Descriptions — Crop and Soil Sciences of Courses

844. Plant Organelle Genetics
Winter of odd-numbered years. 3(3-0)
Approval of department. Interdepartmental with Genetics and the departments of Botany and Plant Pathology, Forestry, and Horticulture. Administered by the Department of Horticulture.
Organization, structure, function, heredity, molecular biology and manipulation of chloroplasts and mitochondria. Biological interactions between the nucleus and organelles.

850. Soil Chemistry
Winter. 5(3-6) CSS 430; CEM 162, CEM 383; or approval of department.
Chemistry of mineral weathering and soil formation, ion activities, ionic exchange and equilibrium reactions, soil pH, specific elements and their chemical analysis, and availability of nutrients to plants.

855. Organic Chemistry of Soils
Spring of odd-numbered years. 3(3-0) CEM 242.
Relationship of natural and synthetic organic chemical and biochemical processes in the soil environment.

870. Origin and Classification of Soils
Winter. 4(3-2) CSS 470, CSS 840, or approval of department.

899. Master's Thesis Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

902. Applied Regression Analysis
Spring. 3(3-0) STT 423 or approval of department.
Multiple regression, model selection, the general linear model and confounding in factorial sets of treatments.

940. Theoretical Population Genetics
Winter of even-numbered years. 4(4-0) MTH 113, STT 422. STT 821, Interdepartmental with the departments of Forestry and Horticulture. Administered by the Department of Forestry.
Discussion of mathematical theories in population genetics and experimental works on natural and laboratory populations.

941. Quantitative Genetics in Plant Breeding
Spring of even-numbered years. 4(4-0) STT 423, CSS 820 or approval of department. Interdepartmental with the departments of Forestry and Horticulture. Administered by the Department of Forestry.

944. Physiological Genetics
Winter. 3(3-0) BOT 413; CSS 821. Interdepartmental with the departments of Forestry and Horticulture. Administered by the Department of Forestry.
Control of variation in higher plants including adaptive physiology, quantitative genetics, growth correlation, biochemical genetics, hybrid physiology, and genetics.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit.

EARTH SCIENCE
See Geological Sciences.

ECONOMICS

College of Business and Graduate School of Business Administration

200. Introduction to Macroeconomics
Fall, Winter, Spring, Summer. 4(4-0) Open to Freshmen. Students may begin sequence with either EC 200 or EC 201. Determinants of Gross National Product, unemployment, inflation and economic growth. National income accounting, fiscal policy, aggregate demand and supply management.

201. Introduction to Microeconomics
Fall, Winter, Spring, Summer. 4(4-0) Open to Freshmen. Students may begin sequence with either EC 200 or EC 201. Economic institutions, reasoning and analysis. Consumption, production, determination of price and quantity in different markets. Income distribution, market structure and normative analysis.

210. Fundamentals of Economics
Fall, Winter. 4(4-0) MTH 215 or MTH 228, or concurrently. Students may not earn credit in EC 210 if they have credit in either EC 200 or EC 201. Economic principles, institutions and reasoning using mathematics, when useful, as a tool of analysis. Consumption, production, the market system, income distribution and elements of employment and inflation theory.

251H. Households, Firms and Markets
Fall. 3(3-0) Honors College students. Microeconomic theory and its applications to analysis and policy. Substitutes for EC 201, EC 384, and EC 325.

252H. Macroeconomics and Public Policy
Winter. 3(3-0) Honors College students. Theory of national income, unemployment, inflation and economic growth and its application to economic analysis and policy. Substitutes for EC 200, EC 326 and EC 327 combined.

305. Industrial Relations and Trade Unionism
Fall, Winter, Spring, Summer. 4(4-0) Development, aims, structure, and functions of labor and employer organizations. Their relation to economic, political, and legal institutions and their impact on society. Primary issues in collective bargaining.

306. Government Programs for Workers
Winter. Spring. 4(4-0) EC 201. Interdepartmental with Public Affairs Management. Economics of selected government institutions and programs for workers. Social security, worker's compensation, Unemployment Insurance, OSHA, employment and training programs, wages and hours legislation, anti-discrimination programs.

318. Money, Credit and Banking
Fall, Winter, Spring. 4(4-0) EC 200 or EC 210. Commercial banking and the money supply. The Federal Reserve System, the Treasury, and other financial institutions. Sources and uses of funds in the financial market.

324. Microeconomics I
Fall, Winter, Spring. 3(3-0) EC 200 and EC 201, or EC 210. Theory of production and cost. Theory of the firm under varying market structures.

325. Microeconomics II
Fall, Winter, Spring. 3(3-0) EC 200 and EC 201, or EC 210. Review of national income accounting. Determination of aggregate output, employment, the price level, and the inflation rate. Policy applications.

327. Macroeconomics I
Fall, Winter, Spring. 3(3-0) EC 326. Consumption theories, investment theories, role of expectations, growth of economic growth and cycles, stabilization policies, and other advanced topics.

330. Investments and Security Markets
Fall, Spring. 3(3-0) EC 200 or EC 210. Juniors. The stock market: principles of investment; analysis of selected industries and corporations; regulation by the Securities and Exchange Commission.

337. American Social and Economic History: Foundations
Winter. 4(4-0) Interdepartmental with and administered by the Department of History. Multiple sources of economic growth in economic, social and political change, education, science and technology, political action, and other factors, mid-19th century.

338. American Social and Economic History: Modern Trends
Spring. 4(4-0) Interdepartmental with and administered by the Department of History. Urbanization, origins and implications of large-scale organizations in business and other sectors of society, and sources of economic growth since mid-19th century.
361. Economic Development of Asia
Fall. 3(3-0) EC 200 and EC 201 or EC 210.

Population and resources; comparison of three economic systems: Communism in China, free enterprise in Japan and socialism in India; the role of Japan in regional trade and development.

362. Economic Development of Latin America
Winter. 3(3-0) EC 200 and EC 201 or EC 210.

Concentration of political and economic power as related to income distribution, tax structures, agrarian reform; inflation, trade, exchange rates, integration; population and employment policy.

363. Economic Development of Tropical Africa
EC 210. Interdepartmental with Public Affairs Management.

371A. European Economic History to 1800
Fall. 4(4-0) Interdepartmental with and administered by the Department of History.

Economic history of medieval and early modern Europe stressing the nature of agrarian societies, the growth of cities, the divergence of the European economies, and the Industrial Revolution in England.

371B. European Economic History after 1800
Winter 4(4-0) Interdepartmental with and administered by the Department of History.

The industrialization of Europe stressing urbanization, national rivalry, problems of the maturity of capitalist institutions, and the social and ecological impact of economic growth in the twentieth century.

400. Independent Study
Fall, Winter, Spring, Summer. 1 to 4 credits. Seniors or approval of department.

Research and reading course for students interested in doing independent work in economics.

401. Interpreting Economic News and Research
Winter. 3(3-0) EC 200 and EC 201 or EC 210 or EC 251H and EC 253H.

Reporting and interpreting economic news and research. Sources of data and research information. Critical examination of written and broadcast reports through application of economic principles. Case studies.

406. Public Expenditure: Theory and Policy
Fall, Spring. 4(4-0) EC 201 or EC 210. Interdepartmental with Public Affairs Management.

Expenditure theory; objectives and rationale of government activity in the market system; efficiency criteria of government decision-making; planning-programming-budgeting systems and cost-benefit analysis.

407. Public Revenues
Winter. 4(4-0) EC 201 or EC 210.

Principles and theory of the distribution of tax burdens and the incidence of taxation. Income, sales, property, and other major revenue sources.

408. State and Local Finance
Spring. 4(4-0) EC 201 or EC 210 or EC 251H.

Fiscal problems at the state and local levels of government, including revenues, expenditures, borrowing, and intergovernmental fiscal relations.

410. Medical Economics
Spring. 3(3-0) EC 200, EC 201, or approval of department.

Demand, supply and economic efficiency in the markets for health services. Demand for medical care; organization forms, methods of payment, utilization and cost, and public policy for health care.

412. The Economics of Poverty and Income Distribution
Winter. 3(3-0) EC 200, EC 201.

413. Urban Economics
Fall. 4(4-0) EC 200, EC 201.

Location theory and urban development. Economics of city size and urban-suburban conflict. Economic aspects of certain community problems like housing, transportation, welfare and poverty. Strategies for urban development.

417. Land Economics
Fall, Spring. 4(4-0) Interdepartmental with Public Affairs Management, and Food Systems Economics and Management and the Department of Resource Development, administered by the Department of Resource Development.

Factors affecting the economic use of land and space resources by people. Input-output relationships; development, investment, and enterprise location decisions. Land markets; property rights, area planning; zoning and land use controls.

421. Economic Thought I
Fall, Summer. 4(4-0) EC 200 and EC 201, or EC 210.

Forerunners of classical economics. Development of classical economic thought from Adam Smith to J. S. Mill. The socialist reaction.

422. Economic Thought II
Winter, Spring. 4(4-0) EC 200 and EC 201, or EC 210.

The decline of classical economics and the rise of marginalist value and distribution theory. Marxism and institutionalism.

426. Introductory Mathematical Economics
Spring. 3(3-0) EC 324, EC 326, MTH 214.

Mathematical analysis of production, cost, and consumer choice. Mathematical models of aggregate and general-equilibrium economic systems.

428. International Trade
Fall, Winter, Spring, Summer. 3(3-0) EC 200 and EC 201, or EC 210. EC 250 and EC 429 are a two-term sequence. Student should take the courses in succeeding terms, though they may begin with either course.

429. International Finance
Fall, Winter, Spring, Summer. 3(3-0) EC 200 and EC 201, or EC 210. EC 428 and EC 429 are a two-term sequence. Students should take the courses in succeeding terms, though they may begin with either course.

430. Stagnation and Development in Emerging Societies
Winter. 3(3-0) EC 200 and EC 201, or EC 210.

Obstacles to economic growth, theories of economic development, reorganizing agriculture and industry; problems in mobilizing the economy to accommodate new productive techniques; population problems.

431. Principal Issues in Promoting Economic Development
Spring. 4(4-0) EC 200, EC 201.

Structural change and growth, capital formation and investment criteria; financing development; foreign trade and finance in development; government and planning.

434. Comparative Economic Systems
Fall, Winter, Summer. 4(4-0) EC 200 and EC 201, or EC 210.

Characteristics and functions of an economic system. Analysis of alternative patterns of economic control, planning and market structure. Experiences under capitalism, socialism and mixed economies. Consideration of their theories and philosophies.

440. Radical Political Economy
Spring. 3(3-0) EC 200 and EC 201, or EC 251H and EC 253H.

Development and contemporary characteristics of capitalism from Marxian-radical perspective. Historical materialism and class analysis. Radical critique of modern economies. Relationship of inequality, racism, alienation and other problems to the structure of capitalism.

444. Private Enterprise and Public Policy
Fall, Winter, Summer. 3(3-0) EC 200 or EC 210.

Competition and monopoly in the American economy. Problems of antitrust.

445. Economics of Regulated Industries
Winter. 4(4-0) EC 444.

Government policy and role of competition in the public utility and transportation industries.

451. Introduction to Econometric Methods
Fall, Spring. 4(4-0) EC 324, EC 326; STT 422 or STT 442 or STT 316.

Specification, estimation and interpretation of econometric models. Understanding and evaluation of current quantitative work in economics.

453. Women and Work: Issues and Policy Analysis
Winter. 3(3-0) PAM 201 or EC 200 or EC 201 or approval of department. Interdepartmental and administered by Public Affairs Management.

Quantity and quality of labor force participation; work and family; women, current status and past trends. Issues analyzed include differential earnings and occupations of men and women, employment discrimination and labor legislation.
Descriptions — Economics of Courses

455. Labor and the Law
Spring. 4(4-0) EC 305. Development and current status of labor law as it applies to unions, employers, employees and collective bargaining. Economic and social issues regulated by, and posed by, labor law.

457. Analysis of Labor Markets
Spring. 4(4-0) EC 200 and EC 201, or EC 210. Theories of labor market behavior, empirical evidence and policy implications. Topics include labor supply, labor demand, wage differentials (due to education, discrimination, and union membership), competition and mobility.

460. Regional Economics
Winter. 4(4-0) R D 417 or EC 324. Interdepartmental with Food Systems Economics and Management, Public Affairs Management, and the Department of Resource Development. Administered by the Department of Resource Development. Forces affecting location decisions of firms, households and governments. Applications to agricultural, industrial, and regional developments.

461. Regional Economics Laboratory

463. Economics of Urban Education
(UMS 483.) Spring. 3(3-0) EC 201 or EC 210. Political economy of urban schools. Education as a commodity: efficient production and distribution, supply and demand for education, financing education, planning education to meet job needs and social mobility.

470. Monetary Theory
Fall. 3(3-0) EC 327. Relationship between money and interest rates, prices and output.

480. Mathematics for Economists
Fall. 5(5-0) MTH 113, graduate status in either economics, agricultural economics or College of Business, or approval of department. Interdepartmental with and administered by the Department of Mathematics. Matrix algebra, determinants, quadratic forms, characteristic values. Partial derivatives, chain rule, Jacobian matrix, Taylor series, constrained optimization, linear differential equations. Mathematics introduced and developed using student's background in economics.

893. Managerial Economics
(893.) Fall, Winter, Summer. 4(4-0) Graduate students in Business Administration or approval of department. Not open to undergraduates to those with credit in EC 805A, EC 812A, or EC 860. Analysis of the firm. Problems facing management; economizing in use of resources, optimal combinations of products, pricing, competitive forces in markets affecting the firm.

894. Macroeconomic Models
(894.) Fall, Winter, Spring, Summer. 4(4-0) Graduate students in Business Administration or approval of department. Not open to undergraduates to those with credit in EC 805B, EC 813A or EC 861. Determinants of the national income, employment, and capital formation. National income accounts; Business fluctuations. Fiscal and monetary policy.

805A. Microeconomics Theory
Fall, Winter, Spring. 3(3-0) MTH 113, EC 324; not open to students with credit in EC 812A. A review of microeconomic theory with calculus; production, costs, demand, markets, general equilibrium and welfare theory.

805B. Macroeconomic Theory
Fall, Spring, Summer. 3(3-0) MTH 113, EC 326; closed to students with credit in EC 813A. A review of macroeconomic theory with calculus; comparative statics of macroeconomic models; theories of inflation and unemployment.

806A. Public Expenditures
Fall. 3(3-0) Approval of department. Public sector allocation and redistribution. Public goods, externalities, market imperfections, property rights. Cost-benefit analysis and PPBS. Alternative theories of the state. Political theories of public expenditures.

806B. Public Revenues
Winter. 3(3-0) Approval of department. Theory of taxation. Incidence and economic effects, especially on income and wealth redistribution. Institutional and policy analysis of the U.S. federal tax system.

806C. State and Local Public Finance
Spring. 3(3-0) Approval of department. State and local expenditure systems in theory and practice; tax and non-tax revenues; intergovernmental fiscal relationships; the fiscal problems of metropolitan governments.

807. Survey of Microeconomic Analysis
Winter, Spring. 3(3-0) EC 805A or EC 812A. Analytical methods taught through journal readings and practical examples from public finance, labor economics, industrial organization, and international trade. Such topics as measurement of tax incidence and effects of unemployment insurance.

808. Techniques of Microeconomic Analysis
Spring. 3(3-0) EC 803 or EC 805A or EC 812A. Techniques of microeconomic analysis taught through examples drawn from current economic events; emphasis on getting answers to problems encountered by practicing economists.

809. Macroeconomic Analysis
Winter, Summer. 3(3-0) EC 804 or EC 805B or EC 813A. Analysis techniques taught through readings and examples from monetary economics, economic development, and international finance. Such topics as macroeconomic forecasting, sources of economic growth, and exchange constraints on monetary policy.

810. Economics of Public Choice
Winter. 3(3-0) Approval of department. Interdepartmental with the departments of Agricultural Economics, and Resource Development. Administered by the Department of Agricultural Economics. Economics of alternative institutions for collective action. Emphasis on property rights and natural resources. Public goods, externalities non-marginal change, commonwealth, income and power distribution, grants, welfare criteria and market failure.

811. Public Program Analysis
Spring. Summer. Any-numbered years. 3(3-0) EC 324 or approval of department. Interdepartmental with the departments of Resource Development, and Agricultural Economics. Administered by the Department of Agricultural Economics. Application of benefit-cost analysis to public programs of resource development. Issues and case studies in budgeting, investment criteria, pricing, externalities, and coordination.

812A. Microeconomics I
Winter. 3(3-0) EC 324, EC 325; EC 480 or MTH 215 or concurrently. Theories of consumption and production; duality, cost and expenditure functions; input demand; revealed preference.

812B. Microeconomics II
Spring. 3(3-0) EC 812A. Functional forms in production and consumption; competitive equilibrium; theories of non-competitive markets; imperfect information and behavior under uncertainty; multi-product firms.

812C. Microeconomics III
Fall. 3(3-0) EC 812B. General equilibrium and welfare; optimality of competition; market failures; economics of linear and nonlinear programming and input-output analysis.

813A. Macroeconomics I
Fall. 3(3-0) EC 326, EC 327; EC 480 or MTH 215 or concurrently. Income accounting and price indices; comparative statics of macroeconomics models; consumption and investment functions; the money supply.

813B. Macroeconomics II
Winter. 3(3-0) EC 813A. Demand for money; portfolio theory; theories of inflation and unemployment.

813C. Macroeconomics III
Spring. 3(3-0) EC 813B. Models of macroeconomic disequilibrium; macro dynamics and the effects of search; theories of neoclassical and optimal economics growth.

815A. Monetary Theory
Fall. 3(3-0) EC 812C, EC 813C, and EC 835 and approval of department. Monetary and interest theories.

815B. The Theory of Monetary Policy
Winter. 3(3-0) EC 812A or approval of department. Theories of the transmission of monetary policy to output, employment and prices.

818C. Problems in Monetary Policy
Spring. 3(3-0) EC 815B. Goals and techniques of monetary policy.
Economics — Descriptions of Courses

821A. Competition and Monopoly in American Industry
Fall; 3(3-0) Approval of department.
Examination of structure, behavior, and performance in industries.

821B. Government Policy Toward Private Enterprise
Winter; 3(3-0) Approval of department.
Evolution of government policy with respect to such problems as conspiracy, monopoly, mergers, unfair practices, and discrimination. Economic and legal appraisal of policy alternatives.

821C. Problems Related to Regulated Industries
Spring; 3(3-0) Approval of department.
Departures from market competition as a policy norm, as in public utilities and transportation.

826A. Theory of International Trade
Fall; 3(3-0) EC 425 or approval of department.
Classical and modern theories of international trade. Application of modern techniques of economic analysis to international trade theory.

826B. Theory of International Trade Policy
Winter; 3(3-0) EC 826A.
Various means by which a government may influence the volume, character, and direction of its foreign commerce. In this connection an analysis is made of the theory of the tariff, the subsidy, exchange control, and quotas. Emphasis on the economic impact of trade controls upon a nation and the world.

826C. International Exchanges and Capital Flows
Spring; 3(3-0) EC 826B.
Theory of exchange rates and international money markets especially with reference to other than current account items in balances of payments. Analysis of sources, causes, effects of capital flows with developing economies considered as a special case.

831. Mathematical Economics I
Fall of even-numbered years; 3(3-0) EC 812, MTH 214, MTH 334.

832. Mathematical Economics II
Winter of odd-numbered years; 3(3-0) EC 813; MTH 215, MTH 334.
Mathematical models of growth and fluctuations dealing with macroeconomic, monetary theory, fiscal policy. The cobweb, static and dynamic multipliers, multiplier-accelerator models, trade cycle models. Relations among stocks, flows and time lags.

833. Mathematical Programming
Spring; 3(3-0) EC 800; or EC 812A; MTH 334. Interdepartmental with the department of Agricultural Economics, and Statistics and Probability. Administered by the Department of Agricultural Economics.
Linear programming. Theory of linear economic models. Topics in nonlinear programming.

835. Introduction to Econometrics
Spring, Summer; 3(3-0) EC 342, STT 422; not open to students with credit in EC 835. Interdepartmental with the Department of Agricultural Economics.

836. Econometric Methods
Winter; 3(3-0) STT 442, EC 325 or EC 803 or EC 805A or EC 812A; not open to students with credit in EC 835.
Properties of least squares and maximum likelihood estimators of single and simultaneous equations economic models.

841A. History of Economic Thought: Classical
Fall; 3(3-0)
Early thought, mercantilism, physiocracy, and classical economics.

841B. History of Economic Thought: Heterodox
Winter; 3(3-0)
Historicism, socialism, and institutionalism.

841C. History of Economic Thought: Modern
Spring; 3(3-0)
Development of marginalism, general equilibrium theory, employment theory, and mathematical economics.

850. The Development of Economic Institutions
Fall; 3(3-0) EC 420 or approval of department.

851. The Economics of Secular Change
Winter; 3(3-0) EC 324, EC 325 or approval of department.
Empirical studies of long-run economic trends and a consideration of alternative hypotheses explaining these trends including classical Marxism, Harrod-Domar, and other general theories of economic development. Population growth, technological change, capital formation, occupational distribution, urbanization, and international trade.

852. Economic Problems of Underdeveloped Areas
Spring; 3(3-0) EC 324, EC 326 or approval of department.
Overcoming problems relating to early stages of economic development, investment priorities, mobilizing savings, balance of payment considerations, and policies and programs of various types.

855. The Industrial Revolution in Europe
Winter of even-numbered years; 3(3-0) EC 318, EC 324. Interdepartmental with the Department of History.
The preconditions that led to the momentous changes in agriculture and industry in Europe from 1700-1814.

857A. Wage Theory I
Fall; 3(3-0) EC 354, EC 356 or approval of department. Interdepartmental with the School of Labor and Industrial Relations.
Advanced analysis of theories of wage determination; labor market research, economic effects of collective bargaining upon the national wage structure, output, employment, distribution of national income, the price level, nature and effects of government wage policies.

857B. Wage Theory II
Winter; 3(3-0) EC 354, EC 356 or approval of department.
Advanced analysis of education, on-the-job training, family background, and discrimination as determinants of earnings. Causes and measurement of inequality and social mobility. Macroeconomic view of labor market.

858. Collective Bargaining
Fall, Winter, Spring; 3(3-0) EC 305 or approval of department. Open to graduate students in economics and related fields such as labor and industrial relations, psychology, sociology, anthropology, political science, business, and history. Interdepartmental with and administered by the School of Labor and Industrial Relations.
Problems and issues in the administration and negotiation of collective bargaining agreements; includes both economic and noneconomic aspects of industrial relations policies and practices.

862. Business and Public Policy
Winter; 4(4-0) EC 863 or approval of department. Not open to majors.

876. Statistical Inference in Economics I
Fall; 3(3-0) EC 812A or EC 905A; STT 443 or STT 985; or approval of department. Interdepartmental with the department of Agricultural Economics, and Statistics and Probability.

877. Statistical Inference in Economics II
Winter; 3(3-0) EC 876 or approval of department. Interdepartmental with the departments of Agricultural Economics, and Statistics and Probability.

878. Statistical Inference in Economics III
Spring; 3(3-0) EC 877 or approval of department. Interdepartmental with the departments of Agricultural Economics, and Statistics and Probability.
Validation and application of dynamic econometric models. Bayesian approach to estimation problems. Recent developments in econometric methods and in applied econometric research.
Descriptions — Economics of Courses

880. Organization and Control in the Political Economy: Institutions and Theory
Winter of even-numbered years. 4(4-0) Interdepartmental with the Department of Management.
Organization and technique in choice and implementation of economic (especially planning, programming) functions of political authority.

881. Organization and Control in the Political Economy: Selected Problems
Winter of odd-numbered years. 4(4-0) Approval of instructor. Interdepartmental with the Department of Management.
Analysis of role and tasks, appropriate techniques and organizational structures of political agencies in planning and management of complex programs.

889. Topics in Applied Econometrics
Spring. 3(3-0) EC 855 or EC 877.
Topics in applied econometrics with particular attention to problems of testing hypotheses in the context of economic models.

890. Special Topics in Economic Theory
Fall, Winter, Spring. Summer. 1 credit. May be reenrolled for a maximum of 8 credits.

900. Special Topics in Economic Theory
Fall, Winter, Spring. Summer. 3(3-0) May be reenrolled for a maximum of 12 credits.

92. Methodological Approaches to Research
Fall of odd-numbered years, Summer of even-numbered years. 3(3-0) Two terms of graduate study in social science or approval of department.
Interdepartmental with and administered by the Department of Agricultural Economics.
Selection, planning and conduct of research. Alternative research approaches. Role of theory, beliefs and valuations. Critical appraisal of research studies.

990. Mathematical Economics and Econometrics Workshop
Fall, Winter, Spring. 3 to 16 credits.
EC 812A, EC 832, or approval of department.
Interdepartmental with the Department of Agricultural Economics.
Critical evaluation of research reports by staff and other students. Students writing doctoral dissertations in the appropriate areas are encouraged to participate in workshop and may do so while registered for EC 990.

990D. Economic Development Workshop
Fall, Winter, Spring. Summer. 3 to 16 credits.
EC 850, EC 851, EC 852 or approval of department.
Critical evaluation of research reports by staff and students. Students writing doctoral dissertations in Development are encouraged to participate in the workshop and may do so while registered for EC 990.

999. Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

EDUCATION

See Counseling, Educational Psychology and Special Education; Educational Administration; Health and Physical Education; and Teacher Education.

EDUCATIONAL ADMINISTRATION EAD

(Name changed effective July 1, 1984. Formerly department of Administration and Curriculum.)

College of Education

415. Student Leadership Training (ED 415, EAC 415.) Fall, Winter, Spring.
Fall (8-4) May be enrolled for a maximum of 4 credits if different topic is taken. Approval of instructor.
Prepares students for leadership roles and responsibilities by encouraging the development of skills and techniques consistent with the principles of our democratic society.

433. Alcohol: A Social Dilemma (ED 433, EAC 433.) Winter, Spring.
Juniors or approval of department. Interdepartmental with and administered by the School of Criminal Justice.
Substance abuse with emphasis on beverage alcohol. Sociological, psychological and medical aspects. Prevention, treatment, rehabilitation.

3(3-0) Approval of department.
Basic concepts of economic, social and political development are studied as they place demands upon educational planners to cope with them. The distribution of development benefits is stressed.

805B. Educational Planning and National Development (ED 880, EAC 805B.) Spring.
3(3-0) EAD 805A.
Formulation of educational development strategies and plans to deal with crucial national and community development problem areas paying particular attention to meeting the special needs of audiences with special problems.

805C. Higher Education in Developing Countries (ED 881, EAC 805C.) Fall.
3(3-0) Approval of department.
National and international development roles of higher educational institutions and personnel. Major focus on science and the appropriate technology for applying scientific knowledge to developmental problems in specific socio-cultural settings.

3(3-0) AEF 828 or EAD 860 or approval of department. Interdepartmental with and administered by the Department of Agricultural and Extension Education.
Cooperative extension programs in the United States with emphasis on Michigan model: philosophy, history, scope, organizational structure, programs and methods.

816E. Instructional Simulation (ED 823, EAC 816E.) Fall, Summer.
