**COLLEGE OF ARTS AND LETTERS**

1. Establish a **Minor** in **Popular Culture Studies** in the Department of English. The University Committee on Undergraduate Education (UCUE) recommended approval of this request at its September 5, 2019 meeting.  

   a. **Background Information:**

      The Department of English has a concentration in Popular Culture Studies, which provides the basis for this minor. We seek to establish a minor in order to make this program accessible to other majors, who may not be able to add a double major in English to their programs of study but nonetheless wish to have a credential in popular culture studies. The popular culture studies minor is distinct from the comics minor in that the latter focuses on comics as a medium or expressive form, whereas popular culture, while it may include comics in its scope, goes beyond comics into multiple media (film, television, fiction, poetry, social media, online forums, etc.) Students may find the two minors complementary. The minor also complements a range of majors in the Arts and Humanities, as well as Communication Arts and Sciences.

      The minor draws on the extensive resources in MSU Libraries' Special Collections and other library collections (in, for instance, detective fiction, video games, comic art), offering students options to explore in depth the world-renowned resources available at MSU.

      MSU’s Department of English houses the *Journal of Popular Culture Studies* and has a strong faculty with significant national reputations in popular culture studies.

   b. **Academic Programs Catalog Text:**

      The Minor in Popular Culture Studies, which is administered by the Department of English, is designed to provide students opportunities for in-depth study of popular culture texts, trends, and topics across a range of media. The minor introduces critical approaches and methods of research in popular culture studies, as well as opportunities for practical experience with the *Journal of Popular Culture* or by engaging in scholarly conferences or public conference events that center on science fiction and fantasy, comics, gaming, and pop music. The minor draws on the extensive resources in MSU Libraries’ Special Collections and other library collections such as detective fiction, video games, and comic art, offering students options to explore in depth the world-renowned resources available at MSU.

      The minor is available as an elective to students who are enrolled in bachelor’s degree programs at Michigan State University other than the Bachelor of Arts degree in English with a concentration in Popular Culture Studies. With the approval of the department and college that administer the student’s degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor’s degree.

      Students who plan to apply to the program should consult the undergraduate advisor in the Department of English.

COLLEGE OF EDUCATION

1. Establish a Graduate Certificate in Teacher Leadership in the Department of Teacher Education. The University Committee on Graduate Studies (UCGS) recommended approval of this request at its September 9, 2019 meeting.

The Graduate Certificate in Teacher Leadership is a Type 2 graduate certificate and will appear on the transcript as "Graduate Certificate Program in Teacher Leadership".

a. Background Information:

The proposed graduate certificate in Teacher Leadership was initially precipitated by the Michigan Department of Education’s announcement of a new Michigan Advanced Professional Education Certificate that could be earned by practicing teachers in K-12 schools interested in contributing as leaders in their school communities. Students who earn the Michigan State University Graduate Certificate in Teacher Leadership would simultaneously work toward earning the Michigan Advanced Professional Education Certificate through the Michigan Department of Education.
MSU already has the capacity and curricular structure to offer this certificate program, including faculty and course work already housed in the Department of Teacher Education and the Educational Administration departments.

Students will be able to employ understandings and strategies for serving as leaders at the elementary or secondary level in a K-12 setting. The supporting objectives, in line with State of Michigan standards are: to prepare well qualified teacher leaders for Michigan and beyond; to provide relevant, online programming options for educators interested in building expertise in teacher leadership; to provide an opportunity for current teachers to qualify for two distinctions, the Michigan Advanced Professional Education Certificate through the Michigan Department of Education and the MSU Graduate Certificate in Teacher Leadership; to provide a possible pipeline for new students for the K-12 Educational Administration certification pathway program; and to provide a possible pipeline for doctoral students.

The program fits well with the philosophy and goals of the Department of Teacher Education.

b. Academic Programs Catalog Text:

The Graduate Certificate in Teacher Leadership prepares well-qualified teacher leaders for Michigan and beyond by providing relevant, online programming options for educators interested in building expertise in teacher leadership. Students who successfully complete the certificate will qualify for a Michigan Advanced Professional Education Certificate from the Michigan Department of Education. The certificate is available only online and is available to graduate students at Michigan State University. Student who wish to complete the certificate must complete the Intent to Enroll form on the program Web site.
