems  
Fall, Winter, Spring. 4(4-0).  
MTA 810.  
Design, application, and measurement of the cost and service performance of a specific enterprise's logistics system. Includes examination of applicable research concepts, planning models, and control techniques.
823. Seminar in Retailing
Winter. 4(4-0)
Critical analysis of available generalizations concerning the economic, social, and commercial role of retailing. Special attention to concepts of retail competition and productivity. Emphasis on research in improving retail efficiency.

824. Marketing Channel Management
Spring. 4(4-0) MTA 805.
Seminar in selected organizational, social, political, economic and cultural issues related to management in marketing channels.

831. Advanced Food Processing and Distribution Management
Fall, Spring. 4(4-0) May reenroll for a maximum of 8 credits. Approval of department. Interdepartmental with the Department of Agricultural Economics.
Food industry adjustment to changing social, economic and internal company environment. Managerial principles and techniques applied to food processing and distribution. Student interaction with industry, labor and government representatives.

841. Management of Logistics, Transportation, and Distribution Systems
Spring, Summer. 4(4-0) MTA 810.
A case course on management problems encountered in logistics, transportation, and distribution systems. Merits considered for alternative solutions and implementation strategies in the decision-making process.

851. Market Behavior and Competitive Strategy
Fall, Winter, Summer. 4(4-0) MTA 805.
Industrial and consumer market structure and behavior and their impact upon the firm's competitive operations and actions.

853. Market Programming
Winter, Spring. 4(4-0) MTA 805.
Planning processes leading to programming the various elements of market cultivation. Major emphasis is given to the development of a total marketing strategy for the firm. Case analysis.

854. Problem-Solving Processes in Marketing
Fall, Spring. 4(4-0) MTA 853.
The problem-solving process is approached through the investigation and solution of current marketing problems by research teams.

855. Market Cost-Revenue Analysis
Winter. 4(4-0) One course in accounting and one in marketing. Interdepartmental with the Department of Accounting and Financial Administration.
Analytical tools for use in planning and controlling marketing activities. Emphasis on the determination of factors causing marketing cost differences and the assignment of costs to those factors. Application of tools to determination of expenditure-revenue patterns and market potentials.

860. International Business
Winter. 4(4-0)
The economic environment within which the international firm operates is presented. Special emphasis on relating trade and payments theory, regional analysis, and economic development to strategy formulation of the firm. Marketing, financial, and organizational factors are considered.

862. International Marketing
Spring. 4(4-0) MTA 805.
Models for headquarters planning and control of international marketing operations are developed. Social, cultural, institutional, and economic variables are considered in studying marketing operations in foreign environments.

863. Problems in International Business
Fall. 4(4-0) MTA 860 or MTA 862 or approval of department.
Examination of strategies and organization for international business. In-depth consideration of headquarters and overseas personnel, marketing, financial, and legal issues.

890. Special Problems
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

905. Analysis of Business Enterprise Systems
Fall. 3 credits. MTA 805, MCT 806.
Research concepts and scientific methods for the study of business enterprise systems. The design of research, formulation of hypotheses, concepts of measurements and use of quantitative methods in the study of business systems.

909. Theory of Transportation-Distribution Systems
Fall. 4(4-0)
Examines the functions of transportation-distribution systems. Develops the relevant elements of networks, systems, and economic theory with empirical design. Applications to the decision evaluation, and control of representative macro and micro systems.

910A. Advanced Research in Marketing I
Winter. 4(4-0) Second-year doctoral students in marketing.
Advanced concepts and quantitative methods in the scientific investigation of market phenomena and the tools of market cultivation.

910B. Advanced Research in Marketing II
Spring. 5-5(0) MTA 910A.
Continuation of MTA 910A.

911A. History of Market Thought
Fall. 4(4-0) May reenroll for a maximum of 15 credits. MTA 851.
Traces the evolution of marketing institutions, techniques, theories and criticisms. The influence of changing environmental and technological factors on marketing practices today. Readings in retrospective and original materials, discussion and research paper.

911B. Seminar in Macro Marketing
Winter. 4(4-0) May reenroll for a maximum of 15 credits. MTA 911A.
Examines the relationships between competition, marketing and corporate and economic growth. Emphasis is given to a functional examination of competition and the central role of innovation in the process.

912. Research Methodology in Transportation-Distribution Systems
Winter. 4(4-0) MTA 812, MTA 909.
Research methodology in the design and administration of transportation-distribution systems. Emphasis on technique and methodology for conducting system design studies and evaluation of common implementation problems.

941. Transportation-Distribution Development Policy
Spring. 4(4-0) MTA 909, MTA 912.
Applications in theory, principles, and processes developed in MTA 909 and MTA 912 to the design of research processes and reports in significant transport and distribution problems.

957. Seminar in Micro Marketing
Spring. 4(4-0) MTA 911A.
Examines the current state of theory concerning the planning and implementation of marketing strategies and programs and tries to identify where future research is needed and/or will be most useful to marketing and business managers.

999. Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

MATHEMATICS

College of Natural Science

One and one-half years of high school algebra and one year of geometry and a satisfactory score on the placement test are prerequisites for all courses in the Mathematics Department which carry credit.

081. Elements of Algebra
Fall, Winter, Spring, Summer. 0(3-0) (3-0)
Fractions, decimals, real number properties, algorithms of arithmetic, simple factoring, parentheses, reciprocals, linear equations, integer exponents, applied problems, coordinate systems, graphing, solving equations by graphing. Approved through Spring term 1980.

082. Intermediate Algebra
Fall, Winter, Spring, Summer. 0(3-0) (3-0)
See page A-2 item 3. Current enrollment in MTH 104, one year of high school algebra, satisfactory score on placement exam.
Properties of real numbers, polynomials, factoring, rational functions, exponents, roots and radicals, first and second degree equations, linear inequalities, complex numbers, word problems. Approved through Spring term 1980.

102. Trigonometry
Winter, Spring. 3(3-0) 1-1/2 high school units in algebra and satisfactory score on placement test, or MTH 082; 1 high school unit in geometry. Not open to students who have had trigonometry in high school or credit in MTH 109.
Trigonometric functions, identities, related angles, radian measure, graphs, sum and difference formulas, simple trigonometric equations, logarithms, solution of plane triangles, inverse functions.

103. Elements of Algebra
Fall, Winter, Spring. 2(2-0)
Current enrollment in MTH 081.
Fractions, decimals, real number properties, algorithms of arithmetic, simple factoring, parentheses, reciprocals, linear equations, integer exponents, applied problems, coordinate systems, graphing, solving equations by graphing. Approved through Spring term 1980.
