498H. Honors Thesis

Fall, Winter, Spring. 4 credits. Reenrollment for a total of 12 credits required. Approval of department.

Those preparing an honors thesis will enroll in this course for three consecutive terms in their senior year. They will work on a research project under the direction of a member of the history faculty and will produce an honors thesis.

499. History Workshop

Winter, Spring. 4(4-0) Senior history majors, HST 201 or approval of department. Intensive study of a critical historical episode focusing on documentary evidence leading to the writing of a research essay.

Graduate courses emphasize readings and discussion involving written and oral reports or original research and the writing of research papers. The content of courses with authorized reenrollment provisions in a given field may change from term to term, thus making possible a rich and varied offering in history for the graduate student. Students may enroll in such courses for more than one term or more than one section during the same term, provided that duplication of content does not result. Sheets giving detailed information concerning all graduate courses to be offered during a particular term are available in the History office during the preceding term. Students desiring to enroll in these courses must have the permission of the department.

803. Historiography Fall. 4(4-0)

Readings, discussions and written exercises designed to introduce the beginning graduate student to the problems, methods, and techniques of historical research. Examination of the major approaches to history. Discussion of and practice in the main techniques of historical method, including bibliography, documentation, and literary style. A section of the course will be arranged for the study of European history materials and a section for the study of American history materials.

821. Readings in Seventeenth and Eighteenth Century American History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits. Approval of department.

822. Readings in Nineteenth Century American History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

823. Readings in Twentieth Century American History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

824. Urban Policy in Historical Perspective

Fall. 3(3-0)

Urban policy in United States and other industrial countries since 1930, with attention to intended and unintended consequences for cities

839. African Research

(IDC 838.) Fall, Winter, Spring. 2 to 4 credits. May reenroll for a maximum of 8 credits. Graduate standing or approval of instructor. Interdepartmental with African Languages and the departments of Anthropology, Educational Administration, Geography, Political Science, and Sociology. Administered by the Department of Anthropology.

African-related archival and field research topics and methodologies viewed from perspective of relevant social science and humanistic disciplines associated with the African Studies Center.

848. Readings in English History

Fall, Winter, Spring, 4 credits. May reenroll for a maximum of 40 credits.

852. Readings in Ancient History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

853. Readings in Medieval History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

855. The Industrial Revolution in Europe

Winter of even-numbered years. 3(3-0) EC 318, EC 324. Interdepartmental with and administered by the Department of Economics. The preconditions that led to the momentous changes in agriculture and industry in Europe from 1700-1914.

863. Readings in Early Modern European History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

864. Readings in Recent European History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

867. Readings in Russian History

Fall, Winter, Spring, 4 credits. May reenroll for a maximum of 20 credits.

873. Readings in the History of International Relations

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

894. Readings in African History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

897. Readings in Asian History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

898. Directed Reading

Fall, Winter, Spring, Summer. 2 to 12 credits. May reenroll for a maximum of 16 credits. Craduate students; approval of department. Supervised individual reading on special topics and fields.

899. Master's Thesis Research

Fall, Winter, Spring. Variable credit. Approval of department.

901A. Doctoral Seminar

Fall. 3(3-0) Admission to doctoral program in history.

HST 901A, HST 901B and HST 901C constitute a three-term seminar required of students entering doctoral program. Under guidance of dissertation director and course instructors student will prepare major research paper and submit for criticism by all participants. Grades are given for the three terms at the end of HST 901C.

901B. Doctoral Seminar

Winter. 3(3-0) HST 901A.

Continuation of HST 901A.

901C. Doctoral Seminar

Spring. 3(3-0) HST 901B. Continuation of HST 901B.

999. Doctoral Dissertation Research

Fall, Winter, Spring. Variable credit. Approval of department.

HISTORY OF ART

See Art.

HORTICULTURE

HRT

College of Agriculture and Natural Resources

101. Principles of Horticulture

Fall, Spring. 4(3-2) Not open to students with credit in HRT 201.

Principles of horticultural science and horticultural crop production, as related to fruits, vegetables, flowers and landscape plants.

205. Greenhouse Structures and Crop Production

(418.) Fall. 3(2-2)

Commercial greenhouse operations, structures, equipment and crop production procedures.

208. Greenhouse Cut Flower Production

Fall. 4(3-2)

Commercial production of cut flowers including scheduling, culture practices, equipment, postharvest considerations, and management decisions. One field trip required.

209. Foliage Plants

Winter, 4(3-2)

Identification, culture, propagation, and utilization of common foliage plants with emphasis on species and cultivars used for interior plantscapes.

211. Ornamental Trees and Narrow-leaved Evergreens

Fall. 4(2-4)

Identification, adaptation and evaluation of trees, deciduous shrubs, narrow-leaved evergreens and woody vines. Emphasis is on the asthetic and functional uses of trees and shrubs in the landscape.

212. Ornamental Flowering Shrubs and Broad-leaved Evergreens

Spring. 4(2-4) HRT 211 or approval of instructor.

Identification, adaptation and evaluation of trees, deciduous shrubs, broad-leaved evergreens, woody vines and ground covers. Emphasis is on the flowering characteristics and aesthetic and functional uses of plants in the landscape.

221. Commercial Plant Propagation Winter, 4(3-2) HRT 101.

Principles of plant propagation by seed, cuttage, layerage, and graftage employed by nurseries; use of growth regulators and environmental treatments in plant propagation.

248. Floral Marketing

Winter. 3(2-2) HRT 101 or approval of instructor.

Floral marketing practices including production, wholesale, and retail marketing channels. Field trips required.

Courses

275. Landscape Horticulture Operations

Winter, 3(2-2)

Management aspects of landscape construction and maintenance operations. Emphasis on marketing of services, organization of labor, reporting procedures, horticultural specifications, bidding and project management.

319. Small Fruit Production

(419.) Winter of odd-numbered years. 3(3-0) HRT 101, BOT 205, BOT 301.

Commercial production culture, utilization and physiology of strawberries, grapes, blueberries and raspberries.

320. Tree Fruit Production

Fall. 4(3-2) HRT 101, Juniors.

Commercial production of principle tree fruit crops of Michigan with emphasis on planting, soil management, fertilization, pruning, thinning, and grafting.

325. Ornamental Plant Management

Spring. 4(3-2) HRT 101, HRT 211, HRT 212.

Transplanting and maintenance of landscape plants subject to stresses of urban environment. Development of annual maintenance specifications. Identification and evaluation of herbaceous annuals, biennials and perennials for landscape.

326. Herbaceous Ornamental Plants

Summer. 4(3-3) HRT 101 or BOT 205 or approval of department.

Identification, evaluation, and utilization of annual, biennial, and herbaceous perennial plants for landscape. Includes bulbs, herbs, grasses, ferns, and cultivated plants.

327. Landscape Design: A Horticultural Approach

Spring. 4(3-2) HRT 212 or concur-

rently.

Landscape design techniques. Plant selection and use. Plant and site relationships. Client and designer interaction. Laboratory emphasizes elementary drafting techniques, landscape plan preparation and interpretation.

330. Special Problems

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits. Approval of department.

Individual work on a field, laboratory or library research problem of special interest to the student.

331. Selected Topics (MTC)

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of department.

Selected topics in horticultural science of current interest and importance.

402. Principles of Weed Control for Horticultural Crops

Spring. 4(3-2) CEM 143, BOT 301.

Principles underlying weed control practices for horticultural crops. Weed biology and factors involved in biological, cultural, mechanical and chemical control. Collection of 40 weed species required.

408. Principles of Plant Breeding

Winter. 4(3-2) CSS 350. Interdepartmental with and administered by the Department of Crop and Soil Sciences.

Application of genetics and other sciences to breeding and improvement of agronomic and horticultural crops.

410. Fruit Tree Physiology I

Winter of even-numbered years. 4(4-0) Juniors, BOT 301, HRT 101.

Physiological effects of nutrition, moisture, light, temperature and culture as related to tree fruit crops.

412. Fruit Tree Physiology II

Winter of odd-numbered years. 3(3-0) Juniors, HRT 101, BOT 301.

Physiology of flowering and fruit development in woody plants with special reference to chemical and cultural methods of manipulation.

416. Handling and Storage of Horticultural Crops

Winter of even-numbered years. 4(3-2) Juniors.

Biological principles involving physical movement of fresh products from farm to consumer; physiological processes affecting maturity, quality and condition; selection and use of handling, storage, and transport facilities.

417. Controlled Plant Environment

Fall. 3(3-0) HRT 101, HRT 205 or concurrently, BOT 301 or BOT 414.

Control of greenhouse environment and its effect on growth and production of horticultural crops.

434. Greenhouse Container-Grown Plant Production

Winter. 4(3-2) HRT 205, HRT 417; approval of department.

Flower crop physiology: management of container-grown plant production. One field trip required.

435. Commercial Bedding Plant Production

Spring of odd-numbered years, 4(3-2) HRT 205.

Production and marketing of bedding plants. Includes germination, soils, transplanting, environmental factors, production practices, major species, structures, equipment, systems, problems, economics and marketing. One field trip required.

440. Nursery Management

Fall. 3(2-2) Juniors.

Management practices applied to wholesale nursery production and marketing. One all-day field trip to visit nurseries is required.

452. Warm Season Vegetables

Spring. 4(3-2) HRT 101, BOT 301, CSS

Warm season crops with emphasis on botany, taxonomy, morphology, growth processes, production, harvesting, handling, quality and composition. Field trip required.

456. Cool Season Vegetables

Fall. 4(3-2) HRT 101, BOT 301, CSS

210.

210.

Cool season crops with emphasis on botany, taxonomy, morphology, growth processes, production, harvesting, handling, quality and composition. Field trip required.

460. Tropical Vegetables

Spring of odd-numbered years. 3(3-0) HRT 101 or approval of instructor.

Culture of tropical vegetables in commercial and subsistence cropping systems. Role in human nutrition, income generation and international development.

462. Tropical Fruits and Spices

Spring of even-numbered years. 3(3-0) HRT 101 or approval of instructor.

Culture of tropical fruits and spices in commercial and subsistence cropping systems. Role in human nutrition, income generation and international development.

801. Research Procedures in Plant Science

Winter, 4(3-2) Approval of depart-

ment.

Orderly approach to problems of biological research in relation to basic principles of research.

808. Physiology of Horticultural Crops

Winter of even-numbered years. 4(3-2)

BOT 415.

Physiology of grafting, juvenility, flowering of woody plants, fruiting, senescence, bud and seed dormancy as related to horticultural crops. Emphasis on critical review of literature.

814. Plant Breeding and Genetics Seminar

Winter. 1(1-0) May reenroll for a maximum of 2 credits. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

815. Selected Topics in Plant Breeding and Genetics (MTC)

Fall, Winter, Spring, Summer. 2 to 5 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Selected topics in plant breeding including: hostplant resistance, nutrition and quality, computerized records and data analysis, classical literature and strategies for improving field, horticulture and forestry crops.

816. Special Problems in Plant Breeding and Genetics

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 8 credits. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry.

Students may conduct research in a laboratory, greenhouse or field-plot on a selected subject or study selected published literature under the supervision of a faculty member.

817. Plant Breeding Methods

(HRT 823.) Fall. 3(3-0) STT 422 or concurrently. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Methods, strategies and practices in organization and operation of plant breeding programs. Emphasis on practical application of classical, modern and futuristic approaches to plant breeding.

819. Plant Breeding Systems

(HRT 822.) Winter. 3(3-0) CSS 821, STT 422. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Breeding systems for improvement of self and cross pollinated and of vegetatively propagated crops. The genetic basis for parent selection.

821. Genetic Concepts in Plant Breeding

Fall. 3(3-0) CSS 350 or ZOL 441. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Genetic structure of plant populations, gene action, inbreeding, outbreeding, heterosis, linkage and recombination, genetic architecture of traits, genetic distance.

Post Harvest Physiology 825.

Winter of odd-numbered years. 4(3-2) Biochemical and biophysical changes associated with the maturation, ripening and senescence of harvested horticultural plants.

Special Research Problems

Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 credits. Approval of department.

Selected Topics (MTC)

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of

Selected topics in horticultural science of current interest and importance.

Evolution of Crop Plants

Fall of even-numbered years. 3(3-0) CSS 821 or approval of department. Interde-partmental with the departments of Crop and Soil Sciences, and Forestry.

Cultural and biological aspects of evolution under domestication; origin and diversity of cultivated plants.

Tissue Culture for Plant Breeding

Winter of even-numbered years. 3(2-2) BOT 414, CSS 821. Interdepartmental with the departments of Crop and Soil Sciences, and For-

The application of plant cell, protoplast and tissue culture methodologies and principles to crop improvement.

850. Plant Interactions in Agroecosystems

Winter of odd-numbered years. 3(3-0) BOT 450, BCH 401, CSS 402.

Interactions between plants affecting mortality and plastic responses in horticultural, agronomic, and forest systems, including interference and symbiosis.

Master's Thesis Research

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

940. Theoretical Population Genetics

Winter, 4(4-0) MTH 113, STT 422 or approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department

Discussion of mathematical theories in population genetics and experimental works on natural and laboratory populations.

Quantitative Genetics in Plant 941. Breeding

Spring of even-numbered years. 4(4-0) STT 423, CSS 817 or approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Calculation and implication of genetic paramecalculation and infine atom of generic parameters. Linkage. Coancestry and inbreeding. Covariance between relatives. Heritability and selection. Genotype by environment interaction. Emphasis on relationship of quantitative genetics to plant breeding.

944. Physiological Genetics

Winter of odd-numbered years. 3(3-0) BOT 413; CSS 821. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of For-

Control of variation in higher plants including adaptive physiology, quantitative genetics, growth correlation, biochemical genetics, hybrid physiology, and genecology.

Doctoral Dissertation Research

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

HOTEL, RESTAURANT AND INSTITUTIONAL HRI MANAGEMENT

College of Business and Graduate School of Business Administration

102. Introduction to Hospitality Management

Winter, 4(4-0) Not open to Seniors.

Survey of the sectors, segments and disciplines of the hospitality and tourism industries; of the nature of career opportunities; of the hotel and restaurant management and travel and tourism management curricula.

Hospitality Accounting

Fall, Winter, Spring. 4(4-0) CPS 115; HRI 102; ACC 202.

Principles of accounting, both financial and managerial, applied to hospitality industry enterprises.

Physical Facilities Management

(HRI 335.) Winter. 4(4-0) HRI 102.

Planning and control of building systems in lodging and foodservice operations. Heat, light, power, water, ventilation, sanitation, sound, fraffic; furniture, fixtures, and equipment.

237. Lodging Management Winter. 4(4-0) HRI 102.

Typical departments and logical functions in operation of transient, destination and convention lodging properties.

252. Professional Experience I

Fall, Winter, Spring, Summer. 1 credit. HRI 102 or HRI 261, approval of school. A written report based on the completion of 400 hours of approved professional work experience in the hospitality industry.

261. Dimensions of Tourism

Fall, Winter. Summer of odd-num-bered years. 4(4-0) EC 201 or concurrently; not open to Seniors.

Forces which influence the international and domestic hospitality, leisure, travel and recreation industries. Socio-economic models and measurement of regional impact, demand and supply.

Food Production Standards Spring. 4(4-0) HRI 100, FSC 256.

Standards of food taste, texture, appearance; packaging and presentation; selection, receiving, storage, and preparation; consumer safety and sanitation.

Organizational Behavior in 307. Hospitality Management

Fall, Winter, Spring. 4(4-0) HRI 237, MGT 302.

Relationship between human and other resources, and the management of people. Staffing, defining roles, decision making, communicating, motivating.

337. Hospitality Information Systems

Fall, Winter, Spring. 4(4-0) EC 201, HRI 203, HRI 237.

Traditional and state-of-the-art technology for gathering, storing, disseminating and communi-cating information within the hospitality industrv.

345. Food Production Systems

(HRI 245.) Fall, Winter, Spring, Summer. 4(2-4) HRI 265.

Food handling techniques and strategies. Purchasing, storage and retrieval, preparation, packaging and delivery.

353. Professional Experience II

Fall, Winter, Spring, Summer. 1 credit. HRI 252, approval of school. Must be completed before enrollment for final term of the senior year.

A written report based on the completion of 400 hours of approved professional work experience in the hospitality industry.

Hospitality Marketing 375.

Fall. 4(4-0) HRI 102.

Principles of marketing and their application to hospitality enterprises. The marketing of highly perishable, people intensive intangibles in a highly competitive environment.

Hospitality Industry Finance

Fall, Winter, Spring, Summer. 4(4-0) F I 391, HRI 375, HRI 337.

Strategies for financing hospitality ventures and expansion. Determining the financial viability of proposed and existing operations.

Foodservice Control Systems

Fall, Winter, Spring, Summer. 4(4-0) HRI 245, HRI 337.

Development and evaluation of policy and procedures for planning, organizing, staffing, directing and controlling food and beverage

435. Advanced Foodservice Management

Fall, Winter, Spring, Summer. 4 credits. HRI 375, HRI 405.

Foodservice team projects. Planning, organization, production and service delivery of catered foodservice events.

Beverage Management

(HRI 455B.) Fall. 4(4-0) HRI 245.

Evaluation of beverage alcohol and non-alcohol beverage products with respect to quality, pricevalue perceptions, packaging. Purchasing, storage, preparation and merchandising.

Tourism Management Winter. 4(4-0) HRI 261.

Tourism organizations, functions, and policy determination, tour wholesaling and retail travel agency management. Field trip required.

463. Tourism Distribution Management Fall. 4(4-0) HRI 261.

Component channels of the tourism distribution system. Functional interrelationships of these channels with emphasis on increasing distribu-tion effectiveness. Field trips required.
