EPIDEMIOLOGY  

Department of Epidemiology  
College of Human Medicine

200 History of Public Health and Epidemiology  
Spring. 2(2-0) R: Open to undergraduate students. Approval of department.  
Introduction to the historical development and evolution of public health and epidemiology. Development of theories of models of disease and disease causation via selected case studies.

290 Critical Thinking and Scientific Reasoning in Public Health and Epidemiology  
Fall. 2(2-0) R: Open to undergraduate students. Approval of department.  
Exploration of critical thinking skills and inductive vs. deductive reasoning strategies and their weaknesses.

390 Disease in Society: Introduction to Epidemiology and Public Health  
Spring. 4(4-0) Interdepartmental with Social Science. Administered by Epidemiology.  
Human epidemiology and population health issues facing contemporary society. Developed and less-developed settings. Health-related information in the mass media and scholarly publications.

490 Public Health and Epidemiology  
Fall. 4(4-0) P: STT 200 and EPI 200 and EPI 290 and PHL 344 and EPI 390 R: Open to undergraduate students. Approval of department. Concepts and methods of public health and epidemiology.

491 Biostatistics Lab  
Fall. 1(0-2) P: EPI 200 and EPI 290 and EPI 390 and STT 200 and PHL 344 R: Open to undergraduate students. Approval of department.  
Introduction to biostatistics and data analysis software package using epidemiological examples in public health.

499 Senior Seminar/Capstone Experience  
Spring. 2(2-0) P: STT 200 and PHL 344 and EPI 200 and EPI 290 and EPI 390 and EPI 490 and EPI 491 R: Open to undergraduate students. Approval of department. Selected problems in the study of global public health and epidemiology. Development and defense of thesis paper.

546 Information Management: Fundamentals of Epidemiology and Biostatistics  
Spring. 1(1-0) RB: Undergraduate mathematics and/or statistics R: Open to graduate-professional students in the College of Human Medicine.  
Introduction to accessing, analyzing, and applying information to patients and to populations. Offered first ten weeks of the semester.

547 Information Management: Applications of Epidemiology and Biostats  
Fall. 1(1-0) P: EPI 546 RB: Undergraduate mathematics and/or statistics. R: Open to students in the College of Human Medicine or approval of department.  
Basic competency in accessing, analyzing, and applying information to patients and populations. Offered first half of semester.

805 Readings in the Historical Roots of Epidemiological Thought  
Fall. 3(3-0) Interdepartmental with History. Administered by Epidemiology. P: EPI 810 or approval of department R: Open to graduate students in the Epidemiology major or approval of department.  
Historical evolution of models of disease causation and population perspectives on disease.

808 Biostatistics I  
Fall. 3(3-0) Interdepartmental with Statistics and Probability. Administered by Epidemiology. RB: College-level algebra. R: Open to masters students or doctoral students in the Epidemiology major or approval of department. SA: STT 425  
Applications of probability and statistics in the applied health sciences. Probability distributions, estimation and tests for one-, two-, and paired samples, linear regression, correlation, and ANOVA. Use of statistical software. Critical appraisal of statistical methods in the biomedical literature.

809 Biostatistics II  
Spring. 3(3-0) Interdepartmental with Statistics and Probability. Administered by Epidemiology. P: EPI 808 RB: MTH 103 or MTH 110 or MTH 116 R: Open to masters students or doctoral students in the Epidemiology major or approval of department. SA: STT 426  
Analysis of categorical data in epidemiologic studies. Contingency tables and logistic regression.

810 Introductory Epidemiology  
Fall. 2(2-0) R: Open to graduate students in the Department of Epidemiology or approval of department. SA: HM 810  
Disease from a population perspective as the interaction of host, agent, and environment. Case definition, measuring frequency of disease, mortality and morbidity data, and major study designs. Offered first half of semester.

811 Epidemiology Exercises and Applications  
Fall. 1(1-0) R: Open to graduate students in the Department of Epidemiology or approval of department. C: EPI 810 concurrently and EPI 808 concurrently.  
Theoretical, conceptual, and methodological issues in epidemiological practice.

812 Causal Inference in Epidemiology  
Fall. 3(3-0) P: EPI 810 and EPI 811 RB: LCS 829 R: Open to graduate students in the Epidemiology major or approval of department. SA: HM 812  
Causality in epidemiology. Application of theoretical concepts to the design, analysis, and assessment of epidemiologic research.

813 Investigation of Disease Outbreaks  
Spring. 3 credits. P: EPI 810 and EPI 811 R: Open to graduate students in the Epidemiology major or approval of department.  
Principles of and practice in investigating disease outbreaks.

814 Nutritional Epidemiology  
Spring of odd years. 3(3-0) P: EPI 810 and EPI 811 RB: EPI 808 and EPI 809 or approval of department R: LCS 829 SA: HM 814  
Methodologies used in epidemiologic studies of diet and health in the context of U.S. and international dietary patterns. Relationship between diet and specific diseases.

815 Epidemiology of Cardiovascular Disease  
Fall of even years. 3(3-0) RB: EPI 810 and EPI 811 R: Open to graduate students in the Epidemiology major or approval of department. SA: HM 815  

816 Perinatal Epidemiology  
Fall. 3(3-0) R: Open to graduate students in the Epidemiology major or approval of department. SA: HM 816  
Epidemiology of adverse health states in pregnancy and the puerperium. Impact of these health states on subsequent child development.

820 Evidence-Based Medicine  
Spring of even years. 3(3-0) Interdepartmental with Medicine. Administered by Epidemiology. P: EPI 810 and EPI 811 and (EPI 808 and EPI 809 or approval of department)  
Methodology of clinical epidemiology and health services outcomes research. Linkage of epidemiology with daily clinical problems.

823 Cancer Epidemiology  
Spring of odd years. 3(3-0) P: EPI 810 and EPI 811 and (EPI 808 and EPI 809 or approval of department) R: Open to graduate students in the Epidemiology major or approval of department.  

824 Reproductive Epidemiology  
Fall of even years. 3(3-0) P: EPI 809 and EPI 810 RB: EPI 810 and EPI 811 R: Open to students in the Department of Epidemiology or approval of department.  
Epidemiology of reproductive events.

826 Research Methods in Epidemiology  
Fall. 3(3-0) P: EPI 809 R: Open to graduate students in the Epidemiology major or approval of department. SA: HM 826  
Analyses of epidemiologic and clinical data applying statistical methods, based on logistic and survival models, using standard software.

827 The Nature and Practice of Scientific Integrity  
Spring. 3(3-0) P: EPI 810 and EPI 811  
Historical development of where and how science is practiced in the United States. Scientific culture, sociology, and ethical standards. Principles, standards, and practices which define scientific integrity and responsible research conduct.
829 Design and Conduct of Epidemiological Studies and Clinical Trials  
Spring. 3(2-2) Interdepartmental with Large Animal Clinical Sciences. Administered by Large Animal Clinical Sciences. P: (VM 533 or EPI 810 and EPI 811); and EPI 808.  

830 Epidemiologic Overview of Foodborne Diseases and Food Safety  
Fall. 3(3-0) Interdepartmental with Large Animal Clinical Sciences. Administered by Large Animal Clinical Sciences. RB: Advanced undergraduate courses in biology, microbiology, biological sciences, biochemical sciences, food technology. R: Open to graduate students in the College of Veterinary Medicine or in the Food Safety Specialization or in the Food Safety major.  

831 Global Burden of Disease - Non-Communicable I  
Fall. 1(2-0): P: EPI 810 or concurrently R: Open to students in the Epidemiology major or in the Global Public Health and Epidemiology Specialization or in the Health Communication major or approval of department.  
Cardiovascular disease, diabetes, breast cancer and neurological diseases. Epidemiology and public health aspects of non-communicable diseases. Data sources (State vital records), drug dependence, kidney disease, and psychiatric diseases. Offered first half of semester.

832 Global Burden of Disease - Communicable I  
Fall. 1(2-0): P: EPI 810 or concurrently R: Open to students in the Epidemiology major or in the Global Public Health and Epidemiology Specialization or in the Health Communication major or approval of department.  
Tuberculosis, food-borne illnesses, anti-microbial resistance and avian influenza topics. Epidemiology and public health aspects of these communicable diseases. Outbreak investigations, rabies, SARS, zoonotic diseases and emerging diseases. Offered second half of semester.

833 Global Burden of Disease - Non-Communicable II  
Spring. 1(2-0): P: EPI 810 or concurrently R: Open to students in the Epidemiology major or in the Global Public Health and Epidemiology Specialization or in the Health Communication major or approval of department.  
Asthma, colon cancer, psychiatric diseases and chronic obstructive pulmonary disease-related topics. Data sources (birth defects), drug dependence, psychiatric diseases and kidney disease. Offered first half of semester.

834 Global Burden of Disease - Communicable II  
Spring. 1(2-0): P: EPI 810 or concurrently R: Open to students in the Epidemiology major or in the Global Public Health and Epidemiology Specialization or in the Health Communication major. Approval of department.  
HIV, influenza, West Nile, and vaccine-preventable diseases. Rabies, outbreak investigations, SARS, zoonotic diseases and emerging diseases. Offered second half of semester.

835 Neuroepidemiology  
Summer of even years. 3(3-0) Interdepartmental with Neurology and Ophthalmology. Administered by Epidemiology. P: EPI 810 and EPI 811 R: Open to graduate students in the Epidemiology major or approval of department.  
Epidemiology of neurologic conditions and discussion of the inherent difficulty in studying these disorders. Offered second half of semester.

847 Analysis of Survival Data  
Spring of odd years. 3(3-0) Interdepartmental with Statistics and Probability. Administered by Statistics and Probability. RB: STT 422 or STT 442 or STT 862  

851 SAS Programming I: Essentials  
Fall. 1(1-0): R: Open only to graduate students in the Epidemiology major or approval of department.  
A programming approach to plan and write simple SAS programs to solve common data management and data analysis problems.

852 SAS Programming II: Data Management and Analysis  
Spring. 1(1-0): P: EPI 851 R: Open only to graduate students in the Epidemiology major or approval of department.  
A programming approach to plan and write SAS programs to solve common data management and data analysis problems.

853 SAS Programming III: Research Data Analysis Using SAS  
Summer. 1(1-0): P: EPI 852 R: Open only to graduate students in the Epidemiology major or approval of department.  
A programming approach to plan and write SAS programs to solve data management and data analysis problems in research settings.

890 Independent Study in Epidemiology  
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Open to doctoral students in the Department of Epidemiology. Approval of department.  
A programming approach to plan and write SAS programs to solve data management and data analysis problems in research settings.

899 Master's Thesis Research  
Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open only to master's students in the Epidemiology major. Approval of department.  
Master's thesis research.
