Michigan State University
College of Agriculture and Natural Resources
Institute of Agricultural Technology and Delta College

CONSORTIUM AGREEMENT
Updated 6/21/2021

Michigan State University's College of Agriculture and Natural Resources ("MSU CANR") and Delta College, pursuant to this Consortium Agreement (the "Agreement"), agree to provide inter-institutional instructional programs in Food Processing, Technology and Safety Certificate and Associate of Applied Science (AAS) in Agricultural Technology (each a "Program" and collectively, the "Programs"). The specific courses and requirements for the Programs are outlined in Appendix A (MSU IAT Certificates, additional AAS requirements). The inter-institutional understanding includes the following major points:

A. Both Parties Desire to Enhance Agriculture, Food and Natural Resources Post-Secondary Education in Michigan and Increase Student Access to Such Educational Opportunities

MSU CANR and Delta College shall use reasonable efforts to:

1. Engage in an inclusive planning process to enhance post-secondary educational opportunities and student recruitment in the agriculture, food and natural resources disciplines.
2. Identify and recruit potential partners and sponsors of agriculture, food and natural resources programs.
3. Identify resource needs related to future programming.
4. Foster connections and partnerships with stakeholders that enhances post-secondary agriculture, food and natural resources education.

B. Certificate Program

MSU CANR, with instructional coordination provided by its Institute of Agricultural Technology ("IAT"), will offer coursework that, combined with credits from Delta College, will allow students to complete a certificate program in in Food Processing, Technology and Safety.

1. MSU will provide students with a schedule of MSU courses needed to complete a certificate in the respective Programs (see Appendix A for list of MSU courses).
2. Delta College will provide the coursework that students must complete in addition to the MSU courses required to earn a certificate in the respective Programs, including developmental and prerequisite coursework, and student tutoring in necessary (see Appendix A and A2 for list of Delta College courses). Students must earn a minimum grade of 2.0 in all Delta College courses that are to be transferred to MSU for completion of a certificate program.

C. Associate of Applied Science in Agricultural Technology

1. Delta College will offer an Associate of Applied Science in Agricultural Technology for those students who wish to add an AAS degree to an MSU certificate. Delta College agrees to accept all MSU Certificate coursework in transfer toward the AAS in where the grade is a 2.0 or better to be awarded an associate degree at Delta College, students must complete all required coursework, with at least 24 credits of coursework at Delta College, and program requirements for the AAS.
2. MSU CANR will keep its course equivalencies up-to-date in Transfer MSU (http://transfer.msu.edu/) and will provide Delta College with curriculum guidelines, as needed, beyond those found in the MSU Academic Programs catalog (http://www.reg.msu.edu/AcademicPrograms/Print.asp?Section=1440).

D. Michigan State University College of Agriculture and Natural Resources Program Coordinator
1. MSU CANR agrees to designate a coordinator for the Institute of Agricultural Technology Program (the “MSU Coordinator”) for the purpose of student recruitment, curriculum coordination, workplace internship placements, certificate coursework review, academic advising assistance, support to students participating in the Program and work with the Delta College-MSU Food Processing, Technology and Safety stakeholder groups.

2. Delta College shall reimburse MSU CANR 50% of the MSU Coordinator’s annual salary and fringe benefits costs. Delta College shall make the reimbursement payment to MSU CANR within 30 days of receiving an invoice detailing such payments. Delta College agrees that its reimbursement of the MSU Coordinator’s annual salary and fringe benefits shall remain in effect for all periods covered by this Agreement.

3. MSU CANR shall be responsible for supervising and evaluating the MSU Coordinator. A representative of Delta College shall participate in the selection and annual evaluations of the MSU Coordinator; however, MSU CANR shall have final decision-making responsibility.

E. Community College Program Representative and Academic Advisor

1. Delta College agrees to designate a representative (the “DELTA Representative”) to serve as a single point of contact for the MSU Coordinator and for prospective students in the Programs. The DELTA Representative, working together with the MSU Coordinator, will coordinate inter-institutional communication and information regarding admissions and enrollment status, financial application and verification (via MSU’s Student Information System), as well as course scheduling. The program coordinator will serve as the academic advisor, for both Delta College and IAT, to work directly with students in the program and industry partners to establish workplace internships.

F. Delta College and MSU College of Agriculture and Natural Resources’ Institute of Agricultural Technology Admissions, Dual Enrollment, Student Reporting and Financial Aid

1. Institute of Agricultural Technology students shall apply simultaneously for admission to both Delta College and the IAT Program offered by MSU, permitting them to enroll in the required coursework offered by both institutions. Fundamental to the effective and efficient administration of the Programs Delta College and MSU is the need to regularly share information, including student records, between the institutions. To that end, MSU and Delta College agree to share academic and other information, concerning dually enrolled students for the purpose of administering the Programs. Each institution agrees to comply with applicable law and regulations promulgated under the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. § 1232g et seq. regarding the use and redisclosure of any such records. All dually enrolled students will be notified that Delta College and MSU will disclose their student records to the other institution and students seeking dual enrollment shall be required to sign consent with respect to such disclosures (see Appendix B for the student consent form).

2. Prior to being admitted into Michigan State University (MSU) coursework Delta College (DELTA) will assume the responsibility of processing, awarding and disbursing financial aid for those students who qualify for aid. Accordingly, DELTA will be responsible for monitoring student eligibility, monitoring satisfactory academic progress, refund/repay calculations, record retention and reporting including the National Student Loan Data System (NSLDS) and Fiscal Operations Report and Application to Participate (FISAP).

When students are admitted to the Program at both institutions and begin MSU coursework, MSU will assume the responsibility of processing, awarding and disbursing financial aid, to the extent that the students are eligible at MSU for financial assistance as a part of the broad consortia commitment of the Program. MSU also will assume primary responsibility for monitoring student eligibility, monitoring satisfactory academic progress, refund/repay calculations, in addition to record retention and reporting the combined enrollment at both MSU and Delta College to the NSLDS and FISAP.
The guiding operational principle is that MSU will act as the home institution and Delta College as the host institution during the period of time the student is completing the requirements for the certificate program.

Once students complete the MSU certificate program, Delta College will then process the financial aid and monitor record retention and reporting including the NSLDS and FISAP for any student still matriculating at Delta College to complete the associate degree.

Under this Agreement, the responsibility for administering outside scholarships awarded to the student will be a shared arrangement. Generally, outside scholarship funds will be sent to and processed by MSU. In most cases, the administration of local promise zones will be processed by Delta College. MSU will be notified of any scholarship that is not processed by MSU.

The MSU IAT coordinator at Delta College will provide a list of students and the courses they are enrolled in for both MSU and Delta College to both financial aid offices at the beginning of the fall, winter, and summer semesters.

Financial aid refunds received by students through MSU must be used to help cover the costs of tuition, fees and other educational related expenses for coursework at Delta College.

As a practical matter, dually enrolled students who qualify for financial aid will receive aid through Delta College; federal law prohibits students from receiving aid through more than one institution. The MSU Coordinator and the Delta College Representative share the responsibility of counseling students on these financial aid matters and recommending appropriate academic schedules so that students sequentially qualify for aid.

Students will be eligible for scholarships from both MSU and Delta College.

G. Use of Classroom Facilities on the Delta College Campus (es) for Michigan State University the Programs

1. MSU and Delta College agree to cooperate in the use of classroom space and facilities. When MSU courses are offered on the campus(es) of Delta College, classroom usage fees and equipment (such as those used for Interactive Television or other distance learning technology) will be waived. If there is a need for a classroom facilitator to operate equipment, MSU will be responsible for those charges. MSU courses will be offered during normal operating hours of Delta College.

2. In the event of campus delays or closure, MSU courses will follow Delta College operational decisions.

3. The Delta College Office of Accessibility is available for collaboration on student accommodations, but if there is a need for student accommodations within an MSU course, MSU will be responsible for any charges associated with the accommodations. Delta College will be responsible for any accommodations and charges associated with accommodations as a part of any Delta College course.

4. Delta College will provide a distance learning technology system that is compatible to the MSU system. Systems available to MSU are SKYPE for Business, ZOOM, and ITV. If another system is required for compatibility, and agreement must be developed between MSU and Delta College prior to implementation.

5. Delta College will proctor MSU online course exams as needed in the Testing Center at no charge for students that are dually enrolled. Proctoring online courses must occur during Testing Center operational hours.

6. The MSU IAT Coordinator at Delta College will be provided a computer by MSU. However, the Coordinator will be provided access to the Delta College authenticated network.

7. Delta College will provide a docking station which includes:
The trailer pad needs to be able to handle the weight of 65,000 pounds. The weight of the trailer and its contents will never exceed this based on the trailer specs and the regulations we need to stay within while traveling throughout Michigan.

The trailer itself is 8.5 feet wide with a 4 foot bumpout on the drivers side (note the bump out is free standing, no legs). This means a 15 foot by 60 foot pad is needed to support the weight of the trailer. However, as seen by the drawing below, and attached when the stairs are extended the total width of the trailer increases to 21 feet, 2 inches. The stairs don’t need a pad to support their weight, but please factor this into the placement of the pad, with an overall width of 30 feet at a minimum required to allow users to leave and enter the stairs safely. The pad must also be able to be accessed from the front/back of the trailer.

Each of the 2 waste tanks will empty by 3 inch waste gates on the drivers side right ahead of the axels.

There will be a water inlet (3/4” minimum needs to be provided) on the drivers side right behind the axels.

The electrical connections will be on the drivers side, near the front, right under the generator.

H. Additional Certificate Programs

1. This Agreement serves as the operating agreement for any additional IAT certificate programs as agreed to by both parties. Additional program will be jointly agreed upon and an additional Agreement will need to be signed before additional programs can be implemented.

I. Program Review & Termination

1. These programs will be reviewed annually by representatives from both institutions using assessment criteria to be developed by both institutions during the one-year period after date this Agreement is signed.

2. Either Michigan State University or Delta College may terminate the Agreement at any time by notifying the other party in writing 90 days in advance. Should either party terminate the Agreement, any Delta College student who has become dually enrolled in one of the Programs prior to termination will be allowed to complete such Program within 2 years from the date of enrollment, subject to the payment of applicable course fees and compliance with applicable academic regulations.

3. This Agreement is valid for three (3) years from the last dated signature below. Prior to the expiration of this Agreement, the parties may modify, extend, or amend the Agreement in writing signed by authorized signatories of both parties.

Therefore, in support of the Programs, Michigan State University and Delta College are signatories to this Agreement, which will take effect upon the last dated signature below:

Requirements for Food Processing, Technology and Safety

Students must complete 34 credits from the following:

1. All of the following MSU courses (34 credits):

   ABM 100  Decision Making in the Agri-Food Systems  3 Cr
   AT 193  Agricultural Technology Clerkship  2 Cr
   AT 293  Professional Internship  3 Cr
   FSC 111  Foundational Concepts in Food Processing and Technology  3 Cr
   FSC 112  Seminar in Food Processing, Technology and Safety  1 Cr
   FSC 113  Basic Commodity Overview Food Processing and Technology  3 Cr
   FSC 114  Food Processing and Technology Facilities Management  3 Cr
   FSC 125  Food Processing and Technology Unit Operations  2 Cr
   FSC 240  Applied Food Processing and Technology Microbiology  2 Cr
   FSC 241  Safety Principles and Regulations in Food Processing and Technology  3 Cr
   FSC 242  Applied Food Processing and Technology Chemistry  2 Cr

2. Select two of the following courses (4 credits):

   FSC 230  Fruit and Vegetable Processing  2 Cr
   FSC 231  Cereals Processing  2 Cr
   FSC 232  Dairy Foods Processing  2 Cr
   FSC 233  Muscle Foods Processing  2 Cr

3. Complete a minimum of 3 elective credits in the College of Agriculture and Natural Resources as approved by the program coordinator in the Institute of Agricultural Technology.

4. Complete 26 credits of additional course work through the College of Agriculture and Natural Resources, a community college partner Delta College or an approved transferring institution. All course work must be approved by the program coordinator in the Institute of Agricultural Technology.
Requirements for Associate of Applied Science in Agricultural Technology Degree

TOTAL CREDITS REQUIRED FOR DEGREE = 64

1. Complete 34 credits from the College of Agriculture and Natural Resources at MSU as part of the Food Processing, Technology and Safety Program in the Institute of Agricultural Technology.

2. All of the following Delta College courses (30 credits total):
   - Natural Science Graduation Elective (5 Cr)
   - CHM 111-General & Inorganic Chemistry or CHM 101W-General Chemistry I
   - MTH 119-Intermediate Algebra or MTH 122-College Algebra (4 Cr)
   - COM 114-Interpersonal Communications (3 Cr)
   - ECN 221-Principals of Macroeconomics (4 Cr)
   - ENG 111-College Composition I (3 Cr)
   - PHL 203-Business Ethics or PHL 213-Introduction to Ethics (3 Cr)
   - LW223W-Wellness in Technical Trades (2 Cr)
   - Any Civic Foundation Course (3 Cr)
   - CST 134-Micro Computers in Business using MS Office (3-4 Cr)
Appendix B

Student Consent Form

My signature below indicates that I understand my enrollment in the Food Processing, Technology and Safety Program offered by Michigan State University (MSU) in cooperation with Delta College requires sharing of my student records at both institutions in order to provide advising, satisfy financial aid reporting requirements, and track progress toward and completion of the MSU IAT Certificate program.
