

## Entomology—ENT

- 890 Independent Study**  
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 8 credits in all enrollments for this course. R: Open only to graduate students.  
Individual study on a field or laboratory research topic or review of published literature on a topic of interest.
- 898 Master's Research**  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 8 credits in all enrollments for this course. R: Open only to master's students in Entomology.  
Master's degree Plan B research paper.
- 899 Master's Thesis Research**  
Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 24 credits in all enrollments for this course. R: Open only to master's students in Entomology.  
Master's thesis research.
- 999 Doctoral Dissertation Research**  
Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to Ph.D. students in Entomology.  
Doctoral dissertation research.

## ENVIRONMENTAL ECONOMICS AND POLICY EEP

### Department of Agricultural Economics College of Agriculture and Natural Resources

- 201 Community Economics**  
Fall. 3(3-0) SA: PRM 201  
Policy analysis of state and local government revenues, services, and private business regulation. Impact on resource use, economic development, income distribution and human values.
- 211 Introduction to Gender and Environmental Issues**  
Spring. 3(3-0) Interdepartmental with Fisheries and Wildlife; Forestry; Resource Development; Women's Studies. Administered by Department of Fisheries and Wildlife. R: Not open to freshmen. SA: PRM 211  
The concept of gender. Overview of environment and habitat. Historical gender roles in environmental management. Gender-based theoretical perspectives. Case studies on developing and developed countries. Environmental management with emphasis on fisheries, wildlife and wetlands. Women environmental professionals.
- 255 Ecological Economics**  
Fall, Spring. 3(3-0) RB: (EC 201) SA: PRM 255  
Relationship between the economy and the natural environment. Economic organization and sustainability. Economic concepts applied to natural resources and agriculture.
- 260 World Food, Population and Poverty**  
Fall. 3(3-0) SA: PRM 260  
Description and analysis of world food, population and poverty problems. Interrelationships between developed and developing countries.
- 320 Environmental Economics**  
Spring. 3(3-0) P:M: (EEP 255) SA: PRM 320  
Analytical methods for evaluating economic impacts of environmental policies and understanding the economic causes of environmental problems.
- 335 Taxes, Government Spending and Public Policy**  
Fall, Spring, Summer. 3(3-0) Interdepartmental with Economics. Administered by Department of Economics. P:M: (EC 201 or EC 251H) SA: PRM 335 Not open to students with credit in EC 435 or EC 436.  
Economics of the public sector. Public goods, externalities, design and incidence of the tax system. Equity and efficiency effects of government programs.
- 404 Public Sector Budgeting and Program Evaluation (W)**  
Spring. 3(3-0) P:M: (EEP 201) and completion of Tier I writing requirement. RB: (EC 201 or EC 202) R: Not open to freshmen or sophomores. SA: PRM 404  
Structure and finance of government. Approaches to public sector budgeting. Evaluation of output of programs and community services. Impact and multiple outcome analysis.
- 405 Corporate Environmental Management**  
Fall. 3(3-0) Interdepartmental with Agribusiness Management. P:M: (EEP 255 or ABM 332 or MGT 315 or MGT 325) SA: PRM 405  
Integration of environmental protection and pollution prevention with business management. Economic and strategic analysis of environmental protection.
- 430 Law and Resources**  
Fall. 3(3-0) Interdepartmental with Resource Development; Forestry. Administered by Department of Community, Agriculture, Recreation and Resource Studies. R: Open only to juniors or seniors or graduate students. SA: PRM 430  
Legal principles applied to the environment and natural resources. Sovereignty, property rights, land and water use, jurisdiction, public trust doctrine, wetland law, and eminent domain. Case and statutory law analysis.
- 433 Law and Social Change**  
Spring. 3(3-0) Interdepartmental with Resource Development; Sociology. Administered by Department of Community, Agriculture, Recreation and Resource Studies. RB: (RD 301 or RD 336 or GBL 395) R: Open only to juniors or seniors. SA: PRM 433  
Function of law in a modern society. Concepts of power, public regulation, civil rights, and property rights. Limits on freedom.
- 440 Environmental Policy Making in Michigan**  
Spring. 3(3-0) Interdepartmental with Resource Development. Administered by Department of Community, Agriculture, Recreation and Resource Studies. RB: (RD 200 or EEP 201 or PLS 100 or PLS 301 or PLS 324) SA: PRM 440  
State legislative process and its role in environmental policy formulation. Influence of lobbying, grass roots environmental movements, and economic factors.
- 453 Women and Work: Issues and Policy Analysis**  
Spring. 3(3-0) Interdepartmental with Economics; Women's Studies. RB: (EC 201 or EC 202 or EEP 201 or concurrently) R: Not open to freshmen or sophomores.  
Current and past quantity and quality of women's participation in the labor force. Gender differentials in earnings and occupations. Employment discrimination. Laws, especially affirmative action laws. Social policy effects. International issues.
- 460 Natural Resource Economics**  
Spring. 3(3-0) Interdepartmental with Resource Development; Park, Recreation and Tourism Resources; Biosystems Engineering. Administered by Department of Community, Agriculture, Recreation and Resource Studies. P:M: (EC 201) and (RD 302 or EEP 255)  
Economic framework for analyzing natural resource management decisions. Spatial and inter-temporal allocation of renewable and nonrenewable resources. Special emphasis on institutions, externalities, and public interests in resource management.
- 470 Theory and Practice in Community and Economic Development**  
Spring. 3(3-0) Interdepartmental with Resource Development; Sociology. Administered by Department of Community, Agriculture, Recreation and Resource Studies. R: Open only to juniors or seniors. SA: PRM 470  
Concepts, principles, models, and skills for community and economic development. Community participation in local development initiatives.
- 480 Environmental Economics and Policy in International Settings**  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Not open to freshmen. Approval of department; application required.  
Study and travel experience emphasizing contemporary problems affecting environmental economic issues in world, national, and local communities.
- 490 Independent and Supervised Study**  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 7 credits in all enrollments for this course. P:M: (EEP 201 or EEP 255) R: Open only to Environmental Economics and Policy majors. Approval of department; application required. SA: PRM 490  
In-depth independent study of topics affecting public resource management. Complementary with previous coursework, adapted to career aspirations.

## ENVIRONMENTAL SCIENCE AND POLICY

### College of Social Science

**801 Physical, Chemical, and Biological Processes of the Environment**  
Fall. 3(3-0) RB: Bachelor's or Master's in appropriate discipline for specialization. R: Approval of college. SA: SSC 801  
Interdisciplinary concepts in the natural sciences related to environmental problems. Ecology and human health.

**802 Human Systems and Environment**  
Fall. 3(3-0) RB: Bachelor's or Master's in appropriate discipline for specialization. R: Approval of college. SA: SSC 804  
Anthropological, economic, geographical, legal, political, and sociological concepts of human systems and environmental change.

**803 Human and Ecological Health Assessment and Management**  
Spring. 3(3-0) P:M: (ESP 801 and ESP 802) RB: Familiarity with the basic concepts of physics, chemistry and biology of environmental processes, and the relationships between human systems and the environment. R: Approval of college. SA: SSC 805  
Concepts and techniques used to evaluate human and ecological health impacts from anthropogenic activities. Policy formulation and management strategies to mitigate health effects.

**804 Environmental Applications and Analysis**  
Spring. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. RB: Bachelor's or Master's in appropriate discipline for specialization. R: Approval of college SA: SSC 806  
Global, regional and local environmental issues. Use of systems approach to identify and solve environmental problems.

## EPIDEMIOLOGY

### Department of Epidemiology College of Human Medicine

**390 Disease in Society: Introduction to Epidemiology and Public Health**  
Spring. 4(4-0) Interdepartmental with Social Science.  
Human epidemiology and population health issues facing contemporary society. Developed and less-developed settings. Health-related information in the mass media and scholarly publications.

**546 Information Management: Fundamentals of Epidemiology and Biostatistics**  
Spring. 1(1-0) RB: Undergraduate mathematics and/or statistics R: Open only to graduate-professional students in the College of Human Medicine.  
Introduction to accessing, analyzing, and applying information to patients and to populations. Offered first ten weeks of the semester.

**493 Professional Internship in Environmental Economics and Policy**  
Fall, Spring, Summer. 3 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: (EEP 201 and EEP 255) R: Open only to juniors or seniors in the Environmental Economics and Policy major. Approval of department; application required. A student may earn a maximum of 6 credits in all enrollments for any or all of these courses: ABM 493, AEE 493, ANR 493, ANS 493, CSS 493, EEP 493, FIM 493, FW 493, HRT 493, PKG 493, PLP 493, PRR 493, and RD 493. SA: PRM 493

Supervised professional experience in agencies, organizations or businesses related to environmental economics and policy.

## ENVIRONMENTAL ENGINEERING

### Department of Civil and Environmental Engineering College of Engineering

**427 Environmental Toxicology and Society**  
Spring of odd years. 3(3-0) Interdepartmental with Animal Science; Sociology. Administered by Department of Animal Science. RB: (ISB 200 or ISB 202 or ISB 204 or ISB 206H or BMB 200 or BS 111 or BS 110)

Impact of environmental chemicals on health and modern society. Cellular and organ functions and their interface with the environment. Limitations of scientific investigation and environmental regulations.

**800 Environmental Engineering Seminar**  
Fall, Spring. 1(1-0) R: Open only to Environmental Engineering majors.  
Current research in environmental engineering.

**801 Dynamics of Environmental Systems**  
Spring. 3(3-0)  
Principles of mass balance, reaction kinetics, mass transfer, reactor theory in environmental engineering.

**802 Physicochemical Processes in Environmental Engineering**  
Fall. 3(3-0) RB: (ENE 801)  
Physical and chemical principles of air and water pollution control and environmental contaminants in water, air and soils.

**804 Biological Processes in Environmental Engineering**  
Fall. 3(3-0) RB: (ENE 801 or concurrently)  
Engineering of microbial processes used in wastewater treatment, in-situ bioreclamation, and solid waste stabilization.

**806 Laboratory Feasibility Studies for Environmental Remediation**  
Spring. 3(2-4) RB: (ENE 802 and ENE 804) R: Open only to graduate students in Environmental Engineering, Environmental Engineering-Environmental Toxicology, and Environmental Engineering-Urban Studies. Not open to students with credit in ENE 803 or ENE 805.

Analysis and characterization of contaminants in soil or water. Conceptual and preliminary design of treatment systems. Use of treatability studies to evaluate treatment options. Oral presentations and preparation of consulting reports with design recommendations.

**807 Environmental Analytical Chemistry**  
Fall. 3(3-0) R: Open only to Environmental Engineering majors.  
Techniques for measurement and analysis in environmental engineering. Sample preparation. Quality assurance.

**808 Environmental Analytical Chemistry Laboratory**  
Spring. 1(0-3) RB: (ENE 807) R: Open only to Environmental Engineering majors.  
Laboratory work in environmental analytical chemistry.

**880 Independent Study in Environmental Engineering**  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.  
Solution of environmental engineering problems not related to student's thesis.

**890 Selected Topics in Environmental Engineering**  
Fall, Spring, Summer. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.  
Selected topics in new or developing areas of environmental engineering.

**892 Master's Research Project**  
Fall, Spring, Summer. 1 to 5 credits. A student may earn a maximum of 5 credits in all enrollments for this course. R: Open only to master's students in the Environmental Engineering major. Approval of department.  
Master's degree Plan B individual student research project. Original research, research replication, or survey and reporting on a research topic.

**899 Master's Thesis Research**  
Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 24 credits in all enrollments for this course.  
Master's thesis research.

**999 Doctoral Dissertation Research**  
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 72 credits in all enrollments for this course.  
Doctoral dissertation research.
