942. **Federalism and Intergovernmental Relations**

Winter of odd-numbered years. 4(3-0)

How federal systems originate and are maintained; patterns in allocations of power between national and state levels; the political processes involved in intergovernmental relations; cooperative federalism; trends in American federalism.

943. **Community Decision Making**

Winter of even-numbered years. 4(3-4)

Discussion and critique of the power structure literature; emphasis on methods of studying community elites.

944. **State Government and Politics Seminar**

Spring of odd-numbered years. 4(3-0)

Comparative study of state governments based on resources and other aggregate characteristics, political organizations and behavior. Models of political process, governmental structure variables and their relation to policy outputs.

953. **The Politics of Selected Areas**

Winter of even-numbered years. 4(3-0)

May reenroll for a maximum of 12 credits. Approval of department.

Analysis in depth, using comparative theory and method, of political systems and changes in selected administrative or cultural areas.

964. **Selected Topics in International Relations**

Winter. 4(3-0) May reenroll for a maximum of 12 credits. Approval of department.

Intensive analysis of special problems and issues such as international political and economic development, international and intercultural communications, international violence, etc.

971. **Classical and Medieval Political Thought**

Spring of odd-numbered years. 4(3-0)

Systematic analysis of selected works of such classical political philosophers as Plato, Aristotle and others whose work provides both an understanding of the modern political perspective of the Western World and the philosophical underpinnings of modern political thought.

972. **Modern Political Thought**

Spring of even-numbered years. 4(3-0)

Systematic analysis of selected works of such writers as Machiavelli, Hobbes, Locke, Montesquieu, Hume, Rousseau, Burke, Mill, Marx or other political philosophers. Special attention is given to those writers or works relevant to understanding the philosophical foundations of contemporary social science and ideology.

973. **American Political Thought**

Fall of odd-numbered years. 4(3-0)

Study of the thinkers and social forces which have shaped American political ideology.

981. **Selected Topics in General Political Theory**

Fall, Winter, Spring. 4(3-0) May reenroll for a maximum of 12 credits. May reenroll for a maximum of 12 credits. May reenroll for a maximum of 16 credits. Approval of department.

Analysis in depth of such topics as individual political choice, collective choice and decision making, political coalitions, political leadership, political communication and diffusion processes, political integration and differentiation, equality and inequality, and interaction models of conflict.

990. **Seminar**

Fall, Winter, Spring. 4 to 12 credits.

May reenroll for a maximum of 16 credits. Intensive training in individual or group research. Sections of the seminar may involve one or more doctoral fields and the credit earned will vary accordingly.

993. **Readings in Political Science**

Fall, Winter, Spring, Summer. Variable credit. May reenroll for a maximum of 10 credits.

999. **Doctoral Dissertation Research**

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

### PORTUGUESE

See Romance and Classical Languages.

### PULTRY SCIENCE

See Animal Sciences.

### PSYCHIATRY PSC

**College of Human Medicine College of Osteopathic Medicine**

520. **Introduction to Psychiatry**

Fall. 2 to 4 credits. Admission to a college of medicine or approval of instructor.

Discrimination between various concepts of normality, understanding of psychological mechanisms, making observations and inference generation, recognition of normative crises and the psychiatric examination will be taught through lectures and discussions.

521. **Psychopathology**

Spring, Summer. 3(3-0) PSC 520 or concurrently.

Recognition, description, and treatment of most psychopathologic states will be taught through lectures, audio-visual presentations, and group discussions.

533. **Fundamentals of Personality Dysfunction**

Winter. 2(2-0) Admission to a college of medicine and approval of department. PSC 514 concurrently.

Characteristic patterns of behavior, symptomatology, treatment and prognosis of common psychiatric disorders and disturbed patterns of personality function.

540. **Families in Crisis: A Clinical View**

Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 4 credits. Student in medicine, nursing or graduate student in psychology, counseling, social work or related field. Interdepartmental with and administered by the Department of Family Practice.

Dynamics of family crises as might be experienced in health care settings. Videotapes, readings and small group discussions to illustrate family dynamics.

590. **Special Problems in Psychiatry**

Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 15 credits. Medical students; graduate students with approval of department.

Each student will work under direction of a staff member on an experimental, theoretical or applied problem.

### PSYCHOLOGY PSY

**College of Human Medicine College of Osteopathic Medicine**

139. **Psychology of Women**

Winter, Spring. 3(3-0) Primarily for Freshmen and Sophomores.

Psychological development of sex-typed behavior and sex differences in cognitive and personality functioning; reproductive behavior; impact of social expectations on self-concept, achievement and affiliation orientations, and life decisions.

160. **Introductory Psychology: Social-Personality**

Fall, Winter, Spring, Summer. 3(3-0)

The complex functioning of the individual in his social environment will be considered. Topics include: socialization, interpersonal perception, group processes, motives, emotions, attitudes, and values. Students may participate in psychological experiments outside of class.

170. **Introductory Psychology: General**

Fall, Winter, Spring, Summer. 4(4-0)

Principles underlying the behavior of humans and animals. Topics include: cognition, emotion, motivation, learning, sensation, and perception. Students may participate in psychological experiments outside of class.

209. **Elements of Physiological Psychology**

Fall, Winter. 3(3-0) PSY 160 or PSY 170.

Fundamentals of modern biological psychology. Emphasis on information essential for study of physiological correlates of perception, motivation, learning, emotion and development.

215. **Introduction to Psychological Measurement**

Fall, Winter, Spring. 4(3-2)

Psychology as a quantitative discipline: graphical presentation and interpretation; psychological data in various content fields; methods of summarizing behavioral data; samples, populations and probability in psychological research; hypothesis testing.
225. Psychology of Personality
Fall, Winter, Spring, Summer. 3(3-0)
PSY 160 or ED 200 or Sophomores with approval of department.
Application of psychological principles to an introductory understanding of personality and interpersonal adjustments; social motivation, frustration, conflicts, and adjustment mechanisms; theories of adjustment, the assessment of personality, problems of mental hygiene and some theories of psychotherapy.

244. Developmental Psychology: Infancy through Childhood
Fall, Winter, Spring. 4(4-0)
PSY 160 or PSY 170 or ED 200.
Developmental psychology of the infant and child including biological, social, cognitive, moral, perceptual and cultural development; relations with care givers and peers as well as development of individual characteristics.

246. Sensitivity to Children I
Fall. 3(2-2) To receive credit PSY 246.
PSY 247, PSY 248 must be completed satisfactorily except by prior arrangement with instructor. Sophomores and 3 credits in psychology.
Three-term sequence emphasizes supervised weekly play with a child and analysis of videotaped response. Readings and discussions cover problems faced by child therapist, teachers and parents.

247. Sensitivity to Children II
Winter. 3(2-2) To receive credit PSY 246.
PSY 247, PSY 248 must be completed satisfactorily except by prior arrangement with instructor. PSY 246.
Continuation of PSY 246.

248. Sensitivity to Children III
Spring. 3(2-2) To receive credit PSY 246.
PSY 247, PSY 248 must be completed satisfactorily. PSY 247.
Continuation of PSY 247.

255. Organizational and Personnel Psychology
Fall, Winter, Spring, Summer. 3(3-0)
Introductory course in psychology. The psychology of managing and leading, personnel operations, and the humanizing of work organizations.

260. Human Sexuality
Fall, Spring. 3(3-0) Credit may not be earned in both FCS 445 and PSY 290. Sophomores.
Lecture and discussion of the fundamental principles of human sexuality focusing on such topics as physiology, psychological development, cultural perspectives, gender roles, premarital standards, values and human interactions.

291. Independent Study: Research Participation
Fall, Winter, Spring. 1 to 3 credits. May be enrolled for a maximum of 3 credits. PSY 160 or PSY 170, PSY 215.
Student participates as an assistant in an ongoing psychological research project under the direction of a staff member in order to become familiar with the procedures of psychological research.

301. Human Learning and Memory
Winter, Spring, Summer. 4(4-0) PSY 170 or PSY 215.
Concepts, procedures, issues, and principles involved in the acquisition, retention, transfer and execution of verbal learning, identification learning, and perceptual-motor skills.

308. Psychology of Thinking
Winter. 3(3-2) PSY 170, or ED 200, PSY 215; one additional course in experimental psychology recommended.
Principles, concepts, theories and research on cognitive process and thinking, including problem solving, creative and critical thinking, reasoning, and concept formation. Experimental analysis, individual differences and information-processing approaches.

309. Physiological Psychology
Fall, Winter, Spring. 3(3-0) PSY 209 or an elementary course in zoology, biology or physiology.
Physiological mechanisms underlying basic behavioral processes, including sensation, emotion, motivation and learning.

312. Learning and Motivation
Fall, Winter, Spring. Summer of odd numbered years, 3(3-4) PSY 170, PSY 215; PSY 313 concurrently.
Detailed analysis of basic conditioning processes such as reinforcement, discrimination, generalization, punishment, adverse behavior, and theories of learning. Emphasis on finite data, but applications to human behavioral modification are considered.

313. Experimental Psychology: Learning and Motivation
Fall, Winter, Summer. Summer of odd numbered years, 3(3-0) PSY 170, PSY 215; PSY 312 concurrently.
Representative experiments in operant behavior, including an individual project selected by the student, using the pigeon as the laboratory animal.

316. Sensory Processes
Winter. 3(3-0) PSY 170; PSY 215 or a college-level mathematics or statistics course.
Sensory organs and their associated neural systems as they relate to sensory phenomena; emphasis on vision. Review of major methodologies.

317. Perception
Fall. 3(3-0) PSY 170.
Concepts, principles, results, and applications in perception; emphasis on vision.

335. Principles of Social Psychology
Fall, Winter, Spring. 4(4-0) PSY 160. Students may not earn credit in both PSY 335 and SOC 251.
A critical survey of social psychology with emphasis on psychological principles underlying social behavior. Topics include social perception; motivation; attitudes and attitude change; social interaction in small groups and in large-scale organizations.

336. Psychology of Social Movements
Fall, Spring. 3(3-0)
Psychology of political, religious, and other social movements; group identifications and affiliations, socialization, conversion, and defection; the perception of social movements by members; influences of motivation and personality on ideologies and social movements.

337. Legal and Criminal Psychology
Fall, Winter, Spring. 3(3-0) PSY 160 or ED 200.
Application of psychological principles, methods and techniques to legal and criminal problems and procedures, including the formation, detection, prevention, and rehabilitation of criminal behavior, testimony, legal arguments, trial tactics and the other courtroom procedures.

344. Developmental Psychology: Adolescence and Youth
Winter, Spring, Summer. 3(3-0) PSY 244.
Continuation of PSY 244 covering development during adolescence and youth with emphasis on problems of identity and adjustment to the social environment.

356. Organizational Psychology
Fall, Spring. 3(3-0) An introductory course in psychology; PSY 255 or MGT 310.
Students may not earn credit in both PSY 356 and MGT 419.
Leader behavior, attitudes, interpersonal behavior, motivation and communication of individuals in organizations.

357. Consumer Psychology
Winter, Spring. 3(3-0) An introductory course in psychology.
Psychology underlying techniques of effective advertising, selling, and marketing and, at the same time, psychology relevant to living in a market-oriented culture.

370. Psychology and Social Innovation
Winter. 3(3-0) A social science research methods course or approval of department.
Planning, implementing and evaluating experimental approaches to social problems. Topics include: adoption of innovations, field research problems, science and policy formation, parameters of program evaluations.

371. Community Projects–I
Fall, Spring. 4(2-4) PSY 160 or PSY 170, approved of department.
Experience in working directly with adolescent offenders from the local community. Techniques of intervention with adolescent youth, their families, and important social systems which affect them.
Approved through Fall 1982.

372. Community Projects–II
Winter. 4(2-4) PSY 371, approval of department.
Continuation of PSY 371 with primary focus on direct work with adolescent youth, their families, and important social systems which affect them.
Approved through Winter 1983.

373. Community Projects–III
Fall, Spring. 4(2-4) PSY 372, approval of department.
Continuation of PSY 372.
Approved through Spring 1983.

390H. Honors Seminar
Fall, Winter, Spring. 1 to 5 credits.
May enroll for a maximum of 15 credits when different topics are offered. Honors students and approval of department.
History, theory, and current research in selected areas of psychology; including personality, motivation, perception, learning, industrial, ecological, mathematical, developmental, social, and clinical.

400. Selected Topics in Psychology
(400H) Fall, Winter, Spring. Summer. 2(2-2) to 5(5-5) May enroll for a maximum of 12 credits. Approval of department.
Selected topics in the areas of experimental, developmental, social, industrial, personality, mathematical, ecological, or clinical psychology.
403. Experimental Psychology: Human Learning  
Winter. 4(4-0) PSY 215 or approval of department.  
Application of principles of learning and motivation to humans of various ages and abilities in educational and non-educational settings. Some application to animal behavior. Extended practice, and to provide experience with a variety of instruments, methods, and techniques; professional roles for clinical psychologist.

405. Modern Viewpoints in Psychology  
Fall, Winter, Spring. 4(4-0) Juniors.  
Survey of psychological systems in the modern era including behaviorism, Gestalt psychology, psychoanalysis, neo-behaviorism in relation to other selected disciplines.

406. Psycho-ethology  
Spring. 4(4-0) Six credits of psychology or ZOL 412 or ZOL 413.  
Comparative and ethological methods and their application to behavior with emphasis on animals other than humans. Review of research on innate behavior, early experience, learning, motivation, and physiological processes.

408. Human Learning and Performance  
Fall, Winter, Spring. 4(4-0) PSY 215, PSY 301.  
Methodological considerations in design and analysis of experiments concerned with human learning, memory, transfer and performance in symbolic and skills activities including representative demonstrations and exercises.

409. Advanced Concepts in Physiological Psychology  
Fall, Winter, Spring. 4(4-0) PSY 309 or approval of department.  
Detailed analysis of advanced concepts in physiological psychology, such as vision, audition, somatic sensation, chemical senses, motivation, emotion, perception, arousal, learning, and the influence of hormones on behavior.

411. Psycholinguistics  
Fall. 4(4-0) PSY 301 or LIN 401.  
Experimental psychology of language, including speech perception, sentence processing, prose comprehension and memory, language production, and language acquisition.

413. Psychological Tests and Measurement  
Fall, Winter, Spring. 5(5-0) PSY 215.  
Methods, techniques, and instruments for measuring individual differences in behavior. Standard methods of construction, critical analysis of representative tests, criteria for evaluating and selecting tests, values and limitations of tests.

415. Child Psychopathology Etiology and Treatment  
Spring. 3(3-0) PSY 225, PSY 244.  
Description, development and treatment of child psychopathology. Psychodynamic, experiential/humanistic, cognitive/behavioral, and system approaches.

423. Abnormal Psychology  
Fall, Winter, Spring. Summer. 4(4-0) PSY 225.  
Nature of abnormal behavior and its social significance: description of symptoms and dynamics of psychological disorders; the neuroses and psychosomatic reactions, sociopathic behavior and character disorders, functional and somatogenic psychoses; some consideration of theories and theories of prevention.

426. Survey of Clinical Psychology  
Fall, Winter, Spring. Summer. 3(3-0) PSY 225.  
Clinical psychology; types of problems, diagnostic instruments, methods and techniques; individual and group therapeutic theories, methods, techniques; professional roles for clinical psychologist.

427. Personality: Dynamic Theories  
Fall, Winter, Spring. 3(3-0) PSY 425.  
Survey of personality theories of development, structure, and dynamics related to learning, determinants, cultural influences, behavioral disorders and assessment methods.

428. Psychology of Physical Disability  
Spring. 3(3-0) PSY 425.  
Psychological problems, principles and practices in physical disabilities and handicaps; psychological assessment and diagnosis; counseling and placement; re-education and retraining; attitudes, motivations, and emotion; psychological rehabilitation and adjustment.

430. Experimental Psychology: Personality  
Spring. 3(3-0) PSY 215.  
Critical survey of experimental investigations of personality dynamics and the effects of individual differences on social interaction; considerations of stress and anxiety, response set, cognitive styles, risk taking and subjective probabilities, and aggression. Emphasizes experimental techniques most relevant for those with clinical and social psychological interests.

431. Experimental Psychology: Personality  
Spring. 3(3-0) PSY 215.  
Further laboratory course coordinated with PSY 420, with laboratory demonstration and experiments conducted by the students, designed to clarify issues in the experimental study of personality, and to provide experience with a variety of investigative techniques.

435. Personality Research Techniques  
Spring. 4(3-2) PSY 215, PSY 255.  
Quantitative psychological research technique applied to typical personal problems in industry and government.

446. Psychology of Love and Maturity  
Fall, Winter. 4(4-0) Juniors and 3 courses in psychology.  
The function of love in human existence. Varieties of love; their effect upon the growth of the person in terms of awareness, integration, authenticity, social concern and responsibility, maturity and fulfillment.

447. Psychology of Political Behavior  
Fall, Winter, Spring. 3(3-0) PSY 335 or SOC 251 or 6 credits in sociology or political science. Interdepartmental with the Department of Political Science.  
Psychological theories, principles, methods and techniques applied to political behavior; belief systems; personality influences; decision making; psychological patterns in legislative voting; political leadership; interpersonal and international relations and tensions.

450. Personality: Psychodynamic, Behavioral, and System Approaches  
Fall, Winter, Spring. 3(3-0) PSY 430, PSY 450.  
Selected behavior problems in development. Emphasizes experimental techniques most relevant for clinical psychologists.
Descriptions — Psychology

of Courses

487. Psychology of Music
Winter, Summer. 3(2-2) PSY 486. Interdepartmental with the Department of Music. Basic research concepts and experimental methods in psychology of music research. Practical training in conducting experimental research of musical behavior.

489. Humaneistic Psychology
Fall, Spring. 4(4-0) Juniors and 3 courses in psychology. Subject matter is drawn from the psychology of personality in its various forms. The usual approaches of the behavioral sciences are subject to critical analysis. One goal is to derive some elements of a philosophy of life for humans as potentially rational and ethical beings.

490. Special Problems in Psychology
Fall, Winter, Spring. 1 to 6 credits. May reenroll for a maximum of 12 credits. Combined credits in PSY 490 and PSY 491 may not exceed 12. Approval of department. Each student will work under the direction of a staff member on an experimental, theoretical, or applied problem.

491. Participation in Psychological Projects
Fall, Winter, Spring. 1 to 6 credits. May reenroll for a maximum of 12 credits. Combined credits in PSY 490 and PSY 491 may not exceed 12. Approval of department. Each student will participate in a psychological project under the direction of a staff member.

499H. Senior Project
Fall, Winter, Spring. 3(0-6) May reenroll for a maximum of 6 credits. PSY 390H or approval of department. Independent research involving literature survey, naturalistic observation, or experimental investigation with staff supervision. Preparation of the Senior paper.

800. Conditioning and Learning
Fall. 4(3-0)
Detailed stimulus-response analysis of the basic operations of conditioning and learning, including such variables as reinforcement, motivation, and inhibitory effects, with an emphasis on human data.

801. Perception
Fall. 4(3-0) Majors or approval of department.
Consideration in depth of selected topics in perception. Integration of theoretical and empirical material.

804A. Neuroscience Laboratory I
(902A) Winter. 4(2-4) Approval of instructor. Interdepartmental with the departments of Biophysics, Physiology, and Zoology. Development of skills in the methods, techniques and instrumentation necessary for research in a variety of areas concerned with neuroscience.

804B. Neuroscience Laboratory II
(902B) Spring. 4(2-4) PSY 804A. Interdepartmental with the departments of Biophysics, Physiology, and Zoology. Continuation of PSY 804A.

805. History and Systems
(905) Fall of even-numbered years. 4(3-0) Psychology majors or approval of department.
Major scientific, cultural, philosophical, and personal influences in the development of psychology. Analysis of persisting issues.

806. Advanced Comparative Psychology
Fall of odd-numbered years. 4(3-0) Majors or approval of department. Behavior of infrahuman organisms with emphasis on general behavior processes as seen in a variety of animal forms. The comparative method as applied to innate behavior and behavior modification.

810. Human Learning and Performance
Spring. 4(3-0) Majors or approval of department. Experimental findings and theoretical analyses of the acquisition, retention, transfer and execution of verbal materials and perceptual-motor skills. Selected demonstrations of major phenomena.

811. Advanced Physiological Psychology
Spring. 4(3-0) Majors or approval of department. Psychology as a biological science. Consideration of physiological events underlying organism-environment interaction.

814. Psychological Language
Winter. 4(3-0) Experimental psycholinguistics, including speech perception, sentence processing, prose comprehension and memory, language production, and language acquisition.

815. Advanced Psychometrics
Fall, Winter. 4(4-0) A course in statistical inference; majors or approval of department. Theory and practice in analysis and interpretation of psychological data.

816. Advanced Psychometrics
Winter, Spring. 4(4-0) PSY 815. Continuation of PSY 815.

817. Advanced Psychometrics
Spring. 4(4-0) PSY 816. Multivariate methods of test analysis: multiple and partial correlation, factor and pattern analysis.

818. Test Construction
Winter. 4(4-0) PSY 817. Theory, methods, and techniques in the preparation and development of psychological test items and tests.

820. Mathematical Models in Psychology I
Fall. 4(4-0) MTH 111 and STT 201 or approval of department. Discussion of the relationship between mathematics and psychological theory. Examination of the concepts of structure and change in qualitative psychological systems. Application of algebraic techniques to psychological theory.

821. Mathematical Models in Psychology II
Winter of even-numbered years. 4(4-0) PSY 820 or approval of department. Representative mathematical models in psychology, attending particularly to stochastic models and the relationship between models and data. Advantages of various models for different psychological problems.

822. Computer Models in Psychology
Spring of even-numbered years. 4(3-2) An undergraduate mathematics course and approval of department. Use of an electronic computer as a tool in theory construction. Simulation of complex psychological processes. Computer-based models in several psychological content areas.

827. Personality Theory I
Fall. 4(3-0) Majors or approval of department. Freudian and neo-Freudian conceptualizations of personality and psychopathology. Examination of basic constructs; theory of psychosocial development; psychotherapeutic implications.

828. Clinical Assessment I
Fall. 2(0-4) Majors or approval of department. Assessment of psychodynamics and psychopathology. Individual case studies based on interviews and psychological tests. Behavioral correlates of psychodynamic problems.

829. Personality Theory II
Winter. 4(3-0) Majors or approval of department. Developmental and social-learning approaches to personality and psychopathology. Examinations of the relationship between learning and psychodynamics, socialization, maturation, applications of classical and operant conditioning. Psychotherapeutic implications.

830. Clinical Assessment II
Winter. 2 or 3 credits. PSY 828. Approval of department. Clinical assessment of children. Individual case studies making systematic use of behavior observations, interviews, and standardized tests. Integration of data and principles of development of new assessment procedures.

831. Personality Theory III
Spring. 4(3-0) Majors or approval of department. Interpersonal and phenomenological approaches to personality theory. Survey of major conceptualizations and principles relating to the presentation of self in individual and group settings. Psychotherapeutic implications.

832. Clinical Assessment III
Spring. 2 or 3 credits. PSY 830. Approval of department. Self-appraisal and investigation of interpersonal transactions in two-person and larger groups. Standardized techniques, individual case studies, and principles of development of new methods.

833. Research Methods in Clinical Psychology
Fall. 4(3-2) Majors or approval of department. Research strategies and the clinical method: types of evidence, similarities and differences, Questionnaires and scale construction. Introduction to design and data analysis. Social psychological and ethical issues in clinical research.

835. Experimental Psychology: Social
Fall. 4(3-2) One course in experimental psychology.
Intensive experience in designing, executing, reporting and evaluating research in social psychology, including an individual research project.
865. **Advanced Neurobiology**  
(BIM 865.) Spring. 4(4-0) FYF 827. Interdepartmental with the departments of Anatomy, Biophysics, Physiology, and Zoology. Administered by the Department of Anatomy.  
Basic organization, structure and function of neural network, vascularity, neurotransmitters, and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

866. **Personnel Selection and Evaluation**  
Fall of even-numbered years. 4(2-0)  
Fifteen graduate credits.  
Critical treatment of research methods and instruments in personnel selection and evaluation as applied to governmental, business and industrial situations.

870. **Introduction to Ecological Psychology**  
Fall. 4(4-0) PSY 815 concurrently or approval of department.  
What and why of experimental ecological psychology; planning, action, evaluation, dissemination of information. Researchable problems, funding. Groups of research teams identifying ecological variables. Class work and community research.

871. **Advanced Ecological Psychology**  
Winter. 4(4-0) PSY 870.  
Applications of ecological psychology: measurement, hypotheses and research plans; initiating, maintaining, terminating naturalistic psychological research; evaluating and publishing results. Review of selected experiments. Class work plus research in community.

872. **Experimental Production of Social Change**  
Spring. 4(4-0) PSY 870. PSY 871.  
Use of psychological research to produce social change. Creation of acceptance of social change. Examination of effectiveness of experimental intervention into social systems. Class work plus community research.

873. **Ecological-Community Psychology Research Methods I**  
Fall. 4(4-0) Approval of department.  
Ecological-community psychology literature with the intent of identifying social problems, methods for their solution, and the philosophical, political, and role-definition issues confronting the ecological-community psychologist. At least eight hours per week in a community setting required.

874. **Ecological-Community Psychology Research Methods II**  
Winter. 4(4-0) PSY 873. Approval of department.  
Planning and design of innovative field research including research planning, experimental design, quasi-experimental design, program evaluation, measurement, data gathering, validity and reliability, and the dissemination of research results. At least eight hours per week in a community setting required.

875. **Ecological-Community Psychology Research Methods III**  
Spring. 4(4-0) PSY 874. Approval of department.  
Implementation of field research and data analysis; coverage of SPSS commands and programs. At least eight hours per week in a community setting required.

885. **Vertebrate Neural Systems I**  
Fall of odd-numbered years. 5(3-4)  
Approval of department, ANT 815 and BPH 827 recommended. Interdepartmental with the departments of Zoology, Biophysics, and Physiology.  
Structure and function of major component systems of vertebrate brains, their evolution, ontogeny and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.

892. **Contemporary Industrial Psychology**  
Fall, Winter. 1(0-2) Must reenroll for a maximum of 2 credits. Graduate student status in the Department of Psychology.  
Through a series of invited presentations of current research activities and interests by guest faculty, this course facilitates the exploration of research projects, suitable for M.A. theses.

906. **Special Research Techniques**  
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 36 credits. Approval of department.

908. **Seminar in Organization Theory**  
Winter. 4(4-0) MGT 806; doctoral candidates, master's candidates with approval of department. Interdepartmental with and administered by the Department of Management.  
Directed reading and research on issues in contemporary organization theory.

914. **Seminar in Advanced General Psychology**  
Fall, Winter. 1 to 4 credits. May reenroll in different areas for a maximum of 24 credits. Thirty graduate credits in psychology or approval of department.  
Critical study of a selected area such as sensation, perception, motivation, emotions, learning, physiological, comparative, thought and language.

924. **Seminar in Measurement**  
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology.  
Critical study of a selected area such as factor analysis, pattern analysis, partial and multiple correlation analysis, psychophysical methods, scaling, reliability and validity, and factorial designs.
928. Practicum: Psychological Clinic I  
Fall. 2 to 5 credits. Approval of department. 
Introduction to clinical evaluation and treatment. Supervised experience in psychodiagnosis and psychotherapy of adults and children in the Psychological Clinic. Primary focus on work with families. Didactic seminar in related theory and research.

930. Practicum: Psychological Clinic II  
Winter. 2 to 5 credits. PSY 928. 
Continuation of PSY 928.

932. Practicum: Psychological Clinic III  
Spring. 2 to 5 credits. PSY 930. 
Continuation of PSY 930.

934. Seminar in Personality  
Fall, Winter, Spring. 1 to 4 credits. 
May reenroll in different areas for a maximum of 15 credits. Thirtv graduate credits with 15 of them in psychology. Clinical study of a selected area such as theory, assessments, dynamics, structure, the self and determinants.

935. Contemporary Theory and Research in Social Psychology  
Fall. 3(2-0) Thirty graduate credits in psychology. 
An intensive analysis of contemporary social psychological research monographs illustrating theoretical and methodological positions.

936. Attitudes and Personality  
Winter. 3(2-0) Thirty graduate credits. 
Review and analysis of research on sentiments, beliefs and opinions, authoritarianism, pseudoauthoritarianism, and democratic personality; functions, resistance to change and relation to value systems and ideology.

937. Individual Behavior and Complex Groups
