813 Seminar in Urban and Economic Geography
Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. P:N:M: Two of GEO 413, GEO 414, GEO 415, GEO 416, GEO 417, GEO 418. Review of research on selected topics in urban and economic geography.

814 Applied Research Methods for Planning and Development
Spring. 3(2-2) Interdepartmental with Urban Planning. Administered by Department of Geography. P:N:M: (UP 813) R: Open only to graduate students in Urban and Regional Planning, Public Administration, and Geography. Techniques in urban and regional planning analysis. Forecasting models. Methods of urban project evaluation.

819 Spatial Epidemiology and Medical Geography
Summer of even years. 3(3-0) Interdepartmental with Epidemiology, Administered by Epidemiology. P:N:M: (EPI 810) R: Open only to master's students in the Epidemiology major or approval of department. SA: HM 819 Concepts, techniques, and utilization of spatio-epidemiologic analyses for human health.

823 Map Automation
Fall of even years. 3(2-2) Use of computers in cartography. Cartographic algorithms, interpolation, and line generalization. Program intelligence. Cartographic data bases.

825 Geoprocessing
Fall of odd years. 4(4-0) Integration of digital remote sensing data, geographic information systems, spatial analysis, and expert systems in solving research problems. Class research project.

826 Seminar in Cartography and Geoprocessing
Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. Review of research in cartography, geographic information systems, and remote sensing.

832 Environmental and Natural Resource Law
Fall. 3(3-0) Interdepartmental with Resource Development; Agricultural Economics; Crop and Soil Sciences; Forestry. Administered by Department of Resource Development. P:N:M: (RD 430) Origin and development of environmental law. Theories of power, jurisdiction, sovereignty, property interests, pollution, and other bases for legal controls of natural resources. Common law and constitutional limitations on governmental power.

835 Biogeography
Spring of odd years. 3(3-0) Interdepartmental with Fisheries and Wildlife; Zoology; Botany and Plant Pathology. Administered by Department of Fisheries and Wildlife. RB: Courses in evolution and ecology at undergraduate level. Geographical distributions of plants and animals; biogeographic realms. Ecological and evolutionary mechanisms determining distributional patterns. Application of biogeography to conservation problems.

850 Seminar in Regional Geography
Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. Review of research on contemporary geographic issues in different world regions.

854 Economics of Planning and Development
Spring. 3(3-0) Interdepartmental with Urban Planning. Administered by Department of Geography. P:N:M: (UP 801) The physical urban environment and local economic development.

865 Advanced Quantitative Methods in Geography

867 Methods and Modeling in Regional Science
Spring of even years. 3(3-0) Interdepartmental with Resource Development; Urban Planning. P:N:M: (EC 820 and GEO 865) and (GEO 415 or RD 461) Techniques for regional research: economic base analysis, input-output analysis, mathematical programming, and econometric and simulation analysis.

886 Research Design in Geography
Spring. 3(3-0) Research and writing in geography. Identification of geographic problems and their relative importance. Structuring and stating hypotheses. Data acquisition and tests for validity.

900 Advanced Readings in Geography
Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. Advanced independent readings.

901 Advanced Research in Geography
Fall, Spring. Spring. 3(3-0) A student may earn a maximum of 12 credits in all enrollments for this course. R: Open only to graduate students in Geography. Advanced independent research.

914 Theory and Methods in Geography
Spring. 3(3-0) R: Open only to Ph.D. students in Geography. Historical development of the discipline within social and intellectual contexts. Current methodological and philosophical approaches to geographic research.

999 Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 36 credits in all enrollments for this course. Doctoral dissertation research.

GEOLOGICAL SCIENCES

201 The Dynamic Earth
Fall, Spring. 4(3-2) Not open to students with credit in GLG 301. Physical and chemical processes related to the past, present and future behavior of the earth system, and the energy systems that drive these processes. A study of the earth's materials, the earth's surface and the earth's interior.

302 Geography of Michigan
Spring. 3(3-0) P:M: (GLG 201 or GLG 301 or ISP 203) Integration of the geological evolution of Michigan with its social and economic development.

303 Oceanography
Fall. 4(4-0) P:N:M: (CEN 141 or CEM 142 or CEM 151 or CEM 152 or CEM 181H or CEM 182H or LBS 165) and (PHY 183 or PHY 183B or PHY 193H or PHY 231B or PHY 231C or LBS 164) Physical, chemical, biological, and geological aspects of oceanography: ocean circulation, waves, tides, air-sea interactions, chemical properties of ocean water, ocean productivity, shoreline processes, and sediments.

306 Environmental Geomorphology
Spring. 3(3-0) Interdepartmental with Geography. Administered by Department of Geography. P:N:M: (CSS 210 or GEO 203 or GEO 206 or GEO 330 or GEO 333 or GEO 259 or GLG 201 or GLG 304 or ISP 201 or ISP 203 or IIS 310 or RD 201) and completion of Tier I writing requirement. Relationships of running water, weathering, gravity, ice, waves, wind, and biota (including humans) to terrain and soils. Evolution of landscapes. Classical and modern interpretations.

319 Introduction to Earth System Science
Fall. 3(3-0) Interdepartmental with Entomology; Botany and Plant Pathology; Zoology; Sociology. Administered by Department of Entomology. RB: Completion of one course in biological or physical science. Systems approach to Earth as an integration of geochemical, geophysical, biological and social components. Global dynamics at a variety of spatial-temporal scales. Sustainability of the Earth system.
321 Mineralogy and Geochemistry
Spring. 4(3-2) P.M: (GLG 201 or concurrently) and (CEM 141 or CEM 152 or CEM 182H or LBS 172) and (MTH 124 or MTH 132 or LBS 118) Geochronological processes and properties in the origin, modification, structure, dynamics and history of earth materials. Crystallography and crystal chemistry. Mineral classification and identification.

335 Plants Through Time
Spring of odd years. 3(3-0) Interdepartmental with Botany and Plant Pathology. Administered by Department of Botany and Plant Pathology. P.M: (BS 110 or BOT 105 or GLG 201 or LBS 144 or LBS 148H) R: Open only to juniors or seniors. Evolutionary history of plants, development of ecosystems, and use of plant fossils in the reconstruction of ancient environments and climate.

351 Structural Geology
Fall. 4(3-2) P.M: (GLG 304 and GLG 361 or concurrently) and (MTH 110 or MTH 116 or LBS 117 or MTH 124 or MTH 126 MTH 132 or MTH 133 or LBS 118 or LBS 119) RB: Introductory physics. Mechanical behavior and kinematic history of the lithosphere. Stress and strain. Deformation features such as folds, faults and microstructure. Methods of analysis and interpretation. One weekend field trip required.

361 Petrology (W)
Fall. 4(3-2) P.M: (GLG 321) and completion of Tier I writing requirement. SA: GLG 461 Evolution, origin, occurrence and tectonic setting of igneous and metamorphic rocks. Phase relations of igneous and metamorphic systems. Studies of rocks in thin sections.

401 Plate Tectonics (W)
Spring. 4(3-2) P.M: (GLG 304) and (MTH 114 or MTH 116 or MTH 117 or MTH 124 or MTH 126 or MTH 132 or MTH 133 or LBS 118 or LBS 119 or PHY 182 or PHY 183B or PHY 231B or PHY 231C or PHY 231D or LBS 271) and completion of Tier I writing requirement. R: Not open to graduate students in the Department of Geological Sciences. SA: GLG 371 Geophysical methods of studying the structure and dynamics of the earth and planets. Plate kinematics and global geodynamic processes, plate margin processes and evolution, marine geology.

411 Hydrogeology
Fall. 4(3-2) P.M: (MTH 114 or MTH 116 or LBS 117 or MTH 124 or MTH 126 or MTH 132 or MTH 133 or LBS 118 or LBS 119) R: Not open to freshmen or sophomores. Source, occurrence, and movement of groundwater emphasizing geologic factors and controls.

412 Glacial and Quaternary Geology
Spring. 4(3-2) Interdepartmental with Geography. P.M: (GLG 201 or GLG 301 or GEO 306 or GEO 408) R: Not open to freshmen or sophomores. Glacial and Quaternary geology with emphasis on North America and Europe. Laboratory focuses on glacial processes. One weekend field trip required.
Seminar in Geophysics and Geodynamics
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P:NM: (GLG 411 or GLG 470 or GLG 471) R: Open only to graduate students in the Department of Geological Sciences.

Seminar in Hydrogeology
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P:NM: (GLG 411 or GLG 421) R: Open only to graduate students in the Department of Geological Sciences.

Seminar in Paleogeography
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P:NM: (GLG 411 or GLG 421) R: Open only to graduate students in the Department of Geological Sciences.

Seminar in Petrology
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P:NM: (GLG 411 or GLG 421) R: Open only to graduate students in the Department of Geological Sciences.

Seminar in Sedimentology and Stratigraphy
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P:NM: (GLG 361) R: Open only to graduate students in the Department of Geological Sciences.

Seminar in Structural Geology and Tectonics
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate students in Geological Sciences.

Advanced Hydrogeology
Spring. 3(3-0) Interdepartmental with Civil Engineering. P:NM: (EC 821)
Processes influencing groundwater flow and solute transport. Mathematical equations and numerical methods to describe these processes.

Aqueous Geochemistry
Fall of odd years. 3(2-2) P:NM: (EC 481 or CEM 383 or CSS 455 or FW 472 or GLG 421 or GLG 422) R: Open only to graduate students.
Controls on the chemical and isotopic nature of water (fresh, marine, brine) and its solutes. Data acquisition and synt hesis. Chemical modeling and evolution of water masses.

Analytical Applications for Biogeochemical Research
Fall of even years. 3(3-0) P:NM: 12 credits in biological science, biochemistry, or chemistry; 6 credits in geological sciences.

Isotope Geochemistry
Spring of even years. 3(3-0) P:NM: (CEM 151 and CEM 152 and PHY 183 and PHY 184) or (PHY 231 and PHY 232) R: Open only to graduate students.
Fundamentals of isotope behavior, fractionation, and interpretation and application of isotope data. Radiogenic isotopes including geochronology and environmental tracing.

Stable Isotope Biogeochemistry
Spring. 2(1-2) RB: (CEM 142 or CEM 152 or CEM 182H or LBS 171) Principles of stable isotope chemistry applied to biogeochemical problems: climate change, ecology, contaminants, oceanography, limnology, and paleobiology.

Clay Mineralogy and Soils Genesis
Spring of even years. 4(3-2) Interdepartmental with Crop and Soil Sciences. Administered by Department of Crop and Soil Sciences. R: Open only to graduate students in College of Agriculture and Natural Resources, College of Engineering, or College of Natural Science.
Mineral structures. X-ray diffraction, pedogenic processes, and mineral transformations and stability.

Quantitative Paleobiology
Spring of even years. 3(2-2) Interdepartmental with Zoology. P:NM: (GLG 431 or ZOL 345) Analysis of paleobiological problems using quantitative techniques such as cladistics, morphometrics, ordination, and stereology.

Evolution of the Crust and Mantle
Spring of odd years. 3(3-0) P:NM: (GLG 361) R: Open only to graduate students. Origin and evolution of the Earth's crust and mantle. Petrology, tectonics and geophysics of the Earth.

Igneous Petrology
Spring of even years. 4(3-2) P:NM: (GLG 361) R: Open only to graduate students. Origin and evolution of magmatic systems. Relationship of igneous activity to tectonic setting.

Mineral-Water Interactions
Spring of odd years. 4(3-2) Interdepartmental with Crop and Soil Sciences. R: Open only to graduate students in Crop and Soil Sciences or Geological Sciences or Geography.
Mineralogy, petrology and geochemistry of fluid-rock reactions in geologic, sedimentary and geochemical cycles. Rock and mineral weathering, soil formation, genesis and burial diagenesis of sediments and sedimentary rocks, and metamorphism.

Seisimology and Geodynamics (MTC)
Fall of even years. Spring of even years. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. P:NM: (MTH 234 and PHY 184) Seismological theory, earthquakes. Quantitative modeling of the applications to Earth structure, seismic source mechanisms and geodynamics. Behavior and deformation of the lithosphere.

Origin of sedimentary particles and their chemical and physical alterations after deposition. Geochemical cycles in Earth history.

Basin Analysis
Spring of even years. 3(3-0) P:NM: (GLG 351 and GLG 431) Paleostratigraphic evolution of sedimentary basins. Principles of facies analysis, subsidence history, thermal history and diagenesis. Methods of stratigraphic analysis.

Special Problems in Geochimistry
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students in Geochimistry. Approval of department. Individual study on problems in geochimistry, including aqueous, biologic, and mineralogic aspects.

Special Problems in Geophysics and Geodynamics
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P:NM: (GLG 401 or GLG 470 or GLG 471) R: Open only to graduate students in Geophysical Sciences. Approval of department. Individual study on problems in applied and solid-earth geophysics, global and regional geodynamics, and polar earth sciences.

Special Problems in Hydrogeology
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students in Geophysical Sciences. Approval of department. Individual study on the movement, occurrence and composition of groundwater in geologic environments.

Special Problems in Paleobiology
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students in Geophysical Sciences. Approval of department. Individual study on invertebrate, vertebrate and plant paleobiology.

Special Problems in Petrology
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P:NM: (GLG 361) R: Open only to graduate students in the Department of Geological Sciences. Approval of department. Individual study on current problems in petrology.
Geological Sciences–GLG

896 Special Problems in Sedimentology and Stratigraphy
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students in the Department of Geological Sciences. Approval of department.
Individual study on problems in sedimentology and stratigraphy.

897 Special Problems in Structural Geology and Tectonics
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P.N.M.: (GLG 351) R: Open only to graduate students in the Department of Geological Sciences. Approval of department.
Individual study on rock deformation or major expressions of deformation. From two to seven weeks of field study during semester breaks may be required for certain research projects.

898 Special Problems in Environmental Geosciences
Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students in the Department of Geological Sciences. Approval of department.
Individual study on problems in environmental geosciences.

999 Master's Thesis Research
Fall, Spring, Summer. 1 to 10 credits. A student may earn a maximum of 24 credits in all enrollments for this course. R: Open only to master's students in the Department of Geological Sciences. Approval of department.
Master's thesis research.

999 Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 46 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to doctoral students in the Department of Geological Sciences. Approval of department.
Doctoral dissertation research.

GERMAN

Department of Linguistics and Germanic, Slavic, Asian and African Languages
College of Arts and Letters

101 Elementary German I
Fall, Spring, Summer. 4(4-1) R: No previous experience in German or designated score on German Placement Test. Not open to students with credit in GRM 150. German language, civilization, and culture for beginning students. Work on all language skills with emphasis on speaking.

102 Elementary German II
Fall, Spring, Summer. 4(4-1) P.M.: (GRM 101) or designated score on German placement test. Not open to students with credit in GRM 150. Further study of German language, civilization, and culture for beginning students. Continued work on all language skills with emphasis on speaking.

103 Self-Paced Elementary German I
Fall, Spring, Summer. 2 to 4 credits. A student may earn a maximum of 4 credits in all enrollments for this course. R: Some German coursework in High School. Not open to students with credit in GRM 101. Self-paced introduction to German language, civilization and culture including web-based activities.

104 Self-Paced Elementary German II
Fall, Spring, Summer. 2 to 4 credits. A student may earn a maximum of 4 credits in all enrollments for this course. P.M.: (GRM 101 or GRM 103) or designated score on German placement test. R: Some German coursework in High School. Not open to students with credit in GRM 102. Further self-paced study of German language, civilization and culture for beginning students including web-based activities.

150 Review of Elementary German
Fall, Spring. 4(4-1) P.M.: Designated score on German placement test. P.N.M.: Open only to students with high school credit in German. Not open to students with credit in GRM 101 or GRM 102. Review of first-year college German br students who had German in high school and who need to strengthen communication skills, vocabulary, grammar and pronunciation before study at the 200 level.

200 Second-Year German I with Review
Fall, Spring. 4(4-1) P.M.: (GRM 102) or designated score on German placement test. Not open to students with credit in GRM 102 or GRM 201. Rapid review and strengthening of vocabulary, grammar, and communication skills for incoming freshmen and transfer students. Reading, viewing, and discussion of a broad range of cultural texts and materials from the German-speaking world.

201 Second-Year German I
Fall, Spring, 4(4-0) P.M.: (GRM 102) or designated score on German placement test. Not open to students with credit in GRM 200. Intermediate-level development of all language skills. Reading, viewing, and discussion of a broad range of cultural materials from the German-speaking world.

202 Second-Year German II
Fall, Spring, 4(4-0) P.M.: (GRM 201) or designated score on German placement test. Further intermediate-level work on all language skills, based on topics such as popular music, literature, film, current events, and culture. Transition course to advanced German in studies.

290 Independent Study
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 8 credits in all enrollments for this course. R: Approval of department. Special projects arranged by an individual student and a faculty member in areas supplementing regular course offerings.

301 Advanced German Language and Culture I
Fall, Spring, 3(3-0) P.M.: (GRM 202) or designated score on German placement test. Work on advanced speaking, listening comprehension, reading, and writing skills through intensive work with authentic texts dealing with contemporary issues relating to the German-speaking world. Selected review of grammar and syntax.

302 Advanced German Language and Culture II
Fall, Spring. 3(3-0) P.M.: (GRM 301) Further work on advanced speaking, listening comprehension, reading and writing skills, through intensive work with original texts dealing with contemporary issues relating to the German-speaking world.

311 Advanced German: Business Emphasis I
Fall, Spring. 3(3-0) P.M.: (GRM 202) or designated score on German placement test. R: Not open to freshmen. Development of proficiency through readings, discussions, and assignments based on materials dealing with the German economic system and Germany in world trade. Taught in German.

312 Advanced German: Business Emphasis II
Spring. 3(3-0) P.M.: (GRM 311) R: Not open to freshmen. Further readings, discussions, and assignments based on materials dealing with key areas of German business such as management and corporate hierarchies. Taught in German. Research paper required.

340 German Life and Literature: Contemporary Period
Fall, Spring. 3(3-0) P.M.: (GRM 202) or designated score on German placement test. Post-World War II Germany through analysis of selected literary texts, documentary material, and film. Topics such as problems of recovery and prosperity, partition and re-unification, and Germany in Europe.

341 German Life and Literature: Historical Perspectives
Spring. 3(3-0) P.M.: (GRM 202) or designated score on German placement test. Historical, social, and cultural developments in the German-speaking world as revealed in textual material in German, including literature, essays, and film. Focus on at least three historical epochs prior to 1945.

400 Reading German for Graduate Students
Spring of even years. 5(5-0) R: Open only to graduate students or approval of department. German grammar and syntax, with emphasis on reading and translation in specialized fields.

420 Language through Media in Contemporary Germany (W)
Fall. 4(4-0) P.M.: (GRM 302 or GRM 312) and completion of Tier I writing requirement. Written and oral analysis of relevant issues in contemporary Germany as depicted in German media. Major writing project.

440 German Life and Literature: Cultural Differences
Fall. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. P.M.: (GRM 340 or GRM 341) and (HST 205 or HST 206) Values and beliefs of marginalized groups in German society including religious minorities and foreign workers, and of youth and women. German immigrants in the United States as seen through their writings. Influence of historical and cultural developments.
