OST—Osteopathic Medicine

OSTEOPATHIC MEDICINE

College of Osteopathic Medicine

566  Care for the Young and the Aging Adult I
Fall. 4(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Focus on children birth to 18 years, and the elderly greater than 65. Normal growth, development, and aging.

567  Care for the Young and the Aging Adult II
Spring. 1(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Focus on children birth to 18 and elderly greater than 65. Normal structure, function and pathologies focusing on the nervous, endocrine, reproductive and genitourinary systems.

568  Care for the Young and the Aging Adult III
Summer. 1(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Focus on children birth to 18 and elderly greater than 65. Normal structure, function and pathologies focusing on the integumentary and gastrointestinal systems.

569  Care for the Young and the Aging Adult IV
Fall. 1(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Focus on children birth to 18 and elderly greater than 65. Normal structure, function and pathologies focusing on behavioral, cardiovascular and hematopoietic systems.

570  Care for the Young and the Aging Adult V
Spring. 1(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Focus on children birth to 18 and elderly greater than 65. Normal structure, function and pathologies focusing on the respiratory system.

571  Neurouroskeletal System
Spring. 10(8-4) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Systems Neurouroskeletal Medicine from basic science through clinical neurology, orthopedics, rheumatology, physiatry and ophthalmology. Neuroanatomy, orthopedic anatomy, integration with clinical neurology, orthopedics, physiatry and ophthalmology.

572  Genitourinary System
Spring. 3(3-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Normal urinary and male reproductive structure and function; principles of diagnosis and management of urinary and male reproductive disorders. Integration of basic science and clinical information related to the urinary and male reproductive systems.

573  Endocrine System
Spring. 3(3-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Multidisciplinary approach to endocrinology. Normal endocrine structure and function; principles of diagnosis and management of endocrine disorders. Integration of basic science and clinical information.
Osteopathic Medicine—OST

582 Transitions: From the Classroom to the Bedside
Summer. 1(1-0) R: Open to graduate-professional students in the College of Osteopathic Medicine.
Selected topics in preparation for clinical education

590 Special Problems
Fall. Spring. Summer. 1 to 24 credits. A student may earn a maximum of 60 credits in all enrollments for this course. R: Open only to graduate-professional students in College of Osteopathic Medicine. Approval of college.
Individual study directed by a faculty member on an experimental, theoretical, or applied problem.

599 Biomedical Research
Fall. Spring. Summer. 1 to 3 credits. A student may earn a maximum of 18 credits in all enrollments for this course. R: Open to graduate-professional students in the College of Osteopathic Medicine. Approval of college.
Basic, applied, or translational medical research under the direction of a mentor. Research topic is arranged with the research director or clinician researcher.

602 Primary Care Ambulatory Clerkship
Fall. Spring. Summer. 1 to 36 credits. A student may earn a maximum of 36 credits in all enrollments for this course. Interdepartmental with Family and Community Medicine and Internal Medicine and Osteopathic Surgical Specialties and Pediatrics and Psychiatry. Administered by Osteopathic Medicine.
A 24-week ambulatory care continuity experience involving 12 weeks in a multidisciplinary environment (family medicine, pediatrics, and internal medicine), 4 weeks in family medicine and 8 weeks in specialty areas (internal medicine, surgery, pediatrics, and obstetrics and gynecology). Didactic sessions are scheduled concurrently.

603 Core Clinical Concepts
Fall. Spring. Summer. 1 to 9 credits. A student may earn a maximum of 9 credits in all enrollments for this course. Interdepartmental with Family and Community Medicine and Internal Medicine and Osteopathic Surgical Specialties and Pediatrics and Psychiatry. Administered by Osteopathic Medicine.
R: Open to graduate-professional students in the College of Osteopathic Medicine.
A 36 week didactic continuity experience.

609 Laboratory Medicine Clerkship
Fall. Spring. Summer. 1 to 8 credits. A student may earn a maximum of 16 credits in all enrollments for this course. Interdepartmental with Human Medicine. Administered by Human Medicine. R: Open only to graduate-professional students in College of Human Medicine or Osteopathic Medicine.
SA: PTH 609
Laboratory procedures. Correlation of laboratory data with morphologic abnormalities in patients with pathophysiology.

610 Pathology Clerkship
Fall. Spring. Summer. 1 to 8 credits. A student may earn a maximum of 12 credits in all enrollments for this course. Interdepartmental with Human Medicine. Administered by Human Medicine. R: Open only to graduate-professional students in College of Human Medicine or Osteopathic Medicine.
SA: PTH 608
Anatomic and clinical pathology with emphasis on clinical-pathological correlation. Conducted in pathology departments of affiliated hospitals.

615 Biomedical Research Clerkship
Fall. Spring. Summer. 3 to 18 credits. A student may earn a maximum of 18 credits in all enrollments for this course. R: Open to graduate-professional students in the College of Osteopathic Medicine. Approval of college.
Mentored exposure to either basic or clinical research and development of skills to perform clinical or basic science research. Research topic is arranged with the research director or clinician researcher.

801 Leadership and Organizational Dynamics/Human Resources Management in the Health Professions
Spring. 3 credits.
Concepts and processes for human resources management (HRM) in the health professions giving attention to principles of leadership and its application in the processes of health care management.

802 Operations Analysis and Decision-Making in the Health Professions
Fall. 3 credits.
Concepts of operations analysis, strategic and operational decision making in health care management and regulation, quality assurance and improvement, and quality outcomes research assessment.

803 Financial Management and Budgetary Considerations in the Health Professions
Spring. 3 credits.
Concepts of budgeting and finance management in health care.

804 Public Health Policy and the Law in the Health Professions
Fall. 3 credits.
Theory and processes of public health policy and its impact on health providers with consideration of the integral relationship between health providers in the public and private sectors, health policy agencies and legislative and ethical decision making processes.

820 Capstone Course for the Health Professions
Fall. Spring. Summer. 3 credits. P: ED 820 and EAD 861 and EAD 866 and EAD 877 and OST 801 and OST 802 and OST 803 and (OST 804 or concurrently) and EAD 840 and EAD 863.
Demonstration of the mastery of cognitive skills by application of appropriate information to a robust health-care management problem.

890 Independent Study
Fall. Spring. Summer. 3(3-0) RB: Enrolled in the Master of Arts in Health Professions Education R: Approval of college; application required.
Supervised individual study in an area of osteopathic medicine.
