162. Writing: American Radical Thought  
Winter. 3(3-0) Three credits in the first term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition and critical reading abilities. Writings based on the literature of dissent in American society from 1850 to 1946. Emphasis on style and development of essays.

163. Writing: American Radical Thought  
Spring. 3(3-0) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition and research abilities. Writings based on the literature and history of the New Left and contemporary dissent in America. Research project required.

171. Writing: America on Film  
Fall. 3(3-2) Satisfactory performance on the placement test.  
Writing course to improve composition abilities. Writings and readings based on American films and film adaptations of American literature. Emphasis upon unity and structure of essays.

172. Writing: America on Film  
Winter. 3(3-2) Three credits in the first term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition abilities. Writings and readings based on American film genres (e.g., Western, Gangster). Emphasis on style and development of essays.

173. Writing: America on Film  
Spring. 3(3-2) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition and research abilities. Writings and readings based on analysis of major social issues as reflected in American film: e.g., war, women, minorities. Research project required.

181. Writing: Women in America  
Fall. 3(3-0) Satisfactory performance on the placement test.  
Writing course to improve composition and critical reading abilities. Writings based on critical works introducing contemporary and historic American feminist issues. Emphasis on unity and structure of essays.

182. Writing: Women in America  
Winter. 3(3-0) Three credits in the first term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition and critical reading abilities. Writings based on American women from pre-Colonial times through First Wave Feminism. Emphasis on style and development of essays.

183. Writing: Women in America  
Spring. 3(3-0) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.  
Writing course to improve composition and critical reading abilities. Writings based on women in American life and literature from 1920 to the present. Research project required.

191H. Honors Writing: The American Experience  
Fall. 3(3-0) Satisfactory performance on the placement test.  
Writing course to improve composition and critical reading abilities. Writings based on analysis of selected material from Colonial to early nineteenth century topics.

192H. Honors Writing: The American Experience  
Winter. 3(3-0) Satisfactory grade in the first term of any ATL sequence numbered ATL 121 or above.  
Writing course to improve composition and critical reading abilities. Writings based on analysis of selections from the late nineteenth and early twentieth centuries.

205. Reading for University-Level Understanding  
Fall, Winter, Spring. 2(0-4) May enroll for a maximum of 4 credits. 
Individualized instruction in techniques for improving vocabulary, comprehension, rate, study skills and test taking skills in order to achieve better understanding of university-level materials.

292. Selected Topics  
(U C 292.) Fall, Winter, Spring. 3 to 5 credits. May enroll for a maximum of 8 credits if different topic is taken. 
Interdisciplinary study of topics in American culture.

300. Supervised Individual Study  
Fall, Winter, Spring. Summer. 2 to 4 credits. May enroll for a maximum of 12 credits. 9 credits in a composition course; approval of department. 
Selected students requesting individual study of interdisciplinary problems. Variable elective credit will be determined when the student secures instructor, advisor, and department approval.

400. Microscopic Anatomy  
Winter. 5(2-8) Medical Technology students or approval of department. 
Microscopic study of the structure of cells, tissues and organs.

480. Special Problems  
Fall, Winter, Spring. Summer. 1 to 5 credits. May enroll for a maximum of 15 credits. Approval of department. 
Individual study or project under the direction of a faculty member in biomedical research, gross anatomy, histology, neurology, or embryology.

505A. Anatomy in Physical Diagnosis  
Fall. 1 to 3 credits. HM 505 concurrently. 
Exercises in which students study systemic anatomy in a physical diagnosis context. Preparatory self-instruction precedes exercises.

510. Veterinary Gross Anatomy  
Fall. 6(3-9) First-term Veterinary Medicine students. 
Gross anatomy of a representative animal, the dog, is studied. Lecture, dissection of embalmed specimen, study of prosections, slides, models and living animals.

511. Veterinary Histology  
Fall. 5(3-6) First-term Veterinary Medicine students. 
A general histology course for veterinary students which includes a survey of the tissue of the animal body.

512. Veterinary Neuroanatomy  
Winter. 2(2-0) Second-term Veterinary Medicine students. 
Gross anatomy of the central nervous system in animals emphasizing functional and dysfunctional aspects of pathways and nuclei in dogs as a foundation for clinical neurology.

513. Veterinary Microscopic Anatomy  
Winter. 4(2-4) Second-term Veterinary Medicine students. 
Microscopic anatomy of the digestive, urinary, respiratory, male and female reproductive systems, integumentary system, central nervous system and special sense organs of domesticated animals.

514. Veterinary Comparative Anatomy  
(523) Winter. 5(4-0) Second-term Veterinary Medicine students. 
Lecture, dissection of embalmed specimens and the study of prosections, models and live animals related to the anatomy of the domestic animals.

540. Gross Biomedical Structure  
Winter. 1 to 15 credits. May enroll for a maximum of 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the back, thorax, abdomen, pelvis and perineum.

541. Gross Biomedical Structure  
Spring. 1 to 15 credits. Admission to a college of medicine; graduate students with approval of department. Regional gross anatomy of the head and neck.

543. Human Histology  
Fall. 4(2-4) Human Medicine students; approval of department for graduate students. The structure and function of human cells; tissues, and organs.

ANATOMY

College of Human Medicine  
College of Osteopathic Medicine  
College of Veterinary Medicine

216. Applied Human Anatomy  
Fall. Spring. 5(4-3) HFR major or minor. 
Structural anatomy of the various systems of the human body. Concepts of kinesiological applications.

316. General Anatomy  
Fall. Spring. 5(5-0) B S 211 or B S 212 or approval of department. 
Designed to impart the basic concepts of the broad field of anatomy. Special requirements of the various disciplines will be met in their respective laboratories.
544. Human Ontogenesis  
Fall. 3(3-0) Admission to a college of medicine; graduate students with approval of department. 
Formal lectures, class conferences and student reports on the normal and abnormal organogenesis of the human embryo and fetus with emphasis on clinical correlations.

545. Neuroanatomy  
Winter. 3(4-0) Admission to medical school or approval of Neuroscience Committee. 
Introduction to gross and microscopic anatomy of the human nervous system, to related basic neurophysiologic concepts and to a problem-solving approach to the diagnosis of nervous system disease.

560. Medical Histology  
Fall. 4(3-4) Admission to a college of medicine or approval of department. 
Structural and functional characteristics of basic cells, tissues and organ systems. Emphasis on core concepts and visual discrimination.

563. Osteopathic Medical Neuroanatomy  
Spring. 4(3-4) Admission to a college of medicine; graduate students with approval of department. 
Medically oriented problem-solving neuroanatomy with laboratory. Structure of the human nervous system is correlated with normal function, clinical testing and classical lesions encountered in medical practice.

565. Introduction to Human Gross Anatomy  
Fall. 8(4-6) Admission to a college of medicine or approval of department. 
Core concepts in regional, systemic and topographical human gross anatomy. Prosection, dissection and lecture methods using audiovisual aids and frequent review.

570. Special Problems  
Fall, Winter, Spring, Summer. 1 to 5 credits. May enroll for a maximum of 15 credits. Admission to professional program in the College of Human Medicine, College of Osteopathic Medicine or the College of Veterinary Medicine, and approval of department. 
Biomedical research, gross anatomy, histology, neurology, immunology or embryology.

813. Problems in Anatomy  
Fall, Winter, Spring. Summer. 1 to 5 credits. May enroll for a maximum of 15 credits. Basic disciplines in various areas and approval of department. 
Various anatomical fields such as gross anatomy, histology, histology, tissue culture, cytology, neurology and embryology will be studied.

815. Anatomy of the Nervous System  
Fall. 5(3-5) Approval of department. 
Developmental, gross and microscopic anatomy of the nervous system. Organizational and functional aspects of the peripheral and central nervous system are stressed. Gross demonstrations include brain and dog dissections.

820. Advanced Neuroanatomy: Structure and Function of Cells CNS  
Spring. 3 credits. ANT 815 and approval of instructor. 
Correlated anatomy and physiology of CNS cells and their processes including current concepts and developments of cytoarchitecture, development and plasticity, neural transport mechanisms, electrical properties and functional connections.

865. Advanced Neurobiology  
Spring. 4(4-0) BFY 827. Interdepartmental with Biophysics and the departments of Physiology, Psychology, and Zoology. 
Basic organization, structure and function of neural networks comprising sensory, motor, and autonomic systems including examples of invertebrates and vertebrates. Attendance at neuroscience seminar is required.

885. Vertebrate Neural Systems I  
(FSY 885.) Winter of even-numbered years. 5(5-4) ANT 815, ANT 855 recommended. Interdepartmental with the departments of Physiology, Psychology, and Zoology. 
Structure and function of major component systems of vertebrate brains, their evolution, anatomy and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.

886. Vertebrate Neural Systems II  
(ZOL 886.) Spring of even-numbered years. 5(5-4) ANT 855, Interdepartmental with the departments of Physiology, Psychology, and Zoology. 
Continuation of ANT 885. Major component systems of vertebrate brains, their evolution, anatomy and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical, and physiological studies.

891. Concepts in Tumorigenesis  
Winter of even-numbered years. 2(2-0) Approval of instructor. 
In depth evaluation of the current concepts in tumorigenesis emphasizing the experimental results from which these concepts evolved.

899. Master's Thesis Research  
Fall, Winter, Spring, Summer. Variable credits. Majors.

999. Doctoral Dissertation Research  
Fall, Winter, Spring, Summer. Variable credit. Majors.

ANIMAL HUSBANDRY  
See Animal Science.

ANIMAL SCIENCE - Descriptions of Courses  

217. Evaluation of Animal and Carcass  
(A H 235.) Fall. 3(1-4) ANS 211 or concurrently. 
Evaluation of breeding stock, market animals, and carcasses. Emphasis on production records and soundness of breeding animals, quality grading, yield grading and pricing market animals and carcasses.

232. Dairy Production Laboratory  
Spring. 1(0-3) ANS 211 or concurrently. 

242. Introduction to Horse Management  
(A H 214.) Fall. 3(3-1) 
The horse industry in today's society. Relationship of feeds to livestock. Selection, breeding, feeding, foot care, health, and management of the pleasure horse.

252. Livestock Production Laboratory  
Spring. 1(0-3) ANS 211 or concurrently. 

256. Meats, Poultry and Fishery Products I  
(A H 242.) Fall. 3(2-2) Interdepartmental with and administered by Food Science. 
Principles of evaluation and nutritive value, identification of grades and cuts of beef, pork, lamb and poultry products.

257A. Meat Evaluation and Grading  
(A H 245.) Winter. 1(0-3) ANS 217. 
Students may not earn more than 10 credits from the following courses: ANS 257A, ANS 257B, ANS 327, ANS 347A, ANS 347B, ANS 357A, ANS 357B, ANS 357C. 
Evaluation of beef, pork and lamb carcasses and wholesale cuts according to industry and consumer demands. Federal grading standards. Field trips to meat packing operations required.

257B. Meat Evaluation and Grading  
(A H 245.) Fall. 1 to 3 credits. ANS 257A. Students may not earn more than 10 credits from the following courses: ANS 257A, ANS 257B, ANS 337, ANS 347A, ANS 347B, ANS 357A, ANS 357B, ANS 357C. 
Evaluation of beef, pork and lamb carcasses and wholesale cuts according to industry and consumer demands. Federal grading standards. Field trips to meat packing operations required.

261. Introduction to Poultry Production  
(P 5 224.) Winter, Spring. 3(3-0) Poultry in the agricultural economy. Fundamental principles of anatomy and physiology, management practices. Prevention and control of disease.

262. Poultry Production Laboratory  
Winter, Spring. 1(0-3) ANS 261 or concurrently or approval of department.
