392H. Perspectives in History
Fall, Winter, Spring. 3(3-0) Juniors, approval of Honors College.
The focus will be on the nature of international diplomacy in the 20th century, the development of nationalism, the balance of power system, the influence of new ideologies, and the development of the power structure since 1945.

393H. Perspectives in 20th Century Arts: 1900-1920
Fall. 3(3-0) Juniors, approval of Honors College.
Reactions to Naturalism across the arts traced in Symbolism and Expressionism as related phenomena in response to the crisis of confidence in European institutions.

394H. Perspectives in 20th Century Arts: 1920-1945
Fall. 3(3-0) Juniors, approval of Honors College.
The function of avant-garde arts after World War II to the present studied in the new dimensions of an environment created by new technology and the mass media explosion.

434. Critical Issues in Dance
(J M 434.) Winter. 3(3-0) Seniors in Dance Field of Concentration or approval of department.
Developing aesthetic values and opinions through analysis of critical issues in dance. Solidification of individual dance philosophies.

450. Arts Management
Fall, Winter, Spring. 3 to 5 credits.
May reenroll for a maximum of 9 credits. Seniors or Graduate Students or approval of department.
Administration of arts organizations, management of facilities, understanding operational methods and procedures of performing companies, financial structure and funding of arts centers, study of audience development, contemporary trends in arts management field.

461. Aging and Human Values
Spring. 3(3-0) Juniors.
Development of personal and professional responses to value-laden questions concerning aging and the elderly through historical, literary, philosophical, and religious perspectives.

493H. Perspectives in the Social Sciences and Humanities
Fall, Winter, Spring. 2 to 6 credits.
May reenroll for a maximum of 12 credits if different topic is taken. Juniors, approval of Honors College, or approval of instructor. Interdepartmental with the College of Social Science.
An integration of subject matter and methodologies of several disciplines as they are relevant to particular topic areas.

492. Integrative Topics in the Arts and Humanities
(U C 492.) Fall, Winter, Spring. 4(4-0)
May reenroll for a maximum of 8 credits. Juniors or approval of department.
In-depth study of topics in the arts and humanities. Integrative and interdisciplinary approach.

495H. Perspectives in Contemporary Arts: Postwar Period
Spring. 3(3-0) Juniors, approval of Honors College.
The function of avant-garde arts after World War II to the present studied in the new dimensions of an environment created by new technology and the mass media explosion.

ASTRONOMY AND ASTROPHYSICS
See Physics and Astronomy.

AUDIOLOGY AND SPEECH SCIENCES

College of Communication Arts and Sciences

108. Voice and Articulation
Fall, Winter, Spring. 3(4-0)
The study and development of the skills of voice and articulation.

201. Introduction to Communication Disorders
(Fall) 3(2) Winter, 3(3-0)
Speech, hearing and language disorders in adults and children.

222. Oral Language Development
Fall, Winter, Spring. 3(3-0)
Emergence and development of receptive and expressive aspects of oral language of the child.

227. Physics for Audiology and Speech Sciences
Fall, Spring. 4(4-0) MTH 108. Not open to students with credit in PHY 237. Interdepartmental with and administered by Physics.
Introductory physics for Audiology and Speech Sciences majors: kinematics, Newton's Law, conservation of energy and momentum, waves and vibrations, sound propagation, resonance, speech production.

274. Structures and Functions of Speech and Hearing Mechanisms
Fall, Winter. 5(4-2) ASC 108 or approval of department.
Peripheral and central auditory mechanisms and the respiratory, phonatory and articulatory mechanisms for speech.

276. Descriptive Phonetics
Winter. Spring. 3(3-0) ASC 274 or approval of department.
Detailed description of the principles that underlie the production of speech sounds.

277. Speech Science
Fall, Winter Spring. 3(3-0) ASC 274, ASC 276.
Scientific basis of voice communication with special reference to the acoustic aspect of production.

373. Clinical Procedures in Speech Pathology and Audiology
Winter, Spring. 4(4-0) 3.00 grade-point average in ASC 201 and ASC 277 or approval of department.
Principles underlying the clinical interview and client relationships essential to diagnosis and therapy. Procedures in obtaining, recording, and evaluating test results and therapeutic methods.

444. Oral Language of Urban Areas
Winter, Summer. 3(3-0)
Concentration in the characteristics of language and human communication as these relate to studies and practices of those involved in urban affairs.

454. Introduction to Audiology
Fall, Spring. 5(5-2) ASC 276, ASC 277.
Fundamental aspects of normal hearing; hearing disorders, hearing tests.

460. Aural Rehabilitation
Winter, Summer. 5(5-2) ASC 454 or approval of instructor.
Fundamental aspects of hearing aids, auditory training, and speechreading for the hearing impaired person.

470. Communication Disorders
Spring, Summer. 3(3-0) Juniors. Not open to Audiology and Speech Sciences majors.
An overview of communication disorders; the professions of speech and language pathology and audiology and their relationships to allied professions.

474. Clinical Practicum in Speech and Language Pathology
Fall, Winter, Spring. 1 credit.
May reenroll for a maximum of 2 credits. Grade of 2.0 or better in both ASC 201 and ASC 373, satisfactory completion of a speech, language, and hearing screening/evaluation at the MSU Speech and Hearing Clinic. Therapeutic experience in speech and language pathology.

476. Speech Pathology II: Diagnostics
Fall, Winter, Spring. 5(5-2) ASC 474 or approval of department.
Test procedures and analysis; supervised clinical experience in language and speech evaluations and report writing.

477. Methods in Public School Speech and Hearing Therapy
Fall, Winter. 4(3-2) ASC 201, ASC 373.
Must be taken prior to term of student teaching. Administration and organization, procedures and materials in public school speech and hearing therapy.

480. Basic Laboratory in Experimental Audiology
Fall, Spring. 3(1-4) MTH 108, PHY 227, ASC 454. Juniors.
Contemporary experimental procedures in basic audiological research. Projects include systematic exercises in equipment use, calibration, psychophysical methods, and data analysis.
499. Independent Study
Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 12 credits. Approval of department.

501. Advanced Study of Articulatory Behavior
Summer. 3(2-2) Approval of department.
Theoretical and pragmatic implications of the interpersonal relationships of articulatory behavior and language production, especially as related to investigating procedures and results.

510. Audiologic Calibration Standards
Winter. 4(3-2) ASC 854 or ASC 833A, ASC 833B.
Contemporary electro-acoustic and other measurement standards for audiometers, sound level meters, earphones, hearing aids, and related devices; current issues in standards development; laboratory in applied measurement.

833. Specialized Clinical Audiology.
A. Differential Audiometry
Fall. 4(3-2)
Evaluation of speech and speech-like signals; detection, discrimination and recognition.
B. Speech Audiometry
Fall. 4(3-2)
Pure tone audiometric tests as an aid to the otologist in evaluating the pathology of hearing loss; including the development of norms. Consideration of normative and non-normative issues.
C. Industrial Audiology
Spring. 4(4-0)
Evaluation of the role of the audiologist in industry emphasizing identification procedures, damage-risk criteria, measurement and control of noise, conservation procedures, and medicolegal problems.
D. Advanced Audiological Evaluation
Winter. 3(2-2)
Theory, administration and evaluation of selected tests of the peripheral and central auditory system.
E. Pediatric Audiology
Fall. 4(4-0)
Evaluative procedures including play audiometry, language assessment, and case studies as aids to the differential diagnosis of auditory disorders in children, habilitative procedures for the acoustically handicapped child.
F. Geriatric Audiology
Summer. 4(3-0) ASC 460 or approval of department.
Causes and descriptions of hearing loss associated with aging; audiologic evaluation and rehabilitation of older people with emphasis on amplification needs.
G. Auditory Habilitation of the Hearing Impaired
Spring. 4(4-0) ASC 460, ASC 832B or approval of department.
Communication skills development, early identification, differential diagnosis, personal and classroom amplification systems, methodology controversies and public laws affecting education of the hearing impaired.
H. Electrophysiological Methods of Auditory and Vestibular Assessment
Spring. 4(3-2) ASC 854 or approval of department.
Electroencephalographic and brain stem audiometry, electrocochleography, electrocardiographic audiometry, respiratory audiometry, electrodynamometry, impedance audiometry and electroencephalography.

842. Augmentative and Alternative Communication Systems
Summer. 4(4-0) Approval of department.
Historical perspective and philosophy of augmentative/alternative communication systems. Aided and unaided nonspeech communication systems. Assessment, selection, and intervention procedures.

843. Transfer and Maintenance of Speech Behaviors
Winter. 4(4-0)
Various clinical procedures, assisting others in transferring and maintaining these behaviors outside the clinical environment.

Spring. 4(4-0) Approval of department.
Evaluation and analysis of various theories of speech perception and their implications for speech and language pathologists, audiologists, and speech and hearing scientists.

854. Psychophysics and Theories of Audition
Fall. 4(4-0) Approval of instructor
Nature of auditory stimuli and the results of psychophysical experimentation in audition.

874. Speech and Hearing Problems in Public Schools
Summer. 4(3-0) May reenroll for a maximum of 10 credits.
Graduate seminar in speech and hearing involving problems that arise in relation to speech and hearing therapy in the public schools. Approved through Spring 1984.

875A. Clinical Practicum in Speech and Language Pathology
Fall, Winter, Spring, Summer. 1 credit. May reenroll for a maximum of 8 credits. ASC 474 and satisfactory completion of a speech, language, and hearing screening/evaluation at the MSU Speech and Hearing Clinic. Directed diagnostic, therapeutic, and prognostic experience in speech and language pathology.

875B. Clinical Practicum in Audiology
Fall, Winter, Spring, Summer. 1 credit. May reenroll for a maximum of 8 credits. ASC 454 and satisfactory completion of a speech, language, and hearing screening/evaluation at the MSU Speech and Hearing Clinic. Directed diagnostic, therapeutic, and prognostic experience in audiology in various clinical settings.

876. Communication Disorders: Neuroanatomy-Neurophysiology
Fall. 4(3-2) Approval of department.
Neuroanatomical and neuropsychological correlates of speech, language, and hearing.

880A. Algorithms for Speech and Hearing Sciences
Fall. 4(4-0)
A discussion of useful algorithms applicable to quantification of phenomena related to audiology and speech sciences.

880B. Acoustic Phonetics
Winter. 4(4-0) ASC 880A or approval of department.
An analytic study of the acoustics of speech.

880C. Instruments and Electronics for Audiology and Speech Sciences
Spring. 4(3-3) ASC 880B or approval of department.
A discussion of the electronic principles and instruments necessary to measure parameters related to hearing and speech processes.
BIOCHEMISTRY

BCH

College of Agriculture and Natural Resources
College of Human Medicine
College of Natural Science
College of Osteopathic Medicine

200. Introduction to Biochemistry
Winter. Summer. 5(5-0). Credit may not be earned in both BCH 200 and BCH 401. General chemistry, one term organic chemistry. Not acceptable for a B.S. degree in biochemistry.
Survey of biochemistry emphasizing the major metabolic activities of living organisms.

400H. Honors Work
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 12 credits. Approval of department. Assigned reading and experimentation.

401. Basic Biochemistry
Fall. Spring. 5(5-0). Credit may not be earned in both BCH 200 and BCH 401. One year organic chemistry or CEM 242; not open to biochemistry majors.
A one-term presentation of biochemistry emphasizing structure and function of major biomolecules, metabolism and regulation. Examples used for illustrative purposes will emphasize the mammalian organism.

404. General Biochemistry Laboratory
Winter. 3(3-7) Analytical chemistry. BCH 401 or BCH 451. Experimental aspects of biochemistry.

405. Biochemistry Laboratory
Fall, Spring. 3(0-9) BCH 453 or concurrently; BCH 404; undergraduate biochemistry majors or approval of department.
Advanced undergraduate laboratory to illustrate modern biochemical methods and techniques.

412. Clinical Biochemistry
Winter. 3(3-3) BCH 401; CEM 162. Medical Technology majors. Not acceptable for a B.S. degree in biochemistry. Others: approval of department.
Quantitative clinical laboratory methods.

451. Biochemistry
Fall. 3(3-0) Credit may not be earned in both BCH 401 and BCH 451. One year organic chemistry or CEM 242. A comprehensive survey of biochemistry with emphasis on the properties and functions of biomolecules, energy-yielding and energy-utilizing processes, and the transfer of genetic information.

452. Biochemistry
Winter. 3(3-0) BCH 451.
Continuation of BCH 451.

453. Biochemistry
Spring. 3(3-0) BCH 452.
Continuation of BCH 452.

IDC. Biological Membranes
For course description, see Interdisciplinary Courses.

499. Research
Fall, Winter, Spring. Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits. Undergraduates; approval of department. Participation in research projects.

501. Medical Biochemistry
Fall. 3(3-0) Open only to students in the professional programs in the College of Human Medicine and the College of Osteopathic Medicine. Basic Biochemical principles and terminology of importance in medical biology.

502. Medical Biochemistry
Winter. 3(3-0) BCH 501 or approval of department. A continuation of BCH 501.

503. Introduction to Medical Biology
Fall. 5(5-0) Admission to the College of Human Medicine, Interdepartmental with the departments of Microbiology and Public Health, Pharmacology and Toxicology, and Physiology. Administered by the Department of Microbiology and Public Health. Principles of medical biology for medical students.

511. Medical Biochemistry I
Winter. 3(3-0) One year of organic chemistry. Open only to students in the professional programs in the College of Human Medicine and the College of Osteopathic Medicine. Basic biochemical principles and terminology with emphasis on metabolism and function of biomolecules of importance in medical biology.

512. Medical Biochemistry II
Spring. 4(4-0) BCH 511. Basic biochemical principles and processes pertinent to specific areas of human pathophysiology.

801. Biochemical Research Methods
Fall. 1(1-1) or 2(2-1) May reenroll for a maximum of 3 credits. One year of organic chemistry or CEM 242; BCH 451 or BCH 811; or concurrently. Discussions and demonstrations of selected experimental techniques of wide application in biochemistry.

811. Nucleic Acid Structure and Function
Fall. 4(4-0) One year of organic chemistry, one year of physical chemistry, one term of introductory biochemistry, or approval of department. Limited to graduate students in biochemistry or other students needing a similar background.

812. Protein Structure and Function
Winter. 4(4-0) BCH 811. Protein structure and function relationships, macromolecule-liquid interactions, enzyme kinetics and principles of methods used in enzymology.

813. Metabolism and Its Regulation
Spring. 4(4-0) BCH 812. Molecular basis of metabolic regulation, compartmentation and interrelationships of metabolic cycles involving carbohydrates, proteins and lipids.

821. Biochemical Mechanism and Structure I
Fall. 3(3-0) BCH 401. One year of organic chemistry and physical chemistry or concurrently, or approval of department. Structures, methods of structural analysis, synthesis, and reaction mechanisms of biological substances including proteins, carbohydrates, lipids, porphyrins, phosphate esters, enzymes and coenzymes.

822. Biochemical Mechanism and Structure II
Winter. 2(2-0) BCH 821 or approval of department. Continuation of BCH 821.

831. Physiological Biochemistry I
Winter. 3(3-0) BCH 401. Physiological biochemistry with emphasis on metabolic interpretation of normal and altered physiological states of the human organism and appropriate animal models.

832. Physiological Biochemistry II
Spring. 3(3-0) BCH 831. Continuation of BCH 831.

555. Special Problems
Fall, Winter, Spring. Summer. 1 to 6 credits. May reenroll for a maximum of 12 credits. Approval of department. Consideration of current problems.

864. Plant Biochemistry
Spring. 4(4-0) BCH 401, BOT 301 or approval of department. Interdepartmental with the Department of Botany and Plant Pathology. Metabolism of nitrogen compounds, carbohydrates, and lipids unique to plants' cell organelles; photosynthesis; photosynthesis; dark respiration; cell walls; lectins; nitrogen cycle including nitrogen fixation, sulfur cycle.
