553 Systemic Pathology  
Spring. 4(3-2) RB: Completion of Year 1 in the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 555  
Anatomic pathology of digestive, urinary, respiratory, integumentary, cardiovascular, nervous, reproductive, musculoskeletal, endocrine, and lymphatic systems.

554 Veterinary Clinical Pathology  
Fall, Spring. 3(2-2) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine.  
Collection and assessment of body fluids and tissue. Interpretation of test results. Pathophysiological basis for test abnormalities. Basic technical laboratory competencies.

555 General Pathology  
Fall. 2(1-3) R: Open to graduate-professional students in the College of Veterinary Medicine.  
Host responses to injury, including cell degeneration, necrosis, disturbances of growth and development, neoplasia, circulatory disturbances, and inflammation.

556 Surgical Anatomy of Cats and Dogs  
Fall. 1(0-2) RB: Completion of Year 2 of the graduate professional program in the College of Veterinary Medicine R: Open to graduate-professional students in the College of Veterinary Medicine.  
Anatomy of the cat and dog encountered during commonly used surgical approaches.

557 Comparative Veterinary Gross Anatomy I  
Fall. 4(2-6) R: Open to graduate-professional students in the College of Veterinary Medicine.  
Introduction to canine anatomy through lectures and dissection.

558 Comparative Veterinary Gross Anatomy II  
Spring. 4(2-6) R: Open to graduate-professional students in the College of Veterinary Medicine.  
Introduction to comparative anatomy of all domestic animals through lectures and dissection. Clinically relevant anatomy.

559 Veterinary Neurosciences  
Fall. 2(2-0) R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PDI 515, PDI 517  
Introduction to the sensory, motor, and the special senses systems as they relate to domestic animals.
634 Endocrinology Clerkship
Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 634
Principles of endocrinology and diagnosis of endocrinology disorders. Case review and interpretation.

635 Special Problems in Histopathology and Cytology Clerkship
Spring. 3 credits. P: PDI 630 RB: Completion of Semester 5 of the professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 635
Study of the histopathology and clinical cytology of various diseases of veterinary importance.

636 Aquatic Animal Medicine Clerkship
Fall, Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 636
Clinical, laboratory, and ecological principles of diseases of aquatic organisms with special emphasis on impacts and management. Critical analysis and review of selected case studies and disease control regimen.

804 Molecular and Developmental Neurobiology
Fall. 3(3-0) Interdepartmental with Neuroscience and Pharmacology and Toxicology and Psychology and Zoology, Administered by Neurosciences. RB: Bachelor's degree in a Biological Science or Psychology. R: Open to graduate students in Neuroscience major.
Nervous system specific gene transcription and translation. Maturation, degeneration, plasticity, and repair in the nervous system.

816 Integrative Toxicology: Mechanisms, Pathology and Regulation
Fall. 3(3-0) Interdepartmental with Animal Science and Biochemistry and Molecular Biology and Pharmacology and Toxicology. Administered by Pharmacology and Toxicology, P: PHM 819

820 Advanced Human Hematology
Fall of odd years. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics, RB: BLD 424
Pathogenesis, mechanisms, and morphological pictures. Laboratory tests and interpretation of results.

822 Aquatic Animal Medicine
Fall. 3(2-2) Interdepartmental with Fisheries and Wildlife and Veterinary Medicine. Administered by Fisheries and Wildlife, RB: (FW 423) or prior course work in animal ecology, microbiology, parasitology or pathology
Health management techniques and pathological processes relating to the etiology, diagnosis, and control of diseases affecting aquatic animal populations and communities.

830 Concepts in Molecular Biology
Fall, Spring. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics. RB: One course in biochemistry or concurrently SA: MT 830
Techniques and theories of molecular biology, nucleic acid synthesis and isolation, enzymatic digestion and modification, electrophoresis, hybridization, amplification, library construction, and cloning.

851 Advanced General Pathology
Fall of even years. 3(3-0) R: Approval of department. SA: PTH 851
Fundamental concepts of cell injury, inflammation, and oncogenesis. Mechanisms of disease.

853 Advanced Systemic Pathology
Spring of odd years. 3(0-6) R: Approval of department. SA: PTH 853
Pathological aspects of the nervous, endocrine, cardiovascular, respiratory, urinary, genital, musculoskeletal, integumentary, and special sense systems.

854 Advanced Clinical Pathology
Fall of odd years. 2(2-0) R: Doctor of Veterinary Medicine degree. R: Approval of department. SA: PTH 854
Hematology, including anemias, leukocyte responses and hemostasis. Evaluation of clinical chemistry, urinalysis, and endocrinology.

855L Advanced Clinical Pathology Laboratory
Fall of odd years. 1(0-2) R: Doctor of Veterinary Medicine degree. R: Approval of department.
Clinical pathology laboratory techniques including sample preparation and examination of blood smears and cytologic preparations.

857 Correlative Diagnostic Pathology
Fall, Spring, Summer. 3(0-9) R: Approval of department.
Diagnosis of animal diseases by necropsy and ancillary tests. Correlation of diagnostic test results with history, laboratory data, and morphologic findings.

858 Pathology of Avian Diseases
Spring of even years. 2(2-0) R: Approval of department. SA: PTH 858
Disease and pathology affecting domestic poultry, pet birds, and wild birds.

859 Avian Histopathology Laboratory
Spring of even years. 1(0-2) R: Approval of department. SA: PTH 859
Recognition and description of microscopic lesions of avian diseases.

860 Clinical Laboratory Diagnosis of Infectious Diseases
Fall of odd years. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics. RB: MMG 451 and MMG 464 and BLD 434 SA: MT 860
Laboratory techniques for diagnosing infectious diseases in humans. Emphasis on differential diagnosis and correlation of microbiological results with serology, hematology, and clinical chemistry.

870 Laboratory Animal Pathology
Summer of odd years. 2(1-2) R: Background in histopathology, veterinary medicine, and systemic pathology R: Approval of department.
Diseases and pathology of laboratory animal species including mice, rats, ferrets, rabbits, primates, and fish, including current use of laboratory animals for toxicological pathology in industry.

890 Problems in Veterinary Pathology
Fall, Spring. Summer. 1 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. SA: PTH 890
Faculty supervised work on an experimental, theoretical, or applied problem in veterinary pathology.

891 Problems in Pathobiology
Fall, Spring. Summer. 1 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. SA: PTH 891
Faculty supervised work on an experimental, theoretical, or applied problem in pathobiology and diagnostic investigation.

892 Pathology Seminar
Fall, Spring. 1(0-1) A student may earn a maximum of 3 credits in all enrollments for this course. R: Approval of department. SA: PTH 892
Presentation and discussion of current topics in pathology by departmental graduate students, faculty, or outside speakers.

893 Pathology Case Discussion Seminar
Fall, Spring. 2(2-0) A student may earn a maximum of 6 credits in all enrollments for this course. R: Open to graduate students or lifelong graduate students in the Department of Pathobiology and Diagnostic Investigation. Approval of department. SA: PTH 893
Utilization of a group of theme-based veterinary cases to train pathology residents and graduate students in diagnostic pathology.

894 Diagnostic Histopathology of Neoplastic Diseases of Domestic Animals
Summer. 2(1-2) R: Approval of department.
Histologic diagnosis of neoplastic diseases of domestic animals, including prognostic criteria, grading systems, and ancillary techniques to aid in diagnosis and prognosis.

899 Master's Thesis Research
Fall, Spring, Summer. 1 to 10 credits. A student may earn a maximum of 10 credits in all enrollments for this course. R: Open to masters students in the Department of Pathobiology and Diagnostic Investigation. Approval of department. SA: PTH 899
Master's thesis research.

901 Investigating the Lung
Fall of even years. 2(2-0) Interdepartmental with Large Animal Clinical Sciences and Physiology. Administered by Large Animal Clinical Sciences. R: Open to graduate students.
Doctoral Dissertation Research
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 42 credits in all enrollments for this course. R: Open to doctoral students in the Department of Pathobiology and Diagnostic Investigation. Approval of department. SA: PTH 999

Doctoral dissertation research.
