Agricultural Technology and Systems Management–ATM

AGRICULTURAL TECHNOLOGY AND SYSTEMS MANAGEMENT

Department of Agricultural Engineering
College of Agriculture and Natural Resources
College of Engineering

150 Metal Fabrication Technology
Fall, 2(1-2) R: Open only to students in the Biosystems Engineering or Building Construction Management major.
Physical principles and safety techniques for electric and gas welding. Soldering, brazing, cutting, tool use, machine shop equipment use, and hot and cold metalworking.

195 National Electrical Code Review
Fall. 3(3-0) P:NM: (AE 094 or BCM 230) SA: AE 095
Electrical installation problems. Principles of and compliance with the National Electrical Code.

240 Machine Systems and Management
Spring. 3(2-2) P: (CSE 101 or CSE 131 or AT 090)
Principles, analysis, performance, operation, and management of agricultural machines.

252 Gasoline and Diesel Engine Technology
Fall. 3(2-2)
Operating principles of gasoline and diesel engines and their systems. Operation and maintenance requirements.

254 Fluid Power Technology
Spring. 2(2-2) R: Open only to students in Agriculture and Natural Resources.
Fluid power in mobile equipment. Operation and characteristics of system components and circuits. Component disassembly. System testing and diagnosis. Offered first ten weeks of semester.

261 Principles of Animal Environments
Spring. 2(1-2) Interdepartmental with Animal Science. SA: AE 061; ATM 326

431 Irrigation, Drainage and Erosion Control Systems
Fall. 3(2-2) P:NM: (MTH 116 and CSS 210) R: Not open to freshmen or sophomores.
Principles of soil and water conservation engineering including: land and soil surveying, basic hydraulics, hydrology, soil moisture, and soil and water conservation practices with applications to irrigation, drainage and erosion control systems.

490 Independent Study
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 8 credits in all enrollments for this course. P:NM: ATM 240 or BCM 311. R: Open only to majors in Agricultural Technology and Systems Management. Approval of department; application required.
Supervised individual student research and study in agricultural technology and systems management.

890 Special Problems
Fall, Spring. Summer. 1 to 4 credits. A student may earn a maximum of 4 credits in all enrollments for this course. R: Approval of department.
Individual study of selected topics.

899 Master’s Thesis Research
Fall, Spring. Summer. 1 to 10 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to master’s students in Agricultural Technology and Systems Management. Masters thesis research.

999 Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to Ph.D. students in Agricultural Technology and Systems Management. Doctoral dissertation research.

AGRICULTURE AND NATURAL RESOURCES

College of Agriculture and Natural Resources

101 Preview of Science
Fall. 1(1-0) Interdepartmental with Natural Science; Engineering; Social Science. Administered by Natural Science. R: Approval of college.

110 New Student Seminar: Issues and Ideas in Agriculture and Natural Resources
Fall. 1(0-2) R: Open only to freshmen or sophomores or juniors in the College of Agriculture and Natural Resources.
Issues in agriculture and natural resources. Personal and professional development through discussion and interactive experiences.

192 Environmental Issues Seminar
Fall, Spring. 1(1-0) A student may earn a maximum of 4 credits in all enrollments for this course. Interdepartmental with Natural Science; Engineering; Social Science; Communication Arts and Sciences. Administered by Natural Science. R: Open only to students in the College of Agriculture and Natural Resources or College of Engineering or College of Natural Science or College of Communication Arts and Sciences or College of Social Science. Approval of college. R: Approval of college; application required.
Environmental issues problems explored from a variety of perspectives, including legal, scientific, historical, political, socio-economic, and technical points of view.

202 Michigan’s Agricultural and Natural Resources Heritage
Fall. 2(2-0) Interdepartmental with ANR Education and Communication Systems. P:M: Completion of Tier I writing requirement.
Michigan’s historical agricultural and natural resources. Orientation to sources for research and learning. Self-directed study integrating agricultural and natural resources heritage to family, community and careers.

210 Pathways in Connected Learning
Fall, Spring. 3(3-0) R: Approval of college. Active, self-directed, and reflective learning associated with agriculture and natural resource issues, self and social development, and ethical choice making. Development of a learning plan and design of a learning portfolio. Individual and group presentations.

289 Civilizations, Food Crops and the Environment
Fall, Spring. 3(3-0) Interdepartmental with Crop and Soil Sciences. SA: AE 094
Role of the major food crops in the survival of civilizations and cultures from the past to the present, and the resulting environmental impacts.

310 Connected Learning Seminar I
Fall, Spring. 3(3-0) P:M: (ANR 210)
Learner-directed critical analysis of contemporary issues in agriculture and natural resources. Communication of outcomes to professional communities. Collaborative learning integrated with individual experiences.

311 Connected Learning Seminar II
Fall, Spring. Summer. 1 to 3 credits. A student may earn a maximum of 3 credits in all enrollments for this course. P:M: (ANR 310)
Advanced analysis and presentation of contemporary issues in agriculture and natural resources.

392 Agriculture and Natural Resources Seminar
Spring. 1(2-0) R: Not open to freshmen or sophomores.
Current agricultural, natural resources and environmental problems and solutions. Discussion leaders from various disciplines.

410 Connected Learning Transitions
Fall, Spring. 3(3-0) P:NM: (ANR 310)
Synthesis and analysis of structured experiences in agriculture and natural resources. Personal and interpersonal development, personal and professional integrity, communication competence, and critical and reflective thinking.

475 International Studies in Agriculture and Natural Resources
Fall, Spring. Summer. 2 to 6 credits. Fall: Given at various off campus sites. Spring: Given at various off campus sites. Summer: Given at various off campus sites. A student may earn a maximum of 6 credits in all enrollments for this course. R: Approval of college; application required.
Study-travel experience emphasizing contemporary problems affecting agriculture and natural resources in the world, national and local communities. Case studies and interviews with officials, community leaders and leading professionals.
