874 Analysis of Metal Forming and Manufacturing Processes
Fall of odd years. 3(3-0) RB: (ME 471 and MSM 809 and MSM 817 and MSM 810)
Review of fundamental knowledge in mechanics, material science, and numerical analysis. Modeling, simulation and analysis of metal forming and manufacturing processes.

875 Optimal Design of Mechanical Systems
Spring of odd years. 3(3-0) RB: (ME 461)

891 Selected Topics in Mechanical Engineering
Fall, Spring. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Approval of department. Special topics in mechanical engineering of current importance.

892 Parameter Estimation
Fall of odd years. 3(3-0) RB: (STT 421 or STT 441)

899 Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 72 credits in all enrollments for this course. R: Open only to master's students in the Mechanical Engineering program. Approval of department. Doctoral dissertation research.

MEDICAL TECHNOLOGY

MT—Medical Technology

Medical Technology Program
College of Natural Science

212 Fundamentals of Laboratory Analysis
Fall, Summer. 3(3-0) P:M: (MT 103 or MTH 116 or LBS 117) RB: (BS 111L)
Chemical, biological and instrumental concepts in laboratory analyses: quality assurance, laboratory mathematics, safety, health care systems and regulatory issues.

213 Application of Clinical Laboratory Principles
Fall, Summer. 1(0-3) P:M: (MT 212 or concurrently) RB: (BS 111L) R: Open only to students in Clinical Laboratory Sciences or Medical Technology or Human Biology major or LBS Medical Technology Program.
Lab safety and standards of good laboratory practice including specimen handling and processing. Application of technologies and techniques to the performance of clinical diagnostic testing.

414 Clinical Chemistry I: Laboratory Analysis and Practice
Spring. 3(3-0) P:M: (STT 200 or STT 201 or STT 231 or STT 351 or STT 421) RB: (MT 212 and MT 213 and PHY 231 and PHY 232)
Concepts and principles of analytic methods commonly used in the clinical laboratory are presented. Emphasis on qualitative and quantitative variables in instrumental analysis. Issues of QC, QA, method evaluation and standards of laboratory practice.

415 Clinical Chemistry and Body Fluid Analysis Laboratory
Spring. 1(0-3) P:M: (MT 213) R: Open only to students in the Clinical Laboratory Sciences major. C: MT 414 concurrently.
Quantitative analysis of blood and body fluids. Spectrophotometry, electrophoresis, chromatography, enzymatic assays, and immunoaassays.

422 Hematology and Hemostasis
Fall. 4(4-0) P:M: (MT 212 or concurrently) RB: (BS 111 and BS 111L and BMB 401 or BMB 462) and (PSL 250) or (PSL 431 and PSL 432) R: Open only to students in the Clinical Laboratory Sciences major. C: MT 422 concurrently. Structure and function of normal blood cells with changes seen in benign and malignant diseases and acquired and hereditary disorders. Mechanisms of hemostasis, fibrinolysis and hematocrit control.

423 Hematology and Hemostasis Laboratory
Fall. 1(0-3) P:M: (MT 213 or concurrently) R: Open only to students in the Clinical Laboratory Sciences major. C: MT 422 concurrently. Diagnostic assessment of blood cells and hematocrit function.

432 Clinical Immunology and Immunohematology
Spring. 3(3-0) P:M: (MT 212 and BS 111 and BS 111L) RB: (MT 422 and PSL 250)
Cellular and humoral immunity and diseases of immunity. Clinical serology and immunology, blood group serology, and transfusion practices.

433 Clinical Immunology and Immunohematology Laboratory
Spring. 1(0-3) P:M: (MT 213 and MT 432 or concurrently) R: Open only to students in the Clinical Laboratory Sciences major. Immunologic methods for disease detection. Methods of blood typing and pre-transfusion testing.
442 Education and Management in the Clinical Laboratory
Fall. 3(3-0) P:M (MTH 116 or LBS 117) or (MTH 103 and MTH 114) or (STT 200 or STT 201 or STT 231 or STT 351 or STT 421) R: Open only to students in the Clinical Laboratory Sciences major.

Basic principles and concepts in education and management in clinical laboratories. Systematic approach to instructional design, delivery and evaluation. Principles of leadership, personnel management, fiscal management, and regulatory compliance.

454 Problem Solving Across Clinical Laboratory Disciplines (W)
Spring. 4(4-0) P:M (MT 414 and MT 416 and MT 422 and MT 432 and MMG 463) and completion of Tier I writing requirement. RB: (MT 442) R: Open only to seniors in the Clinical Laboratory Sciences major.

Problem-oriented approach integrating topics from previous courses in clinical laboratory sciences. Emphasis on published primary research literature and its critical appraisal.

455 Integrating Clinical Laboratory Science Discipline (W)
Fall, Spring. 2(2-0) P:M (MT 422 and MT 432 and MT 414 and MT 416 or concurrently and MMG 463 or concurrently) and completion of Tier I writing requirement. R: Open only to seniors in the Medical Technology major or LBS Medical Technology coordinate major.

Problem oriented approach integrating topics from Medical Technology courses with emphasis on writing experience in the major and on critical thinking skills.

471 Advanced Clinical Chemistry Laboratory
Fall, Spring. Summer. 3 credits. P:M (MT 454)

Application and integration of theory and technical skills in clinical chemistry and biochemistry.

472 Advanced Clinical Chemistry
Fall, Spring. Summer. 1 credit. R: Open only to seniors in the Clinical Laboratory Sciences major. C: MT 471 concurrently.

Theoretical aspects of clinical chemistry, chemical and biochemical reactions, statistical analysis, and pathophysiologic relationships. Integration of cognitive material with clinical laboratory test results.

473 Advanced Clinical Hematology and Body Fluids Laboratory
Fall, Spring. Summer. 4 credits. P:M (MT 454)

Application and integration of theory and technical skills in hematology, hemostasis, and body fluid analysis.

474 Advanced Clinical Hematology and Body Fluids
Fall, Spring. Summer. 1 credit. R: Open only to seniors in the Clinical Laboratory Sciences major. C: MT 473 concurrently.

Theoretical aspects of advanced hematology, hemostasis and body fluid analysis. Integration of cognitive material with clinical laboratory test results.

475 Advanced Clinical Immunology and Immunohematology Laboratory
Fall, Spring. Summer. 2 credits. P:M (MT 454)

Application and integration of theory and technical skills in immunology and immunohematology.

476 Advanced Clinical Immunology and Immunohematology
Fall, Spring, Summer. 1 credit. R: Open only to seniors in the Clinical Laboratory Sciences major. C: MT 475 concurrently.

Theoretical aspects of immunology and immunohematology. Integration of cognitive material with clinical laboratory test results.

477 Advanced Clinical Microbiology Laboratory
Fall, Spring, Summer. 3 credits. P:M (MT 454)

Application and integration of theory and technical skills in clinical microbiology and infectious disease.

478 Advanced Clinical Microbiology
Fall, Spring, Summer. 1 credit. R: Open only to seniors in the Clinical Laboratory Sciences major. C: MT 477 concurrently.

Theoretical aspects of clinical microbiology and infectious disease. Integration of cognitive material with clinical laboratory test results.

495 Directed Study
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to students in the Clinical Laboratory Sciences major or LBS Medical Technology coordinate major.

Faculty directed study including assigned readings, reviews of appropriate scientific periodicals, research and laboratory experience.

801 Medical Technology Seminar
Spring. 1(1-0) A student may earn a maximum of 2 credits in all enrollments for this course. R: Open only to graduate students in Clinical Laboratory Sciences.

Current research topics in clinical laboratory sciences.

812 Advanced Clinical Chemistry
Spring of even years. 2(2-0) Interdepartmental with Pathology. RB: (BMB 462 and MT 414 and MT 416)

Biochemical basis of selected pathologic conditions including inborn errors of metabolism, endocrine and other genetic disorders. Emphasis on current diagnostic techniques.

830 Concepts in Molecular Biology
Spring of odd years. 2(2-0) Interdepartmental with Pathology. RB: One course in Biochemistry or concurrently.

Techniques and theories of molecular biology, nucleic acid synthesis and isolation, enzymatic digestion and modification, electrophoresis, hybridization, amplification, library construction, and cloning.

831 Clinical Application of Molecular Biology
Summer. 2(2-0) P:M (MT 830) RB: Basic biochemistry, medical or research laboratory experience.

Molecular diagnostic principles. Diagnostic outcomes in traditional and non-traditional laboratory disciplines.

831L Molecular Pathology Laboratory
Summer. 2(0-4) P:M: (MT 831 or concurrently)

Equipment operation, DNA extraction and measurement, electrophoresis, hybridization and transfers, amplification and detection including SSOP, ARMS, RFLP and SCP as well as automated sequencing will be covered with specific emphasis on clinical applications.

842 Managing Biomedical Laboratory Operations
Fall. 2(2-0) R: Open only to Biomedical Laboratory Operations majors or approval of department.

Integration of the roles of legislative, regulatory, technological and economic factors that influence the practice and management of biomedical laboratory operations.

844 Topics in Biomedical Laboratory Operations
Spring. 1(1-0) P:M (MT 842) R: Open only to Biomedical Laboratory Operations majors or approval of department.

Current issues relevant to biomedical laboratory operations from an interdisciplinary perspective with an emphasis on efficient laboratory operations.

846 Decision Processes for Biomedical Laboratory Operations
Fall. 2(2-0) P:M (MT 842) R: Open only to Biomedical Laboratory Operations majors or approval of department.

Integrative case studies presented in a problem-based learning format. Strategies for decision making in the operations of a biomedical laboratory. Cases integrate scientific principles, management principles and regulatory factors.

850 Concepts in Immunodiagnostics
Fall. 2(2-0) RB: An undergraduate course in biochemistry or cell biology.

Immunology principles and theory applied to diagnostic evaluation of the host immune response during health and disease.

851 Clinical Application of Immunodiagnostic Principles
Spring. 2(2-0) P:M (MT 850)

Immunodiagnostic theories and principles applied to clinical assay development and method evaluation.

851L Immunodiagnostics Laboratory
Summer. 2(2-0)

Performance of immunopurifications, in vitro diagnostic assays and basic flow cytometry. Data analysis and quality control evaluation.

860 Clinical Laboratory Diagnosis of Infectious Diseases
Spring of even years. 2(2-0) Interdepartmental with Pathology. RB: (MTH 451 and MMG 464)

Laboratory techniques for diagnosing infectious diseases in humans. Emphasis on differential diagnosis and correlation of microbiological results with serology, hematology, and clinical chemistry.

890 Selected Problems in Clinical Laboratory Science
Fall, Spring. Summer. 1 to 6 credits.

A student may earn a maximum of 12 credits in all enrollments for this course. R: Open only to graduate students in Clinical Laboratory Sciences.

Non-thesis research for Plan B master's students.

895 Projects in Biomedical Laboratory Operations
Fall, Spring. Summer. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to Biomedical Laboratory Operations majors or approval of department.

Students complete a significant on-site project in cooperation with an industrial/clinical partner.
MED—Medicine

899  Master's Thesis Research
Fall, Spring, Summer. 1 to 10 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open only to graduate students in Clinical Laboratory Sciences. Master's thesis research.

Department of Medicine
College of Human Medicine

608  Internal Medicine Clerkship
Fall, Spring, Summer. 2 to 18 credits. A student may earn a maximum of 42 credits in all enrollments for this course. RB: (FMP 602) R: Open only to graduate-professional students in College of Human Medicine. Community hospital clerkship. Interviewing skills, history, physical examination. Problem solving and therapy. Care of the whole patient leading to independence in patient management.

609  Hematology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 606) R: Open only to graduate-professional students in College of Human Medicine. Data collection, problem solving, and management related to common hematologic disorders of children and adults.

610  Oncology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 606) R: Open only to graduate-professional students in College of Human Medicine. Data collection, problem solving and management of prevalent cancers in children and adults.

611  Cardiology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 606) R: Open only to graduate-professional students in College of Human Medicine. Evaluation of patients with cardiac diseases. Special diagnostic procedures including cardiac catherlization, phonocardiography, echocardiography, and electrocardiography.

612  Nephrology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 606) R: Open only to graduate-professional students in College of Human Medicine. Integrated concepts of renal physiology and pathophysiology of renal disease. Clinical experience.

613  Dermatology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 606) R: Open only to graduate-professional students in College of Human Medicine. Experience in a dermatologist's office to develop clinical, observational, and diagnostic skills in dermatology.

614  Pulmonary Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Pulmonary physiology. Evaluation of pulmonary function. Diagnosis and treatment of common pulmonary diseases.

615  Gastroenterology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Experience with gastrointestinal problems in ambulatory and hospital settings. Emphasis on continuity and comprehensive care.

616  Allergy Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Ambulatory and hospital based experience to develop diagnostic skills in allergy. Review of basic therapeutics related to allergic diseases.

618  Infectious Diseases Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Clinical problems in infectious and immunologic diseases. Integrated basic science input is provided in seminars.

619  Ambulatory Care Clerkship
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 15 credits in all enrollments for this course. Interdepartmental with Family Practice, Pediatrics. Administered by Department of Family Practice. RB: (FMP 602) R: Open only to graduate-professional students in College of Human Medicine. Continuous and comprehensive patient care under supervision of appropriate physicians.

622  Endocrinology and Metabolism Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. SA: MED 620 Clinical and/or clinical-research clerkship: endocrine diseases, electrolyte abnormalities, endocrine hypertension, or diabetes mellitus.

623  Advanced Medicine
Fall, Spring, Summer. 6 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in the College of Human Medicine. Hospital-based clinical experience in diagnosing and managing acutely ill patients with non-surgical problems.

626  Physical Medicine and Rehabilitation Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Developing regimens for physical medicine procedures, occupational therapy and rehabilitation skills.

627  Rheumatology Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Combined ambulatory and hospital consultative clerkship for diagnostic skills in areas of rheumatic diseases.

628  Advanced Internal Medicine
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Clinical experiences to refine diagnostic and management skills in general internal medicine.

630  Emergency Medicine Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Clinical diagnosis and treatment of emergencies seen in community emergency departments.

632  Occupational Medicine Clerkship
Fall, Spring, Summer. 2 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: (MED 608) R: Open only to graduate-professional students in College of Human Medicine. Health problems of chemical and mineral dust, radiation, and repetitive trauma.

633  Extended Clinical Experience
Fall, Spring, Summer. 6(8-0) P.M: (MED 608)
Based in community hospitals and ambulatory sites, this is a 4 week clinical experience emphasizing interviewing skills, history, physical exam, problem solving and therapy.

635  Core Competencies I
Fall. 2 credits. A student may earn a maximum of 6 credits in all enrollments for this course. Interdepartmental with Human Medicine; Family Practice, Pediatrics and Human Development. Administered by Human Medicine. RB: (FMP 602) R: Open only to graduate-professional students in College of Human Medicine. A weekly seminar addressing core knowledge and skills from an interdisciplinary perspective.

636  Core Competencies II
Spring. 2 credits. A student may earn a maximum of 6 credits in all enrollments for this course. Interdepartmental with Human Medicine; Family Practice. Administered by Human Medicine. RB: (FMP 602) R: Open only to graduate-professional students in College of Human Medicine. A weekly seminar addressing core knowledge and skills from an interdisciplinary perspective.
