805. Environmental Measurements (A E 805) Fall. 4(3-3)
Methods and techniques for accurate measurement and interpretation of environmental parameters. Temperature, humidity, wind and air flow characteristics, radiation, light intensity, gaseous and particulate concentrations in atmospheric microclimates will be discussed.

806. Analysis of Agricultural Systems (A E 806) Winter. 3(3-0) SY 810.
Identification and definition of systems problems in agriculture. Model formulation and evaluation. Several models of current interest are considered.

97. Man-Machine Relationships (A E 807) Fall. 3(3-0) Approval of department.
Analysis of machine design, operation and working environment in relation to human limitations and capabilities. Analysis of procedures used to develop maximum compatibility between man and machine.

999. Doctoral Dissertation Research Fall, Winter, Spring, Summer. Variable credit. May reenroll for a maximum of 36 credits. Approval of department.

Building Construction B C

200. Dynamics of American Housing Fall, Winter, Spring, Summer. 3(3-0)
Impact of housing on the economic and social welfare of America. Analysis of the residential building industry and its problems in providing adequate housing.

239. Housing Conservation (A E 236, AET 239) Spring. 3(3-0) Interdepartmental with the Department of Human Environment and Design.
Skills and techniques in conserving, repairing and remodeling existing housing. Structural components of housing and evaluation of housing structure.

312. Structural Design Winter. 4(4-0) PHY 237.
Consideration of structural design systems as used in light construction.

412. Housing Utilities Design Winter. 4(4-0) PHY 238, EGR 465 or approval of department.
Design of and planning for mechanical and electrical utilities in housing.

413. Residential Construction Systems Spring. 4(3-2) PHY 239, B C 312 or approval of department.
Analysis of the primary construction systems employed in the residential building industry, especially the economic and social aspects in meeting the housing goals of the U. S.

415. Building Materials Spring. 4(4-0) PHY 239, B C 312 or approval of department.
Properties of building materials pertinent to their application and performance in service.

AGRICULTURAL ENGINEERING TECHNOLOGY

See Agricultural Engineering.

AGRICULTURE AND NATURAL RESOURCES ANR

College of Agriculture and Natural Resources

220. Plants and Their Environment (N R 220) Winter. 3(3-0) Interdepartmental with and administered by the Department of Forestry.
Relationships between plants and fundamental climatic, edaphic, and biotic factors; structure and function of different ecosystems in relation to environmental factors.

275. Exploring International Agriculture (AG 275) Spring. 3(3-0)
Exploration of overseas assignments with international agencies; potential world food actualities and potentialities; special problems of the tropics compared with those in temperate regions.

280. Selected Topics Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 6 credits, if different topics are taken. Approval of department.

341. Energy in the Food System (AG 341) Winter, Spring. 3(3-0) May reenroll for a maximum of 6 credits. Approval of department.

381. Professional Internships in Agriculture and Natural Resources (AG 390) Fall, Winter, Spring, Summer. Zero to 10 credits. Approval of department.
Professionalized experiences in a student's major. Supervision and evaluation by faculty and cooperating agencies.

401. Agriculture and Natural Resources Communications (AG 401) Fall, Winter, Spring. 3(2-2) JRN 201 or other writing course and approval of department.
Techniques, strategies, and practices in development of agricultural and natural resources information programs, including writing, public relations, TV and radio production for specialized and general audiences.

402. Agriculture and Natural Resources Communications Internship (AC 402) Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 6 credits. ANR 401, approval of college.
Internship with professionals in communications field with emphasis on student's areas of interest-writing, radio, TV, publications, etc.

410. Environmental Toxicology (AG 410) Winter. 4(4-0) B S 212, BCH 401. Interdepartmental with and administered by the College of Natural Science.
Fat and effects of toxic chemicals in soil, plants, wildlife, and aquatic systems. Interactions between chemicals and the environment which influence their fate and ecological importance.
425. Agriculture and Natural Resources Seminar (AG 425.) Spring, 2(2-0)
Current agricultural, natural resources, and environmental problems and solutions as presented by discussion leaders from various disciplines, arranged by undergraduate students.

444. Pest Management I: Systems Management for Plant Protection (AG 437, AG 444.) Fall, 4(3-2) FSN 200 or EC 201, Interdepartmental with and administered by the College of Natural Science. Designed to integrate knowledge and improve ability in arriving at pest management decisions of varying complexity involving the fields of agronomy, wildlife, horticulture, entomology, and plant pathology.

445. Pest Management II: Pesticide Chemistry and Application Systems for Plant Protection (AG 435.) Winter, 3(3-4) CEM 132, Interdepartmental with and administered by the College of Natural Science. A broad overview of pesticide chemistry, efficient usage, environmental fate, legislation and application techniques.

446. Pest Management III: Biological Systems for Plant Protection (AG 436.) Spring, 3(3-0) ENT 425, BOT 405, HRT 402 or CSS 402. Interdepartmental with and administered by the College of Natural Science. Management of plant pests utilizing host resistance, cultural practices, legislation, and biological systems.

450. Natural Resource Administration (N R 450.) Fall, 4(4-0) Seniors; not open to forestry majors. Interdepartmental with the departments of Fisheries and Wildlife, Forestry, Park and Recreation Resources and Resource Development. Administered by the Department of Forestry.

455. Natural Resource Economics (N R 455) Fall, 4(4-0) Approval of department. Interdepartmental with the departments of Fisheries and Wildlife, Forestry, Park and Recreation Resources and Resource Development. Administered by the Department of Forestry.
Basic economic and political principles and techniques that govern the production and consumption of forest land products, including basic forest valuation procedures.

462. Agricultural and Rural Development in Developing Nations (AG 462.) Fall, 3(3-0) PAM 201 or EC 201, PAM 260 recommended, Interdepartmental with Public Affairs Management, and Food Systems Economics and Management. Administered by Food Systems Economics and Management.
Traditional agricultural systems and the incentive environment for economic growth in rural areas. Adjustment to technological, institutional and human change. Strategies for rapid agricultural transformation.

475. International Studies in Agriculture and Natural Resources (AG 475.) Spring, Summer, 3 to 9 credits. Approval of college.
Study-travel experience emphasizing contemporary problems affecting agriculture in the world, national, and local communities. Field trips, case studies, interviews with leading experts, government officials, community leaders. Supervised individual study.

480. Selected Topics (AG 480.) Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 9 credits if different topics are taken. Approval of department, juniors.
Exposition of special topics in agriculture and natural resources.

491. Natural Resources and Modern Society (N R 491.) Spring, 3(3-0) Juniors. Interdepartmental with the departments of Forestry, and Resource Development. Administered by the Department of Forestry.
A survey of the social and economic significance of natural resources in modern industrial and urban society. Current problems of natural resources management and use are examined in terms of the society in which they exist.

521. Agricultural Education in Rural Development (ED 821F) Winter, 3(3-0) Approval of department.
Agricultural education at various levels and in different forms for rural development. Formal and non-formal education: planning, conducting and evaluating. Case studies from selected developing countries.

526. Methods of Teaching Agricultural Mechanics (ED 830G) Fall, 3(3-0) Approval of department.
Methods of instruction including program planning, scheduling, use of teaching aids, management of buildings, facilities and equipment; the selection, organization, and evaluation of activities in farm mechanics.

528. Teaching Farmer Classes in Agriculture (ED 828B) Fall, 3(3-0) Approval of department.
Objectives of adult education in agriculture, organizing and promoting classes, course planning, instructional procedures, follow-up and evaluation.

378. Popular Culture and Technical Change (AG 378.) Winter, 4(4-0) Juniors or approval of department, Interdepartmental with and administered by Lyman Briggs School.
Interrelationships among elements of mass culture and technical change. Introduction to relevant research methods.

410. Perspectives in American Studies (AG 410.) Fall, 3 credits. Juniors in American Studies or approval of American Studies Committee.
Methods and significant works, for majors in the American Studies program. Offered by members of the relevant departments.

411. Problems in American Civilization (AG 411.) Winter, Spring. 3 credits. Majors must reenroll for a maximum of 6 credits. AMS 410, Juniors in American Studies or approval of American Studies Committee.
Seminar approach to selected problems in American life employing the objectives and approaches of interdisciplinary studies. Offered by members of relevant departments, for majors in the American Studies program.

AMERICAN THOUGHT AND LANGUAGE

ATL

College of Arts and Letters

To satisfy the University General Education requirement, a student must take one course in each of the following groups. Additional courses may be taken for elective credit. One course may carry credit in more than one group.

1. 1144, 1211, 1311, 1411, 1511, 1611, 1711, 1811, 191H
2. 1154, 1212, 1312, 1412, 1512, 1612, 1712, 1812, 192H
3. 1164, 1233, 1333, 1433, 1533, 1633, 1733, 1833, 193H

ATL 0142. Writing Laboratory I (ATL 0142) Fall, Winter, Spring. 1 to 3 credits. Majors must reenroll for a maximum of 3 credits. ATL 0142 or admission by placement test. ATL 1144 concurrently.
An individualized program to develop composition skills by aiding students to discover how language functions in communication and by helping them to accept responsibility for learning to write correctly.

ATL 0152. Writing Laboratory II (ATL 0152) Fall, Winter, Spring. 1 to 3 credits. (ATL 0152) see page A-1 item 3. ATL 0142, ATL 1144 or approval of department, ATL 1154 concurrently. Continuation of ATL 0142.

ATL 0162. Writing Laboratory III (ATL 0162) Fall, Winter, Spring. 1 to 3 credits. (ATL 0162) see page A-1 item 3. ATL 0152, ATL 1154 or approval of department, ATL 1154 concurrently. Continuation of ATL 0152.

ATL 0991. Preparatory Writing Skills (ATL 0991) Fall, Winter, Spring, Summer. 0 to 3 credits. (ATL 0991) see page A-1 item 3. Admission by placement test.
Instruction and practice in writing. Emphasis on mastery of fundamental skills needed for a variety of writing assignments.

AMERICAN STUDIES

AMS

College of Arts and Letters

AMS 301. Issues in American Civilization (AMS 301) Fall, Winter, Spring. 3(3-0) May reenroll for a maximum of 9 credits. Not applicable to major requirements.
Selected issues in American life past and present, with materials drawn from such disciplines as history, social sciences, philosophy, literature and the arts. Topics vary.
