Courses

380. The Role of Women in America: Arts and Self
Winter of even-numbered years. 4(4-0)
Juniors
Various art forms by women and the exploration of a feminine sensibility; sex, race, and class interactions, in stereotypes; male views of women and themselves; the impact of the media.

381. The Role of Women in America: Movements and Ideology
Spring of odd-numbered years. 4(4-0)
Juniors
Key personalities and philosophical currents in the women's movement; biological and cultural myths and realities; the historical role of the family, "The Culture of Romance."

439. Writing the Research Report
Winter, Spring. 4(4-0) Juniors
Advanced methods and organization of written research reports will be taught by providing examples, exercises, and writing practice based on research submitted by the students.

449. Technical Report Writing
Winter, Spring. 4(4-4) Completion of ATL requirement, Juniors or approval of instructor.
Use and understanding of language through writing and editing clear, concise, purposeful technical reports, letters, instructions, proposals.

ANATOMY ANT
College of Human Medicine
College of Osteopathic Medicine
College of Veterinary Medicine

216. Applied Human Anatomy
Fall, Spring. 5(4.3) HPR major or minor.
Structural anatomy of the various systems of the human body. Concepts of kinésiological applications.

316. General Anatomy
Fall, Spring. 5(5-0) B S 211 or B S 212 or approval of department.
Designed to impart the basic concepts of the broad field of anatomy. Special requirements of the various disciplines will be met in their respective laboratories.

420. Microscopic Anatomy
Winter. 5(2-0) Medical Technology students or approval of department.
Microscopic study of the structure of cells, tissues and organs.

480. Special Problems
Fall, Winter, Spring. Summer. 1 to 5 credits. May reenroll for a maximum of 15 credits. Approval of department. Individual study or project under the direction of a faculty member in biomedical research, gross anatomy, histology, neurology, or embryology.

505B. Anatomy in Physical Diagnosis
Fall. 1 to 3 credits. ANT 505A or approval of department.
Exercises in which students study regional anatomy in a physical diagnosis context. Preparatory self-instruction precedes exercises.

505C. Anatomy in Physical Diagnosis
Spring. 1 to 3 credits. ANT 505B or approval of department.
Exercises in which students study regional anatomy in a physical diagnosis context. Preparatory self-instruction precedes exercises.

510. Veterinary Gross Anatomy
Fall. 6(3-9) First-term Veterinary Medicine students.
Gross anatomy of a representative animal, the dog, is studied. Lecture, dissection of embalmed specimens, study of sections, slides, models and living animals.

511. Veterinary Histology
Fall. 5(5-0) First-term Veterinary Medicine students.
A general histology course for veterinary students which includes a survey of the tissues of the animal body.

512. Veterinary Neuroanatomy
Winter. 2(2-0) Second-term Veterinary Medicine students.
Gross anatomy of the central nervous system in animals emphasizing functional and dysfunctional aspects of pathways and nuclei in dogs as a foundation for clinical neurology.

513. Veterinary Microscopic Anatomy
Winter. 4(2-4) Second-term Veterinary Medicine students.
Microscopic anatomy of the digestive, urinary, respiratory, male and female reproductive systems, integumentary system, central nervous system and special sense organs of domesticated animals.

514. Veterinary Comparative Anatomy
Spring. 5(4-4) Third-term Veterinary Medicine students.
Lecture, dissection of embalmed specimens and the study of prosections, models and live animals related to the anatomy of the domestic animals.

540. Gross Biomedical Structure
Winter. 1 to 15 credits. May reenroll for a maximum of 15 credits. Admission to a college of medicine; graduate students with approval of department.
Regional gross anatomy of the head and neck.

541. Gross Biomedical Structure
Spring. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department.
Regional gross anatomy of the head and neck.

542. Gross Biomedical Structure
Fall. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department.
Regional gross anatomy of the limbs.

543. Microscopic Anatomy
Winter, 3(1-3) Human Medicine students; approval of department.
The principles of microscopic anatomy, utilizing self-instructional units and laboratory experience with organ sections viewed through the light microscope.

544. Human Ontogeny
Fall. 3(3-0) Admission to a college of medicine; graduate students with approval of department.
Formal lectures, class conferences and student reports on the normal and abnormal organogenesis of the human embryo and fetus with emphasis on clinical correlations.

545. Neuropathology
Spring. 3(0-4) Admission to medical school or approval of Neuroscience Committee.
Introduction to gross and microscopic anatomy of the human nervous system, to related basic neurophysiologic concepts and to a problem-solving approach to the diagnosis of nervous system disease.

560. Medical Histology
Summer. 4(3-4) Admission to a college of medicine; graduate students with approval of department.
Structural and functional characteristics of basic cells, tissues and organ systems. Emphasis on core concepts and visual discrimination.

563. Osteopathic Medical Neuroanatomy
Fall. 4(3-4) Admission to a college of medicine; graduate students with approval of department.
Medically oriented problem-solving neuroanatomy with laboratory. Structure of the human nervous system is correlated with normal function, clinical testing and classical lesions encountered in medical practice.

565. Introduction to Human Gross Anatomy
Summer. 6(4-6) Admission to a college of medicine or approval of department.
Core concepts in regional, systemic and topographical human gross anatomy: Prosection, discussion and lecture methods using audiovisual aids and frequent review.

580. Special Problems
Fall, Winter, Spring. Summer. 1 to 5 credits. May reenroll for a maximum of 15 credits. Admission to professional program in the College of Human Medicine, College of Osteopathic Medicine or the College of Veterinary Medicine, and approval of department.
Biomedical research, gross anatomy, histology, neurology, immunology or embryology.

813. Problems in Anatomy
Fall, Winter, Spring. Summer. Variable credit. May reenroll for a maximum of 15 credits. Basic disciplines in various areas and approval of department. Various anatomical fields such as gross anatomy, histology, hematology, tissue culture, cytology, neurology and embryology will be studied.

815. Anatomy of the Nervous System
Fall. 5(3-5) Approval of department.
Developmental, gross and microscopic anatomy of the nervous system. Organizational and functional aspects of the peripheral and central nervous system are stressed. Gross demonstrations include brain and dog dissections.
245. **Meat Evaluation and Grading**  
*Fall, Winter, 1 to 3 credits.* May reenroll for a maximum of 4 credits subject to a maximum of 10 credits in A H 245 and A H 335 combined, A H 235.  
Evaluation of beef, pork, and lamb carcasses and wholesale cuts according to industry and consumer demands and federal grading regulations. Numerous field trips to meat packing operations.

335. **Livestock Selection**  
*Fall, Winter, Spring, 1 to 3 credits.* May reenroll for a maximum of 9 credits subject to a maximum of 10 credits in A H 245 and A H 335 combined, A H 235.  
Evaluation of productive merit of individual animals. Comparison of type with a standard. Relationship of form to function. Field trips to prominent livestock breeding establishments and to major livestock events.

341. **Principles of Meat Science**  
*(244)*  
*Winter, 3(3-0)*  
Structure, composition and function of muscle, its conversion to meat, animal growth and fattening, properties of processed meats, microbiology, preservation, palatability, inspection and sanitation, by-products, nutritive value.

415. **Special Problems**  
*Fall, Winter, Summer, 1 to 3 credits.* May reenroll for a maximum of 8 credits. Approval of department.  
Special problems in: animal breeding, ruminant nutrition, nonruminant nutrition, management, meat science, or reproduction.

451. **Swine Production**  
*Fall, 4(3-2) or approval of department.*  
Historical aspects with emphasis on current trends. Breeds, breeding, selection, nutrition requirements, management practices, marketing, housing and environmental needs, disease and parasite problems. Visits to representative farms.

452. **Sheep Production**  
*Winter, 4(3-2) or approval of department.*  
Management of sheep enterprises. Using the tools of selection, reproduction, nutrition, flock health, housing and environmental needs, management practices, marketing, housing and marketing to increase returns. Practice in trimming, showing, and management skills.

453. **Beef Production**  
*Fall, Spring, 4(3-2) or approval of department.*  
Feeding, breeding management, marketing. Emphasis on growth and development, costs and returns, management, reproduction, crossbreeding, performance testing, housing, diseases. Practice in management skills.

### ANIMAL HUSBANDRY — Descriptions of Courses

#### 820. Advanced Neuroanatomy: Structure and Function of Cells of CNS  
*Spring.*  3 credits. ANT 815 and approval of instructor.  
Correlated anatomy and physiology of CNS cells and their processes including current concepts and principles of cytology, ultrastructure, development and plasticity, axonal transport, and functional connections.

#### 865. Advanced Neurobiology  
*Spring.*  4(4-0) BPY 827.  
Interdepartmental with the departments of Biochemistry, Physiology, Psychology, and Zoology.  
Basic organization, structure and function of neural networks comprising sensory, motor, and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

#### 891. Concepts in Tumorigenesis  
*Winter of even-numbered years.*  2(2-0) Approval of instructor.  
In depth evaluation of the current concepts in tumorigenesis emphasizing the experimental results from which these concepts evolved.

#### 899. Master's Thesis Research  
*Fall, Winter, Spring, Summer.*  
Variable credit. Majors.

#### 999. Doctoral Dissertation Research  
*Fall, Winter, Spring, Summer.*  
Variable credit. Majors.

### ANIMAL HUSBANDRY — A H

#### College of Agriculture and Natural Resources

111. **Livestock and Meat Industry**  
*Fall, Spring.*  4(3-4)  
Livestock utilization of renewable resources in producing products for men. Adaptation, economics of production and management systems of beef cattle, swine, sheep and horse enterprises. Evaluation of market livestock.

214. **Introduction to Horses and Horsemanship**  
*Fall.*  3(3-1)  
The horse industry in today's society. Relationship of form to function. Selection, breeding, feeding, foot care, health, and management of the pleasure horse. Proper horsemanship methods.

215. **Live Animal and Carcass Evaluation and Selection**  
*Fall.*  3(1-4)  
Evaluation of breeding stock, market animals, and carcasses. Emphasis on production records and soundness of breeding animals, quality grading, yield grading and pricing market animals and carcasses.

242. **Meats, Poultry and Fishery Products I**  
*Fall.*  3(2-2) Interdepartmental with and administered by Food Science.  
Principles of evaluation and nutritive value. Identification of grades and cuts of beef, pork, lamb and poultry products.

462. **Meat Animal Breeding**  
*Spring.*  3(2-2) ANS 361.  
Uses and effects of different breeding systems with beef, sheep, swine, Formulating breeding plans.

IDC. **The Impact of Animal Resource Management Upon the World's Developing Nations**  
For course description, see Interdisciplinary Courses.

827. **Research Methods in Nutrition**  
*Fall.*  2(2-0) Approval of department.  
Experimental techniques in nutrition: ration formulation, animal management, sampling procedures, basic trials, bioassays, tracer methodology, determination of nutrient requirements.

890. **Advanced Special Problems**  
*Fall, Winter, Spring.*  1 to 4 credits. Approval of department.  
Investigation of animal husbandry areas of special interest to individual graduate students.

899. **Master's Thesis Research**  
*Fall, Winter, Spring.*  1 credit.  
Variable credit. Approval of department.

912. **Seminar**  
*Fall, Winter, Spring.*  1 credit.

921. **Pathology of Nutritional and Metabolic Diseases**  
*Summer of even-numbered years.*  4(3-2) Approval of department; PTH 404 or ANT 420, ANS 525, BCH 452, HNF 462 recommended.  
Interdepartmental with Human Nutrition and Foods and the departments of Large Animal Surgery and Medicine, and Pathology. Administered by Human Nutrition and Foods.  
Development, physiopathology and morphologic pathology of nutritional and metabolic diseases including carbohydrate, protein, fatty acid, vitamin and mineral deficiencies, their experimental induction and their medical or economic significance.

926. **Comparative Nutrition-Lipids and Carbohydrates**  
*Winter of odd-numbered years.*  4(4-0)  
BCH 452 and a previous course on principles of nutrition. Interdepartmental with and administered by Human Nutrition and Foods.  
Regulatory aspects of carbohydrate and lipid metabolism as influenced by nutrition in mammals. Emphasis on normal and abnormal physiological states such as obesity, ketosis and diabetes.

927. **Comparative Nutrition-Protein Metabolism and Developmental Biology**  
*Winter of even-numbered years.*  4(4-0)  
BCH 452, PSL 802 or concurrently.  
Interdepartmental with and administered by Human Nutrition and Foods.  
Protein quality assessment, protein status, protein calorie malnutrition, amino acid metabolism, protein turnover, digestion and absorption, hormonal control of protein metabolism, developmental aspects of protein metabolism and growth.
