163. Writing: American Radical Thought
Spring. 3(3-0) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.
Writing course to improve composition and research abilities. Writings based on the literature and history of the New Left and contemporary dissent in America. Research project required.

171. Writing: America on Film
Fall. 3(3-2) Satisfactory performance on the placement test.
Writing course to improve composition abilities. Writings and readings based on classic film adaptations of American literature. Emphasis upon unity and structure of essays.

172. Writing: America on Film
Winter. 3(3-2) Three credits in the first term of any ATL sequence numbered 121 or higher or approval of department.
Writing course to improve composition abilities. Writings and readings based on American film genres (e.g., Western, Gangster). Emphasis on style and development of essays.

173. Writing: America on Film
Spring. 3(3-2) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.
Writing course to improve composition and research abilities. Writings and readings based on analysis of major social issues as reflected in American film, e.g., war, women, minorities. Research project required.

181. Writing: Women in America
Fall. 3(3-0) Satisfactory performance on the placement test.
Writing course to improve composition and critical reading abilities. Writings based on critical works introducing contemporary and historic American feminist issues. Emphasis on unity and structure of essays.

182. Writing: Women in America
Winter. 3(3-0) Three credits in the first term of any ATL sequence numbered 121 or higher or approval of department.
Writing course to improve composition and critical reading abilities. Writings based on American women from Pre-Colonial times through First Wave Feminism. Emphasis on style and development of essays.

183. Writing: Women in America
Spring. 3(3-0) Three credits in the second term of any ATL sequence numbered 121 or higher or approval of department.
Writing course to improve composition and critical reading abilities. Writings based on women in American life and literature from 1920 to the present. Research project required.

191H. Honors Writing: The American Experience
Fall. 3(3-0) Satisfactory performance on the placement test.
Writing course to improve composition and critical reading abilities. Writings based on analysis of selections from the late nineteenth and early twentieth centuries.

192H. Honors Writing: The American Experience
Winter. 3(3-0) Satisfactory grade in the first term of any ATL sequence numbered ATL 121 or above.
Writing course to improve composition and critical reading abilities. Writings based on analysis of selections from the late nineteenth and early twentieth centuries.

193H. Honors Writing: The American Experience
Spring. 3(3-0) Satisfactory grade in the second term of any ATL sequence numbered ATL 121 or above.
Writing course to improve composition and research abilities. Writings based on analysis of twentieth century materials reflecting American issues.

205. Reading for University-Level Understanding
Fall, Winter, Spring. 2(0-4) May reenroll for a maximum of 4 credits.
Individualized instruction in techniques for improving vocabulary, comprehension, rate, study skills and test taking skills in order to achieve a better understanding of university-level materials.

292. Selected Topics
Fall, Winter, Spring. 3 to 5 credits.
May reenroll for a maximum of 8 credits if different topic is taken.
Interdisciplinary study of topics in American culture.

300. Supervised Individual Study
Fall, Winter, Spring. 2 to 4 credits. May reenroll for a maximum of 12 credits.
6 credits in a composition course; approval of department.
Selected students requesting individual study of interdisciplinary problems. Variable elective credit will be determined when the student submits an application to the department.

ANATOMY

ANT

College of Human Medicine
College of Osteopathic Medicine
College of Veterinary Medicine

216. Applied Human Anatomy
Fall, Spring. 5(3-4) HPR major or minor.
Structural anatomy of the various systems of the human body. Concepts of kinesiological applications.

316. General Anatomy
Fall, Spring, 5(5-0) B S 211 or B S 212 or approval of department.
Designed to impart the basic concepts of the broad field of anatomy. Special requirements of the various disciplines will be met in their respective laboratories.

420. Microscopic Anatomy
Winter. 5(2-8) Medical Technology students or approval of department.
Microscopic study of the structure of cells, tissues and organs.

480. Special Problems
Fall, Winter, Spring, Summer. 1 to 5 credits. May reenroll for a maximum of 15 credits. Approval of department.
Individual study or project under the direction of a faculty member in biomedical research, gross anatomy, histology, neurology, or embryology.
Descriptions — Anatomy

545. Neuroanatomy
Winter. 3(4-0) Admission to medical school or approval of Neuroscience Committee.
Introduction to gross and microscopic anatomy of the human nervous system, to related basic neurophysiologic concepts and to a problem-solving approach to the diagnosis of nervous system disease.

560. Medical Histology
Fall. 4(3-4) Admission to a college of medicine or approval of department.
Structural and functional characteristics of basic cells, tissues and organ systems. Emphasis on core concepts and visual discrimination.

563. Osteopathic Medical Neuroanatomy
Spring. 4(3-4) Admission to a college of medicine; graduate students with approval of department.
Medically oriented problem-solving neuroanatomy with laboratory. Structure of the human nervous system is correlated with normal function, clinical testing and classical lesions encountered in medical practice.

565. Introduction to Human Gross Anatomy
Fall. 4(4-6) Admission to a college of medicine or approval of department.
Core concepts in regional, systemic and topographical human gross anatomy: Prosection, dissection and lecture methods using audiovisual aids and frequent review.

580. Special Problems
Fall, Winter, Spring, Summer. 1 to 5 credits. May be repeated for a maximum of 15 credits. Admission to professional programs in the College of Veterinary Medicine or the College of Osteopathic Medicine, and approval of department.
Biomedical research, gross anatomy, histology, neurology, immunology or embryology.

813. Problems in Anatomy
Fall, Winter, Spring, Summer. 1 to 5 credits. May be repeated for a maximum of 15 credits. Admission to professional programs in the College of Veterinary Medicine or the College of Osteopathic Medicine, and approval of department.
Various anatomical fields such as gross anatomy, histology, hematology, tissue culture, cytology, neurology and embryology will be studied.

815. Anatomy of the Nervous System
Fall. 5(3-5) Approval of department.
Developmental, gross and microscopic anatomy of the nervous system. Organizational and functional aspects of the peripheral and central nervous system are stressed. Gross demonstrations include brain and dog dissections.

820. Advanced Neuroanatomy: Structure and Function of Cells of CNS
Spring. 3 credits. ANT 815 and approval of instructor.
Correlated anatomy and physiology of CNS cells and their pro functional characteristics, current concepts and principles of cytology, ultrastructure, development and plasticity, axonal transport mechanisms, electrical properties and functional connections.

865. Advanced Neurobiology
Spring. 4(4-0) ZOL 827. Interdepartmental with the departments of Psychology, Psychology, and Zoology.
Basic organization, structure and function of neural networks comprising sensory, motor, and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

885. Vertebrate Neural Systems I
(PSY 885.) Winter of even-numbered years. 3(3-4) ANT 815, ANT 805 recommended. Interdepartmental with the departments of Psychology, Psychology, and Zoology.
Structure and function of major component systems of vertebrate brains, their evolution, ontogeny and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.

886. Vertebrate Neural Systems II
(ZOL 886.) Spring of even-numbered years. 3(3-4) ANT 805. Interdepartmental with the departments of Psychology, Psychology, and Zoology.
Continuation of ANT 885. Major component systems of vertebrate brains, their evolution, ontogeny, and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical, and physiological studies.

891. Concepts in Tumorigenesis
Winter of even-numbered years. 2(2-0) Approval of instructor.
In depth evaluation of the current concepts in tumorigenesis emphasizing the experimental results from which these concepts evolved.

899. Master’s Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Majors.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credits. Majors.

ANIMAL SCIENCE

College of Agriculture and Natural Resources

111. Animal Industries Colloquium
(213.) Fall. 1(2-0)
History of animal agriculture. Current activities, goals and limitations of animal industries and agriculturists. Professional responsibilities and utilization of academic and non-academic experiences.

211. Principles of Animal Science
Spring. 5(5-0) S 8 211
Animal industries and species. Principles of genetics, reproduction, lactation, nutrition and management. Systems of production and marketing for farm animals.

217. Evaluation of Animal and Carcass
(A H 225.) Fall. 3(4-1) ANS 211 or concurrently.
Evaluation of breeding stock, market animals, and carcasses. Emphasis on production records and soundness of breeding animals, quality grading, yield grading and pricing market animals and carcasses.

232. Dairy Production Laboratory
Spring. 1(0-3) ANS 211 or concurrently.
Physical characteristics of cows and facilities. Anatomy. Experience in estrous detection, milking equipment, feeds and rations and records. Normal cow behavior.

242. Introduction to Horse Management
(A H 214.) Fall. 3(3-1)
The horse industry in today's society. Relationship of learning to function. Selection, breeding, feeding, foot care, health, and management of the pleasure horse.

252. Livestock Production Laboratory
Spring. 1(0-3) ANS 211 or concurrently.

257A. Meat Evaluation and Grading
(A H 245.) Winter. 1(0-3) ANS 217. Students may not earn more than 10 credits from the following courses: ANS 257A, ANS 257B, ANS 337, ANS 347A, ANS 347B, ANS 357A, ANS 357B, ANS 357C.
Evaluation of beef, pork and lamb carcasses and wholesale cuts according to industry and consumer demands. Federal grading standards. Field trips to meat packing operations required.

257B. Meat Evaluation and Grading
(A H 245.) Fall. 1 to 3 credits. ANS 257A. Students may not earn more than 10 credits from the following courses: ANS 257A, ANS 257B, ANS 337, ANS 347A, ANS 347B, ANS 357A, ANS 357B, ANS 357C.
Evaluation of beef, pork and lamb carcasses and wholesale cuts according to industry and consumer demands. Federal grading standards. Field trips to meat packing operations required.

261. Introduction to Poultry Production
(P S 224.) Winter, Spring. 3(0)

262. Poultry Production Laboratory
Winter, Spring. 1(0-3) ANS 261 or concurrently or approval of department.

313. Principles of Animal Nutrition
(232.) Spring. 5(5-0) PSL 241, CEM 132, BCH 200 recommended.
