380. Issues in Science and Religion
Winter. 4(4-0) Juniors or approval of department. Interdepartmental with and administered by the Department of Religious Studies.
History of relationships between science and religion. Methods of science and religion. Attempts to resolve conflicts and formation of new syntheses.

401. Engineering and Public Policy
Spring. 3(3-0) Juniors, or approval of department. Interdepartmental with and administered by Engineering.
Sociotechnical assessment of impact of technology on society, with analysis of the role of engineering and natural science in contributing to public policy formulation.

### NATURAL SCIENCE (COLLEGE OF)

#### 201. Science Problem Solving Seminar I
Fall. 2(2-0) MTH 108 concurrently, approval of instructor.
Problem solving principles and application of strategies to the disciplines of science and mathematics. Activities reflecting the types of problems encountered in these disciplines emphasized.

#### 202. Science Problem Solving Seminar II
Winter. 2(2-0) NSC 201, approval of instructor.
Continuation of NSC 201. Emphasis upon problem solving in science disciplines and principles of research design.

#### 203. Science Problem Solving Seminar III
Spring. 2(1-3) May reenroll for a maximum of 4 credits. NSC 202, approval of instructor.
Applied experience in research. Design and implementation of simple research problems. Relationship of science and society.

#### 305. Women in Science
Spring. 3(3-0) Introductory course in chemistry or physics or biological science or approval of instructor.
The development of women scientists of the past, present, and future will be examined. Emphasis will be on representatives from physics, biology, medicine, mathematics, and engineering.

#### 309. The Human Organism
Winter. 3(3-0) Approval of the Honors College or course coordinator.
The importance of new discoveries in biology for our understanding of the human organism with emphasis from the fields of genetics, molecular biology, behavior, developmental biology, physiology, and ecology.

#### 311. Our Universe
Fall. 3(3-0) Approval of the Honors College or course coordinator.
A creative review by senior faculty from astronomy, biochemistry, biophysics, geology, physics, and philosophy of the impact of recent space probes in developing modern concepts of the universe, the origin of the earth and life upon it.

#### 392H. The Uniqueness of Human Beings
Spring. 3(3-0) Approval of the Honors College, or course coordinator.
Physiological processes; behavioral mechanisms; genetic information; life support systems; physical disorders and adjustment to hostile environments.

#### 410. Environmental Toxicology
Winter. 4(4-0) B S 312, BCH 401. Interdepartmental with Agriculture and Natural Resources.
Fate and effects of toxic chemicals in soil, plants, wildlife, and aquatic systems. Interactions between chemicals and the environment which influence their fate and ecological importance.

#### 444. Pest Management I: Systems Management for Plant Protection
Fall. 4(3-2) F SM 200 or F C 201. Interdepartmental with Agriculture and Natural Resources.
Designed to integrate knowledge and improve ability in arriving at pest management decisions of varying complexity involving the fields of agriculture, wildlife, horticulture, entomology, and plant pathology.

#### 445. Pest Management II: Pesticide Chemistry and Application Systems for Plant Protection
Spring. 3(3-0) CEM 132. Interdepartmental with Agriculture and Natural Resources.
A broad overview of pesticide chemistry, efficient usage, environmental fate, legislation and application techniques.

#### 446. Pest Management III: Biological Systems for Plant Protection
Spring. 3(3-0) ENT 425, BOT 405, HRT 402 or CSS 402. Interdepartmental with Agriculture and Natural Resources.
Management of plant pests utilizing host resistance, cultural practices, legislation, and biological systems.

#### 460. Clinic in Natural Science Teaching
Fall, Winter, Spring, Summer. 1 credit. May reenroll for a maximum of 6 credits. Bachelor's degree.
Each practitioner will deal with a specific science or science related problem and its implications for instruction. Discussions are intended to have immediate application by participants.

#### 492. Integrative Studies
UC 492. Fall, Winter, Spring, Summer. 3 to 5 credits. Juniors.
In-depth study of topics which require an integration within or among the natural sciences or between the natural sciences and other major areas of human knowledge.

#### 810. Methods in Transmission Electron Microscopy
Fall, Winter. 3(1-5) Approval of instructor. NSC 802 or concurrently.
Use of the transmission electron microscopes and preparative instruments. Preparative techniques for biological and nonbiological materials. Photographic principles including interpretation of micrographs.

#### 820. Methods in Scanning Electron Microscopy
Fall, Winter. 3(1-5) Approval of instructor. NSC 802 or concurrently.
Use of the scanning electron microscope and preparative equipment. Preparative techniques for biological and nonbiological materials. Interpretation of micrographs.

#### 830. Analytical Electron Microscopy
Fall, Winter. 2(1-3) Approval of instructor; NSC 802 or concurrently.
Use of X-ray analysis on electron microscopes and electron microprobes with biological and physical materials. Methods of preparation and analysis of product data.

### NURSING (COLLEGE OF)

#### 200. Nursing I
Spring. 3(3-0) or 4(4-0) Approval of college.
Concepts and theories of nursing in relation to professional nursing practice. Role of nursing in contemporary society.

#### 300. Nursing II

#### 301. Nursing III
Winter. 10(6-12) N E 300.
Care of individuals at risk across the life span. Application of entire nursing process in a variety of health care settings.

#### 302. Nursing IV

#### 400. Nursing V

#### 401. Nursing VI
