G. Language Intervention: Early Stages
Spring, 4(4-0) Approval of department.
Language intervention for those children functioning at or below a four-year-old level in their language behavior, mental retardation, autism, and other developmental delays associated with severe language impairments.

H. Language Intervention: Later Stages
Summer, 4(4-0) Approval of department.
Treatment of developmental language delays and disorders with emphasis upon children functioning at or above the four-year-old level in language behavior; preadolescent and adolescent language disorders are included.

842. Augmentative and Alternative Communication Systems
Summer, 4(4-0) Approval of department.
Historical perspective and philosophy of augmentative/alternative communication systems. Aided and unaided non-speech communication systems. Assessment, selection, and intervention procedures.

843. Transfer and Maintenance of Speech Behaviors
Winter, 4(4-0)
Various clinical procedures assisting others in transferring and maintaining these behaviors outside the clinical environment.

Spring, 4(4-0) Approval of department.
Evaluation and analysis of various theories of speech perception and their implications for speech and language pathologists, audiologists, and speech and hearing scientists.

854. Psychophysics and Theories of Audition
Fall, 4(4-0) Approval of instructor.
Nature of auditory stimuli and the results of psychophysical experimentation in audition.

874. Speech and Hearing Problems in Public Schools
Summer, 4(3-0) May reenroll for a maximum of 16 credits.
Graduate seminar in speech and hearing involving problems that arise in relation to speech and hearing therapy in the public schools.

875A. Clinical Practicum in Speech and Language Pathology
Fall, Winter, Spring, Summer, 1 credit.
ASC 474. May reenroll for a maximum of 8 credits.
Directed diagnostic, therapeutic, and prognostic experience in speech and language pathology.

875B. Clinical Practicum in Audiology
Fall, Winter, Spring, Summer, 1 credit.
ASC 454. May reenroll for a maximum of 8 credits.
Directed diagnostic, therapeutic and prognostic experience in audiology in various clinical settings.

876. Communication Disorders: Neuromotor-Neuropsychophysics
Fall, 4(3-1) Approval of department.
Neuromotor and neuropsychological correlates of speech, language, and hearing.

880A. Algorithms for Speech and Hearing Sciences
Fall, 4(4-0)
A discussion of useful algorithms applicable to quantification of phenomena related to audiology and speech sciences.

880B. Acoustic Phonetics
Winter, 4(2-2) ASC 880A or approval of department.
An analytic study of the acoustics of speech.

880C. Instruments and Electronics for Audiology and Speech Sciences
Spring, 4(3-0) ASC 880B or approval of department.
A discussion of the electronic principles and instruments necessary to measure parameters related to hearing and speech processes.

880D. Experimental Phonetics
Summer, 4(4-0) ASC 880C or approval of department.
Critical review of the literature in experimental phonetics. Selected papers on acoustic and physiological phonetics and related fields are presented in seminar fashion.

899. Major's Thesis Research
Fall, Winter, Spring, Summer, Variable credit. Approval of department.

940. Seminar in Audiology and Speech Sciences
Fall, Winter, Spring, Summer, 4(4-0)
May reenroll for a maximum of 16 credits.

990. Special Problems in Audiology and Speech Sciences
Fall, Winter, Spring, Summer, 1 to 6 credits.
Special projects in audiology and speech sciences.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer, Variable credit. Approval of department.

BIOCHEMISTRY
BCH

College of Agriculture and Natural Resources
College of Human Medicine
College of Natural Science
College of Osteopathic Medicine

200. Introduction to Biochemistry
Winter, Summer. 3(3-0) Credit may not be earned in both BCH 200 and BCH 401. General chemistry; one term organic chemistry. Not acceptable for a B.S. degree in biochemistry.
Survey of biochemistry emphasizing the major metabolic activities of living organisms.

400H. Honors Work
Fall, Winter, Spring. Variable credit. Approval of department.
Assigned reading and experimentation.

401. Basic Biochemistry
Fall, Spring, 5(5-0) Credit may not be earned in both BCH 200 and BCH 401. One year general chemistry or CEM 242; not open to biochemistry majors.
A one-credit introduction to biochemistry emphasizing structure and function of major biomolecules, metabolism and regulation. Examples used for illustrative purposes will emphasize the mammalian organism.

404. General Biochemistry Laboratory
Winter, 3(1-6) Analytical chemistry; BCH 401 or BCH 451.
Experimental aspects of biochemistry.

405. Biochemistry Laboratory
Fall, Spring, 3(0-9) BCH 453 or concurrently; BCH 404; undergraduate biochemistry majors or approval of department.
Advanced undergraduate laboratory to illustrate modern biochemical methods and techniques.

412. Clinical Biochemistry
(363.) Winter, Summer, 3(2-3) BCH 401, CEM 162. Medical Technology majors. Not acceptable for a B.S. degree in biochemistry. Others: approval of department.
Quantitative clinical laboratory methods.

451. Biochemistry
Fall, 3(3-0) Credit may not be earned in both BCH 401 and BCH 451. One year general chemistry or CEM 242.
A comprehensive survey of biochemistry with emphasis on the properties and functions of biomolecules, energy-yielding and energy-requiring processes, and the transfer of genetic information.

452. Biochemistry
Winter, 3(3-0) BCH 451.
Continuation of BCH 451.

453. Biochemistry
Spring, 3(3-0) BCH 452.
Continuation of BCH 492.

499. Research
Fall, Winter, Spring, Summer, 1 to 4 credits. May reenroll for a maximum of 12 credits. Approval of department.
A course designed to give qualified undergraduate students an opportunity to gain experience in biochemical research.

501. Medical Biochemistry
Fall, 3(3-0) Open only to students in the professional programs in the College of Human Medicine and the College of Osteopathic Medicine.
Basic Biochemical principles and terminology of importance in medical biology.

502. Medical Biochemistry
Fall, 3(3-0) BCH 501 or approval of department.
A continuation of BCH 501.

503. Cell Biology
Fall, 5(5-0) Admission to the College of Human Medicine. Interdepartmental with the departments of Microbiology and Public Health, Physiology, and Pharmacology and Toxicology. Administered by the Department of Microbiology and Public Health.
Principles of cell biology for medical students.
Descriptions - Biochemistry

Courses

511. Medical Biochemistry I
Winter, 3(3-0) BCH 511.
One-year course of organic chemistry. Open only to students in the professional programs in the College of Human Medicine and the College of Osteopathic Medicine. Basic biochemical principles and terminology, with emphasis on metabolism and function of biomolecules of importance in medical biology.

512. Medical Biochemistry II
Spring, 4(4-0) BCH 512.
Basic biochemical principles and processes pertinent to specific areas of human pathophysiology.

801. Biochemical Research Methods
Fall: (1/1-1) or (2/1-2) May re enroll for a maximum of 2 credits. One year of organic chemistry or CHEM 242; BCH 451 or BCH 811, or concurrently. Discussions and demonstrations of selected experimental techniques of wide application in biochemistry.

811. Advanced Biochemistry
Fall: 4(4-0) One year of organic chemistry, one year of physical chemistry, one term of introductory biochemistry, BCH 501. Taken previously or concurrently, or approval of department. Limited to graduate students in biochemistry or other students needing a similar professional preparation. The structure and function of biomolecules, energy transformations and chemical reactions in living cells, regulation of cell reactions, and the replication of living organisms.

812. Advanced Biochemistry
Winter, 4(4-0) BCH 811.
Continuation of BCH 811.

813. Advanced Biochemistry
Spring, 4(4-0) BCH 812.
Continuation of BCH 812.

821. Biochemical Mechanism and Structure I
Fall, 3(3-0) BCH 401, one year of organic chemistry and physical chemistry or concurrently, or approval of department. Structure, methods of structural analysis, synthesis, and reaction mechanisms of biological substances including proteins, carbohydrates, lipids, porphyrins, phosphate esters, enzymes and coenzymes.

822. Biochemical Mechanism and Structure II
Winter, 2(2-0) BCH 821 or approval of department.
Continuation of BCH 821.

831. Physiological Biochemistry I
Winter, 3(3-0) BCH 401.
Physiological biochemistry, with emphasis on metabolic interpretation of normal and altered physiological states of the human organism and appropriate animal models.

832. Physiological Biochemistry II
Spring, 3(3-0) BCH 831.
Continuation of BCH 831.

855. Special Problems
Fall, Winter, Spring, Summer. Variable credit. May re enroll for a maximum of 12 credits. Approval of department.
Consideration of current problems.

864. Plant Biochemistry
Spring, 4(4-0) BCH 401, BOT 301 or approval of department. Interdepartmental with the Department of Botany and Plant Pathology.
Metabolism of nitrogen-compounds, carbohydrates, and lipids unique to plants; cell organelles; photophosphorylation; the oxygen cycle; cell walls; lectins; nitrogen cycle including nitrogen fixation; sulfur cycle.

888. Laboratory Rotation
Fall, Winter, Spring, Summer. 1 to 6 credits. May re enroll for a maximum of 15 credits. Graduate student majors: approval of department.
Participation in research laboratories to learn experimental techniques and research approaches, broaden research experience, and assess research interests prior to selecting a thesis advisor.

899. Master's Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

960. Selected Topics in Biochemistry
Fall, Winter, Spring, Summer. 1 to 3 credits. May re enroll for a maximum of 10 credits if different topics are taken. Approval of department.
Topics will be selected from the areas of biochemical genetics, biochemistry of development, biochemical evolution, complex proteins, lipid metabolism, immunology, hormones, control mechanisms, and structure of biological macromolecules.

961. Selected Topics in Biochemistry
Fall, Winter, Spring, Summer. 1 to 3 credits. May re enroll for a maximum of 10 credits if different topics are taken. Approval of department.
Topics will be selected from the areas of bioenergetics, bioinstrumentation, complex carbohydrates, mechanisms of enzyme action, natural products, carbohydrate metabolism, mass spectrometry and biochemistry of isoprenoid compounds.

978. Seminar in Biochemistry
Fall, Winter, Spring, 0 or 1(1-0).
Presentation and discussion of reports by graduate students on biochemical topics of current interest.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

202. Introductory Biology for Non-Science Majors
Fall, Winter, Spring, 4(3-2) 12 credits in general education natural science courses. Concepts, procedures, and perspectives appropriate to developing a broad literacy in biology with emphasis on fundamental biological principles and their relation to world society. Appropriate preparation for pre-service elementary teachers.

For prerequisite purposes, the introductory biology sequence in Lyman Briggs School, LBS 140, LBS 141, LBS 242, may be used instead of this sequence.

210. General Biology
Fall, Spring, 4(3-2) Not open to students with credit in LBS 141.
Concepts relating to basic attributes and diversity of living things.

211. General Biology
Fall, Winter, 4(4-2) Not open to students with credit in LBS 140.
The structure and behavior of cells and their subunits, interactions of proteins, genetics, and the development, history and evolution of organisms.

400. Biological Science for Teachers
Fall, Winter, Spring, Summer. 3 to 4 credits. May re enroll for a maximum of 12 credits. Teacher certification with science major or minor.
A course for in-service teachers, topics will be selected from actual classroom problems of the participants. Stress will be placed on field, laboratory and inquiry teaching.

405. Topics in Biological Science
Fall, Winter, Spring, Summer. 1 to 3 credits. May re enroll for a maximum of 6 credits if different topic is taken. Approval of department.
Presentation of single topics from the biological sciences by senior faculty and guest lecturers. Topics are selected to facilitate development of strong biological science programs in schools.

408. Freshwater Ecology
Summer, 6 credits. B S 212 or approval of department. Given at W. K. Kellogg Biological Station. Interdepartmental with the departments of Zoology, Botany and Plant Pathology.
The ecology of freshwater ecosystems, their biotic structure, and the functional interrelationships of environmental variables regulating population dynamics, productivity, and community structure. Extensive field investigations.

410. Terrestrial Ecology
Summer, 6 credits. B S 212 or approval of department. Given at W. K. Kellogg Biological Station. Interdepartmental with the departments of Botany and Plant Pathology, and Zoology.
Extensive field investigations of several types of terrestrial communities. Interrelationship of plants, animals, and environment. Factors determining distribution and abundance.
