999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

PEDIATRICS

College of Osteopathic Medicine

590. Special Problems in Pediatrics
Fall, Winter, Spring, Summer. 1 to 6 credits. Approval of department. Each student will work under direction of a faculty member on an experimental, theoretical or applied problem.

600. Pediatrics Clerkship
Fall, Winter, Spring, Summer. 6 or 8 credits. Grade P in all courses offered in terms 1 through 8 or approval of department. Practical clinical exposure in the area of pediatrics. Program developed to achieve proficiency in motor skills and aptitudes: comprehension of concepts and principles; patient evaluation, diagnosis, management and therapy.

620. Directed Studies
Fall, Winter, Spring, Summer. 2 to 24 credits. PHD 600 or approval of department. Study in general or specialty pediatrics.

PEDIATRICS AND HUMAN DEVELOPMENT

College of Human Medicine

520. Genetics Clinic
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Students will interview and examine patients with inheritable disorders, perform related laboratory diagnostic procedures, and participate in genetic counseling conferences and discussions.

531. Medical Genetics
Fall. (1-0) Admission to a college of medicine or approval of department. Basic genetic principles and their application to clinical medicine, prenatal genetic diagnosis, exercises in genetic counseling and the importance of relevant laboratory tests.

532. Phenomena of Development
Fall. (5-0) PHD 531 or approval of department. Normal psychological and physical development of the human including intellectual, social, emotional and endocrinological growth from infancy through adolescence. Clinical examples highlight deviations from the normal course of development.

590. Special Problems in Human Development
Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 12 credits. Human Medicine students or approval of department. Each student will work under direction of a staff member on an experimental, theoretical or applied problem.

607. Ambulatory Care Clerkship
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. H M 602. Interdepartmental with the Department of Community Health Science, Family Practice, and Medicine. Administered by the Department of Community Medicine. Outpatient experience, lasting an equivalent of 34 half-days and extending over a minimum of 26 weeks. Continuous and comprehensive patient care under supervision of appropriate physicians.

608. Pediatric Specialty Clerkship
Fall, Winter, Spring, Summer. 1 to 17 credits. May reenroll for a maximum of 43 credits. H M 602; primary clerkship. Clinical experience with pediatric patients under the direction of members of the faculty of the Department of Human Development and Community Pediatrics. Fall, Saginaw, Winter, Lansing, Spring, Grand Rapids, Summer, Flint.

609. Human Development and Pediatrics Sub-Specialties
Fall, Winter, Spring, Summer. 1 to 17 credits. May reenroll for a maximum of 34 credits. H M 602. Elective experiences in selected clinical and basic sciences related to pediatrics and human development.

610. Ambulatory Pediatrics
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience in outpatient and community settings involving ongoing child health care including chronic medical illnesses and common behavioral problems.

611. Infectious Diseases
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Combined office or clinic and inpatient experience in evaluating and managing pediatric patients with infectious diseases.

612. Neonatology
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience involving modern neonatal techniques and care patterns for the sick neonate.

613. Pediatric Cardiology
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Office, clinic and hospital experience in diagnostic and therapeutic pediatric cardiology including special diagnostic procedures.

614. Pediatric Endocrinology and Metabolism
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical and hospital experience in evaluating patients with endocrine and metabolic disorders.

615. Pediatric Hematology and Oncology
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. PHD 608. Clinical experience in evaluating and managing pediatric patients with common hematologic and oncologic disorders.

PHARMACOLOGY AND TOXICOLOGY

College of Human Medicine

350. Introductory Human Pharmacology
Spring. 3(3-0) PSL 432 or PSL 241 or concurrently; or approval of department. General principles; central nervous system, autonomic nervous system, cardiovascular and renal drugs; chemotherapy; and other selected basic topics.

430. Drug Abuse
Fall. Odd-numbered years. 4(4-0) Juniors or approval of department. Biology and chemistry recommended.

450. Introduction to Chemical Toxicology
Spring. 3(3-0) 5 210, 5 211, 5 B 212, CEM 212. Potential risk of environmental chemicals to animal and human health.

503. Introduction to Medical Biology
Fall. 5(5-0) Admission to the College of Human Medicine. Interdepartmental with the departments of Biochemistry, Microbiology and Public Health, and Physiology. Administered by the Department of Microbiology and Public Health. Principles of medical biology for medical students.

520. Medical Pharmacology I
(FS00B) Fall. 4(4-0) PSL 500A or PSL 500E, BCH 501 or BCH 512. Drug absorption, distribution, biotransformation, elimination, antagonism; receptor theory and pharmacogenetics. Chemotherapy; anti-neoplastic, antiviral and antimicrobial agents. Toxicology and emergency therapies. Pharmacology related to the autonomous nervous system.

521. Medical Pharmacology II
(FS11B) Winter. 4(4-0) PHM 520. Pharmacology of the central and peripheral nervous systems. Cardiocascular, renal and gastrointestinal drugs. Endocrine and autonomic pharmacology.

554. Veterinary Pharmacology and Toxicology I
(FS21A) Fall. 4(4-0) PSL 500B, PSL 500C. Drug absorption, distribution, biotransformation, elimination, receptor theory and pharmacogenetics; chemical toxicity; autonomic nervous system, cardiovascular and renal pharmacology.

555. Veterinary Pharmacology and Toxicology II
(FS21A) Winter. 5(4-2) PHM 554. Endocrine, autonomic and central nervous system pharmacology; chemotherapy: antimicrobials, antihelminthics, antineoplastic.
810. Synaptic Transmission
Fall, Winter, Spring of odd-numbered years, 3(3-0)
Approved of department. Chemical and electrical aspects of nervous impulse transmission at synaptic and electrochemical junctions and influences of drugs upon these processes. Intrinsic neuronal circuitry; reticular formation; thalamus; neocortex; cerebellum.

813. Cardiac Pharmacology
Fall, Winter of even-numbered years, 3(3-0)
PHM 555 or PHL 521; PSL 501, PSL 502, PSL 503; approval of department. Effects of drugs on normal physiological and biochemical processes in cardiac cells are studied. Emphasis is placed on mechanisms of drug action.

814. Advanced Principles of Toxicology
Spring of even-numbered years, 4(4-0)
PHM 612
Current biochemical and physiological mechanisms of toxicity on major organ systems. Mechanisms of mutagenicity, carcinogenicity, and teratogenicity.

820. Advanced General Pharmacology
Fall, 2(2-0) PHL 530 or concurrently. Discussions, demonstrations and laboratories designed to supplement information provided in PHL 530 on the pharmacokinetics and actions of drugs that influence the autonomic and cardiovascular systems.

821. Advanced General Pharmacology
Winter, 2(2-0) PHL 520, 3(3-0); PHL 521 or concurrently. This course complements PHL 521 (Pharmacodynamics) with increased coverage of toxicology, chemotherapy (antibiotic, anticancer, and antiparasitic) and central nervous system drugs, including narcotic analogues and psychoactive agents.

870. Problems
Fall, Winter, Spring, Summer, 2 to 4 credits. May reenroll for a maximum of 12 credits. Approval of department. Limited amounts of individual work on selected research problems for first year graduate students in the Department of Pharmacology and Toxicology.

590. Master's Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department. Individual work on research problems for the master's degree in pharmacology.

910. Seminar
Fall, Winter, Spring, 1(1-0) May reenroll for a maximum of 3 credits. Approval of department. Discussion of recent topics in pharmacology by departmental or outside speakers, or reporting of research efforts by graduate students of the Department of Pharmacology and Toxicology.

980. Problems
Fall, Winter, Spring, Summer, 2 to 5 credits. May reenroll for a maximum of 20 credits. Approval of department. Limited work on selected research problems.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department. Individual work on research problems for the doctoral degree in pharmacology.

PHILOSOPHY

PHL

College of Arts and Letters

Each of the courses PHL 101, PHL 102, PHL 103 is an independent gateway to a major area of philosophy. Together they provide a comprehensive introduction to philosophical inquiry. The courses may be taken independently and in any order.

101. Introduction to Philosophy: Ethics and Value (A)
Fall, Winter, Spring, Summer, 3(3-0)
Students may not receive credit for both PHL 101 and PHL 330. An inquiry into the nature of the right and the good, addressed to such fundamental problems as the objectivity of moral judgments, the criteria of right and wrong, and the grounds of moral responsibility.

102. Introduction to Philosophy: Knowledge and Reality (A)
Fall, Winter, Spring, Summer, 3(3-0)
An examination of such basic philosophical problems as free will and determinism, the existence of God, the relation of mind and body, and the scope and limits of human knowledge.

103. Introduction to Philosophy: Logic
Fall, Winter, Spring, Summer, 3(3-0)
An examination of deductive and inductive reasoning and of such topics as rational argumentation, fallacies, definition, meaning, truth, and evidence. Designed to improve students' capacities to read and think critically.

120. Classics of Philosophical Literature (A)
Fall, Winter, Spring, 4(4-0)
An introduction to contrasting classics of literary and philosophical importance. Primary texts from such philosophers as Plato, Lucretius, Descartes, Hume, Nietzsche, James, Russell and Sartre will be read and discussed.

200H: Honors Work
Fall, Winter, Spring, 1 to 16 credits. Approval of department.

Taken together, PHL 211, PHL 212 and PHL 213 provide a comprehensive introduction to the history of western philosophy. It is recommended that these courses be taken in sequence. However, if only one course is taken it may be any one of these, since each course is self-contained and may be taken independently of the others.

211. Ancient Philosophy (A)
Fall, Winter, Spring, 3(3-0)
An introduction to the history of philosophy: the Greek and Roman periods, with emphasis on Plato and Aristotle.

212. Medieval and Early Modern Philosophy (A)
Winter, Spring, 3(3-0) PHL 211 recommended.
An introduction to the history of philosophy: the Middle Ages to the rise of modern science, with emphasis on Aquinas, Descartes, Spinoza and Leibniz.

213. Modern Philosophy (A)
Fall, Spring, 3(3-0) PHL 212 recommended.
An introduction to the history of philosophy: the Enlightenment to the nineteenth century, with emphasis on Hume and Kant and such other philosophers as Locke, Berkeley, Hegel, Kierkegaard and Nietzsche.

312. Chinese Philosophy
Spring, 3(3-0)
Comparative moral philosophy of Confucianism, Taoism, and Buddhism and their metaphysical and cultural roots. Concepts of enlightenment and human nature.

315. American Philosophy
Spring of odd-numbered years, 3(3-0)
Three credits in philosophy or approval of department. Examination of such thinkers as Royce, Pierce, James, Dewey, Whitehead and Santayana, illustrating classic American contributions to philosophy.

323. Existentialism
Fall, Winter, Spring, 3(3-0) Three credits in philosophy or approval of department. Such authors as Husserl, Jaspers, Kierkegaard, Marxel, Nietzsche, Sartre and such topics as hope, anxiety, bad faith, subjectivity, freedom, social being, and phenomenological method.

330. Elements of Ethics
Fall, Winter, Spring, 3(3-0) Juniors. Students may not receive credit for both PHL 101 and PHL 520. An inquiry into the nature of the right and the good, addressed to such fundamental problems as the objectivity of moral judgments, the criteria of right and wrong, and the grounds of moral responsibility.

337. Logic I
Fall, Winter, Spring, 4(4-0)
Modern symbolic methods in deductive reasoning. The logic of compound and general sentences.

338. Logic II
Winter, Spring, 4(4-0) PHL 337 or approval of department. The logic of identity, functions and definitions. The axiomatic method and its applications.

340. Moral Problems in Medicine and the Life Sciences
Fall, Winter, Spring, 4(4-0) Juniors. Philosophical aspects of euthanasia, allocation of scarce medical resources, experimentation and informed consent, truth-telling and the doctor-patient relationship, genetic counseling, genetic engineering, behavior control, and health care delivery.

341. Philosophical Aspects of Feminism
Fall, Winter, Spring, 4(4-0)
Conceptual issues in feminist theory. Such concepts as oppression, sexism and chauvinism, feminist separatism, rape, respect and self-respect, personhood, power and control and feminism will be analyzed and explored.

342. Philosophy of the Counter Culture
Fall, 3(3-0)
Students will examine counter cultural critiques of contemporary culture and values; and develop, articulate, defend their own views on such issues, especially as these issues immediately affect their own lives.

343. Ethical Issues in the Social Sciences
Winter, 3(3-0)
Philosophical treatment of ethical issues arising from the social scientists' conflicting obligations to their subjects, science, profession, career, personal values and society.
