822. **Interpersonal Communication**
Winter. 4(4-0)
Current theories and research in interpersonal communication. The role of interpersonal communication in such processes as conflict resolution and information exchange will be considered.

825. **Cross-Cultural Communication**
Fall. 4(4-0)
Role of communication in the economic, social and political development of less developed countries. Problems in communicating across cultural boundaries.

830. **Nonverbal Communication**
Winter. 4(4-0)
A review of theory and empirical research on nonverbal communication. Emphasis on social functions such as impression management, regulation and social influence.

540. **Communication and Small Group Behavior**
Fall. 4(4-0)
Forces by which groups are formed. Role of communication in small group performance, decision making, problem solving, and leadership.

580. **Persuasive Communication**
Spring. 4(4-0)
Use of communication to gain compliance and effect social change. Study of persuasion and attitude change from classical theories to contemporary situations.

870. **Communication and Change: The Diffusion of Ideas and Information**
Winter. 4(4-0)
Research traditions underlying the diffusion of ideas and information, and acceptance of innovation and change. Strategic principles for introduction of change through the use of communication.

880. **Message Behavior, Signs and Communication**
Spring. 4(4-0)
Language and message behavior. The nature of messages, their structure, and the contexts (e.g. dyads, groups, organizations) that promote certain message behaviors.

890. **Special Problems**
Fall, Winter, Spring. 1 to 6 credits. Approval of department.
Special problems as arranged with instructor.

895. **Internship/Practicum**
Fall, Winter, Spring. 1 to 9 credits. May reenroll for a maximum of 8 credits. Approval of department: Master's student in Communication.
Supervised advanced graduate practicums, observations, internships, and externships in various areas of emphasis.

899. **Master's Thesis Research**
Fall, Winter, Spring. Variable credit. Approval of department.

905. **Communication Research Design**
Fall, Winter, Spring. 4(4-0) May reenroll for a maximum of 18 credits.
Methods of data collection and analysis in communication research. Designing exploratory studies of the communication process. Interviewer training and bias. Content analysis of the mass media. Writing and critiquing research reports.

940. **Seminar in Communication Theory and Research**
Fall, Winter, Spring, Summer. 2 to 8 credits. May reenroll for a maximum of 45 credits. Approval of department.
Theoretic and research issues in communication.

990. **Special Problems**
Fall, Winter, Spring, Summer. 1 to 6 credits. Approval of department.

999. **Doctoral Dissertation Research**
Fall, Winter, Spring, Summer. Variable credit. Approval of department.

**COMMUNICATION ARTS AND SCIENCES**

**CAS (COLLEGE OF)**

492. **Special Topics**
Fall, Winter, Spring. 1 to 8 credits. May reenroll for a maximum of 24 credits. Approval of department.
Varied topics pertaining to the study of communication processes.

492. **Special Topics**
Fall, Winter, Spring. 1 to 8 credits. May reenroll for a maximum of 24 credits. Approval of department.
Varied topics pertaining to advanced study of communication processes.

990. **Research Internship**
Fall, Winter, Spring. 1 credit. May reenroll for a maximum of 6 credits. Research practice in association with a designated faculty member.

999. **Doctoral Dissertation Research**
Fall, Winter, Spring, Summer. Variable credit. Approval of department.
Dissertation research for the doctoral program in Mass Media.

**COMMUNITY HEALTH SCIENCE**

**CMS**

512. **Epidemiology and Biostatistics**
Fall. 2 to 5 credits. Admission to a college of medicine or approval of department.
Epidemiology and biostatistics in clinical medicine and health care delivery; Evaluation of medical investigations; Applicability to preventive medicine and health maintenance. Field experiences and seminars in community medicine.

513. **Medical Jurisprudence**
Fall. 2 to 5 credits. Admission to a college of medicine or approval of department.
Basic concepts of the legal process and the health care system. Law suits, malpractice, statutory and case law, insurance and tax considerations. Continuing field experiences and seminars in community medicine.

514. **Topics and Issues in Health Care Delivery**
Fall. 2 to 5 credits. Admission to a college of medicine or approval of department.
Medical economics, health care financing and organization, personnel utilization, resource allocation, health services administration, patterns of medical practice, politics of health care. Continuing field experiences and seminars in community medicine.

518. **Aging: Clinical and Community Perspectives**
Spring. 4(3-1) Medical student or approval of instructor.
Multi-dimensional aspects of aging and their application to long-term, continuing care of the chronically ill older adult.

519. **Health Education in Clinical Settings**
Fall, Winter, Spring. 3(2-3) Approval of instructor.
Application of concepts from social and behavioral sciences to clinical health education through laboratory and classroom experiences including development of a model educational plan for a specific health problem.

521. **Evaluation of Health Services**
Spring. 2 to 4 credits. Approval of instructor. Interdepartmental with the College of Nursing.

522. **Principles of Gerontology for Medical Practice**
Spring. 3(3-0) Admission to a college of medicine or approval of department.
An introductory course relating the biological, psychological and social implications of aging to health care of elderly.

530. **Care of the Elderly**
Fall, Spring. 3(2-2) Student in H M, OST or other clinical program or approval of instructor. Interdepartmental with and administered by the Department of Family Practice.
Case studies of the care of the elderly based on the physician-patient interaction with elderly persons and their families. Family systems applications to health care. Associated clinical experience.

543. **Health and Adaptation of the Elderly**
Fall. 3(3-0) Baccalaureate degree in health science; approval of instructor. Interdepartmental with and administered by the College of Nursing.
Health and adaptation of the aged individual experiencing the normative biopsychologic and psychodevelopmental changes related to the aging process.

590. **Special Problems in Community Medicine**
Fall, Winter, Spring. 1 to 8 credits. May reenroll for a maximum of 32 credits. Approval of department.
Each student will work under direction of a faculty member on an experimental, theoretical or applied problem.

600. **Preventive Medicine and Public Health Clerkship**
Fall, Winter, Spring. 2 to 12 credits. Successful completion of first two years of medical school.
Clinical and community experiences in personal and community health services, environmental health, and other health and medical programs which meet health needs of various population groups.
115. Introduction to Computing
Fall, Winter, Spring, Summer. 4(3-4)
Applications of computers in business, education, government and industry. Introduction to computing systems and programming in BASIC.

124. APL-Computer Programming for Scientists
Fall, Winter, Spring, 3(3-0) LBS 112 or concurrently, Interdepartmental with and administered by Lyman Briggs School.
APL programming; interactive programming techniques; arithmetic, logical, and extended APL operators; functions, applications to current topics in mathematics; principles of operation of time-shared computers.

251. Algorithms and Computing I
Fall, Winter, Spring, Summer. 4(3-3)
MTH 112.
Computer organization and information coding; problem solving, design and analysis of algorithms; programming in a procedure-oriented language; data types, control structures, procedures, arrays, strings.

252. Algorithms and Computing II
Fall, Winter, Spring, 4(3-3) CPS 251, MTH 113.
Algorithms, data types and data structures; simple file processing; sorting, searching and hashing; stacks, queues, trees.

292. Selected Topics
Fall, Winter, Spring, 1(1-3) CPS 251 may not reenroll for a maximum of 4 credits.
Topics selected will in general supplement and enrich existing courses, and lead to the development of new courses.

295. Independent Study
Fall, Winter, Spring, 1(1-3) CPS 304.
May reenroll for a maximum of 4 credits.
Independent undergraduate research in computer science.

301. FORTRAN Laboratory
Fall, Winter, Spring, 3(3-0) CPS 251.
Students may not receive credit in CPS 301 and in CPS 112.
Programming laboratory using FORTRAN.

304. PASCAL Programming
Fall, Summer, 3(3-0) MTH 113, MTH 112.
CPS 251.
Students may not receive credit in CPS 251.
Programming style, problem solving methods, linear data structure, trees. Design and implementation of algorithms in PASCAL.

305. List Processing Languages
Winter, Spring, 3(3-0) CPS 113 or CPS 252.
Development and implementation of computer programs in string and list processing languages. Emphasis upon non-numerical applications. Structure of a simple list processing language. Comparison of list processing languages.

306. COBOL Programming
Spring, 3(3-0) CPS 112 or CPS 115 or CPS 251.
The mechanics of COBOL, a business data processing language, presented with illustrative problems.

311. Machine Organization and Assembly Language Programming
Fall, Winter, Spring, 4(3-3) MTH 214; CPS 252 or CPS 301 or CPS 304. Interdepartmental with the Department of Electrical Engineering.

316. Systems Software Development
Fall, Winter, Spring, 4(3-3) CPS 252, CPS 311.
Software engineering concepts. Design and implementation of systems software components. Assembly, macro and loader processing.

321. Introduction to Discrete Structures
Fall, Winter, Spring, 3(3-0) CPS 252, MTH 214.
Set operations, relations, functions and mapping. Boolean algebra, Boolean matrices, truth tables, minimization. Propositional and predicate calculus, well formed formulas, precedence relations, quantifiers. Applications to computer science.

322. Introduction to Theory of Computing
Fall, Winter, Spring, 3(3-0) CPS 321, MTH 215.
Finite state machines; stack automata; turing machines; language classifications, regular languages and grammars; relationship and conversion between finite state automata and grammars: computability; introduction to recursive functions.

330. Digital Logic Fundamentals
Fall, Winter, Spring, Summer, 4(4-0) CPS 253, Interdepartmental with and administered by the Department of Electrical Engineering.
Boolean algebra, combinational logic and minimization, sequential system fundamentals and components; arithmetic operations and devices; memory devices and ensembles; digital integrated circuits; practical engineering design problems.

333. Algorithms and Data Structures
Fall, Winter, Spring, 4(3-3) CPS 252, CPS 311; CPS 321 or MTH 382.
Analysis of algorithms; abstract data types. Lists, trees, graphs, sets. Classical algorithms including sorting and searching.

400. Organization of Programming Languages
Fall, Spring, 4(4-0) CPS 316, CPS 322, CPS 335.
Specification and implementation of programming languages; data types and control structures, memory management, lexical analysis and parsing; case studies of major programming languages.

412. Computer Communications
Fall, Winter, Spring, 3(3-0) CPS 311; STT 351 or STT 441. Interdepartmental with the Department of Electrical Engineering.
Computer networks; analysis by queueing theory; network design algorithms, routing and flow.
