Descriptions -- History

of

Courses

839. African Research

(IDC 838.) Fall, Winter, Spring. 2 to 4 credits. May reenroll for a maximum of 8 credits. Graduate standing or approval of instructor. Interdepartmental with African Languages and the departments of Anthropology, Educational Administration, Geography, Political Science, and Sociology. Administered by the Department of Anthropology.

African-related archival and field research topics and methodologies viewed from perspective of relevant social science and humanistic disci-plines associated with the African Studies Center.

848. Readings in English History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

Readings in Ancient History 852.

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

Readings in Medieval History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

855. The Industrial Revolution in

Winter of even-numbered years. 3(3-0) EC 318, EC 324. Interdepartmental with and administered by the Department of Economics. The preconditions that led to the momentous changes in agriculture and industry in Europe from 1700-1914.

863. Readings in Early Modern , European History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

864. Topics in Modern European History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

865A. Readings in Modern European History, 1750 to 1850

Fall. 4(4-0)

Major works on significant themes in Modern European history from 1750 to 1850. Topics include the Old Regime, Enlightenment, French Revolution, Napoleonic Era, Industrial Revolution, Liberalism, revolutions of 1848 and Marxism.

865B. Reading in Modern European History, 1850 to World War I Winter, 4(4-0)

Major works on significant themes in modern European history from 1850 to World War I. Topics include nationalism, socialism and labor movements, economic growth, imperialism, World War I and Russian Revolution.

865C. Readings in Modern European History, World War I to the Present

Spring. 4(4-0)

Major works on significant themes in modern European history from World War I to the present. Topics include the Paris Peace Conference, fascism, Stalinism, World War II, emergence of superpowers, rebuilding of Europe, decolonization and European integration.

867. Readings in Russian History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

873. Readings in the History of International Relations

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 20 credits.

894. Readings in African History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

897. Readings in Asian History

Fall, Winter, Spring. 4 credits. May reenroll for a maximum of 40 credits.

Directed Reading 898.

Fall, Winter, Spring, Summer. 2 to 12 credits. May reenroll for a maximum of 16 credits. Graduate students; approval of department. Supervised individual reading on special topics

899. Master's Thesis Research

Fall, Winter, Spring. Variable credit. Approval of department.

901A. Doctoral Seminar

Fall. 3(3-0) Admission to doctoral program in history.

HST 901A, HST 901B and HST 901C constitute a three-term seminar required of students enter-ing doctoral program. Under guidance of disser-tation director and course instructors student will prepare major research paper and submit for criticism by all participants. Grades are given for the three terms at the end of HST 901C.

901B. Doctoral Seminar

Winter. 3(3-0) HST 901A.

Continuation of HST 901A.

901C. Doctoral Seminar

Spring. 3(3-0) HST 901B. Continuation of HST 901B.

999. Doctoral Dissertation Research

Fall, Winter, Spring. Variable credit. Approval of department.

HISTORY OF ART

See Art.

HORTICULTURE

HRT

College of Agriculture and Natural Resources

Principles of Horticulture 101.

Fall, Spring. 4(3-2) Not open to students with credit in HRT 201.

Principles of horticultural science and horticultural crop production, as related to fruits, vegetables, flowers and landscape plants. Approved through Winter 1990.

201. Principles of Horticulture

Spring. 4(3-2) BOT 206 or approval of department.

Principles of horticultural science and production as related to fruits, vegetables, flowers and landscape plants. Relates environmental and physiological factors to plant responses.

Greenhouse Structures and Crop 205. Production

(418.) Fall. 3(2-2)

Commercial greenhouse operations, structures, equipment and crop production procedures.

208. Greenhouse Cut Flower Production

Fall. 4(3-2)

Commercial production of cut flowers including scheduling, culture practices, equipment, post-harvest considerations, and management deci-sions. One field trip required.

209. Foliage Plants

Winter. 4(3-2)

Identification, culture, propagation, and utilization of common foliage plants with emphasis on species and cultivars used for interior plantscapes.

211. Ornamental Trees and Narrow-leaved Evergreens

Fall. 4(2-4)

Identification, adaptation and evaluation of trees, deciduous shrubs, narrow-leaved ever-greens and woody vines. Emphasis is on the asthetic and functional uses of trees and shrubs in the landscape.

Ornamental Flowering Shrubs and 212. Broad-leaved Evergreens

Spring. 4(2-4) HRT 211 or approval of instructor.

Identification, adaptation and evaluation of trees, deciduous shrubs, broad-leaved evergreens, woody vines and ground covers. Emphasis is on the flowering characteristics and aesthetic and functional uses of plants in the landscape.

221. Commercial Plant Propagation

Winter. 4(3-2) HRT 201.

Principles of plant propagation by seed, cuttage, layerage, and graftage employed by nurseries; use of growth regulators and environmental treatments in plant propagation.

242. Basic Floral Design

Fall. 4(2-4)

Principles of floral design and identification, care, and handling of fresh products. Commercial floral design techniques and mechanics, and creation of basic design styles.

248. Floral Marketing

Winter. 3(2-2) HRT 201 or approval of instructor.

Floral marketing practices including production, wholesale, and retail marketing channels. Field trips required.

275. Landscape Horticulture Operations

Winter. 3(2-2)

Management aspects of landscape construction and maintenance operations. Emphasis on marketing of services, organization of labor, reporting procedures, horticultural specifications, bidding and project management.

319. **Small Fruit Production**

Winter of odd-numbered years. 3(3-0) HRT 201, BOT 205, BOT 301.

Commercial production culture, utilization and physiology of strawberries, grapes, blueberries and raspberries

320. Tree Fruit Production

Fall. 4(3-2) HRT 201, Juniors.

Commercial production of principle tree fruit crops of Michigan with emphasis on planting, soil management, fertilization, pruning, thinning, and grafting.

325. Ornamental Plant Management

Spring. 4(3-2) HRT 201, HRT 211, HRT 212.

Transplanting and maintenance of landscape plants subject to stresses of urban environment. Development of annual maintenance specifications. Identification and evaluation of herbaceous annuals, biennials and perennials for landscape.

326. Herbaceous Ornamental Plants

Summer. 4(3-3) BOT 205 or approval of department.

Identification, evaluation, and utilization of annual, biennial, and herbaceous perennial plants for landscape. Includes bulbs, herbs, grasses, ferns, and cultivated plants.

327. Landscape Design: A Horticultural Approach

Spring. 4(3-2) HRT 212 or concur-

rently.

Landscape design techniques. Plant selection and use. Plant and site relationships. Client and

Landscape design techniques. Frank selection and use. Plant and site relationships. Client and designer interaction. Laboratory emphasizes elementary drafting techniques, landscape plan preparation and interpretation.

330. Special Problems

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits. Approval of department.

Individual work on a field, laboratory or library research problem of special interest to the student.

331. Selected Topics (MTC)

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of department.

Selected topics in horticultural science of current interest and importance.

402. Principles of Weed Control for Horticultural Crops

Spring. 4(3-2) CEM 143, BOT 301.

Principles underlying weed control practices for horticultural crops. Weed biology and factors involved in biological, cultural, mechanical and chemical control. Collection of 40 weed species required.

408. Principles of Plant Breeding

Winter. 4(3-2) CSS 350. Interdepartmental with and administered by the Department of Crop and Soil Sciences.

Application of genetics and other sciences to breeding and improvement of agronomic and horticultural crops.

410. Fruit Tree Physiology I

Winter of even-numbered years. 4(4-0) Juniors, BOT 301, HRT 201.

Physiological effects of nutrition, moisture, light, temperature and culture as related to tree fruit crops.

412. Fruit Tree Physiology II

Winter of odd-numbered years. 3(3-0) Juniors, HRT 201, BOT 301.

Physiology of flowering and fruit development in woody plants with special reference to chemical and cultural methods of manipulation.

416. Handling and Storage of Horticultural Crops

Winter of even-numbered years. 4(3-2)

Biological principles involving physical movement of fresh products from farm to consumer; physiological processes affecting maturity, quality and condition; selection and use of handling, storage, and transport facilities.

417. Controlled Plant Environment

Fall. 3(3-0) HRT 205 or concurrently, BOT 301 or BOT 414.

Control of greenhouse environment and its effect on growth and production of horticultural crops.

434. Greenhouse Container-Grown Plant Production

Winter of odd-numbered years. 4(3-2) HRT 205, HRT 417; approval of department.

Flower crop physiology: management of container-grown plant production. One field trip required.

435. Commercial Bedding Plant Production

Spring of odd-numbered years. 4(3-2) HRT 205.

Production and marketing of bedding plants. Includes germination, soils, transplanting, environmental factors, production practices, major species, structures, equipment, systems, problems, economics and marketing. One field trip required.

440. Nursery Management

Fall. 3(2-2) Juniors.

Management practices applied to wholesale nursery production and marketing. One all-day field trip to visit nurseries is required.

451. Plant Molecular Genetics

Spring. 4(2-6) CSS 350 or ZOL 441. Interdepartmental with the departments of Crop and Soil Sciences and Forestry. Administered by the Department of Crop and Soil Sciences.

Principles, concepts, and techniques of plant biotechnology. Recombinant DNA technology, plant molecular biology, transformation, and tissue culture in relation to plant improvement.

452. Warm Season Vegetables

Spring of even-numbered years. 4(3-2) HRT 201, BOT 301, CSS 210.

Warm season crops with emphasis on botany, taxonomy, morphology, growth processes, production, harvesting, handling, quality and composition. Field trip required.

456. Cool Season Vegetables

Fall of odd-numbered years. 4(3-2) HRT 201, BOT 301, CSS 210.

Cool season crops with emphasis on botany, taxonomy, morphology, growth processes, production, harvesting, handling, quality and composition. Field trip required.

460. World Vegetable Crops

Spring of odd-numbered years. 3(3-0) HRT 201 or approval of instructor.

Role and importance of vegetables in human nutrition, income generation and international development. Unique cultural and climatic requirements for production and marketing of vegetables in commercial and subsistence cropping systems.

462. Tropical Fruits and Spices

Spring of even-numbered years. 3(3-0) HRT 201 or approval of instructor.

Culture of tropical fruits and spices in commercial and subsistence cropping systems. Role in human nutrition, income generation and international development.

801. Research Procedures in Plant Science

Winter. 4(3-2) Approval of depart-

ment.

Orderly approach to problems of biological research in relation to basic principles of research.

808. Physiology of Horticultural Crops

Winter of even-numbered years. 4(3-2)

BOT 415.

Physiology of grafting, juvenility, flowering of woody plants, fruiting, senescence, bud and seed dormancy as related to horticultural crops. Emphasis on critical review of literature.

814. Plant Breeding and Genetics Seminar

Winter. 1(1-0) May reenroll for a maximum of 2 credits. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

815. Selected Topics in Plant Breeding and Genetics (MTC)

Fall, Winter, Spring, Summer. 2 to 5 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Selected topics in plant breeding including: hostplant resistance, nutrition and quality, computerized records and data analysis, classical literature and strategies for improving field, horticulture and forestry crops.

816. Special Problems in Plant Breeding and Genetics

Fall, Winter, Spring, Summer. 1 to 3 credits. May reenroll for a maximum of 8 credits. Approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry.

Students may conduct research in a laboratory, greenhouse or field-plot on a selected subject or study selected published literature under the supervision of a faculty member.

817. Plant Breeding Methods

(HRT 823.) Fall. 3(3-0) STT 422 or concurrently. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Methods, strategies and practices in organization and operation of plant breeding programs. Emphasis on practical application of classical, modern and futuristic approaches to plant breeding.

819. Plant Breeding Systems

(HRT 822.) Winter. 3(3-0) CSS 821, STT 422. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Breeding systems for improvement of self and cross pollinated and of vegetatively propagated crops. The genetic basis for parent selection.

Courses

821. Genetic Concepts in Plant Breeding

Fall. 3(3-0) CSS 350 or ZOL 441. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Crop and Soil Sciences.

Genetic structure of plant populations, gene action, inbreeding, outbreeding, heterosis, linkage and recombination, genetic architecture of traits, genetic distance.

825. Post Harvest Physiology

Winter of odd-numbered years. 4(3-2) Biochemical and biophysical changes associated with the maturation, ripening and senescence of harvested horticultural plants.

Special Research Problems

Fall, Winter, Spring, Summer. 1 to 12 credits. May reenroll for a maximum of 12 cred-its. Approval of department.

Selected Topics (MTC)

Fall, Winter, Spring, Summer. 1 to 4 credits. May reenroll for a maximum of 12 credits if different topics are taken. Approval of department.

Selected topics in horticultural science of current interest and importance.

836. **Evolution of Crop Plants**

Fall of even-numbered years. 3(3-0) CSS 821 or approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry.

Cultural and biological aspects of evolution under domestication; origin and diversity of cultivated plants.

Tissue Culture for Plant Breeding

Winter of even-numbered years. 3(2-2) BOT 414, CSS 821. Interdepartmental with the departments of Crop and Soil Sciences, and For-

The application of plant cell, protoplast and tissue culture methodologies and principles to crop improvement.

850.Plant Interactions in Agroecosystems

Winter of odd-numbered years. 3(3-0) BOT 450, BCH 401, CSS 402.

Interactions between plants affecting mortality and plastic responses in horticultural, agronomic, and forest systems, including interference and symbiosis.

853. Plant Mineral Nutrition

Winter of odd-numbered years. 4(4-0) BOT 301, CSS 430 or approval of department. Interdepartmental with and administered by the Department of Crop and Soil Sciences.

Principles of mineral transport in plant cells and tissues. Plant responses to and diagnosis of mineral stresses. Physiological roles of mineral nutrients as related to plant growth and productivity.

899. Master's Thesis Research

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

940. **Theoretical Population Genetics**

Winter. 4(4-0) MTH 113, STT 422 or approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Administered by the Department of Forestry.

Discussion of mathematical theories in population genetics and experimental works on natural and laboratory populations.

941. Quantitative Genetics in Plant Breeding

Spring of even-numbered years. 4(4-0) STT 423, CSS 817 or approval of department. Interdepartmental with the departments of Crop and Soil Sciences, and Forestry. Adminis-tered by the Department of Crop and Soil Sci-

Calculation and implication of genetic parameters. Linkage. Coancestry and inbreeding. Covariance between relatives. Heritability and selection. Genotype by environment interac-tion. Emphasis on relationship of quantitative genetics to plant breeding.

944. Physiological Genetics

Winter of odd-numbered years. 3(3-0) BOT 413; CSS 821. Interdepartmental with the departments of Crop and Soil Sciences, and For-estry. Administered by the Department of For-

Control of variation in higher plants including adaptive physiology, quantitative genetics, growth correlation, biochemical genetics, hybrid physiology, and genecology.

Doctoral Dissertation Research 999.

Fall, Winter, Spring, Summer. Variable credit. Approval of department.

HOTEL, RESTAURANT AND INSTITUTIONAL MANAGEMENT HRI

College of Business and Graduate School of Business Administration

102. Introduction to Hospitality Management

Winter. 4(4-0) Not open to Seniors.

Survey of the sectors, segments and disciplines of the hospitality and tourism industries; of the nature of career opportunities; of the hotel and restaurant management and travel and tourism management curricula.

Hospitality Accounting 203.

Fall, Winter, Spring. 4(4-0) CPS 115; HRI 102; ACC 202.

Principles of accounting, both financial and managerial, applied to hospitality industry enterprises.

235. Physical Facilities Management

(HRI 335.) Winter. 4(4-0) HRI 102.

Planning and control of building systems in lodging and foodservice operations. Heat, light, power, water, ventilation, sanitation, sound, traffic; furniture, fixtures, and equipment.

237. Lodging Management

Winter. 4(4-0) HRI 102.

Typical departments and logical functions in operation of transient, destination and convention lodging properties.

Professional Experience I

Fall, Winter, Spring, Summer. 1 credit. HRI 102 or HRI 261, approval of school. A written report based on the completion of 400 hours of approved professional work experience in the hospitality industry.

261. Dimensions of Tourism

Fall, Winter. Summer of odd-numbered years. 4(4-0) EC 201 or concurrently; not open to Seniors.

Forces which influence the international and domestic hospitality, leisure, travel and recreation industries. Socio-economic models and measurement of regional impact, demand and supply.

265. Food Production Standards Winter. 4(4-0) HNF 100, FSC 256.

Standards of food taste, texture, appearance;

packaging and presentation; selection, receiving, storage, and preparation; consumer safety and sanitation.

307. Organizational Behavior in Hospitality Management

Fall, Winter, Spring. 4(4-0) HRI 237, MGT 302

Relationship between human and other resources, and the management of people. Staffing, defining roles, decision making, communicating, motivating.

337. Hospitality Information Systems

Fall, Winter, Spring. 4(4-0) EC 201, HRI 203, HRI 237.

Traditional and state-of-the-art technology for gathering, storing, disseminating and communicating information within the hospitality indus-

Food Production Systems 345.

(HRI 245.) Fall, Winter, Spring, Sumтет. 4(2-4) HRI 265.

Food handling techniques and strategies. Purchasing, storage and retrieval, preparation, packaging and delivery.

Professional Experience II

Fall, Winter, Spring, Summer. 1 credit. HRI 252, approval of school. Must be completed before enrollment for final term of the senior year

A written report based on the completion of 400 hours of approved professional work experience in the hospitality industry.

375. Hospitality Marketing Fall. 4(4-0) HRI 102.

Principles of marketing and their application to hospitality enterprises. The marketing of highly perishable, people intensive intangibles in a highly competitive environment.

392. Hospitality Industry Finance

Fall, Winter, Spring, Summer. 4(4-0) F I 391, HRI 375, HRI 337.

Strategies for financing hospitality ventures and expansion. Determining the financial viability of proposed and existing operations.

Foodservice Control Systems

Fall, Winter, Spring, Summer. 4(4-0) HRI 337, HRI 345.

Development and evaluation of policy and procedures for planning, organizing, staffing, directing and controlling food and beverage operations.

Advanced Foodservice Management

Fall, Winter, Spring, Summer. 4 credits. HRI 375, HRI 405.

Foodservice team projects. Planning, organization, production and service delivery of catered foodservice events.
