PSYCHOLOGY

PSY

College of Human Medicine
College of Social Science

139. Psychology of Women
   Winter, Spring, 3(3-0) Primarily for Freshmen and Sophomores.
   Psychological development of sex-typed behavior and sex differences in cognitive and personality function; reproductive behavior; impact of social expectations on self-concept, achievement and affiliation orientations, and life decisions.

160. Introductory Psychology: Social-Personality
   Fall, Winter, Spring, Summer, 3(3-0)
   The complex functioning of the individual in different social environments will be considered. Topics include: socialization, interpersonal perception, group processes, motives, emotions, attitudes, and values. Students may participate in psychological experiments outside of class.

170. Introductory Psychology: General
   Fall, Winter, Spring, Summer, 4(4-0)
   Principles underlying the behavior of humans and animals. Topics include: cognition, emotion, motivation, learning, sensation, and perception. Students may participate in psychological experiments outside of class.

215. Introduction to Psychological Measurement
   Fall, Winter, Spring, Summer, 3(2-2)
   PSY 160 or PSY 170.
   Psychology as a quantitative discipline; graphical presentation and interpretation; psychological data in various content fields; methods of summarizing behavioral data; samples, populations and probability in psychological research; hypothesis testing.

225. Psychology of Personality
   Fall, Winter, Spring, Summer, 3(3-0)
   PSY 160 or T E 200 or Sophomores with approval of department.
   Application of psychological principles to an introductory understanding of personality and interpersonal adjustments; social motivation, frustration, conflicts, and adjustment mechanisms; theories of adjustment, the assessment of personality, problems of mental hygiene and some theories of psychotherapy.

244. Developmental Psychology: Infancy through Childhood
   Fall, Winter, Spring, Summer, 4(4-0)
   PSY 160 or PSY 170 or T E 300.
   Developmental psychology of the infant and child including biological, social, cognitive, moral, perceptual and cultural development: relations with care givers and peers as well as development of individual characteristics.

247. Sensitivity to Children II
   Winter, 3(2-2) To receive credit PSY 246, PSY 247. PSY 246 must be completed satisfactorily except by prior arrangement with instructor. Sophomores and 3 credits in psychology. Students who have completed more than 6 credits of PSY 490 and PSY 451 combined may not enroll in PSY 246.
   Three-term sequence emphasizes supervised weekly play with a child and analysis of video-taped recordings. Readings and discussions cover problems faced by child therapist, teachers and parents.

248. Sensitivity to Children III
   Spring, 3(2-2) To receive credit PSY 246, PSY 247. PSY 246 must be completed satisfactorily except by prior arrangement with instructor. PSY 295.
   Continuation of PSY 246.

255. Organizational and Personnel Psychology
   Fall, Winter, Spring, Summer, 3(3-0)
   Introductory course in psychology.
   The psychology of managing and leading, personnel operations, and the humanizing of work organizations.

291. Independent Study: Research Participation
   Fall, Winter, Spring, Summer, 1 to 3 credits.
   May enroll for a maximum of 6 credits.
   PSY 160 or PSY 170, PSY 215.
   Student participates as an assistant in an ongoing psychological research project under the direction of a staff member in order to become familiar with the procedures of psychological research.

300. Cognitive Psychology
   Fall, Winter, Spring, Summer, 4(4-0)
   PSY 160 or PSY 170, PSY 215, 10 credits of psychology or approval of department.
   Concepts, theories, methods and research findings in human information processing and cognition; including attention, memory, intelligence, problem solving, decision making, language, and reading.

301. Human Learning and Memory
   Winter, Spring, Summer, 4(4-0)
   PSY 170; PSY 215 or a college level mathematics or statistics course.
   Concepts, procedures, issues, and principles involved in the acquisition, retention, transfer and execution of verbal learning, identification learning, and perceptual-motor skills.

302. Laboratory in Cognitive Psychology
   Fall, Winter, Spring, 3(2-2)
   PSY 170, PSY 215, PSY 300 or PSY 170, PSY 215; PSY 300 concurrently.
   Representative experiments in perception, memory, language, problem solving and decision making including an individual, student selected project. Class members serve as experimenters and subjects, using microcomputers as laboratory equipment.

309N. Fundamentals of Physiological Psychology
   Fall, Spring, 3(3-0) CEM 141, PSL 240.
   For students in the natural and life sciences.
   Students may not receive credit in both PSY 298N and PSY 309N.
   Central nervous system functional anatomy and physiological bases of behaviors, including neural and hormonal control of biorythms, reproduction, hunger and thirst.

309S. Survey of Physiological Psychology
   Fall, Spring, 3(3-0) PSY 170.
   For students in the social sciences and liberal arts.
   Students may not receive credit in both PSY 298N and PSY 309S.
   Current topics in behavioral biology, including: the physiology of learning and memory; hormones and behavior; and human neurophysiology.

312. Learning and Motivation
   Fall, Winter, Summer of odd-numbered years, 3(3-0)
   PSY 170, PSY 215; PSY 312 concurrently.
   Detailed analysis of basic conditioning processes such as reinforcement, discrimination, generalization, punishment, adverse behavior, and theories of learning. Emphasis on interhuman data, but applications to human behavioral modification are considered.

313. Experimental Psychology: Learning and Motivation
   Fall, Winter, Summer of odd-numbered years, 3(4-0)
   PSY 170, PSY 215; PSY 313 concurrently.
   Representative experiments in operant behavior, including an individual project selected by the student, using the pigeon as the laboratory animal.

316. Sensory Processes
   Winter, 3(3-0) PSY 170; PSY 215 or a college level mathematics or statistics course.
   Sensory organs and their associated neurophysiological processes as they relate to sensory phenomena; emphasis on vision. Review of major methodologies.

317. Perception
   Fall, 3(3-0) PSY 170.
   Concepts, principles, results, and applications in perception; emphasis on vision.

335. Principles of Social Psychology
   Fall, Winter, Spring, 4(4-0)
   PSY 160.
   Students may not receive credit in both PSY 235 and SOC 235.
   A critical survey of social psychology with emphasis on psychological principles underlying social behavior. Topics include social perception, motivation, attitudes, and attitude change; social interaction in small groups and in large scale organizations.

337. Legal and Criminal Psychology
   Fall, Winter, Spring, 3(3-0) PSY 160 or T E 200.
   Application of psychological principles, methods, and techniques to legal and criminal problems and procedures, including the formation, detection, prevention, and rehabilitation of criminal behavior, testimony, legal arguments, trial tactics and the other courtroom procedures.

344. Developmental Psychology: Adolescence and Youth
   Winter, Spring, Summer, 3(3-0)
   PSY 244.
   Continuation of PSY 244 covering development during adolescence and youth with emphasis on problems of identity and adjustment to the social environment.

356. Organizational Psychology
   Fall, Spring, 3(3-0) An introductory course in psychology; PSY 235 or MGT 310.
   Students may not receive credit in both PSY 236 and MGT 419.
   Leader behavior, attitudes, interpersonal behavior, motivation and communication of individuals in organizations.

357. Consumer Psychology
   Fall, Winter, Spring, 3(3-0) PSY 170;
   PSY 335 or SOC 235, or approval of department.
   Psychology underlying techniques of effective advertising, selling, and marketing. Psychology relevant to living in a marketing-oriented culture.
370. Psychology and Social Innovation
Winter. 3(3-0) PSY 160 or PSY 170.
Planning, implementing and evaluating experimental approaches to social problems. Topics include advertising of innovations: field research problems; science and policy formation; parameters of program evaluations.

371. Community Projects I
Fall, Winter, Spring, Summer. 4(2-4) PSY 160 or PSY 170, approval of department. Students who have completed more than 6 credits of PSY 160 and PSY 401 combined may not enroll in PSY 371.
Experience in working directly with adolescent offenders from the local community. Techniques of intervention with adolescents, their families, and social systems which affect them.

372. Community Projects II
Fall, Winter, Spring, Summer. 4(2-4) PSY 371, approval of department.
Continuation of PSY 371 with primary focus on direct work with adolescents, their families and social systems which affect them.

373. Community Projects III
Fall, Winter, Spring, Summer. 4(2-4) PSY 372, approval of department.
Continuation of PSY 372.

390H. Honors Seminar
Fall, Winter, Spring. 1 to 5 credits. May reenroll for a maximum of 15 credits when different topics are offered. Honors students and approval of department.
History, theory, and current research in selected areas of psychology, including personality, motivation, perception, learning, industrial, ecological, mathematical, developmental, social, and clinical.

400. Selected Topics in Psychology
Fall, Winter, Spring, Summer. 2(2-0) to 5(5-0) May reenroll for a maximum of 12 credits. Approval of department.
Selected topics in the areas of experimental, developmental, social, industrial, personality, mathematical, ecological, or clinical psychology.

403. Experimental Psychology: Human Learning
Spring. 4(4-0) PSY 215 or approval of department.
Application of principles of learning and motivation to humans of various ages and abilities in educational and noneducational settings. Some application to animal behavior. Extended practice (PSY 490-PSY 491) may be taken concurrently to complete appropriate projects.

405. Modern Viewpoints in Psychology
Fall, Spring. 3(3-0) 15 credits in psychology.
Survey of psychological systems in the modern era including behaviorism, Gestalt psychology, psychoanalysis, new behaviorism in relation to other selected disciplines.

409. Advanced Concepts in Physiological Psychology
Fall, Spring. 4(4-0) PSY 360N or approval of department.
Detailed analysis of advanced concepts in physiological psychology, such as vision, audition, sematic sensation, chemical senses, motivation, emotion, perception, arousal, learning, and the influence of hormones on behavior.

414. Psycholinguistics
Winter of even-numbered years. 4(4-0) PSY 300.
Experimental psychology of language, including speech perception, sentence processing, prose comprehension and memory, and language production.

415. Psychological Tests and Measurements
Fall, Winter, Spring. 3(3-0) PSY 215.
Methods, techniques, and instruments for measuring individual differences in behavior. Standard methods of construction, critical analysis of representative tests, criteria for evaluating and selecting tests, values and limitations of tests.

424. Child Psychopathology
Fall, Winter, Summer. 4(4-0) PSY 244 or approval of department.
Description, etiology, and developmental pattern of behavior problems of children and adolescents; introduction to child and family treatment approaches.

425. Abnormal Psychology
Fall, Winter, Spring. 4(4-0) PSY 225.
Nature of abnormal behavior and its social significance: description of symptoms and dynamics of psychological disorders; the neuroses and psychosomatic reactions, sociopathic behavior and character disorders, functional and somato­genic psychoses; some consideration of therapies and theories of prevention.

427A. Personality: Dynamic Theories
Fall, Winter, Spring. 3(3-0) PSY 425.
Survey of personality theories of development, structure, and dynamics related to learning, determinants, cultural influences, behavioral disorders and assessment methods.

427B. Survey of Personality Research
Fall. 3(3-0) PSY 425A or approval of instructor.
Empirical investigations of personality dynamics and the effects of individual differences on subjective experience and social interaction.

435. Advanced Social Psychology
A. Research Methods in Social Psychology
Fall, Winter, Spring. 4(4-0) PSY 248; I, Fall, Winter, Spring. 4(4-0) PSY 215, PSY 335 or SOC 251, 1 course in experimental psychology.
Critical examination of problems, principles, methods, techniques, materials, results and conclusions in relation to theory in social psychology, including experimentation and demonstration.

B. Social Cognition
Fall. 3(3-0) PSY 335 or SOC 251.
Theories and research on social cognition, person perception, attribution theory, theories of the self, person memory.

C. Interpersonal Behavior and Relations
Winter. 3(3-0) PSY 335 or SOC 251.
Theories and recent research in interpersonal behavior. Social exchange, prosocial behavior, aggression, attraction and prejudice.

D. Attitudes
Spring. 3(3-0) PSY 335 or SOC 251.
Classical theories of attitude formation and change, dissonance theory, inoculation theory and the persuasion-communication approach.

E. Group Behavior
Spring. 3(3-0) PSY 335 or SOC 251.
Theories and research on small group behavior.

F. Social Psychology and Society
Winter. 3(3-0) PSY 335 or SOC 251.
Applications of social psychology to social issues, problems and institutions. Topics may include social psychology and the law, political behavior, energy conservation.

439. Selected Topics in the Psychology of Women
Fall. 3(3-0) May reenroll for a maximum of 9 credits when different topics are offered. Nine credits in psychology or approval of department.
Selected topics: e.g., achievement and affiliation behavior; sex-typed behavior and identity; political socialization of women; personality and social stereotypes; psychohistory of women; professional and traditional orientations; third world women.

444. Advanced Developmental Psychology
A. Social Development
Fall of odd-numbered years. 4(4-0) PSY 160, PSY 170, PSY 215, PSY 244 or approval of department.
Theories and recent research in social development of infants, children, and adolescents.

B. Cognitive Development
Winter of even-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Recent approaches to cognitive development. A view of selected theories and experiments.

C. Language Development
Spring of odd-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Psychological theories and experiments in the development of language in the child, including both social and cognitive effects of language development.

D. Applied Development
Fall of even-numbered years. 4(4-0) PSY 160, PSY 170, PSY 244 or approval of department.
Selected behavior problems in development. Topics may include: child psychopathology, physical and emotional disabilities, speech disorders, cognitive-intellectual deficits.

455. Personnel Research Techniques
Fall, Spring. 4(3-2) PSY 215, PSY 255.
Quantitative psychological research technique applied to typical personnel problems in industry and government.

456. Personnel Training and Development
Spring. 4(4-0) PSY 356 or MGT 419.
Each student develops skills called for in training work-level employees, supervisors and managers in industry, business, and government—all in an organization development framework of reference. Relevant research reviewed.

470. Research Methods in Ecological Psychology
Spring. 4(3-2) PSY 160, PSY 170, PSY 215; PSY 370 or approval of department.
Methods, techniques, and measurement instruments for applying psychology to the solution of contemporary human problems. Critical analysis of methods for creating and measuring social change.
454. Literature and Psychology
Spring. 4(4-0) Juniors or approval of department. Interdepartmental with the Department of English. An application of psychological theory to the study of literature and an exploration of the ways in which literature enriches the theory which helps to illuminate it.

455. Psychology of Love and Maturity
Fall, Winter. 3(3-0) Juniors and 3 courses in psychology.
The function of love in human existence. Varities of love; their effect upon the growth of the person in terms of awareness, integration, authenticity, social concern and responsibility, maturity and fulfillment.

456. Psychology of Music
Fall, Summer. 3(3-0) Approval of department. Interdepartmental with the Department of Music.
Musical behavior with emphasis on psychological aspects of perception, learning, affective response, and Spont. Emphasis on social and cultural influences in forming musical tastes, including mass media music.

457. Psychology of Music
Winter, Summer. 3(3-2) PSY 486 or approval of department. Interdepartmental with the Department of Music.
Basic research concepts and experimental methods in psychology of music research. Practical training in conducting experimental research of musical behavior.

459. Humanistic Psychology
Fall, Spring. 3(3-0) Juniors and 3 courses in psychology.
Subject matter is drawn from the psychology of personality in its various forms. The usual approaches of the behavioral sciences are subject to critical analysis. One goal is to derive some elements of a philosophy of life for humans as potentially rational and ethical beings.

460. Special Problems in Psychology
Fall, Winter, Spring. 1 to 6 credits. May enroll for a maximum of 12 credits. Students are limited to a combined total of 12 credits in PSY 490 and PSY 495. Students who completed PSY 246, PSY 247, PSY 248 or PSY 371, PSY 372, PSY 373 are limited to a combined total of 6 credits in PSY 490 and PSY 495. Juniors, approval of department.
Each student will work under the direction of a staff member on an experimental, theoretical, or applied problem.

491. Participation in Psychological Projects
Fall, Winter, Spring, Summer. 1 to 6 credits. May enroll for a maximum of 12 credits. Students are limited to a combined total of 12 credits in PSY 490 and PSY 495. Students who completed PSY 246, PSY 247, PSY 248 or PSY 371, PSY 372, PSY 373 are limited to a combined total of 6 credits in PSY 490 and PSY 495. Juniors, approval of department.
Each student will participate in a psychological project under direction of a staff member.

499H. Senior Project
Fall, Winter, Spring. 2(0-0) May enroll for a maximum of 6 credits. PSY 399H or approval of department.
Independent research involving literature survey, naturalistic observation, or experimental investigation with staff supervision. Preparation of the Senior paper.

801. Perception
Fall. 3(3-0)
Considers the role of perception in various areas of psychology.

802. Psychological Measurement
Fall, Winter. 3(3-0)
Major scientific, cultural, philosophical, and personal influences on the development of psychology. Analysis of persistent issues.

810. Cognitive Processes
Winter. 3(3-0) Majors or approval of department.
Experimental findings and theories on human cognition including the topics of attention, pattern recognition, skill acquisition, memory, language processing, problem solving, and decision making.

811. Advanced Physiological Psychology
Spring. 4(4-0) Majors or approval of department.
Psychology as a biological science. Consideration of physiological processes underlying organism-environment interaction.

814. Psychology of Language
Spring. 3(3-0)
Experimental psycholinguistics, including speech perception, sentence processing, prose comprehension and memory, language production, and language acquisition.

815. Advanced Psychometrics
Fall. 4(4-0) A course in statistical inference, major or approval of department. Theory and practice in analysis and interpretation of psychological data.

850. Conditioning and Learning
Fall. 3(3-0)
Detailed stimulus-response analysis of the basic operations of conditioning and learning, including such variables as reinforcement, motivation, and inhibitory effects, with an emphasis on intrahuman data.

851. History and Systems
Fall. 3(3-0)
Psychology majors or approval of department.
Major scientific, cultural, philosophical, and personal influences in the development of psychology. Analysis of persistent issues.

852. Clinical Assessment I
Fall. 2(0-4) Majors or approval of department.
Assessment of psychodynamic and psychopathology. Individual case studies based on interviews and psychological tests. Behavioral correlates of psychodynamic problems.

853. Research Methods in Clinical Psychology
Fall. 4(3-2) Majors or approval of department.
Research strategies and the clinical method: types of evidence, similarities and differences. Questionnaires and scale construction. Introduction to design and data analysis. Social psychological and ethical issues in clinical research.

861. Mathematical Models in Psychology I
Fall. 4(4-0) MTH 111 and STT 201 or approval of department.
Continuation of the relationship between mathematics and psychological theory. Examination of the concepts of structure and change in qualitative psychological systems. Application of algebraic techniques to psychological theory.

862. Mathematical Models in Psychology II
Winter of even-numbered years. 4(4-0) PSY 820 or approval of department.
Representative mathematical models in psychology, including statistical investigations and the relationship between experiments and results. Advantages of mathematical models for different psychological problems.

863. Clinical Assessment II
Winter. 2 or 3 credits. PSY 828, approval of department.
Clinical assessment of children. Individual case studies making systematic use of behavior observations, interviews, and standardized tests. Integration of data and principles of development of new assessment procedures.

864. Clinical Assessment III
Spring. 2 or 3 credits. PSY 830, approval of department.
Self-appraisal and investigation of interpersonal transactions in two-person and larger groups. Standardized techniques, individual case studies, and principles of development of new methods.

865. Experimental Psychology: Social Psychology
Fall. 4(4-0) One course in experimental psychology.
Intensive experience in designing, executing, reporting and evaluating research in social psychology, including an individual research project.

866. Advanced Social Psychology: Cognition Approaches
Winter. 4(4-0) PSY 815, 20 credits in the social sciences.
Contemporary theory and research in social psychology dealing with attitudes, sense of self, social cognition, values, attitudes and behavior, attitudes change and balance theories.

867. Advanced Social Psychology: Group Processes
Spring. 4(4-0) PSY 815, 20 credits in social sciences.
Contemporary theory and research dealing with the individual in a group context.
845. Developmental Psychology: Infancy
Fall of odd-numbered years. 4(4-0)
Majors or approval of department.
Human infancy: conception to three years. Developmental study of pre-natal life, personality, learning, perception, sensory stimulation and deprivation, neurophysiology, psychophysiology, language and cognition.

846. Developmental Psychology: Childhood
Winter of even-numbered years. 4(4-0)
Majors or approval of department.
Psychological theories and research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the child.

847. Developmental Psychology: Adolescence and Youth
Spring of odd-numbered years. 3(3-0)
Majors or approval of department.
Psychological theories and research methods and findings related to the intellectual, emotional, perceptual, social and personality development of the adolescent and young adult.

848. Developmental Psychology: Adulthood and Aging
Spring of odd-numbered years. 3(3-0)
Majors or approval of department.
Normal development from early to late adulthood. Includes physical and physiological changes; intellectual functioning; personal development; childhood and non-normative transitions; social relations including love, family, friendship; work, vocational development, retirement.

849. Developmental Psychology: Theory
Winter of odd-numbered years. 3(3-0)
Majors or approval of department.
Philosophical origins of contemporary theory in developmental psychology: cognitive, information processing, maturation, dialectical, psychoanalytic, behavioral, organismic, general systems, psychobiology, and stage-related theories.

850A. Developmental Psychopathology I
Fall. 3(3-0) Approval of department.
Developmental and situational perspective to childhood and adolescent psychopathology. Epidemiological research, classification systems, mental retardation, learning disabilities, and pervasive developmental, psychotic, and organic disorders.

850B. Developmental Psychopathology II
Winter. 3(3-0) PSY 850A or approval of department.
Externalizing and internalizing disorders of childhood and adolescence including conduct, affective, anxiety-withdrawal, adjustment reaction, personality, eating, psychosocial, and disorders with physical manifestations.

850C. Developmental Psychopathology III
Spring. 3(3-0) PSY 850B or approval of department.
Adolescent and adult psychopathology from a developmental perspective; marital and family pathology as system dysfunctions; conceptual frameworks for these phenomena; description/diagnosis/triage and intervention with some representative pathologies.

851. Neuropsychology
Fall. 4(4-0) Graduate students in psychology or approval of instructor.
Basic research and theory in the neuropsychology of cognition, language, memory, emotions, manual performance, visual-spatial functions, lateral specialization, and the relationship between brain lesion and recovery of function.

852A. Neuropsychological Assessment
Spring of odd-numbered years. 2(2-0)
PSY 811, ANT 563, PSY 851; or approval of department.
Theory, research, and practical related to the behavioral expression of brain dysfunction in adults. Overview of selected neuropsychological instruments in current use and their clinical applications.

852B. Neuropsychological Assessment Laboratory
Spring of odd-numbered years. 3(0-6)
PSY 852A concurrently, clinical psychology graduate student; or approval of department.
Intensive practice in the administration of neuropsychological assessment instruments with emphasis on the Halstead-Reitan Test Battery.

860. Advanced Industrial Psychology
Fall. 4(4-0) Twenty credits in the behavioral sciences or organisational behavior, and a course in statistics.
Industrial and organizational psychology as a science and as a profession.

862. Organizational Psychology
Winter. 4(4-0) Fifteen graduate credits.
Survey of current theories of individual behavior in complex organizations. Examples from research in industry, government, and other complex organizations.

865. Advanced Neurobiology
Spring. 4(3) ZOL 827.
Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.
Basic organization, structure and function of neural networks comprised sensory, motor, and autonomic systems including examples from invertebrates and vertebrates. Attendance at neuroscience seminar is required.

866. Personnel Selection and Evaluation
Fall of even-numbered years. 3(3-0) Fifteen graduate credits.
Critical treatment of research methods and instruments in personnel selection and evaluation as applied to governmental, business and industrial situations.

873. Ecological-Community Psychology Research Methods I
Fall. 4(4-0) Approval of department.
Ecological-community psychology literature with the intent of identifying social problems, methods for their solution, and the philosophical, political, and role-definition issues confronting the ecological-community psychologist. At least eight hours per week in a community setting required.

874. Ecological-Community Psychology Research Methods II
Winter. 4(4-0) PSY 873, approval of department.
Planning and design of innovative field research including research planning, experimental design, quasi-experimental design, program evaluation, measurement, data-gathering, validity and reliability, and the dissemination of research results. At least eight hours per week in a community setting required.

880A. Basic Concepts and Issues in Clinical Psychology
Fall. 3(3-0) Clinical majors or approval of department.
Concepts and issues underlying research and professional practice in modern adult clinical psychology. Emphasis on personality development and clinical interventions, such as psychotherapy, behavior therapy, family therapy, and community approaches.

880B. Basic Concepts and Issues in Clinical Psychology
Winter. 3(3-0) PSY 880A, approval of department.
Continuation of PSY 880A.

880C. Basic Concepts and Issues in Clinical Psychology
Spring. 3(3-0) PSY 880B, approval of department.
Continuation of PSY 880B.

885. Vertebrate Neural Systems I
(PSY 885) Winter of odd-numbered years. 3(3-4) ANT 815, ANT 865 recommended. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.
Structure and function of major component systems of vertebrate brains, their evolution, ontogeny and comparative analysis in mammals, birds, reptiles, amphibians and fish. Interrelation of behavioral, anatomical and physiological studies.
Descriptions — Psychology

of Courses

886. Vertebrate Neural Systems II
(216; 888) Spring of odd-numbered years. 5(3-4) ANT 885. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.
pletion of ANT 885. Major component of odd-numbered years. 5(3-4) ANT 885. Interdepartmental with the departments of Anatomy, Physiology, and Zoology. Administered by the Department of Anatomy.

Continuation of ANT 885. May reenroll for a maximum of 16 credits. Approval of department.

May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits or approval of department.

Critical study of a selected area such as roles, communication and persuasion, individual interaction within small and large groups, behavior in relation to norms and interpersonal distances.

890. Special Problems
Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 38 credits. Approval of department.

890. Master's Thesis Research
Fall, Winter, Spring. Variable credit. Approval of department.

895. Seminar in Organization Theory
Winter, 4(4-0) MCT 506; doctoral candidates, master's candidates with approval of department. Interdepartmental with and administered by the Department of Management.

Directed reading and research on issues in contemporary organization theory.

914. Seminar in Advanced General Psychology
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 24 credits. Thirty graduate credits in psychology or approval of department.

Critical study of a selected area such as sensation, perception, motivation, emotions, learning, physiological, comparative, thought and language.

924. Seminar in Measurement
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology.

Critical study of a selected area such as factor analysis, pattern analysis, partial and multiple correlations analysis, psychophysical methods, scaling, reliability and validity, and factorial design.

925. Practicum: Psychological Clinic I
Fall. 2 to 5 credits. Approval of department.

Introduction to clinical evaluation and treatment. Supervised experience in psychodiagnosis and psychotherapy of adults and children in the Psychological Clinic. Primary focus on work with families. Didactic seminar in related theory and research.

930. Practicum: Psychological Clinic II
Winter. 2 to 5 credits. PSY 928. Continuation of PSY 928.

932. Practicum: Psychological Clinic III
Spring. 2 to 5 credits. PSY 930. Continuation of PSY 930.

934. Seminar in Personality
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits with 15 of them in psychology.

Clinical study of a selected area such as theory, research, dynamics, structure, the self and determinants.

936. Attitudes and Personality
Winter. 3(3-0) Thirty graduate credits. Review of research on determinants of attitudes and personality with emphasis on methodology, major theoretical approaches, and research findings.

944. Seminar in Social Psychology
Fall, Winter. 4(4-0) May reenroll in different areas for a maximum of 16 credits. Thirty graduate credits or approval of department.

Critical study of a selected area such as behavioral, anatomical, and physiological studies.

950A. Child and Family Interventions: Dynamic Child Psychotherapy
Fall. 3(3-0) PSY 850C or approval of department.

Dynamic processes underlying therapy with children; methods and techniques; the child's symbolic communications through language, art, and play materials; assessing progress of therapy; review of research.

950B. Child and Family Interventions: Behavioral/Cognitive Therapies
Winter. 3(3-0) PSY 850C or approval of department.

Behavioral/cognitive approaches to interventions with children in family, peer, school, and community contexts; behavioral/cognitive processes, theory, assessment, methods, and research. Underlying behavioral change.

950C. Child and Family Interventions: Family and Community Systems
Spring. 3(3-0) PSY 850C or approval of department.

Family and community systems-based interventions in child, marital, and family problems. Conjoint family therapy, primary prevention and community program interventions.

954. Seminar in Developmental Psychology
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 16 credits in different areas. Thirty graduate credits, 3 of which must be in child psychology.

Critical study of a selected area such as theory, techniques and methods of observation, parental attitudes and practices, intellectual, personal and social development, motivational, emotional, perceptual, and intellectual issues.

961. Personnel Training and Training Evaluation
Winter of even-numbered years. 4(4-0) PSY 860 or approval of instructor.

Theory and research in training and development of personnel at all organization levels. Evaluation of training programs.

962. Psychology of Motivation and Attitudes at Work
Spring of odd-numbered years. 4(4-0) PSY 860 or approval of instructor.

Theoretical approaches to the enhancement of work and life satisfaction. Comparison of approaches to worker motivation. Role of satisfaction in motivation models.

963. Leadership and Managerial Behavior
Spring of even-numbered years. 4(4-0) PSY 980 or approval of instructor.

Role of the leader in effecting individual, group, and organizational performance.

964. Organizational Diagnosis and Change
Winter of odd-numbered years. 4(4-0) PSY 960 or approval of instructor.

Analysis of organizational functioning and the effective introduction, spread, and adoption of change.

969. Seminar in Industrial Psychology
Fall, Winter. 2 to 4 credits. May reenroll for a maximum of 16 credits. Approval of department.

Specialized areas in industrial and organizational psychology.

970. Seminar in Ecological Psychology
Fall, Winter. 4(4-0) May reenroll for a maximum of 12 credits. Approval of department.

Critical study of a contemporary ecological psychology issue such as the psychological aspects of over-crowding, the interpersonal and intrapsychological conflicts created by environmental degradation, and similar current topics.

973. Rorschach Method
Winter. 4(4-0) PSY 832.

History and hypotheses of the method. Review of research. Administration and scoring of the test. Introduction to interpretation.

975. Advanced Practicum: Psychological Clinic
Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 15 credits. PSY 832.

Clinical experience in assuming responsibility for total case integration and interpretation of findings to parents and agencies.

976. Psychopathology: Psychosomatic Theory, Neurons and Psychosomatics
Fall. 3(3-0) PSY 427A, PSY 832.

977. Psychopathology: Psychoses and Developmental Disorders
Winter. 3(3-0) PSY 976.

Behavioral and development disorders such as psychopathology, delinquency, mental deficiencies, selected functional and organic psychotic syndromes: psychosis as distinguished from psychoneurosis; continuity versus discontinuity of normal to abnormal behavior. Research considerations.

979. Counseling and Psychotherapy
Fall, 2(2-2) Approval of department.

Psychotherapy with late adolescents and adults. Various points of view with emphasis on individual and group processes. Client-centered approaches. Techniques for introducing therapeutic movement. Study of tape recordings and research findings.
Practicum: Individal Counseling and Psychotherapy
Winter. 3(3-0) PSY 979 and approval of department.
Detailed study of psychotherapeutic interviews aimed at developing skill as a psychotherapist. Therapeutic and assessment techniques, interview dynamics and psychotherapeutic movement studied by means of verbalization transcriptions, tape recordings, films, role playing, and observation.

Practicum: Counseling and Psychotherapy
Spring. 3(3-0) PSY 980 and approval of department.
Counseling with a variety of clients at the University Counseling Center. Group and individual discussions of problems, processes, counselor-client interaction, and professional ethics.

Advanced Practicum: Counseling and Psychotherapy
Fall, Winter, Spring. 1 to 4 credits. May reenroll for a maximum of 12 credits. PSY 981 and approval of department. Counseling and psychotherapy with a variety of clients of the University Counseling Center.

Seminar in Clinical Psychology (MTC)
Fall, Winter, Spring. 1 to 4 credits. May reenroll in different areas for a maximum of 16 credits. Forty-five graduate credits in psychology. Critical study of a selected area such as theories, diagnosis, projective techniques, psychotherapies, hypnosis, psychopathologies.

Doctoral Dissertation Research
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

PUBLIC AFFAIRS MANAGEMENT
See Agricultural Economics.

RADIOLOGY

College of Human Medicine
College of Osteopathic Medicine

Nuclear Medicine for Medical Technologists
Spring. 3(2-2) PHY 237, PHY 257, MTH 100; Junior or Senior Medical Technology majors.

Fundamentals of X-ray Interpretation
Winter, Spring. 2(2-0) Admission to College of Human Medicine or College of Osteopathic Medicine. Others: approval of department.
Beginning laboratory course in recognition and interpretation of the normal and abnormal X-ray image. Use of X-ray as an alternative diagnostic approach in efficient management of patients.

Decision Analysis in Medicine
Fall, Spring, 2(3-0) Graduate/Professional students or approval of department. Terminology and fundamentals of objective decision analysis; application to problems in diagnosis and treatment. Diagnostic test performance, patient management strategies, utility analysis, cost-effectiveness, patient's role in medical decisions.

Special Problems in Radiology
Fall, Winter, Spring, Summer. 1 to 6 credits. May reenroll for a maximum of 12 credits. PSY 981 and approval of department. Special aspects of radiology and the use of X-rays in the efficient management of patients.

Radiology Clerkship
Fall, Winter, Spring. Summer. 4 to 17 credits. May reenroll for a maximum of 17 credits. H M 692.
Office and hospital based experience to acquaint the student with basic radiological information and develop X-ray interpretation skills.

RELIGIOUS STUDIES

College of Arts and Letters

Elementary Hebrew
Fall. 4(4-0) Interdepartmental with and administered by Hebrew. Introduction to the Hebrew language, with pronunciation and conversation practice, reading and writing, and basic grammatical analysis of biblical and modern Hebrew.
