LARGE ANIMAL CLINICAL SCIENCES

Department of Large Animal Clinical Sciences
College of Veterinary Medicine

423 Principles of Fish and Wildlife Disease
Spring of odd years. 3(3-0) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. P: BS 110 or BS 146H or LB 144 RB: Additional course work in ecology, zoology, microbiology or environmental science. R: Open to juniors or seniors or graduate students in the College of Agriculture and Natural Resources or in the College of Natural Science or in the College of Veterinary Medicine.

Diseases of fish and wildlife species. Disease detection and diagnosis. Ecological and epidemiological analysis and management of major classes of wildlife diseases. Threatened and endangered species, game species, and fish and wildlife species that serve as vectors or reservoirs of human and domestic animal diseases.

423L Principles of Fish and Wildlife Disease Laboratory
Spring of odd years. 1(0-3) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. RB: Additional laboratory course work in ecology, zoology, microbiology or environmental sciences. C: FW 423 concurrently.

Tools for diagnosis and assessment of disease in fish and wildlife populations. Field Trips required.

520 Introduction to Neonatal Foal Medicine
Spring. 1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine.

After-hours care of neonatal foals admitted to the Veterinary Teaching Hospital including monitoring, blood collection, and routine medical care.

560 Large Animal Fundamental Clinical Skills and Concepts
Spring. 1(0-2) R: Open to graduate-professional students in the College of Veterinary Medicine.

Basic diagnostics and therapeutics for application to large animal practice.

561 Reproductive Management of the Sow Herd
Fall. 1(1-0) RB: Completion of Year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Sow herd management from introduction of giltts through the reproductive cycle.

562 Care and Management of the Neonatal Foal
Spring. 1(0-5) RB: Completion of year 1 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Weekly seminars focusing on common diseases. Case presentations.

563 Bovine Pregnancy Diagnosis
Fall. 1(1-1) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Basic reproductive physiology. Farm based laboratories in bovine transrectal palpation and sonography. Field trips required.

564 Nutritional Management of Dairy Cow Health
Spring. 1(1-1) RB: Completion of year 1 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Diet formulation for promotion of dairy cow health and prevention of peripartum disease.

565 Equine Sports Medicine
Fall of odd years. 1(1-0) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Physiologic responses to exercise and discipline specific disorders of equine athletes.

566 Current Topics in Food Systems Veterinary Medicine
Fall. 1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine and open to graduate students in the College of Veterinary Medicine.

Techniques in management, interpretation and application of new knowledge in the scientific literature of food systems veterinary medicine.

567 Problems in Pre-harvest Food Safety
Fall. 1(0-2) R: Open to graduate-professional students in the College of Veterinary Medicine and open to graduate students in the College of Veterinary Medicine.

Applied food safety concepts and clinical problem solving in pre-harvest settings.

568 Biological Risk Management for Beef and Dairy Farms
Fall. 1(1-0) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine.

Principles and methods used to reduce the introduction and spread of infectious disease agents on beef and dairy farms. Field trip required.

590 Selective Topics in Large Animal Clinical Sciences
Fall, Spring. 1(1-0) RB: Year 1 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine.

Important field of study in Large Animal Clinical Sciences.

610 Clinical Problems in Large Animal Clinical Sciences
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department.

Advanced clinical training in a problem related to large animal clinical sciences.

611 Research Problems in Large Animal Clinical Sciences
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department.

Research related to a large animal specialty.

613 Special Problems in Large Animal Clinical Sciences at Off-Campus Sites
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department.

Advanced clinical-phase training in large animal clinical sciences for which on-campus training is not available. Individualized problems and training objectives.

614 Equine Clinical Proficiency Clerkship
Spring. 3 credits. P: VM 553 RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine.

Field and practitioner-based clinical techniques, training, and hands-on experience for future equine practitioners.

615 Equine Emergency and Critical Care Clerkship
Fall, Spring. Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Lectures, laboratories, seminars, and emergency on-call clinical case evaluation, treatment, and management.

620 Equine Clinical Clerkship I
Fall, Spring. Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Supervised practice in equine medicine and surgery. Diagnosis, prognosis, treatment, and disease prevention. Required clerkship.

621 Equine Practice Clerkship
Fall, Spring. Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

622 Equine Clinical Clerkship II
Fall, Spring. Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: (LCS 620) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Advanced general training in equine medicine and surgery.
Large Animal Clinical Sciences—LCS

620  Equine Musculoskeletal Diseases Clerkship
Fall, Spring, Summer. 3 credits. P: (LCS 622 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Techniques and procedures used for the diagnosis and management of equine musculoskeletal diseases. Hospital and field cases.

624  Equine Theriogenology Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Diagnostic methods used in equine reproduction.

625  Equine Herd Health Clerkship
Fall, Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Establishment and maintenance of equine herd health programs. Reproduction, parasite control, immunization, and diagnostic medicine and surgery in the field.

626  Advanced Equine Surgery Clerkship
Fall, Spring, Summer. 3 credits. RB: (LCS 620 and LCS 622) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Advanced, in-depth training in overall surgical management of equine surgical patients. Breeds used for racing or sport.

627  Advanced Equine Medicine Clerkship
Spring. 3 credits. RB: (LCS 620) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Advanced, in-depth training in the medical management of equine patients. Emphasis on neonates.

628  Techniques in Equine Anesthesia and Surgery
Fall, Spring, Summer. 3 credits. RB: (LCS 620 and LCS 622 and LCS 640) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

630  Food Animal Medicine and Surgery Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Not open to students with credit in LCS 647.

Principles of diagnosis, treatment and prevention of diseases in food and fiber animals. In-clinic and on-farm experience.

631  Food Animal Practice Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Supervised, off-campus experience in an assigned veterinary practice. Regular food animal farm calls. After-hours emergencies. Veterinary practice management.

632  Advanced Food Animal Medicine and Surgery Clerkship
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P: (LCS 630 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Principles of diagnostic treatment and prevention of diseases in food and fiber animals. Self-directed and in-depth on-farm and in-clinic experience.

635  Swine Production Medicine Clerkship
Fall. 3 credits. RB: Completion of year 2 of the graduate professional program in the College of Veterinary Medicine.

Veterinary management of production and health of beef cattle. Optional visits to out-of-state facilities may be offered.

639  Small Ruminant Medicine and Management Clerkship
Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Health care to small ruminants on an individual and flock or herd basis. Emphasis on sheep.

640  Large Animal Anesthesia Clerkship
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Concepts and supervised practice in large animal anesthesia.

646  Equine Neonatal Medicine Clerkship
Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

647  Concepts of Agricultural Practice Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Fundamentals of animal agriculture practice and food systems. Etiology, diagnosis, and prevention of common food animal diseases. Practice of basic clinical skills.

677  Veterinary Preceptorship
Fall, Spring, Summer. 3 credits. RB: (LCS 620 or LCS 621 or LCS 630 or LCS 631) or Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine.

Applied large animal clinical science in private practices. Supervised off-campus experience.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>691</td>
<td>Veterinary Public Health Research Clerkship</td>
<td>Fall, Spring, Summer. 3(3-0) R: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Advanced public health research. Individualized problems and training objectives.</td>
</tr>
<tr>
<td>809</td>
<td>Special Problems in Large Animal Surgery</td>
<td>Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate students in the Large Animal Clinical Sciences major. Approval of department. Elective work in surgical research problems student's interest.</td>
</tr>
<tr>
<td>811</td>
<td>Special Problems in Large Animal Medicine</td>
<td>Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate students in the Department of Large Animal Clinical Sciences. Approval of department. Elective work in medicine-related research problems.</td>
</tr>
<tr>
<td>813</td>
<td>Seminar</td>
<td>Fall, Spring. 1(1-0) A student may earn a maximum of 4 credits in all enrollments for this course. R: Open to graduate students in the College of Veterinary Medicine. Presentation and discussion of current topics in large animal clinical sciences by departmental graduate students, faculty, or outside speakers.</td>
</tr>
<tr>
<td>830</td>
<td>Epidemiologic Overview of Foodborne Diseases and Food Safety</td>
<td>Fall. 3(3-0) Interdepartmental with Epidemiology. Administered by Large Animal Clinical Sciences. R: Advanced undergraduate courses in biology, microbiology, biological sciences, biochemical sciences, food technology. R: Open to graduate students in the College of Veterinary Medicine or in the Food Safety Specialization or in the Food Safety major. Epidemiologic survey of important foodborne diseases addressing recent trends. Sources of surveillance data. Measurement and management of risk factors associated with major foodborne diseases. Tracking foodborne pathogens from farm to table. Introduction to Hazard Analysis Critical Control Points (HACCP).</td>
</tr>
<tr>
<td>840</td>
<td>Advanced Equine Internal Medicine Topics I</td>
<td>Spring. 2(2-0) R: Approval of department. Body system approach to disease with emphasis on physiology and pathophysiology of the respiratory, cardiovascular, musculoskeletal and nervous systems.</td>
</tr>
<tr>
<td>841</td>
<td>Advanced Equine Internal Medicine Topics II</td>
<td>Spring. 2(2-0) R: Approval of department. Body system approach to disease with emphasis on physiology and pathophysiology of the gastrointestinal, urinary, hematopoietic, and endocrine systems.</td>
</tr>
<tr>
<td>842</td>
<td>Equine Orthopedics</td>
<td>Fall of even years. 2(0-4) R: Approval of department. Principles and techniques in equine orthopedics.</td>
</tr>
<tr>
<td>843</td>
<td>Intensive Care and Emergency Medicine</td>
<td>Spring. 2(2-0) R: Veterinarians in CVM residency program. R: Open to graduate students in the College of Veterinary Medicine. Intensive care and emergency medicine and surgery topics including shock, trauma, fluid therapy, blood products, and ventilation therapy.</td>
</tr>
<tr>
<td>844</td>
<td>Advanced Equine Surgery Techniques</td>
<td>Spring. 2(0-4) R: Open to graduate students in the College of Veterinary Medicine. Approval of department. Advanced equine surgical topics including gastrointestinal, orthopedic, respiratory, and minimally invasive techniques.</td>
</tr>
<tr>
<td>850</td>
<td>Advanced Anesthesia and Pain Management</td>
<td>Fall, Spring, Summer. 1(1-0) Fall: W. K. Kellogg Biological Station and Australia and Florence, Italy. A student may earn a maximum of 3 credits in all enrollments for this course. R: Open to graduate students in the College of Veterinary Medicine. Weekly review of pertinent reference material and discussions concerning anesthesia and pain management.</td>
</tr>
<tr>
<td>899</td>
<td>Master's Thesis Research</td>
<td>Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 18 credits in all enrollments for this course. R: Open only to graduate students in the Department of Large Animal Clinical Sciences. Master's thesis research.</td>
</tr>
<tr>
<td>901</td>
<td>Investigating the Lung</td>
<td>Fall of even years. 2(2-0) Interdepartmental with Pathobiology and Diagnostic Investigation and Physiology. Administered by Large Animal Clinical Sciences. R: Open to graduate students. Integrative biology of the lung. Structure and function. Molecular, cellular, and organ responses to injury.</td>
</tr>
<tr>
<td>999</td>
<td>Doctoral Dissertation Research</td>
<td>Fall, Spring, Summer. 1 to 36 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open only to doctoral students in the Department of Large Animal Clinical Sciences. Doctoral dissertation research.</td>
</tr>
