899. Master's Thesis Research  
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

900. Advanced Correlative Pathology  
Fall, Spring. 5(1-15) Approval of department. 
Compilation and formal presentation of the correlative findings of case material in anatomic and/or clinical pathology.

901. Doctoral Dissertation Research  
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

PEDIATRICS PED

College of Osteopathic Medicine

590. Special Problems in Pediatrics  
Fall, Winter, Spring, Summer. 1 to 8 credits. Approval of department. 
Each student will work under direction of a faculty member on an experimental, theoretical or applied problem.

600. Pediatrics Clerkship  
Fall, Winter, Spring, Summer. 6 or 8 credits. Grade P in all courses offered in terms 1 through 8 or approval of department. Practical clinical exposure in the area of pediatrics. Program developed to achieve proficiency in motor skills and aptitudes; comprehension of concepts and principles; patient evaluation, diagnosis, management and therapy.

620. Directed Studies  
Fall, Winter, Spring, Summer. 2 to 24 credits. PED 600 or approval of department. Study in general or specialty pediatrics.

PEDIATRICS AND HUMAN DEVELOPMENT PHD

College of Human Medicine

520. Genetics Clinic  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Students will interview and examine patients with inheritable disorders, perform related laboratory diagnostic procedures, and participate in genetic counseling conferences and discussions.

531. Medical Genetics  
Fall. 1(1-0) Admission to a college of medicine or approval of department. Basic genetic principles and their application to clinical medicine, prenatal genetic diagnosis, exercises in genetic counseling and the importance of relevant laboratory tests.

532. Phenomena of Development  
Fall. 5(5-0) PHD 531 or approval of department. Normal psychological and physical development of the human including intellectual, social, emotional and endocrinological growth from infancy through adolescence. Clinical examples highlight deviations from the normal course of development.

590. Special Problems in Human Development  
Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 12 credits. Human Medicine students or approval of department. Each student will work under direction of a staff member on an experimental, theoretical or applied problem.

607. Ambulatory Care Clerkship  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. HM 602. Interdepartmental with the departments of Community Health Science, Family Practice, and Medicine. Administered by the Department of Family Practice. Outpatient experience, lasting an equivalent of 34 half-days and extending over a minimum of 25 weeks. Continuous and comprehensive patient care under supervision of appropriate physicians.

608. Pediatric Specialty Clerkship  
Fall, Winter, Spring. Summer. 1 to 17 credits. May reenroll for a maximum of 43 credits. HM 602; primary clerkship. Clinical experience with pediatric patients under the direction of members of the faculty of the Department of Human Development and community pediatricians. Fall, Summer, Grand Rapids, Summer, Flint.

609. Human Development and Pediatric Sub-Specialties  
Fall, Winter, Spring, Summer. 1 to 17 credits. May reenroll for a maximum of 34 credits. HM 602. Elected experiences in selected clinical and basic sciences related to pediatrics and human development.

610. Ambulatory Pediatrics  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience in outpatient and community settings involving ongoing child health care including chronic medical illnesses and common behavioral problems.

611. Infectious Diseases  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Combined office or clinic and inpatient experience in evaluating and managing pediatric patients with infectious diseases.

612. Neonatology  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience involving modern neonatal techniques and care patterns for the sick neonate.

613. Pediatric Cardiology  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Office, clinic and hospital experience in diagnostic and therapeutic pediatric cardiology including special diagnostic procedures.

614. Pediatric Endocrinology and Metabolism  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinic and hospital experience in evaluating patients with endocrine and metabolic disorders.

615. Pediatric Hematology and Oncology  
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience in evaluating and managing pediatric patients with common hematologic and oncologic disorders.

PHARMACOLOGY AND TOXICOLOGY PHM

College of Human Medicine  
College of Osteopathic Medicine  
College of Veterinary Medicine

350. Introductory Human Pharmacology  
Spring. 3(3-0) PSL 422 or PSL 241 or concurrently or approval of department. General principles; central nervous system, autonomic nervous system, cardiovascular and renal drugs; chemotherary; and other selected basic topics.

430. Drug Abuse  
Fall of odd-numbered years. 4(4-0) Juniors or approval of department. Biology and chemistry recommended. Actions, mechanism of action, toxicity and uses of drugs of abuse. Sociological and psychological aspects of drug abuse and the legal aspects of the sale and distribution of drugs are considered.

450. Introduction to Chemical Toxicology  
Spring. 3(3-0) B S 210, B S 211, B S 212, CEM 242. Potential risk of environmental chemicals to animal and human health.

490. Special Problems  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department. Limited amounts of individual work on selected research problems for undergraduate students.

503. Introduction to Medical Biology  
Fall. 5(5-0) Admission to the College of Human Medicine. Interdepartmental with the departments of Biochemistry, Microbiology and Public Health, and Physiology. Administered by the Department of Microbiology and Public Health. Principles of medical biology for medical students.

520. Medical Pharmacology I  
(Fall) Fall. 4(4-0) PSL 500A or PSL 500E; BCH 510 or BCH 512. Drug absorption, distribution, biotransformation, elimination, antagonism; receptor theory and pharmacogenetics. Chemotherapy: antineoplastic, antiviral and antimicrobial agents. Toxicology and emergency therapies. Pharmacology related to the autonomic nervous system.

521. Medical Pharmacology II  
(Fall) Winter. 4(4-0) PHM 520. Pharmacology of the central and peripheral nervous systems. Cardiovascular, renal and gastrointestinal drugs. Endocrine and autacoid pharmacology.
Descriptions - Pharmacology and Toxicology of Courses

554. Veterinary Pharmacology and Toxicology I
(520A) Fall, 4(4-0) PSL 500B, PSL 500C.
Drug absorption, distribution, biotransformation, elimination, receptor theory and pharmacogenetics; chemical toxicity; autonomic nervous system, cardiovascular and renal pharmacology.

555. Veterinary Pharmacology and Toxicology II
(521A) Winter, 3(4-2) PHM 554.
Endocrine, autonomic and central nervous system pharmacology; chemotherapy; antimicrobials, antihelminthics, antineoplastics.

810. Synaptic Transmission
Winter of odd-numbered years, 4(4-0)
Approval of department.
Chemical and electrical aspects of nervous impulse transmission at synaptic and neuroeffector junctions and influences of drugs upon these processes. Intrinsinc neuronal circuitry; reticular formation; thalamus; neocortex; cerebellum.

813. Cardiac Pharmacology
Winter of even-numbered years, 4(4-0)
PHM 555 or PHM 521; PSL 801, PSL 802, PSL 803; approval of department.
Effects of drugs on normal physiological and biochemical properties in cardiac cells are studied. Emphasis is placed on mechanisms of drug action.

814. Advanced Principles of Toxicology
Spring of even-numbered years, 4(4-0)
PHM 812.
Current biochemical and physiological mechanisms of toxicity on major organ systems. Mechanisms of mutagenicity, carcinogenicity and teratogenicity.

820. Advanced General Pharmacology
Fall, 3(2-2) PHM 520 or concurrently.
Discussions, demonstrations and laboratories designed to supplement information provided in PHM 520 on the pharmacokinetics and actions of drugs that influence the autonomic and cardiovascular systems.

821. Advanced General Pharmacology
Winter, 3(2-2) PHM 520, PHM 820; PHM 521 or concurrently.
This course complements PHM 521 (Pharmacodynamics) with increased coverage of toxicology, chemotherapy (antibiotic, antinecancer, and antiparasitic) and central nervous system drugs, including narcotic analgesics and psychoactive agents.

870. Problems
Fall, Winter, Spring, Summer, 2 to 4 credits. May enroll for a maximum of 12 credits. Approval of department.
Limited amounts of individual work on selected research problems for upper year grade students in the Department of Pharmacology and Toxicology.

899. Master's Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.
Individual work on research problems for the master's degree in pharmacology.

910. Seminar
Fall, Winter, Spring, 1(1-0) May enroll for a maximum of 3 credits. Approval of department.
Discussion of recent topics on pharmacology by departmental or outside speakers, or reporting of research efforts by graduate students of the Department of Pharmacology and Toxicology.

980. Problems
Fall, Winter, Spring, Summer, 2 to 5 credits. May enroll for a maximum of 20 credits. Approval of department.
Limited work on selected research problems.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.
Individual work on research problems for the doctoral degree in pharmacology.

PHILOSOPHY

College of Arts and Letters
Each of the courses PHL 101, PHL 102, PHL 103 is an independent gateway to a major area of philosophy. Together they provide a comprehensive introduction to philosophical inquiry.
The courses may be taken independently and in any order.

101. Introduction to Philosophy: Ethics and Value (A)
Fall, Winter, Spring, Summer. 3(3-0)
Students may not receive credit for both PHL 101 and PHL 380.
An inquiry into the nature of the right and the good, addressed to such fundamental problems as the objectivity of moral judgments, the criteria of right and wrong, and the grounds of moral responsibility.

102. Introduction to Philosophy: Knowledge and Reality (A)
Fall, Winter, Spring, Summer. 3(3-0)
An examination of such basic philosophical problems as free will and determinism, the existence of God, the relation of mind and body, and the scope and limits of human knowledge.

103. Introduction to Philosophy: Logic
Fall, Winter, Spring, Summer. 3(3-0)
An examination of deductive and inductive reasoning and of such topics as rational argumentation, fallacies, definition, meaning, truth, and evidence. Designed to improve students' capacities to reason and think critically.

120. Classics of Philosophical Literature (A)
Fall, Winter, Spring. 4(4-0)
An introduction to contrasting classics of literary and philosophical importance. Primary texts from such philosophers as Plato, Lucrece, Descartes, Hume, Nietzsche, James, Russell, and Sartre will be read and discussed.

294. Special Topics
Fall, Winter, Spring. 2(2-0) to 6(6-0)
May enroll for a maximum of 12 credits if different topics are taken. Approval of department.
Intensive study of some particular problem or author in philosophy.

311. Indian Philosophy
Fall, Winter, Spring. 3(3-0)
Metaphysical, ethical and social theories developed within major Indian philosophical systems; e.g., philosophical Buddhism, Vedantic transcendentalism, Samkya dualism, and the Realist schools.

312. Chinese Philosophy
Spring. 3(3-0)
Comparative moral philosophy of Confucianism, Taoism, and Buddhism and their metaphorical and cultural roots. Concepts of enlightenment and human nature.

315. American Philosophy
Spring of odd-numbered years, 3(3-0)
Three credits in philosophy or approval of department.
Examination of such thinkers as Royce, Pierce, James, Dewey, Whitehead and Santayana, illustrating classic American contributions to philosophy.

323. Existentialism
Fall, Winter, Spring. 3(3-0) Three credits in philosophy or approval of department.
Such authors as Husserl, Jaspers, Kierkegaard, Marcel, Nietzsche, Sartre and such topics as hope, anxiety, bad faith, subjectivity, freedom, social being, and phenomenological method.

Taken together, PHL 211, PHL 212 and PHL 213 provide a comprehensive introduction to the history of western philosophy. It is recommended that these courses be taken in sequence. However, if only one course is taken it may be any one of these, since each course is self-contained and may be taken independently of the others.

211. Ancient Philosophy (A)
Fall, Winter, Spring. 3(3-0)
An introduction to the history of philosophy: the Greek and Roman periods, with emphasis on Plato and Aristotle.

212. Medieval and Early Modern Philosophy (A)
Winter, Spring. 3(3-0) PHL 211 recommended.
An introduction to the history of philosophy: the Middle Ages to the rise of modern science, with emphasis on Aquinas, Descartes, Spinoza and Leibniz.

213. Modern Philosophy (A)
Fall, Spring. 3(3-0) PHL 212 recommended.
An introduction to the history of philosophy: the Enlightenment to the nineteenth century, with emphasis on Hume and Kant and such other philosophers as Locke, Berkeley, Hegel, Kierkegaard and Nietzsche.
