890 Independent Study  
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 8 credits in all enrollments for this course. R: Open only to graduate students. Individual study on a field or laboratory research topic or review of published literature on a topic of interest. Master's degree Plan B research paper.

898 Master’s Research  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 10 credits in all enrollments for this course. R: Open only to master’s students in Entomology. Master’s thesis research.

899 Master’s Thesis Research  
Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 24 credits in all enrollments for this course. R: Open only to master’s students in Entomology. Master’s thesis research.

999 Doctoral Dissertation Research  
Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to Ph.D. students in Entomology. Doctoral dissertation research.

ENVIRONMENTAL ECONOMICS AND POLICY

Department of Agricultural Economics
College of Agriculture and Natural Resources

201 Community Economics  
Fall, 3(3-0) SA: PRM 201  
Policy analysis of state and local government revenues, services, and private business regulation. Impact on resource use, economic development, income distribution and human values.

211 Introduction to Gender and Environmental Issues  
Spring, 3(3-0) Interdepartmental with Fisheries and Wildlife; Forestry; Resource Development; Women’s Studies. Administered by Department of Fisheries and Wildlife. R: Not open to freshmen. SA: PRM 211  

255 Ecological Economics  
Fall, Spring, 3(3-0) RB: (EC 201) SA: PRM 255  
Relationship between the economy and the natural environment. Economic organization and sustainability. Economic concepts applied to natural resources and agriculture.

260 World Food, Population and Poverty  
Fall, 3(3-0) SA: PRM 260  
Description and analysis of world food, population and poverty problems. Interrelationships between developed and developing countries.

320 Environmental Economics  
Spring, 3(3-0) P:M: (EEP 255) SA: PRM 320  
Analytical methods for evaluating economic impacts of environmental policies and understanding the economic causes of environmental problems.

335 Taxes, Government Spending and Public Policy  
Fall, Spring, Summer. 3(3-0) Interdepartmental with Economics. Administered by Department of Economics. P:M: (EC 201 or EC 251H) SA: PRM 335  
Not open to students with credit in EC 435 or EC 436. Economics of the public sector. Public goods, externalities, design and incidence of the tax system. Equity and efficiency effects of government programs.

404 Public Sector Budgeting and Program Evaluation (W)  
Spring, 3(3-0) P:M: (EEP 201) and completion of Tier I writing requirement. RB: (EC 201 or EC 202) R: Not open to freshmen or sophomores. SA: PRM 404  

405 Corporate Environmental Management  
Fall, 3(3-0) Interdepartmental with Agricultural Management. P:M: (EEP 255 or ABM 332 or MGT 315 or MGT 325) SA: PRM 405  
Integration of environmental protection and pollution prevention with business management. Economic and strategic analysis of environmental protection.

430 Law and Resources  
Fall, 3(3-0) Interdepartmental with Resource Development; Forestry. Administered by Department of Community, Agriculture, Recreation and Resource Studies. R: Open only to juniors or seniors or graduate students. SA: PRM 430  
Legal principles applied to the environment and natural resources. Sovereignty, property rights, land and water use, jurisdiction, public trust doctrine, wetland law, and eminent domain. Case and statutory law analysis.

433 Law and Social Change  
Spring, 3(3-0) Interdepartmental with Resource Development; Sociology. Administered by Department of Community, Agriculture, Recreation and Resource Studies. RB: (RD 301 or RD 336 or GBL 395) R: Open only to juniors or seniors. SA: PRM 433  
Function of law in a modern society. Concepts of power, public regulation, civil rights, and property rights. Limits on freedom.

440 Environmental Policy Making in Michigan  
Spring, 3(3-0) Interdepartmental with Resource Development. Administered by Department of Community, Agriculture, Recreation and Resource Studies. RB: (RD 200 or EEP 201 or PLS 100 or PLS 301 or PLS 324) SA: PRM 440  
State legislative process and its role in environmental policy formulation. Influence of lobbying, grass roots environmental movements, and economic factors.

453 Women and Work: Issues and Policy Analysis  
Spring, 3(3-0) Interdepartmental with Economics; Women's Studies. RB: (EC 201 or EC 202 or EEP 201) R: Not open to freshmen or sophomores. Current and past quantity and quality of women's participation in the labor force. Gender differentials in earnings and occupations. Employment discrimination. Laws, especially affirmative action laws. Social policy effects. International issues.

460 Natural Resource Economics  
Spring, 3(3-0) Interdepartmental with Resource Development; Park, Recreation and Tourism Resources; Biosystems Engineering. Administered by Department of Community, Agriculture, Recreation and Resource Studies. P:M: (EC 201) and (RD 302 or EEP 255)  
Economic framework for analyzing natural resource management decisions. Spatial and inter-temporal allocation of renewable and nonrenewable resources. Special emphasis on institutions, externalities, and public interests in resource management.

470 Theory and Practice in Community and Economic Development  
Spring, 3(3-0) Interdepartmental with Resource Development; Sociology. Administered by Department of Community, Agriculture, Recreation and Resource Studies. R: Open only to juniors or seniors. SA: PRM 470  
Concepts, principles, models, and skills for community and economic development. Community participation in local development initiatives.

480 Environmental Economics and Policy in International Settings  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Not open to freshmen. Approval of department; application required. Study and travel experience emphasizing contemporary problems affecting environmental economic issues in world, national, and local communities.

490 Independent and Supervised Study  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 7 credits in all enrollments for this course. R: Open only to Environmental Economics and Policy majors. Approval of department; application required. SA: PRM 490  
In-depth independent study of topics affecting public resource management. Complementary with previous coursework, adapted to career aspirations.
493 Professional Internship in Environmental Economics and Policy
Fall, Spring, Summer. 3 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: (EEP 201 and EEP 255) R: Open only to juniors or seniors in the Environmental Economics and Policy major. Approval of department; application required. A student may earn a maximum of 6 credits in all enrollments for any or all of these courses: ABM 493, AEE 493, ANR 493, ANS 493, CSS 493, EEP 493, FIM 493, FW 493, HRT 493, PKG 493, PLP 493, PRR 493, and RD 493. SA: PRM 493

Supervised professional experience in agencies, organizations or businesses related to environmental economics and policy.

ENVIRONMENTAL ENGG

Department of Civil and Environmental Engineering
College of Engineering

427 Environmental Toxicology and Society
Spring of odd years, 3(3-0) Interdepartmental with Animal Science; Sociology. Administered by Department of Animal Science. RB: (ISB 200 or ISB 202 or ISB 204 or ISB 206H or BMB 200 or BS 111 or BS 110)
Impact of environmental chemicals on health and modern society. Cellular and organ functions and their interface with the environment. Limitations of scientific investigation and environmental regulations.

300 Environmental Engineering Seminar
Fall, Spring. 1(1-0) R: Open only to Environmental Engineering majors.
Current research in environmental engineering.

801 Dynamics of Environmental Systems
Spring. 3(3-0)
Principles of mass balance, reaction kinetics, mass transfer, reactor theory in environmental engineering.

802 Physicochemical Processes in Environmental Engineering
Fall. 3(3-0) RB: (ENE 801)
Physical and chemical principles of air and water pollution control and environmental contaminants in water, air and soils.

804 Biological Processes in Environmental Engineering
Fall. 3(3-0) RB: (ENE 801 or concurrently)
Engineering of microbial processes used in waste-water treatment, in-situ bioreclamation, and solid waste stabilization.

806 Laboratory Feasibility Studies for Environmental Remediation
Spring. 3(2-4) R: (ENE 802 and ENE 804) R: Open only to graduate students in Environmental Engineering, Environmental Engineering-Environmental Toxicology, and Environmental Engineering-Urban Studies. Not open to students with credit in ENE 803 or ENE 805.
Analysis and characterization of contaminants in soil or water. Conceptual and preliminary design of treatment systems. Use of treatability studies to evaluate treatment options. Oral presentations and preparation of consulting reports with design recommendations.

807 Environmental Analytical Chemistry
Spring. 3(2-0) R: Open only to Environmental Engineering majors.

808 Environmental Analytical Chemistry Laboratory
Spring. 1(0-3) RB: (ENE 807) R: Open only to Environmental Engineering majors.
Laboratory work in environmental analytical chemistry.

880 Independent Study in Environmental Engineering
Spring. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.
Solution of environmental engineering problems not related to student's thesis.

890 Selected Topics in Environmental Engineering
Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.
Selected topics in new or developing areas of environmental engineering.

892 Master's Research Project
Fall, Spring, Summer. 1 to 5 credits. A student may earn a maximum of 5 credits in all enrollments for this course. R: Open only to master's students in the Environmental Engineering major. Approval of department.
Master's degree Plan B individual student research project. Original research, research replication, or survey and reporting on a research topic.

899 Master's Thesis Research
Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 24 credits in all enrollments for this course.
Master's thesis research.

999 Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 72 credits in all enrollments for this course.
Doctoral dissertation research.

ENVIRONMENTAL SCIENCES AND POLICY

College of Social Science

801 Physical, Chemical, and Biological Processes of the Environment
Fall. 3(3-0) RB: Bachelor’s or Master’s in appropriate discipline for specialization. R: Approval of college. SA: SSC 801

802 Human Systems and Environment
Fall. 3(3-0) RB: Bachelor’s or Master’s in appropriate discipline for specialization. R: Approval of college. SA: SSC 804
Anthropological, economic, geographical, legal, political, and sociological concepts of human systems and environmental change.

803 Human and Ecological Health Assessment and Management
Fall, Spring, Summer. 3 to 4 credits. A student may earn a maximum of 24 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.
Use of systems approach to identify and solve environmental problems.

804 Environmental Applications and Analysis
Spring. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. RB: Bachelor's or Master's in appropriate discipline for specialization. R: Approval of college. SA: SSC 806
Global, regional and local environmental issues. Use of systems approach to identify and solve environmental problems.

EPIDEMIOLOGY

Department of Epidemiology
College of Human Medicine

390 Disease in Society: Introduction to Epidemiology and Public Health
Spring. 4(4-0) Interdepartmental with Social Science.
Human epidemiology and population health issues facing contemporary society. Developed and less-developed settings. Health-related information in the mass media and scholarly publications.

546 Information Management: Fundamentals of Epidemiology and Biostatistics
Spring. 1(1-0) RB: Undergraduate mathematics and/or statistics R: Open only to graduate-professional students in the College of Human Medicine.
Introduction to accessing, analyzing, and applying information to patients and to populations. Offered first ten weeks of the semester.
