Courses

240. Introductory Physiology
Fall, Spring. 4(4-0) Sophomores or approval of department.
Phyiology of the cell, nerve and reflex activity, skeletal muscle, brain, and cardiovascular system emphasizing environmental influences such as disease and exercise.

241. Introductory Physiology
Winter. Summer of even-numbered years. 4(4-0) PSL 240 or approval of department.
Continuation of PLS 240. Physiology of respiration, digestion, metabolism, kidney, endocrinology, and reproduction.

323. Physiology, Anatomy, and Hygiene of the Eye
Fall. Summer of even-numbered years. 3(2-2) PSL 323. Elementary Education or Special Education major, or approval of department.
Basic course in anatomy, physiology, and hygiene of the visual system, includes discussion of normal visual functioning and abnormal visual functioning, with methods of correction and education implications.

401. Comparative Physiology I
Fall. 4(3-4) PSL 401 or B S 212; CEM 131 or CEM 141. Interdepartmental with the Department of Zoology.
A comparison of osmoregulation, digestion, respiration, and other physiological processes in a wide range of organisms.

402. Comparative Physiology II
Winter. 4(4-4) PSL 401 or approval of department. Interdepartmental with and administered by the Department of Zoology.
A comparison of sensory, motor, endocrine and other integrative mechanisms in animals.

416. Physiology of the Cell
Fall. Summer of odd-numbered years. 3(3-0) BCH 401 or BCH 451.
Physiologic mechanisms common to all living cells with emphasis on those of the vertebrates. The functions of the cell membrane and cytoplasm are studied as the basis for the physiologic behavior of vertebrate organs and systems.

431. Human Physiology
Winter. 4(4-0) One year of biological science or ANT 316; CEM 131 or CEM 141.
Physiology of the digestive, endocrine, nervous, and reproductive systems.

432. Human Physiology
Spring. 4(4-0) One year of biological science or ANT 316; CEM 131 or CEM 141.
Physiology of the autonomic nervous, cardiovascular, renal, and respiratory systems.

440. Avian Physiology
Spring. 4(4-3) Approval of department. Interdepartmental and administered jointly with Poultry Science.
Systemic physiology of birds emphasizing respiration, circulation, temperature regulation, the endocrinology, and reproduction.

444. Mammary Physiology
Winter. 4(3-2) PSL 240, BCH 200.
Interdepartmental and administered jointly with Dairy Science.

445. Endocrinology and Reproductive Physiology
Fall. 4(5-0) PSL 240. Interdepartmental and administered jointly with Dairy Science.
Processes of reproduction and endocrinology with special emphasis on anatomy of reproductive systems, folliculogenesis, gametogenesis, reproductive cycle, fertilization, sex determination, gestation and artificial regulation of these reproductive events for economic benefit.

1DC. Biological Membranes
For course description, see Interdisciplinary Courses.

480. Special Problems
Fall, Winter, Spring, Summer. 1 to 5 credits. Approval of department.

481. Honors Research Paper
Fall, Winter, Spring, Summer. 2 credits. PSL 480 and approval of department.
Oral and written presentation of undergraduate research project initiated and carried forward under PSL 480.

497. Principles of Endocrinology
Winter. 4(4-0) One year organic chemistry; ZOL 317. Interdepartmental with and administered by the Department of Zoology.
Hormonal principles, illustrated by experimental observations, in vertebrates and invertebrates. Emphasis on cellular endocrinology. Group discussion, background in organic chemistry and cell biology strongly recommended. Term paper required.

500A. Introductory Physiology for Medicine
Fall, Winter. 5(5-0) Admission to the professional program in a college of medicine. Concepts and problems in physiology to be followed by supplemental physiology instruction during subsequent phases of medical training.

500B. Introductory Physiology for Medicine
Fall. 4(4-0) Admission to the professional program in a college of medicine.
Principles of systemic physiology germane to the practice of medicine.

500C. Introductory Physiology for Medicine
Winter. 5(5-0) Admission to the professional program in a college of medicine.
Continuation of PSL 500B.

500D. Introductory Physiology for Medicine
Winter. 4(4-0) Admission to the professional program in a college of medicine.
Concepts and problems in physiology germane to the practice of medicine.

500E. Introductory Physiology for Medicine
Spring. 4(4-0) Admission to the professional program in a college of medicine.
Continuation of PSL 500D.

503. Cell Biology
Fall. 5(5-0) Admission to the College of Human Medicine. Interdepartmental with the departments of Biochemistry, Microbiology and Public Health, and Pharmacology and Toxicology. Administered by the Department of Microbiology and Public Health.
Principles of cell biology for medical students.

801. Advanced Cell Physiology
Fall. 5(3-0) PSL 431, PSL 432 or PSL 401, PSL 402; BCH 451; BCH 453; BCH 455 or concurrently, or approval of department; calculus recommended.
Concepts in advanced cellular physiology, including assay of metabolic reactions, and specialized cell functions including nerve, muscle, secretary, epithelial and lymphocyte.

802. Advanced Systemic Physiology I
Winter. 5(4-0) PSL 801 or approval of department.
Physiology of the respiratory, nervous, and cardiovascular systems. Principles of physiological control systems.

803. Advanced Systemic Physiology II
Spring. 5(6-0) PSL 802 or approval of department.
Physiology of the renal, gastrointestinal, endocrine, and reproductive systems.

804A. Neuroscience Laboratory I
Winter. 4(2-4) Approval of instructor. Interdepartmental with the departments of Biophysics, Psychology, and Zoology. Administered by the Department of Psychology.
Development of skills in the methods, techniques and instrumentation necessary for research in a variety of areas concerned with neuroscience.

804B. Neuroscience Laboratory II
Spring. 4(2-4) PSY 804A. Interdepartmental with the departments of Biophysics, Psychology, and Zoology. Administered by the Department of Psychology.
Continuation of PLS 804A.

808. Neuroendocrinology
Winter of even-numbered years. 3(3-0)
Approval of department.
Anatomical, biochemical, and physiological aspects of neuroendocrinology. Control systems and interaction among endocrine glands will be emphasized.

809. Physiology of Aging
Winter of odd-numbered years. 3(3-0)
Basic course on elements of physiology. Theories of aging; vital statistics; changes in cellular, tissue and organ functions; pathology; integrative mechanisms; longevity and life prolongation; neurotransmission; immunology; brain function; chronological versus individual aging.

819. Kidney Physiology and Electrolyte Metabolism
Summer of even-numbered years. 4(4-0) PSL 802, approval of department.
Critical study of the literature on classical and contemporary principles of renal physiology and related aspects of body fluid and electrolyte metabolism.
836. Physical Principles of Biological Systems  
Fall of even-numbered years. 3(3-0)  
Application of laws and methods of physics to measurement and description of physiological phenomena.

837. Radiobiology  
Fall of even-numbered years. 3(3-0)  
Approval of department.  
Application of radioactive tracer techniques to study of biological functions. Determination of turnover rates and tissue constituents by isotope dilution. Control of radiation hazards.

859. Analysis of Hormone Action  
Spring. 4(4-0) ZOL 317; or approval of department. Interdepartmental with and administered by the Department of Zoology.  
Discussion of recent work on the molecular and developmental aspects of hormone action in vertebrates and invertebrates. Selected topics to vary from year to year.

865. Advanced Neurobiology  
(BIM 865.) Spring. 4(4-0) BFI 827. Interdepartmental with the departments of Anatomy, Biophysics, Psychology, and Zoology. Administered by the Department of Anatomy.  
Basic organization, structure and function of neural networks comprising sensory, motor and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

875. Advanced Physiology Laboratory  
Summer of odd-numbered years. 4(2-5) PSL 801, PSL 802, PSL 803 and approval of department.  
Experiments in animal and human physiology; data collection, analysis and interpretation.

885. Vertebrate Neural Systems I  
Fall of odd-numbered years. 3(3-4)  
Approval of department; ANT 515 and BFI 527 recommended. Interdepartmental with the departments of Zoology, Biophysics, and Psychology. Administered by the Department of Psychology.  
Structure and function of major component systems of vertebrate brains, their evolution, ontogeny and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.

886. Vertebrate Neural Systems II  
Winter of even-numbered years. 3(3-4)  
PSY 885. Interdepartmental with the departments of Psychology, Biophysics, and Zoology. Administered by the Department of Zoology.  
Continuation of PSL 885. Major component systems of vertebrate brains, their evolution, ontogeny, and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical, and physiological studies.

999. Master's Thesis Research  
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

1090. Introduction to Political Science  
Fall, Winter, Spring, Summer. 3(3-0)  
Acquaints the student with the theories, methods and concepts of political science. Emphasis is on ideology and interests in the political process.

1091. Advanced Physiology  
Fall of even-numbered years. 4(2-5)  
Administered by the Department of Anatomy.  
Experiments in animal and human physiology; determination of developmental aspects of hormone action in vertebrates and invertebrates. Attendance at neuroscience seminar is required.

1945. Physiology of Mammalian Reproduction  
Winter of odd-numbered years. 4(5-0)  
DRY 445 or PSL 445 or approval of department. Interdepartmental with and administered by Dairy Science.  
Chemistry and biosynthesis of reproductive hormones. Gonadal, hypothalamic and pituitary development of reproductive potential. Ovulation, fertilization, implantation and placentaion will be studied. Relationships of conceptus, uterus and corpus luteum. Parturition.

950. Topics in Physiology  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.  
Classical and modern concepts in selected areas of physiology.

990. Problems  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.  
Limited amounts of individual work on selected research problems.

999. Doctoral Dissertation Research  
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

POLITICAL SCIENCE

PSL  

College of Social Science

100. American National Government  
Fall, Winter, Spring, Summer. 3(3-0)  
Major aspects of national government with emphasis on the policy-making process.

140. Comparative Politics  
Fall, Winter, Spring. 3(3-0)  
Comparison of political systems in western and non-western nations.

160. International Relations  
Fall, Winter, Spring, Summer. 3(3-0)  
Contemporary world affairs surveyed. The struggle for power, the nation-state system; factors creating harmony and hostility among nations. War and peace in our time.

170. The Lims  
Fall, Winter, Spring. 3(3-0)  
Introduction to basic contemporary political ideologies; theoretical foundations of democracy, socialism, communism, political edition, and nationalism. Special attention to ideology underlying contemporary political problems.

190. Introduction to Political Science  
Fall, Winter, Spring, Summer. 3(3-0)  
Acquaints the student with the theories, methods and concepts of political science. Emphasis is on ideology and interests in the political process.

191. Advanced Physiology  
Fall of even-numbered years. 4(2-5)  
Administered by the Department of Anatomy.  
Experiments in animal and human physiology; determination of developmental aspects of hormone action in vertebrates and invertebrates. Attendance at neuroscience seminar is required.

1945. Physiology of Mammalian Reproduction  
Winter of odd-numbered years. 4(5-0)  
DRY 445 or PSL 445 or approval of department. Interdepartmental with and administered by Dairy Science.  
Chemistry and biosynthesis of reproductive hormones. Gonadal, hypothalamic and pituitary development of reproductive potential. Ovulation, fertilization, implantation and placentaion will be studied. Relationships of conceptus, uterus and corpus luteum. Parturition.

950. Topics in Physiology  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.  
Classical and modern concepts in selected areas of physiology.

990. Problems  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.  
Limited amounts of individual work on selected research problems.

999. Doctoral Dissertation Research  
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

POLITICAL SCIENCE

PSL  

College of Social Science

100. American National Government  
Fall, Winter, Spring, Summer. 3(3-0)  
Major aspects of national government with emphasis on the policy-making process.

140. Comparative Politics  
Fall, Winter, Spring. 3(3-0)  
Comparison of political systems in western and non-western nations.

160. International Relations  
Fall, Winter, Spring, Summer. 3(3-0)  
Contemporary world affairs surveyed. The struggle for power, the nation-state system; factors creating harmony and hostility among nations. War and peace in our time.

170. The Lims  
Fall, Winter, Spring. 3(3-0)  
Introduction to basic contemporary political ideologies; theoretical foundations of democracy, socialism, communism, political edition, and nationalism. Special attention to ideology underlying contemporary political problems.
