LARGE ANIMAL CLINICAL SCIENCES

Department of Large Animal Clinical Sciences
College of Veterinary Medicine

423 Principles of Fish and Wildlife Disease
Spring of odd years. 3(3-0) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. P: BS 110 or BS 148H or LB 144 RB: Additional course work in ecology, zoology, microbiology or environmental science. R: Open to juniors or seniors or graduate students in the College of Agriculture and Natural Resources or in the College of Natural Science or in the College of Veterinary Medicine. Diseases of fish and wildlife species. Disease detection and diagnosis. Ecological and epidemiological analysis and management of major classes of wildlife diseases. Threatened and endangered species, game species, and fish and wildlife species that serve as vectors or reservoirs of human and domestic animal diseases.

423L Principles of Fish and Wildlife Disease Laboratory
Spring of odd years. 1(0-3) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. RB: Additional laboratory course work in ecology, zoology, microbiology or environmental sciences. C: FW 423 concurrently. Tools for diagnosis and assessment of disease in fish and wildlife populations. Field Trips required.

463 Wildlife Disease Ecology
Spring of even years. 3(3-0) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. RB: Additional course work in ecology, zoology, microbiology and environmental sciences. Role of wildlife disease in ecological interactions. Factors underlying pathogen emergence. Disease modeling. Conservation medicine.

520 Introduction to Neonatal Foal Medicine
Spring. 1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine. After-hours care of neonatal foals admitted to the Veterinary Teaching Hospital including monitoring, blood collection, and routine medical care.

560 Clinical Competencies II
Spring. 1(0-2) R: Open to graduate-professional students in the College of Veterinary Medicine. Basic diagnostics and therapeutics for application to large animal practice.

561 Reproductive Management of the Sow Herd
Fall. 1(1-0) RB: Completion of Year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Sow herd management from introduction of gilts through the reproductive cycle.

562 Care and Management of the Neonatal Foal
Spring. 1(1-0) RB: Completion of year 1 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Weekly seminars focusing on common diseases. Case presentations.

563 Bovine Pregnancy Diagnosis
Fall. 1(1-1) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Basic reproductive physiology. Farm based laboratories in bovine transrectal palpation and sonography. Field trips required.

564 Nutritional Management of Dairy Cow Health
Spring. 1(1-1) RB: Completion of year 1 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Diet formulation for promotion of dairy cow health and prevention of peripartum disease.

565 Equine Sports Medicine
Fall of odd years. 1(1-0) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Physiologic responses to exercise and discipline specific disorders of equine athletes.

566 Current Topics in Food Systems Veterinary Medicine
Fall. 1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine and open to graduate students in the College of Veterinary Medicine. Techniques in management, interpretation and application of new knowledge in the scientific literature of food systems veterinary medicine.

567 Problems in Pre-harvest Food Safety
Spring. 1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine and open to graduate students in the College of Veterinary Medicine. Applied food safety concepts and clinical problem solving in pre-harvest settings.

568 Biological Risk Management for Beef and Dairy Farms
Fall. 1(1-0) RB: Completion of year 2 in the graduate professional curriculum. R: Open to graduate-professional students in the College of Veterinary Medicine. Principles and methods used to reduce the introduction and spread of infectious disease agents on beef and dairy farms. Field trip required.

590 Selective Topics in Large Animal Clinical Sciences
Fall, Spring. 1(1-0) RB: Year 1 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Important field of study in Large Animal Clinical Sciences.

610 Clinical Problems in Large Animal Clinical Sciences
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department. Advanced clinical training in a problem related to large animal clinical sciences.

611 Research Problems in Large Animal Clinical Sciences
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department. Research related to a large animal specialty.

613 Special Problems in Large Animal Clinical Sciences at Off-Campus Sites
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Approval of department. Advanced clinical-phase training in large animal clinical sciences for which on-campus training is not available. Individualized problems and training objectives.

614 Equine Clinical Proficiency Clerkship
Spring. 3 credits. P: VM 553 RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Field and practitioner-based clinical techniques, training, and hands-on experience for future equine practitioners.

615 Equine Emergency and Critical Care Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. Lectures, laboratories, seminars, and emergency on-call clinical case evaluation, treatment, and management.

620 Equine Clinical Clerkship I
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Supervised practice in equine medicine and surgery. Diagnosis, prognosis, treatment, and disease prevention. Required clerkship.

621 Equine Practice Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Supervised, off-campus experience in an assigned veterinary practice. Regular equine farm calls. After-hours emergencies. Veterinary practice management.
622 Equine Clinical Clerkship II
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P: LCS 620 or concurrently RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Advanced general training in equine medicine and surgery.

623 Equine Musculoskeletal Diseases Clerkship
Fall, Spring, Summer. 3 credits. P: (LCS 620 or concurrently) and ((LCS 615 or concurrently) or (LCS 622 or concurrently) or (LCS 646 or concurrently)) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Techniques and procedures used for the diagnosis and management of equine musculoskeletal diseases. Hospital and field cases.

624 Equine Theriogenology Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Diagnostic methods used in equine reproduction.

625 Equine Herd Health Clerkship
Fall, Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Establishment and maintenance of equine herd health programs. Reproduction, parasite control, immunization, and diagnostic medicine and surgery in the field.

626 Advanced Equine Surgery Clerkship
Fall, Spring, Summer. 3 credits. RB: (LCS 620 and LCS 622) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Advanced, in-depth training in overall surgical management of equine surgical patients. Breeds used for racing or sport.

627 Advanced Equine Medicine Clerkship
Spring, 3 credits. RB: (LCS 620) and Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Designed for students with special interest in the surgical aspects of equine medicine. Advanced, in-depth training in medical management of equine patients. Emphasis on neonates.

628 Techniques in Equine Anesthesia and Surgery
Fall, Spring, Summer. 3 credits. P: ((LCS 620 or concurrently) and (LCS 640 or concurrently)) and ((LCS 615 or concurrently) or (LCS 622 or concurrently)) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Advanced equine anesthesia and surgery. Preoperative care of University-owned equids, induction of anesthesia, and performance of minor surgical procedures.

630 Food Animal Medicine and Surgery Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Not open to students with credit in LCS 647. Principles of diagnosis, treatment and prevention of diseases in food and fiber animals. In-clinic and on-farm experience.

631 Food Animal Practice Clerkship
Fall, Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Supervised, off-campus experience in an assigned veterinary practice. Regular food animal farm calls. Alter-hours emergencies. Veterinary practice management.

632 Advanced Food Animal Medicine and Surgery Clerkship
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P: (LCS 630 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Principles of diagnostic treatment and prevention of diseases in food and fiber animals. Self-directed and in-depth on-farm and in-clinic experience.

635 Swine Production Medicine Clerkship
Fall, 3 credits. RB: Completion of year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Swine production medicine and herd problem-solving topics. Participation in the swine medicine clinical course at Iowa State University. Field trips required.

638 Beef Production Medicine Clerkship
Fall, 3 credits. P: LCS 630 or concurrently RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Veterinary management of production and health of beef cattle. Optional visits to out-of-state facilities may be offered.

639 Small Ruminant Medicine and Management Clerkship
Spring, Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Health care to small ruminants on an individual and flock or herd basis. Emphasis on sheep.

640 Large Animal Anesthesia Clerkship
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Concepts and supervised practice in large animal anesthesiology.

646 Equine Neonatal Medicine Clerkship
Summer. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Principles of breeding farm management. Diagnosis and treatment of equine neonatal disorders. Supervised, in-clinic experience. Elective clerkship.

677 Veterinary Preceptorship
Fall, Spring, Summer. 3 credits. RB: (LCS 620 or LCS 621 or LCS 630 or LCS 631) or Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Applied large animal clinical science in private practices. Supervised off-campus experience.

681 Food Animal Production Medicine I
Fall. 3 credits. P: (LCS 630 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Entry-level principles of production medicine as applied to food animal practice.

682 Food Animal Production Medicine II
Fall, Spring. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P: (LCS 681 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Continuation of LCS 681. Farm evaluations and group problem-solving. Application and further development of skills and concepts.

683 Food Animal Production Medicine III
Spring, 3 credits. P: (LCS 682 or concurrently) RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. Analysis of farm records and production medicine variables. Advanced production medicine topics. Individual, off-campus farm experiences required.

684 Food Animal Production Medicine IV
Fall, 3-11 credits. P: (LCS 683 or concurrently) Advanced understanding and skills in Food Animal Production Medicine. Problem recognition, clinical diagnosis, and treatment within dairy cattle populations.

Large Animal Clinical Sciences—LCS
685 Ruminant Health Problem Solving Clerkship  
Spring. 3 credits. P: (LCS 681 or concurrently) and (LCS 682 or concurrently) and (LCS 683 or concurrently) RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. 
The North American dairy industry and the role of veterinarians in health management programs on large versus small dairy herds. Students are required to spend one week at the University of Guelph.

690 Veterinary Public Health Field Experience Clerkship  
Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Approval of department. 
Advanced public health training with individualized problems and training objectives at off campus locations.

691 Veterinary Public Health Research Clerkship  
Fall, Spring, Summer. 3(3-0) RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. 
Advanced public health research. Individualized problems and training objectives.

809 Special Problems in Large Animal Surgery  
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate students in the Large Animal Clinical Sciences major. Approval of department. 
Elective work in surgical research problems student's interest.

811 Special Problems in Large Animal Medicine  
Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate students in the Department of Large Animal Clinical Sciences. Approval of department. 
Elective work in medicine-related research problems.

813 Seminar  
Fall, Spring. 1(1-0) A student may earn a maximum of 4 credits in all enrollments for this course. R: Open to graduate students in the College of Veterinary Medicine. 
Presentation and discussion of current topics in large animal clinical sciences by departmental graduate students, faculty, or outside speakers.

821 Conservation Medicine  
Fall of even years. 3(3-0) Interdepartmental with Fisheries and Wildlife. Administered by Fisheries and Wildlife. RB: Prior course work in vertebrate ecology, epidemiology and/or animal disease management. R: Open to graduate students or approval of department. SA: FW 823 
Ecological and epidemiological principles of wildlife disease impacts and management. Critical review of selected case studies.

829 Design and Conduct of Epidemiological Studies and Clinical Trials  
Spring. 3(2-2) Interdepartmental with Epidemiology. Administered by Large Animal Clinical Sciences. P: (VM 533 or (EPI 810 and EPI 811)) and EPI 808 

830 Epidemiologic Overview of Foodborne Diseases and Food Safety  
Fall. 3(3-0) Interdepartmental with Epidemiology. Administered by Large Animal Clinical Sciences. RB: Advanced undergraduate courses in biology, microbiology, biological sciences, biochemical sciences, food technology. R: Open to graduate students in the College of Veterinary Medicine or in the Food Safety Specialization or in the Food Safety major. 

840 Advanced Equine Internal Medicine Topics I  
Spring. 2(2-0) R: Approval of department. 
Body system approach to disease with emphasis on physiology and pathophysiology of the respiratory, cardiovascular, musculoskeletal and nervous systems.

841 Advanced Equine Internal Medicine Topics II  
Spring. 2(2-0) R: Approval of department. 
Body system approach to disease with emphasis on physiology and pathophysiology of the gastrointestinal, urinary, hematopoetic, and endocrine systems.

842 Equine Orthopedics  
Fall of even years. 2(0-4) R: Approval of department. 
Principles and techniques in equine orthopedics.

843 Intensive Care and Emergency Medicine  
Spring. 2(2-0) RB: Veterinarians in CVM residency program. R: Open to graduate students in the College of Veterinary Medicine. 
Intensive care and emergency medicine and surgery topics including shock, trauma, fluid therapy, blood products, and ventilation therapy.

844 Advanced Equine Surgery Techniques  
Spring. 2(0-4) R: Open to graduate students in the College of Veterinary Medicine. Approval of department. 
Advanced equine surgical topics including gastrointestinal, orthopedic, respiratory, and minimally invasive techniques.

850 Advanced Anesthesia and Pain Management  
Fall, Spring. Summer. 1(1-0) Fall: W. K. Kellogg Biological Station and Australia and Florence, Italy. A student may earn a maximum of 3 credits in all enrollments for this course. R: Open to graduate students in the College of Veterinary Medicine. 
Weekly review of pertinent reference material and discussions concerning anesthesia and pain management.

899 Master's Thesis Research  
Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 18 credits in all enrollments for this course. R: Open only to graduate students in the Department of Large Animal Clinical Sciences. 
Master's thesis research.

901 Investigating the Lung  
Fall of even years. 2(2-4) Interdepartmental with Pathobiology and Diagnostic Investigation and Physiology. Administered by Large Animal Clinical Sciences. R: Open to graduate students. 

999 Doctoral Dissertation Research  
Fall, Spring, Summer. 1 to 36 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open only to doctoral students in the Department of Large Animal Clinical Sciences. 
Doctoral dissertation research.
