420. Seminar in Recent Advances in Biological Science  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 6 credits, if different topics are taken. Approval of department.  
A series of lectures by senior faculty on topics of the history, development, the most recent advances and the possible future and limits of the Biological Sciences.

422. Terrestrial Field Biology for Teachers

Summer. 3 credits. A course in biology or approval of department. Given at W. K. Kellogg Biological Station. Emphasis on natural history and field identification of Michigan's common land plants and animals. Biological collection techniques and reference materials.

423. Aquatic Field Biology for Teachers

Summer of even-numbered years. 2 credits. A course in biology or approval of department. Given at W. K. Kellogg Biological Station. Investigation of Michigan's aquatic and wetland ecosystems with special emphasis on field identification of key plant and animal species. Ecological concepts, reference materials, and biological collection techniques.

440. Man and Environment Workshop for Teachers

Summer. 3 credits. Approval of department. Given at W. K. Kellogg Biological Station. Discussions and practical work sessions concerning the development of ideas and activities for environmental studies in and outside the classroom. Designed for intermediate and secondary in-service teachers.

460. Ornithology for Teachers

Summer. 3 credits. A course in biology or approval of department. Not open to Zoology majors. Given at W. K. Kellogg Biological Station. Interdepartmental with and administered by the Department of Zoology. Distribution, breeding cycles, migration, food and feeding habits, voice and other important areas of avian biology. Emphasis on field identification and natural history.

499. Research

Fall, Winter, Spring. 2 to 4 credits. May reenroll for a maximum of 12 credits. Approval of director of biological science program and student's adviser. Undergraduates are invited on an individual basis into research laboratories of faculty in biological departments of the college. After three terms of research, a presentation in thesis form is produced and defended.

800. Problems in Biological Science

Fall, Winter, Spring. Variable credit. B.S. degree in biological Science.

805. Outdoor Environmental Studies

(451.) Summer. 1 to 4 credits. May reenroll for a maximum of 9 credits if different topics are taken. B.S. 422 or B S 425 or ZOL 490 or approval of department. Given at W. K. Kellogg Biological Station. Emphasis on environmental understanding. Development of educational materials through team research and testing. Interaction with elementary and middle school children in two-week outdoor oriented workshop.

899. Master's Thesis Research

Fall, Winter, Spring. Variable credit. Approval of department.

411. Electric Theory of Nerves

414. Clinical Instrumentation

424. Materials in Biomedical Engineering

Winter. 3(3:0) PSL 240 or PSL 431 or approval of department. Basics of materials science. Biocompatibility of metals, polymers and ceramics. Internal and external prosthesis materials.

431. Biological Transport Mechanisms

Spring. 3(3:0) MTH 215. Mechanisms which govern transport of nutrients, heat and mass. Application to mathematical description of transport processes in biological systems and to solution of biomedical problems.

451. Tissue Biomechanics

Fall. 3(3:0) ANT 316 or approval of department. Fundamentals of continuum mechanics in relation to morphological classification of tissues. Mechanical properties of connective and muscle tissue.

499. Independent Study

Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 9 credits. Approval of instructor. Individual reading and research under the supervision of a member of the Biomedical Engineering Committee.

BIOPHYSICS

College of Human Medicine
College of Natural Science

4001. Honors Work in Biophysics

Fall, Winter, Spring. Summer. 3 to 6 credits. May reenroll for a maximum of 6 credits. Approval of department. Independent study and investigation under the direction of a faculty member.

402. Introductory Biophysics: Molecular and Thermal

Spring. 3(3:0) One year organic chemistry or biochemistry; 1 year biology, PHY 239, PHY 293.  MTH 113, or approval of department. Salient features of biophysics: principles and methods. Structure, function, and organization of biologic molecules; molecular biophysics; thermal biophysics; bioenergetics and photobiology.
