244. Developmental Psychology: Infancy Through Childhood  
Fall, Winter, Spring, Summer. 4(4-0)  
PSY 160 or PSY 170 or T E 200.  
Developmental psychology of the infant and child including biological, social, cognitive, moral, perceptual and cultural development; relations with caregivers and peers as well as development of individual characteristics.

246. Sensitivity to Children I  
Fall. 3(2-2) To receive credit PSY 246, PSY 247, PSY 248 must be completed satisfactorily except by prior arrangement with instructor. PSY 246.  
Continuation of PSY 246.

247. Sensitivity to Children II  
Winter. 3(2-2) To receive credit PSY 246, PSY 247, PSY 248 must be completed satisfactorily except by prior arrangement with instructor. PSY 246.  
Continuation of PSY 246.

248. Sensitivity to Children III  
Spring. 3(2-2) To receive credit PSY 246, PSY 247, PSY 248 must be completed satisfactorily. PSY 247.  
Continuation of PSY 247.

255. Organizational and Personnel Psychology  
Fall, Winter, Spring, Summer. 3(0-0)  
Introductory course in psychology. The psychology of managing and leading, personnel operations, and humanizing of work organizations.

291. Independent Study: Research Participation  
Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 6 credits. PSY 160 or PSY 170, or T E 200.  
Student participates as an assistant in an ongoing psychological research project under the direction of a staff member in order to become familiar with the procedures of psychological research.

300. Cognitive Psychology  
Winter. 4(4-0) PSY 170, PSY 215, 10 credits of psychology or approval of department.  
Concepts, theories, methods and research findings in human information processing and cognition, including attention, memory, intelligence, problem solving, decision making, language, and reading.

301. Human Learning and Memory  
Winter, Spring, Summer. 4(4-0) PSY 170, PSY 215 or a college level mathematics or statistics course.  
Concepts, procedures, issues, and principles involved in the acquisition, retention, and execution of verbal learning, identification learning, and perceptual-motor skills.

309N. Fundamentals of Physiological Psychology  
(Spring only) Spring. 3(0-0) CEM 141, PSL 240. For students in the natural and life sciences. Students may not receive credit in both PSY 390N and PSY 390S. Central nervous system functional anatomy and physiological bases of behaviors, including neural and hormonal control of biorhythms, reproduction, hunger and thirst.

309S. Survey of Physiological Psychology  
(Fall only) Fall, Spring. 3(3-0) PSY 170. For students in the social sciences and liberal arts. Students may not receive credit in both PSY 390N and PSY 390S. Current topics in behavioral biology, including: the physiology of learning and memory, hormones and behavior; and human neuropsychology.

312. Learning and Motivation  
Fall, Winter, Spring. Summer of odd-numbered years. 3(3-0) PSY 170, PSY 215; PSY 313 concurrently.  
Detailed analysis of basic conditioning processes such as reinforcement, discrimination, generalization, punishment, adverse behavior, and theories of learning. Emphasis on infr-human data, but applications to human behavioral modification are considered.

313. Experimental Psychology: Learning and Motivation  
Fall, Winter, Spring. Summer of odd-numbered years. 3(3-0) PSY 170, PSY 215; PSY 313 concurrently.  
Representative experiments in operant behavior; including an individual project selected by the student, using the pigeon as the laboratory animal.

316. Sensory Processes  
Winter. 3(3-0) PSY 215 or a college-level mathematics or statistics course.  
Sensory organs and the associated neural systems as they relate to sensory phenomena; emphasis on vision. Review of major methodologies.

317. Perception  
Fall. 3(0-0) PSY 170. Concepts, principles, results, and applications in perception; emphasis on vision.

335. Principles of Social Psychology  
Fall, Winter, Spring, Summer. 4(4-0) PSY 160. Students may not earn credit in both PSY 335 and SOC 351.  
A critical survey of social psychology with emphasis on psychological principles underlying social behavior. Topics include social perception; motivation, attitudes and attitude change; social interaction in small groups and in large-scale organizations.

336. Psychology of Social Movements  
Fall, Spring. 3(0-0)  
Psychology of political, religious, and other social movements: group identifications and affiliations, socialization, conversion, and defection; the perception of social movements by members; influences of motivation and personality on ideologies and social movements.  
Approved through Summer 1985.

337. Legal and Criminal Psychology  
Fall, Winter, Spring. 3(3-0) PSY 160 or T E 200.  
Application of psychological principles, methods and techniques to legal and criminal problems and procedures, including the formation, detection, prevention, and rehabilitation of criminal behavior, testimony, legal arguments, trial tactics and the other courtroom procedures.

344. Developmental Psychology: Adolescence and Youth  
Winter, Spring, Summer. 3(3-0) PSY 244 covering development during adolescence and youth with emphasis on problems of identity and adjustment to the social environment.
356. Organizational Psychology
Fall, Spring. 3(3-0) An introductory course in psychology. PSY 255 or MGT 310. Students may not earn credit in both PSY 356 and MGT 419.
Leader behavior, attitudes, interpersonal behavior, motivation, and communication of individuals in organizations.

357. Consumer Psychology
Fall, Winter, Spring. 3(3-0) PSY 170; PSY 335 or SOC 251; approval of department.
Psychology underlying techniques of effective advertising, selling, and marketing. Psychology relevant to living in a marketing-oriented culture.

370. Psychology and Social Innovation
Winter. 3(3-0) A social science research methods course or approval of department.
Planning, implementing and evaluating experimental approaches to social problems. Topics include: adoption of innovations; field research problems; science and policy formation; parameters of program evaluations.

371. Community Projects I
Fall, Spring. 4(2-4) PSY 160 or PSY 170, approval of department.
Experience in working directly with adolescent offenders from the local community. Techniques of intervention with adolescents, their families, and social systems which affect them.

372. Community Projects II
Winter, Summer. 4(2-4) PSY 371, approval of department.
Continuation of PSY 371 with primary focus on direct work with adolescents, their families and social systems which affect them.

373. Community Projects III
Fall, Spring. 4(2-4) PSY 372, approval of department.
Continuation of PSY 372.

390H. Honors Seminar
Fall, Winter, Spring. 1 to 5 credits.
May reenroll for a maximum of 15 credits when different topics are offered. Honors students and approval of department.
History, theory, and current research in selected areas of psychology, including personality, motivation, perception, learning, industrial, ecological, mathematical, developmental, social, and clinical.

400. Selected Topics in Psychology
Fall, Winter, Spring. Summer. 2(2-0) to 5(5-0) May reenroll for a maximum of 15 credits.
Approval of department.
Selected topics in the areas of experimental, developmental, social, industrial, personality, mathematical, ecological, or clinical psychology.

403. Experimental Psychology: Human Learning
Winter. 4(4-0) PSY 215 or approval of department.
Application of principles of learning and motivation to humans of various ages and abilities in educational and noneducational settings. Some application to animal behavior. Extended practice (PSY 400 PSY 411) may be taken concurrently to complete appropriate projects.

405. Modern Viewpoints in Psychology
Fall, Spring. 3(3-0) 15 credits in psychology.
Survey of psychological systems in the modern era including behaviorism, Gestalt psychology, psychoanalysis, neo-behaviorism in relation to other selected disciplines.

409. Advanced Concepts in Physiological Psychology
Fall, Spring. 4(4-0) PSY 356 or approval of department.
Detailed analysis of advanced concepts in physiological psychology, such as vision, audition, somatic sensation, chemical senses, motivation, emotion, perception, arousal, learning, and the influence of hormones on behavior.

414. Psycholinguistics
Winter. 4(4-0) PSY 301 or LIN 401.
Experimental psychology of language, including speech perception, sentence processing, prose comprehension and memory, and language production.

415. Psychological Tests and Measurements
Fall, Winter, Spring. 5(5-0) PSY 215.
Methods, techniques, and instruments for measuring individual differences in behavior. Standard methods of construction, critical analysis of representative tests, criteria for evaluating and selecting tests, values and limitations of tests.

424. Child Psychopathology
Winter. Spring. 4(4-0) PSY 244 or approval of department.
Description, etiology, and developmental pattern of behavior problems of children and adolescents; introduction to child and family treatment approaches.

425. Abnormal Psychology
Fall, Winter, Spring, Summer. 4(4-0) PSY 225.
Nature of abnormal behavior and its social significance: description of symptoms and dynamics of psychological disorders; the neuroses and psychosomatic reactions, sociopathic behavior and character disorders, functional and somatoform psychoses; some consideration of therapies and theories of prevention.

427A. Personality: Dynamic Theories
(427.) Fall, Winter, Spring. 3(3-0) PSY 425.
Survey of personality theories of development, structure, and dynamics related to learning, determinants, cultural influences, behavioral disorders and assessment methods.

427B. Survey of Personality Research
(PSY 436.) Fall. 3(3-0) PSY 160, PSY 215, PSY 427A or approval of instructor.
Empirical investigations of personality dynamics and the effects of individual differences on subjective experience and social interaction.

435. Advanced Social Psychology
A. Research Methods in Social Psychology
(438.) Fall, Winter, Spring. 4(2-4) PSY 215; PSY 335 or SOC 251; 1 course in experimental psychology.
Critical examination of problems, principles, methods, techniques, materials, results and conclusions in relation to theory in social psychology, including experimentation and demonstration.

B. Social Cognition
Fall. 3(3-0) PSY 335 or SOC 251.
Theories and research on social cognition. Perceptual processes, attribution theory, theories of the self, person memory.

C. Interpersonal Behavior and Relations
Winter. 3(3-0) PSY 335 or SOC 251.
Theories and research in interpersonal behavior. Social exchange, prosocial behavior, aggression, attraction and prejudice.

D. Attitudes
Spring. 3(3-0) PSY 335 or SOC 251.
Classical theories of attitude formation and change, dissonance theory, inoculation theory and the persuasion-communication approach.

E. Group Behavior
Spring. 3(3-0) PSY 335 or SOC 251.
Theories and research on small group behavior.

F. Social Psychology and Society
Winter, Spring. 3(3-0) PSY 335 or SOC 251.
Applications of social psychology to social issues, problems and institutions. Topics may include social psychology and the law, political behavior, energy conservation.

439. Selected Topics in the Psychology of Women
Fall, Spring. 3(3-0) May reenroll for a maximum of 8 credits when different topics are offered. Nine credits in psychology or approval of department.
Selected topics: e.g., achievement and affiliation behavior; sex-typed behavior and identity; political socialization of women; personality perspectives; psychohistory of women; professional and traditional orientations; third world women.

444. Advanced Developmental Psychology
A. Social Development
Fall of odd-numbered years. 4(4-0) PSY 160, PSY 170, PSY 215, PSY 244 or approval of department.
Theories and recent research in social development of infants, children, and adolescents.

B. Cognitive Development
Winter of even-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Recent approaches to cognitive development. A view of selected theories and experiments.

C. Language Development
Spring of odd-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Psychological theories and experiments in the development of language in the child, including both social and cognitive effects of language development.

D. Applied Development
Fall of even-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Selected behavior problems in development. Topics may include: child psychopathology, physical and emotional disabilities, speech disorders, cognitive-intellectual deficits.
Descriptions — Psychology of Courses

455. Personnel Research Techniques
Fall, Spring. 4(3-2) PSY 215, PSY 255.
Quantitative psychological research technique applied to typical personnel problems in industry and government.

456. Personnel Training and Development
Spring. 4(4-0) PSY 356 or MGT 419.
Each student develops skills called for in training work-locked employees, supervisors and managers in industry, business, and government—all in an organization development frame of reference. Relevant research reviewed.

470. Research Methods in Ecological Psychology
Spring. 4(3-2) PSY 180, PSY 170, PSY 215; PSY 370 or approval of department.
Methods, techniques, and measurement instruments for applying psychology to the solution of contemporary human problems. Critical analysis of methods for creating and measuring social change.

484. Literature and Psychology
Spring. 4(4-0) Juniors or approval of department. Interdepartmental with and administered by the Department of English.
An application of psychological theory to the study of literature and an exploration of the ways in which literature enriches the theory which helps to illuminate it.

485. Psychology of Love and Maturity
Fall, Winter. 3(3-0) Seniors and 3 courses in psychology.
The function of love in human existence. Varieties of love, their effect upon the growth of the person in terms of awareness, integration, authenticity, social concern and responsibility, maturity and fulfillment.

486. Psychology of Music
Fall, Summer. 3(3-0) Approval of department. Interdepartmental with the Department of Music.
Musical behavior with emphasis on psychological aspects of perception, learning, affective response, and ability. Emphasis on social and cultural influences in forming musical tastes, including mass media music.

487. Psychology of Music
Winter, Summer. 3(2-2) PSY 486. Interdepartmental with the Department of Music.
Basic research concepts and experimental methods in psychology of music research. Practical training in conducting experimental research of musical behavior.

489. Humanistic Psychology
Fall, Spring. 3(3-0) Juniors and 3 courses in psychology.
Subject matter is drawn from the psychology of personality in its various forms. The usual approaches of the behavioral sciences are subject to critical analysis. One goal is to derive some elements of a philosophy of life for humans as potentially rational and ethical beings.

490. Special Problems in Psychology
Fall, Winter. Spring, Summer. 3 to 6 credits. May reenroll for a maximum of 12 credits. Combined credits in PSY 490 and PSY 401 may not exceed 12. Juniors, approval of department.
Each student will work under direction of a staff member on an experimental, theoretical, or applied problem.

491. Participation in Psychological Projects
Fall, Winter, Spring. 1 to 6 credits. May reenroll for a maximum of 12 credits. Combined credits in PSY 490 and PSY 491 may not exceed 12. Juniors, approval of department.
Each student will participate in a psychological project under direction of a staff member.

499H. Senior Project
Fall, Winter, Spring. 3(0-6) May reenroll for a maximum of 6 credits. PSY 499H or approval of department.
Independent research involving literature survey, naturalistic observation, or experimental investigation with staff supervision. Preparation of the Senior paper.

800. Conditioning and Learning
Fall. 3(3-0)
Detailed stimulus-response analysis of the basic operations of conditioning and learning, including such variables as reinforcement, motivation, and inhibitory effects, with an emphasis on intrahuman data.

801. Perception
Fall of even-numbered years. 3(3-0) Majors or approval of department.
Consideration in depth of selected topics in perception. Integration of theoretical and empirical material.

804A. Neuroscience Laboratory I
Winter. 4(2-4) ZOL 827 and approval of instructor. Interdepartmental with the departments of Physiology and Zoology.
Development of skills in the methods, techniques and instrumentation necessary for research in a variety of areas concerned with neuroscience.

804B. Neuroscience Laboratory II
Spring. 4(2-4) PSY 804A. Interdepartmental with the departments of Physiology and Zoology.
Continuation of PSY 804A.

805. History and Systems
Fall of even-numbered years. 3(3-0) Psychology majors or approval of department.
Major scientific, cultural, philosophical, and personal influences in the development of psychology. Analysis of persisting issues.

810. Human Learning and Performance
Spring. 3(3-0) Majors or approval of department.
Experimental findings and theoretical analyses of the acquisition, retention, transfer and execution of verbal materials and perceptual-motor skills. Selected demonstrations of major phenomena.

811. Advanced Physiological Psychology
Spring. 4(4-0) Majors or approval of department.
Psychology as a biological science. Consideration of physiological events underlying organism-environment interaction.

814. Psychology of Language
Spring. 4(3-0)
Experimental psycholinguistics, including speech perception, sentence processing, prose comprehension and memory, language production, and language acquisition.

815. Advanced Psychometrics
Fall, Winter. 4(4-0) A course in statistical inference; majors or approval of department.
Theory and practice in analysis and interpretation of psychological data.

816. Advanced Psychometrics
Winter, Spring. 4(4-0) PSY 815.
Continuation of PSY 815.

817. Advanced Psychometrics
Spring. 4(4-0) PSY 816.
Multivariate methods of test analysis: multiple and partial correlation, factor and pattern analysis.

818. Test Construction
Winter. 4(4-0) PSY 817.
Theory, methods, and techniques in the preparation and development of psychological test items and tests.

820. Mathematical Models in Psychology I
Fall. 4(4) MTH 111 and STT 201 or approval of department.
Discussion of the relationship between mathematics and psychological theory. Examination of the concepts of structure and change in quantitative psychological systems. Application of algebraic techniques to psychological theory.

821. Mathematical Models in Psychology II
Fall of even-numbered years. 4(4-0) PSY 820 or approval of department.
Representative mathematical models in psychology, attending particularly to stochastic models and the relationship between models and data. Advantages of various models for different psychological problems.

825. Clinical Assessment I
Fall. 2(0-4) Majors or approval of department.
Assessment of psychodynamics and psychopathology. Individual case studies based on interviews and psychological tests. Behavioral correlates of psychodynamic problems.

830. Clinical Assessment II
Winter. 2 or 3 credits. PSY 825, approval of department.
Clinical assessment of children. Individual case studies making systematic use of behavior observations, interviews, and standardized tests. Integration of data and principles of development of new assessment procedures.

832. Clinical Assessment III
Spring. 2 or 3 credits. PSY 830, approval of department.
Self-appraisal and investigation of interpersonal transactions in two-person and larger groups. Standardized techniques, individual case studies, and principles of development of new methods.

833. Research Methods in Clinical Psychology
Fall. 4(3-2) Majors or approval of department.
Research strategies and the clinical method: types of evidence, similarities and differences. Questionnaires and scale construction. Introduction to design and data analysis. Social psychological and ethical issues in clinical research.
835. **Experimental Psychology: Social**

Fall, 4(2-4) One course in experimental psychology.

Intensive experience in designing, executing, reporting and evaluating research in social psychology, including an individual research project.

837. **Psychological Aspects of Politics**

Fall, Winter, Spring, 3(3-0) Interdepartmental with and administered by the Department of Political Science.

Relevance of psychological concepts, theories and methods for the study of political institutions, organizations and behavior.

Approved through Winter 1985.

840. **Advanced Social Psychology: Cognitive Approaches**

Winter, 4(4-0) PSY 815; 20 credits in the social sciences.

Contemporary theory and research in social psychology dealing with attitude organization and cognition, values, attitudes and behavior, attitude change and balance theories.

841. **Advanced Social Psychology: Group Processes**

Spring, 4(4-0) PSY 815; 20 credits in social sciences.

Contemporary theory and research dealing with the individual in a group context.

845. **Developmental Psychology: Infancy**

Fall of odd-numbered years, 4(4-0) Majors or approval of department.

Human infancy: conception to three years. Developmental study of: prenatal life, personality, learning, perception, sensory stimulation and deprivation, neurophysiology, psychophysiology, language and cognition.

846. **Developmental Psychology: Childhood**

Winter of even-numbered years, 4(4-0) Majors or approval of department.

Psychological theories and research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the child.

847. **Developmental Psychology: Adolescence and Youth**

Spring of even-numbered years, 3(3-0) Majors or approval of department.

Psychological theories and research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the adolescent and young adult.

848. **Developmental Psychology: Adulthood and Aging**

Spring of odd-numbered years, 3(3-0) Majors or approval of department.

Normal development from early to late adulthood. Includes physical and physiological changes; intellectual functioning; personal development; normative and non-normative transitions; social relations including love, family, friendship; work, vocational development, retirement.

849. **Developmental Psychology: Theory**

Winter of odd-numbered years, 3(3-0) Majors or approval of department.

Philosophical origins of contemporary theory in developmental psychology: cognitive, information processing, maturation, dialectical, psychanalytic, behavioral, organismic, genetic systems, psychology and stage-related theories.

850A. **Developmental Psychopathology I**

Fall, 3(3-0) Approval of department.

Developmental and systems perspective to childhood and adolescent psychopathology. Epidemiological research, classification systems, mental retardation, learning disabilities, and pervasive developmental, psychotic, and organic disorders.

850B. **Developmental Psychopathology II**

Winter, 3(3-0) PSY 850A or approval of department.

Externalizing and internalizing disorders of childhood and adolescence including conduct, affective, anxiety, withdrawal, adjustment reaction, personality, eating, psychosexual, and disorders with physical manifestations.

850C. **Developmental Psychopathology III**

Spring, 3(3-0) PSY 850B or approval of department.

Adolescent and adult psychopathology from a developmental perspective; marital and family pathology as system dysfunctions; conceptual frameworks for the phenomena; diagnosis, etiology and intervention with some representative pathologies.

860. **Advanced Industrial Psychology**

Fall, 4(4-0) Twenty credits in the behavioral sciences or organizational behavior, and a course in statistics.

Industrial and organizational psychology as a science and as a profession.

862. **Organizational Psychology**

Winter, 4(4-0) Fifteen graduate credits.

Survey of current theories of individual behavior in complex organizations. Examples from research in industry, government, and other complex organizations.

865. **Advanced Neurobiology**

(BIM 865.) Spring, 4(4-0) ZOL 827. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.

Basic organization, structure and function of neural networks comprising sensory, motor, and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

872. **Experimental Psychology**

Fall of even-numbered years, 5(3-4) ANT 815, ANT 865 recommended.

Critical treatment of research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the adolescent and young adult.

876. **Personnel Selection and Evaluation**

Fall of even-numbered years, 3(3-0) Fifteen graduate credits.

Cognitive critical of research methods and instruments in personnel selection and evaluation as applied to governmental, business, and industrial organizations.

870. **Introduction to Ecological Psychology**

Fall, 4(4-0) PSY 815 concurrently or approval of department.

What and why of experimental ecological psychology; planning, action, evaluation, dissemination of information. Researchable problems, funding, dynamics of research teams, identifying ecological variables. Class work and community research.

871. **Advanced Ecological Psychology**

Winter, 4(4-0) PSY 870.

Applications of ecological psychology: measurement; hypotheses and research plans; initiating, maintaining, terminating naturalistic psychological research; evaluating and publishing results. Review of selected experiments. Class work plus research in community.

872. **Experimental Production of Social Change**

Spring, 4(4-0) PSY 870, PSY 871.

Use of psychological research to produce social change. Creation of acceptance of social change. Examination of effectiveness of experimental intervention into social systems. Class work plus community research.

873. **Ecological-Community Psychology Research Methods I**

Fall, 4(4-0) Approval of department.

Ecological-community psychology literature with the intent of identifying social problems, methods for their solution, and the philosophical, political, and role-definition issues confronting the ecological-community psychologist. At least eight hours per week in a community setting required.

874. **Ecological-Community Psychology Research Methods II**

Winter, 4(4-0) PSY 873, approval of department.

Planning and design of innovative field research including research planning, experimental design, quasi-experimental design, program evaluation, measurement, data-gathering, validity and reliability, and the dissemination of research results. At least eight hours per week in a community setting required.

875. **Ecological-Community Psychology Research Methods III**

Spring, 4(4-0) PSY 874, approval of department.

Implementation of field research and data analysis, coverage of SPSS commands and programs. At least eight hours per week in a community setting required.

880A. **Basic Concepts and Issues in Clinical Psychology**

Fall, 3(3-0) Clinical majors or approval of department.

Concepts and issues underlying research and professional practice in modern adult clinical psychology. Emphasis on personality development and clinical interventions, such as psychotherapy, behavior therapy, family therapy, and community approaches.

880B. **Basic Concepts and Issues in Clinical Psychology**

Winter, 3(3-0) PSY 880A, approval of department.

Continuation of PSY 880A.

885. **Vertebrate Neural Systems I**

(PSY 885.) Winter of even-numbered years, 3(4-0) ANT 815, ANT 865 recommended. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.

Structure and function of major component systems of vertebrate brains, their evolution, ontogeny and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.
Descriptions — Psychology of Courses

886. Vertebrate Neural Systems II
(ZOL 886) Spring of even-numbered years. 5(3-4) ANT 885. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy. Continuation of PSY 885. Major component systems of vertebrate brains, their evolution, ontogeny, and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical, and physiological studies.

889. Advanced Issues in Humanistic Psychology
Winter, Spring. 3(3-0) May reenroll for a maximum of 6 credits. PSY 459 and approval of instructor. Identification and critical evaluation of social and philosophical issues tacitly imbedded in psychology, e.g., the specificity of the nature of human, psychological versus physical reality, freedom, modes of knowledge, ethical values.

890. Special Problems
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 36 credits. Approval of department.

891. Master's Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

902. Special Research Techniques
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 12 credits. Graduate students and approval of department.

908. Seminar in Organization Theory
Winter. 4(4-0) MGT 808; doctoral candidates; master's candidates with approval of department. Interdepartmental with and administered by the Department of Management. Directed reading and research on issues in contemporary organization theory.

914. Seminar in Advanced General Psychology
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 24 credits. Thirty graduate credits in psychology may be approved for a maximum of 24 credits. Thirty graduate credits in psychology or approval of department. Critical study of a selected area such as sensation, perception, motivation, emotions, learning, physiological, comparative, thought and language.

924. Seminar in Measurement
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology. Critical study of a selected area such as factor analysis, pattern analysis, partial and multiple correlation analysis, psychophysical methods, scaling, reliability and validity, and factorial designs.

928. Practicum: Psychological Clinic I
Fall. 2 to 5 credits. Approval of department. Introduction to clinical evaluation and treatment. Supervised experience in psychodiagnosis and psychotherapy of adults and children in the Psychological Clinic. Primary focus on work with families. Didactic seminar in related theory and research.

930. Practicum: Psychological Clinic II
Winter. 2 to 5 credits. PSY 928. Continuation of PSY 928.

932. Practicum: Psychological Clinic III
Spring. 2 to 5 credits. PSY 930. Continuation of PSY 930.

934. Seminar in Personality
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology. Clinical study of a selected area such as theory, assessment, dynamics, structure, the self and determinants.

936. Attitudes and Personality
Winter. 3(3-0) Thirty graduate credits. Review and analysis of research on sentiments, beliefs and opinions, authoritarianism, pseudosexualitarianism, and democratic personality; functions, resistance to change and relation to values systems and ideology.

944. Seminar in Social Psychology
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits or approval of department. Critical study of a selected area such as roles, communication and persuasion, individual interaction within small and large groups, behavior in relation to norms and interpersonal distances.

950A. Child and Family Interventions: Dynamic Child Psychotherapy
Fall. 3(3-0) PSY 850C or approval of department. Dynamic processes underlying therapy with children; methods and techniques; the child's symbolic communications through language, art, and play materials; assessment and progress of therapy; review of research.

950B. Child and Family Interventions: Behavioral/Cognitive Therapies
Winter. 3(3-0) PSY 850C or approval of department. Behavioral/cognitive approaches to interventions with children in family, peer, school, and community contexts; behavioral/cognitive processes, theory, assessment, methods, and research. Underlying behavioral change.

950C. Child and Family Interventions: Family and Community Systems Approaches
Spring. 3(3-0) PSY 850C or approval of department. Family and community systems-based interventions in child, marital, and family problems. Conjoint family therapy, primary prevention and community program interventions.

954. Seminar in Developmental Psychology
