880. Special Problems

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits. Approval of instructor.

Students with special interests and abilities may study published literature in a selected genetics topic or they may carry on research in the labor-tory on a selected subject in collaboration with genetics faculty.

890. Selected Topics in Genetics

Fall, Winter, Spring, Summer. 2 to 5 credits. May reenroll for a maximum of 9 credits. ZOL 441 and approval of instructor.

Topics will be selected from molecular genetics, physiological genetics, population genetics, quantitative genetics, evolution, radiology and mutagenesis, microbial genetics, somatic cell genetics, behavioral genetics, and human genetics.

999. Doctoral Dissertation Research

Fall, Winter, Spring, Summer. 3 to 12 credits. Majors.

Research for the doctoral dissertation in genet-

GEOGRAPHY

GEO

College of Social Science

100. People, Location and Environment

Fall, Winter, Spring. 4(4-0) Not open to Geography majors.

Relationships between people and environments, their spatial consequences and resulting regional structures across the earth's surface.

122. The World of Maps

Fall, Winter, Spring. 3(3-0)

Discussion of types, practical applications, and sources of maps. Map reading skills.

Geography of Selected Current Problems 150.

Fall, Winter, Spring. 2(2-0)

The geographic perspective is used to examine U.S. and world problems of major concern such as international conflicts, environment quality, spatial change, and economic development.

201. Geography of Culture

Fall, Winter, Spring. 3(3-0)

A systematic discussion of cultural geography, stressing cultural processes and relationships.

203. Resource Ecology

(IDC 200.) Fall, Winter, Spring, Summer. 3(3-0) Interdepartmental with the departments of Fisheries and Wildlife, Forestry, Resource Development, and Zoology. Administration of Fisheries and Wildlife. tered by the Department of Fisheries and Wildlife.

Basic concepts of ecology which are the unifying basis for resource management, conservation policy and the analysis of environmental quality. Extensive use of guest lecturers.

World Regional Geography (S)

Fall, Winter, Spring, Summer. 4(4-0)

Human relationships with natural and cultural environments,

206. Physical Geography

Fall, Winter, Spring, Summer. 4(4-0) Analysis of weather, climate, landforms, soils, water and biotic factors of the human environment, including its spatial, genetic, and functional interrelationships.

206L. Physical Geography Laboratory

Fall, Winter, Spring. 1(0-2) GEO 206 or concurrently.

Laboratory study of geographic aspects of map interpretation, aerial photographs, weather, climate, soils, landforms, and vegetation.

World Economic Geography

Fall, Winter, Spring, Summer. 4(4-0)

Emphasis on distribution of natural resources, industries and service activities, stressing factors of location and economic concepts of locational change.

223. Introduction to Cartography

Fall, Spring. 4(2-4)

Principles and techniques of constructing maps. Mapping methods and mapping decisions emphasized.

224. Remote Sensing: Airphoto Interpretation

Fall, Winter, Spring. 4(2-4) Sopho-

Use of aerial photographs in the identification and interpretation of physical and cultural features of the terrestrial environment. Includes principles of photogrammetry, and stresses application and practice.

IDC. Contemporary Japan

For course description, see Interdisciplinary Courses.

300. North America

Fall, Winter, Spring. 3(3-0)

Human and physical geography of North America, north of the Mexican border.

307. Geography of Environmental Quality

Spring. 3(3-0) Sophomores or approval of department.

Identification of the physical, cultural and psychological factors which constitute human environments, and how they vary and may be modified or controlled.

309. Geography of Recreation

Winter. 3(3-0)

Natural and cultural factors influencing the use of space for recreation. Emphasis on recreation land use in the United States and current problems and conflicts.

310. Historical Geography of the **United States**

Spring. 3(3-0)

Reconstruction of geographies of the United States as they existed in the past.

315.South America

Spring. 3(3-0) Sophomores or approval of department.

Regional geography of South America with special attention to contemporary geographic prob-

316. Middle America

Winter. 3(3-0) Sophomores or approval of department.

Interpretation of physical and cultural environment of Mexico, Central America, and the West Indies. Special attention to contemporary geographic problems.

Geography of Population

Fall, 3(3-0)

Relationship of the size, composition, and distribution of population to geographic variations in the nature of places.

Africa

Fall. 3(3-0) Sophomores or approval of department.

Emphasis on continent south of Sahara: environments, peoples, problems, and potentials.

Africa: Contemporary Problems

Spring. 3(3-0) Sophomores or approval of department. GEO 321 recommended.

Major development problems examined from environmental, historical, economic, and social perspectives.

340. Western Europe

Winter. 3(3-0) Sophomores or approval of department.

Geographic analysis of physical and human character and resources of Western Europe (Scandinavia, British Isles, Benelux, Germany, France and Switzerland). Emphasis on major problems.

IDC. Contemporary South Asia

For course description, see Interdisciplinary Courses.

Eastern and Southern Europe 342.

Spring. 3(3-0) Sophomores or approval of department.

A geographical analysis of countries of Eastern and Southern Europe with emphasis on economic, political, social and ethnic problems.

351. Weather and Climate

Fall. 3(3-0)

Non-mathematical treatment of general weather processes and patterns, including surface and middle atmospheric (jet stream) features, with emphasis on the U.S.

360. The Soviet Union

Fall. 3(3-0) Sophomores or approval of department.

A geographical analysis of the Soviet Union and its inhabitants with emphasis on economic, social, political and ethnic problems.

China

Winter. 3(3-0)

The physical and human geography of China and their relationship to the development problems of the country, with emphasis on the post-1949 period.

400H. Honors Work

Fall, Winter, Spring. 1 to 16 credits. Approval of department.

The Ghetto 401.

(UMS 401.) Fall, Spring. 4(4-0) Juniors or approval of department.

Analysis of the ghetto including its spatial organization, structure and distribution of nonwhite and ethnic populations in cities with emphasis on the United States.

Courses

402. The Geography of the City

Spring. 3(3-0)

Spatial theories, concepts, and designs of internal urban economic, social, and political struc-

403. The American City and Its Region Winter. 3(3-0)

The regional system of cities in terms of size, spacing, and functional relationships.

407. Michigan

Fall, Spring. 3(3-0) Sophomores or approval of department.

Selected aspects of the physical and cultural geography of Michigan.

408. Canada

Spring. 3(3-0) Sophomores or approval of department.

An analysis of the physical, economic and cultural patterns of Canada.

Geography of Transportation 409.

Analysis of spatial principles of transportation, including theories of interaction, network structures, and the role of transport in space-economy.

411. Problems in Geography

Fall, Winter, Spring, Summer. 1 to 6 credits. Approval of department.

Research on specialized geographic problems.

415. Field Techniques

Fall. 4(1-7) May reenroll for a maximum of 8 credits. Approval of department.

Basic methods for making physical and cultural observations and measurements including map reading, photo interpretation, field sketch mapping, compass traverses, sampling, question-naire design, interviewing, analysis and reporting. Requires work off campus.

418. Critical Issues in Contemporary Africa

Fall, Spring. 3(3-0) May reenroll for a maximum of 9 credits if different topics are taken. One course on African subject and approval of instructor. Interdepartmental with African Languages and the departments of Anthropology, History, Political Science, and Sociology. Administered by the Department of

Four separate multidisciplinary topics will be offered at different times: The Horn of Africa, Southern Africa, Africa and the Americas, Social Impact Studies.

424. Advanced Remote Sensing Techniques

Spring. 4(2-4) GEO 224.

Extraction, analysis, and interpretation of information obtained from remote sensors including conventional, infrared and radar imagery. Introduction to stereo-plotting devices, stressing theories of remote sensing and applications.

425. Development of Geographic Thought

Spring. 3(3-0) Approval of depart-

ment.

Evolution of geographic thought from antiquity to the present emphasizing developments in 20th century America. Survey of the theory and methodology of contemporary geography.

427. Quantitative Methods in Geography

Fall. 4(4-0) Approval of department. Basic quantitative techniques used in the analysis and classification of geographic data.

Landforms of North America

Winter, Spring. 3(3-0) May reenroll for a maximum of 6 credits. GEO 206, GLG 201 or approval of department.

Study of the surface features of eastern U.S.A. (winter term) and western U.S.A. (spring term).

431. Landform Analysis

Fall. 3(3-0) GEO 206, GLG 201 or approval of department.

A problem approach is utilized to explain classical and contemporary interpretations of the nature of selected landforms, including treatment of related tools and techniques. Option for some field study.

432. Biogeography

Spring. 3(3-0) GEO 206 or approval of

Patterns of vegetation, with emphasis on forests of eastern North America. Option for some field study.

435. Land Use and Location Theory

Spring. 3(3-0) GEO 213 or approval of department.

Location principles and theories of economic activities, including methods of regional analysis.

436. Microclimatology

Winter. 3(3-0) MTH 108; GEO 351 recommended. Interdepartmental with and administered by Agricultural Engineering Technology.

Physical environment in the lower few hundred meters of the atmosphere and within the biosphere.

440. Spatial Aspects of Regional Development

Spring. 3(3-0) GEO 213 or one 300 level regional geography course or approval of department.

Spatial and environmental factors in regional development at national and international scales.

446. **Production Cartography**

Winter. 4(2-4) GEO 223 or approval of department.

Technical aspects of map and graphics production. Sequencing of procedures. Theoretical and applied aspects of process photography, typography, and proofing.

447. Advanced Cartography

Fall. 4(2-4) GEO 223.

Advanced concepts in mapmaking including statistical surfaces portrayal, quantitative data analysis, classing techniques, and nominal mapping.

448. Computer Mapping

120.

Winter, Spring. 4(2-4) CPS 115 or CPS

Programming microcomputers for cartographic manipulation and portrayal of geographic data.

449. Computer Uses in Cartography Fall. 4(2-4) GEO 223, CPS 120.

Examination of use of various mapping programs and map data bases. Computer use in modern cartography. Includes some programming.

451. Climatic Patterns and Atmospheric Circulation

Winter, 3(3-0) GEO 206 or approval of department.

Relationship between weather, climate, and upper air flow, with emphasis on this climatology of North America.

456. Map Design

Spring, 4(2-4) GEO 446.

Technical and theoretical aspects of designing maps. Topics include color, lettering, content, layout, and the influence of the user.

Social and Spatial Approaches to Community Service 466.

Spring. 3(3-0) GEO 201 or S W 205 or approval of department. Interdepartmental with and administered by the School of Social Work.

Analysis of major themes in social service planming: communities and neighborhoods, public policy administration, social service networks, location of public facilities, evaluation and accountability of service systems.

470. Geography of Health and Disease Fall, Winter. 3(3-0)

Spatio-environmental concepts and the techniques applied to health problems: disease transmission cycles, community nutrition and health-care planning.

805. Seminar in Urban Geography

Spring. 3(3-0) Approval of depart-

ment.

Selected research topics on the geography of the city.

808. Environmental Measurements

(A E 805, AET 805.) Spring. 4(3-3) Approval of department. Interdepartmental with and administered by Agricultural Engineering Technology.

Methods and techniques for accurate measurement and interpretation of environmental parameters. Temperature, humidity, wind and air flow characteristics, radiation, light intensity, gaseous and particulate concentrations in atmo-spheric microclimates will be discussed.

809. Seminar in Transportation Geography

Winter. 3(3-0) Approval of department, GEO 409.

Selected research topics.

811. Advanced Quantitative Methods in Geography and Planning

Spring. 4(4-0) Approval of department, GEO 427. Interdepartmental with Urban Planning.

Statistical and mathematical approaches to spatial distributions and areal data.

812. Regional Seminar

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.

Selected research topics in regional geography.

814. Research Methods in Urban and Regional Analysis

Winter. 3(3-0) U P 427 or approval of department. Interdepartmental with and ad-ministered by Urban Planning.

Basic quantitative techniques used in urban and regional analysis and planning, including statistical, linear, and network methods. Introduction to computer use.

of

Courses

815. Application of Research Methods to Planning and Analysis

Spring. 3(3-0) UP 814. Interdepartmental with and administered by Urban Planning.

Applied techniques used in planning research. Analysis and forecasting of urban population, economic activity, and land use. Analysis of transportation and other community facilities.

818. Readings in Geography

Fall, Winter, Spring, Summer. Variable credit. May reenroll for a maximum of 15 credits. Approval of department.

819. Theories of Urban Forms and Structure

Spring. 3(3-0) Approval of department. Interdepartmental with and administered by Urban Planning.

Idealized urban forms, theories and models in urban form as it relates to function and location of urban activities.

825. History and Philosophy of Geography

Fall. 3(3-0) Approval of department.

Analysis of the monographic and serial literature dealing with the theory and evolution of geographic science.

826. Research Design in Geography

Winter, Spring. 3(3-0) Approval of department.

Formalized approach to research and writing in geography: Identification of geographic problems and their relative importance, structuring and stating hypotheses, data acquisitions, and tests for validity.

828. Seminar in Recreation Geography

Spring. 3(3-0) GEO 309 or approval of instructor.

Selected current problems in recreation geography in the U.S. and abroad.

834. Seminar in Physical Geography

Winter, Spring. 3(3-0) May reenroll for a maximum of 9 credits. Approval of department.

Analysis of classical and contemporary problems in physical geography treated as follows: climatology (winter), biogeography (spring), geomorphology (spring).

835. Seminar in Location Theory

Fall. 3(3-0) Approval of department, GEO 435.

Recent developments and research in location analysis and regional science.

839. African Research

(IDC 838.) Fall, Winter, Spring. 2 to 4 credits. May reenroll for a maximum of 8 credits. Graduate standing or approval of instructor. Interdepartmental with African Languages and the departments of Anthropology, Educational Administration, History, Political Science, and Sociology. Administered by the Department of Anthropology.

African-related archival and field research topics and methodologies viewed from perspective of relevant social science and humanistic disciplines associated with the African Studies Center.

845. Proseminar in Cartography

Winter. 3(3-0) Approval of depart-

ment.

Contemporary cartographic research. Research questions and methods in cartography.

846. Seminar in Cartography

Spring. 3(3-0) May reenroll for a maximum of 12 credits. Approval of department.
Research projects in cartography.

850. Advanced Field Techniques

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 8 credits. Instruction and practical training in the selection, data-gathering, on-site analysis, and presentation of geographic field problems.

870. Seminar in Medical Geography

Winter, 3(3-0)

Spatio-environmental analysis of selected health problems.

899. Master's Thesis Research

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

901. Problems in Cultural Geography

Fall, Winter, Spring, 1 to 3 credits. May reenroll for a maximum of 6 credits. Approval of department.

Special research problems.

902. Problems in Physical Geography

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 6 credits. Supervised research in specific topics of physical geography.

906. Problems in Economic Geography

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 6 credits. Approval of department.

Special research problems.

910. Problems in Historical Geography

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 6 credits. Approval of department.

Special research problems in historical geography.

912. Independent Study in Regional Geography

Fall, Winter, Spring, Summer. I to 3 credits. May reenroll for a maximum of 15 credits. Approval of department.

Individual studies in regional geography.

918. Problems in Geography

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.

Research on specific geographical problems.

934. Problems in Population

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 9 credits. Approval of department.

Special research problems.

999. Doctoral Dissertation Research

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

GEOLOGICAL SCIENCES

(Name changed effective July 1, 1983. Formerly the Department of Geology.)

College of Natural Science

Geology

GLG

200. Geology of Human Environment

Fall, Winter, Spring, Summer, 3(3-0) Not open to Geology majors. Credit will be given in only one of the following: GLG 200, GLG 201, GLG 306.

An exploration of social philosophical and political events which require a geological viewpoint for resolution. The application of geologic and social/historical information will also reinforce the concept of the scientific method.

200L. Laboratory—Geology of Our Environment

Fall, Winter, Spring, Summer. 1(0-3) GLG 200 or concurrently.

Laboratory study of geologic processes associated with environmental hazards. Emphasis placed on land-use planning, applying geologic criteria to evaluate land potentials.

201. Earth Processes

Fall, Winter, Spring, 4(4-2) Credit will be given for only one of the following: GLG 200, GLG 201, GLG 306.

Physical processes concerning evolution of Earth and its environments. Conservation and interaction of energy and matter through time. Laboratory stresses interpretation of process through studies of geologic data.

202. Evolution of the Earth

Fall, Winter, Spring. 4(4-2) GLG 200; or GLG 201; or GLG 306.

Integration of physical, chemical and biological processes from which our present environment has evolved; problems and controversies in the development of ideas of geologic and organic evolution.

205. Oceanology—The Marine Environment

Fall. 3(3-0)

Physical oceanography, including origin, hydrologic, chemical, geological properties; and environmental quality of the oceans. Human-sea interactions are emphasized including resource utilization and pollution.

282. Energy Resources of the Earth

Winter. 3(3-0)

World energy resources of petroleum, coal, and atomic fuel. Social, political, economic and environmental problems of fuels.

300. Solar System Geology

Winter. 4(4-0) AST 119 or AST 217 or AST 229; GLG 200 or GLG 201.

The origin, relationships, make-up and features of the bodies in the solar system emphasizing recent space exploration results and developing theories.

302. Vertebrate Life of the Past

Fall. 3(3-0) One course in a physical or biological science or Juniors. Interdepartmental with the Department of Zoology.

Fossil vertebrates from fish to humans.
