An introduction to international finance for students in the Master of Science in International Business program. Topics include the time value of money, exchange rates, international parity conditions, currency risk management, risk and return, capital budgeting, and cost of capital.

821A Cross Section and Panel Data Econometrics I
Fall. 3(3-0) Interdepartmental with Agricultural Economics and Economics and Statistics and Probability. Administered by Economics. P: EC 820B SA: EC 821

Analyses of systems of equations, panel data models, instrumental variables and generalized method of moments, M-estimation, quantile regression, maximum likelihood estimation, binary and multinomial response models, Tobit and two-part models, and other selected topics.

821B Cross Section and Panel Data Econometrics II
Spring. 3(3-0) Interdepartmental with Agricultural, Food, and Resource Economics and Economics and Statistics and Probability. Administered by Economics. P: EC 821A

Analyses of quasi-maximum likelihood estimation, count data models, fractional response models, duration models, sample selection and attrition, stratified sampling, estimating treatment effects, stochastic frontier models, and other advanced topics.

822A Time Series Econometrics I
Fall. 3(3-0) Interdepartmental with Agricultural Economics and Economics and Statistics and Probability. Administered by Economics. P: EC 820B SA: EC 822

Analyses of time series regression, stationary time series analysis, ARMA models, Wold decomposition, spectral analysis, vector autoregressions, generalized method of moments, functional central limit theorem, nonstationary time series, unit root processes, cointegration, and other advanced topics.

822B Time Series Econometrics II
Spring. 3(3-0) Interdepartmental with Agricultural Economics and Economics and Statistics and Probability. Administered by Economics. P: EC 822A

Analyses of multivariate time series, series volatility models, long memory, nonlinear time series models, and other advanced topics.

844 Corporate Financial Strategies
Fall. 1 to 3 credits. P: MBA 832 or approval of department RB: FI 851 or FI 845 R: Open to MBA students or approval of department.

Applying financial strategies to managerial decision making.

845 Financial Modeling and Simulation I
Fall. 1 to 3 credits. P: MBA 832 or approval of department RB: FI 851 R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Applications of financial theory through computer modeling. Financial forecasting, cash flow modeling, and valuation.

846 Financial Modeling and Simulation II
Fall. 1 to 3 credits. P: FI 845 or approval of department RB: FI 851 R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Application of financial theory through computer modeling. Portfolio optimization, risk measurement, and option pricing.

847 Corporate Strategies and Risk Management
Fall. 1 to 3 credits. P: FI 844 RB: FI 845 and FI 851 R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Identifying corporate strategies to help manage business, financing, and competitive risks. Case studies.

850 Introduction to Investments I
Spring. 1 to 3 credits. P: MBA 832 or approval of department R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Essential financial theories and quantitative tools related to the field of investments. Topics include behavior and distribution of stock returns, mean-variance optimization model of portfolio selection, basic asset pricing theories and market efficiency.

851 Introduction to Investments II
Spring. 1 to 3 credits. P: FI 850 or approval of department R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Investment management, portfolio performance evaluation, active portfolio management, essentials of bonds and derivatives, and essentials of international diversification.

852 Financial Derivatives I
Spring. 1 to 3 credits. P: FI 851 or approval of department R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Introduction to pricing, trading strategies, and hedging applications of forward and futures contracts, swaps, and options.

853 Debt and Money Instruments and Markets
Fall. 1 to 3 credits. P: MBA 832 and FI 851 or approval of department R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Fixed-income security markets. Valuation of traded instruments.

854 Fixed Income Instruments
Fall. 1 to 3 credits. P: FI 853 or approval of department R: Open to master’s students in the Finance major and open to MBA students.

Advanced fixed income security models. Valuation of instruments traded using derivative securities pricing.

855 Financial Derivatives II
Spring. 1 to 3 credits. P: FI 851 and FI 852 or approval of department R: Open to master’s students in the Finance major and open to MBA students.

Derivatives pricing and applications to corporate securities, structured products, and credit default swaps.

857 Security Analysis and Portfolio Management
Fall, Spring. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. P: FI 851 R: Open to master’s students in the Finance major and open to MBA students.

859 Mergers and Acquisitions
Spring. 1 to 3 credits. P: MBA 832 or FI 801 R: Open to master’s students in the Finance major and open to MBA students or approval of department.

Provides a broad overview of corporate mergers and acquisitions from the finance perspective.
860 Multinational Corporate Finance  
Fall. 1 to 3 credits. P: MBA 832 or approval of department R: Open to master's students in the Finance major and open to MBA students or approval of department.  
Corporate financial management in a multinational setting.

861 International Financial Markets and Risk Management  
Fall. 1 to 3 credits. P: MBA 832 or approval of department R: Open to master's students in the Finance major and open to MBA students.  
Financial investments and risk management in a multinational setting.

862 Corporate Strategy Valuation  
Spring. 1 to 3 credits. P: MBA 832 or approval of department R: Open to master's students in the Finance major and open to MBA students or approval of department.  
Measuring and managing the valuation of corporate strategies.

863 Corporate Restructuring and Governance  
Spring. 1 to 3 credits. P: (MBA 832 or FI 801) and FI 859 R: Open to master's students in the Finance major and open to MBA students.  
Provides a broad overview of mergers, corporate restructuring, divestitures and bankruptcy from the finance perspective.

865 Corporate Real Options Valuation  
Spring. 1 to 3 credits. P: MBA 832 or approval of department R: Open to master's students in the Finance major and open to MBA students.  
Application of the real options methodology to analyze practical problems in corporate finance.

869 Entrepreneurial Finance and Venture Capital  
Spring. 1 to 3 credits. P: MBA 832 or FI 801 R: Open to master's students in the Finance major and open to MBA students.  
Introduction to the financing and valuation of entrepreneurial startups, venture capital and private equity. How to prepare a successful business plan to raise financing from venture capitalists. Structuring venture capital and private equity deals.

870 Venture Capital and Private Equity  
Spring. 1 to 3 credits. P: (MBA 832 or FI 801) and FI 869 R: Open to master's students in the Finance major and open to MBA students or approval of department.  

877 Functions and Management of Financial Institutions  
Spring. 1 to 3 credits. P: MBA 832 or FI 801 or approval of department R: Open to master's students in the Finance major and open to MBA students or approval of department.  
Origin, nature, structure, and management of financial institutions. Products and services offered, risks, and strategies. Applications in domestic and international settings.

878 Commercial Bank Management  
Spring. 1 to 3 credits. P: MBA 832 or FI 801 or approval of department R: Open to master's students in the Finance major and open to MBA students.  
Origin, nature, structure, and management of commercial banking. Products and services offered, risks, and strategies. Applications in domestic and international settings.

877 Functions and Management of Financial Institutions  
Spring. 1 to 3 credits. P: MBA 832 or FI 801 or approval of department R: Open to master's students in the Finance major and open to MBA students or approval of department.  
Origin, nature, structure, and management of financial institutions. Products and services offered, risks, and strategies. Applications in domestic and international settings.

890 Independent Study  
Fall, Spring. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: MBA 832 R: Open to graduate students in the Eli Broad College of Business and The Eli Broad Graduate School of Management. Approval of department.  
Faculty-guided research projects.

891 Topics In Finance  
Fall of even years. 1 to 3 credits. A student may earn a maximum of 9 credits in all enrollments for this course. P: (FI 801 or MBA 832) or (PIM 841 and PIM 842)  
Current and emerging issues in corporate finance, investments, and financial modeling to supplement and enrich existing courses.

980 Theory of Finance  
Fall. 3(3-0) R: Open only to doctoral students in the College of Business or approval of department.  
Introduction to the financial theory of the firm. Theoretical models dealing with capital structure, cost of capital, dividend policy and leasing.
