<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>VM 101</td>
<td>Veterinary Medicine in Society</td>
<td>Spring. 1(1-0)</td>
<td>Role of veterinary profession in animal and human health. Impact of veterinary medicine on society.</td>
</tr>
<tr>
<td>VM 110</td>
<td>Veterinary Medical Terminology</td>
<td></td>
<td>Veterinary medical terminology, focusing on fundamental recognition, interpretation and usage of medical terms.</td>
</tr>
<tr>
<td>VM 120</td>
<td>Veterinary Comparative Nutrition</td>
<td>Spring. 2(2-0) R: Approval of college.</td>
<td>Energy metabolism, nutrients and nutrient requirements of common domestic species.</td>
</tr>
<tr>
<td>VM 130</td>
<td>Comparative Anatomy for Veterinary Technicians</td>
<td>Fall. 2(1-2) P: {Completion of Tier I Writing Requirement and (BS 161 and BS 171)} or LB 145 R: Approval of college. C: VM 250 concurrently.</td>
<td>Gross anatomy of the common animal species encountered in veterinary medicine. Overview of the functional anatomy of the musculoskeletal, digestive, cardiovascular, cutaneous, respiratory, urogenital, nervous, and endocrine systems and the special senses.</td>
</tr>
<tr>
<td>VM 140</td>
<td>Pharmacology for Veterinary Technicians</td>
<td>Fall. 2(2-0) P: MTH 103 or MTH 110 or MTH 116 or MTH 124 or MTH 132 R: Approval of college.</td>
<td>Fundamentals of characteristics, classification and usage of veterinary pharmaceuticals. Introduction to and application of dosage and formulation calculations.</td>
</tr>
<tr>
<td>VM 150</td>
<td>Hospital Procedures and Communication</td>
<td>Fall. 2(2-0) R: Approval of college. C: VM 110 concurrently and VM 140 concurrently.</td>
<td>Development of various modalities of professional and client communication skills.</td>
</tr>
<tr>
<td>VM 160</td>
<td>Veterinary Technology Careers and Professional Development</td>
<td>Spring. 1(1-0) R: Approval of college.</td>
<td>Career options in veterinary technology, discussion of professional, ethical and legal considerations. Portfolio development, resume and cover-letter writing skills.</td>
</tr>
<tr>
<td>VM 170</td>
<td>Hematology and Immunology for Veterinary Technicians</td>
<td>Spring. 2(2-0) P: VM 250 and VM 110 C: VM 175 concurrently.</td>
<td>Structure and function of normal blood cells, cellular and humoral immunity, mechanisms of hemostasis, blood group serology, transfusion medicine and vaccination.</td>
</tr>
<tr>
<td>VM 175</td>
<td>Clinical Pathology Laboratory I for Veterinary Technicians</td>
<td>Spring. 1(0-2) P: VM 110 and VM 250 C: VM 170 concurrently.</td>
<td>Veterinary clinical pathology laboratory including diagnostic procedures in hematology, serology and ELISA methodology.</td>
</tr>
<tr>
<td>VM 176</td>
<td>Clinical Pathology Laboratory II for Veterinary Technicians</td>
<td>Fall. 1(0-2) P: VM 175 Comprehensive veterinary clinical pathology laboratory, including diagnostic procedures in urology, dermatology, cytology, and advanced methods in hematology.</td>
<td></td>
</tr>
<tr>
<td>VM 205</td>
<td>Preventive Animal Health Care for Veterinary Technicians</td>
<td>Spring. 3(3-0) P: VM 150 and VM 110 Development of husbandry techniques to enhance wellness and reduce the risk of disease, injury and stress in common domestic and exotic animals.</td>
<td></td>
</tr>
<tr>
<td>VM 210</td>
<td>Surgical Nursing for Veterinary Technicians</td>
<td>Fall. 2(1-1) P: VM 160 and VM 130 and VM 250 R: Approval of department. C: VM 215 concurrently and VM 303 concurrently.</td>
<td>Role of the veterinary technician as a member of the veterinary surgical team.</td>
</tr>
<tr>
<td>VM 215</td>
<td>Surgical Nursing and Anesthetic Management Laboratory</td>
<td>Fall. 1(0-4) P: VM 160 and VM 130 and VM 250 C: VM 210 concurrently and VM 303 concurrently.</td>
<td>Principles and techniques in veterinary surgical nursing and anesthesia.</td>
</tr>
<tr>
<td>VM 220</td>
<td>Parasitology for Veterinary Technicians</td>
<td>Spring. 2(1-2) P: VM 140 and VM 176 and VM 205 RB: VM 250 Parasites of veterinary and public health importance, including gross and microscopic morphology, transmission, and control.</td>
<td></td>
</tr>
<tr>
<td>VM 225</td>
<td>Veterinary Comparative Clinical Physiology</td>
<td>Fall. 2(1-2) P: {Completion of Tier I Writing Requirement and (BS 161 and BS 171)} or LB 145 R: Approval of college. C: VM 130 concurrently.</td>
<td>Function, regulation, and integration of organs and organ systems of common domestic species. Concepts with clinical relevance.</td>
</tr>
<tr>
<td>VM 250</td>
<td>Veterinary Comparative Clinical Physiology</td>
<td>Fall. 2(1-2) P: {Completion of Tier I Writing Requirement and (BS 161 and BS 171)} or LB 145 R: Approval of college. C: VM 130 concurrently.</td>
<td>Function, regulation, and integration of organs and organ systems of common domestic species. Concepts with clinical relevance.</td>
</tr>
<tr>
<td>VM 255</td>
<td>Small Animal Diseases and Management</td>
<td>Fall. 3(3-0) P: VM 160 and VM 170 and VM 250 and VM 175 Pathophysicsiology, transmission, diagnostic process, clinical management and prevention of canine and feline diseases.</td>
<td></td>
</tr>
<tr>
<td>VM 265</td>
<td>Dentistry Techniques for Veterinary Technicians</td>
<td>Spring. 1(0-4) P: VM 215 and VM 210 and VM 303 Veterinary dental techniques and oral cavity assessment for companion animals.</td>
<td></td>
</tr>
<tr>
<td>VM 270</td>
<td>Advanced Skills Development for Veterinary Technicians</td>
<td>Spring. 1(0-3) P: VM 210 and VM 215 and VM 303 Service-oriented approach to health care development in an operational animal care facility.</td>
<td></td>
</tr>
<tr>
<td>VM 275</td>
<td>Large Animal Diseases and Management</td>
<td>Spring. 3(3-0) P: VM 165 and VM 250 Diseases, husbandry, preventative health care and client education for equine and food animal species.</td>
<td></td>
</tr>
<tr>
<td>VM 290</td>
<td>Special Studies in Veterinary Medicine</td>
<td>Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Approval of college.</td>
<td>Faculty-directed individual study on an experimental, theoretical or applied problem. May involve a supervised off-campus experience.</td>
</tr>
<tr>
<td>VM 295</td>
<td>Biomedical Research and Regulatory Issues for Veterinary Technologists</td>
<td>Fall. 1(1-0) P: VM 150 and VM 205 Principles and techniques of biomedical research, governance and regulation of animal care and use.</td>
<td></td>
</tr>
<tr>
<td>VM 304</td>
<td>Radiology for Veterinary Technicians</td>
<td>Spring. 2(1-2) P: VM 110 and VM 130 Production of radiographs, components of the x-ray machine, use of screens and grids, handling film, imaging quality, film processing, patient positioning, and radiation safety.</td>
<td></td>
</tr>
<tr>
<td>VM 305</td>
<td>Hospital Practice Management for Veterinary Technologists</td>
<td>Spring. 2(2-0) P: VM 150 Veterinary practice economics, personnel management, inventory control and marketing techniques.</td>
<td></td>
</tr>
<tr>
<td>VM 310</td>
<td>Advanced Clinical Pathology Techniques</td>
<td>Spring. 1(0-2) P: VM 176 and VM 255 Advanced cytologic techniques including sample collection, processing and evaluation.</td>
<td></td>
</tr>
<tr>
<td>VM 337</td>
<td>Introduction to Foodborne Pathogens</td>
<td>Fall, Summer. 3(3-0) R: Open to graduate students in the Food Safety Major or approval of department. Microbial classification, growth, genetics, epidemiology, transmission and ecology of major food and waterborne pathogens including bacteria, viruses, parasites, prions and protozoa.</td>
<td></td>
</tr>
</tbody>
</table>
Veterinary Medicine—VM

369 Introduction to Zoo and Aquarium Science
Fall, Spring. 3(3-0) Interdepartmental with Fisheries and Wildlife and Landscape Architecture and Zoology. Administered by Zoology. P: BS 162 or LB 144 or BS 182H. Fundamentals of zoo and aquarium operations including research, interpretation, design, nutrition, captive breeding, conservation, ethics and management.

410 Veterinary Technology Clerkship in Anesthesiology
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 275 and VM 245 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in anesthesiology.

411 Veterinary Technology Clerkship in Radiology
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 275 and VM 245 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in radiology.

412 Veterinary Technology Clerkship in Companion Animal Medicine
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 275 and VM 245 and VM 304 RB: Completion of preclinical course work. Application of principles and techniques in restraint, examination, nursing care, monitoring, and preventive medicine of companion animals.

413 Veterinary Technology Clerkship in Companion Animal Surgery
Fall, Spring, Summer. 3 to 6 credits. P: VM 270 and VM 275 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in surgical nursing.

414 Veterinary Technology Clerkship in Equine Medicine and Surgery
Fall, Spring. 3 to 6 credits. P: VM 270 and VM 275 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in equine medicine and surgery.

415 Veterinary Technician Clerkship in Food Animal and Equine Medicine and Surgery
Fall, Spring. 3 to 6 credits. P: VM 270 and VM 275 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in food animal and equine medicine and surgery.

450 Veterinary Technology Clerkship in Emergency Medicine
Fall, Spring. 3 credits. P: VM 412 RB: (VM 410 and VM 411 and VM 413) and Completion of preclinical coursework. Application of principles and techniques in emergency medicine.

451 Veterinary Technology Clerkship in Cardiology
Fall, Spring, Summer. 3 credits. P: VM 412 RB: (VM 410 and VM 411 and VM 413) and Completion of preclinical coursework. Application of principles and techniques in cardiology.

452 Veterinary Technology Clerkship in Neurology
Fall, Spring, Summer. 3 credits. P: VM 412 RB: (VM 410 and VM 411 and VM 413) and Completion of preclinical coursework. Application of principles and techniques in neurology and physical therapy.

453 Veterinary Technology Clerkship in Ophthalmology
Fall, Spring, Summer. 3 credits. P: VM 412 and VM 413 RB: (VM 410) and Completion of preclinical coursework. Application of principles and techniques in ophthalmology.

454 Veterinary Technology Clerkship in Critical Care
Fall, Spring, Summer. 3 credits. P: VM 412 RB: (VM 410 and VM 411 and VM 413) and Completion of preclinical coursework. Application of principles and techniques in critical care.

455 Veterinary Technology Clerkship in Companion Animal Oncology
Fall, Spring, Summer. 3 credits. P: VM 412 and VM 413 RB: Completion of preclinical coursework. Application of principles and techniques in companion animal oncology.

456 Veterinary Technology Clerkship in Companion Animal Physical Rehabilitation
Fall, Spring, Summer. 3 credits. P: VM 412 RB: Completion of preclinical course work. Application of principles and techniques of companion animal physical rehabilitation, particularly those animals recovering from orthopedic and neurologic injuries and surgeries.

457 Veterinary Technology Clerkship in Companion Animal Diagnostic Ultrasound
Fall, Spring, Summer. 3 credits. P: VM 411 RB: Completion of preclinical coursework. Application of principles and techniques of diagnostic ultrasound.

466 Veterinary Technology Clerkship in Large Animal Anesthesia
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques of food animal and equine anesthesiology.

470 Veterinary Technology Clerkship in Food Animal Medicine
Fall, Spring. 3 to 6 credits. P: VM 270 and VM 275 and VM 304 RB: Completion of preclinical coursework. Application of principles and techniques in food animal medicine.

480 Veterinary Technology Clerkship in Clinical Pathology
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 275 and VM 303 and VM 245 RB: Completion of preclinical coursework. Application of principles and techniques in clinical pathology.

482 Veterinary Technology Clerkship in Necropsy
Fall, Spring, Summer. 3 credits. P: VM 270 and VM 275 and VM 303 and VM 245 RB: Completion of preclinical coursework. Application of principles and techniques in postmortem examination of common domestic species with emphasis on specimen description, collection, and submission.

483 Veterinary Technology Clerkship in Biomedical Research
Fall, Spring, Summer. 3 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. P: VM 270 and VM 275 and VM 303 and VM 304 and VM 245 RB: (VM 410 and VM 482) and Completion of preclinical coursework. Application of principles and techniques in biomedical research involving laboratory animals.

484 Veterinary Technology Clerkship in Zoo and Wildlife Medicine
Fall, Spring, Summer. 3 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. P: VM 270 and VM 275 and VM 303 and VM 304 and VM 245 RB: (VM 410) or Completion of preclinical coursework. Application of principles and techniques in zoo and wildlife medicine.

486 Veterinary Technology Clerkship in Clinical Parasitology
Fall, Spring, Summer. 3 credits. P: VM 245 RB: Completion of preclinical coursework. Application of principles and techniques in clinical parasitology.

487 Veterinary Technology Clerkship in Dermatology
Fall, Spring, Summer. 3 credits. P: VM 412 RB: Completion of pre-clinical course work. Application of principles and techniques in dermatology.

490 Veterinary Technology Clerkship in Special Problems
Fall, Spring, Summer. 3 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. P: VM 270 and VM 275 and VM 303 and VM 304 and VM 245 RB: Completion of preclinical coursework. Application of principles and techniques in experimental, therapeutic, or laboratory medicine.

511 Clinical Competencies I
Fall. 2(1-2) R: Open to graduate-professional students in the College of Veterinary Medicine. Introduction to history taking, physical examination, and techniques associated with examination of various species.

513 Ethical and Animal Welfare Issues in the Veterinary Profession
Fall. 2(1-2) R: Open to graduate-professional students in the College of Veterinary Medicine. Identifying and communicating ethical challenges and animal welfare issues in the veterinary profession.
514 Comparative Lifesstage Nutrition Spring...1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine. Nutritional assessment and management of the physiological stages of growth. Adult maintenance, gestation, lactation, performance, and geriatric concerns of common domestic species.

524 Basic Science in Clinical Medicine Spring...1(0-2) R: Open to graduate-professional students in the College of Veterinary Medicine. Integration of information learned in basic science courses by application to clinical cases.

532 Veterinary Integrative Problem Solving Fall...2(2-0) RB: Completion of Year 1 in the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Integration of subject material from concurrent and previous courses using a problem-based learning format.

533 Veterinary Epidemiology Fall...3(3-0) RB: Completion of Year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Basic epidemiologic theory and study design. Veterinary descriptive and inferential biostatistics. Production veterinary medicine.

541 Veterinary Career Development and Practice Management Spring...2(2-0) R: Open to graduate-professional students in the College of Veterinary Medicine. Foundations of career development and practice management skills.

542 Cardiovascular Diseases Spring...2(2-0) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Cardiovascular diseases of domestic animals. Pathogenesis, diagnosis, and treatment.

544 Veterinary Public Health Fall...2(2-0) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Veterinary environmental, occupational, and public health. Milk and meat hygiene. Control of zoonotic diseases.

545 Principles of Anesthesia and Surgery Spring...4(3-2) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Administering anesthetic agents. Fundamentals of surgery including sterile technique, tissue handling, suture patterns, wound healing, and postoperative care.

546 Musculoskeletal Diseases Spring...4(4-0) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Musculoskeletal diseases of domestic animals. Pathogenesis, diagnosis, and treatment.

547 Respiratory Diseases Fall...2(2-0) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Respiratory diseases of domestic animals. Pathogenesis, diagnosis, and treatment.

548 Principles of Diagnostic Imaging Spring...1(0-2) R: Open to graduate-professional students in the College of Veterinary Medicine. Basic principles of diagnostic imaging including radiographic physics, safety, interpretive principles and normal veterinary anatomy.

549 Applied Diagnostic Imaging Fall...1(0-2) RB: Completion of Year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Radiographic interpretation. Recognition of abnormalities. Development of verbal skills in image interpretation. Alternate imaging modalities.

552 Theriogenology and Urinary Diseases Fall...5(4-2) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Urogenital diseases of domestic animals. Pathogenesis, diagnosis, and treatment.

553 Hematological, Oncological and Dermatological Diseases Fall...3(3-0) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Hematological, oncological and dermatological diseases of domestic animals. Pathogenesis, clinical presentation, diagnosis, and treatment.

555 Neurological and Ophthalmological Diseases Fall...3(3-0) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Neurological and ophthalmological diseases of domestic animals. Pathogenesis, diagnosis, and treatment.

557 Operative Surgery Fall...2(1-3) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Soft tissue and orthopedic surgery of domestic animals. Preoperative evaluation, surgery, and postoperative care.

558 Digestive Diseases of Domestic Animals Fall...3(3-0) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Digestive diseases of domestic animals. Diagnosis, therapy, prophylaxis, and management.

559 Metabolic and Endocrinological Diseases Fall...2(2-0) RB: Completion of Year 1 in the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Pathogenesis, diagnosis, and treatment of metabolic and endocrinologic diseases of domestic animals.

561 Private Practice Ownership Spring...1(1-0) R: Open to graduate-professional students in the College of Veterinary Medicine. Demographic studies, business entities, financing, leadership, business and marketing plans, and entrepreneurial ownership considerations when starting a practice or buying an existing practice.

611 Veterinary Externship Fall...3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to graduate-professional students in the College of Veterinary Medicine. Individual study directed by a faculty member on an experimental, theoretical, or applied problem. May involve off-campus experience in a preceptorial mode.

690 Special Problems in Veterinary Medicine Fall...1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate-professional students in the College of Veterinary Medicine. Individual study directed by a faculty member on an experimental, theoretical, or applied problem. May involve off-campus experience in a preceptorial mode.

810 Food Safety Introduction and Professional Management Fall...2(2-0) RB: Completion of year 1 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students who have completed semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. Development of leadership, business and interpersonal skills, career planning, and goal setting.

811 Evolution and Ecology of Foodborne Pathogens Fall...3 credits. R: Open to masters students in the Food Safety major or approval of college. Evolution of foodborne pathogens. Ecology of microbial organisms found in the food chain from introduction through human consumption.
Veterinary Medicine—VM

812 Food Safety Toxicology
Fall, Spring. 3 credits. R: Open to masters students in the Food Safety major or approval of college.

813 Special Studies in Food Safety
Fall, Spring. Summer. 1 to 3 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Open to masters students in the Food Safety major or approval of college. Faculty supervised independent study on an experimental, theoretical or applied project. May involve on-campus or off-campus experience.

814 Packaging for Food Safety
Summer. 3 credits. Interdepartmental with Packaging. Administered by Veterinary Medicine. RB: Enrollment in graduate program in related field. R: Open to masters students in the Food Safety major and open to graduate students in the Packaging major or approval of college.
Current issues in packaging and food safety.

815 Applied Project in Food Safety
Fall, Spring. Summer. 3 credits. P: VM 810 or approval of college. R: Open to masters students in the Food Safety major or approval of college. Faculty directed student project.

817 Pre-Harvest Food Safety
Spring. 3 credits. RB: Enrollment in graduate program in related field. R: Open to masters students in the Food Safety Major or approval of college.
Principles for improvement of pre-harvest food safety. Emphasis on microbial, chemical, and toxic hazards. Strategies to reduce pre-harvest risks in many food production species.

820 Current Topics in Comparative Medicine and Integrative Biology
Fall, Spring. 1 to 2 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Enrollment in graduate-professional program or graduate program in the biomedical sciences. R: Open to graduate students in the College of Veterinary Medicine.
Topics in comparative medicine using recently published literature to illustrate concepts.

821 Food Protection and Defense
Fall. 3 credits. Interdepartmental with Criminal Justice. Administered by Veterinary Medicine. R: Open to graduate students in the College of Veterinary Medicine or in the Food Safety major or in the Veterinary Medicine or in the Criminal Justice major or approval of college.
Food systems and criminal justice approaches to prepare for and solve issues relating to food safety and defense.

822 International Veterinary Medicine
Spring. 3(3-0) RB: Professional or graduate status with knowledge of animal production or animal health. R: Open to masters students or graduate-professional students or lifelong graduate students in the College of Veterinary Medicine or in the Food Safety major or in the Large Animal Clinical Sciences major. Approval of college.
Global burden of animal and zoonotic diseases. Regulations for animal health and animal trade internationally. Comparative approaches for animal health management.

824 Global Food Safety
Spring. 3(3-0) RB: Professional or graduate status with knowledge of food safety. R: Open to graduate students in the Food Safety major or approval of college.
Understanding food safety challenges in different geographic regions. Development of interventions for food safety in a global context.

825 Quantifying Food Risk
Fall. 3(3-0) R: Open to masters students or graduate-professional students in the College of Veterinary Medicine or in the School of Criminal Justice or in the School of Packaging or in the Food Safety major or approval of college.
Food risks based on quality, safety, fraud and intentional threats.

826 Creating a Food Safety Culture
Summer. 3(0-3) R: Open to graduate students in the Food Safety Major. Approval of college.
Explores proven, evidence-based ways to change or strengthen the food safety culture of an organization and influence employee behavior.

827 Food Safety Modernization Act and Hazard Analysis and Critical Control Point Systems
Spring. 3(3-0) RB: Professional or graduate status with knowledge of food safety. R: Open to graduate students in the Food Safety Major. Approval of college.
Food safety requirements for food establishments subject to the Food Safety Modernization Act. Food safety management systems, with a focus on Hazard Analysis and Critical Control Points (HACCP) Approach.

828 Food Safety Seminar Series
Fall, Spring. 1(1-0) Interdepartmental with Agriculture and Natural Resources and Natural Science and Social Science. Administered by Veterinary Medicine. RB: Enrollment in graduate program in related discipline
Selected recent topics covering the broad areas of food safety as they relate to production, processing, transport, microbiology, toxicology, and social and human dimensions.

830 Food Safety Research Methods
Fall, Summer. 3(3-0) R: Open to graduate students in the College of Veterinary Medicine or approval of college.
Conducting and interpreting food safety research. Interpretation and critique of the literature, study design, and communication of food safety research.

831 Foodborne Disease Epidemiology for the Professional
Fall, Summer. 3(3-0) R: Open to masters students in the Food Safety major or approval of college.
Applied foodborne disease investigation through the use of case studies.

832 Food Safety Disease Control
Summer. 3(3-0) R: Open to graduate students in the Food Safety major or approval of college.
Applied approaches to food borne disease control using case studies.

835 Food Safety for Produce
Fall. 3(3-0) R: Open to graduate students in the Food Safety Major or approval of department.
Overview of food safety requirements for the produce sector with a focus on Good Agriculture Practices (GAPs).

840 Anti-Counterfeit Strategy and Product Protection
Summer. 3(3-0) Interdepartmental with Criminal Justice and Packaging. Administered by Veterinary Medicine. R: Open to graduate students in the School of Criminal Justice or in the School of Packaging or in the Food Safety Major or approval of department.
Theory and applied techniques for anti-counterfeit strategies and product protection for food and consumer products.

899 Master's Thesis Research
Fall, Spring, Summer. 1 to 10 credits. A student may earn a maximum of 18 credits in all enrollments for this course.
Masters thesis research.

999 Doctoral Dissertation Research
Fall, Spring. Summer. 1 to 36 credits. A student may earn a maximum of 36 credits in all enrollments for this course.
Doctoral dissertation research.
